Application for Grants

If any item is not applicable to the request, the applicant should enter “not applicable”.

I. Certification – Please attach immediately after cover page

1. Certificate of Good Standing (If the Applicant is an Organization)

If the applicant is an organization, the applicant shall submit one (1) copy of a certificate of good standing from the Director of Commerce and Consumer Affairs that is dated no earlier than December 1, 2024.

STATE OF HAWAII
STATE PROCUREMENT OFFICE

CERTIFICATE OF VENDOR COMPLIANCE

This document presents the compliance status of the vendor identified below on the issue date with respect to certificates required from the Hawaii Department of Taxation (DOTAX), the Internal Revenue Service, the Hawaii Department of Labor and Industrial Relations (DLIR), and the Hawaii Department of Commerce and Consumer Affairs (DCCA).

Vendor Name: Malama Kauai

DBA/Trade Name: Malama Kauai

Issue Date: 01/02/2025

Status: Compliant

Hawaii Tax#: 00451317-76
 New Hawaii Tax#: GE-0045131776-01
 FEIN/SSN#: XX-XXX7488
 UI#: XXXXXX1691
 DCCA FILE#:

Status of Compliance for this Vendor on issue date:

Form	Department(s)	Status
A-6	Hawaii Department of Taxation	Compliant
8821	Internal Revenue Service	Compliant
COGS	Hawaii Department of Commerce & Consumer Affairs	Exempt
LIR27	Hawaii Department of Labor & Industrial Relations	Compliant

Status Legend:

Status	Description
Exempt	The entity is exempt from this requirement
Compliant	The entity is compliant with this requirement or the entity is in agreement with agency and actively working towards compliance
Pending	A status determination has not yet been made
Submitted	The entity has applied for the certificate but it is awaiting approval
Not Compliant	The entity is not in compliance with the requirement and should contact the issuing agency for more information

2. Declaration Statement

The applicant shall submit a declaration statement affirming its compliance with [Section 42F-103, Hawaii Revised Statutes](#).

Mālama Kaua'i affirms its compliance with Section 42F-103, Hawaii Revised Statutes.

3. Public Purpose

The applicant shall specify whether the grant will be used for a public purpose pursuant to [Section 42F-102, Hawaii Revised Statutes](#).

Mālama Kaua'i affirms this project and respective funding request is for a public purpose pursuant to Section 42F-102, Hawaii Revised Statutes to modernize and repair the Makaweli ditch system that supports several kalo farmers, which will help to increase food production on Kaua'i. The grant request is for \$360,000.

Megan Fox, Executive Director, Mālama Kaua'i

II. Background and Summary

This section shall clearly and concisely summarize and highlight the contents of the request in such a way as to provide the State Legislature with a broad understanding of the request. Please include the following:

1. A brief description of the applicant's background;

Founded in 2006, Mālama Kaua'i (MK) is a community-based, nonprofit focused on increasing local food production and access for Kaua'i. With diverse, responsive programs over the past 16 years and equity and resilience at its core, MK:

- Grows community capacity by leveraging workforce and economic development efforts; partnerships and innovative community-based programming.
- Spearheads increased food access for the island's most vulnerable, leads community food systems development efforts, and provides technical assistance and resources to food producers.

- Alleviates inequities by prioritizing the needs of small and minority farmers and food insecure residents.
- Supports farmers and community through programs and projects including farm to school, farmer support, workforce development and emergency response.
- Increases local food access for low-income residents through gleaning, keiki and kūpuna food programs, and Supplemental Nutrition Assistance / Double Up Food Bucks incentives through their food hub.

Mālama Kaua'i has granted and/or fiscally sponsored over \$1M in funding in the past several years to directly support farmers and farming groups on Kaua'i. The organization presently consists of 10 staff working out of their Līhu'e office and Moloa'a 'ĀINA Center - a food processing facility officially opened in February 2024 in partnership with the Moloa'a Irrigation Cooperative.

There are six taro and fruit farmers whose lo'i and lands feed off of Makaweli's Pu'ulima 'auwai, all of which are multi-generational, whose 'ohana who have been farming these lands for generations:

1. John A'ana
2. Jim A'ana
3. Wesley Yadao
4. Ekolu Char
5. Loea Kamibayashi
6. Wayne Tanaguchi

2. The goals and objectives related to the request;

The goal of the Makaweli Ditch Repair & Modernization project is to increase water flow and conservation, enabling several farmers to increase their food production and utilization of their acreage. To do this, several areas of the ditch need to be repaired and replaced, as well as trees cleared that threaten and clog waterways on a regular basis.

