No. \_\_\_\_\_

**TESTIMONY ON SENATE BILL 2532, SENATE DRAFT 1  
RELATING TO PRISONS.**

by  
Max N. Otani, Director

House Committee on Corrections, Military and Veterans  
Representative Takashi Ohno, Chair  
Representative Sonny Ganaden, Vice Chair

Chair Ohno, Vice Chair Ganaden, and Members of the Committee:

The Department of Public Safety (PSD) supports the intent of Senate Bill (SB) 2532, Senate Draft (SD) 1, which would have PSD establish a working group to create a pilot program aimed at reducing recidivism. The measure would require the Department to contract with an educational institution to provide the business education component to inmates in the pilot program, and the working group would be required to provide a report of its findings and recommendations to the Legislature 20 days prior to the convening of the 2025 session. SB 2532, SD 1 replaced the original \$400,000 appropriation to PSD with a blank sum.

The Department welcomes support for programs that aid the education of offenders to increase their chances for success upon reentry to the community and thereby, reduce the rate of recidivism among released offenders.

Thank you for the opportunity to present this testimony.

## Legislative Testimony

---

Testimony Presented Before the  
House Committee on Corrections, Military, & Veterans  
Wednesday, March 16, 2022, at 10:00 a.m.

By

Debra J. Halbert, Associate Vice President for Academic Programs and Policy  
University of Hawai'i System

SB 2532 SD1 – RELATING TO PRISONS

Chair Ohno, Vice Chair Ganaden, and members of the committee:

Thank you for the opportunity to testify on SB 2532 SD1 relating to the establishment within the Department of Public Safety of a working group to reduce recidivism by providing business education to inmates.

The University of Hawai'i supports the intent of this effort for the reasons described in the bill and defers to the Department of Public Safety. Reducing recidivism and providing inmates with meaningful educational opportunities will positively benefit the citizens of Hawai'i and have a positive economic benefit for the state.

Thank you for the opportunity to submit testimony on this measure.

DAVID Y. IGE  
GOVERNOR

CRAIG K. HIRAI  
DIRECTOR

TO THE HOUSE COMMITTEE ON CORRECTIONS, MILITARY, & VETERANS  
ON  
SENATE BILL NO. 2532, S.D. 1

**March 16, 2022**  
**10:00 a.m.**  
**Room 430 and Videoconference**

RELATING TO PRISONS

The Department of Budget and Finance (B&F) offers comments on Senate Bill (S.B.) No. 2532, S.D. 1.

S.B. No. 2532, S.D. 1, does the following: 1) establish within the Department of Public Safety (PSD) a working group that shall create a pilot program designed to reduce recidivism by providing business, entrepreneurial, and financial literacy education to inmates; 2) authorize PSD to contract with an accredited post-secondary educational institution to provide incarcerated persons with high-quality instruction that meets the requirements of the pilot program; 3) require the working group to submit a report of its findings and recommendations to the Legislature no later than 20 days prior to the convening of the Regular Session of 2025; and 4) appropriate an unspecified amount of general funds to PSD for FY 23 for the pilot program. Similar programs are implemented in other states and jurisdictions, such as in Virginia and District Columbia, through the collaboration of various business schools and correctional centers. This bill is intended to reduce inmate costs and afford opportunities for the inmates to succeed after their release from incarceration.

B&F notes that, with respect to the general fund appropriation in this bill, the federal Coronavirus Response and Relief Supplemental Appropriations Act requires that states receiving Elementary and Secondary School Emergency Relief (ESSER) II funds and Governor's Emergency Education Relief II funds must maintain state support for:

- Elementary and secondary education in FY 22 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

Further, the federal American Rescue Plan (ARP) Act requires that states receiving ARP ESSER funds must maintain state support for:

- Elementary and secondary education in FY 22 and FY 23 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 and FY 23 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

The U.S. Department of Education has issued rules governing how these maintenance of effort (MOE) requirements are to be administered. B&F will be working with the money committees of the Legislature to ensure that the State of Hawai'i complies with these ESSER MOE requirements.

Thank you for your consideration of our comments.

