Comments:

I oppose HRC208 and HR200. There are reasons why a variety of military recreation facilities are only open to current and retired military members, family members, and their invited guests. Where possible, there are already military facilities that are open for recreation to Hawaii residents. Please defer these proposed resolutions.

Comments:

I strongly support HR200/HCR208 that urges the United States Department of Defense to make recreational facilities on military installations in Hawaii accessible to all Hawaii residents;

As noted in this resolution, the military currently occupies lands that were originally intended for the benefit of the Hawaiian people under the Hawaiian Homes Commission Act and the Public Land Trust. Moreover, the people of Hawaii contribute substantially to the United States military through our taxes, yet are generally restricted from accessing these military recreational facilities. Public access has been successfully implemented in other jurisdictions, Hawaii deserves the same.
