Nevada created conditions to basic stop people from growing. By setting the no grow zone being 25miles from a clinic. Please, do not implement.

If this bill contains any grow zone restrictions, I strongly oppose.

Legalization of cannabis would benefit everyone monetarily from the State to the end-user. It would encourage more economic growth, which would drive prices down making it more financially available for medical patients. Yes, it's already there. But the reality is, our Kupuna and Ohana today only being able to afford \$40 for an eighth of an ounce when they really need \$160 worth because insurance doesn't cover it and try to "stretch it out" or "make it last". Which defeats the purpose and adds more stress and anxiety that the patient doesn't need.

In the interest of the state, it's residents and also to its many visitors, I implore Hawaii to legalize the recreational consumption of marijuana for adults. It will be a boon for the economic and societal aspects of Hawaii. I love you, Tulsii! You are a hero 😊

Producing and taxing cannabis in Hawaii will give the islands the economic strength it needs to direct its own path forward into a self-sufficient future, therefore I am in **STRONG** support of SB 669.

I lived in Colorado when cannabis was legalized, and I saw firsthand how it helped people's medical issues and also infused the state with much needed funds that went to schools, roads, transportation, indeed, the entire infrastructure of the state benefitted, and it's was visible by how well the state is maintained. Something Hawai'i lacks far behind.

Hawai'i is poised to become the world leader in cannabis production due to its unique climate and location, but we need strong leadership to take that possibility and make it a reality.

cannabis in the state of Hawai'i.

I have seen the positive impact that legalization has had for the state of Colorado. It is an excellent industry in a world full of chaos. Biggest impact is the amount of money that will come in to fund state projects that can give back to the land. Getting community growing areas back in the town of Kona, any money that is needed for state workers. Really is a great way to bring in a whole new income stream to the people of Hawaii that need help. The state could try and use the money to help provide housing that locals need in order to not be pushed off the island. Hawaii should do whatever it can to support the people who want to take care of the land and see it thrive.

Cannabis saved my life. I have a spine disease that affects my entire body and mind. There is no cure and doctors could only offer me pain medication which did way more harm than good. Cannabis is the only medicine that actually helps. It helps heal the auto immune cells that are causing my spine to fuse together. It helps slow the process of my disease and to be honest I wouldn't be surprised if it begins to heal me all together. Cannabis is natures gift. It actually kills cancer cells, along with helping so many other health problems. It seems to me that nature should be legal. How can a plant be illegal? Especially in such a lush green amazing island that we are blessed to be living on.

1. Legality means better use of law enforcement and the end of incarceration for non-violent offenders.

2. Legality means taxation of sales, which means revenue for roads, schools, parks, emergency services and host of other services that could be greatly improved through such taxes.

3. Legality means access fro adults to use responsibly, often in place of alcohol, a far more dangerous and societally accepted drug. Alcohol kills far more people every year than Cannabis ever has or will.

I currently, and have in the past, gone through the process of legally obtaining my cannabis card. This process is time consuming and expensive to do what most people do illegally. It would be amazing to purchase and grow cannabis legally, without all the expense and time it takes now. Many of us are retired with fixed incomes.  
This is not even mentioning the amount of money the state will receive for taxing cannabis.

I am in STRONG support of SB 669 which would legalize cannabis in the state of Hawai'i.

Mahalo for the oppurtunity to testify.

Has any one person died from the direct use of cannabis? No.  
Has "cannabis" saved any one person's life? Scientifically medically proven over history, YES!

That alone, should be enough factual reasoning to conclude, that "cannabis", a PLANT, free of CHEMICALS and GMOS, is (GOOD), for human consumption.

Unless, any proven FACTS, can be provided, showing that "THE CANNABIS PLANT", (not the "misuse" of the plant by a person) is BAD or harmful, to a persons health, or way of living, to themselves, or others, like " TOBACCO, ALCOHOL, PRESCRIPTION DRUGS or CHEMICALLY ALTERED FOODS" can be and have been every year. Why is the freedom to legally benefit, from the cannabis plant being opposed against? Why was Hawaii one of the FIRST to become "MEDICALLY LEGAL" but remains close minded after consistent, clear, proven, facts, of the cannabis plant and the benefits of the cannabis plant. Why? Truthfully, I cannot comprehend, why tobacco, and alcohol, and prescription drugs, and GMOS are legal, but a PLANT, that is proven to IMPROVE, my HEALTH, my physical, mental, and spiritual health, is ILLEGAL?

