**SENATE BILL NO. 2477
RELATING TO AGRICULTURE**

Chairs McKelvey and Gabbard, Vice Chair Richards and Members of the Committees:

Thank you for the opportunity to provide testimony on Senate Bill No. 2477 relating to agriculture. This bill includes single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements and defines "single-ingredient product". The Department strongly supports this bill.

HDOA stands ready to assist State departments in achieving the stated goals in HRS 27-8 to purchase 50% local in certain food categories by 2050. The Department can assist in connecting the state's food service operations with the agriculture sector, suggest product replacements for imported items and conduct data analysis on their purchasing history.

Thank you for the opportunity to testify on this measure.

**SENATE BILL NO. 2477
RELATING TO AGRICULTURE**

Chairpersons McKelvey and Gabbard, Vice Chair Richards, and Members of the joint Committees:

Thank you for the opportunity to testify in support of Senate Bill No. 2477, which includes single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements. Defines "single-ingredient product".

The Agribusiness Development Corporation (ADC) supports the intent of this bill because it focuses on creating new markets and revenue stream for our local producers, which helps them maintain and create jobs and expand and invest in their agribusinesses by securing large institutional contracts.

Thank you for your consideration of our testimony.

HEARING BEFORE THE

SENATE COMMITTEE ON AGRICULTURE AND ENVIRONMENT

TESTIMONY ON SB 2477
RELATING TO AGRICULTURE

Conference Room 225 & Videoconference
3:00 PM

Aloha Chairs McKelvey and Gabbard, Vice-Chair Richards, and Members of the Committees:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau provides comments on SB 2477, which includes single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements and defines "single-ingredient product".

HFB strongly supports the increased use of locally grown agricultural products, fruits, vegetables, meats, dairy, and poultry products in our state institutions and appreciates the Legislature's support of the Farm to State program within Act 176 (SLH 2021).

We believe that policies, investments, and resources that support agriculture are necessary to ensure that Hawai'i's farmers and ranchers can supply the produce and food products to meet the goals established in Act 176 SLH and this measure.

We are concerned with the inclusion of single-ingredient products, as defined on Page 6, Line 4, in HB 2129

"Single-ingredient product" means a product that is primarily made up of one main ingredient, even if the product undergoes value-added processes, and is one hundred percent grown, raised, manufactured, or produced in Hawai'i.

Does a product that is one hundred percent manufactured in Hawai'i, with no local agricultural ingredient, qualify as a local food purchase?

Thank you for this opportunity to testify on this important subject.

RELATING TO AGRICULTURE

Chairs McKelvey and Gabbard, Vice Chairs Gabbard and Richards, and Members of the Committees,

The Hawaii Cattlemen's Council **supports SB2477** which includes single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements. Defines "single-ingredient product".

The Hawaii Cattlemen's Council supports the purchasing of locally sourced food, and Hawaii's ranchers are ready to contribute to that by providing local beef, a nutritious protein. When state departments commit to purchasing local beef, our local ranchers benefit by knowing there will be a reliable market for their cattle. This confidence will help their confidence to grow their business so that local beef is available for the community.

Thank you for the opportunity to testify on this matter. The Hawaii Cattlemen's Council (HCC) is the Statewide umbrella organization comprised of the four county-level Cattlemen's Associations. Our member ranchers represent over 60,000 head of beef cows; more than 75% of all the beef cows in the State. Ranchers are the stewards of over 750 thousand acres of land in Hawaii, or 20% of the State's total land mass. We represent the interests of Hawaii's cattle producers.
