

STATE OF HAWAII
DEPARTMENT OF EDUCATION
P.O. BOX 2360
HONOLULU, HAWAII 96804

Date: 02/10/2022

Time: 03:45 PM

Location: CR 225 & Videoconference

Committee: Senate Human Services

Department: Education

Person Testifying: Keith T. Hayashi, Interim Superintendent of Education

Title of Bill: SB 3111 RELATING TO FAMILY RESOURCE CENTERS.

Purpose of Bill: Establishes the Family Resource Centers Pilot Program, establishes one FTE Family Resource Centers Coordinator position, and appropriates funds.

Department's Position:

The Hawaii State Department of Education (Department) supports SB 3111 which would establish and fund a five-year pilot program within the Department of Human Services and one FTE family resource center coordinator position to further develop and implement a statewide network of school- and community-based family resource centers; establish definitions, standards, and best practices; identify and align available services, goals, and outcomes; and develop referral and data-tracking protocols.

SB 3111 aligns with the Department's priority for student success as it provides a focus on the whole child and seeks to build a unique support system in which students and families feel safe, healthy, and supported. As community-based resource hubs offering low- to no-cost programming and support services specifically driven by family needs, Family Resource Centers strengthen families, contribute to vibrant communities, and amplify protective factors to address pervasive issues such as child abuse and family instability.

The Department looks forward to working with the Department of Human Services as it establishes family resource centers.

Thank you for the opportunity to provide testimony in support of SB 3111.

DAVID Y. IGE
GOVERNOR

CATHY BETTS
DIRECTOR

JOSEPH CAMPOS II
DEPUTY DIRECTOR

STATE OF HAWAII
DEPARTMENT OF HUMAN SERVICES

P. O. Box 339
Honolulu, Hawaii 96809-0339

February 6, 2022

TO: The Honorable Senator Joy A. San Buenaventura, Chair
Senate Committee on Human Services

FROM: Cathy Betts, Director

SUBJECT: **SB 3111 – RELATING TO FAMILY RESOURCE CENTERS.**

Hearing: February 11, 2022, 3:45 p.m.
Via Videoconference, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services (DHS) supports this administration measure.

PURPOSE: The purpose of the bill is to establish the Family Resource Centers Pilot Program, establish one FTE Family Resource Centers Coordinator position, and appropriate funds.

Family Resource Centers play a critical role in (a) Preventing child abuse and neglect; (b) Strengthening children and families; (c) Connecting family-impacting agencies and programs; (d) Creating opportunities for community-level coordination; (e) Creating social connections to resources and support systems; and (f) Increasing family engagement, which leads to greater student success. Across the country, school- and community-based Family Resource Centers are trusted, effective, and convenient centers for families to access. A 2018 study from the University of Chicago, Chapin Hall, compared child welfare investigation rates in similar Allegheny County neighborhoods and found that those with Family Support Centers had a lower rate of child abuse and neglect investigations than similar neighborhoods without Family Support Centers.

The Department currently funds community-based Family Resource Centers as part of its broad strategy to prevent child abuse and neglect. In 2020 the Kailua-Kalaheo Complex of the Department of Education started virtual school-based Family Resource Centers in four complex area schools to respond to the increased student and family needs of food, housing, transportation, and behavioral/mental health issues magnified during the pandemic. In addition, diverse populations and cultural misunderstandings raised issues beyond the usual scope of education.

To formalize the Family Resource Center model statewide and develop a Family Resource Center network, the Department of Human Services, in partnership with the Departments of Education and Health, proposes a five-year pilot program to engage in strategic planning that will lead to the adoption of definitions, standards, best practices, professional development, alignment of services and performance measures, and development of a referral and data sharing process. The pilot program will require funds for one FTE coordinator position and necessary resources to coordinate and develop the standardization of definitions and practices of Family Resource Centers, to develop the referral and referral tracking process, in compliance with applicable federal and state law, and establish the Family Resource Centers network.

Investing in the infrastructure to develop Family Resource Center standards and networks will lead to more school- and community-based programs and services that families will more likely identify as trusted sources of information and guidance. Bringing needed services to meet families where they are, is the foundational concept and aligns with other measures; DHS supports HB1741 Relating To Children And Family Of Incarcerated Individuals and HB1941 Relating To Education that will move towards the development of community schools. Coordinating our efforts will improve outcomes, increase confidence in government services, and strengthen families and communities.

Thank you for the opportunity to testify on this measure.

