Dear President Kouchi, Speaker Nakamura, and Members of the Legislature:

For your information and consideration, the Department of Taxation (Department) hereby transmits a copy of the Hawai'i Individual Income Tax Statistics Report for Tax Year 2022, as required by Section 231-3.4(a)(1), Hawai'i Revised Statutes (HRS).

In accordance with section 93-16, HRS, the Department also informs you that the report may be viewed electronically at: https://tax.hawaii.gov/stats/a5_1annual/a5_5ind_inc/

If you have any questions or concerns, please feel free to contact me at (808) 587-1540.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gary S. Suganuma".

1. INTRODUCTION

This study examines statistics from Hawai'i individual income tax returns filed by Hawai'i resident and nonresident taxpayers for tax year 2022. Nonresident taxpayers include part-year residents and nonresidents who have Hawai'i individual income tax liabilities. The Department of Taxation ("Department") has prepared annual studies on individual income tax statistics since 1958, but the studies were discontinued for tax years 2006 through 2011 due to budget cuts. The reports were resumed for tax year 2012 and have been published annually since.

Every individual conducting business in the State must file an individual income tax return, whether or not the individual derives taxable income from the business. Additionally, every individual receiving gross income above a certain threshold amount must file a tax return. Generally, the threshold for resident taxpayers is the sum of the standard deduction and the personal exemption. For individuals claimed as a dependent on the tax return of another taxpayer (dependent taxpayers), the threshold amount is the standard deduction amount. For nonresident taxpayers, the threshold is prorated according to the portion of the taxpayer's total income that is included in Hawai'i adjusted gross income (AGI). Taxpayers with income below the threshold can file a tax return to claim tax credits.

This study presents data obtained from all Hawai'i individual income tax returns filed by Hawai'i resident and nonresident taxpayers for tax year 2022. Residents file Form N-11 for their Hawai'i individual income taxes. Form N-11 uses federal AGI as the starting point for calculating Hawai'i taxable income. Nonresidents and part-year residents with income from Hawai'i sources file Form N-15 for their Hawai'i income tax liabilities.

Since tax year 2016, the individual income tax statistics reports have not contained data from federal income tax returns due to a new agreement that limited the Department's access to Federal Tax Information.

2. DATA SOURCE AND METHODOLOGY

The primary data source for the study is the GenTax program of the Department's Tax System Modernization (TSM). The data are from individual income tax returns (Forms N-11 and N-15) filed for tax year 2022 which were received by March 31, 2024 and processed by April 18, 2024.

The data taken from the tax returns are items as reported by individuals before any adjustments from subsequent audits. However, they include the automatic adjustments the Department made when processing the tax returns.

The data items on the tax returns were checked for accuracy by inspecting them against the images of the tax returns. The largest entries for each item were examined and figures

for total income, deductions, exemptions, and taxable income were verified for consistency.

To maintain taxpayer confidentiality, the Department does not disclose tabulations containing data for five or fewer returns at the state level, ten or fewer returns below the state level and when an individual return represents a large percentage in a tabulation.

3. CONFORMITY WITH THE INTERNAL REVENUE CODE

Hawai'i generally follows federal definitions for taxable income of individuals. However, there are differences between the income tax laws of Hawai'i and the Internal Revenue Code (IRC). Unlike the IRC, Hawaii's definition of taxable income does not include Social Security benefits, distributions from employer-provided pensions, contributions made to a Hawai'i individual housing account, exceptional trees deduction and for tax year 2022, the first \$7,345 of military reserve or Hawai'i national guard duty pay. Hawai'i also exempts interest on U.S. savings bonds from income whereas, the IRC does not.

Hawai'i includes in taxable income, cost-of-living allowances paid to federal civilian employees in Hawai'i, State or County employee contributions to the Hawai'i state government contributory plan or to the hybrid plan of the Employees Retirement System (ERS), and interest on state and local government bonds issued by jurisdictions outside of Hawai'i, whereas the IRC does not. Hawai'i generally does not conform to tax credits in the IRC and offers its own tax credits that are not available in the IRC.

Hawai'i uses different standard deduction amounts from the IRC and it continues to allow personal or dependent exemptions whereas IRC suspended exemptions due to the Tax Cuts and Jobs Act (TCJA) enacted on December 22, 2017 (please see Table 1 below). Hawaii's regular personal exemption multiplier was \$1,144 for tax year 2022. Hawai'i also allowed an extra personal exemption for taxpayers who were at least 65 years of age and an exemption of \$7,000 for a person who was blind, deaf, or totally disabled. More details on exemptions will be provided when we discuss detailed statistics in sections 6 and 7.

While federal personal exemptions were suspended by TCJA effective tax year 2018, the federal standard deduction amounts were increased significantly. For tax year 2022, the federal standard deduction amounts were \$25,900 for married couples filing a joint tax return, \$12,950 for single individuals and married couples filing separate tax returns, and \$19,400 for a head of household. There was an additional standard deduction of \$1,400 for taxpayers 65 and older and an additional standard deduction of \$1,400 for being blind. However, the additional standard deduction amount for age or blindness was \$1,750 if the taxpayer was single and not a surviving spouse. Hawaii's

standard deductions for tax year 2022 were \$4,400 for joint returns and qualifying widow(er)s, \$2,200 if the taxpayer was single or a married individual filing separately, and \$3,212 for a head of household. The federal standard deduction amounts are adjusted for inflation each year. However, Hawaii's standard deduction (and exemption) amounts remain constant by statute and are changed infrequently.¹

Table 1
Differences between Federal and Hawai'i Standard Deductions and Exemptions
by Filing Status for Tax Year 2022

Filing Status	Federal	Hawai'i
Standard Deduction		
Married Filing Jointly	\$25,100	\$4,400
Single	\$12,550	\$2,200
Married Filing Separately	\$12,550	\$2,200
Head of Household	\$18,800	\$3,212
Qualifying Widow(er)	\$25,100	\$4,400
Personal or Dependent Exemption Multiplier	Suspended in '18	\$1,144 *

* Hawai'i taxpayers may claim an additional exemption for themselves and/or their spouse for being age 65 or older. Furthermore, a blind, deaf, or totally disabled person and/or their spouse who qualify may be allowed a Disability Exemption of \$7,000 each in lieu of the regular personal exemption of \$1,144, but they cannot then claim the additional exemptions for dependents or being age 65 or older.

The federal TCJA enacted on December 22, 2017 restricted or eliminated the mortgage interest, state and local tax, personal casualty loss, and moving expense deductions. In addition, the Act eliminated the 2% reduction to miscellaneous itemized deductions in IRC section 67 and the overall limitation on itemized deductions in IRC section 68. In contrast, Hawai'i continued to conform to the above provisions selectively, but mainly in the form the provisions existed in prior to the TCJA. For example, Act 27, Session Laws of Hawai'i (SLH) 2018 did not adopt the federal provision that limits the deduction for state and local taxes to \$10,000 (\$5,000 for a married taxpayer filing a separate return) for tax years 2018 through 2025 but did adopt the federal provision that foreign real property taxes

¹ The standard deduction amounts in Table 1 were applicable for tax years 2013 through 2023. Act 46, Session Laws of Hawai'i (SLH) 2024, increases Hawai'i's standard deduction amounts gradually for tax years 2024, 2026, 2028, 2030, and 2031. The standard deduction amounts are scheduled to increase about sixfold from \$2,200/\$3,212/\$4,400 for tax year 2023 to \$12,000/\$18,000/\$24,000 for tax year 2031.

cannot be deducted for tax years 2018 through 2025.² Further details of recent tax legislation regarding conformity with the IRC are discussed in the next section.

4. RECENT STATE INDIVIDUAL INCOME TAX LEGISLATION

Hawaii's Legislature enacted several measures related to individual income taxes in recent years, of which the following are the most prominent for tax year 2022:

Act 7, SLH 2022

Act 7 conformed Hawai'i income and estate and generation-skipping transfer tax laws by updating sections 235-2.3, 235-2.4, 235-2.45, and 236E-3, Hawai'i Revised Statutes (HRS), to conform to the IRC.

Hawai'i adopted the following provisions of the American Rescue Plan Act of 2021 (ARPA): (1) Exclusion from gross income of targeted Economic Injury Disaster Loan (EIDL) advances received from the Small Business Administration (SBA) (Hawai'i does not conform to the allowance of deductions for expenses paid with EIDL funds); (2) Exclusion from gross income for restaurant revitalization fund (RRF) amounts received from the SBA (Hawai'i does not conform to the allowance of deductions for expenses paid with RRF grants); (3) Exclusion from gross income of the amounts received as "recovery rebates" under the ARPA (stimulus payments); (4) Exclusion from gross income of qualified student loans cancelled or discharged in 2021 through 2025; and (5) Adopted the special tax treatment of coronavirus-related distributions from eligible retirement plans to individuals from the federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) retroactively for taxable years beginning after December 31, 2019.