MEASURABLE PROJECT OBJECTIVE	PROJECT ACTIVITIES
To clear trees in the area of the ditch replacements	Overgrown tree removal to protect the ditch investment and clear the waterways from debris
To replace ditch system	To design and install a modern ditch replacement in several areas of the 'auwai

3. The public purpose and need to be served;

2030 Kaua'i Food Access Plan

MK's current Food Access Plan development process has included over 200 community members across 8 meetings island-wide, focusing on food access agencies, farmers/ranchers, and residents. Out of the 25+ potential objectives developed by the community for the plan, a few stand in the forefront and are directly supported by this project including the need for increased community access to local food and farmer support.

Ditch System Modernization for Aging Infrastructure

This ditch system serves several farmers and has not been upgraded since the 1960's. Water access, flow, and conservation is especially important in this otherwise dry and hot area of the west side which has been historically used for taro production through today. Water is life for these farmers, and currently the flow is negatively impacted due to the disrepair of ditch systems that farmers are not able to actively farm all their lands.

4. Describe the target population to be served; and

Many people across Kaua'i will benefit from this facility and its related programmatic expansion, as described in the above section on Public Purpose & Need to Be Served, but those who will benefit most directly are the users of the facility - the farmers. There are currently several professional farmers at risk of losing their lands currently leased through Grove Farm, and many beginning farmers on the east side who do not have access to any land leasing opportunities in the area. The ag park itself is next to Kaua'i's Kapa'a schools, providing an excellent opportunity to partner for various farm to school programs.

5. Describe the geographic coverage.

This project primarily serves the Makaweli area of the County of Kaua'i, but also contributes and interacts with the statewide food system as many of the farmers ship their products to other islands.

III. Service Summary and Outcomes

The Service Summary shall include a detailed discussion of the applicant's approach to the request. The applicant shall clearly and concisely specify the results, outcomes, and measures of effectiveness from this request. The applicant shall:

1. Describe the scope of work, tasks and responsibilities;

The Makaweli Pu'ulima 'Auwai Improvements project was developed by several Makaweli taro farmers who participate in MK's Kalo to Kula project. Through farm site visits and ongoing discussions, it was determined that the most significant issue facing this group of farmers is their aging and deteriorating ditch system, which is causing immense water loss and inefficiencies. The limited water supply has caused issues that prevent the farmers from making full use of their lands, which is on average about 50% of total acreage.

This system feeds all of their lands and investment in it is an investment in several multi-generational farmers that mainly focus on taro, while also producing various fruit tree crops on their properties.

The total cost estimated for the entire ditch modernization project, which includes extensive removal of overgrown trees and new ditch replacements is \$340,000-\$450,000. Two of the farmers have committed their own grant funds through MK's Hui Hānai 'Ai grant program as the first financial commitments towards the project for a total of \$25,716. MK is also aggressively seeking other funding sources to complete the project in its entirety.

By working with Cushnie Construction, who is also on the Gay & Robinson property, the project has a flexible and invested contractor partner who knows the area very well. This will allow the project to start/stop as needed and as funds become available.

If County funds are awarded, they would get the project through the clearing and installation of the first major improvement on the flume area with a new ditch replacement - more than a third of the way through the project. This would also allow the project some time to get started while providing momentum for obtaining matching funds from other funders.

2. Provide a projected annual timeline for accomplishing the results or outcomes of the service;

MEASURABLE PROJECT OBJECTIVE	PROJECT ACTIVITIES	TIMELINE (BY GRANT QUARTER)	WORK PERFORMED BY
To clear trees in the area of the ditch replacements	Overgrown tree removal to protect the ditch investment and clear the waterways from debris	Q1-Q4	Contractor, Overseen by Project Manager

MEASURABLE PROJECT OBJECTIVE	PROJECT ACTIVITIES	TIMELINE (BY GRANT QUARTER)	WORK PERFORMED BY
To replace ditch system	To design and install a modern ditch replacement in several areas of the 'auwai	Q1-Q4	Contractor, Overseen by Project Manager

3. Describe its quality assurance and evaluation plans for the request. Specify how the applicant plans to monitor, evaluate, and improve their results; and

Estimates have been obtained from vendors. Expenses will be processed weekly and the month-over-month budget forecast reviewed and updated monthly. Weekly monitoring of project milestones and overall timeline will take place. The Project Manager will escalate any issues and risks to the Executive Director via their weekly status meeting.

