Members of the Senate Committee on Energy, Economic Development,
and Tourism

FROM: Sylvia Luke, Lieutenant Governor

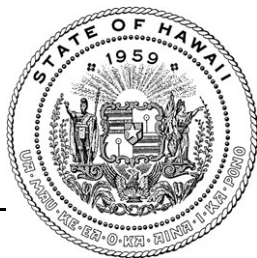

RE: Testimony for S.B. 829 – Relating to Broadband

DATE: February 2, 2023

Thank you for the opportunity to provide testimony in **strong support of S.B. 829** which appropriates general funds that are required to match federal funds for broadband programs.

The COVID-19 worldwide pandemic showed us that reliable, high-speed internet access is not only important for remote-learning and remote-work, but critical for tele-health services, commerce, and for Hawaii to stay connected to the world. The Governor has entrusted my office to oversee initiatives that will modernize our state's broadband infrastructure and ensure access to high quality connectivity, particularly in rural areas. Over the next few years, Hawaii is poised to receive millions of dollars in formula and competitive federal grants to support broadband expansion, some of which require matching funds from the state.

Thank you for the opportunity to provide testimony in strong support of S.B. 961.

Statement of
Chris J. Sadayasu
Director

Department of Business, Economic Development, and Tourism
before the

SENATE COMMITTEE ON ENERGY, ECONOMIC DEVELOPMENT AND TOURISM

Thursday, February 2, 2023
1:00 PM
State Capitol, Conference Room 229

In consideration of
SB 829
RELATING TO BROADBAND.

Chair Decoite, Vice Chair Wakai and members of the Committee. The Department of Business, Economic Development and Tourism (DBEDT) **supports SB829** that appropriates general fund moneys that are required to match federal moneys for broadband programs.

In the Notice of Funding Opportunity for the Broadband, Equity, Access, and Deployment issued on May 13, 2022 by the National Telecommunications and Information Administration (NTIA-BEAD-2022) it states each Eligible Entity shall provide, require its subgrantee to provide, or provide in concert with its subgrantee, matching funds of not less than 25 percent of project costs. This moneys will help to meet that requirement.

Over the course of the last three years, the COVID-19 pandemic has spotlighted the need for broadband infrastructure and digital equity for all of Hawai'i's residents and community stakeholders. Consequently, the federal government identified the need to fund broadband infrastructure and digital equity programs across the country.

With this once in a generation opportunity, it is important that we meet this requirement to maximize the federal government's investment in Hawai'i.

We support this bill provided that its passage does not replace or adversely impact priorities indicated in our Executive Budget.

Thank you for the opportunity to submit this testimony.

University of Hawai'i System

SB 829 – RELATING TO BROADBAND

Chair DeCoite, Vice Chair Wakai, and Members of the Committee:

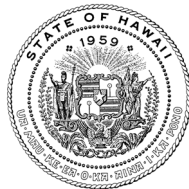

The University of Hawai'i, representing the State's broadband interests, supports SB 829.

The appropriation of \$33,000,000 will ensure that Hawai'i can fully utilize the initial \$100,000,000 in state allocation for the National Telecommunications and Information Administration (NTIA) Broadband Equity, Access, and Deployment (BEAD) program. BEAD is the largest of the federal broadband funding programs supporting states and territories, and requires that states provide matching funds of at least 25% of the total project costs. The program funds a wide range of eligible costs, and places a priority for states to address robust, reliable and affordable broadband access to those residents that are currently unserved by existing telecommunications providers.

Hawai'i is currently in the process of developing the required Five-Year Plan, due to NTIA in July, that will articulate the state's approach to statewide investments to maximize the benefits of federal broadband funds. This effort is funded by BEAD Planning Funds allocated to Hawai'i, and shall include community outreach for the planning effort, and over the course of the project execution funded by state BEAD funds.

Thank you for the opportunity to provide testimony in support on SB 829.

TO THE SENATE COMMITTEE ON ENERGY, ECONOMIC DEVELOPMENT, AND
TOURISM
ON
SENATE BILL NO. 829

February 2, 2023
1:00 p.m.
Room 229 and Videoconference

RELATING TO BROADBAND

The Department of Budget and Finance supports Senate Bill No. 829, which appropriates general funds needed to provide non-federal matching funds for various federal broadband grant programs, including \$33,000,000 in matching funds for the Broadband Equity, Access, and Deployment (BEAD) Program; appropriates \$95,000,000 in FY 24 out of funds the State of Hawai'i receives from the Infrastructure Investment and Jobs Act; and makes unspecified general fund appropriations in FY 24 and FY 25 to provide additional matching funds for federal broadband-related programs.