Act 89, SLH 2021

Act 89 amended section 235-2.3(a), HRS, to adopt several important federal provisions that were not direct amendments to IRC code sections. Specifically, the following tax sections of P.L. 116-260 (Consolidated Appropriations Act, 2021) were made operative for Hawai'i income tax purposes:

- Section 276(b)(1) of Division N, which excludes forgiveness of subsequent Paycheck Protection Program (PPP) loans from gross income;
- Section 277 of Division N, which excludes students' emergency financial aid grants from gross income;

² If Hawai'i taxpayers claim a tax credit for income taxes paid to other states and countries, they cannot also claim those amounts as an itemized deduction for state and foreign income taxes paid to another state or foreign country.

- Section 278(b)(1), (c)(1), and (d)(1) of Division N, which exclude Economic Injury Disaster Grants, loan payments on certain small business loans, and certain small business grants from gross income;
- Section 213 of Division EE, which extends the increase in certain charitable contribution limits under section 2205 of the federal CARES Act;
- Sections 214, 301, 302, 304 of Division EE, which enact various disaster relief and retirement plan administration amendments; and
- The exclusion of the federal stimulus payments under section 272 of Division N from gross income.

5. GENERAL OVERVIEW OF RETURNS FILED

5.1. AT A GLANCE

Residents and nonresidents filed a total of 743,109 Hawai'i individual income tax returns for tax year 2022, marking an overall decrease from the previous year. Although the number of resident returns decreased, the nonresident/part-year resident returns increased for tax year 2022, compared to the previous year.

Table 2 provides a comparison of selected items for all individual income tax returns for tax year 2022 versus 2021.

Table 2
Comparison of Selected Items for All Tax Returns
for Tax Year 2022 versus 2021
(Dollar amounts are in millions)

	2022		2021		% Change	
	No. of Returns	Amount	No. of Returns	Amount	No. of Returns	Amount
Total Number of Tax Returns	743,109		751,344		-1.1%	
Hawai'i Total Income (+)	722,813	\$60,406	731,689	\$62,247	-1.2%	-3.0%
Hawai'i Total Income (-)	20,295	-\$1,975	19,655	-\$1,988	3.3%	-0.7%
Hawai'i Total Income (Net)	743,108	\$58,432	751,344	\$60,259	-1.1%	-3.0%
Hawai'i Adjusted Gross Income (+)	715,788	\$52,447	725,041	\$54,645	-1.3%	-4.0%
Hawai'i Adjusted Gross Income (-)	27,320	-\$2,310	26,303	-\$2,297	3.9%	0.6%
Hawai'i Adjusted Gross Income (Net)	743,108	\$50,137	751,344	\$52,348	-1.1%	-4.2%
Standard Deductions	283,881	\$729	311,805	\$823	-9.0%	-11.4%
Allowable Itemized Deductions	426,471	\$6,510	404,386	\$6,825	5.5%	-4.6%
Total Allowable Deductions	710,352	\$7,239	716,191	\$7,648	-0.8%	-5.3%
Total Exemptions	673,736	\$1,629	681,567	\$1,646	-1.1%	-1.0%
Taxable Income	599,568	\$44,684	608,220	\$46,725	-1.4%	-4.4%
Tax Liability Before Credits	743,109	\$3,330	751,344	\$3,479	-1.1%	-4.3%
Tax Liability After Credits	743,109	\$3,066	751,344	\$3,165	-1.1%	-3.1%
Tax Withheld	526,210	\$2,284	526,469	\$2,129	0.0%	7.3%

Note: Details may not add to totals due to rounding.

Compared with tax year 2021, the total number of Hawai'i individual income tax returns filed decreased by 8,235 or 1.1% for tax year 2022. The number of returns with positive Hawai'i total income decreased by 1.2% while the total amount of positive Hawai'i total income went down by \$1.84 billion or 3.0%. Similarly, the number of returns with positive Hawai'i AGI decreased by 1.3% while the total amount of positive Hawai'i AGI went down by \$2.2 billion or 4.0%. There were also more returns with negative Hawai'i total income and AGI for tax year 2022. Therefore, net Hawai'i total income decreased by 3% while net Hawai'i AGI went down by 4.2% for tax year 2022.

Compared with tax year 2021, the total number of returns with allowable deductions decreased by 5,839 or 0.8%, whereas the total number of returns with exemptions declined by 7,831 or 1.1% for tax year 2022 for all taxpayers. The dollar amounts of allowable itemized deductions, standard deductions and total exemptions decreased by 4.6%, 11.4%, and 1.0% respectively.

There were 8,652 or 1.4% fewer returns with taxable income and the amount of taxable income decreased by \$2 billion or 4.4% for tax year 2022. Income tax liabilities decreased by 4.3% before tax credits and 3.1% after credits, as will be discussed in detail in the following sections.

5.2. NUMBER OF RETURNS BY TYPE, TAX DISTRICT, AND FILING STATUS

The State of Hawai'i is divided into the following four tax districts: District 1 (O'ahu) is the City and County of Honolulu; District 2 (Maui) consists of Maui and Kalawao Counties; District 3 (Hawai'i) is Hawai'i County; and District 4 (Kaua'i) is Kaua'i County.

Most taxpayers filed their taxes in the City and County of Honolulu. Table 3 shows the number of state individual income tax returns filed by Hawai'i residents and nonresidents for tax year 2022 versus 2021 by tax district.

Residents filed a total of 635,117 Hawai'i individual income tax returns (Forms N-11) for tax year 2022, which was a decrease of 8,536 returns or 1.3% compared to 2021. Of the resident tax returns, 69.1% were filed by taxpayers in O'ahu (District 1), 12.0% by taxpayers in Maui (District 2), 13.6% by taxpayers in Hawai'i (District 3), and 5.3% by taxpayers in Kaua'i (District 4).³

Forms N-15 are individual income tax returns filed by nonresidents and part-year residents as well as nonresident or dual-status aliens. In addition, composite tax returns and composite tax payments may be made on behalf of nonresident shareholders of an S corporation, nonresident partners of a partnership, and nonresident members of a

³ The figures for O'ahu (District 1) include taxpayers with out-of-state or unidentified/mis-specified zip codes.

limited liability company or limited liability partnership using Forms N-15. Any person or entity filing a Form N-15 is referred to as a *nonresident taxpayer* in short in this report.

Table 3
Comparison of Types and Number of Returns Filed
by Taxation District for Tax Year 2022 versus 2021

Type of Return	TAXATION DISTRICT

% Change (2022-2021)	0.3%	1.0%	-14.0%	-11.8%	-6.9%

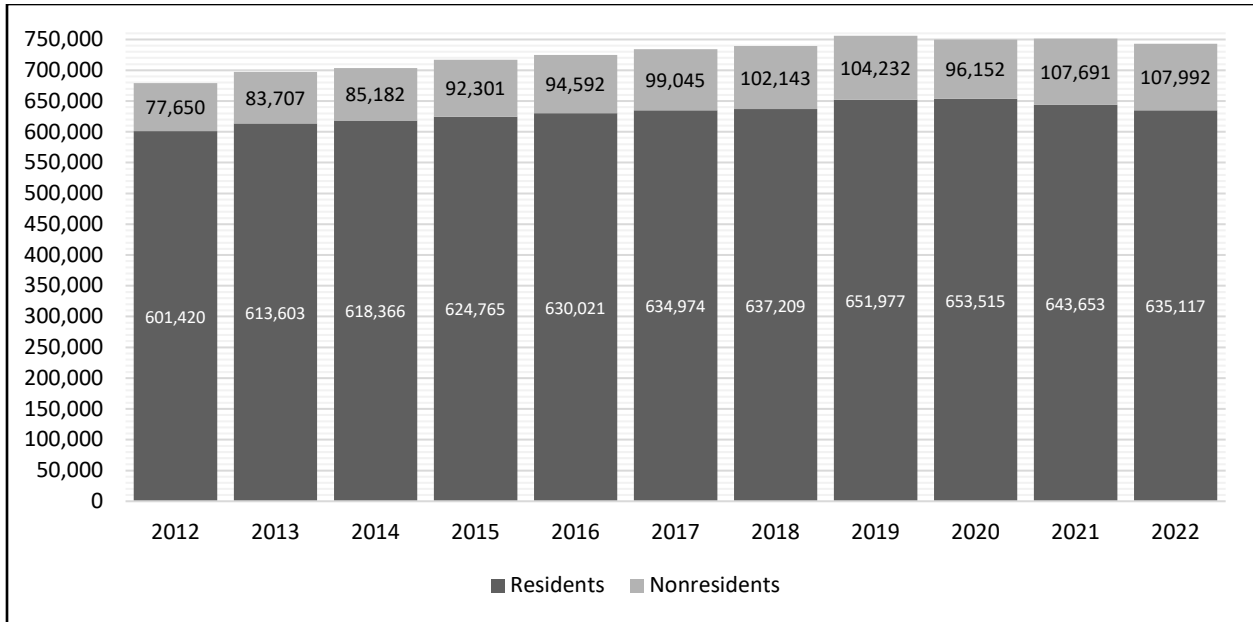

Note: Details may not add to totals due to rounding.