4. List the measure(s) of effectiveness that will be reported to the State agency through which grant funds are appropriated (the expending agency). The measure(s) will provide a standard and objective way for the State to assess the program's achievement or accomplishment. Please note that if the level of appropriation differs from the amount included in this application that the measure(s) of effectiveness will need to be updated and transmitted to the expending agency.

Formal status reporting with a narrative of accomplishments and next steps will be provided quarterly, along with performance against budget and timelines. Formal change requests will be documented for approval of any change in scope, with signature required from the Executive Director. Changes that result in impact to the budget or timelines will also be subject to change control procedures. Inspections will take place on site following each major milestone and on an unannounced, regular basis to ensure quality control.

IV. Financial

Budget

1. The applicant shall submit a budget utilizing the enclosed budget forms as applicable, to detail the cost of the request.

- a. Budget request by source of funds ([Page 6](#))
- b. Personnel salaries and wages ([Page 7](#))
- c. Equipment and motor vehicles ([Page 8](#))

- d. Capital project details ([Page 9](#))
- e. Government contracts, grants, and grants in aid ([Page 10](#))

2. The applicant shall provide its anticipated quarterly funding requests for the fiscal year 2026.

Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Grant
\$100,000	\$100,000	\$100,000	\$60,000	\$360,000

3. The applicant shall provide a listing of all other sources of funding that they are seeking for fiscal year 2026.

MK has applied for \$100,000 from the County of Kaua'i to start the project, and has secured an additional \$25,716 in cash match from Wesley Yadao and John Aaana's Hui Hānai 'Ai awards, sourced from Native American Agriculture Foundation and Office of Hawaiian Affairs. MK will continue to seek additional funding for the project.

4. The applicant shall provide a listing of all state and federal tax credits it has been granted within the prior three years. Additionally, the applicant shall provide a listing of all state and federal tax credits they have applied for or anticipate applying for pertaining to any capital project, if applicable.

A property tax exemption was received from the County of Kauai for the Moloa'a 'ĀINA Center for 2024. The 2025 application is currently under review and exemptions will be applied for each year in perpetuity.

A tax credit is planned for submission as part of 2024 income tax filing for both Federal and the State of Hawaii for the costs of the Photovoltaic system installed in early 2024 for the Moloa'a 'ĀINA Center.

5. The applicant shall provide a listing of all federal, state, and county government contracts, grants, and grants in aid it has been granted within the prior three years and will be receiving for fiscal year 2026 for program funding.

The enclosed page "GOVERNMENT CONTRACTS, GRANTS, AND / OR GRANTS IN AID" document outlines the \$3,742,827 received from the government in grants and contracts within the past three years.

6. The applicant shall provide the balance of its unrestricted current assets as of December 31, 2024.

\$1,890,985. Consists mainly of the Moloa'a 'ĀINA Center facilities and equipment, including vans and trucks. Does not include 2024 depreciation which is a non cash item.

V. Experience and Capability

1. Necessary Skills and Experience The applicant shall demonstrate that it has the necessary skills, abilities, knowledge of, and experience relating to the request. State your experience and appropriateness for providing the service proposed in this application. The applicant shall also provide a listing of verifiable experience of related projects or contracts for the most recent three years that are pertinent to the request.

Mālama Kaua'i has been working to increase agricultural production across the island since 2006. MK assisted in the initial development and fundraising phase of the Kilauea Ag Park, managed a 8-acre community farm and community garden for over a decade, recently built out a \$3M food processing facility in Moloa'a, has distributed over \$1M in grant funding to local ag producers, and has over 20 years of experience in managing large-scale grant projects, including Federal fund management - as outlined on Page 10.

This next phase of work is to address the continued bottleneck in agricultural land access and productivity for beginning and small-scale food producers. With over 20 years of experience supporting Kaua'i's farmers and the food system, MK is uniquely positioned to assist the Makaweli farmers in managing a large grant to repair and modernize their ditch system.

2. Facilities The applicant shall provide a description of its facilities and demonstrate its adequacy in relation to the request. If facilities are not presently available, describe plans to secure facilities.

All land along the ditch system is owned by Gay & Robinson or the farmers themselves, and all have provided written commitment and approval for the project. Below is their letter of commitment from the first application to the County of Kaua'i:

GAY & ROBINSON

ESTABLISHED IN 1889

December 28, 2024

County of Kaua'i
Office of Economic Development
4444 Rice St, Suite 200
Lihue, HI 96766

Re: Mālama Kaua'i's Proposal for Makaweli Auwai Improvements

Aloha OED Grant Review Committee,

I'm writing this letter as a representative of the landowner, Gay & Robinson, to demonstrate our support of this project and commitment to allow Cushnie Construction make the proposed ditch system repairs on our property to benefit the Makaweli area farmers.

