# A BILL FOR AN ACT

RELATING TO THE FIRST RESPONDERS TECHNOLOGY CAMPUS AND  
CYBERSECURITY DATA CENTER.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that critical  
2 infrastructure for state and county first responders and data  
3 systems needs to be relocated. Many existing facilities are  
4 outdated and within the inundation zone, and agencies have  
5 outgrown their current footprint. Some agencies lack permanent  
6 headquarters, training facilities, and storage space and require  
7 the use of leased facilities, which should be invested in  
8 permanent assets that are owned and controlled by the State.

9           The legislature further finds that lands purchased by the  
10 Hawaii technology development corporation are dedicated for the  
11 first responders technology campus and cybersecurity data  
12 center. The first responders technology campus is a major  
13 project involving federal, state, and county first responders  
14 and the office of enterprise technology services to co-locate  
15 headquarters and training facilities in central Oahu. Being  
16 outside of the inundation zone, this new facility would provide

1 critical partnerships for the State's first responders as they  
2 coordinate joint trainings and responses. The site is also near  
3 the only airfield outside of the inundation zone, as Hickam Air  
4 Force Base, Daniel K. Inouye International Airport, and Kalaeloa  
5 airport are near the shorelines. Moving and co-locating  
6 critical infrastructure outside of the inundation zone will  
7 provide a strategy for shoreline retreat and accommodation.

8 The legislature further finds that the Hawaii emergency  
9 management agency, Hawaii army national guard, department of  
10 land and natural resources, department of public safety, and  
11 department of law enforcement have committed to coordinate  
12 access to the first responders technology campus and  
13 cybersecurity data center with federal agencies also expressing  
14 interest in the project.

15 The purpose of this Act is to appropriate funds for the  
16 development of the first responders technology campus and  
17 cybersecurity data center on tax map key 9-5-002-057.

18 SECTION 2. There is appropriated out of the general  
19 revenues of the State of Hawaii the sum of \$ or so  
20 much thereof as may be necessary for fiscal year 2023-2024 and  
21 the same sum or so much thereof as may be necessary for fiscal

1 year 2024-2025 for the development of the first responders  
2 technology campus and cybersecurity data center on tax map key  
3 9-5-002-057.

4 The sums appropriated shall be expended by the Hawaii  
5 technology development corporation for the purposes of this Act.

6 SECTION 3. The appropriations made by this Act shall not  
7 lapse at the end of the fiscal biennium for which the  
8 appropriations are made; provided that all moneys from the  
9 appropriations that are unencumbered as of June 30, 2025, shall  
10 lapse as of that date.

11 SECTION 4. This Act shall take effect on June 30, 3000.

12

**Report Title:**

First Responders Technology Campus and Cybersecurity Data Center; Hawaii Technology Development Corporation; Appropriation

**Description:**

Appropriates funds for the development of the First Responders Technology Campus and Cybersecurity Data Center. Effective 6/30/3000. (HD1)
