Via Videoconference
Conference Room 211

HOUSE BILL NO. 1382 H.D. 2
RELATING TO MEAT DONATION

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on House Bill No. 1382 H.D. 2. The Agribusiness Development Corporation (ADC) supports this measure, which provides for donation of wild game to under-resourced communities, establishes a task force for development and implementation to expand meat processing capacity in the State and appropriates funds.

ADC supports the intent of the legislature to establish long-term, sustainable, management programs for invasive species, such as wild pigs and axis deer to feed our local under-resourced communities. The establishment of a task force will help identify and address the numerous hurdles to make the

inclusion of wild game as a donation-eligible food resource creates a beneficial outlet for food-safe meat harvested from invasive species a reality.

We urge the passage of this bill provided that its passage does not replace or adversely impact priorities indicated in our Executive Budget. Thank you for your consideration of our testimony.

JOSH GREEN, M.D.

**TESTIMONY OF SHARON HURD
CHAIRPERSON, BOARD OF AGRICULTURE**

BEFORE THE SENATE COMMITTEE ON WAYS AND MEANS

**MARCH 30, 2023
10:05 AM
CONFERENCE ROOM 211**

**HOUSE BILL NO.1382, HD2
RELATING TO MEAT DONATION**

Chairperson Dela Cruz and Members of the Committee:

Thank you for the opportunity to testify on House Bill 1382 HD2. The bill amends Section 145D-2, Hawaii Revised Statutes to add the donation of livestock or wild game meat; provided that the good-faith donor harvested the meat in a food safe manner, processed the meat in accordance with section 159-25 and the distributor reasonably believes that the food is fit for human consumption, as an exception from liability. The measure also establishes a meat processing taskforce and appropriates funds. The Department supports this measure and provides comments.

The definition of "donor" in 145D-2, HRS includes that the food in question has been prepared and packaged in a facility meeting all relevant food safety guidelines, certifications, and requirements and has passed all food safety inspections. Therefore, inspection of the food is still needed. If the intent is to provide state meat inspection, the state currently does not have meat inspection capabilities and it will take time to restart that program. The meat processing taskforce detailed in this measure should be able to account for this time and include it as part of the master plan it is tasked to produce.

The Department supports this measure, provided it does not impact the Department's priorities identified in the Executive Budget request. Thank you for the opportunity to testify on this measure.

March 29, 2023

TO: Honorable Senator Donovan M. Dela Cruz, Chair
Honorable Senator Gilbert S.C. Keith-Agaran, Vice Chair
Senate Committee on Ways and Means

FROM: Richard T. Bissen, Jr., Mayor
Rogerene K.M. Arce, Director of Agriculture

DATE: March 29, 2023

SUBJECT: SUPPORT OF HB1382 HD2, RELATING TO MEAT DONATION

Thank you for the opportunity to testify in **SUPPORT** of this important measure. The purpose of this measure is to amend the conditions for donations to allow provision of this important protein source to under-resourced communities, including the homeless.

Our administration **SUPPORTS** this measure for the following reasons:

1. This measure supports the use of axis deer and other wild game to be distributed by non-profits for food distribution, which would support fighting hunger in Maui County.
2. This measure supports livestock or wild game meat as donation-eligible food resource for human consumption.
3. Axis deer is an invasive species that poses a continuing threat to Maui County, and despite a current ongoing effort to control the growing deer population, there are an estimate of 60,000 deer roaming Maui County. Axis deer mitigation is a serious concern in Maui County because they eat cattle food sources and farmer's crops, cause soil erosion from over grazing, and threaten native species. This measure contributes to alleviating these challenges.

For the foregoing reasons, we offer our **SUPPORT** of this measure.

