# STATE OF HAWAI'I | KA MOKU'ĀINA O HAWAI'I DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES | KA 'OIHANA LOIHELU A LAWELAWE LAULĀ

#### OFFICE OF ENTERPRISE TECHNOLOGY SERVICES | KE'ENA HO'OLANA 'ENEHANA

P.O. BOX 119, HONOLULU, HAWAII 96810-0119

May 7, 2025

The Honorable Ronald D. Kouchi President of the Senate and Members of the Senate Thirty-Third State Legislature State Capitol, Room 409 Honolulu, Hawai'i 96813 The Honorable Nadine K. Nakamura Speaker and Members of the House of Representatives Thirty-Third State Legislature State Capitol, Room 431 Honolulu, Hawaii 96813

Aloha Senate President Kouchi, House Speaker Nakamura, and Members of the Legislature:

Pursuant to HRS section 27-43.6, which requires the Chief Information Officer to submit applicable independent verification and validation (IV&V) reports to the Legislature within ten days of receiving the report, please find attached the report the Office of Enterprise Technology Services received for the State of Hawai'i, Department of Human Services, Child Welfare Services Branch, HI-THRIVE Modernization Project.

In accordance with HRS section 93-16, this report may be viewed electronically at <a href="http://ets.hawaii.gov">http://ets.hawaii.gov</a> (see "Reports").

Sincerely,

Christine M. Sakuda Chief Information Officer State of Hawai'i

**IV&V MONTHLY STATUS DASHBOARD February 2025** 

#### IV&V Monthly Executive Summary

This IV&V Monthly Activity Report (MAR) covers the February 01 - 28 2025 reporting period.

February 2025 IV&V Summary

- Technical Project Management IV&V Focus Area maintains RED for this period due to lack of an approved Project Schedule. The HI THRIVE PMO is reporting RED for February Monthly Schedule Scorecard as well.
- The Support Focus Area maintains YELLOW due to poor deliverable quality and multiple SI Vendor Deliverable rejections during February. The HI THRIVE PMO is reporting YELLOW for February Monthly Quality Scorecard as well.
- · All other IV&V Focus Areas are Blue for not enough data to report.

IV&V Observations:

- One existing Low Observation.
- One High Observation related to No Approved Vendor Project Schedule was moved to a Project Escalated Issue and One Low Observation related to PMO Process Maturity was moved to On Hold.

During the February 2025 reporting period IV&V continued Vendor Deliverable artifact review and collaborative involvement with the HI THRIVE PMO. The IV&V learn has continued to observe acceptable Vendor management practices from the HI THRIVE PMO and acceptable processes for associated project management tasks. Even with the HI THRIVE PMO performing adequate Vendor Performance Management processes the SI Vendor has not been able to consistently provide acceptable quality Deliverables, directly contributing to the degraded Project Health Quality Indicators.

The SI Vendor has continued the development and updates of contract defined deliverables through the reporting period and the IV&V and HI THRIVE Teams have provided adequate assessments to quality and conformity of those deliverables to contract and best practices. The results of the artifact reviews have continued to demonstrate that Vendor deliverable submissions do not meet expected levels of quality or conformity to contract expectations. N&V has observed that the HI THRIVE PMO is consistently providing appropriate feedback to the Vendor of no contract deliverable contributing factors to the lack of deliverable quality can be attributed to misunderstandings by the Vendor on contract deliverable definitions, HI THRIVE deliverable expectations, and lack process definition/detail in provided deliverables. The HI THRIVE Project Team has developed Issue 8 related to deliverable quality is working the Vendor to manage this item to closure.

IV&V has continued to observe Vendor project activities fall behind dates that were planned/proposed at the execution of the project. The HI THRIVE CCWIS Project continues to not have an approved SI-5 Project Work Plan and Schedule, six months after contract execution. IV&V acknowledges that the HI THRIVE PMO is actively working with the Vendor to achieve approval of the schedule and a version 7 of the SI-5 deliverable is currently under review by the team. The development and acceptance of multiple SI Vendor and IV&V deliverables are tied to an approved SI-5 Vendor schedule and are subsequently delayed day for day until approval is achieved. IV&V believes that a significant risk to the HI THRIVE PMO's ability to plan resources, assess project health, and assess visibility of planned Go-Live dates exists without an actionable approved schedule in place. To reflect the severity of this Issue, the HI THRIVE PMO has escalated a former IV&V issue to Project Issue 9 related to the project operating without an approved schedule.

