

**WEST HAWAII COMMUNITY HEALTH CENTER, INC
(dba)
HAWAII ISLAND COMMUNITY HEALTH CENTER
FY 2024 LEGISLATIVE
GRANT IN AID FOR A CAPITAL IMPROVEMENT PROJECT**

I. CERTIFICATION

1. Certificate of Good Standing *(see attached)*

2. Declaration Statement *(see attached)*

3. Public Purpose

Pursuant to Section 42F-102, Hawaii Revised Statutes, this proposal will be used for the public purpose of expanding access to primary health care services for low income, and high-risk populations in the rural district of Puna, on Hawaii Island. West Hawaii Community Health Center (WHCHC), doing business as Hawaii Island Community Health Center (HICHC), is a Federally Qualified Community Health Center (FQHC), with 501(c)3 nonprofit status. HICHC provides preventive care, including primary medical, oral health, and mental health/substance use disorder treatment. HICHC provides essential health care services to medically underserved and vulnerable populations, including the uninsured and those living below the poverty level. As an FQHC we provide primary care services to everyone, regardless of their ability to pay. With this FY 2024 GIA proposal, HICHC is requesting public funds (\$5,000,000) for the purpose of building a new primary health center in the medically underserved rural district of Puna, on Hawaii Island. The new health care facility will be built in Kea`au and will be a hub serving four communities including Kea`au, Kurtistown, Mountain View, and Pahoa (zip codes 96749, 96760, 96771, and 96778). The target population to be served by this proposal includes the entire population of these communities, with special focus on providing a medical safety net for low income and high-risk populations.

II. BACKGROUND AND SUMMARY

1. Applicant's Background

On July 1, 2022, West Hawaii Community Health Center (based in Kailua-Kona), and Bay Clinic (based in Hilo), merged to form Hawaii Island Community Health Center (HICHC). West Hawaii Community Health Center is the legally surviving entity and West Hawaii Community Health Center's EIN (20-0495394) remains for this organization. WHCHC has 18 years' experience serving the west side of Hawaii Island, and Bay Clinic has 40 years' experience providing primary care on the east side of Hawaii Island, with a combined total of 58 years' experience providing health care services to our Hawaii Island communities.

HICHC provides primary medical, dental, and behavioral health care throughout a service area that spans 20 zip codes including 96738, 96740, 96725, 96750, 96726, 96704, 96737, 96772, 96777, 96785, 96778, 96771, 96760, 96749, 96720, 96781, 96783, 96710, 96728, and 96773. This service area is home to 175,734 people, 38,072 (or 22%) of whom are registered HICHC patients.

HICHC is a Federally Qualified Community Health Center (FQHC) and as an FQHC we strive to improve the health and well-being of underserved communities, while empowering people to become actively involved in solving issues unique to their needs and communities. We are innovators, healers, and problem solvers who reach beyond the constraints of the conventional healthcare delivery system. We focus on preventive care by addressing the social determinants that may cause poor health such as diet, nutrition, mental illness, homelessness, and substance use disorder. In addition to providing primary health care services, we offer enabling services to assist patients with specific barriers to care including translation services, insurance enrollment, referrals to specialists, and access to other social services. We provide these services regardless of the patient's ability to pay. We provide quality health care services to all and do not discriminate on the basis of race, color, national origin, age, disability, religion, or sex (including pregnancy, sexual orientation, and gender identity).

The mission of HICHC is to promote lifelong health and wellness through quality health care that is comprehensive, integrated, culturally responsive, and accessible to all. HICHC has a workforce of 440 employees, including 63 providers (medical, dental, and behavioral health).

HICHC has a long history of financial, organizational, and quality clinical care excellence. In 2022 we received four federal HRSA quality recognition awards including the National Quality Leader in Behavioral Health Award which ranks our Behavioral Health Department in the top 1- 2% of all Federally Qualified Health Centers, exceeding national benchmarks for clinical quality measures. HICHC also received the Quality Health Leader Award-Bronze level, ranking HICHC in the top 21-30% of all FQHC's nationally for achieving the best overall clinical quality measure (CQM) performance among all health centers. In addition, HICHC received the Advancing Health Information Technology for Quality Award for optimizing health information technology services, advancing telehealth, and improving patient engagement, interoperability, and the collection of social determinants of health to increase access to care and advancing quality care. HICHC has Patient Centered Medical Home (PCHM) recognition for all sites currently included under our HRSA 330e grant. We carry this standard of excellence forward in the implementation of all programs and projects, including the planning and construction of this new medical facility in Kea`au.

