Comments:

Aloha House Committee on Education:

I strongly support this resolution. An audit will help DOE and the Legislature set priorities and guide corrections.

Mahalo,

Daniel C. Smith

Comments:

I support HCR110/HB106.

There is a significant amount of deferred repair and maintenance of property entrusted to the Department of Education. Funds are available to **review, prioritize and initiate** a program aimed at this deferred maintenance issue.

Safety - Several areas are paramount including unsafe school facilities putting children and teachers at risk. It is unreasonable to have funds to eliminate these unsafe conditions and not allocate appropriate resources to remedy the issue.

Funding - \$2 billion in unspent capital improvement program funds begs the question, "why are funds available to address known issues and nothing being done to start the project process"?

My professional background includes over 30 years of creating budgets, sourcing vendors, contractors and suppliers, securing approval, initiating work and managing programs and project throughout North America. It's time to have an Auditor dig into the issues outlined in HB106 and start repairing our Department of Education buildings here in Hawaii.

I urge you to support HCR110/HB106. Mahalo,

Ted Meehan