SENATE BILL 3111
RELATING TO FAMILY RESOURCE CENTERS

Chair Buenaventura, Vice Chair Ihara, and members of the committee, thank you for the opportunity to submit testimony on SB3111. The State Procurement Office (SPO) supports the intent of the bill and provides comments regarding the exemption language on page 6, SECTION 4, lines 20-22.

- (a) Contracts entered by the departments identified in section 3 (b) in the furtherance of this act shall be exempt from the requirements of chapters 103D and 103F

Whenever a contract is exempt from procurement, it compromises the spirit of the procurement Code which is to promote competition in a fair, open, and transparent manner.

Chapter 103D, Hawaii Revised Statutes (HRS), the Hawaii Public Procurement Code (Code), is the single source of public procurement policy to be applied equally and uniformly, while providing fairness, open competition, a level playing field, government disclosure and transparency in the procurement and contracting process vital to good government.

Public procurement's primary objective is to provide everyone equal opportunity to compete for government contracts, to prevent favoritism, collusion, or fraud in awarding of contracts. To legislate that any one entity should be exempt from compliance with both HRS chapter 103D and 103F conveys a sense of disproportionate equality in the law's application.

Exemptions to the code mean that all procurements made with taxpayer monies will not have the same oversight, accountability and transparency requirements mandated by those procurements processes provided in the code. It means that there is no requirement for due

diligence, proper planning, or consideration of protections for the state in contract terms and conditions, nor are there any set requirements to conduct cost and price analysis and market research or post-award contract management. As such, Agencies can choose whether to compete any procurement or go directly to one contractor. As a result, leveraging economies of scale and cost savings efficiencies found in the consistent application of the procurement code are lost. It also means Agencies are not required to adhere to the code's procurement integrity laws.

The National Association of State Procurement Officials state: "Businesses suffer when there is inconsistency in procurement laws and regulations. Complex, arcane procurement rules of numerous jurisdictions discourage competition by raising the costs to businesses to understand and comply with these different rules. Higher costs are recovered through the prices offered by a smaller pool of competitors, resulting in unnecessarily inflated costs to state and local governments."

When public bodies, are removed from the state's procurement code it results in the harm described above. As these entities create their own procurement rules, businesses are forced to track their various practices. Moreover, a public body often can no longer achieve the benefits of aggregation by using another public body's contract because different state laws and regulations may apply to the various public bodies making compliance more difficult.

Each year new procurement laws are applied to state agencies causing state agency contracts to become more complex and costly, while other public bodies, such as agencies with strong legislative influence, are exempted. Relieving some public bodies from some laws by exempting or excluding them from compliance with a common set of legal requirements creates an imbalance wherein the competitive environment becomes different among the various jurisdictions and the entire procurement process becomes less efficient and costlier for the state and vendors.

Thank you.

WRITTEN
TESTIMONY ONLY

**Testimony in SUPPORT of S.B. 3111
RELATING TO FAMILY RESOURCE CENTERS**

SENATOR JOY A. SAN BUENAVENTURA, CHAIR
SENATE COMMITTEE ON HUMAN SERVICES

Hearing Date: 2/10/2022

Room Number: CR 225 &
Videoconference

1 **Fiscal Implications:** The Department of Health (DOH) defers to the Department of Human
2 Services for fiscal implications of implementation.

3 **Department Testimony:** The Department of Health strongly supports S.B. 3111 which is part of
4 the Governor's Administrative Package, to implement a statewide network of Family Resource
5 Centers (FRCs).

6 Much of the foundation to prevent and reduce child abuse and neglect involves helping
7 families and communities build protective factors to mitigate risks associated with abuse and
8 neglect. Protective factors moderate risk or adversity and promote healthy development and child
9 and family well-being. FRCs are an effective and efficient means to apply protective factors by
10 providing concrete supports to parents and serving as hubs for promoting community advocacy,
11 education, and leadership. Many Community-Based Child Abuse Prevention (CBCAP) funded
12 states, including Hawaii, provide financial and other support for FRC efforts.

13 The Department of Health, Family Health Services Division, Maternal and Child Health
14 Branch, Child Abuse and Neglect Prevention Program, that administers the federal CBCAP grant
15 to Hawaii, will continue to support FRC efforts including the FRC pilot program outlined in this
16 measure.

17 Thank you for the opportunity to testify on this bill.

RE: Support of SB311 Related to Family Resource Centers

Dear Chair San Buenaventura, Vice Chair Ihara, and members of the Committee,

On behalf of the Kailua-Kalaheo Complex Area, we support SB311 to establish a Family Resource Center pilot program and a FTE Family Resource Center Coordinator position as well as the appropriation of funds.