HAWAII SUBSTANCE ABUSE COALITION

## **SB2532 SD1 Business Training for Offenders**

COMMITTEE ON CORRECTIONS, MILITARY, & VETERANS

Rep. Takashi Ohno, Chair

Rep. Sonny Ganaden, Vice Chair

Wednesday, Mar 16 2022: 10:00 am : Videoconference

### **Hawaii Substance Abuse Coalition Supports SB2532 SD1 With Recommendations:**

*ALOHA CHAIR, VICE CHAIR AND DISTINGUISHED COMMITTEE MEMBERS. My name is Alan Johnson. I am the current chair of the Hawaii Substance Abuse Coalition (HSAC), a statewide organization for substance use disorder and co-occurring mental health disorder treatment and prevention agencies.*

**Recommendation: A business education group would be best served if tailored to offenders according to a risk and assessment needs for behavioral health to determine different approaches based on level of severity for substance use disorders, mental health disorders and criminality.**

There are various levels of mild to chronic forms of substance use disorders, mental health disorders and even criminality. HSAC understands this very well since we treat all these issues for those who have chronic to severe levels.

The approach for mild is much different than the approach for chronic conditions.

- Moreover, research is clear that high risk offenders need to be separated from low-risk offenders in service activities, at least to start until established progress is made.

HSAC recommends that offenders need nationally standardized risk levels tools as well as screening and assessment tools before grouping offenders into various groups.

We appreciate the opportunity to provide testimony and are available for further questions.

## COMMITTEE ON CORRECTIONS, MILITARY, & VETERANS

Representative Takashi Ohno, Chair

Representative Sonny Ganaden, Vice Chair

Wednesday, March 16, 2022

10:00 AM

### SUPPORT - SB 2532 SD1 - BUSINESS EDUCATION

Aloha Chair Ohno, Vice Chair Ganaden and Members of the Committee!

My name is Kat Brady and I am the Coordinator of Community Alliance on Prisons, a community initiative promoting smart justice policies in Hawai'i for more than two decades. This testimony is respectfully offered on behalf HD1 of the more than 4,008 Hawai'i individuals living behind bars<sup>1</sup> under the "care and custody" of the Department of Public Safety on any given day. We are always mindful that 1,110 of Hawai'i's imprisoned people are serving their sentences abroad -- thousands of miles away from their loved ones, their homes and, for the disproportionate number of incarcerated Kanaka Maoli, far, far from their ancestral lands.

Community Alliance on Prisons appreciates the opportunity to support SB 2532 SD1 that increases educational opportunities for people in prison. It is important to present a range of educational opportunities to people inside so they can plan for their reentry upon release.

A survey done twenty years ago at WCCC found that the majority of incarcerated persons wanted college courses inside to help gain skills and knowledge so they can find employment upon release.

It is well-documented that education is the route out of poverty and a great strategy to reduce recidivism.

We respectfully ask the committee to pass SB 2532 SD1.

---

## **Resilience Education testimony**

**March 16, 2022**

**Hawaii Senate Bill 2532, S.D.1 - Relating to Prisons.**  
**House of Representatives - Committee on Corrections, Military & Veterans**

Dear Chairman Ohno and Vice Chairman Ganaden,

We are writing in support of Senate Bill 2532 SD1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill, as you know, establishes a pilot program to reduce recidivism through entrepreneurship, business and financial educational programs and initiatives. Resilience Education currently offers a program such as this in Virginia, in partnership with Darden Business School at the University of Virginia and the Virginia Department of Corrections.

One question often asked by MBA students, professors, Virginia lawmakers, and business owners is “Does your program work?” The evidence speaks for itself. For instance, our recidivism rate is lower than the state average in Virginia, and many of the men and women who earn a certificate from Resilience Education gain employment after release from prison. Evidence from other prison-based education programs sponsored by colleges and universities nationwide shows similar outcomes. In 2018, for example, RAND updated a report about a meta-analysis of research associated with academic and workforce programs inside U.S. prisons—spanning 37 years – which is the largest literature review of its type to date. The researchers concluded that incarcerated people who participate in correctional education, which includes a certificate program, have 28 percent lower odds of returning to prison than peers who did not participate in a program, and that a \$1 investment in correctional education reduces incarceration costs by \$4 to \$5 during the first three years of post-release<sup>1</sup>.

