Place: Conference Room 308, State Capitol & Videoconference

From: Jovanie Domingo dela Cruz, Executive Director
DLIR – Office of Community Services

Position: Support

Re: H.B. 314 HD 1 RELATING TO FOOD BANKS

I. OVERVIEW OF PROPOSED LEGISLATION

This bill would appropriate funds to the Office of Community Services (OCS) to distribute these funds to food banks so that they could purchase food and distribute it to qualifying low-income people to supplement their food needs. The bill would require that the funds be allocated among the counties pursuant to the methodology that OCS uses in administering The Emergency Food Assistance Program (TEFAP), our largest federal food security program.

The bill would appropriate sums, in amounts to be identified, for the two upcoming State fiscal years – FY 2023-2024, which starts on July 1, 2023, and FY 2024-2025, which starts on July 1, 2024. The funds would allow food banks to pay for “the purchase, storage, and transportation costs of food for distribution to those in need.” Up to 15 percent of the appropriation could be used for administrative costs.

II. CURRENT LAW

Currently, Hawaii has no legislation at the State level in which a State agency receives appropriations to purchase food and distribute it, through food banks, to low-income people in the State. OCS currently administers federal programs that

perform similar functions, notably TEFAP – The Emergency Food Assistance Program. Under TEFAP, OCS receives large amounts of surplus food from the U.S. Department of Agriculture (USDA) that is distributed through Hawaii food banks as the primary agencies, which in turn distribute the food through smaller secondary agencies to recipient low-income people in the State.

Recently, USDA introduced a very small supplemental program within TEFAP that provides \$25,000 to the State of Hawaii for a farm-to-food bank program. OCS administers this program through contracts with Hawaii Foodbank and with The Food Basket, which is the food bank for the Island of Hawaii.

III. COMMENTS ON THE BILL

The Office of Community Services **supports** the intent of H.B. 314, provided that passage of the bill would not replace or adversely impact priorities in the Governor’s Budget Request.

OCS has three primary areas of inquiry with the bill.

The first area of inquiry involves procurement issues relating to which food banks would participate in the food distribution. Currently, no specific food banks are identified in the bill and there is no formal definition of “food bank” in the bill. Thus, it is not clear whether the appropriation should go ONLY to the three food banks that OCS currently works with in administering TEFAP, or whether other agencies that function as food banks would be eligible to receive a portion of the funding. OCS currently works with the following food banks for TEFAP: Hawaii Foodbank for Oahu and Kauai, Maui Food Bank for Maui County, and The Food Basket for Hawaii County.

If the Legislature intends that the appropriation be made for these specific food banks, it would be best for the Legislature to name them in the bill. If that happens, OCS can immediately enter into contracts with them through procurement exemptions. If the Legislature wants to allow other agencies to participate, then OCS would need to issue a Request for Proposals, after issuing a Request for Information. An open procurement process would delay the commencement of the program by at least three months but would allow other food distribution agencies to participate.

A second area of inquiry relates to food selection. Currently, the bill does not require the administering agencies to focus on, for example, canned commodities. By contrast, other bills that have been introduced in the past two years have expressly stated that the agencies can and should purchase **fresh** foods produced in Hawaii. This would improve the quality of food available to people needing this

support and it would help local farmers and keep more funds within Hawaii. Does the Legislature want to make such a provision in this bill, or does it want to leave food selection to the food banks?

A third set of questions relates to administrative costs. As the bill is currently written, it appears that the sums to be available for administrative costs – fifteen percent of the overall total – are intended to be for the food banks, without any portion for OCS. Since the bill currently does not yet specify the amount of funds to be appropriated, OCS cannot comment specifically on whether OCS would need additional funding and/or staffing for itself to handle the additional administrative work that this bill would impose on OCS's own current staff and budget. Accordingly, at this point OCS simply asks that the Legislature be open to allowing for a portion of the appropriation to be available for OCS to use for its own administrative responsibilities in implementing the bill. If the appropriation is very large and it is to be made on a recurring basis, OCS might need additional staff to administer it, and would hope that the Legislature would authorize one additional FTE staff person for OCS.

Thank you very much for the opportunity to testify.

FROM: Cathy Betts, Director

SUBJECT: [HB 314 HD1](#) – RELATING TO FOOD BANKS.