Covid has pulled the curtain back on the inequities that exist for so many of our families in supporting their own success and that of their children. There is a greater need than ever to support the family protective factors (concrete support in times of need, parental resilience, knowledge of parenting and child development, social emotional well being of children and families, and social connections). Our students have increased mental health

issues, lower attendance and graduation rates, and prolonged loss of academic and social opportunities.

Quality family engagement is needed in our schools and our communities to address the challenges which have been heightened through the pandemic. According to the National Family Support Network, community or school-based Family Resource Centers are welcoming hubs of support, services, and opportunities to work with families in a multi-generational, strengths-based, family-centered approach to enhance parenting skills, foster the healthy development and well-being of children and families, prevent child abuse and neglect, increase school readiness, connect families to resources, develop parent and community leadership, and support early intervention.

School based Family Resource Centers have been established in four Title I schools in the Kailua-Kalaheo Complex. In a collaboration with the seven community based Neighborhood Places, Hawai'i was able to join the National Family Support Network.

On behalf of the DOE-Kailua-Kalaheo Complex Area, I respectfully urge the passage of this bill so that families have the direct support they need to help their children thrive. Thank you for the opportunity to submit this testimony.

Sincerely,

Lanelle Hibbs,

Kailua-Kalaheo Complex Area Superintendent

SENATE BILL NO. 3111

February 10, 2022
3:45 p.m.
Room 225 and Videoconference

RELATING TO FAMILY RESOURCE CENTERS

The Department of Budget and Finance (B&F) offers comments on this bill.

Senate Bill No. 3111: 1) establishes the Family Resource Center (FRC) Pilot Program within the Department of Human Services (DHS) for a period of five years; 2) establishes 1.00 full-time equivalent, within DHS, to serve as the FRC Coordinator and sets the position's reporting requirements; 3) provides procurement exemptions for the pilot program and civil service exemption for the FRC Coordinator position; 4) sets the purpose and operational authorities of FRCs; 5) requires DHS to develop and establish standards and criteria for FRCs in coordination with the Departments of Education and Health by December 1, 2023; and 6) appropriates \$350,000 in general funds to DHS in FY 23 to establish and implement the pilot program.

B&F notes that, with respect to the general fund appropriation in this bill, the federal Coronavirus Response and Relief Supplemental Appropriations Act requires that states receiving Elementary and Secondary School Emergency Relief (ESSER) II funds and Governor's Emergency Education Relief II funds must maintain state support for:

- Elementary and secondary education in FY 22 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

Further, the federal American Rescue Plan (ARP) Act requires that states receiving ARP ESSER funds must maintain state support for:

- Elementary and secondary education in FY 22 and FY 23 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 and FY 23 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

The U.S. Department of Education has issued rules governing how these maintenance of effort (MOE) requirements are to be administered. B&F will be working with the money committees of the Legislature to ensure that the State of Hawai'i complies with these ESSER MOE requirements.

Thank you for your consideration of our comments.

Comments:

Neighborhood Place of Kona (NPK) strongly supports SB3111 in order to strengthen families. This bill provides families with resources that enhance the safety and health of keiki in our community.

TO: Senate Committee on Human Services

RE: SB3111 - RELATING TO FAMILY RESOURCE CENTERS

POSITION: **STRONG SUPPORT**

February 10, 2022

Chair San Buenaventura, Vice Chair Ihara and members of the committee:

The following are reasons for STRONG SUPPORT for SB3111:

Blueprint for Change is a non-profit organization with a strong track record for innovating and implementing effective support services that address the unique challenges facing Hawai'i's 'ohana. The organization's roots date back to 1994 when in response to a growingly overburdened Child Welfare System, the Hawai'i State Legislature created the Child Welfare Services Reform Task Force for the purpose of developing a "Blueprint for reform in child protective services."

After several years of rigorous evaluation, the Committee finalized the core elements of the Neighborhood Place model (community-based Family Resource Centers), and in 2000, Blueprint for Change (BFC) was formed and incorporated as a nonprofit organization to serve as the Department of Human Services, master contractor for Neighborhood Place services and to continue the Committee's effort to improve the responsiveness of the State of Hawai'i – Child Welfare System.

By maintaining fluid relationships between state agencies, local service providers and community advocates, Blueprint for Change and the Neighborhood Place Partnership is able to significantly improve the responsiveness of the state's Child Welfare System while reducing instances of child abuse and neglect.