* The figures for O'ahu include taxpayers with out-of-state or unidentified/misspecified zip codes.

Nonresidents filed a total of 107,992 Hawai'i individual income tax returns, or approximately 14.5% of the total number of returns filed for tax year 2022. This indicated an increase of 301 returns or 0.3% over tax year 2021.

Figure 1 shows the number of Hawai'i individual income tax returns filed by type for tax years 2012 through 2022.

**Figure 1
Types and Number of Returns Filed for Tax Years 2012 through 2022**

The total state individual income tax returns increased from 679,070 for tax year 2012 to 743,109 for tax year 2022 with an average yearly compound growth rate of 0.91%. Resident returns increased from 601,420 for tax year 2012 to 635,117 for tax year 2022 (0.55% annual increase); and nonresident returns increased from 77,650 for tax year 2012 to 107,992 for tax year 2022 (3.35% annual increase). The number of returns filed has increased consistently every year. However, resident returns have been on the decline for tax years 2021 and 2022 from their peak for tax year 2020. Nonresident returns only declined for tax year 2020 but bounced back beginning from tax year 2021.

The distribution of returns by filing status has remained stable over the years. Table 4 shows the types and number of returns filed by filing status of taxpayers for tax year 2022 versus 2021.

The most common filing status among resident taxpayers was single, whereas married filing jointly was most common among nonresident taxpayers. As shown in Table 4, for tax year 2022, 52.8% of residents claimed single status, followed by 34.1% joint filers; nonresidents, on the other hand, had 47.1% joint filers, followed by 40.6% single filers.

For residents, there was a decline in all filers, with a net 1.3% decrease in total. However, for nonresidents, the total number of filers increased by 0.3%.

Table 4

Note: Details may not add to totals due to rounding.

5.3. HAWAI'I AGI AND TAX LIABILITY BY TYPE AND FILING STATUS

For tax year 2022, resident taxpayers with 'Married Filing Jointly' status accounted for 55.6% of total positive Hawai'i AGI, followed by 'Single' status (29.9%) and 'Head of Household' status (7.8%). Similar shares by filing status were reflected in total resident tax liability before and after tax credits as well. Table 5A shows the distribution of the number of returns, Hawai'i AGI, and tax liability of resident taxpayers before and after tax credits by filing status for tax year 2022.

Table 5A
Hawai'i AGI and Tax Liability of Residents by Filing Status for Tax Year 2022
(Dollar amounts are in millions)

Filing Status	No. of Returns	% of Total	Hawai'i AGI (+)	% of Total	Hawai'i AGI (-)	% of Total	Before Credits		After Credits	
							Tax Liability	% of Total	Tax Liability	% of Total

Table 5B shows the distribution of the number of returns, Hawai'i AGI, and tax liability of resident taxpayers before and after credits by filing status for tax year 2021 and the percentage change of these figures between tax years 2021 and 2022.

The Hawai'i AGI and tax liability of taxpayers declined for tax year 2022 along with the number of returns. The positive Hawai'i AGI of Hawai'i residents for tax year 2022 was \$47.8 billion, down by 4.3% compared to the \$49.9 billion for tax year 2021. The tax liability of Hawai'i residents before tax credits for tax year 2022 was \$3 billion, down by 4% from \$3.2 billion for tax year 2021. Similarly, the tax liability of Hawai'i residents after tax credits for tax year 2022 was \$2.8 billion, down by 3.7% from \$2.9 billion for tax year 2021.⁴

⁴ Please see Appendix Table A-2 for more detailed data on resident tax returns by filing status broken down by Hawai'i AGI class.

Table 6A shows the distribution of the number of returns, Hawai'i AGI, and tax liability of nonresident taxpayers before and after tax credits by filing status for tax year 2022.

For tax year 2022, nonresident taxpayers with 'Married Filing Jointly' status accounted for 52.1% of the total positive Hawai'i AGI followed by 'Single' status (26.1%). Similar shares by filing status were reflected in total nonresident tax liability before and after tax credits as well.

Table 6B shows the distribution of the number of returns, Hawai'i AGI, and tax liability of nonresident taxpayers before and after tax credits by filing status for tax year 2021 and the percentage change of these figures between tax years 2021 and 2022.

The positive Hawai'i AGI of Hawai'i nonresidents for tax year 2022 was \$4.7 billion, down by 1.2% from tax year 2021. The tax liability of Hawai'i nonresidents before tax credits for tax year 2022 was \$300 million, down by 7.3% from tax year 2021. However, the tax liability of Hawai'i nonresidents after tax credits for tax year 2022 was \$271 million, up by 3.3% over tax year 2021.

Note: Details may not add to totals due to rounding.

The total gross (before credits) tax liability of resident taxpayers has risen continually between tax years 2013 and 2021 but declined for tax year 2022. Figure 2 shows the gross (before credits) tax liability of Hawai'i resident and nonresident taxpayers for tax years 2012 through 2022. The total state individual income gross tax liability increased from \$1.76 billion for tax year 2012 to \$3.33 billion for tax year 2022 with an average yearly compound growth rate of 6.6%. Among which, resident gross tax liability increased from \$1.65 billion for tax year 2012 to \$3.03 billion for tax year 2022 (6.3% yearly increase); and nonresident gross tax liability rose from \$106 million for tax year 2012 to \$300 million for tax year 2022 (11.0% yearly increase).

Figure 2
Gross Tax Liability of Residents and Nonresidents
for Tax Years 2012 through 2022

