March 27, 2022

TO: The Honorable Joy A. San Buenaventura, Chair
Committee on Human Services

FROM: Cathy Betts, Director

SUBJECT: SCR180/SR173 – URGING THE DEPARTMENT OF HUMAN SERVICES TO DESIGNATE TWO FULL-TIME EQUIVALENT EMPLOYEES TO ASSIST COMPACT OF FREE ASSOCIATION MIGRANTS TO ENROLL IN MEDICAID.

HEARING: Tuesday, March 29, 2022, 3:00 pm
Via Videoconference, State Capitol Conference Room 225

DEPARTMENT'S POSITION: The Department of Human Services (DHS) offers comments.

PURPOSE: SCR 180/ SR173 urges the Department of Human Services to designate two full—time equivalent (2.0 FTE) employees to assist COFA migrants to enroll in Medicaid, including establishing and implementing an outreach program to inform the COFA community in Hawai'i of the eligibility criteria and enrollment process.

The Department appreciates the intent of this resolution and agrees that Hawaii residents who are also citizens of the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau have experienced significant disruption to continuous access to health insurance coverage. The Department advocated with community members and the congressional delegation to restore Medicaid access, and we celebrate that access was restored in December of 2020. In addition, the Med-QUEST Division (MQD) was the first Medicaid program in the nation to take action to modify its eligibility system to ensure all applicants from this community would no longer experience any barrier to access based on citizenship.

MQD already maintains a Health Care Outreach Branch that consists of 6 FTE workers who work within our communities and with community-based organizations such as We Are Oceania, the Legal Aid Society of Hawaii, and others. The Health Care Outreach Branch staff conduct outreach and assist with Medicaid applications in a linguistically and culturally appropriate way. This dedicated outreach effort increases access and improves health equity.

While we appreciate there may be an assumption that there is a lag in Medicaid enrollment since the restoration of access to Medicaid for this population, we are happy to report that this is not the case. Medicaid enrollment for this community increased 85% to 11,956 as of February 2022 compared to 6,461 people enrolled in December 2020. We are grateful for the community partnerships and the depth of experience of the Health Care Outreach Branch staff who worked to enroll this community into Medicaid.

Thank you for the opportunity to provide comments on this resolution.

Comments:

Not for Illegals. They should not be allowed in Hawaii to begin with!!
