TESTIMONY OF KALI WATSON, CHAIR
HAWAIIAN HOMES COMMISSION
BEFORE THE HOUSE COMMITTEE ON FINANCE
HEARING ON FEBRUARY 20, 2025 AT 2:00PM IN CR 308

HB 1365, HD 1, RELATING TO THE DEPARTMENT OF AGRICULTURE

February 19, 2025

Aloha Chair Yamashita, Vice Chair Takenouchi, and Members of the Committee:

The Department of Hawaiian Home Lands (DHHL) **supports with amendment** this bill which appropriates funds to the Department of Agriculture for a Non-Potable Water Wells Pilot Program to prepare an environmental impact statement to drill non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa farm lots.

DHHL appreciates the intent of this bill. The bill's referenced Pana'ewa farm lots consists of parcels or property under the jurisdiction of DHHL. We respectfully request that it be noted that the Hawaiian Homes Commission (HHC), as codified in the Hawaii State Constitution, has exclusive land use and zoning authority for Hawaiian Home Lands. Additionally, lessee beneficiaries with existing cesspools may pose a threat to any well within proximity due to possible contamination to the aquifer.

DHHL recommends inserting a new Section to HB1365, HD1, with language that reads "The department of agriculture shall consult and coordinate with the department of Hawaiian home lands on the location and distribution of water from the non-potable water wells prior to and after the completion of the environmental impact statement to drill non-potable water wells on individual parcels at Panaewa agricultural park and Panaewa farm lots."

Thank you for your consideration of our testimony.

BEFORE THE HOUSE COMMITTEE ON FINANCE

DATE THURSDAY, FEBRUARY 20, 2025
TIME 2:00 PM
CONFERENCE ROOM 308

HOUSE BILL NO. 1365 H.D.2
RELATING TO THE DEPARTMENT OF AGRICULTURE

Chair Yamashita, Vice Chair Takenouchi, and Members of the Committee:

Thank you for the opportunity to testify on House Bill 1365 H.D.2. This bill appropriates funds to the Department of Agriculture ("Department") for a pilot program to prepare an environmental impact statement or environmental assessment for the drilling of non-potable water wells on individual parcels at Pana'ewa agricultural park and Pana'ewa farm lots, under the Department. The Department supports the intent of this bill provided it does not impact the priorities identified in the Governor's biennium budget.

The Department supports diversified farming on agricultural park and non-agricultural park parcels in Pana'ewa. The Department understands the importance of establishing reliable sources of non-potable water to support the viability of farming operations. Moreover, the Department recognizes that compliance with our environmental laws is key to the successful planning and implementation for these wells.

Thank you for the opportunity to testify on this measure.

**HOUSE OF REPRESENTATIVES
THE THIRTY-THIRD LEGISLATURE
REGULAR SESSION OF 2025**

COMMITTEE ON FINANCE

**Rep. Kyle T. Yamashita, Chair
Rep. Jenna Takenouchi, Vice Chair**

**Thursday, February 20, 2025 2:00 PM

**RE: HB 1365HD1 – RELATING TO THE DEPARTMENT OF
AGRICULTURE.**

My name is Eric S. Tanouye and I am the President for the Hawaii Floriculture and Nursery Association. HFNA is a statewide umbrella organization with approximately 350 members. Our membership is made up with breeders, hybridizers, propagators, growers, shippers, wholesalers, retailers, educators, and the allied industry, which supports our efforts in agriculture.

**The Hawaii Floriculture and Nursery Association (HFNA) SUPPORTS
House Bill 1365 HD1**

We support the funding of an environmental impact statement looking into non-potable water wells on individual parcels for the Panaewa agricultural park and Panaewa farms lots. It is important as farmers that we have access to water for the growing of our products and places less of a burden on community water lines to have a separate source available.

This will help to provide the parcels of Panaewa agricultural park and farm lots, the opportunity to better take care of their water needs, without placing a financial burden on farmers. This can help both new and current farmers.

If you have any questions at this time, I would be happy to discuss them and can be reached by phone at 808-959-3535 ext 22, cell 960-1433 and email eric@greenpointnursery.com.

February 20, 2025

HEARING BEFORE THE
HOUSE COMMITTEE ON FINANCE

TESTIMONY ON HB 1365, HD1
RELATING TO THE DEPARTMENT OF AGRICULTURE

Conference Room 308 & Videoconference
2:00 PM

Aloha Chair Yamashita, Vice-Chair Takenouchi, and Members of the Committee:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate, and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau supports HB 1365, HD1, which appropriates funds to the Department of Agriculture for a Non-Potable Water Wells Pilot Program to prepare an environmental impact statement to drill non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa farm lots. This initiative is a crucial step in improving water security for agriculture in this region while alleviating pressure on potable county water supplies.