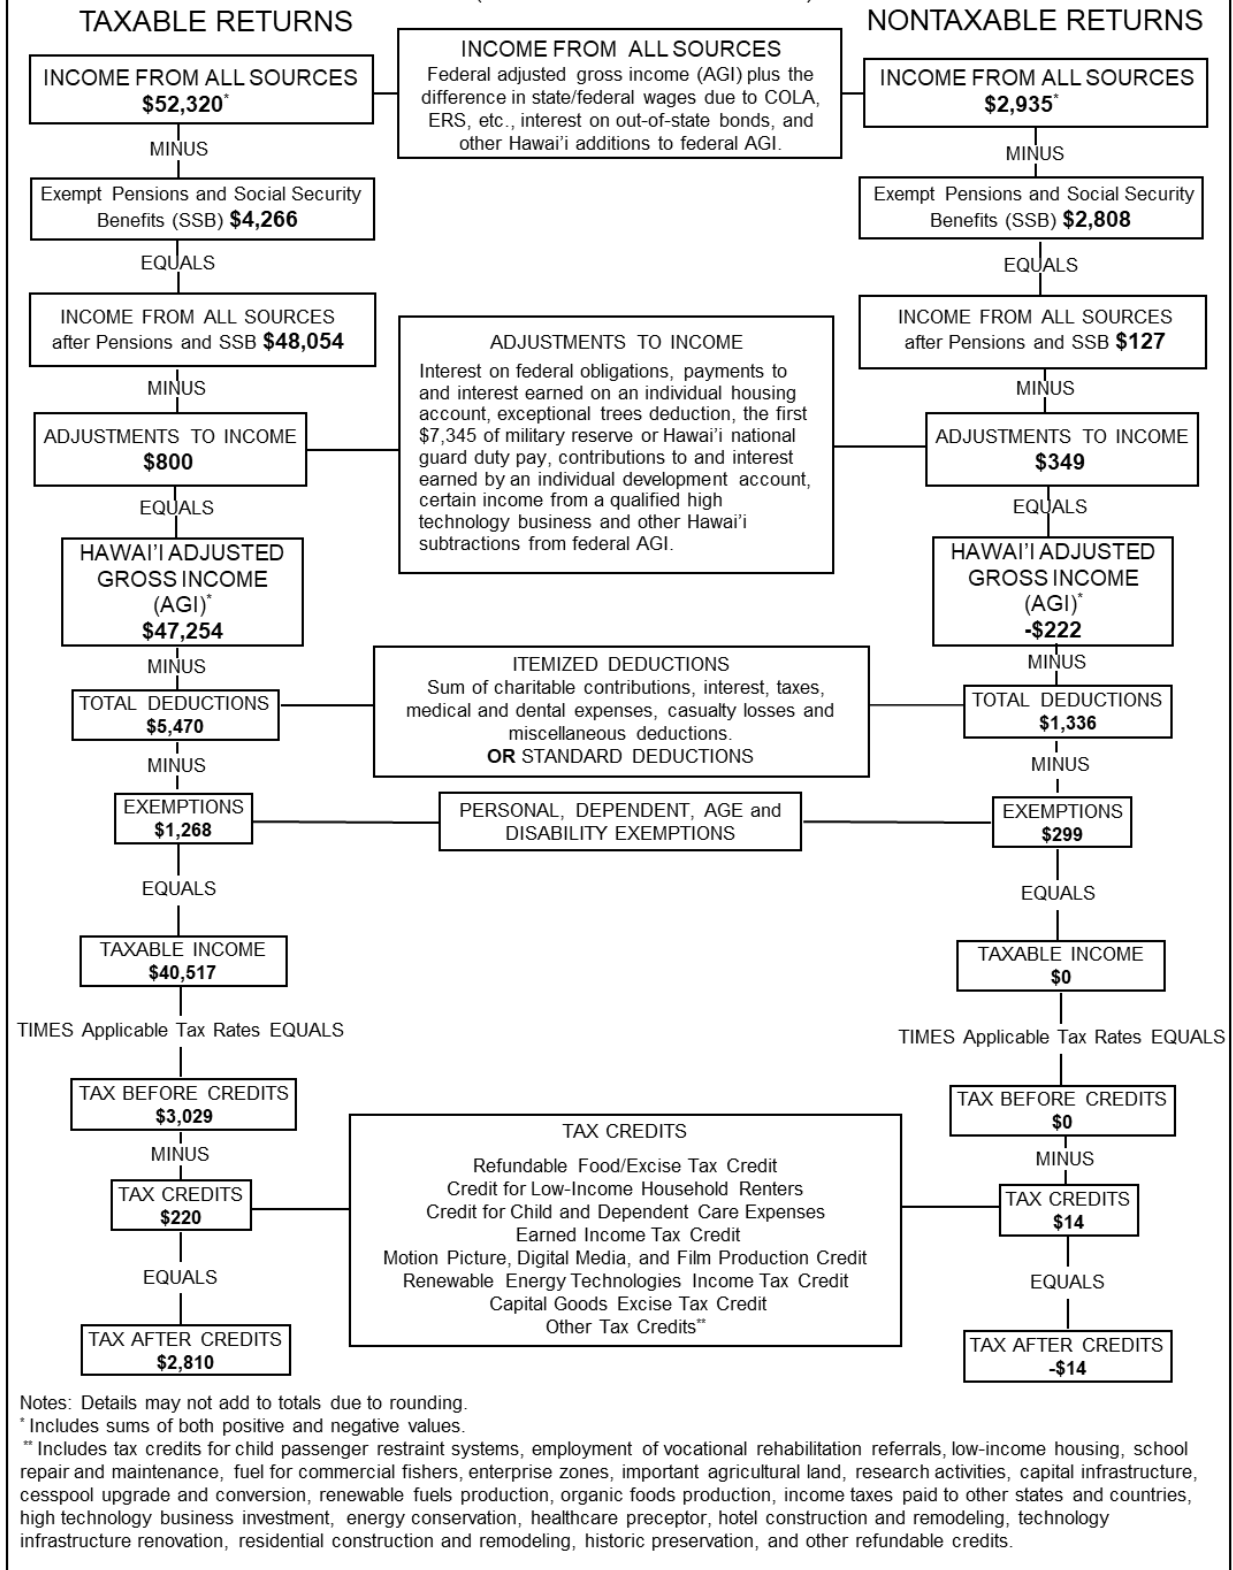

6. RESIDENT RETURN STATISTICS

6.1. RESIDENT INCOME AND ADJUSTMENTS

Hawai'i AGI is, in general, lower than Federal AGI due to allowable Hawai'i deductions, particularly those related to income deriving from Social Security and qualifying distributions from employer-funded pension plans. Figure 3 on the next page shows the major components of resident tax returns for tax year 2022.

Figure 3
Components of Resident Tax Returns for Tax Year 2022
(Dollars amounts are in millions)

Federal AGI is the starting point for calculating Hawai'i taxable income on Forms N-11 for residents. Hawai'i AGI is derived by subtracting income that is taxed by the federal government but not by Hawai'i and adding income that is taxed by Hawai'i but not by the federal government. The largest income items subtracted from federal AGI are Social Security benefits and certain employer-provided pensions. Although pension income after retirement is not taxed, Hawai'i taxes employee contributions to the pension plans such as the Employees' Retirement System (ERS) during working years. The largest income items added to federal AGI are the cost-of-living allowances for civilian federal employees and interest on out-of-state bonds in addition to these employee pension contributions.

Residents with taxable income reported an aggregate income of \$52.3 billion from all sources, an aggregate Hawai'i AGI of \$47.3 billion, total deductions of \$5.5 billion, total exemptions of \$1.3 billion, total taxable income of \$40.5 billion, total tax liability before credits of \$3 billion, and total tax liability after credits of \$2.8 billion on their Hawai'i income tax returns for 2022.

Residents with nontaxable income reported an aggregate income of \$2.9 billion from all sources, aggregate Hawai'i AGI of -\$222 million, total deductions of \$1.3 billion, total exemptions of \$299 million, total taxable income of \$0 by definition, total tax liability before credits of \$0, and total tax liability after credits of -\$14 million (due to refundable tax credits) on their Hawai'i income tax returns for tax year 2022.

Table 7A
Differences Between Federal AGI and Hawai'i AGI for Residents for Tax Year 2022
(Dollar amounts are in millions)

	Taxable Returns		Nontaxable Returns	
	No. of Returns	Amount	No. of Returns	Amount
Federal AGI	528,747	\$50,664	106,369	\$2,813
<i>MINUS</i>				
Hawai'i Subtractions from Federal AGI	132,893	\$5,066	59,088	\$3,157
Exempt Pensions Taxed Federally	65,010	\$2,609	52,235	\$2,135
Social Security Benefits Taxed Federally	76,693	\$1,657	39,790	\$673
Other Subtractions from Federal AGI*	51,559	\$800	11,194	\$349
<i>PLUS</i>				
Hawai'i Additions to Federal AGI**	163,430	\$1,656	12,097	\$121
<i>EQUALS</i>				
Hawai'i AGI	528,747	\$47,254	106,369	-\$222

Note: Details may not add to totals due to rounding and may include sums of both positive and negative values.

* Includes the first \$7,345 of military reserve or Hawai'i national guard duty pay, payments to and interest earned on an Individual Housing Account, exceptional trees deduction, interest on federal obligations, contributions to and interest by an individual development account, certain income from a qualified high technology business, expenses connected with federal credits, and other adjustments.

** Includes difference in state/federal wages due to COLA, ERS, etc., interest on out-of-state bonds, taxable amounts of Individual Housing Accounts, Hawai'i tax refunds, excluded income earned outside of the United States, certain depreciation amounts, and other adjustments.

Table 7A shows the adjustments that residents made to their federal AGI to calculate their Hawai'i AGI on Forms N-11, and also the number of tax returns on which the adjustments were reported for tax year 2022.

Allowable Hawai'i subtractions net of Hawai'i additions reduced Hawai'i AGI by \$6.45 billion relative to Federal AGI. For residents, in tax year 2022, Federal AGI was \$50.7 billion for those with Hawai'i State taxable income and \$2.8 billion for those without Hawai'i State taxable income. The bulk of the difference between Federal AGI and Hawai'i AGI was accounted for by Social Security benefits and pensions that are taxed federally but exempt from Hawai'i income tax. Together, these items totaled \$4.3 billion for residents with Hawai'i taxable income and \$2.8 billion for residents without Hawai'i taxable income. Items subtracted from Federal AGI for tax year 2022 totaled \$8.22 billion whereas items added totaled only \$1.78 billion overall.

