JUSTIFICATION SHEET

DEPARTMENT: Defense

TITLE: A BILL FOR AN ACT RELATING TO THE HAWAII NATIONAL GUARD.

PURPOSE: To authorize the payment of allowances for TRICARE Reserve Select (TRS) coverages to junior officers, warrant officers, or enlisted personnel of the Hawaii National Guard (HING) ordered to active duty for more than 30 days in service to the State. This bill would allow the HING to add TRS premium payments to the authorized allowances for officers in the grades of O-3 and below, warrant officers in the grades of CW-2 and below, and enlisted personnel in the grades of E-6 and below when on active duty in the service of the State for more than 30 days and when the service member is not otherwise covered by state or federally funded medical insurance or by their civilian employer.

MEANS: Amend sections 121-39 and 121-40, Hawaii Revised Statutes (HRS).

JUSTIFICATION: There currently is no authority to provide health insurance for HING service members who are ordered to active duty in the service of the State under section 121-39 or 121-40, HRS.

When HING service members are ordered to active duty for more than 30 days, they may not have medical insurance to cover them or their families for routine medical care; the service member is only covered for injuries or illnesses determined to have occurred or caused by their performance of duty. If they are employed, their civilian employers are not required to continue to pay for the service members' medical insurance. This creates a personal and financial hardship for the service member and their family should an issue arise that requires medical treatment, such as a doctor's visit, an

emergency procedure, etc. Additionally, because the cost of medical insurance is high many service members assume risk for themselves and their families and forgo health insurance while they are activated in support of the State.

Furthermore, the lack of health insurance makes it challenging for service members to volunteer for active duty in service of the State without experiencing great personal hardship. When service members are activated for federal service, HING service members and their families have health insurance coverage. HING service members and their families should have equivalent coverage and not have to risk their health care when supporting the State.

Additionally, the financial hardship could also have a negative impact on HING recruiting and retention efforts, considering the increasing trend to respond to lengthy state disasters and emergencies.

Impact on the public: The authorization for the inclusion of TRICARE Reserve Select premium payments as an allowance will assist in increased recruiting efforts for the HING as well as creating a more available force to provide immediate response to the citizens of the State of Hawaii.

Impact on the department and other agencies: Positive impact to the Department of Defense. No known negative impact on other departments.

GENERAL FUND: None (Funds will come from the Major Disaster Fund).

OTHER FUNDS: None.
