Comments:

Aloha Chair, Vice Chair and Committee Members,

HCR15\_HR5 - Satellite City Hall in Mililani

I am writing in support of the Satellite City Hall in Mililani as this will improve access to City Services. My husband and I have been Mililani residents for the past 36 years and we have a large population covering Mililani, Waipio Gentry, and Koa Ridge who would benefit from having access to services.

Thank you for the opportunity to submit testimony in support of House Resolution 15\_HR5.

Respectfully,

Jamie Detwiler, President, Hawaii Federation of Republican Women

I am writing to advocate for the establishment of a new Satellite City Hall office in Mililani, a step I believe would significantly enhance access to essential government services for the residents of this vibrant community. This proposal transcends political divides, focusing instead on the pragmatic needs of our citizens and the effective delivery of services that support the well-being of our community.

The necessity for such a facility in Mililani is driven by practical considerations. Mililani, as a centrally located and expanding community, faces unique challenges and opportunities. A new Satellite City Hall office here would not only bring government services closer to residents but also alleviate the burden on existing facilities, thereby reducing wait times and improving overall service efficiency for everyone.

Accessibility to government services is a fundamental aspect of civic engagement and community welfare. By facilitating easier access to services such as vehicle registration and licensing, public record requests, and voter registration, we are not only improving convenience for residents but also encouraging greater participation in our democratic processes and community activities. This is about ensuring that our government is as accessible and responsive as possible to the needs of its citizens.

The establishment of a Satellite City Hall in Mililani would serve as a model for community-centered government. It acknowledges that as our communities grow and change, our approaches to service delivery must evolve as well. Investing in infrastructure that brings services closer to where people live is a clear indicator of a government's commitment to its citizens.

I urge the City and County of Honolulu to consider the establishment of a new Satellite City Hall office in Mililani. This initiative represents an investment in the community's future, a commitment to improving the lives of its residents, and a practical step toward a more accessible and responsive government.

Thank you for your attention to this important matter.

Sincerely,

Kaulana

I urge you to vote (support) the HCR15. We are in desperate need of a satellite city hall.

Thank you!

Comments:

I most strongly support HCR15. Finally, there is legislation requesting action that actually meets the needs of Hawaii residents. Mililani is a large and thriving community. It is time that state services are located within our town boundaries.

I appreciate the efforts of those who put this Resolution together.

Please Pass HCR15.

Comments:

I live in Mililani Mauka. While I would enjoy the convenience of having a closer satellite city hall, except for during the Covid-impacted years, driving to the neighboring satellite city halls has not been a challenge. Establishing yet another city hall would cost money, either renting or building new city hall facilities and staffing the new satellite city hall. Our property taxes go up each year, and I wish that the City and County of Honolulu would find ways to be more efficient and productive with the existing satellite city halls, perhaps expanded hours of operation, or more kiosk available services, rather than opening up a new staffed satellite city hall which will only cost we tax payers more money which the the City and County of Honolulu will get out of us by increasing property taxes yet even more.

Comments:

**Please note that I support this HCR 15. I live in Mililani and with our very healthy growing population and a growing number of retirees in the community it makes perfect sense to establish a New Satellite City Hall Office here.**

**Having various services, like motor vehicle registration, obtaining permits for disability parking, state identification renewal and being able to pay our property taxes would make it so much more convenient, not just for us but for the surrounding areas as well.**

**In closing I do hope you will approve this request.**

**Rita Kama-Kimura, Mililani Resident**

Comments:

Hello my name is Vika Lainaholo

I support this bill because of the amount of elderly individuals in Mililani and especially Mililani Town who suffer because they dont have government sources there in Mililani. This bill would greatly help and make it more convinient for them to recieve government sources.

Comments:

Adding a Satellite City Hall in Mililani will create more jobs and will decrease the time waiting in line at other city hall offices around the island. Therefore reducing potential citations for expired documents.