Another question asked of us is “Will incarcerated adults enroll in the course if it is offered to them?” The answer is “yes” based on over nine years of results from Resilience Education. Not

only will they enroll if offered an education program, but we also have seen nearly all complete it when provided the appropriate academic and professional support. This is true for other prison-based education programs. According to a 2021 report published by the Vera Institute of Justice, a total of 22,117 unique—or “unduplicated”—students enrolled in a postsecondary education program sponsored by Second Chance Pell Experimental Sites Initiative between 2016 and 2020. Among this group, more than 7,000 students have earned either a bachelor’s degree (540), an associate degree (3,035), or a career and technical certificate or diploma (3,499 – which accounts for nearly 50% of all postsecondary credentials earned)<sup>2</sup>.

By way of background, in 2011, Darden Dean Bob Bruner received a letter from an incarcerated man in Virginia, asking for assistance with business skills and a business plan so he could better support his teenage son post release. Darden didn’t have a solution to offer this man but Professor Greg Fairchild had an idea. What if he could deliver an entrepreneurship certificate course with MBA students inside a prison to help incarcerated people like this? The successful launch of that program in the Dillwyn men’s facility, led to an expansion to Fluvanna women’s facility, and Greg’s wife Tierney, also a Darden alum and PhD, joined him in developing two additional programs in personal finance and business and co-founding Resilience Education to help facilitate and expand the programs to other facilities, business schools and universities.

Ten years later, Resilience Education and Darden in partnership with the Virginia Department of Corrections have awarded over 675 certificates to nearly 400 individuals. More than 250 Darden MBA students have taught in the programs and a number continue to mentor released graduates. While recidivism data are only preliminary, 93 percent of graduates have not returned to prison. The Virginia Department of Corrections validated the effectiveness of these evidence-based programs, recently awarding an MOA to the University of Virginia to run Resilience Education’s programs with course credit from UVA’s School of Continuing and Professional Studies. Our incarcerated students can now earn up to 6 credits for our courses, in addition to the certificates from Darden. And these UVA credits help students complete an associate’s or bachelor’s degree.

Further, our programs have expanded to Columbia Business School, where their MBA students teach in Sing Sing and Taconic facilities.

Anecdotally, we have seen the transformational benefits of this program, both for the incarcerated graduates and the MBAs that teach them. One of our released graduates just received a promotion and brought her company's largest federal contract (\$34M); another started her own cleaning business while working full-time. Another graduate is applying to PhD programs, while another was just accepted into a highly competitive tech training program. We have countless stories of Resilience graduates finding stable employment, if not meaningful careers. And our MBAs often tell us that the Resilience programs helped them to become better business leaders, equipping them with the knowledge, skills and empathy to make a difference in their jobs and communities. The return on an investment in the Resilience programs is clear and in an economy with such low unemployment, all our citizens should be able to contribute positively to the economy.

Thank you for the opportunity to share this testimony. We support more universities and business schools engaging in this work and encourage you to vote to pass SB 2532 SD1.

Sincerely,  
Resilience Education

## **Formerly Incarcerated Graduates | Resilience Education Testimonies** Darden Business School

March 16, 2022

*To: House of Representatives – Committee on Corrections, Military & Veterans*

*Re: Testimony for Senate Bill 2532, S.D.1 in Hawaii*

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Richard Boye, and I am writing today in support of Senate Bill 2532, S.D.1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a pilot program to reduce recidivism through educational programs and Initiatives.

I support this bill because I was fortunate to take the Darden programs while incarcerated at Dillwyn Correctional Center. I received Darden certificates in Financial Capability, Entrepreneurship, and Capstone. I served 28.25 years and have been home for 4 years.