Access to high-speed internet is an essential need in the State. There are several federal programs that provide significant amounts of funding to states to improve broadband access. Some of these programs, including the BEAD Program, require matching funds. At this time, the State will need to show a 25% match for the BEAD Program which amounts to matching funds of \$33,000,000. The State is likely to be awarded additional BEAD funding and will need to demonstrate that additional matching funds are available. The amount of the additional matching funds is not

known at this time. This bill includes the known required State match amount (\$33,000,000), \$95,000,000 in federal funds, as well as blank appropriations for FY 24 and FY 25 for additional match requirements that may be required.

In addition, given the possibility that supply chain difficulties may delay the construction of the facilities for the BEAD Program, an extended lapse date of June 30, 2026, for the appropriations made in this bill has been provided.

Thank you for your consideration of our comments.

Comments:

Honorable Chair DeCoite, Honorable Vice Chair Wakai, and Members of the Committee on Energy, Economic Development, and Tourism:

Hawaii County wholeheartedly supports SB829. This bill clearly supports our efforts to provide broadband access to all residents of Hawaii Island, especially those who most need it, to include our kupuna, our keiki, and our rural residents. The opportunities to improve digital literacy and equity are also enhanced by this bill. We enthusiastically request the Committee forward SB829 to the Senate with a positive recommendation for passage.

Thank you for the opportunity to testify.

very respectfully

Douglass S. Adams

Director, Department of Research & Development, County of Hawaii

RE: SENATE BILL NO. 0829, RELATING TO BROADBAND

Chair DeCoite, Vice Chair Wakai, and Members of the Committee:

The Hawaii Primary Care Association (HPCA) is a 501(c)(3) organization established to advocate for, expand access to, and sustain high quality care through the statewide network of Community Health Centers throughout the State of Hawaii. The HPCA **SUPPORTS** Senate Bill No. 0829, RELATING TO BROADBAND.

By way of background, the HPCA represents Hawaii's Federally Qualified Health Centers (FQHCs). FQHCs provide desperately needed medical services at the frontlines to over 150,000 patients each year who live in rural and underserved communities. Long considered champions for creating a more sustainable, integrated, and wellness-oriented system of health, FQHCs provide a more efficient, more effective and more comprehensive system of healthcare.

This bill, as received by your Committee, would:

- (1) Appropriate \$33,000,000 in general funds for fiscal year 2023-2024, to provide matching funds for the broadband equity, access, and deployment program (Program);
- (2) Stipulate that these funds not lapse at the end of the fiscal year, and that all moneys not encumbered as of June 30, 2026 lapse to the general fund;
- (3) Appropriate \$95,000,000 in Infrastructure Investment and Jobs Act Funds for fiscal year 2023-2024, to provide for the Program;
- (4) Appropriate an unspecified amount of general funds for fiscal years 2023-2024 and 2024-2025 to provide additional matching funds required to access federal funds for programs related to broadband;

- (5) Stipulate that these funds not lapse at the end of the fiscal year, and that all moneys not encumbered as of June 30, 2026 lapse to the general fund; and
- (6) Take effect on July 1, 2023.

Hawaii has long been at the forefront of integrating newer technologies into daily life. One example of this is Hawaii's Telehealth Law which has served as a model across the United States. Yet, it was only after COVID struck our islands that this law became fully integrated into daily life.

Today, it is common practice to ZOOM or SKYPE with your health practitioner instead of physically going to the provider's office for a visit. When COVID first hit our islands, many health providers had to limit the number of patients that could be serviced in-person because of a scarcity of Personal Protective Equipment, restrictions in the gatherings of groups, and the need for changes to the physical arrangement of examination rooms and other diagnostic facilities.

For people with adequate broadband access, telehealth was a lifeline for the provision of essential primary health care services. Yet, health care facilities in rural areas experienced the same problems when COVID hit. They too had to limit the number of patients they could see. But because these communities lacked adequate broadband access, they were effectively cut off from primary care. Many were forced to bear their maladies until it became necessary to go to the emergency room.

Because of this, the HPCA views the lack of broadband access in rural areas as an issue of social equity. In this day and age, everyone should have equal access to health care. Telehealth was envisioned as the means of leveling the field between urban and rural areas. The lack of broadband ensures that urban and rural communities remain unequal.

For these reasons, the HPCA urges your favorable consideration of this measure.

Thank you for the opportunity to testify. Should you have any questions, please do not hesitate to contact Public Affairs and Policy Director Erik K. Abe at 536-8442, or eabe@hawaiiipca.net.