Table 7B shows the adjustments that residents made to their Federal AGI to calculate their Hawai'i AGI on Forms N-11 for tax year 2021 and the percentage change between tax years 2021 and 2022.

* Excludes returns without Hawai'i zip codes.

** Taxpayers with filing status of single, married filing separately, head of household, or qualifying widow(er).

*** Contains returns with negative Hawai'i AGI values (losses).

Kaimukī to Hawai'i Kai geographic area on O'ahu has the highest median resident income in Hawai'i. As shown in Table A-15, the highest median Federal AGI figures amongst returns with identified Hawai'i zip codes were in the Kaimukī to Hawai'i Kai geographic area on O'ahu: \$143,220 for joint filers and \$41,583 for non-joint filers in 2022. The lowest median Federal AGI for joint filers was in the Puna to Ka'ū area on the Big Island with \$58,609 and the lowest for non-joint filers was in Moloka'i with \$23,641. The highest percentage increase in median Federal AGI from tax year 2021 to 2022 was in the Lāhainā area on Maui by 6.8% for joint filers and Hāmākua Coast area on the Big Island by 13% for non-joint filers.

The median income of joint filers is more than twice the median income of the rest of the taxpayers as married filers tend to be in the higher earning years of their life cycle. The median Federal AGI across the State increased by 4.1% for joint filers and by 7.7% for non-joint filers while 1.3% fewer resident returns were filed for tax year 2022.

Table 8B shows the median Hawai'i AGI instead of Federal AGI in resident returns by filing status, taxation district and year unlike Table 8A.

Table 8B

* Excludes returns without Hawai'i zip codes.

** Taxpayers with filing status of single, married filing separately, head of household, or qualifying widow(er)

*** Contains returns with negative Hawai'i AGI values (losses).

The median Hawai'i AGI figures were lower than Federal AGI figures across the board. For instance, in tax year 2022, the median Hawai'i AGI in all Hawai'i resident returns with joint filing status and a Hawai'i zip code was \$82,464 (as opposed to \$104,257 median Federal AGI), which was up by 1.4% over the \$81,300 figure for tax year 2021.

6.2. RESIDENT STANDARD AND ITEMIZED DEDUCTIONS

Residents may reduce their adjusted gross income by a standard deduction amount or by their allowable itemized deductions.

Hawaii's standard deduction amounts for tax year 2022 were the same as they had been since tax year 2013, when they were last increased. Table 9 displays Hawaii's standard deduction amounts by filing status over time.

Unlike the federal standard deduction amounts, which are adjusted annually for inflation, the Hawai'i standard deduction amounts are fixed by statute and may be infrequently changed. Although it was not effective in tax year 2022 yet, Act 46, SLH 2024, doubles Hawaii's standard deduction amounts effective tax year 2024 (11 years after the last change). Under Act 46, the standard deduction amounts are scheduled to gradually increase by almost sixfold to \$12,000/\$18,000/\$24,000 by tax year 2031.

Table 9
Changes in Hawaii's Standard Deduction Amounts Over Time

Filing Status	1982	1987	1989	2007	2013-2023
Married Filing Jointly	\$1,000	\$1,700	\$1,900	\$4,000	\$4,400
Single	\$800	\$1,000	\$1,500	\$2,000	\$2,200
Married Filing Separately	\$500	\$850	\$950	\$2,000	\$2,200
Head of Household	\$800	\$1,500	\$1,650	\$2,920	\$3,212

The standard deduction for an individual claimed as a dependent is limited to the greater of \$500 or their earned income, up to the full standard deduction for their filing status. In most cases, the dependent individual's filing status is single, and the corresponding maximum standard deduction is \$2,200.

As illustrated in Figure 4, the percentage of taxpayers using the standard deduction has declined between tax years 2013 and 2022 (except in tax year 2020). The percentage went down from 47.5% in tax year 2013 to 38.9% in tax year 2022.

Figure 4
Percent of Resident Returns with Itemized versus Standard Deductions for Tax Years 2012 through 2022

Taxpayers may choose to itemize their deductions rather than take the standard deduction. As displayed in Figure 4, a majority of Hawai'i residents itemize their deductions. Itemizers may deduct from adjusted gross income part of their medical and dental expenses, certain taxes paid, interest expenses, charitable contributions, casualty and theft losses, and other miscellaneous expenses. Some of these deductions have limitations.⁵ Only the part of medical and dental expenses over 7.5% of Hawai'i AGI is deductible; certain miscellaneous deductions are limited to amounts over 2% of AGI, while casualty and theft losses are limited to amounts over 10% of AGI.⁶ There is an income limit to be able to claim deductions for certain taxes paid: Federal AGI has to be less than \$100,000 for a taxpayer who is single or married filing separately; or less than \$150,000 if the taxpayer is a head of household; or less than \$200,000 if the taxpayer is married filing jointly or a qualifying widow(er).

Furthermore, Act 27, SLH 2018, does not adopt the federal provision that suspends the overall limitation on itemized deductions for tax years 2018 through 2025. Taxpayers with Hawai'i AGI above \$166,800 (\$83,400 if married filing separately) lose part of their itemized deductions.

The itemized and standard deductions data for residents are summarized in Table 10A for tax year 2022. Similarly, Table 10B has data for tax year 2021 in comparison with the tax year 2022 figures.⁷

For tax year 2022, the most-commonly-claimed itemized deduction category was “Taxes Paid” which also represented the highest amount claimed. Smaller numbers of taxpayers qualified for the deductions for medical and dental expenses, casualty and theft losses, and certain miscellaneous expenses.

⁵ Act 27, SLH 2018 (1) does not adopt the federal provision that limits the deduction for state and local taxes to \$10,000 (\$5,000 for a married taxpayer filing a separate return) for tax years 2018 through 2025, but (2) does adopt the federal provision that foreign real property taxes cannot be deducted for tax years 2018 through 2025.

⁶ Act 27, SLH 2018, does not adopt the federal provision that (1) limits the personal casualty loss deduction for property losses (not used in connection with a trade or business or transaction entered into for profit) to apply only to losses incurred as a result of federally-declared disasters for losses arising in tax years 2018 through 2025, and (2) waives the requirement that casualty losses from qualified disasters exceed 10% of adjusted gross income to be deductible, and that such losses must exceed \$500. However, for areas in which a major disaster was declared between January 1, 2020 and February 25, 2021, Act 89, SLH 2021, adopts the provision of the Consolidated Appropriations Act of 2021 that waives the requirement that casualty losses from qualified disasters must exceed 10% of adjusted gross income and exceed \$500 to be deductible.

⁷ Appendix Table A-4 shows the types and amounts of deductions claimed by residents by Hawai'i AGI class and by nonresidents overall for tax year 2022. Appendix Table A-11 provides the amount of itemized and standard deductions claimed on all returns for tax years 2012 through 2022. Appendix Table A-12 contains information on the types and amounts of deductions claimed by residents broken down by taxation district for tax year 2022.

Table 10A
Itemized and Standard Deductions Claimed by Residents
in Tax Year 2022

(Dollar amounts are in millions)

Deduction Type	No. of Returns	% of All Returns	Amount	% of Allowable Deductions
Medical and Dental Expenses	89,859	14.1%	\$740	10.9%

TOTAL ALLOWABLE DEDUCTIONS	643,653	\$7,104	-1.3%	-4.2%

Note: Details may not add to totals due to rounding.

6.3. RESIDENT PERSONAL EXEMPTIONS

All individuals filing a Hawai'i state individual income tax return may claim one personal exemption for themselves, for their spouses if applicable, and an additional exemption for each qualified dependent if they themselves are not claimed as a dependent on another person's return. Individuals who are 65 or older may claim an additional personal exemption (the age exemption) for themselves and/or their spouses. The personal exemption amount was \$1,144 per exemption for tax year 2022.⁸ Individuals who are certified as blind, deaf or totally disabled could claim a special personal exemption of \$7,000 for themselves in lieu of the regular personal exemptions. If the spouse also had a certified disability, the total allowable exemption amount would be \$14,000.

Table 11 provides summary information on personal exemptions claimed by residents for tax year 2022 versus 2021.

