EDUCATION

1978 – 1981 Maui Community College
1974 -1978 Aiea High School

ABOUT MYSELF

I was born and raised on the Island of Oahu, surrounded by sugar cane fields, in the town of Aiea. After graduation, I relocated to Maui where I enrolled in the carpentry program at the Maui Community College. I lived here for 20 years, mostly in central and upcountry Maui. My employment offered me the opportunity to travel off island for work and in the year 2000, I made the decision to make Hawai'i Island my home where I've spent the last 24 years.

I have served on our County's Cost of Government Commission as Chair, a member of the Transportation Commission, and the East Hawai'i Planning Commission as a member and Chaired the remaining 2 years of my term.

Prior to my retirement I was employed for 17 years with the Hawai'i Operating Engineers Stabilization fund, retired as the Executive Director.

I worked as a heavy equipment operator and foreman for fourteen years on the islands of Oahu, Maui, Molokai, and Hawaii Island.

After attending college I work for an engineering firm on Maui as a Land Surveyor and Draftsperson.

I am 63 years of age and currently retired.

I thought my retirement would allow days full of golf, fishing, hunting, maybe even going back and digging up my surfboard from under the house however, our family has a cattle ranch on the Kohala Mountain which has a never ending list of chores and duties. My new title is "Paniolo". I am grateful for my surroundings - Ohia and hapu fern forest, the perfect view of our island's 3 mountains, the Hapuna coastline, horses and cattle, but mostly importantly family and friends.