HAWAI'I FOREST INDUSTRY ASSOCIATION (HFIA)

Date: 03/28/2023

TO: WAM Chair Inouye, Vice Chair Elefante and WAM Committee Members

FROM: The Hawai'i Forest Industry Association (HFIA)

SUBJECT: In Support of HB1382 HD2 Relating to Meat Donation

Dear Chair Inouye and Committee Members,

On behalf of the Directors and members of the Hawai'i Forest Industry Association (HFIA), please support HB1382 HD2 Relating to Meat Donation.

Since 1989 HFIA has worked towards actualizing healthy and productive forests across the state of Hawaii. We believe that properly managing and utilizing game resources from forested lands plays an important role in revitalizing Hawai'i's Forests.

Expanding the opportunities to harvest, process and distribute wild game meat poses an opportunity to remove some of the burden ungulates have on our forest lands, all while feeding Hawai'i's families and those in need.

Please support HB1382 HD2.

Mahalo for your time and consideration,

Guy Cellier, Acting President

Hawaii Forest Industry Association

Established in 1989, HFIA's is a nonprofit organization founded by people committed to sustainable forest management. HFIA's mission is to promote healthy and productive forests and a sustainable forest industry through management, education, planning, information exchange, and advocacy. HFIA has over 130 members including woodworkers, landowners, sawyers, foundations, foresters, growers, educators, environmentalists, architects, millers, ranchers, and others interested in HFIA's mission and goals.

HB 1382 HD2

RELATING TO MEAT DONATION

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee:

Maui County Farm Bureau (MCFB) appreciates this opportunity to testify on this important issue. MCFB is a general agriculture advocacy organization representing farm and ranch families and organizations on the island of Maui.

MCFB STRONGLY SUPPORTS HB 1382 HD2 seeking to amend the Hawaii Good Samaritan law to include wild game.

Wild game provides an inexpensive source of protein for the needy. States across the country have been updating their Good Samaritan laws to include wild game as an authorized donation. A recent article from Illinois demonstrates the potential of a Deer Donation program to assist SNAP and other programs for the needy. <https://chronicleillinois.com/news/mclean-county-news/deer-donation-program-provides-nearly-25000-meals-across-12-counties/>

Long term sustainable solution to our feral animal problem lies in a comprehensive plan involving various government and private parties. It requires cooperation. Along with hunting rules, slaughter and processing capacity, and working with NGOs, this is one step of a process to address our increasing feral animal problem. MCFB respectfully requests your support of this measure.

Thank you for this opportunity to provide our opinion on this matter. Please contact Warren Watanabe at 8082819718 if there are any questions.

March 30, 2023

HEARING BEFORE THE
SENATE COMMITTEE ON WAYS AND MEANS

TESTIMONY ON HB 1382, HD2
RELATING TO MEAT DONATIONS

Conference Room 211 & Videoconference
10:05 AM

Aloha Chair Dela Cruz, Vice-Chair Keith-Agaran, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau supports HB 1382, HD2, which provides for donation of wild game to under-resourced communities and establishes a task force for development and implementation to expand meat processing capacity in the State.

Across the State, various invasive species are creating havoc in agriculture as well as the ecosystems in which they exist. Maui County's Axis Deer population is a good example of nature getting out of control with populations exploding due to abundant forage following rainfall events. They continue to destroy crops and pasture lands by devouring any living vegetation as they continue to spread. Feral pigs damage crops by consuming them or by their rooting and trampling of crops. They will eat almost any crop. Feral pigs damage pasture grasses, killing desired plant species and often encouraging the growth of undesired weed species. They can also devastate orchards by consuming fruit, citrus, and nuts and their rooting can severely damage, or even kill saplings, shrubs, and vines directly or by facilitating the spread of soil-based fungal diseases. Feral pigs can also break irrigation lines, rip or tear nets, drying racks, and other agricultural structures and equipment.

These and other feral populations can pose a danger, especially as populations grow and their health is put into jeopardy due to inadequate food. Diseases that they normally tolerate will become serious debilitating illnesses that could put our domestic livestock industry in jeopardy. Such fears are not unreasonable, as incidences such as bovine tuberculosis spread from feral pigs have been documented in Molokai.

