We will get through this together!

WORKING TOGETHER!

House District 43 COVID Test & Vaccination Clinics

The last few weeks community leaders came together to provide opportunity for community members to get a COVID test and or vaccination. It has been about choice and providing access. I would like to mahalo everyone that came together to make this happen.

Part of the work has been done with Hawaii Public Health Nurses that walked Nānākuli Homestead, Department of Health providing presentations for community members, parents, students & staff at Nānākuli High & Intermediate School and answering the many questions people had.

We have had numerous community members reach out and express how much they have appreciated the kākou effort and the hard work!
