TRANSMITTED VIA LEGISLATIVE WEBSITE

Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

Enclosed is an amended copy of the legislative report that deidentifies any AOA information in attachment 4, pursuant to Senate Concurrent Resolution 48, Senate Draft 1, requesting that the Department of Commerce and Consumer Affairs compile pertinent data to determine the appropriate scope of a study analyzing whether implementation in this state of laws similar to captive insurance laws of Massachusetts would address this state's residential condominium property insurance needs.

In accordance with section 93-16(a), HRS, a copy of this report will be transmitted to the Legislative Reference Bureau Library and viewable electronically at cca.hawaii.gov/reports/departmental/. Copies will also be transmitted to the State Publications Distribution Center and the University of Hawaii pursuant to section 93-3, HRS.

Sincerely,

NADINE Y. ANDO
Director

THIRTY-THIRD LEGISLATURE
REGULAR SESSION OF 2024

SCR 48, SD1
Captive Insurance Study

DEPARTMENT OF COMMERCE AND CONSUMER AFFAIRS
STATE OF HAWAII

Submitted December 2023

DCCA, Insurance Division and Real Estate Branch’s Report to the Legislature

I. Introduction

The Hawaii Department of Commerce and Consumer Affairs (“DCCA”), Insurance Division, and Real Estate Branch, submits this Report in response to the Senate Concurrent Resolution No. 48, Senate Draft 1 (“SCR48, SD1”).

The Hawaii State Legislature (“Legislature”) is concerned about the rising residential condominium property insurance rates in Hawaii, which has increased and may continue to increase due, in part, to issues associated with older residential condominium buildings installing fire sprinkler systems as required by City Ordinances Nos. 19-4 and 22-2. As a result, the Legislature, by SCR48, SD1, requested DCCA survey the condominium properties to determine, among others:

- (1) Whether the association of apartment owners has either filed a notice of its intention to install automatic fire sprinkler systems in individual units within the applicable condominium property or, before September 2022 or undertaken a life safety evaluation conducted by a licensed design professional;
- (2) If the association of apartment owners has conducted a life safety evaluation in lieu of installing or retrofitting a sprinkler system, whether the condominium property has received an acceptable score or sustained increased property insurance premiums since 2020, or both; and
- (3) If the association of apartment owners has filed a notice of its intention to install or retrofit sprinkler systems in individual units, whether the condominium property has sustained increased property insurance premiums since 2020.

Further, the Legislature in SCR48, SD1 had requested DCCA report its findings and recommendations regarding the “appropriate scope of a study analyzing whether implementation of a captive insurance system in the State that is modeled after the captive insurance system of Massachusetts would adequately and appropriately address the State’s residential condominium property insurance needs.”

II. Findings reported by the Insurance Division

A. Query regarding applicability of Massachusetts captive insurance approach to Hawaii’s situation.

The short answer is that Massachusetts does not have a current captive insurance system that will address the State of Hawaii’s (“State”) rising residential condominium property insurance rates. The following serves to explain the basics for this finding:

In Massachusetts, the possibility of setting up a captive insurance system similar to that of Connecticut was evaluated in response to homeowner claims of crumbling concrete foundations due to the presence of pyrrhotite. The Massachusetts’ Special Commission prepared a Final Report, dated December 31, 2019, which addressed the financial and economic impacts of the crumbling foundations in Massachusetts and discussed Connecticut’s efforts to address the issue. Connecticut had established a system with a “captive insurance company” which provide assistance, including financial assistance, to homeowners in need of repairing or replacing their crumbling concrete foundations.

The Massachusetts legislature had introduced several bills, the most recent being S.495, which proposes, among others, to set up a crumbling concrete relief agency to assist residential homeowners relating to the crumbling foundations, including administering a crumbling concrete assistance fund that will provide financial assistance for such purpose. A hearing was held on the Bill S.495. No further actions have been taken on Bill S.495 since the hearing.

Because Massachusetts does not appear to have a “captive insurance approach” as contemplated by SCR48, SD1, but was assessing an approach in Connecticut, the Connecticut program considered in Massachusetts is discussed below.

Connecticut passed seven laws addressing their crumbling concrete foundations crisis related to the use of contaminated concrete, starting in 2016. In 2017, Public Act 17-2 created the captive insurance company, which oversees the efforts in assisting homeowners who are in need of financial support for deteriorating concrete foundations. Public Act 17-2 also created the Crumbling Foundations Assistance Fund for providing the homeowners with financial assistance. In 2018, Public Act 18-160 established a Healthy Homes Fund, which collects a \$12 surcharge on certain homeowners’ insurance policies, of which 85% is to be transferred to the Crumbling Foundations Assistance Fund.