Hawai'i's farmers and ranchers are working to provide Hawai'i with an increased level of self-sufficiency, but will not be able to do so if their products are consumed or damaged

by feral animals. Axis Deer, feral pigs, and other invasive species can cause major damage to property, agriculture (crops and livestock), Hawai'i's native species and ecosystems, and Hawai'i's cultural and historic resources. They can also threaten the health of people, wildlife, pets, and other domestic animals. As Hawai'i's feral animal populations continue to expand, these damages, costs, and risks will only keep rising

Current state law specifically prohibits the inclusion of meats as a donation. Wild game can be a significant source of protein for Hawai'i's residents in need. Wild game can provide a beneficial outlet for meat harvested from invasive species and provide a tool for long-term sustainable invasive management for Axis Deer and Feral Pigs.

Several states have amended their Good Samaritan laws to use as a tool for invasive white-tail deer management programs. Wild game meat donated under this provision does not need to undergo antemortem inspection requirements as long as stated conditions are met. Conditions for donations can be specified to allow the donation of this important protein source for our neighbors in need. Utah is the most recent state that passed such a measure and can be used as a model for Hawai'i.

Thank you for the opportunity to testify on this measure.

Hawaii Cattlemen's Council, Inc.
COMMITTEE ON WAYS AND MEANS
Senator Donovan M. Dela Cruz, Chair
Senator Gilbert S.C. Keith-Agaran, Vice Chair

HB1382, HD2
RELATING TO MEAT DONATION

Thursday, March 30, 2023, 10:05 AM
Conference Room 211 & Videoconference

Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Committee,

The Hawaii Cattlemen's Council (HCC) is the Statewide umbrella organization comprised of the four county-level Cattlemen's Associations. Our member ranchers represent over 60,000 head of beef cows; more than 75% of all the beef cows in the State. Ranchers are the stewards of over 750 thousand acres of land in Hawaii, or 20% of the State's total land mass. We represent the interests of Hawaii's cattle producers.

The Hawaii Cattlemen's Council **supports HB1382, HD2** which provides for donation of wild game to under-resourced communities. Establishes a task force for development and implementation to expand meat processing capacity in the State.

Allowing for the donation of wild game to under-resourced communities allows us to feed these communities high quality sources of protein, while also creating an outlet for efforts to remove invasive species such as deer, goat, and pigs from the environment. Unmanaged ungulates damage our ecosystems and cause detriment to farming and ranching operations. Expanding access to meat processing will help us to meet both environmental and social needs.

We appreciate the opportunity to testify on this measure.

Aloha Chair Dela Cruz, Vice Chair Keith-Agaran, and Members of the Senate Ways and Means Committee,

The Hawaii Farmers Union United (HFUU) is a 501(c)(5) agricultural advocacy nonprofit representing a network of over 2,500 family farmers and their supporters across the Hawaiian Islands. **HFUU supports HB1382.**

This bill will afford protection for livestock and wild game meat donation and create a task force to expand meat processing capacity in the State, thus creating more market outlets for our farmers and ranchers.

We find HB1382 to be a well-thought-out and beneficial measure that could result in greater food security for the people of Hawaii.

Mahalo for the opportunity to testify.

Kaipo Kekona, President HFUU/HFUF

Comments:

Aloha my name is Carolyn Auwelo and I am a Range Conservationist with the USDA Natural Resources Conservation Service. I am testifying as a private individual. I strongly support this bill.

Wildlife overpopulation does severe damage to our islands agricultural lands and ecosystems by overgrazing and causing severe soil erosion, less water infiltration and loss of the land's productive capacity as grazing land. Hawaiian society values the meat resource these animals are seen as. This bill will help support solutions that are more socially acceptable to our communities.

Thank you for supporting this bill.
