A BILL FOR AN ACT

RELATING TO ECONOMIC DEVELOPMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- 1 SECTION 1. The legislature finds that Hawaii is
- 2 experiencing a climate emergency. The effects of climate
- 3 change, such as rising temperatures, prolonged droughts, and
- 4 increasingly destructive and deadly weather events, are felt
- 5 across the island chain. These impacts threaten not only the
- 6 State's vibrant ecosystems but, as actors within these
- 7 ecosystems, the people of Hawaii as well. To ensure the health,
- 8 safety, and well-being of Hawaii's lands, waters, and people,
- 9 successful mitigation of and adaptation to climate change is
- 10 imperative.
- 11 The legislature further finds that given the scale and
- 12 impact of the climate emergency, the State must invest in bold
- 13 actions to prepare for, mitigate, and adapt to climate change,
- 14 including resiliency to intensifying natural disasters. A
- 15 coordinated approach is necessary, and the department of
- 16 defense, charged with protecting the safety and welfare of the
- 17 people of Hawaii and the State's lead for hazard mitigation and

- 1 disaster readiness, is prepared to assume this responsibility,
- 2 in coordination with the departments of business, economic
- 3 development, and tourism; land and natural resources; and
- 4 transportation, as well as the community, to provide for the
- 5 safety, security, and well-being of Hawaii's places and people.
- 6 The legislature additionally finds that economic
- 7 development, in particular, must consider climate change.
- 8 Tourism, infrastructure, and community development are all
- 9 predicated upon Hawaii's land and natural resources. Resiliency
- 10 to and mitigation of climate change must remain at the forefront
- 11 of any economic development or revitalization project.
- 12 The legislature also finds that Hawaii needs to invest in
- 13 efforts to reduce climate change impacts now to limit current
- 14 and future costs of climate change. The anticipated extent of
- 15 the impact of climate change is such that state government needs
- 16 to take comprehensive and coordinated mitigation efforts as soon
- 17 as possible.
- 18 Accordingly, the purpose of this Act is to address the
- 19 impacts of climate change and support tourism marketing and
- 20 destination management in the State and mitigate further impacts
- 21 by authorizing the funding of resiliency projects by:

1	(1)	Increasing the transient accommodations tax; and						
2	(2)	Requiring the governor to request in the budget or
