**TESTIMONY OF WILLIAM J. AILA, JR, CHAIRMAN
HAWAIIAN HOMES COMMISSION
BEFORE THE HOUSE COMMITTEE ON FINANCE
HEARING ON APRIL 6, 2022 AT 1:30PM VIA VIDEOCONFERENCE**

SB 879, SD1, HD2, RELATING TO COUNTIES

April 6, 2022

Aloha Chair Luke, Vice Chair Yamashita, and members of the Committee:

The Department of Hawaiian Home Lands (DHHL) strongly supports this bill that requires the counties to maintain infrastructure within sixty days and under specified conditions, as part of any housing development for DHHL. A similar measure was approved by the Hawaiian Homes Commission and included in the Governor's administrative package by request of our department. DHHL requests that the effective date be amended to make it effective upon approval.

In addition to developing new homesteads, DHHL also has other critical, albeit lesser known responsibilities. Like a county, DHHL maintains and repairs existing infrastructure (e.g. clearing of flood channels and drainage, roads and facilities maintenance, sewer emergencies and repairs, etc.) Increasingly, this responsibility is demanding a greater share of DHHL's financial and staff resources to address.

In certain counties, the county has either not accepted portions of newer infrastructure, or has stopped performing needed repair. One example is sewer systems. Act 227, SLH 2014, clarified and confirmed that operating and maintenance of sewer systems is a county function. However, DHHL continues to maintain the sewer systems on Hawaiian home lands in the interim until Act 227 can be fully implemented in subdivisions completed after the mid-1990's. In addition, until roadways are turned over to the Counties for maintenance, DHHL continues to be responsible for major pavement repairs, maintenance of street trees, sidewalks, street lighting, signage and striping. Recently, various communities have requested traffic calming and speed abatement improvements, such as speed bumps, electronic signs, flashing beacons and crosswalk improvements.

In DHHL's sufficient sums budget request, the following Administrative and Operating Costs for Repair and Maintenance of Infrastructure on Hawaiian Home Lands financed through State General Funds are provided for the Legislature's consideration. DHHL is open to discussing and collaborating with the applicable County for repair and

maintenance work that can be more efficiently and cost effectively implemented. In this manner, DHHL can concentrate its efforts and funds available on lot development and housing its beneficiaries. Below is DHHL's Sufficient Sums budget request for FY23.

Also in DHHL's sufficient sums budget request, the following Administrative and Operating Costs for Repair and Maintenance of Infrastructure financed through State General Obligation Bonds are provided for consideration by the Legislature. Similarly, DHHL is open to discussing and collaborating with both the applicable County and State agency for remediation, repair, maintenance and improvements of various infrastructure systems which can be more efficiently and cost effectively implemented. On the following page is DHHL's Sufficient Sums budget request for FY23, with emphasis on construction and remediation of existing improvements.

Re: **SB 879 SD 1 RELATING TO COUNTIES**

Hearing: Wednesday, April 6, 2022, 1:30 p.m., Conference Rm. 308 & via videoconference

Position: Strong Support

Aloha, Chair Luke, Vice Chair Yamashita, and Members of the Committee on Finance:

The Environmental Caucus of the Democratic Party of Hawai'i strongly supports SB 879 SD 1 HD2. This bill would require the counties to maintain infrastructure within sixty days and under specified conditions, as part of any housing development for the department of Hawaiian home lands. This bill would be effective on July 1, 2050.

We also recognize that one of the most serious barriers to distribution of house lots under the Hawaiian Homelands program has been the lack of suitable infrastructure to serve those properties – water, sewer, roads, and electricity primarily. This bill attempts to address this barrier by requiring the Counties to ensure that such infrastructure is properly maintained. “Infrastructure” includes water lines and appurtenances; storm drainage, including culverts and catch basins; sewer lines and appurtenances; waste disposal and waste treatment systems; and roadway improvements, including pavement, gutters, curbing, sidewalks, street trees, signage, road striping, traffic calming measures, and street lighting that connect or are adjacent to county infrastructure.”

Infrastructure is long overdue and badly needed for the Hawaiian community on Hawaiian Home lands and it would be highly beneficial that the counties assist in its maintenance. Please pass this measure.

Mahalo for the opportunity to testify,

SB 879,SD1 HD2

RELATING TO THE DEPARTMENT OF HAWAIIAN HOME LANDS

Counties

My name is Phillip Stephens, I am a Native Hawaiian resident of Molokai and I represent Kalama‘ula Mauka Homestead Association. Kalamaula Mauka Homestead Associations (KMHA) is a Hawaiian Homestead Beneficiary Association (HBA) as identified under 201.6 of the Hawaiian Homes Commission Act of 1920 and federally defined Homestead Associations under 43 Code of Federal Regulations. KMHA is located in the Kona district of Molokai, the second largest landowner on the island. Our mission is to serve, protect, and preserve the interest of the Native Hawaiian beneficiaries of the Hawaiian Home Lands trust.

I STRONGLY Oppose SB 879 relating to County standards on Hawaiian homes developments. KMHA strongly opposes as there were NO BENEFICIARY CONSULTATION.

Mahalo for this opportunity to testify on this measure.
