JUSTIFICATION SHEET

DEPARTMENT: Transportation

TITLE: A BILL FOR AN ACT RELATING TO COMMERCIAL HARBORS.

PURPOSE: To clarify the requirement of vessels to evacuate a commercial harbor upon order by the harbor master during an emergency and to set penalties for noncompliance.

MEANS: Add a new section to part I of chapter 266, Hawaii Revised Statutes (HRS). Amend §266-19(a), HRS.

JUSTIFICATION: In times of emergency, it is essential that commercial harbor users evacuate the commercial harbors when ordered by the harbor master. There have been instances when the United States Coast Guard has closed a commercial harbor as part of an emergency response, and persons responsible for a vessel have not followed the harbor master's order to evacuate a commercial harbor. This bill seeks to specifically require all vessels to evacuate a commercial harbor when ordered by the harbor master. In heavy weather, there have been instances in which vessels sink in a waterway and obstruct vessel traffic, impeding the delivery of cargo. In emergency preparedness exercises, there are often scenarios in which vessels that do not evacuate cause damage to piers and port infrastructure or otherwise impede restoration of port operations. While there are broad authorities for evacuations and parameters for penalties, this bill seeks to specify the requirements to follow an order to evacuate to prevent these situations in future emergency events and to set higher penalties for noncompliance.

Impact on the public: This bill will increase safety at the commercial harbors by ensuring that persons in charge of vessels

follow the harbor master's order to evacuate a commercial harbor. Evacuations will mitigate damage to port infrastructure during an emergency event and support efficient restoration of port operations.

Impact on the department and other agencies:
The bill will increase safety in commercial ports and mitigate damage to port infrastructure, reducing the costs for repairs and time required to restore port operations following an emergency event.