I am excited to offer this testimony because the Darden programs helped me gain basic financial skills, like using a bank, making budgets, learning how credit works, and using a credit card. I also developed interesting learning skills through the Socratic method. I learned how to develop and present a viable business plan, which helped my public speaking skills. All of these skills allowed me to open a bank account and apply for a credit card; which started me on the road to building a credit score after my release. I was also able to present and sell myself to prospective employers, which ultimately allowed me to land an incredible job with Buckingham Branch Railroad. I especially enjoyed learning the Socratic method of learning. It was so much easier for me to learn and retain the information. It was a light bulb moment in learning for me. The instructors (Dr's Greg and Tierney Fairchild), MBA instructors, were more helpful to me in preparing me for useful release knowledge than any class I took while incarcerated, and I took a lot of classes. I appreciated the opportunity to gain these important credentials from the Darden School of Business at the University of Virginia.

Today, I am a happily married man who has been writing an incredible chapter of my life after incarceration. I can honestly say that the Darden Resilience Program would be a vital tool in preparing individuals for release and being successful upon release. I watched for over 28 years the revolving door and know that this program offers and delivers what one can really utilize after incarceration.

Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1.

Sincerely,

Richard L. Boye  
Charleston, SC

-----  
Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Robin, and I am writing today in support of Senate Bill 2532, S.D.1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a pilot program to reduce recidivism through educational programs and initiatives.

I support this bill because I was fortunate to take the Darden programs while incarcerated at Fluvanna Correctional Center for Women. I received Darden certificates in Entrepreneurship, Financial Capabilities, and Capstone. I served 18 and a half years and have been home 2 months shy of 4 years.

I am excited to offer this testimony because the Darden programs helped me gain social, financial, and life skills, which allowed me to become employed, find housing, and create a foundation for myself after my release. I especially enjoyed the students and the way they not only engaged the class through their teaching method, but how they believed in my ability to become a success and not a statistic. The opportunity to gain these important credentials from the Darden School of Business at the University of Virginia changed my life for the better in more ways than I can count.

Today, I am living and working in Roanoke, VA. I have a lovely town home and I'm in the process of saving a down payment to purchase a home of my own. I have paid nearly all of the restitution that I owe and have been moved to low-risk probation monitoring. I am making a wonderful salary working for an AV company as a Sales Rep, Marketing Director, and Product specialist. I recently got married, and I am living the dreams I had as a young girl before becoming incarcerated at the age of 15 and spending most of my young adult life in prison. Without Darden, I would not have had the confidence to become productive and successful in my community. The Darden program prepared me for what I was about to face upon my release.

Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1. I know that the Darden program can help someone else like me if you will pass this Bill.

Thank you so much for allowing me to share,

Robin Martin  
Roanoke, VA

-----

Dear Chairman Ohno and Vice Chairman Ganaden,

Graduating from Darden has had an immensely positive impact on my life since my release six and a half years ago. I was able to become an extremely active student leader at a local community college because of the skills and experience that I gained in Darden. I am currently an honors student at Virginia Commonwealth University double majoring in psychology and sociology with the aim of earning a doctorate and becoming a professor one day. I would not be where I am today if not for Darden.

Stephanie C.

Richmond, Virginia

-----

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Barbara Hurst, and I am writing today in support of Senate Bill 2532, S.D. 1, Relating to Prisons, scheduled for hearing on March 16, 2022. This bill establishes a pilot program to reduce recidivism through educational programs and initiatives.

I support this bill because I was fortunate to take the Darden programs while incarcerated at Fluvanna Correctional Center for Women in Troy, Virginia. I received Darden certificates in all three programs (Financial Capability, Entrepreneurship, and Foundations in Business). This was my second incarceration for embezzlement, and I served 46 months. I have been home for over 4 years.

I am excited to offer this testimony because the Darden programs helped me gain numerous skills and helped me become the businesswoman I am today. Today I own my own business consulting firm, and my services include writing business plans, grant proposals, financial plans, marketing, and more. I was blessed to work in partnership with other volunteers at Fluvanna and Resilience Education while I was incarcerated to write “Achieving Success in Personal Finance”. This course is a modified version of the Financial Capability course but is focused more on helping inmates who are leaving incarceration within one year and who do not have time to take the other Darden Programs. This program also addresses habits regarding financial matters.

