SENATE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF LAND AND NATURAL RESOURCES TO
IDENTIFY ALL APPROPRIATE SITES AT STATE PARKS AT WHICH A

1 WHEREAS, drinking water is a vital necessity for
2 individuals and should be readily accessible for those enjoying
3 Hawaii's state parks, where parkgoers are active and subject to
4 sun exposure; and

5
6 WHEREAS, single-use plastic beverage containers contribute
7 to environmental degradation and pollution of state parks and
8 adjacent marine environments; and

9
10 WHEREAS, many Hawaii residents have developed the habit of
11 carrying refillable water bottles with them to protect the
12 environment and to save money by avoiding the purchase of
13 beverages; and

14
15 WHEREAS, a decrease in the use of plastic water bottles
16 also reduces the amount of public expenditures incurred from
17 shipping them to an off-island treatment and processing facility
18 for recycling; and

19
20 WHEREAS, a grant was awarded in 2018 by the Marine Debris
21 Program of the National Oceanic and Atmospheric Administration
22 to the Department of Land and Natural Resources, resulting in
23 the purchase and implementation of nineteen water-bottle filling
24 stations in three different styles in state parks across Kauai,
25 Oahu, Maui, and Hawaii island; and

26
27 WHEREAS, Hawaii has fifty-one state parks, many of which