Hearing: Friday, February 24, 2023, Time 11:30 a.m.
Conference Room 308 & Via Videoconference, State Capitol

DEPARTMENT'S POSITION: The Department of Human Services (DHS) supports this bill and defers to the Office of Community Services as to administrative and budget needs. DHS respectfully requests that any appropriation not reduce or replace priorities identified in the executive budget.

PURPOSE: The purpose of the bill is to appropriate funds to the office of community services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with the emergency food assistance program's methodology to determine allocations to each of the four counties. Effective 7/30/3000. (HD1). The measure was amended by:

- (1) Changing the effective date to July 30, 3000, to encourage further discussion;
and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

DHS appreciates the Legislature's attention to the continuing nutritional needs of Hawaii's low-income residents as federal pandemic benefits are ending. The Department

administers the federally funded Supplemental Nutrition Assistance Program (SNAP). Since March 2020, SNAP has provided recipient households additional monthly SNAP benefits authorized by the Families First Coronavirus Response Act (FFCRA). This additional benefit is known as the Supplemental Emergency Allotment (EA). The minimum monthly EA amount issued is \$95, though the average household monthly EA amount has been \$199. The EA program has also helped boost revenue for local retailers.

Significantly, per the Consolidated Appropriations Act of 2023, the last EA payment will be in March 2023. The end of the EA benefits will directly impact approximately 87,000 households statewide to maintain their nutritional needs. In addition, while the October 2022 increase in the minimum wage and January 2023 Social Security cost of living adjustment increased many residents' income, for SNAP recipients, these increases in monthly income decreased the monthly amount of SNAP benefits. Therefore, providing OCS with additional funds to purchase and distribute food will provide additional food resources for low-income residents.

Thank you for the opportunity to provide comments on this measure.

HOUSE COMMITTEE ON FINANCE
Friday, February 24, 2023 — 11:30 a.m.

Ulupono Initiative supports HB 314 HD1, Relating to Food Banks.

Dear Chair Yamashita and Members of the Committee:

My name is Micah Munekata, and I am the Director of Government Affairs at Ulupono Initiative. We are a Hawai'i-focused impact investment firm that strives to improve the quality of life throughout the islands by helping our communities become more resilient and self-sufficient through locally produced food, renewable energy and clean transportation choices, and better management of freshwater resources.

Ulupono supports HB 314 HD1, which appropriates funds to the Office of Community Services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with the emergency food assistance program's methodology to determine allocations to each of the four counties.

Over the last few years, one of the most pressing issues for many local families has been food insecurity. With many out of work and surviving on government unemployment support, communities have relied on the efforts of food banks and local food producers to meet their basic need to eat.

Federal monies injected into Hawai'i through county initiatives helped to support a local farm-to-food bank effort, in which food banks were able to purchase local products for distribution to needy communities. This effort was a win-win-win, in that local food producers had a market to sell their products when hotels and restaurants shuttered their doors, local families received fresh and nutritious food products made locally island-wide, and food banks that were struggling to purchase shelf-stable food due to nationwide shortages were rescued by Hawai'i's farmers and ranchers who provided local food to their communities.

The Farm to Food Bank efforts across the state led to many important foundational relationships between local farmers, ranchers, and community feeding organizations that helped struggling communities cope with the social and economic consequences of the COVID pandemic. Unfortunately, natural disasters, food supply chain disruptions, and state emergencies have become a harsh, consistent reality for our local communities. Food banks across the state will need support to meet these food security challenges.

Thank you for the opportunity to testify.

Re: Support for HB314 HD1, Relating to Food Banks

Hrg: Friday, February 24, 2023, at 11:30 AM, Conf Rm 308

The Obesity Prevention Task Force (OPTF), a program of Hawai'i Public Health Instituteⁱ (HIPHI), is in **support of HB 314 HD1**, which would provide funding for the food bank system in Hawai'i.

Many people can benefit.

In Hawai'i, 1 in 10 people faces hunger, including 1 in 6 children. The cost to meet the demands of the more than 130,000 people in Hawai'i facing hunger is over \$80 million per year.ⁱⁱ

Many people in need do not qualify for SNAP benefits and depend on the food bank system for their meals. The demand for food is increasing, as Food Banks are giving out more food now than in previous years.ⁱⁱⁱ

Strengthen the safety net by funding food access

The Hawai'i food bank system largely depends on private donations to help feed people. These donations help to provide a public good to our communities. This bill will bring state funding to those in need and not force food banks and their customers to rely solely on the generosity of private donors.