Table 11
Exemptions Claimed by Residents in Tax Year 2022 versus 2021

	2022	2021	% Change
Total Number of Tax Returns	635,117	643,653	-1.33%
Number of Tax Returns with Exemptions	608,973	618,656	-1.57%
Number of Total Exemptions	1,349,590	1,362,968	-0.98%
Number of Regular Exemptions*	1,122,179	1,138,480	-1.43%
Regular Exemptions per Return	1.7669	1.7688	-0.11%
Number of Age Exemptions	223,504	220,219	1.49%
Age Exemptions per Return	0.35	0.34	2.86%
Number of Disability Exemptions	3,907	4,269	-8.48%
Disability Exemptions per Return	0.01	0.01	-7.25%
Number of Returns with Dependents	169,370	172,216	-1.65%
Ratio of Returns with Dependents	26.7%	26.8%	-0.33%
Number of Dependents	299,848	304,440	-1.51%
Avg # of Dep.s in Returns with Dependents	1.77	1.77	0.15%
Dependents per Return - All	0.47	0.47	-0.18%
Total Exemption Amount (\$ Million)	\$1,567	\$1,584	-1.10%

* Regular Exemptions = Self + Spouse (If Joint Return) + Qualified Dependents

Regular exemptions per return and number of dependents claimed continued to decline whereas age exemptions rose reflecting Hawaii's aging population. According to U.S. Census Bureau's 2019 State and County Population Characteristics (June 25, 2020), Hawaii's 65-and-older population has grown by 37.6% since April 1,

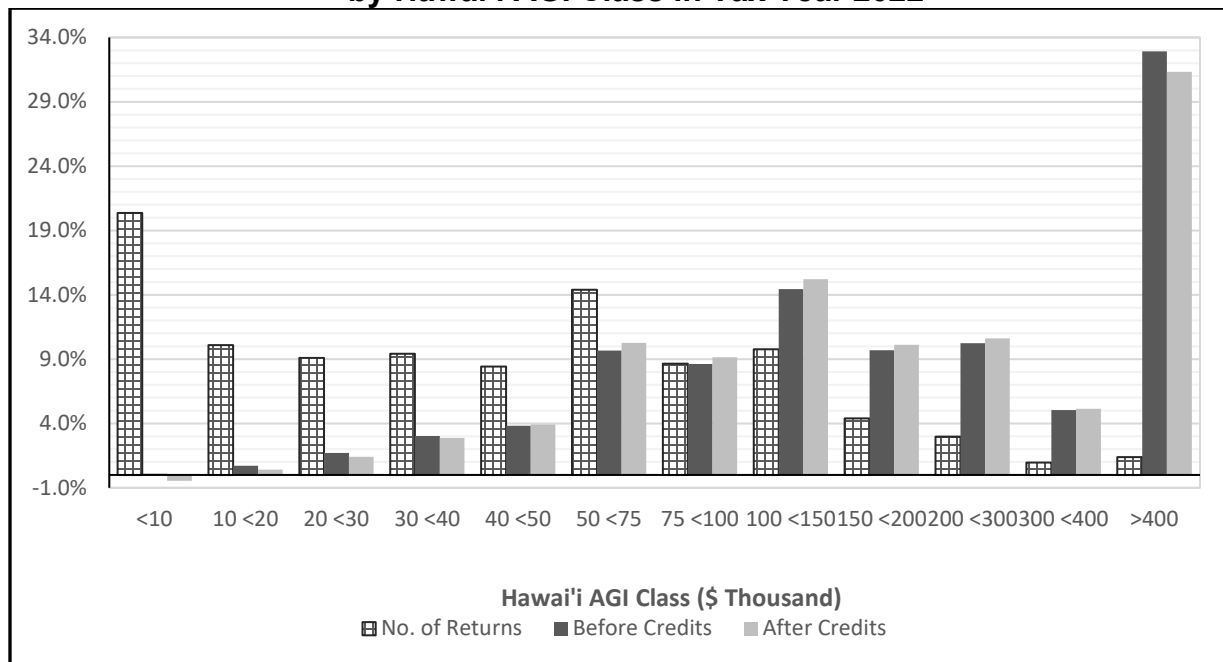

⁸ Personal exemption multiplier was last raised from \$1,040 (Act 78, SLH 1985) to \$1,144 effective tax year 2013 by Act 60, SLH 2009.

2010, with an average growth rate of 3.5% annually while Hawaii’s overall population has only grown by 4.1% since the same period, with an average annual growth rate of 0.4%. For tax year 2022, resident taxpayers reported a total of 1.35 million exemptions (including the age and disability exemptions) on 608,973 Hawai’i state income tax returns or on 95.9% of the total number of resident returns, for an average of 2.12 exemptions per return. The total amount of exemptions claimed by residents was \$1.57 billion. For tax year 2022, there were 0.35 age exemptions, 0.006 disability exemptions, and 0.47 dependents per resident return. On returns that reported dependents, the average number of dependents was 1.77.⁹

6.4. RESIDENT TAX LIABILITY BY INCOME CLASS

Filers with Hawai’i AGI over \$400,000 carried 32.9% of the gross tax burden but represented only 1.4% of the resident taxpayers in tax year 2022. Figure 5 shows resident tax liability distribution by Hawai’i AGI class.

**Figure 5
Tax Liability of Residents Before and After Tax Credits and Their
Number of Returns as a Percentage of the Total
by Hawai’i AGI Class in Tax Year 2022**

⁹ The number, type, and amount of the exemptions claimed by residents is further broken down by Hawai’i AGI class in Appendix Table A-5. Then the number of returns filed by number of regular and age exemptions claimed and by Hawai’i AGI class is presented in Appendix Table A-6.

In tax year 2022, residents with \$100,000 or more in Hawai'i AGI represented 19.5% of all resident returns and were liable for \$2.19 billion or 72.4% of the total taxes before tax credits and \$2.02 billion or 72.4% of the total taxes after tax credits. Residents with \$200,000 or more in Hawai'i AGI represented 5.3% of all resident returns and were liable for \$1.46 billion or 48.2% of the total taxes before tax credits and \$1.32 billion or 47.1% of the total taxes after tax credits.

The lowest income groups have on the average negative tax liabilities due to targeted tax credits. Table 12A shows the tax liability of residents before and after tax credits by Hawai'i AGI class for tax year 2022 and Table 12B shows the change in the resident tax liabilities between tax years 2021 and 2022. The income class for Hawai'i AGI under \$10,000 (including tax returns showing losses) contained the most returns representing 20.4% of total resident returns with an average \$21 tax liability before credits and an average -\$100 tax liability after credits per return. Part of the explanation for this Hawai'i AGI group representing the largest share is that Hawai'i does not tax Social Security benefits and certain employer-provided pensions. 47,275 resident taxpayers out of the 129,376 in this Hawai'i AGI class (or 36.5%) and 154,328 resident taxpayers overall (or 24.3% of total) obtain Social Security and/or pension income that is not taxed.

Table 12A
Tax Liability of Residents Before and After Tax Credits
by Hawai'i Adjusted Gross Income (AGI) Class in Tax Year 2022

Hawai'i AGI Class	No. of Returns	% of Total	Before Credits			After Credits		
			Amount (\$ Mil)	% of Total	Average (\$)	Amount (\$ Mil)	% of Total	Average (\$)
Less than \$10,000	129,376	20.4%	\$3	0.1%	\$21	-\$13	-0.5%	-\$100
\$10,000 to under \$20,000	64,160	10.1%	\$21	0.7%	\$333	\$12	0.4%	\$185
\$20,000 to under \$30,000	57,835	9.1%	\$51	1.7%	\$889	\$40	1.4%	\$686
\$30,000 to under \$40,000	59,827	9.4%	\$92	3.0%	\$1,533	\$81	2.9%	\$1,347

\$50,000 to under \$75,000	91,459	14.4%	\$293	9.7%	\$3,201	\$287	10.3%	\$3,136
\$75,000 to under \$100,000	54,976	8.7%	\$261	8.6%	\$4,751	\$256	9.1%	\$4,651
\$100,000 to under \$150,000	62,065	9.8%	\$438	14.5%	\$7,055	\$426	15.2%	\$6,857
\$150,000 to under \$200,000	27,976	4.4%	\$294	9.7%	\$10,496	\$282	10.1%	\$10,095
\$200,000 to under \$300,000	18,937	3.0%	\$310	10.2%	\$16,391	\$297	10.6%	\$15,666
\$300,000 to under \$400,000	6,076	1.0%	\$153	5.0%	\$25,119	\$144	5.1%	\$23,618
\$400,000 and over	8,875	1.4%	\$998	32.9%	\$112,416	\$876	31.3%	\$98,685
TOTAL	635,117	100%	\$3,029	100%	\$4,770	\$2,795	100%	\$4,401

Note: Details may not add to totals due to rounding.