As a member of the Hawai'i 'Ohana Support Network, BFC acknowledges the value and alignment of Family Resource Centers (FRC) as defined by the National Family Support Network.

The National Family Support Network defines a Family Resource Center (FRC) as a community or school-based hub of support, services, and opportunities for families that:

- Utilizes an approach that is multi-generational, strength-based, and family-centered
- Reflects and is responsive to community needs and interests
- Provides support at no or low cost for participants

- Enhances parenting skills
- Fosters the healthy development and well-being of children, youth, and families
- Prevents child abuse and neglect
- Increases school readiness
- Connects families to resources
- Supports healthy marital and couples relationships
- Promotes family economic success

The goals of a FRC are to:

- Support families to be strong, healthy, and successful
- Contribute to building a strong and healthy community
- Reduce the likelihood of child abuse and neglect by building the research-based Strengthening Families Protective Factors

Most FRC programs offer:

- Parenting Support
- Access to Resources
- Child Development Activities
- Parent Leadership Development

I strongly urge the committee to pass SB3111. Mahalo for the opportunity to testify.

Hawaii
Children's Action Network Speaks!
Building a unified voice for Hawaii's children

Hawaii Children's Action Network Speaks! is a nonpartisan 501c4 nonprofit committed to advocating for children and their families. Our core issues are safety, health, and education.

To: Senator San Buenaventura, Chair
Senator Ihara, Vice Chair
Senate Committee on Human Services

Re: **SB 3111- relating to family resource centers**
3:45 PM, February 10, 2022

Chair San Buenaventura, Vice Chair Ihara, and committee members,

On behalf of Hawaii Children's Action Network Speaks!, I am writing in support of SB 3111, relating to family resource centers. They are an excellent model to support families and connect them to programs and services through a strengths-based perspective.

Family resource centers also support family violence prevention strategies. The services offered through resource centers develop protective factors in families and communities. Protective factors, like concrete support in times of need, social connections, and parental resilience factors, help families during difficult times. The protective factors also strengthen families, promote child well-being, and help reduce the risk factors of child abuse and neglect.¹ Funding prevention efforts helps keep our children and communities safe.

For these reasons, I respectfully request the committee vote favorably on SB 3111.

Thank you,
Kathleen Algire
Director of Early Learning and Health Policy

RE: Support of SB311 Related to Family Resource Centers

Dear Chair San Buenaventura, Vice Chair Ihara, and members of the Committee,

On behalf of Kailua High School, we support SB311 to establish a Family Resource Center pilot program and a FTE Family Resource Center Coordinator position as well as the appropriation of funds.

Covid has put a damper on our overall ability to support our students and families as we did pre-Covid and we need to focus our efforts on their simple needs. The adaptive agenda that we have come to embrace as the "new normal" has made many underlying issues even more apparent and important to our students and families (increased mental health issues,

lower attendance leading to lower overall graduation rates as well as extended loss of social and academic connections).

Genuine grassroots family engagement is needed in our communities and schools enabling us to address the challenges which have been spotlighted throughout the pandemic and beyond. Family Resource Centers are the perfect hub to offer a welcoming and supportive place for all families to identify and connect with resources enabling them to thrive, strengthen and support themselves, their Ohana and community as our Mission states. Our families include multi-generational and blended families, medical challenges, mental capacity compromises, as well as other than optimal family dynamics that our children have to navigate. Family Resource Centers provide support, prevention, strengthening and connections enabling families to face daily life head on. They deserve our love and support and Family Resource Centers are that place!

On behalf of Kailua High School I respectfully urge the passage of this bill so that families have the direct support they need to help their children thrive with the full support of the Family Resource Centers. Thank you for the opportunity to testify.

Sincerely,

Diana Baldwin

Parent Community Network Coordinator

RE: Support of SB3111 Relating to Family Resource Centers

Dear Chair Buenaventura, Vice Chair Ihara, and members of the committee

The Hawai'i Afterschool Alliance supports SB3111 that would establish the Family Resource Centers Pilot Program.

With families still grappling with the effects and consequences of the COVID-19 pandemic, Family Resource Centers (FRC) are necessary to foster the healthy development and well-being of children, youth, and families. FRC supports the whole child, connects families to resources, develops partnerships with community organizations, and builds family and community leadership. In order for students to succeed and thrive in school, families and communities must come together to make sure they have access to the relationships and resources they need.

We urge you to support this bill that would advance the work of Family Resource Centers in Hawai'i.

Sincerely,

Paula Adams
Executive Director
Hawai'i Afterschool Alliance