Access to affordable and reliable irrigation water is essential for agricultural viability. At the Panaewa Agricultural Park and Panaewa Farm Lots, many farmers struggle with the high cost and limited availability of irrigation water, limiting their ability to expand production. Developing non-potable water wells would free up potable county water for residential use while providing a more cost-effective and sustainable water source for agricultural operations.

According to data from the U.S. Census of Agriculture and the Hawai'i Department of Agriculture, agricultural production in Hawai'i has been declining, with water access cited as a key limiting factor. Floriculture, diversified crops, and livestock operations all require consistent irrigation to maintain and expand production. Without a dedicated water source, agriculture will continue to struggle.

The Panaewa farmers have expressed willingness to participate in a cost-share arrangement for the development and maintenance of these wells, further strengthening the case for this investment. Their commitment demonstrates a public-private approach that ensures long-term sustainability of the infrastructure once developed.

Thank you for the opportunity to testify on this measure.

February 19 2025

To: Chair Kyle Yamashita, Vice Chair Jenna Takenouchi, and Members of the House Finance Committee

Subject: HB 1365, Relating to the Department of Agriculture

Aloha,

I am submitting testimony in **support** of **HB1365 HD1**, which appropriates funds to the Department of Agriculture for the preparation of an Environmental Impact Statement (EIS) for drilling non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa Farm Lots.

The proposed funding in **HB 1365 HD1** is a critical step toward supporting Hawai'i's farmers by ensuring water resources are accessible for agricultural use. The COVID-19 pandemic highlighted the urgency of increasing Hawai'i's self-sufficiency in food production. With improved access to non-potable water wells, farmers in Panaewa will be better equipped to cultivate their crops, contributing to Hawai'i's food security goals while reducing reliance on imports. Environmental Impact Statements (EIS) are essential for responsible development, but their costs often create barriers for farmers. **HB 1365 HD1** ensures this burden does not fall on individual farmers, allowing them to focus on expanding operations and productivity. Water is the lifeblood of agriculture, and this bill will enable farmers leasing agricultural land from the Department of Agriculture to overcome irrigation challenges through funding for a comprehensive EIS.

An EIS ensures water well development minimizes environmental risks while maximizing agricultural benefits. By passing **HB 1365 HD1**, the Legislature will empower Hawai'i's farmers, advance local food production, and promote sustainable agricultural development. I respectfully urge the committees to support this measure.

The Food+ Policy internship develops student advocates who learn work skills while increasing civic engagement to become emerging leaders. We focus on good food systems policy because we see the importance and potential of the food system in combating climate change and increasing the health, equity, and resiliency of Hawai'i communities.

In 2025, the cohort of interns are undergraduate and graduate students and young professionals working in the food system. They are a mix of traditional and nontraditional students, including parents and veterans, who have backgrounds in education, farming, public health, nutrition, and Hawaiian culture.

RE: HB1365 HD1 Relating to the Department of Agriculture

Aloha e Chair Yamashita, Vice Chair Takenouchi, and Members of the Committee:

My name is Sherry Menor, President and CEO of the Chamber of Commerce Hawaii ("The Chamber"). The Chamber supports House Bill 1365 House Draft 1 (HB1365 HD1, which appropriates funds to the Department of Agriculture for a Non-Potable Water Wells Pilot Program to prepare an environmental impact statement to drill non-potable water wells on individual parcels at Panaewa Agricultural Park and Panaewa farm lots.

HB1365 HD1 aligns with our 2030 Blueprint for Hawaii: An Economic Action Plan, specifically under the policy pillar for Business Services. This bill promotes policies that drive economic growth, enhance workforce opportunities, and improve the quality of life for Hawaii's residents.

Access to reliable water sources is essential for sustaining agriculture, particularly in regions like Panaewa Agricultural Park and Panaewa farm lots. This bill allocates funding for a Non-Potable Water Wells Pilot Program to assess the feasibility of drilling wells on individual parcels. The program will include an environmental impact statement to evaluate potential effects and ensure responsible water management. By investing in alternative water sources, the initiative aims to support local farmers, enhance agricultural productivity, and promote long-term sustainability.

The Department of Agriculture will oversee the program, using appropriated funds for necessary assessments and planning. This initiative addresses the critical need for sustainable irrigation solutions in Hawaii's agricultural sector. The Chamber supports this measure as it strengthens food security, reduces reliance on potable water for farming, and fosters economic growth in the state's agricultural industry.

The Chamber of Commerce Hawaii is the state's leading business advocacy organization, dedicated to improving Hawaii's economy and securing Hawaii's future for growth and opportunity. Our mission is to foster a vibrant economic climate. As such, we support initiatives and policies that align with the 2030 Blueprint for Hawaii that create opportunities to strengthen overall competitiveness, improve the quantity and skills of available workforce, diversify the economy, and build greater local wealth.

We respectfully ask to pass House Bill 1365 House Draft 1. Thank you for the opportunity to testify.