Most taxpayers are distributed around the middle of the income distribution. The Hawai'i AGI class of \$50,000 to under \$75,000 contained the second highest number of returns representing 14.4% of total resident returns with an average \$3,201 tax liability before credits and an average \$3,136 tax liability after credits per return for tax year 2022.

The average tax liability after tax credits declined for residents with Hawai'i AGI between \$20,000 and \$50,000, between 150,000 and \$200,000, and over \$300,000 for tax year 2022 as compared with tax year 2021. In addition, the average tax liability before tax credits declined for residents with Hawai'i AGI between \$10,000 and \$50,000, and over \$300,000. However, average tax liabilities increased for all other Hawai'i AGI classes before and after credits.¹⁰

**Table 12B
Change in Tax Liability of Residents Before and After Tax Credits
by Hawai'i AGI Class in Tax Year 2022 versus 2021**

Hawai'i AGI Class	2021 Number of Returns	% Change between 2021 and 2022					
		No. of Returns	Before Credits		After Credits		
			Amount (\$ Mil)	Average (\$)	Amount (\$ Mil)	Average (\$)

\$400,000 and over	9,650	-8.0%	-13.9%	-6.3%	-13.6%	-6.1%	
TOTAL	643,653	-1.3%	-4.0%	-2.7%	-3.7%	-2.4%	

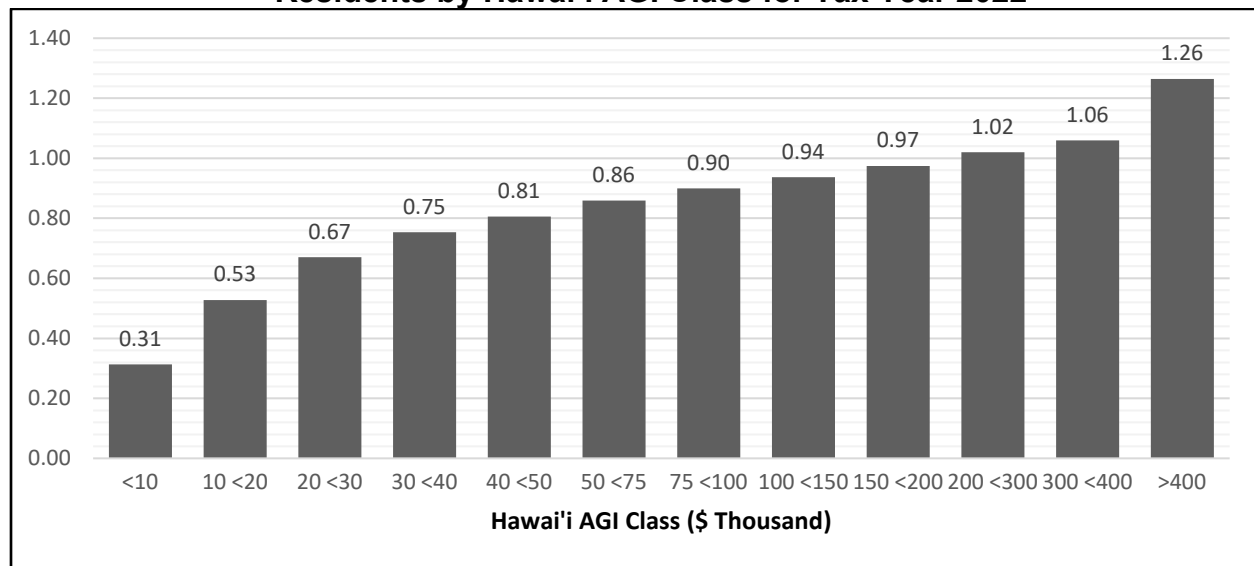

¹⁰ Appendix Table A-7 provides data on Hawai'i State income tax withheld, payments of declaration, amounts due and refunds and amounts credited by Hawai'i AGI class for residents and overall, for nonresidents for tax year 2022. Appendix Table A-13 provides Hawai'i AGI and tax liability statistics for residents by geographic area and Appendix Table A-14 does the same by zip code. The highest median Hawai'i AGI and the highest percentage of returns with itemized deductions amongst returns with Hawai'i zip codes were in the Kaimukī to Hawai'i Kai geographic area on O'ahu. The highest median tax liability figures were in Lāhainā on Maui.

6.5. RESIDENT TAXABLE INCOME AND TAX LIABILITY

Of the tax returns filed by residents, 16.7% had no taxable income for tax year 2022. Residents with taxable income reported total tax liabilities of \$3.03 billion before tax credits and \$2.81 billion after tax credits for tax year 2022.¹¹

Higher income groups carry a relatively higher individual income tax burden in Hawai'i. Figure 6 shows the ratio of the share of gross (before credits) tax liability to share of taxable income of residents by Hawai'i AGI class for tax year 2022. More specifically, the ratio is the share of the gross tax liability for a given income bracket (in total resident gross tax liability) divided by the share of the taxable income for the same income bracket (in total resident taxable income). A score of '1' would suggest that the share of gross tax liability for a Hawai'i AGI class is the same as their share of taxable income.

Figure 6
Ratio of the Share of Gross Tax Liability to Share of Taxable Income of Residents by Hawai'i AGI Class for Tax Year 2022

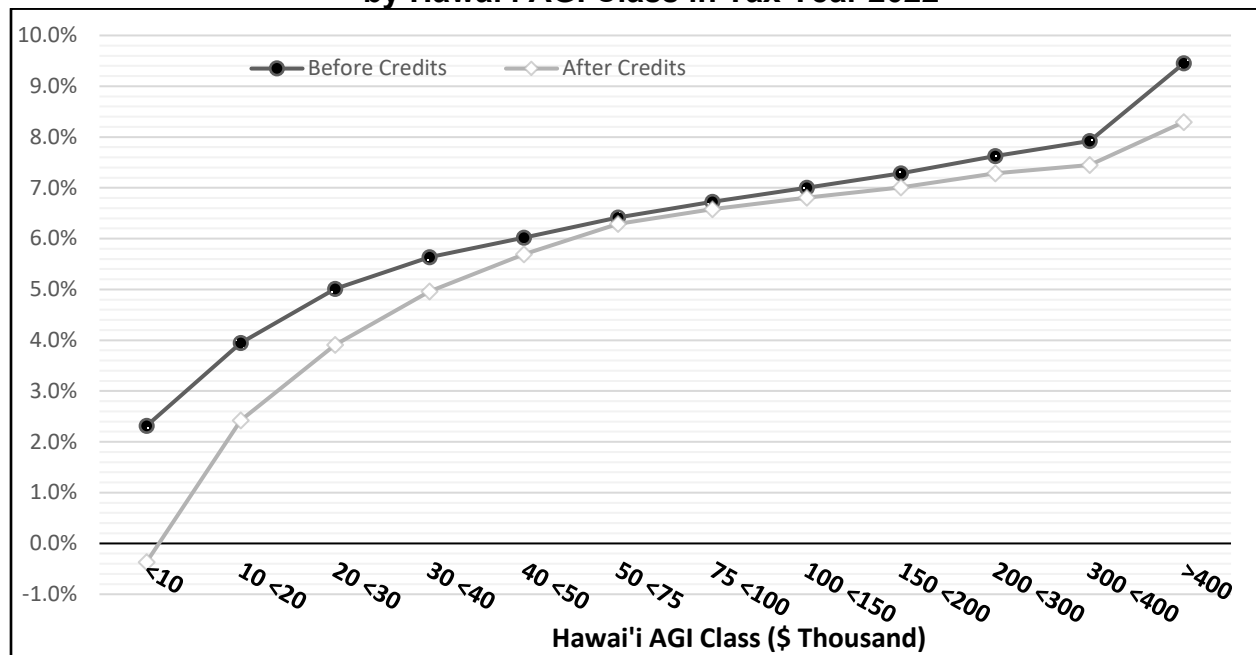

For tax year 2022, the ratio ranged from 0.31 for the Hawai'i AGI class of less than \$10,000 to 1.26 for the Hawai'i AGI class of \$400,000 and over. The ratio exceeded '1' for all Hawai'i AGI classes above \$200,000 suggesting that the shares of gross tax liabilities of higher-income taxpayers were higher than their shares of taxable income. For instance, the share of gross tax liabilities of taxpayers with Hawai'i AGI of \$400,000 and above was 26% larger than their share of taxable income in total resident taxable income.

¹¹ Please refer to Appendix Table A-1 for more details.