2. Project Goals and Objectives

Hawaii Island Community Health Center is proposing to use these capital improvement funds (\$5,000,000) to plan, design, build, and equip a new 15,000 sf health care facility in the rural district of Puna, on Hawaii Island. Funds will be used for architecture and engineering, permitting, construction and build, a parking lot, electrical, septic, and other utilities.

GOAL: To provide access to primary health care (medical, behavioral health, and enabling services) for residents of the rural district of Puna, by designing, constructing, equipping, and opening of a new permanent health care facility in their community.

Objectives:

1. By 06/30/2023, finalize lease agreement for land with W. H. Shipman Limited.
2. By 12/31/2023, complete planning, design of the proposed facility to include space for five physicians, three behavioral health specialists, and related space to operate an outpatient health care facility.
3. By 12/31/2023, select contractor to do the renovation.
4. By 06/30/2024, receive permit approval from the County of Hawaii and begin construction.

5. By 05/31/2025, receive certificate of occupancy from the County of Hawaii and begin delivering care to Puna at the new Kea`au Family Health Center.

3. Public Purpose and Need to be Served

The U.S. Department of Health and Human Service has designated Hawaii Island a Dental Care Health Professional Shortage Area (HPSA), a Mental Health Professional Shortage Area, a Primary Care Professional Shortage Area, and a Medically Underserved Population (MUP). Independently these shortage designations are indicative of a great need; combined they specify monumental need especially for high-risk populations. A recent Community First report published in April 2022 titled "Access to Care" surveyed Hawaii Island health care providers and found that (47%) of Hawaii Island providers were imminently retiring or leaving medicine; (44%) were moving to the mainland; and (49%) said they were reducing their hours. The report concluded that Hawaii Island's health care provider shortage may worsen. Compared to the rest of the state, Hawaii Island has a lower per capita income, higher prevalence of uninsured and impoverished adults, and higher rates of public assistance and homelessness, exacerbating the need.

US Census data indicates that population of Pahoa, Kea`au, Kurtistown and Mountain View is 43,297 people, with 17,397 people being low-income, and 30% receiving Medicaid. Other demographic data on the region shows that 21% of the population has one or more disability, 17% of the population is veterans, 19% is over the age of 65, and 70% identifies as a member of a racial/ethnic minority. In addition, 38% of adults have not seen the dentist in the past year. HRSA data shows that there are **6,747 low-income people living in Puna not currently receiving health care services** (UDS MAPPER; Data Report ZCAT 96749, 96760, 96771, 96778).

Low-Income Population in Service Area NOT Receiving Health Care Services

Community/Zip Code	Total Population	# of Low-Income Population	# of Low-Income Pop. Currently Receiving Health Care	# of Low-Income Pop. <u>NOT</u> Receiving Health Care
Kea`au (96749)	17,325	5,092	3,773	1,319
Kurtistown (96760)	3,038	1,131	872	259
Mt View (96771)	7,736	3,663	1,266	2,397
Pahoa (96778)	15,198	7,511	4,739	2,772
TOTAL	43,297	17,397	10,650	6,747

Source: UDS MAPPER (<https://udsmapper.org>); Data Report ZCAT 96749, 96760, 96771, 96778

HICHC currently operates a small medical and dental clinic in Kea`au serving 4,150 medical patients, and 2,693 dental patients. Once the new 15,000 sf Kea`au Family Health Center is open, HICHC will use the current location for dental care only and the new facility for medical, behavioral health and enabling services. This new Kea`au Family Health Center will increase our service capacity to 11,000 patients. The new facility will allow us to continue serving our current 4,150 patients, along with a projected additional 6,850 new patients. The new 15,000 sf Kea`au Family Health Center facility, built with GIA funds, will include 20 exam rooms with enough space to accommodate 5 primary care physicians, and 3 behavioral health providers.

Healthcare is a basic need and access should be considered a right not a privilege. To maintain a healthy community and work force, it is vital to have access to health care. This is not currently the case in the rural district of Puna (Kea`au, Kurtistown, Mt View, and Pahoa). Without access to primary care, the in-patient cost of treating these individuals rises significantly—a cost that gets transferred to the general public through higher premiums and fees and ultimately an increased tax burden. In addition, children without health care typically have poor health status, poor school attendance, and poor academic performance. The new health clinic will expand health services and improve access to health care, improve health status, and enhance the quality of life for people in these communities.

