The Honorable Joy A. San Buenaventura
Chair, Senate Committee on Health and Human Services

RE: Nomination to the Board of Directors of the Hawai'i Health Systems Corporation
GM699 – Lisa Rantz

Dear Senator San Buenaventura and Members of the Committee:

Thank you for the opportunity to submit responses in support of my nomination to continue serving on the Board of Directors of the Hawaii Health Systems Corporation (HHSC). It is a privilege to contribute to the advancement of rural and community-based healthcare throughout the state. Below are my responses to your questions:

1. Why do you wish to be a member of the Board of Directors of the Hawaii Health Systems Corporation?

I wish to continue serving on the HHSC Board of Directors because I am committed to advancing equitable, high-quality healthcare access across Hawaii, especially for rural and underserved populations. My work has centered on improving healthcare infrastructure, workforce development, and system-wide collaboration, and I believe HHSC is critical to addressing these statewide challenges.

2. What do you perceive are the roles and responsibilities of a member of the Board of Directors of the Hawaii Health Systems Corporation?

A board member is responsible for strategic governance and fiduciary oversight of HHSC, ensuring operational excellence, financial sustainability, and equitable access to care. The role includes setting long-term goals, collaborating with regional leadership, and aligning policies and resources to strengthen Hawaii's public hospital system.

3. Given your understanding of the roles and responsibilities as a member of the Board of Directors of the Hawai'i Health Systems Corporation, why do you believe that you are qualified for the position?

With over a decade of experience in healthcare policy, nonprofit leadership, and workforce development, I bring skills in strategic planning, stakeholder engagement, and coalition building. As Executive Director of the Hilo Benioff Medical Center Foundation and AHEC Director for Hawaii County, I have secured critical funding for provider training and recruitment. My leadership roles with the Hawaii State Rural Health Association, Access to Care Initiative, and the Hawaii Medical Education Council further demonstrate my commitment and preparedness for this role.

4. What do you hope to accomplish during your term of service?

I aim to enhance regional collaboration within HHSC, support innovative solutions for healthcare workforce shortages, and strengthen financial and operational sustainability. I also intend to advance strategic initiatives that position Hawaii as a national leader in rural healthcare innovation.

5. Name three qualities that best describe you and how these qualities will help the Board of Directors of the Hawai'i Health Systems Corporation.

- *Collaborative:* I excel at building strong partnerships and aligning multi-sector stakeholders toward shared goals.
- *Strategic:* I bring a systems-thinking approach and long-term vision to complex healthcare challenges.
- *Persistent:* I am results-oriented and committed to driving sustainable change through perseverance and adaptability.

These qualities allow me to contribute effectively to the board's mission of improving health outcomes statewide.

6. Name a previous experience you've had that will be beneficial as a member.

As President of the Hawai'i State Rural Health Association, I led the development of provider subsidy programs, secured Health Professional Shortage Area (HPSA) designations, and successfully advocated for state and federal funding. This experience directly supports the goals of HHSC and its rural-serving facilities.

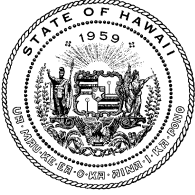

7. Can you foresee any possible conflicts of interest that could arise during your service on the Board of Directors of the Hawai'i Health Systems Corporation? How would you overcome conflicts of interest?

While I do not foresee any direct conflicts at this time, I understand that potential conflicts may arise through partnerships or affiliations. I would address such situations with transparency, disclose any potential conflicts promptly, and recuse myself from related decisions in accordance with HHSC's ethical standards.

Thank you for your consideration and continued support of public healthcare in Hawaii. I would be honored to continue serving and advancing the mission of HHSC.

With gratitude,

Lisa Rantz
