H.B. NO. 1085

Report Title:

Cigarette Tax; Tobacco Tax; Disposition of Revenues

Description:

Increases the tax rates for cigarettes and little cigars beginning 1/1/2026, amends the disposition of tax revenues to certain non-general funds starting from fiscal year 2026-2027, with the excess carrying over to the general fund, and expands the tax disposition of tax revenues to the funds to include all tobacco product taxes. Repeals obsolete historical tax rates.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

JUSTIFICATION SHEET

DEPARTMENT: Office of the Governor

TITLE: A BILL FOR AN ACT RELATING TO TAXATION.

PURPOSE: To increase the cigarette tax, expand the tax disposition of revenues into certain non-general funds from only cigarette taxes to all tobacco product taxes, and delete obsolete or unnecessary provisions.

MEANS: Amend sections 245-3(a) and 245-15, Hawaii Revised Statutes.

JUSTIFICATION: According to the United States Surgeon General, increasing the price of tobacco products is the single most effective way to reduce consumption. A ten percent increase in price has been estimated to reduce overall cigarette consumption by up to five percent. Research also suggests that both youth and young adults are two to three times more likely to respond to increases in price than adults.

Cigarette smoking also takes a financial toll on the State. \$611 million is the estimated health care costs directly caused by smoking in Hawaii annually. Smoking-caused government expenditures result in a tax burden of \$983 per household and \$1.1 billion in lost productivity in Hawaii annually.

The World Health Organization recommends that tobacco taxes should be raised significantly and at regular intervals to ensure that tobacco products do not become more affordable. The last cigarette tax increase in Hawaii was fourteen years ago in 2011, and there was an observed decrease in high school cigarette use from years prior, which continued steadily thereafter.

Since its inception, cigarette tax revenue has been used to support vital health care services in the State, including cancer research and prevention, the State Trauma System, community

health centers, and emergency medical services. In Act 316, Session Laws of Hawaii 2006, the Legislature found that "allocating a significant percentage of tobacco tax revenues to programs that strive to maintain Hawaii's health such as the cancer research center of Hawaii, Hawaii's emergency medical services, critically needed trauma centers, and the community health centers are the most appropriate and effective use of such revenues to help the greatest number of people in our island-state."

In recent years, cigarette tax revenue has declined, resulting in a decrease of over fifty percent in revenues to the Hawaii Cancer Research Special Fund, Trauma System Special Fund, Community Health Centers Special Fund, and Emergency Medical Services Special Fund.

A portion of the cigarette tax revenue currently deposited into the Hawaii Cancer Research Special Fund supports cancer research and the Cancer Research Center of Hawaii's operations and capital expenditures including revenue bonds that were sold to construct the cancer center in 2010. This decline in cigarette tax revenue jeopardizes the revenue stream for debt service for the revenue bonds.

The decline in cigarette tax revenue also impacts on the availability of resources for emergency medical services, trauma centers, and community health centers.

Currently, only these declining cigarette tax revenues are allocated to these programs, and not tax revenues from e-cigarettes, e-liquids, cigars, and other tobacco products. This bill would also expand the allocation of revenues collected from all tobacco products, rather than only cigarette tax revenues.

Impact on the public: Increased costs for cigarette users will lead to further decreases in tobacco use in Hawaii, leading to broader public health benefits.

Additionally, consistent and sustained funding for the University of Hawaii Cancer Center, State Trauma System, community health centers, and emergency medical services will have significant benefits for the general public.

Impact on the department and other agencies: The increased revenue to the Hawaii Cancer Research Special Fund, Trauma System Special Fund, Community Health Centers Special Fund, and Emergency Medical Services Special Fund will reverse the recent trend of declining revenues.

GENERAL FUND: Impact on general funds depends on continued purchase of cigarettes.

OTHER FUNDS: None.