It appears that the Connecticut captive insurance company established through these legislative acts does not collect premiums and issue insurance policies. Rather, this entity appears to receive requests for financial assistance from property owners, to assess those requests, and to distribute money from the legislatively created funds to property owners who are eligible for assistance. In that regard, it does not operate as a “true” captive insurance company.

B. Analysis of the Condominium / Unit Owners Insurance Market and comments about the Association of Apartment Owners (“AOAO”) Insurance Market

The Insurance Division analyzed the shift over time of the availability and affordability of Condominium/Unit Owners insurance products in Hawaii.

The Insurance Division’s Rate and Policy Branch reviewed the data in annual Premium Comparison Publications for Condominium Unit Owners for the period 2017 to 2023, which show condominium premiums for 2016 – 2022. The review focused on the following criteria for condos in Hawaii: Double-wall wood, Public Protection Class 3, and excluding hurricane coverage, (Source <https://cca.hawaii.gov/ins/resources/>).

The number of admitted insurance carriers offering the Condominium Unit Owners product has remained fairly constant over time. This indicates a stable market in terms of availability for the product.

The price of condominium insurance has clearly shifted higher over the same period. In 2017, 53% of the annual premiums were priced below \$400. By 2022, only 33% of insurers are in this range.

The results are as follows:

Annual Premium	2022		2021		2020		2019		2018		2017	
	# of insurers	as a %	# of insurers	as a %	# of insurers	as a %	# of insurers	as a %	# of insurers	as a %	# of insurers	as a %
<= \$300	6	18%	5	14%	5	14%	8	21%	6	17%	8	24%
\$301-400	5	15%	6	17%	6	17%	10	26%	11	31%	10	29%
\$401-500	13	38%	12	33%	12	33%	12	32%	9	25%	6	18%
\$501-600	2	6%	3	8%	3	8%	1	3%	3	8%	3	9%
\$601-700	2	6%	2	6%	2	6%	0	0%	0	0%	2	6%
\$701-800	2	6%	5	14%	5	14%	4	11%	5	14%	3	9%
\$801-900	2	6%	1	3%	1	3%	1	3%	0	0%	0	0%
\$901-1000	0	0%	0	0%	0	0%	0	0%	0	0%	0	0%
>\$1000	2	6%	2	6%	2	6%	2	5%	2	6%	2	6%
Total	34		36		36		38		36		34	

*Percentages in the chart above are rounded to the nearest whole percentage.

Furthermore, the Insurance Division provided comments on the state of the AOA insurance market based on a survey conducted in 2021. The comments are based on a report that reflected a 75% response rate of the insurers surveyed.

As of 2021, four of the eight carriers in the AOA insurance market were writing new business.

The price point of AOA insurance was not captured by the 2021 data call. Commercial property premium varies widely based on risks.

In 2021, forty one percent (41%) of the AOA policies reported in the survey were rated within the filed insurance program. This means that there were no extraordinarily favorable or negative risks that required special premium calculation. Thirty three percent (33%) of the policies represent properties that exhibited characteristics or plan design that warranted lower than the filed premium (Individual Risk). Twenty six percent (26%) of the policies were for properties that exhibited significant negative risks that required additional premium above the filed premium (Consent to Rate). It is this last group that may have been more likely to have experienced larger rate increases or non-renewals.

In 2021, 82% of the 845 policies had deductibles of \$10,000 or less.

The results of the 2021 data call are reflected below. Excerpts of the results (questions 1, 2 and 6) are below:

	Data Call Question	Response	Foreign Insurer	Domestic Insurer	Total
1	Does your company currently have AOA policies on its books? If No, please go to question 6.	<i>Number of companies who currently have AOA policies on their books:</i>	4	4	8
	a. Are you currently renewing existing policies?	<i>Number of companies who are currently renewing existing policies.</i>	4	4	8
	b. Are you currently writing new business?	<i>Number of companies who are currently writing new business.</i>	2	2	4
	c. Are you looking to increase market share?	<i>Number of companies who are looking to increase market share.</i>	1	0	1
2	If you answered Yes to question 1a, for each AOA policy, list the following in-force information: (a) annualized premium, (b) unit count and number of floors, (c) building limits and (d) property (all non-catastrophe covered perils) deductible. Also identify which policies are Individual Risk or Consent to Rate.	<i>Total number of policies reported as of 12/9/2021</i>			884
	<i>Please use the Data Call Report Format tab.</i>	<i>(a)(1) Property (annualized premium in (000))</i>			\$ 36,725
		<i>(a)(2) Liability (annualized premium in (000))</i>			\$ 2,996
		<i>(a)(2) Package, if applicable (annualized premium in (000))</i>			\$ 32,150
		<i>(c) building limits in (000)</i>			\$ 20,510,482
		<i>(d) property deductibles * shown, as reported.</i>			845*
		\$250 - \$5,000			456

		<i>Ceased writing in 2005 due to poor underwriting results</i>	<i>1</i>		<i>1</i>
		<i>Limited by reinsurance terms. No capacity to write since 2010.</i>		<i>1</i>	<i>1</i>
		<i>Limited by reinsurance terms. No capacity to write since 2010</i>	<i>1</i>	<i>1</i>	<i>2</i>

III. Further Actions/Recommendations by the Insurance Division

A. Grant Program

At present, there are no captive insurance laws in Massachusetts that Hawaii can refer to as a sample for addressing Hawaii’s rising homeowners’ insurance premiums. While Connecticut refers to its system as “captive insurance,” Connecticut’s system, in reality, is neither captive insurance nor insurance. However, the State could evaluate the possibility of setting up a funding/grant-like program that could be similar to or different from what was passed in Connecticut. A consultant may be retained to conduct a study regarding the feasibility of such a grant-like program. The scope of the study may include whether a self-administered entity should be formed to distribute funds or issue grants.

B. Condominium Study

Various property insurers have suggested that the following issues may, in part, be causing increases in condominium insurance rates:

- Inadequate and deferred maintenance.
- General social inflation issues.
- Water losses.
- Frequency and severity of climate events.
- Increasing exposure value as people live in more expensive buildings.
- Increasing costs of building materials and other costs associated with repairing or rebuilding.

To assess the issue of rising residential condominium property insurance rates in Hawaii, the Insurance Division recommends engaging a consultant to assess the following:

- What risks are driving premium rate increases for residential condominium insurance?
- What is the scope of those risks in the State’s condominium supply?

- What is the cost to mitigate those risks?
- What is the state of residential condominium AOA reserves and how large of a gap is there between those reserves and the cost to mitigate cost-driving risks?
- Are there means of mitigating fire risk in buildings without fire sprinklers that are less costly alternatives than installing sprinkler systems?
- What are the consequences of the State offering tax incentives, grants, or loans through a central fund to assist in the rising condominium property insurance rates?
- Whether insurers offering premium credits for risk mitigation efforts will encourage resilience actions by the policyholder.

A data call which expands the 2021 data call by the Insurance Division to include additional rating criteria, including those known to the industry described above, would better inform the discussion of interested parties.

IV. Survey Findings Collected by the Real Estate Branch

A. Surveys sent to residential high-rises subject to Honolulu Ordinances Nos. 19-4 and 22-2

The Real Estate Branch (“Branch”) sent a survey letter to 309 residential high-rises subject to Honolulu Ordinances Nos. 19-4 and 22-2 (“Ordinances”), to gather information about the impact of the Ordinances. The Branch received outreach assistance from the Hawaii Council of Community Associations and various condominium managing agents. The Branch concluded gathering data from this survey on August 31, 2023.

The survey responses were gathered by email, electronic mail, and physical mail. Through all the outreach and follow-up efforts by the Branch, we received 193 survey responses. The Branch notes that associations comprised of multiple high-rises elected to submit one response on behalf of their respective high-rises. In addition, 11 survey responses were submitted by associations not listed in the Honolulu Fire Department’s List of Residential High-rises.

Following the survey responses, the Branch reports the following statistics to supplement and provide further clarity. To provide highlights of the 193 survey responses:

- 14.5% of associations installed, or plans to install fire sprinklers;
- 86.5% of associations pursued a life safety evaluation (“LSE”), noting that some associations pursuing an LSE also plan to install fire sprinklers;
- 22.3% of associations received an acceptable score on their LSE;
- 53.4% of associations needed to increase maintenance fees or issue a special assessment to comply with the Ordinances;
- The average amount of funds that associations expended and/or allotted to comply with the Ordinances is \$1,621,444; and
- From 2020 to 2023, condominium property insurance premiums increased on average by 116.2%.