Food and housing are major financial obstacles in Hawai'i. Because there are few affordable state housing options for people, tens of thousands of residents leave for more affordable options. It is time for the state to support the social safety net to feed those who can barely afford housing and food.^{iv} Other states provide funding to support their food banks, and it is time for Hawai'i to do so.

Rising costs have made procuring food more difficult.

The increased cost of living worldwide has led to decreased donations to the Food Bank system. As prices rise for everyone, donations decline. The decrease in private donations has led to a food shortage for the Food Basket over the past year because private donations have fallen so sharply that they require significantly more funds to purchase food.^v This situation is not unique to the Food Basket. All food banks need more support to provide food to those who need it. The State of Hawai'i can be a partner by funding the food banks so they can meet the needs of our community.

Mahalo,

Nate Hix
Food Access Policy and Advocacy Coordinator
Hawai'i Public Health Institute

ⁱ Created by the legislature in 2012, the Obesity Prevention Task Force comprises over 60 statewide organizations and makes recommendations to reshape Hawai'i's school, work, community, and healthcare environments, making healthier lifestyles obtainable for all Hawai'i residents. The Hawai'i Public Health Institute (HIPHI) convenes the Task Force and supports and promotes policy efforts to create a healthy Hawai'i.

Hawai'i Public Health Institute is a hub for building healthy communities, providing issue-based advocacy, education, and technical assistance through partnerships with government, academia, foundations, business, and community-based organizations.

THE FOOD BASKET

HAWAI'I ISLAND'S FOOD BANK

February 22, 2023

To: The Honorable Representative Kyle T. Yamashita, Chair
The Honorable Representative Lisa Kitagawa, Vice Chair
House Committee on Finance

From: Kristin Frost Albrecht, Executive Director
The Food Basket, Hawai'i Island's Food Bank

Testimony in Strong Support of HB 314 HD1, Relating to appropriating funds to support Hawai'i's Food Banks

Aloha Chair Yamashita and Vice Chair Kitagawa,

My name is Kristin Frost Albrecht, and I am the Executive Director of The Food Basket Inc., Hawai'i Island's Food Bank. Our mission is to "End hunger in Hawaii County". We strongly support this bill.

The impacts of the COVID 19 pandemic have heightened the issues of food insecurity and hunger in our state to new levels. Due to the ongoing economic impacts of the pandemic on Hawai'i Island, our food banks in Kona and Hilo have faced the highest need in our thirty-four-year history, with record numbers of residents needing our services. Although the economy is improving, we are still serving over three times more than we served pre-pandemic as our residents' grapple with the long-term impacts of the pandemic, as well as the rising costs of rent, groceries, gas, and utilities.

Due to ongoing breaks in the supply chain, the need remains high and is forecast to remain high for the next couple of years; federal commodities are falling; and philanthropy, while still higher than pre-pandemic levels, is much reduced over the height of the pandemic. Food banks are a critical safety net in our food and disaster response system that need stable, core funding to operate as efficiently and effectively as our communities need them too. The State's food banks need support to continue to ensure no-one goes hungry.

We respectfully ask your committee to pass this bill.

Thank you for the opportunity to testify.

Kristin Frost Albrecht
Executive Director, The Food Basket Inc., Hawai'i Island's Food Bank

February 24, 2023

HEARING BEFORE THE
HOUSE COMMITTEE ON FINANCE

**TESTIMONY ON HB 314, HD1
RELATING TO FOOD BANKS**

Room 308 & Videoconference
11:30 AM

Aloha Chair Yamashita, Vice-Chair Kitagawa, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau supports HB 314, HD1, which appropriates funds to the office of community services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with the emergency food assistance program's methodology to determine allocations to each of the four counties.

The Coronavirus Pandemic has disrupted Hawai'i's local food systems and caused many local producers to lose their local markets. Many catered to tourism, large-scale events, hotels, restaurants, cruise ships, farmers' markets, and school lunch programs, which were non-existent during Hawai'i's shutdown.