Regarding the courses, I especially enjoyed working with one of the MBA instructors, Kelly Gerhardt, who was my mentor for my business plan. She was so welcoming, accepting, and gave me great guided wisdom in my business plan. Her constructive criticism was welcomed and appreciated. Additionally, I LOVE the case method approach to teaching; it allows for open

discussion with participants and is a fantastic way to learn! I learned so much while taking these three courses, and one of the biggest concerns (fears) I had was how I was going to pay back my nearly \$370,000 in restitution and \$3,500 in court fines. I was paralyzed with fear that I would not be able to pay the \$500 a month restitution payment I was required to pay and that I would be violated because I couldn't pay it. After taking Financial Capability, this fear was completely removed, and I had a 5-year plan and a 10-year plan to pay this off. I am hopeful that I will be able to pay this off within 5 years, and nothing will make me happier than to fully repay what I owe. I have already paid off all of my court fines.

The Darden programs helped challenge me to continue address my wrong ways of thinking about money and so much more. These Programs also helped me to know who I really am, grow in self-confidence, and also helped me in my marriage. I was blessed to come back home to my husband and grown son; however, I was very concerned about how I would ever pay that amount of money back in my lifetime. My husband and I have been married for over 30 years and have grown in leaps and bounds since I came home, and the healing we have had, with God's help, has been astounding. We have the most fun, wonderful marriage today, a marriage I had only dreamt of having while I was incarcerated and after causing so much hurt and pain to those I loved and to my community. All I want to do is to help make it right by giving back all that I can.

Lastly, one of the most amazing things about the Darden Programs was that we were treated with dignity and respect, despite the mistakes we had made in our lives. When we walked into these classrooms, it was like we walked into a different world, a world where people believed in us, supported us, and it helped us see beyond the prison walls and into the future. These programs and amazing people helped me become the best version of myself. To be able to take and complete these programs has been the most incredible privilege and honor. I appreciate the opportunity to gain these important credentials from the Darden School of Business at the University of Virginia. I cannot even begin to express to you how incredibly grateful I am for Drs. Gregory and Tierney Fairchild and their Team, including all of the MBA instructors. To say that I was given a second chance in life does not even begin to express the depth of gratitude I have.

Today, I live in Manassas, Virginia, and I own and operate Creative Consulting, LLC ([www.creativeconsulting-llc.com](http://www.creativeconsulting-llc.com)). My business helps me to pay my \$500 a month restitution, in addition to being able to partner with others that I consult with that pay substantially more, in hopes to pay off my restitution in full within five years. Without Darden, I never would have been able to do and accomplish what I have since my release in October 2017. Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1.

I am available anytime should you wish to ask any other questions at (703) 624-3132.

Sincerely,  
Barbara Hurst  
Manassas, Virginia

-----

Dear Chairman Ohno and Vice Chairman Ganaden,

So many individuals like myself are incarcerated for decades and as the outside world evolves ours stands still.

I was truly grateful for the experience and knowledge I've obtained from participating in these programs because they have assisted me through my reintegration process. It has been 3 years since my release from prison and although I am not financially literate to the level I want to be, Thanks to the Resilience Program and all I've learned, I am well on my way. The skies the limit for me!

## **MBA | Resilience Education Testimony**

### **Darden Business School**

March 16th, 2022

*To: House of Representatives – Committee on Corrections, Military & Veterans*  
*Re: Testimony for Senate Bill 2532, S.D.1 in Hawaii*

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Justin Trinidad, and I am writing today in support of Senate Bill 2532, S.D. 1, Relating to Prisons, scheduled for hearing on March 16, 2022. This bill establishes a pilot program to reduce recidivism through educational programs and initiatives.

As a current MBA student at Darden, I have had the privilege of teaching business foundations to students in prison through the Resilience Education program. In the last semester, I have seen the positive impact that an education program has on incarcerated individuals.

