Chairperson

Before the Senate Committees on
WATER AND LAND
and
TRANSPORTATION AND CULTURE AND THE ARTS

Monday, April 08, 2024
1:30 PM
Conference Room 229 & Videoconference, State Capitol

In consideration of
**HOUSE CONCURRENT RESOLUTION 198/HOUSE RESOLUTION 178
REQUESTING THE STATE'S CONGRESSIONAL DELEGATION TO ADVOCATE
FOR THE ENFORCEMENT OF EXISTING INTERNATIONAL LAWS TO REDUCE
GHOST NETS ENTERING THE STATE FROM INTERNATIONAL WATERS AND
TAKE OTHER ACTIONS TO REDUCE MARINE DEBRIS FROM FISHING GEAR**

House Concurrent Resolution 198/House Resolution 178 request the State's congressional delegation to advocate for the enforcement of existing international laws to reduce ghost nets entering the State from international waters, advocate for the establishment of a requirement for United States fishing vessels to mark their fishing gear, and create financial incentives to retrieve and dispose of floating fishing gear. **The Department supports these measures.**

Derelict and abandoned fishing gear such as fishing nets and lines (sometimes called "ghost nets") pose a serious threat to coral reefs, marine mammals, sea turtles, seabirds, and other wildlife. Ghost nets pose a serious entanglement threat to endangered Hawaiian monk seals, threatened or endangered green, hawksbill, and olive ridley sea turtles, and our iconic humpback whales. Ghost nets also entangle coral reefs, breaking, shading, and abrading coral, preventing healthy growth, causing tissue damage, and promoting the spread of coral disease. Ghost nets and other derelict fishing gear also pose a danger to vessel navigation and human safety at sea.

Hawai'i has some of the highest reported marine debris accumulation rates in the United States. Any action taken by our congressional delegation to reduce the amount of ghost nets in the ocean will contribute to the improved health of marine species and habitats.