Like small businesses around the state, without open and consistent markets, local farmers and ranchers will decrease food production levels and will likely downsize and/or go out of business. To help address the state's food security during the pandemic, Hawai'i's food banks partnered with local food producers to ensure that farmers and ranchers could survive.

After urgent health issues, feeding our community is the most critical challenge we face in the continuing coronavirus pandemic. With no clear end to the crisis within sight, we are already seeing the attention of leaders from around the world shift as food producer markets contract and transportation networks are shaken to their core.

During the pandemic, the Hawai'i Farm Bureau partnered with Hawai'i's food banks to provide local agricultural produce and proteins for their food assistance programs. This partnership provided nearly \$3,000,000 of locally grown, high-quality, nutritious

produce to our communities in need. We were also a food partner at the Foodbank's mass food distributions which provided locally grown produce for over 50,000 families. As an organization that aggregates and distributes food, the Hawai'i Foodbank staff brought valuable logistical insight to these events. The combined efforts of the Hawai'i Foodbank, the Hawai'i Farm Bureau, and other partner organizations allowed tens of thousands of families to have access to food during unprecedented times. This win-win partnership connected local producers that lost markets and revenue sources due to COVID-19 with the Hawai'i Foodbank to meet the increased demands of feeding Hawai'i's communities.

The dedicated funding for the emergency food assistance program will provide funds to Hawai'i's food banks that support non-profit and community feeding programs by providing community meals during emergencies. This also will help keep Hawai'i's farmers farming while also providing nutritional food to those who need it most. More than ever, the State of Hawai'i needs to assure local food production to meet the needs of the hundreds of thousands of Hawai'i families affected by this emergency and future emergencies.

Thank you for the opportunity to testify on this measure.

HB-314-HD-1

Submitted on: 2/23/2023 8:59:07 AM

Testimony for FIN on 2/24/2023 11:30:00 AM

Submitted By	Organization	Testifier Position	Testify
Darin Shigeta	Hawaii FoodBank	Support	Written Testimony Only

Comments:

Honorable Chair Yamashita, Vice Chair Kitagawa, and Representative.

Thank you very much for your consideration of this very important measure. My name is Darin Shigeta, and I am currently the Board Treasurer for the Hawaii Foodbank, having been a Board Member for nearly 5 years.

I would like to submit brief testimony in support of H.B. 314: Relating to Food Banks, which appropriates funds to the Office of Community Services for the purchase, storage, and transportation costs of food for distribution to those in need, in accordance with existing methodology to determine allocations to each of the four counties.

The Bill will facilitate the Foodbank’s ability to continue our mission of providing food so that no one in our Community goes hungry. 1 in 6 Hawaii residents will struggle with hunger this year, including 82,000 children, lacking reliable access to a sufficient quantity of affordable, nutritious food. The food banks have the trusted relationships and purchasing power to source efficiently and distribute food equitably through their network of partners. They now need to be regularly supported by the state for the life-saving services that they provide to Hawai‘i’s citizens. Many states provide funding for food banks to purchase food to ensure they meet food insecurity needs.

As you are all aware, the COVID Pandemic completely changed the war on hunger on many fronts, a war that we are still fighting today. The Foodbank needed to almost double the amount of food distributed since the pandemic started, while also navigating changes to donation preferences, delivery protocols, operational impacts due to health and safety, and a very limited ability to hold fundraisers. While some have recovered from the pandemic’s impacts, many have not, and now we are entering a new element of uncertainty with pandemic-related assistance used up, significant inflation, supply chain issues, and overall economic insecurity.

Dollars for food purchase are important to our food system because they:

- Support food banks’ ability to purchase items people want – nutrient dense foods like produce and protein are most requested.
- Expands food banks’ ability to purchase local foods, which are often limited and more expensive;
- Allow food banks to be more thoughtful about nutrition and purchase healthier items

In conclusion, the work that the Food Banks do on a daily basis is critical to supporting the needs of various communities within our Ohana. We respectfully request support for House Bill 314, which will allow us to continue to serve our mission to those who have been brave enough to raise their hand for help, advocating for those who have not yet drawn that courage, and positioning ourselves as Pillars of Hope in the event of a disaster or worst-case scenario.

Thank you very much for your time and consideration today.

