2025-2712 SB1588 HD1 HSCR HMSO

Your Committee finds that nuclear energy is a reliable energy source capable of generating carbon-free electricity without emitting greenhouse gases. Your Committee finds that the State should evaluate the potential of utilizing nuclear power technologies in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that the chairs of the Senate and House of Representatives standing committees with primary jurisdiction over environmental matters are required to serve on the Task Force;
- (2) Adding a representative from an environmental organization to be invited to the Task Force;
- (3) Changing the effective date to July 1, 3000, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee notes the testimony from the Hawaii State Energy Office regarding the challenges and current lack of cost, production, safety, and nuclear waste management information on nuclear energy technology, including small modular reactors, to determine feasibility of use in the State and recognizes that further consideration of the objectives of the Nuclear Energy Task Force is needed.

As affirmed by the record of votes of the members of your Committee on Energy & Environmental Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1588, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1588, S.D. 1, H.D. 1, and be referred to your Committee on Finance.

Respectfully submitted on
behalf of the members of the
Committee on Energy &
Environmental Protection,

NICOLE E. LOWEN, Chair