4. Target Population

The target population to be served by this proposal includes the entire population of Puna, with special focus on providing a medical safety net for low income and high-risk populations. HICHC provides care to anyone who walks through the doors, regardless of income or ability to pay. Our target population is the low-income, uninsured, and underinsured persons who have difficulty accessing care. The new Kea`au Family Health Center will follow the same protocol. HICHC provides a Sliding Scale Fee payment program to all patients. Depending on their income and family size, patients may pay a small fee or no payment at all, depending on their circumstances.

The typical HICHC patient accesses care 3.5 times during the year. Eighty percent of patients have incomes less than 200% of the federal poverty level. A majority of the patients identify as Native Hawaiian, Asian, Filipino, Marshallese, Hispanic, or other Pacific Islanders. Our target population for this grant is all low-income adults and children, most of whom identify as being Native Hawaiian, Spanish speaking, Micronesian, Marshallese, homeless, LGBTQ+, and/or being of more than one race/ethnicity. Our target population has over-represented health problems including poor oral health and chronic diseases including depression, substance use disorder, asthma, diabetes, and obesity.

In actual numbers, HICHC estimates this new clinic will serve 11,000 patients each year, and provide 33,000 patient visits.

5. Geographic Service Area

This capital improvement project will serve the geographic rural district of Puna, which encompasses Kea`au, Kurtistown, Mountain View, and Pahoa (zip codes 96749, 96760, 96771, and 96778). This region is highlighted in the map below.

According to US Census, this region encompasses a population of 28,099 people.

The Hawaii Island Community Health Center geographic service area covers (20) zip codes including (96738, 96740, 96725, 96750, 96726, 96704, 96737, 96772, 96777, 96785, 96778, 96771, 96760, 96749, 96720, 96781, 96783, 96710, 96728, and 96773) with a population of 175,734 people, (22%) of whom are registered HICHC patients. *See Map Below*

Hawaii Island Community Health Center Service Area

III. SERVICE SUMMARY AND OUTCOMES

1. Scope of Work

This request is for \$5,000,000 to plan, design, build, and equip a 15,000sf new health care facility in Kea`au. Once operational, HICHC anticipates providing primary health care service to 11,000 patients

and generating 33,000 patient visits annually. Most individuals served will be low-income, Medicaid and/or uninsured, children and adults who live in zip codes 96749, 96760, 96778, and 96771. Operationally, this center will be self-sufficient and generate patient revenues adequate to cover all operating costs. No additional state funds will be required to support the operations of this facility.

2. Project Timeline

The timeline for planning, designing, building, and equipping the new Kea`au Family Health Center covers 24 months. Below is a summary of timeline benchmarks:

- By 06/30/2023, finalize lease agreement for land with W. H. Shipman Limited.
- By 12/31/2023, complete planning, design of the proposed facility – to include room for 5 physicians, 3 behavioral health specialists, and related space required to operate an outpatient health care facility—and select contractor to do the renovation.
- By 06/30/2024, receive permit approval from the County of Hawaii and begin construction.
- By 05/31/2025, receive certificate of occupancy from the County of Hawaii and begin delivering care to the rural district of Puna.

3. Quality Assurance and Evaluation

Between new construction projects and tenant improvement projects done by both Bay Clinic and West Hawaii Community Health Center, HICHC has a combined total of one new construction project and fourteen separate tenant improvement projects we have successfully managed. The total value of these projects exceeds \$25 million. We accomplished these CIP projects with strong planning, excellent oversight, and experienced Project Managers who monitored all aspects of the project, communicated frequently with all parties including owners' staff, architects, contractors and subcontractors. Critical path timeline and project manager software is used to track progress and weekly meetings with key people. Clear effective communication has been used to keep our projects on time and within budget. We expect nothing less on this project.

Hawaii Island Community Health Center also has established performance improvement plans and processes for all aspects of its clinical operations. Compliance is a major focus and is incorporated into our general operations and includes regular audits of our operations. Quality and clinical indicators are identified and tracked regularly through our electronic health records and management software. Policies and procedures are in place for personnel, finance, and most clinical areas. HICHC holds itself to the highest standards.

Indicators that the organization monitors for operational performance include:

- Patient Access—panel size, appointment waiting times, cycle time in the clinic;
- Best Practices—patient care outcomes especially for chronic diseases;
- Patient Safety—OSHA regulations as relates to blood borne pathogens, use of medical abbreviations, patient identifiers and infectious disease control;
- Viability—billing, collection, reimbursement, coding compliance;
- Leadership—overall patient satisfaction, staff satisfaction, and employee turnover rate.