Attachment 1 - SCR48, SD1 Letter and Survey: On May 30, 2023, the Branch mailed this survey to 282 registered condominiums and 30 non-condominium residential high-rises to gather information about the impact of Honolulu Ordinances Nos. 19-4 and 22-2.

The Branch received outreach assistance from the Hawaii Council of Community Associations and various condominium managing agents. During the course of collecting survey responses, Branch staff also conducted continuous follow-up communications through phone calls, physical mail, and electronic mail.

Attachment 2 - Survey Extension: To collect more data, the deadline for associations to submit a response was extended to August 31, 2023. A subsequent notice was sent to those associations that did not submit a response.

Attachment 3 - Honolulu Fire Department List of Residential High-rises: In a report to the Honolulu City Council, the Honolulu Fire Department compiled a list of all existing residential high-rises that must comply with the Ordinances. The list provides specific information about the location of each high-rise, including the number of units and floors constituting the buildings. The Honolulu Fire Department publicly posted its list online at: <https://fire.honolulu.gov/fire-and-life-safety/homeowners/sprinklers/>.

Attachment 4 – Survey Responses: Through outreach and follow-up efforts, the Branch received 193 survey responses: 179 responses were from registered condominiums; ten responses were also from registered condominiums but they are not included on the HFD’s list; and four responses were from non-registered condominiums, possibly cooperatives or HOAs. The Branch notes that associations comprised of multiple high-rises elected to submit one response on behalf of their respective high- rises. In addition, 11 survey responses were submitted by associations not listed in Honolulu Fire Department’s List of Residential High-rises.

RE: Survey on Recent Increases to Residential Condominium Property Insurance Premiums
Senate Concurrent Resolution No. 48, Senate Draft 1 ("SCR48, SD1")

The Hawaii State Legislature recognizes that condominium associations throughout the State have recently faced steep increases in residential condominium property insurance, partly due to City and County of Honolulu Ordinances Nos. 19-4 and 22-2, which require associations to pursue fire safety improvements. Pursuant to SCR48, SD1, the Department of Commerce and Consumer Affairs and Real Estate Branch are surveying condominium associations subject to Honolulu Ordinances Nos. 19-4 and 22-2 to gather information about the impact of these ordinances, including the amount of resources associations needed to expend for compliance.

We kindly request your completion of a brief online survey, available on our website at: <https://cca.hawaii.gov/reb/firesafety/>. The survey is also accessible by scanning the following QR Code using a smart device. All reasonable attempts will be made to keep the information in your response confidential. As an alternative, you may complete and return a hard copy survey attached. **Please submit your response no later than June 30, 2023.**

Your information will help the Hawaii State Legislature better understand the challenges your association faced and help shape future legislation to address the State's residential condominium property insurance needs adequately and appropriately.

Thank you kindly for your attention to this matter. Should you have any questions, please contact Kedin Kleinhans, Senior Condominium Specialist, Real Estate Branch at (808) 586-2643 between the hours of 7:45 a.m. and 4:30 p.m., Hawaiian Standard Time.

Very Truly Yours,

Nadine Y. Ando
Director

INSTRUCTIONS: Read each question thoroughly. Check the box corresponding to your answer and provide information in the designated spaces. **Please return your completed survey no later than June 30, 2023.** If you submitted your survey electronically, you do not need to submit a hard copy.

KEY

- Q1 - Has your association installed or filed a notice of its intent to install or retrofit automatic fire sprinkler systems in the individual units?
- Q2 - Has your association undertaken a life safety evaluation conducted by a licensed design professional?
- Q2A - If "Yes" to Question 2, has your association received an acceptable score as of this date?
- Q3 - Did your association need to increase maintenance fees and/or issue a special assessment to comply with Honolulu Ordinances Nos. 19-4 and 22-2
- Q4 - In the space below, please briefly describe the measures your association took to comply with Honolulu Ordinances Nos. 19-4 and 22-2. For example, upgrades to fire
- Q5 - Please provide the TOTAL dollar amount your association expended and/or allotted for the measures listed in Question 4.
- Q6 - Please provide the ANNUAL dollar amount of your association's property insurance premiums, including the corresponding percentage increase or decrease between
Equation to calculate percentage change: $[(\text{New Value} - \text{Old Value}) / \text{Old Value}] \times 100$
