Comments:

Aloha Nui Kākou,

Kimeona Kane, of Waimānalo, Kumu Uhau Humu Pōhaku, Kia‘i Loko in support of this resolution to address this very concerning issue impacting our coastal community, our cultural fishponds and our cultural practice of rock weaving. In addition, I strongly support adding in resources to study sand movements around our coastlines, inshore and offshore waters. Currently we have not been successful identifying reports that can help to understand the movement of sand which is an important aspect of coastline erosion. Please consider sand study as well.

Mahalo nui,

Kimeona Kane