4. Measure(s) of Effectiveness

- Outcome 1:** Project planning and design completed within specified timeline and within budget.
- Outcome 2:** Construction of the Kea`au Family Health Center completed on time and within budget.
- Outcome 3:** Kea`au Family Health Center fully operational and providing health care to 11,000 patients annually and delivering 33,000 patients visits.

IV. FINANCAL

1. Budget forms are attached.

2. Below is the projected quarterly funding for the project.

2024 Quarter 1	2024 Quarter 2	2024 Quarter 3	2024 Quarter 4	TOTAL REQUEST
\$1,250,000	\$1,250,000	\$1,250,000	\$1,250,000	\$5,000,000

3. The application shall provide a listing of all other sources of funding that they are seeking for fiscal year 2024:

The total cost of this capital improvement project will be \$14,320,500. HICHC will seek additional funding support from government and private sources listed below.

Funding Source	AMOUNT
Hawaii State GIA CIP	\$5,000,000
Federal Funds	\$5,000,000
Harry & Jeannette Weinberg FND	\$2,000,000
W. G. Irwin FND	\$300,000
County of Hawaii CIP	\$500,000
Shippers Wharf Trust	\$250,000
Atherton FND	\$200,000
Wilcox FND	\$300,000
Corporate Donations	\$320,000
Individual Donations	\$300,500
HICHC CIP Fund	\$150,000
TOTAL	\$14,320,500

4. HICHC has not applied for, nor received federal tax credits for this project.

5. Below is a list of all federal, state, and county government contracts, grants, and grant in aid we have been granted within the prior three years and will be receiving in fiscal year 2024 for program support:

HICHC currently has a grant portfolio that currently includes six federal grant awards, six State of Hawaii grant awards, one County of Hawaii grant award, and thirty-three private sector grant awards. HICHC has a stellar reputation with funders regarding grant management. Funders understand money invested in HICHC generates a high return on investment, as demonstrated through data reports on program outcomes.

Upon receipt of the county grant award, HICHC CFO, Diane Pautz, will review the terms, conditions, and budget associated with the award. Following federal, state and county cost principles, which are outlined in our financial policies, the accounting system source coding is set up and month-end reports are generated by our accountants. The grant managers within the clinics, where appropriate, also receive the accounting grant summary information showing budget and expenditures to date.

V. EXPERIENCE AND CAPABILITIES

1. Necessary Skills and Experience

HICHC is a federally qualified health center (FQHC) with over 58 years’ experience managing federal grants, including the HRSA 330e program grant, and federal CIP grants including HRSA-21-114 (C8ECS44749). As a recipient of the federal grant funds, HICHC annually demonstrates to the federal government program compliance in all areas of operations including health center program eligibility, program oversight, service area needs assessment, staffing health services provision, delivery of services, quality improvement assurances, and financial oversight. HICHC undergoes an external management review and independent audit every year. In addition, every three years HICHC undergoes an Operational Site Visit in which HRSA officers conduct an on-site audit of all aspects of the organization’s operations and programs. Passing these audits demonstrates HICHC has the financial, clinical, and administrative systems in place and that patients are receiving quality, accessible, affordable health care.

HICHC has a strong senior management team with excellent management skills and many years’ experience in managing programs as well as construction projects. The key people are:

Project Manager has 28+ years of experience in the design and construction of residential and commercial facilities. He is an architect by training and operated his own design and construction company. He has managed three projects for HICHC over the past eight years.

Chief Executive Officer has 40+ years of managing and developing community-based programs, eighteen of those years running community health centers. He has overseen and directed eight major health care facility construction/renovation projects in excess of \$15 million. He has been WHCHC President/CEO since 2005 and is currently the CEO of the merged Hawaii Island Community Health Center.

Chief Finance Officer has an MBA in finance and experience in the non-profit as well as private sector for 30+ years. She has had experience with six renovation/new construction projects prior to HICHC. She has been with HICHC since 2008.