February 23, 2023

Rep. Kyle Yamashita, Chair
Rep. Lisa Kitagawa, Vice Chair
House Committee on Human Services

RE: Testimony in strong support of HB 314, Relating to Food Banks

Dear Chair Yamashita, Vice Chair Kitagawa, and Committee Members,

On behalf of Hawai'i Foodbank, I **strongly support HB 314**, which would appropriate funds to the office of community services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with the emergency food assistance program's methodology to determine allocations to each of the four counties.

Food security is a critical issue in Hawai'i, and the State Emergency Food Assistance Program (SEFAP) established in 2022 provides important support to meet this ongoing need.

- Hawai'i has the highest cost of living in the nation, and food security is an ongoing challenge – one in six residents lacks comprehensive access to healthy, nutritious food. One in four children is food insecure.
- The pandemic amplified the need, and the network of food banks responded by significantly increasing purchases to provide for our communities. We continue to serve 50% more people than we did before Covid.
- Inflation has increased food prices 24% since the beginning of the pandemic, making it difficult for many families to make ends meet and putting pressure on the charitable food system as well.
- Downturns in retail donations and USDA commodities have changed the food bank model. We purchase food efficiently and ensure we distribute equitably through our network of community partners.
- Purchasing food allows us to buy items that people want and need, rather than relying exclusively on donated and USDA commodity foods. We consistently hear requests for fresh produce and healthy protein, and SEFAP funds allow us to meet this demand and support the health and well-being of those we serve.
- Food banks are able to really stretch a dollar due to our relationships with producers, manufacturers, and distributors both locally and on the mainland. For each dollar received by Hawai'i Foodbank, we can provide food for more than two meals.
- Many other states support their network of food banks with core funding for food security needs.

We respectfully request the bill be amended to include funding for the Office of Community Services to administer the program.

Hawai'i Foodbank gathers donated, rescued, USDA commodity and purchased food and distributes it to those in need through our network of more than 200 agency partners. Ongoing, core funding allows us to purchase healthy foods, which helps us better support our agency partners who directly serve our communities and ensure no one goes hungry.

RE: HB314 HD1 Relating to Food Banks

Position: Support

The Hawaii Food Industry Association is comprised of two hundred member companies representing retailers, suppliers, producers, and distributors of food and beverage related products in the State of Hawaii.

HFIA is in support of this measure. As the measure notes our state's food banks are essential every day in ensuring that food insecure individuals in Hawaii have access to food. In times of natural disasters or other crisis our food banks have also been tasked with taking the lead on mass feedings.

Unfortunately, due to the high cost of living and the recent historic inflation and other factors many people in our state face food insecurity. The food bank is a vital resource for these individuals and families.

These same issues mean that many people in Hawaii cannot afford to buy and store the recommended two weeks of food that experts recommend households have on hand in case of an emergency. Estimates vary but many experts agree that there is less than a week's worth of food in our state at any given time. Hoarding and panic buying by some could shorten that duration. As the agencies tasked with feeding our state in times of crisis it is vital that our food banks are adequately funded in order to fulfil that role, and of course to be able to continue to provide support to those who need it day to day.

We urge the Committee to pass this measure and we thank you for the opportunity to testify.

Honolulu, HI 96821

February 23, 2023

Rep. Kyle Yamashita, Chair
Rep. Lisa Kitagawa, Vice Chair
House Committee on Finance

Testimony in support of HB 314, Relating to Food Banks

Aloha Chair Yamashita, Vice Chair Kitagawa, and Committee Members:

I am testifying on behalf of Angel Network Charities (ANC).

I support HB 314, which would appropriate funds to the office of community services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with the emergency food assistance program's methodology to determine allocations to each of the four counties.

ANC provides support to the East Oahu communities through its food pantry. With no paid employees and approximately forty regular volunteers, ANC manages to extend its reach across Oahu with the assistance from the Hawaii Foodbank to over 1,000 families each month. Since the onset of the COVID pandemic, the demand for ANC pantry services has not diminished and the food insecurity continue to increase. The Hawaii Foodbank donates over 75,000 pounds to our pantry each month.

Mahalo for your consideration.