This system is in great need of repair and modernization, and we are thrilled to see the farmers working with a nonprofit to assist them in making such improvements.

If you have any questions about this proposal or our commitment to it, you may contact me at (808) 639-2817.

Mahalo for your consideration,

Howard Greene
Gay & Robinson

VI. Personnel: Project Organization and Staffing

1. Proposed Staffing, Staff Qualifications, Supervision and Training The applicant shall describe the proposed staffing pattern and proposed service capacity appropriate for the viability of the request. The applicant shall provide the qualifications and experience of personnel for the request and shall describe its ability to supervise, train and provide administrative direction relative to the request.

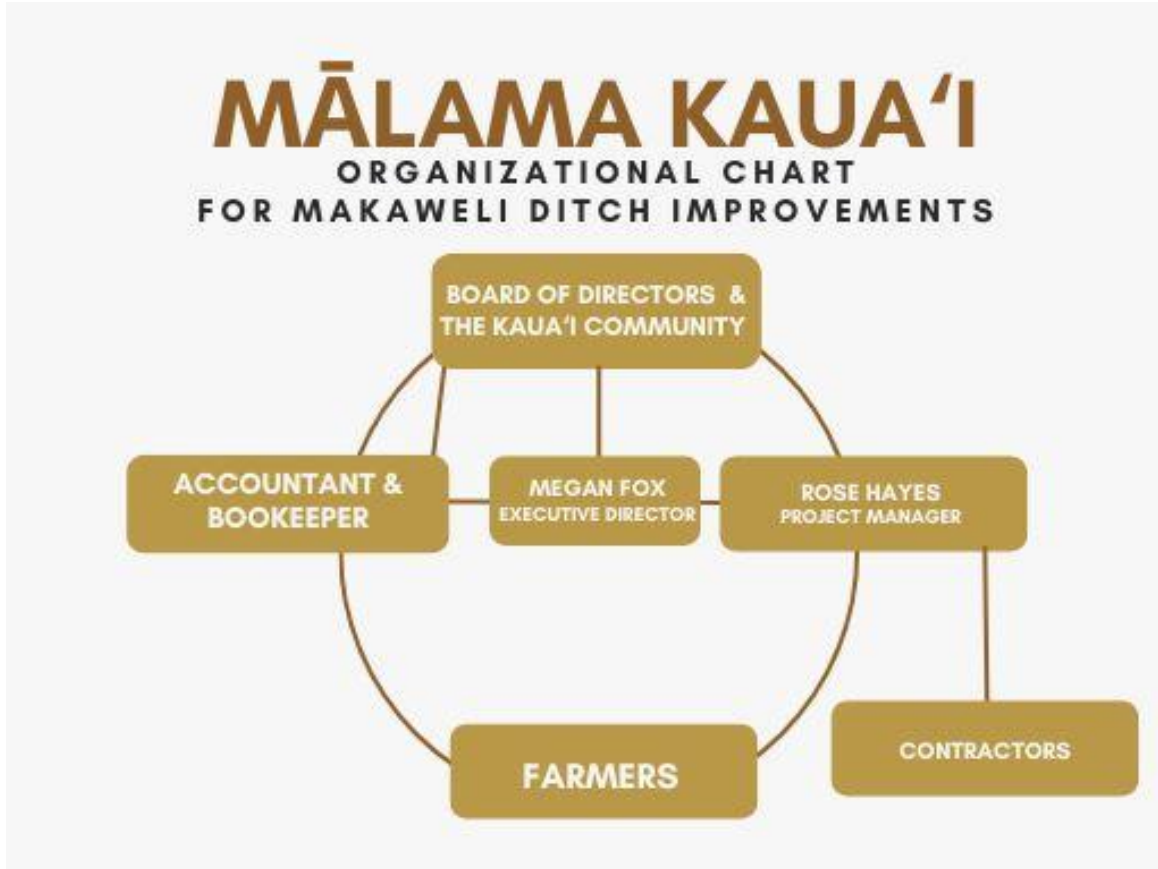

Two of MK's staff are directly overseeing this project as part of the administration budget, with project work being performed by experienced licensed contractors.

