
A BILL FOR AN ACT

RELATING TO ACT 253, SESSION LAWS OF HAWAII 2023.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. Act 253, Session Laws of Hawaii 2023,
2 established the neighbor islands blind and visually impaired
3 service pilot program within the department of human services.
4 The goal of Act 253 is to bridge the gaps in services for blind
5 and low vision residents across the State, particularly focusing
6 on those living on the neighbor islands. The department's
7 efforts to implement the Act were delayed until July 2024 as the
8 department's staff were responding to the needs of staff and
9 residents impacted by the August 2023 Maui wildfires.

10 Despite the delays, the department engaged a consultant,
11 posted a survey, and had several in-person and virtual meetings
12 to gather information from blind and low vision neighbor island
13 residents to discuss potential training and services that the
14 pilot program may offer. A report to the legislature was
15 submitted in December 2024 detailing the department's efforts,
16 findings, and recommendations that include requests for two
17 additional temporary full-time equivalent positions within the
18 department and appropriations to implement the pilot program.

H.B. NO. 1100

JUSTIFICATION SHEET

DEPARTMENT: Human Services

TITLE: A BILL FOR AN ACT RELATING TO ACT 253,
SESSION LAWS OF HAWAII 2023.

PURPOSE: To update the name of the Neighbor Islands
Blind and Visually Impaired Pilot Program,
delete the deadline to establish the pilot
program, and make technical amendments
clarifying awareness of technology.

MEANS: Amends section 2(a), (b), (f) to (h), (j),
and (k) of Act 253, Session Laws of Hawaii
2023 (Act 253).

JUSTIFICATION: Act 253 established the Neighbor Islands
Blind and Visually Impaired Service Pilot
Program within the Department and made
appropriations. Act 253 set a reporting
deadline for the Department for twenty days
prior to the 2024 legislative session and
mandated that the pilot program begin by
January 1, 2024.

Unfortunately, in August 2023, DHS staff and
resources were a part of the State's
emergency management response to the August
2023 Maui Wildfires. Consequently, staff
were not able to timely access the funds
appropriated by Act 253 and complete the
work in time to submit a report to the 2024
legislature and start the program on January
1, 2024. To implement the program now, we
are advised that the deadlines need to be
amended or deleted.

In 2024, the leadership of the Division of
Vocational Rehabilitation (DVR) and the
Director's Office remained committed to the
pilot project and found other funds to
procure a consultant needed to facilitate
the Act 243 working group. The consultant
facilitated the necessary outreach with
neighboring island blind and low vision
communities and prepared a report to the

2025 legislature describing the pilot program and recommending appropriations to fund the pilot program.

One recommendation was to change the term "visually impaired" to "low vision" as "low vision" is considered less stigmatizing in the field and community and acknowledges that pilot program participants may have some vision. Other recommendations included adding two temporary full-time equivalent positions (2.0 FTE), a project specialist IV SR-22, and an administrative assistant SR-14, and appropriations of general funds for the staff, contracting services, and equipment necessary to implement the pilot program in the amounts of \$612,210 for fiscal year 2025-2026, and \$1,694,644 for fiscal year 2026-2027.

A Governor's message will be submitted to request that general funds be appropriated through the executive budget bill for the pilot program. DVR's Ho'opono program comprises federally-funded services for the blind and low vision related to accessing employment. The existing federal funds may not be used to support this pilot project that aims to provide services to the neighbor island blind and low vision community members interested in gaining skills and mobility, though not necessarily seeking employment.

The bill also broadens awareness of technology generally available for communication.

Impact on the public: When implemented, neighbor island residents who are blind or have low vision will have access to training, transportation, and other services not currently available on neighbor islands. These services will support individuals' independence, social connections, and well-being. The impact on the public is positive; as pilot project participants gain

skills and mobility, they will be more likely to contribute to their community's diversity and inclusiveness.

Impact on the department and other agencies:

The Department will need to adopt administrative rules, hire qualified staff, and implement new programs in different communities. The Department of the Attorney General will need to assist with drafting the administrative rules and assist with procurement.

GENERAL FUND:	None.
OTHER FUNDS:	None.
PPBS PROGRAM DESIGNATION:	HMS 802.
OTHER AFFECTED AGENCIES:	Department of the Attorney General
EFFECTIVE DATE:	July 1, 2025.