Nearly half of children in Hawai'i live in households experiencing financial hardship. While almost 1 in 8 are in poverty, an additional one-third of families in Hawaii aren't officially poor but still don't earn enough to afford the basic life essentials.¹ As a result, over 50,000 of our state's keiki, or 1 in 6, face hunger.²

It is well established that the stresses of childhood poverty have both immediate and long-term effects on keiki's physical and mental health, behavioral self-control, academic achievement, and earnings as adults.³

That's why it's so important to support Hawai'i's food banks. They and their partner agencies help ensure that struggling families do not go hungry by distributing millions of pounds of food per year to those in need in our state.

Food banks were a lifeline during the pandemic, when our state had some of the highest unemployment rates in the nation. But even with folks back at work, the current high inflation has led to our state's food banks to continue to see unprecedented demand. That is unlikely to abate, as Hawai'i had the most expensive groceries in the nation⁴ even before the pandemic, and will continue to do so.

Many other states recognize the crucial role that food banks play in their communities by providing them with funding to purchase food to distribute to families who would otherwise go hungry. Hawai'i should do the same.

Mahalo for the opportunity to provide this testimony. Please pass this bill.

Thank you,

Nicole Woo

Re: HB 314, HD1, Relating to Food Assistance

Chair Yamashita, Vice Chair Kitagawa, and committee members, thank you for this opportunity to provide testimony on HB 314, HD1, which appropriate funds for the Office of Community Services to supplement the Emergency Food Assistance Program for the purchase, storage, and transportation costs of food distribution to those in need.

Kaiser Permanente Hawai'i SUPPORTS HB 314, HD1.

Kaiser Permanente Hawai'i is one of the nation's largest not-for-profit health plans, serving 12.6 million members nationwide, and more than 269,000 members in Hawai'i. In Hawai'i, more than 4,200 dedicated employees and more than 650 Hawai'i Permanente Medical Group physicians and advance practice providers work in our integrated health system to provide our members coordinated care and coverage. Kaiser Permanente Hawai'i has more than 20+ medical facilities, including our award-winning Moanalua Medical Center. We continue to provide high-quality coordinated care for our members and deliver on our commitment to improve the health of our members and the 1.4 million people living in the communities we serve.

We know that food insecurity increased due to the COVID-19 pandemic. The four Hawai'i food banks administering The Emergency Food Assistance Program served a critical role for many families facing food insecurities due to job loss and other reasons related to the pandemic and were able to meet the State's increased need for food during the height of the COVID-19 pandemic due to a major increase in federal funds and philanthropy. However, with consistent federal funds, via American Rescue Plan Act (ARPA), ending these food banks will struggle to continue to meet the needs of our local residents who need this help.

Kaiser Permanente Hawai'i supports policies that ensure all Hawaii residents have access to affordable, high-quality health care. Further, Kaiser Permanente supports "whole-person care," including the provision of access to services and resources that address beneficiaries' physical

health, mental health and social needs. Food security means that all people, at all times, have physical, social, and economic access to sufficient, safe, and nutritious food that meets their food preferences and dietary needs for an active and healthy lifestyle. To this end, in 2022 Kaiser Permanente Hawai‘i invested \$245,000 in grants to community-based organizations to improve food security in Hawaii by increasing availability of emergency food distributions and improving participation in federal food programs such as SNAP. We also carried out our own SNAP campaign to at-risk members. In additions, some of our investments leveraged matching funds for the Double Bucks and TEFAP programs. These grants went on to support programs that increased food security for pregnant and postpartum mothers in low-income, underserved communities.

We support HB 314, HD1 because it will provide necessary funding to enable Hawai‘i’s food banks administering The Emergency Food Assistance Program to continue to meet the food security needs of the people of Hawai‘i.

Mahalo for the opportunity to testify on this important measure.

RE: HOUSE BILL NO. 0314, HOUSE DRAFT 1, RELATING TO FOOD BANKS.

Chair Yamashita, Vice Chair Kitagawa, and Members of the Committee:

The Hawaii Primary Care Association (HPCA) is a 501(c)(3) organization established to advocate for, expand access to, and sustain high quality care through the statewide network of Community Health Centers throughout the State of Hawaii. The HPCA **SUPPORTS THE INTENT** House Bill No. 0314, House Draft 1, RELATING TO FOOD BANKS.