I offer this testimony because I have seen firsthand how the Darden program helped my students grow and develop as individuals. As I taught business fundamentals, I watched my students express their desires to create positive change in their communities and how they can apply the new concepts they learned for when they will be released. From understanding business cash flows, to networking to find job opportunities and how to succeed in a job interview, many of these topics were unfamiliar or complicated to our students at first. Students were able to grapple with my questions, practice with their peers, and really internalize key lessons. What was initially a challenge became practical and useful for their future outside of prison. I was particularly inspired by their fall semester final projects in which they outlined a post-release transition plan. They all came out of the program with very concrete and realistic next steps on how they can find their next careers and start successful businesses. I am very optimistic that because of this program, they will never spend another day in prison once released.

My peers and I who taught each week also gained so much from our students. My goal for business school was always to apply my skill set to help improve life outcomes for underserved populations. This program has done that and more as I continually get inspired from my students' resilience and their ability to handle adversity. I think of my students often and am excited to get back into the classroom.

Having worked closely with the Native Hawaiian community in my prior nonprofit work, it is vital that the Hawaii legislature consider the benefits of this program for its marginalized

communities. The students, teachers, and the broader community have a lot to gain from such a program, and I am confident that society as a whole will greatly benefit. With more individuals able to handle the demands of participating effectively in society, the more productive and prosperous our communities will be.

Thank you for the opportunity to share my testimony. I strongly encourage you to vote to pass SB 2532, S.D.1.

Sincerely,  
Justin Trinidad  
Charlottesville, VA

## MBA | Resilience Education Testimonies

### Darden Business School

March 16, 2022

*To: House of Representatives – Committee on Corrections, Military & Veterans*

*Re: Testimony for Senate Bill 2532, S.D. 1 in Hawaii*

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Jimmy Figueroa and I am writing today in support of Senate Bill 2532 SD1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a pilot program to reduce recidivism through educational programs and initiatives.

While an MBA student at Darden (Class of 2017), I was fortunate enough to have the experience of teaching students in prison through the Resilience Education program. I saw first-hand the impact that an education program could have on this population:

1. Team-building and camaraderie: These students supported one another inside and outside of the classroom in ways that would not have existed otherwise. They helped one another understand complex concepts, added advice to improve business ideas, and openly shared personal perspectives that broadened the learning environment.
2. Self-motivation: The group of students I taught were self-motivated and applied themselves to mastering the curriculum. Their effort was on par, if not greater, than levels of effort I've seen from peers through personal classroom experiences. It was amazing to see the level of effort given by a group of individuals, who in most cases, had grown up in education environments where they were not afforded this quality of education and had started to believe they were not "good students".
3. Positive intent: Each week these students were able to step outside of their daily routine and practice skills that could support their lives once released. Their ambition was profound and they shared a passion for wanting to make a positive impact win their community if given the opportunity. Given the right support and attention we

hoped that these ambitions could translate into reality.

Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1.

Sincerely,  
Jimmy Figueroa

-----  
Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Jennifer Rose and I am writing today in support of Senate Bill 2532 SD1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a four-year pilot program to reduce recidivism through educational programs and initiatives.

I support this bill because I was fortunate to teach in the Darden prison program while an MBA student at Darden. I graduated in 2019 and now am in management consulting in Atlanta, Georgia.

I offer this testimony because I saw first-hand how the Darden program helped my students grow and develop as individuals. As we taught business fundamentals, I watched my students come to life, learning new concepts and getting excited for when they would be released and could put the new ideas into action. From understanding interest rates, to how to buy a house, to how credit cards work, many of these topics were unfamiliar or complicated to our students at first. That is until class when we talked through the details or logistics of the topic. Suddenly, what used to be challenging and intimidating was understandable, actionable, and would eventually be something they could incorporate into their life (such as buying a house). I watched them fill with hope as they prepared to re-enter society better equipped to handle life after prison. The learning went two-ways, which is why a university partner is so important.

My peers and I who taught each week gained so much from our students. They taught us resilience, how to handle adversity with humor, patience with frustrating systems, humility, kindness, honesty, and strength. I think of my students often and how much I learned from their resilience and it is my sincere hope Hawaii will consider the benefits of this program, for the students, the teachers, and the broader community. With more individuals able to handle the demands of participating properly in society, the more productive and prosperous our communities will be.

Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1.

Please feel free to reach out to me with any further questions.