2. Facilities

Hawaii Island Community Health Center currently provides health care services at the following locations across Hawaii Island:

1. **Administrative Office Kona**; 75-5751 Kuakini Hwy., STE 230, Kailua-Kona, HI 96740
2. **Administrative Office Hilo**; 450 Kilauea Ave, STE 105, Hilo, HI 96720
3. **Kuakini Family Medical**; 75-5751 Kuakini Hwy., STE 101A, Kaulua-Kona, HI 96740

4. **Hilo Family Dental Center**; 1257 Kilauea Ave., STE 100, Hilo, HI 96720
5. **Hilo Women's Health Center**; 73 Puuhonu Pl., Hilo, HI 96720
6. **Kealakehe Elementary School Based Health Center**; 74-5118 Kealakaa St., Kailua Kona, HI 96740
7. **Kealakehe Intermediate School Based Health Center**; 74-5062 Onipaa St., Kailua Kona, HI 96740
8. **Honaunau School Based Health Center**; 83-5360 Mamalahoa Hwy., Captain Cook, HI 96704
9. **Kea`au Family Health and Dental**; 16-192 Pili Mua St., Kea`au, HI 96749
10. **Pahoa Women and Children's Health Center**; 15-2866 Pahoa Village Road, Pahoa, HI 96778
11. **Waikoloa Family Dental**; 68-1845 Waikoloa Rd., STE 205, Waikoloa, HI 96738
12. **Kealakekua Family Health (Medical & Dental)**; 81-980 Halekii St., STE 107, Kealakekua, HI 96750
13. **Hilo Family Health Center**; 1178 Kinooole Ave, Hilo, HI 96720
14. **Mobile Clinic East (Medical & Dental)**; 15-2866 Pahoa Village Rd., Pahoa, HI 96778
15. **Wailuku Family Health Center**; 305 Wailuku Dr., STE 2A, Hilo, HI 96720
16. **Kealakehe Family Medical & Dental**; 74-5214 Keanalehu Dr., Kailua Kona, HI 96740
17. **Pahoa Family Health Center**; 15-2866 Pahoa Village Rd., Pahoa, HI 96778
18. **Ka`u Family Health & Dental**; 95-5583 Mamalahoa Hwy., Naalehu, HI 96772
19. **Waikoloa Family Medical**; 68-1845 Waikoloa Rd., STE 207, Waikoloa HI 96738

VI. PERSONNEL: PROJECT ORGANIZATION AND STAFFING

1. Proposed Staffing, Staff Qualifications, Supervision and Training

The Kea`au Family Health Center will be staffed with four family physicians, a pediatrician, and three behavioral health specialists, as well as nursing and other support staff such as a care coordinator, case manager, eligibility, and outreach workers. All professional staff will be fully credentialed and certified.

Supervision of these staff will fall under the established management structure of the organization, with onsite clinical management given to a site supervisor. HICHC has regular staff department meetings and weekly senior leadership meetings. Training is made available to all staff and all new staff receive an initial orientation to the organization. Clinical staff also receives two weeks of clinical orientation from the Medical Director and Director of Nursing. In addition, HICHC management staff (IT, HR, finance, clinical quality, and nursing) will provide necessary supervision and on-going training and support to ensure all processes and workflows are standardized throughout the system. This is standard operating practice throughout the organization.

2. Organization Chart

The organization is governed by a Board of Directors, a majority of whom are users of the clinic's services. The Board has delegated responsibility for day-to-day operations to the President/CEO. The CEO and the management team oversee all functions of the organization. *See attached Organizational Chart*

3. Compensation of top (3) employees:

President/CEO -- \$275,000; Medical Director --\$270,000; Physician --\$254,615

VII. OTHER

1. Litigation

There is no pending litigation against West Hawaii Community Health Center (dba) Hawaii Island Community Health Center or any of the Center's staff.

2. Licensure or Accreditation

West Hawaii Community Health Center (dba) Hawaii Island Community Health Center has all required licenses needed to conduct a medical practice.

3. Private Education Institutions

Not applicable.

4. Future Sustainability Plan

Not Applicable –the request is for capital, not operational funds. Organization is fully funded for operations, as explained elsewhere in this application

**DECLARATION STATEMENT OF
APPLICANTS FOR GRANTS PURSUANT TO
CHAPTER 42F, HAWAII REVISIED STATUTES**

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
 - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
 - c) Agrees not to use state funds for entertainment or lobbying activities; and
 - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is incorporated under the laws of the State; and
 - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided; and
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
 - b) Has a governing board whose members have no material conflict of interest and serve without compensation.
- 4) The use of grant-in-aid funding complies with all provisions of the Constitution of the State of Hawaii (for example, pursuant to Article X, section 1, of the Constitution, the State cannot provide "... public funds ... for the support or benefit of any sectarian or nonsectarian private educational institution...").

Pursuant to Section 42F-103, Hawaii Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.