By way of background, the HPCA represents Hawaii's Federally Qualified Health Centers (FQHCs). FQHCs provide desperately needed medical services at the frontlines to over 150,000 patients each year who live in rural and underserved communities. Long considered champions for creating a more sustainable, integrated, and wellness-oriented system of health, FQHCs provide a more efficient, more effective and more comprehensive system of healthcare.

The bill, as received by your Committee, would appropriate an unspecified amount of general funds for fiscal years 2023-2024 and 2024-2025, to fund the purchase, storage, and transportation costs of food for distribution to those in need. The funds would be expended by the Office of Community Services of the Department of Labor and Industrial Relations.

The bill would also take effect on June 30, 3000.

The COVID-19 pandemic has severely threatened the health and welfare of our citizens, especially Hawaii's underprivileged and rural communities. With so many people unemployed and underemployed, entire families are struggling to put food on the table on a consistent basis. Even as the public health emergency draws to a close, families continue to struggle.

Testimony on House Bill No. 0314, House Draft 1
Friday, February 24, 2023; 11:30 a.m.
Page 2

Because of this, it is imperative that the Legislature shore up Hawaii's social service safety net of which the network of food banks is a vital component. This is especially warranted in light of record general fund surpluses and the possibility of economic downturns in the near future.

On a technical note, we observe that this bill might be in conflict with Chapter 42F, Hawaii Revised Statutes, and could be construed as facilitating direct state funding to private entities. Because of this, the HPCA strongly urges this committee to consult with the Majority Attorney for clarification on legal check.

Despite this technical observation, the HPCA strongly urges your favorable consideration of this bill.

Thank you for the opportunity to testify. Should you have any questions, please do not hesitate to contact Public Affairs and Policy Director Erik K. Abe at 536-8442, or eabe@hawaiiipca.net.

Comments:

Thank you for the opportunity to testify in support of H.B. 314: Relating to Food Banks, which would appropriate funds to the office of community services for the purchase, storage, and transportation costs of food for distribution to those in need in accordance with existing methodology to determine allocations to each of the four counties.

One in six Hawaii residents are experiencing food insecurity today. Our food banks are vital to ensure that we feed the hungry including during pandemics like Covid where food insecurity escalated significantly. One example is the need for food banks to purchase more food as food received through donations is not enough.

Purchasing food is also much more efficient and effective than food drives because food banks can purchase items that people want and that are more nutritious, compared to randomly donated food items. Food purchasing can also be done at the local level which can support local businesses and cater to the local cultural tastes and with more balanced nutritional value.

Our Hawaii food banks need financial support to serve our community and provide a safety net especially during pandemics and natural disasters.

Comments:

The proposed legislation, HB314, would provide much-needed funding to the office of community services to support the purchase, storage, and transportation of food for distribution to those in need. This funding would not only help to ensure that food banks have an adequate supply of nutritious food to distribute to families and individuals, but it would also reduce the financial burden on local food banks, allowing them to expand their reach and serve more people in need.

By supporting this legislation, we can take a crucial step towards combating food insecurity in our communities and helping families and individuals in need access the nutrition they require to thrive. I urge lawmakers to support HB314 and to prioritize funding for food assistance programs that support those who are struggling to put food on the table.

RE: HB 314, HD1 Relating to Food Banks

Dear Chair Yamashita, Vice Chair Kitagawa, and Committee Members,

I am writing to **SUPPORT** House Bill 314, HD1.

My name is Charla Teves. I am a college student and a life-long resident of Honolulu. The news reports about radio djs mocking a popular local singer when she spoke about her experience with childhood food insecurity motivates to support this bill. Their insensitivity opened my eyes to the intensive needs right here in our community. I am asking for your help to adopt policies that will eliminate hunger in our lifetime.

One in five Hawaii children struggle with hunger, according to Feeding America. At more than 55,000 children, they would fill the Stan Sheriff Center four times over and still overflow into the parking lot. In 2021, I was one of 100 students nationwide awarded a Youth Service America and Sodexo Stop Hunger grant which enabled me to convene a Hawai'i virtual end hunger summit. Many state legislators, community leaders, students, and young adults convened to share their ideas such as supporting a statewide food policy and school gardens. I learned so much from the experience that I can no longer remain quiet. Since then, I have volunteered with many food drives and in other ways to help end hunger. Based on these experiences, I know for sure that your support of food banks in Hawaii will make a difference.

Thank you for the opportunity to testify in support of this bill.