How long will wrong overpower what is right continue???

I WAS a two pack a day tobacco smoker. I USED TO, drink alcohol, to an unsafe amount.

I WAS addicted to prescription drugs, 120 Percocet a month. I DID try to commit suicide through those "LEGAL DRUGS", hospitalized because this legal medical system turned its back against me.

If I had not used cannabis and met B.I.G. Especially Jacklyn Moore, I can truthfully say I would not be alive. I am grateful, I am happy, I am HEALTHIER, I AM LIVING AND LOVING LIFE AGAIN because of cannabis Jacklyn and B.I.G.

PLEASE, Stop, Look and Listen. To do what is right and GOOD.

STOP: assuming and perceiving cannabis as worse than alcohol, tobacco, and prescription drugs.

LOOK: at the facts and benefits, see the outcomes and what needs attention

LISTEN: to the truth and the people (that use) cannabis

HERBS SAVED MY LIFE!!! thank you GOD thank you JESUS.  
Please continue to always help everyone, in everything, be better, in every way AMEN.

Please help us. Please help him.

Testimony Aloha Chair Rhoads and Vice Chair Gabbard,

I've been a medical cannabis user for over 2 years now and I must say how much it has improved my health. When I was prescribed it in 2020, I was just a recent cancer survivor who had a hard time dealing with recovering. But after using it for a bit, my health started going back to normal. Now in 2023 I would say I'm doing better than ever. Having this accessible to everyone would allow those who have a health issues a cheaper and easier alternative than pharmacy pills. I am in **STRONG** support of SB 669 which would legalize cannabis in the state of Hawai'i.

Mahalo for the oppurtunity to testify. I am not going to be able to afford to renew next year. I'm on social security and can barely afford the medical grade products as it is and it is cheaper to get it off the street illegally. It seems all is elderly are the ones following the law and paying. How about at least lowering the cost on both license and one time from Dr. Fee to 5 years or something. It's getting harder on ailing seniors for sure. I don't want prescription drugs and doctors appointments. I've learned to advocate for myself through diet, exercise, essential oils and supplements. I'm 64 and deal with Scleroderma, psoriatic arthritis, Raynauds, anxiety and depression. I don't know if it should be legal but I wish there were exemptions for the elderly because Medicare sucks...

I was diagnosed almost 10 years ago with stage three cancer in my lymph nodes. Cannabis helped me manage pain on a daily basis, relieve my anxiety, and helped me through chemotherapy to have an appetite. I use it daily to maintain anxiety levels now that my husband has recently been diagnosed with prostate cancer. We sincerely hope the state will legalize cannabis use, as it goes way beyond recreation. We believe it would be just as beneficial for our state as it has been for the many other states have legalized it, economically, as well as medically.

I think cannabis has many positive benefits and many people would be able to benefit from. Especially those who are dealing with opioid and alcohol addictions, as we know those are well known issues within our communities. I'm not saying that it is for everyone, but many are detoured from it because at this point a medical license is required in order to legally partake. Many of our community members are unable to attain a license for various reasons (hunters need gun licenses, etc) and would benefit if we were to go legal as a state. Also, you'd be able to tax it and earn extra money to put back into our state to make necessary improvements that we so desperately need.

I am a senior citizen (70 years old) who is living with the pain of 2 replaced knees. Even though I qualify for medicinal cannabis, my use is mostly in the way of edibles. If cannabis were legalized in Hawai'i I believe the cost of edibles would go down and for someone on a fixed income that would be of help to me. I don't like the side effects of most pain medication. Name Michelle Galarza

Email michellegalarza@yahoo.com

Testimony Aloha Chair Rhoads and Vice Chair Gabbard,

I am in strong SUPPORT of SB 669 so that cannabis would be legal in the state of Hawai'i. It is legal for recreational and medical use in several other states. It is a medicine and has several medical benefits and should not be restricted.

Mahalo for the opportunity to testify.

Aloha Chair Rhoads and Vice Chair Gabbard,  
I am in STRONG support of SB 669 which would legalize cannabis in the state of Hawai'i.  
Alcohol is by far more dangerous. I have a medical marijuana card. I never miss work. It helps with cervical disc pain, carpal tunnel pain and anxiety. And it would be an incredible way to provide better educational resources for our community! Tax revenue would be a huge resource for our island. Better than the illegal drugs that are overrunning our communities.