Executive Director, Megan Fox has over 15 years of experience creating workforce development programs across three states and oversees finances, operations, program management, fundraising, and marketing for the nonprofit. She has been with MK since 2014, and was promoted to Executive Director in 2017. She holds a BS in Management and Public Policy with a Human Resources minor. She is also a published author on creating job centers in public libraries and a Certified Master Gardener who is passionate about fruit tree orchard management. Megan managed the Community Farm for six years and will oversee the entire project, including fundraising, community outreach, administration, and strategic direction.

Project Manager, Rose Hayes, has 20+ years of experience delivering successful projects in the private and nonprofit sectors and holds a BA from Columbia College and Project Management Professional (PMP) certification. She will oversee the project's operations and startup management, including budget and project scope adherence, as a Certified PMP. Rose's most recent project was managing the development of the \$3M Moloa'a 'ĀINA Center food hub buildout.

All contractors will be fully licensed and insured. Cushnie Construction provided a detailed estimate and has been selected to serve as the General Contractor; as a current lessee in the area they are already intimately familiar with the ditch system. Reference checks will be completed prior to the final award of contract.

2. Organization Chart The applicant shall illustrate the position of each staff and line of responsibility/supervision. If the request is part of a large, multi-purpose organization, include an organization chart that illustrates the placement of this request.

3. Compensation The applicant shall provide an annual salary range paid by the applicant to the three highest paid officers, directors, or employees of the organization by position title, not employee name.

- Executive Director - \$90,000
- Program Manager - \$62,400
- Food Hub Manager - \$62,400

VII. Other

1. Litigation

The applicant shall disclose any pending litigation to which they are a party, including the disclosure of any outstanding judgement. If applicable, please explain.

N/A

2. Licensure or Accreditation

The applicant shall specify any special qualifications, including but not limited to licensure or accreditation that the applicant possesses relevant to this request.

Department of Agriculture Produce Dealer

Rose Hayes holds Project Management Professional (PMP) Certification

3. Private Educational Institutions

The applicant shall specify whether the grant will be used to support or benefit a sectarian or non-sectarian private educational institution. Please see [Article X, Section 1, of the State Constitution](#) for the relevance of this question.

N/A

4. Future Sustainability Plan

The applicant shall provide a plan for sustaining after fiscal year 2026 the activity funded by the grant if the grant of this application is:

- (a) Received by the applicant for fiscal year 2026, but
- (b) Not received by the applicant thereafter.

These funds are one-time costs as the ditch system hasn't been improved for over 60 years. The farmers have the capability and capacity to manage their system on an ongoing basis as they have done for hundreds of years.

**DECLARATION STATEMENT OF
APPLICANTS FOR GRANTS PURSUANT TO
CHAPTER 42F, HAWAII REVISIED STATUTES**

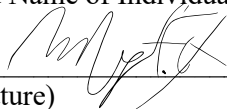

The undersigned authorized representative of the applicant certifies the following:

- 1) The applicant meets and will comply with all of the following standards for the award of grants pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is licensed or accredited, in accordance with federal, state, or county statutes, rules, or ordinances, to conduct the activities or provide the services for which a grant is awarded;
 - b) Complies with all applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
 - c) Agrees not to use state funds for entertainment or lobbying activities; and
 - d) Allows the state agency to which funds for the grant were appropriated for expenditure, legislative committees and their staff, and the auditor full access to their records, reports, files, and other related documents and information for purposes of monitoring, measuring the effectiveness, and ensuring the proper expenditure of the grant.
- 2) If the applicant is an organization, the applicant meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is incorporated under the laws of the State; and
 - b) Has bylaws or policies that describe the manner in which the activities or services for which a grant is awarded shall be conducted or provided; and
- 3) If the applicant is a non-profit organization, it meets the following requirements pursuant to Section 42F-103, Hawaii Revised Statutes:
 - a) Is determined and designated to be a non-profit organization by the Internal Revenue Service; and
 - b) Has a governing board whose members have no material conflict of interest and serve without compensation.
- 4) The use of grant-in-aid funding complies with all provisions of the Constitution of the State of Hawaii (for example, pursuant to Article X, section 1, of the Constitution, the State cannot provide "... public funds ... for the support or benefit of any sectarian or nonsectarian private educational institution...").

Pursuant to Section 42F-103, Hawaii Revised Statutes, for grants used for the acquisition of land, when the organization discontinues the activities or services on the land acquired for which the grant was awarded and disposes of the land in fee simple or by lease, the organization shall negotiate with the expending agency for a lump sum or installment repayment to the State of the amount of the grant used for the acquisition of the land.

Further, the undersigned authorized representative certifies that this statement is true and correct to the best of the applicant's knowledge.
