Comments:

We will sue you (that statement is for the purpose of making you aware and allowing due process of the next step, not in any way a threat to harm or alike) if any/all of you further digital ID systems, encroaching more tacit agreement ultimatums toward communistic, social credit score system. We have a right to our life, liberty and pursuit of happiness. This divisive bill is unconstitutional. You all took oaths to uphold/support, and/or defend the constitution, correct? Them do your job to the highest standards, or remove yourselves.

L Toriki	Individual	Oppose	Written Testimony Only

Comments:

I strongly oppose this bill.

Digital ID, which is what this is, would take away our individual, God given rights to privacy, freedom and the pursuit of happiness. Why would we want the government involved in our business? Why would we want the government to track every thing we do and spend???

Digital ID is government over reach as this would be a tool for the government to use against anyone who disagrees or questions their authority.

HB-1783

Submitted on: 2/4/2024 8:28:10 AM

Testimony for TRN on 2/6/2024 10:00:00 AM

Submitted By	Organization	Testifier Position	Testify
Kaiulani Bowers	Individual	Oppose	Written Testimony Only

Comments:

I oppose this Bill as it is unconstitutional and goes against everything it is to be American.

As a resident of Hawai'i, I staunchly oppose the introduction of digital ID cards, especially in the realms of transportation, electronic credentials, and identification. Our government has demonstrated a decade-long struggle with technological infrastructure, with outdated systems and numerous mistakes. Implementing electronic credentials under these circumstances would jeopardize the reliability, security, and efficiency we should expect from such a crucial system.

Comments:

I adamantly oppose HB1783. The state constitution clearly states that the power of government is inherent in the people of Hawaii and as elected officials your duty is to represent the will and interest of the people. Digitally tracking citizens is a control mechanism and it is a violation of our free rights and our free will. It is being introduced by individuals who seek to appease their party donors to advance their political careers. This is complete overreach of political power and those who are pushing for this will be voted out of office. Vote NO! on HB1783

Comments:

I urge you to vote against this bill. I do not feel our sensitive information, such as IDs, should be in a digital system which is vulnerable to hackers. Our State & City data systems have already proven to be out of date and hacked a few times. I have no confidence in our government being able to handle this securely and do not want to be subject to this.

Please vote no.

Nicholas Lee	Individual	Oppose	Written Testimony Only

Comments:

Hello Hawai'i Legislature,

My name is Nicholas Lee and I am a private citizen and small business employee that spends most of my professional time in Honolulu Chinatown. I am writing to oppose HB1783 because I believe that it is a redundant effort as there has already been effort by the U.S. Congress (S.884) to pass legislature in order to create a digital identity system.

There will be future efforts by U.S. Congress to be able to capture a top down approach for the United States as a whole. In addition, it is redundant as the Social Security Administration already serves as a digital identification system and could be expanded upon within the agency itself rather than through the Hawai'i State Legislature.

Mahalo,

Nick

Comments:

Aloha,

I feel that HB1783 is a slippery slope to implement a Chinese style social credit system here in Hawaii, this will end very badly for the people of Hawaii. Think deeply how this will affect you, your family and future generations, do you want any of the mentioned to be enslaved or discriminated against? This will allow for total control of one's money, travel and medical care, I strongly oppose HB1783!

Mahalo,

Brandon Hickman

Comments:

I oppose this Bill. In today's age, it's easy to fall into the newest fad or trend. This digital ID cards bill is exactly that. With how quickly technology is advancing doing everything digital may seem convenient but this can lead to so many problems. Technology is not biological, isn't does not belong in the body. Having a cell phone against your ear is already proven to be so harmful with the radiation that it exerts onto the human body. Any radiation that is absorbed will cause harm and sometimes death. There is good reason to have digital identification when technology can be so easily hacked. How can anyone guarantee this is full proof protected from being hacked or taken over?

I oppose this Bill because in any other society it has not benefited anyone. I oppose this Bill because digital anything isn't protected. I oppose this Bill because it isn't safe. I oppose this Bill because the people of Hawai'i deserve more than a technology trend that will die down and we will continue to be left empty handed by our State Representatives that are over here telling us what is good for us, like digital identification instead of homeless solutions and mental health resolutions. Please focus your efforts on things that actually matter to the people of Hawai'i.

Comments:

I oppose HB1783 with the justifiable fear that the Digital I.D.System will be used to track an individual's or group's purchasing activities via internet surveillance. It is conceivable that this system will be used to monitor all aspects of an individual's privacy from banking to political contributions, tracking retail and online purchasing without the individual or group's knowledge or consent, tracking and locating people(s) during peaceful protests against government tyranny, but more terrifying is the indentification of what a person owns or will inherit including what was given to whom and when.

If this system is to improve on facial recognition software then we have a much larger problem than the fears listed above. First of all, why are career criminals allowed to walk freely in public with a high percentage chance of committing a more violent crime than any previous crimes that convicted felon committed. The problem is not with tracking IDENTIFICATION, the problem is with CORRECTIONS. I believe in stiffer penalties for sexual predators, and more severe sentencing for career criminals and Capital Punishment got those whom have committed heinous crimes.

There is no gaurenttee that our Digital Information will not be used by foreign governments or corporations. I oppose HB1783.
