JUSTIFICATION SHEET

DEPARTMENT: Public Safety

TITLE: A BILL FOR AN ACT RELATING TO THE ELECTRONIC PRESCRIPTION ACCOUNTABILITY SYSTEM.

PURPOSE: To change the current requirement to report the dispensing of controlled substances and drug samples to the electronic prescription accountability system from at least once every seven days to at least once a day, and to require a daily dispensing report of "zero", when no controlled substances are dispensed, at least once every seven days.

MEANS: Amend section 329-101(d), Hawaii Revised Statutes.

JUSTIFICATION: The current nationwide trend for reporting of controlled substances dispensing is to submit reports on a daily basis. This bill moves Hawaii closer to what is becoming a national standard. Additionally, new federal requirements for daily reporting are pending implementation, and this bill will position the State to readily comply with those requirements.

Impact on the public: The proposed amendment would aid prescribers and pharmacists by providing information about a patient's controlled substance prescription history, thereby allowing better prescribing and dispensing decisions.

Impact on the department and other agencies: The proposed amendment would assist the department's Narcotics Enforcement Division in determining compliance with the reporting requirements in section 329-101.
