S.B. NO. 1068

JAN 1 7 2025

A BILL FOR AN ACT

RELATING TO RENEWABLE ENERGY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that a better 2 understanding of geothermal resources and carbon sequestration 3 potential across the State can have multiple benefits. Resource characterization via slim-hole bores, which have a diameter of 4 5 seven inches or less for over ninety per cent of the depth of the bore, can identify geothermal and carbon sequestration 6 7 resources across the State. 8 The legislature further finds that a statewide 9 environmental assessment for a slim-hole resource 10 characterization program should be conducted, along with robust and continued community engagement, in order to identify the 11 most appropriate locations for this scientific activity. 12 13 The purpose of this Act is to require the Hawaii state

14 energy office to conduct a statewide environmental assessment 15 for, and subsequently administer, a slim-hole resource 16 characterization program to identify geothermal and carbon 17 sequestration resources in the State.

S.B. NO. 1068

1	SECTION 2. Chapter 196, Hawaii Revised Statutes, is
2	amended by adding a new section to part I to be appropriately
3	designated and to read as follows:
4	" <u>§196-</u> <u>Carbon sequestration and underground resource</u>
5	characterization program. (a) The Hawaii state energy office
6	shall conduct a statewide environmental assessment for a slim-
7	hole resource characterization program that identifies the
8	location and characteristics of underground geothermal and
9	carbon sequestration resources across the State. In accordance
10	with the statewide environmental assessment, the Hawaii state
11	energy office shall administer the slim-hole resource
12	characterization program.
13	(b) Before and during the environmental assessment and
14	slim-hole resource characterization program, the Hawaii state
15	energy office shall engage with the counties and nearby
16	communities, including individuals and civic organizations, in
17	order to understand community needs, priorities, and concerns
18	with regard to the program."
19	SECTION 3. The Hawaii state energy office shall submit a
20	progress report to the legislature two years after the slim-hole
21	resource characterization program has commenced and a final

report to the legislature at the conclusion of the program. The
 findings and reports shall be made available to the public in
 readily accessible formats, including commonly used mapping
 software.

SECTION 4. There is appropriated out of the energy
security special fund the sum of \$ or so much thereof
as may be necessary for fiscal year 2025-2026 and the same sum
or so much thereof as may be necessary for fiscal year 2026-2027
for the purposes of this Act.

10 The sums appropriated shall be expended by the Hawaii state
11 energy office for the purposes of this Act.

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$ or so much thereof as may be necessary for fiscal year 2025-2026 and the same sum or so much thereof as may be necessary for fiscal year 2026-2027 for one full-time equivalent (1.0 FTE) permanent position to support the activities of this Act.

18 The sums appropriated shall be expended by the Hawaii state
19 energy office for the purposes of this Act.

20 SECTION 6. New statutory material is underscored.

21 SECTION 7. This Act shall take effect on July 1, 2025.

INTRODUCED BY:

S.B. NO. /068

Report Title:

Hawaii State Energy Office; Statewide Environmental Assessment; Slim-hole Resource Characterization; Appropriation

Description:

Requires the Hawaii State Energy Office to conduct a statewide environmental assessment for, and subsequently administer, a Slim-Hole Resource Characterization Program. Requires reports to the Legislature. Appropriates funds.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.