Sincerely,

Jennifer Rose

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Michael Feng, and I am writing today in support of Senate Bill 2532 SD1, relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a four-year pilot program to reduce recidivism through educational programs and initiatives.

I was fortunate to teach in Darden education programs while an MBA student in 2018–2019. It was a fantastic program that gave me an opportunity to connect with the community and give back to people who really appreciated our time and effort. How the program is run is a huge part of this, and Resilience education has the right mission and values to make a program like this successful. I saw firsthand that the partnership between Resilience, Darden, and the Virginia department of corrections was a great partnership that everyone involved was able to benefit from. Resilience did a great job of coordinating and aligning visions and the outcomes have been fantastic. The students are always engaged and thankful, and go on to improve their lives post-release; the educators learn and get to give back. I'm grateful that I chose to join the program and it will always be with me.

Please feel free to reach out if you have any questions.

Thank you for letting me share,

Mike Feng,

Boston, MA,

Dear Chairman Ohno and Vice Chairman Ganaden,

My name is Semyon Shtulberg, and I am writing today in support of Senate Bill 2532 SD1, Relating to Prisons, scheduled for hearing on March 16th, 2022. This bill establishes a four-year pilot program to reduce recidivism through educational programs and initiatives.

I support this bill because I have seen the impact this type of program can have on citizens re-entering society after incarceration. I was fortunate to teach in Darden programs while an MBA student. I graduated in 2012 and now am working in health care strategy.

I offer this testimony because I saw first-hand how the Darden Prisoner Entrepreneurship program helped my students gain skills that would help them thrive once back in their communities. The learning went two-ways, which is why a university partner is so important. As much as the program benefited its students it equally had a profound impact on my own perceptions and understanding of men and women serving time in prison. The compassion and empathy that I gained from the program will stay with me forever and undoubtedly shape my decisions as a business leader.

Thank you for the opportunity to share my testimony. I encourage you to vote to pass SB 2532 SD1.

Sincerely,

Semyon Shtulberg

SB2532 SD1 Description:

Requires the Department of Public Safety to establish a working group to create a pilot program designed to reduce recidivism by providing business education to inmates. Requires a report to the Legislature. Appropriates moneys.

The intent of SB2532 SD1 is good, as long as the working group is composed to community-based individuals who are independent from the Department of Public Safety.

RE: SB2532 (In Support)

Dear Chair Ohno Vice-Chair, Ganaden, and Members of the Committee,

Please support this bill. We have a lot of work to do to improve our criminal justice system.

Passing this Prisons; Recidivism: Working Group bill is an important step towards this goal.

Thank you,

Wendy Gibson-Viviani RN/BSN

# Chamber of Commerce HAWAII

*The Voice of Business*

**Testimony to the House Committee on Corrections, Military, & Veterans  
Wednesday, March 16, 2022, at 10:00 A.M.  
Conference Room 430 & Via Videoconference**

**RE: SB 2532 SD1 Relating to Prisons**

Chair Ohno, Vice Chair Ganaden, and Members of the Committee:

The Chamber of Commerce Hawaii ("The Chamber") **supports** SB 2532 SD1, which Establishes within the Department of Public Safety a working group to reduce recidivism by providing business education to inmates. Appropriates moneys.

The Chamber is Hawaii's leading statewide business advocacy organization, representing about 2,000+ businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

Providing education, training, and mentoring for employment once inmates are released from incarceration is proven to reduce recidivism and help that recently released individual from getting back on their feet. 49% of convicted felons return to prison within one year of their release. However, 43% of inmates who seek and attain education in prison are less likely to recidivate.

The Chamber supports this bill that will create a working group to educate inmates on starting a business, entrepreneurship, and financial literacy. Providing inmates the opportunity to receive an education centered around obtaining employment after being released is a key way to ensuring that the recidivism rate declines.

One of the biggest roadblocks to employment of recently released individuals is that they do not have the necessary support to even think about obtaining employment and bettering their lives. By passing this bill, the state is taking a step in the right direction to ensuring that recently released people have the support they need to reenter society and contribute to making their community a better place.

Thank you for the opportunity to testify.