IV&V is currently unable to contractually develop an IVV.4 IV&V Initial Report with baseline quality, schedule, and other health metrics without an approved schedule. IV&V is contractually unable to develop an IVV.1 IV&V Management Plan and Schedule without an approved Vendor schedule. As a result, without the baseline health metrics from the Initial Report the following monthly report does not include objective project health metrics, IV&V anticipates an approved S-5 Vendor Project Schedule in the March reporting period and subsequently an approved IVV.1 Management Plan and IVV.4 Initial Report in the April 2025 reporting period.

The HI THRIVE PMO and the IV&V Team are continuing to collaborate on the improvement and increase in rigor of existing Project Management Office processes and reporting to ensure that adequate controls and measurements are in place and understood by all project participants to improve opportunities for project success.

IV&V will continue monitoring SI Vendor artifact quality and conformance to contract and best practices in the March 2025 reporting period.

IV&V Active Obs	ervations Summary					
IV&V Observation Number	Observation Title	IV&V Recommendation	Priority	Observation Type	Status	Date Identified
2.04	Observation 2.0.4 Incomplete Meeting Minutes Documentation	"The IV&V team recommends implementing the following measures to improve the quality of meeting minutes: Recommendation 2.0.4.1 Comprehensive Decision and Action Item Tracking: Ensure that all decisions and action Item Gaussed during the meeting are explicitly recorded in the minutes, including assigned owners, due dates, and next steps.  Recommendation 2.0.4.2 Meeting-Specific Descriptions: Write unique and concise descriptions for each meeting that clearly state its purpose, agenda, and expected outcomes, avoiding repetitive content from previous minutes.  Recommendation 2.0.4.3 Validation Process: Establish a validation process where meeting participants review meeting minutes to ensure accuracy and completeness before finalization."		Issue	Open	12/01/24

## **Project and Focus Area Health Summary**

This area provides stoplight indicators of overall IV&V assessed Project Health and also individual Technical Process Areas that are evaluated by the IV&V Team during the reporting period.

The IV&V Project and Focus Area Health assessments have not formally started, pending the approval of SI-5 Vendor Project Schedule. SI-4 Project Management Plan and the subsequent development of the IVV.1 IV&V Management Plan that documents the metrics, processes, and data used to measure and report on the Project Health attributes. IV&V assumed the SI-5 Vendor Project Schedule would be approved in the November 2024 reporting period, however approval is now estimated in March 2025 and the IVV.1 Management Plan and supporting process approval occurring in April 2025, allowing IV&V to start a baseline Project Health assessment.

IV&V is currently performing a subjective (versus objective) assessment of Health based on the data observed to date, however no defined metrics have been created or approved for review at this time. The project is operating without an approved and actionable Vendor schedule and Vendor deliverables are rejected on a consistent basis due to quality and errors.

IV&V Monthly Overall Project Health											
Overall Project Status	Monthly Budget Health	Monthly Quality Health	Monthly Schedule Health	Monthly Scope Health							
•	•	•	•	•

GREEN	YELLOW	RED	BLUE								
Satisfactory – No corrective actions necessary.  All life cycle activities conform to requirements.  Implemented processes are satisfactory,  Risks or issues may exist and contain appropriate mitigation or resolution steps and the project is adequately addressing	Some life cycle activities are not in alignment with requirements.  Some processes may require process improvements.	Many life cycle activities are not in alignment with requirements.  Many processes require corrective action.	Not enough data is available to make a determination about project health,								

## **Observations Active During Reporting Period**

This section provides detail on all IV&V Observations that were opened, closed, or active and their type Risk, Issue, or Neutral. Initial Observations remain Neutral (not issue or risk) until formal agreement is reached with HI THRIVE Project Team.

Observation Title	IV&V Observation Description	IV&V Impact Description	IV&V Recommendation	IV&V Ongoing Update	State Initial Response	Observation Type	Priori
Observation 2.0.4 ncomplete Meeting Minutes Documentation	a lack of critical details, including decisions and action items discussed during the meetings. Additionally, the descriptions of the meetings are copied from previous meeting minutes and fail to adequately explain the specific purpose of the meeting, leading to inconsistencies and reduced clarity. This finding was supported by HI CCWIS Contract Template T-6 Requirements Approach and Section 3,1.3 Project Kickoff and Planning 6th paragraph, deliverable SI-8 Meeting Minutes and Recordings, and WBS 1.8.2 Conduct Meeting and Record	presents several issues:  1. Missed Follow-Up Actions: Key follow-up activities may be overlooked without clear documentation of decisions and action items, delaying progress and reducing accountability. 2. Loss of Traceability. Inadequate documentation of meeting outcomes diminishes the ability to track decisions and their impact on project objectives. 3. Stakeholder Confusion: Stakeholder Gonfusion: Stakeholder Stays struggle to understand	Comprehensive Decision and Action Item Tracking: Ensure that all decisions and action Items discussed during the meeting are explicitly recorded in the minutes, including assigned owners, due dates, and next steps.  Recommendation 2.0.4.2 Meeting-Specific Descriptions: Write unique and concise descriptions for each meeting that clearly state its purpose, agenda, and expected outcomes, avoiding repetitive content from previous minutes.	February IV&V Update: IV&V has observed some improvement in documentation of meeting minutes. IV&V is waiting to see the thoroughness of captured minutes and action items and traceability from the configuration sessions to provide a update.  IV&V requested update from the State on if they have observed quality improvements on SI documentation in January, no updates were provided.  January IV&V Update: IV&V reviewing submitted minutes and documentation for improvement and will continue analysis through February.  No updates for December.	Agree and State will mitigate (open). The HI THRIVE team acknowledges IV&V Observation 2.0.4 regarding the incomplete and repetitive nature of meeting minutes and agrees that clear, detailed, and actionable meeting documentation is essential for the success of the HI THRIVE project. The HI THRIVE core team is committed to addressing this observation by implementing the recommended measures to improve the quality and usability of meeting minutes.  The HI THRIVE PM will facilitate the mitigation efforts and lead the implementation of these process improvements. The HI THRIVE team will take the following next steps:  The HI THRIVE team will formally communicate with the technical vendor in email, outlining the recommendations from IV&V.  At the end of the month (Jan), the HI THRIVE project team will conduct a review of meeting minutes to assess progress in addressing the IV&V recommendations. This review will also help determine if a risk should be raised at the project level due to any ongoing deficiencies or gaps.	Issue	Low

#### IV&V Scope and Purpose

This report documents observations that the Technology Management Solutions, Inc. (TMS) Independent Verification and Validation team (IV&V) made on the HI THRIVE Comprehensive Child Welfare Information System (CCWIS) Project during the current reporting period.

The objective of the IV&V efforts is to review and/or test selected HITHRIVE Project processes and products to assure that the associated systems meet functional and non-functional requirements, and are successfully implemented within the processes, time frames, and constraints identified in the HITHRIVE Project contracts. The IV&V team determines whether project staff members are following planned processes, and whether contractor work meets project requirements. The IV&V team provides independent technical review and verification of project deliverables, independent testing and auditing of project deliverables against requirements, and a special emphasis on deliverable quality assurance and reviews of information security control.

The TMS IV&V team approach encourages these positive outcomes:

- Ine I INS IVAV team approach encourages these positive outcomes:

  1. Collaborative identification and communication of successes and recommended improvements.

  2. Detection and correction of errors early in the project life cycle.

  3. Reduction in development risks, costs and adverse schedule impacts.

  4. Enhancement of project products' quality, integrity, and security.

  5. Increased visibility into and greater understanding of the project and processes.

- IV&V evaluations will include:

  1. Review of content quality
  2. Review of conformance to standards and best practices
  3. Quality assessments of work products
  4. Quality assessments of work practices
  5. Process improvement identification
  6. Recommendations for deficiency remediation

For the detailed scope and approach of the IV&V reviews, assessments and evaluations refer to the IV&V Deliverable: IVV.1 IV&V Management Plan and the IV&V guiding process document IEEE 1012-2016 Standard for System, Software, and Hardware Verification and Validation.