Lower income groups, while much higher in number, pay a lower percentage of the tax burden as a share of their income. Residents with Hawai'i AGI under \$40,000 filed 49% of the total number of resident returns but represented 10.2% of the total nonnegative Hawai'i AGI, 5.5% of total resident tax liability before credits and 4.3% of total resident tax liability after credits.¹²

Figure 7 shows the average effective tax rates on taxable income of residents by Hawai'i AGI class for tax year 2022. Average effective tax rate on taxable income is computed as the total tax liability divided by total taxable income of an income class, before or after tax credits.

**Figure 7
Average Effective Tax Rates on Taxable Income of Residents
by Hawai'i AGI Class in Tax Year 2022**

The differential between the average effective tax rate before and after credits is the greatest at the lower and higher ends of the income distribution. The decline in the average effective tax rate on taxable income due tax credits was greatest for residents with Hawai'i AGI less than \$10,000, where tax credits caused the average effective rate to drop by 2.7 percentage points from positive 2.3% to negative 0.4%. The average

¹² Appendix Table A-9 has detailed data on tax liabilities and effective tax rates of residents by Hawai'i AGI class and filing status with a specific focus on the lower end of the income distribution.

effective tax rate on taxable income reached a maximum of 9.9% before credits and 8.4% after credits for the \$1 million and over Hawai'i AGI class (Table A-8).¹³

Hawai'i has a progressive tax structure that is based on tax brackets that impose a higher marginal rate on higher incomes. A taxpayer's average effective tax rate is less than their marginal tax rate.

For example, a single taxpayer with a taxable income of \$4,000 is taxed at 1.4% on their first \$2,400 of taxable income plus 3.2% on the \$1,600 of their additional income over \$2,400, for a total of approximately \$86. Therefore, the average effective tax rate is 2.15% ($\$86/\$4,000$) while the marginal tax rate is 3.2% for this taxpayer.

Is Hawaii's individual income tax structure progressive?

Calculating Marginal Tax Rates -- Marginal tax rates are the applicable tax rates paid on an additional dollar of income. Taxpayers are divided into tax brackets, which determine the rate applied to their taxable income. Under the progressive income tax method used by Hawai'i, just like IRS, marginal tax rates increase as income increases. While the first dollar earned is taxed at the rate for the lowest tax bracket, the last dollar earned is taxed at the rate of the highest bracket for one's total taxable income, and all the taxable income in between is taxed at the rate for the range into which it falls.

Calculating Tax Progressivity -- The regressivity and progressivity of a tax system refers to the relationship between average effective tax rates and income. ***Average effective tax rates*** are obtained by dividing the total tax liability of taxpayers by their total taxable income. In a regressive tax system, the lower income taxpayers face a higher effective tax rate than higher income taxpayers. In a progressive tax system, lower income taxpayers face a lower effective tax rate than higher income taxpayers. A neutral tax system is when all taxpayers face the same effective tax rate. Note that higher income taxpayers may pay more taxes in absolute terms in a regressive or neutral tax system. Since the effective tax rate is applied against the total income, higher income individuals will usually pay more in absolute dollars even if the effective tax rate is the same or less than lower income groups because the effective tax rate is being multiplied by a larger income figure.

Hawaii's individual income tax is progressive. Figure 7 shows that, in Hawai'i, the average effective tax rate rises with income, both before and after tax credits, indicating that Hawaii's individual income tax structure is progressive. The effective tax rate after credits is negative 0.4% for the lowest income tier and reaches 8.3% for taxpayers with Hawai'i AGI of \$400,000 and over.

¹³ Please refer to Appendix Table A-8 which has detailed data on tax liabilities and effective tax rates based on taxable income and Hawai'i AGI for an extended number of Hawai'i AGI classes.

Hawai'i has twelve tax brackets (from 1.4% to 11%) as compared with only seven brackets at the federal level with much higher rates of 10%, 12%, 22%, 24%, 32%, 35% and 37%. Tables 13A through 13C show the marginal tax rates for each filing status by taxable income brackets for tax year 2022 along with the corresponding average effective tax rates before and after tax credits.

Table 13A
Marginal and Average Effective Tax Rates
for Residents by Taxable Income for Tax Year 2022
(Filing Status: Single and Married Filing Separately)

Taxable Income				Number of Returns	Marginal Tax Rate	Average Effective Tax Rate	
						Before Credits	After Credits
	Not over		\$2,400	82,072	1.40%	1.45%	-41.53%
Over	\$2,400	to	\$4,800	13,773	3.20%	2.02%	0.06%
Over	\$4,800	to	\$9,600	24,317	5.50%	3.35%	1.94%
Over	\$9,600	to	\$14,400	20,638	6.40%	4.39%	3.54%
Over	\$14,400	to	\$19,200	18,647	6.80%	5.03%	4.45%
Over	\$19,200	to	\$24,000	18,863	7.20%	5.47%	5.01%
Over	\$24,000	to	\$36,000	47,514	7.60%	6.03%	5.89%
Over	\$36,000	to	\$48,000	40,454	7.90%	6.51%	6.45%
Over	\$48,000	to	\$150,000	76,914	8.25%	7.23%	7.12%
Over	\$150,000	to	\$175,000	2,060	9.00%	7.76%	7.47%
Over	\$175,000	to	\$200,000	1,220	10.00%	7.91%	7.57%
	Over		\$200,000	4,733	11.00%	9.87%	8.57%
TOTAL				351,205		7.64%	7.07%

The tax bracket thresholds were last expanded by 20% for tax year 2007 and the top three tax rates (9%, 10%, and 11%) were added temporarily between tax years 2009 and 2015 and permanently since tax year 2018. Although it was not effective for tax year 2022 yet, Act 46, SLH 2024, significantly expands the tax bracket thresholds for tax years 2025, 2027, and 2029, especially for the lower tax brackets. The tax bracket expansion means that effective tax rates will be reduced for all Hawai'i taxpayers. However, the tax cut under Act 46, SLH 2024 will be proportionally larger the lower the taxable income of taxpayers.

Table 13B
Marginal and Average Effective Tax Rates
for Residents by Taxable Income for Tax Year 2022
(Filing Status: Married Filing Jointly and Qualifying Widow(er))

7. NONRESIDENT RETURN STATISTICS

7.1. NONRESIDENT INCOME

Any person or entity filing a Form N-15 is referred to as a nonresident taxpayer in short in this report. Nonresidents, including those who were residents for only part of the tax year, use Form N-15 to file their Hawai'i income taxes. In addition, composite tax returns and composite tax payments may be made on behalf of nonresident shareholders of an S corporation, nonresident partners of a partnership, and nonresident members of a limited liability company or limited liability partnership using Forms N-15. As mentioned earlier, nonresidents filed a total of 107,992 Hawai'i individual income tax returns, or approximately 14.5% of the total number of returns filed for tax year 2022. This indicated an increase of 301 returns or 0.3% over tax year 2021.

The nonresident population changes frequently, so the income for nonresidents can fluctuate from year to year. Table 14 shows Hawai'i sources of income reported by Hawai'i nonresident taxpayers for tax years 2022 and 2021.

Table 14
Hawai'i Sources of Income Reported by Nonresident Taxpayers
in Tax Year 2022 versus 2021
(Dollar amounts are in millions)

	2022	2021	Difference	
			Amount	% Change
TOTAL	\$2,966	\$3,185	-\$219	-6.9%

Rents, Partnerships, Estates, etc.	\$773	\$342	\$431	125.9%
Unemployment Compensation	\$6	\$57	-\$51	-89.9%
All Other Sources	-\$1,238	-\$1,206	-\$32	-2.7%

Hawai'i nonresidents reported \$2.97 billion in total income net of losses from Hawai'i sources for tax year 2022, a decrease of 6.9% from the \$3.19 billion in total net income for tax year 2021. Salaries and wages totaled \$1.55 billion, accounting for 52.2% of total net income. Capital and Supplemental Gains/Losses were \$1.72 billion, and nonresidents

reported \$1.24 billion in losses from Hawai'i sources in the other income category for tax year 2022.¹⁴

Table 15 shows the total (worldwide) AGI, Hawai'i AGI and Hawai'i taxable income of nonresidents, by total AGI class for tax year 2022. Of the 107,992 tax returns filed by nonresidents, 34.4% had no Hawai'i taxable income and the total nonresident taxable income reported was \$4.17 billion for tax year 2022.

Notes: Details may not add to totals due to rounding. "N/A" denotes "not applicable".

* Contains sums of both positive and negative values.

¹⁴ The "other income" category losses are mainly Net Operating Loss (NOL) carryforward amounts of nonresident taxpayers.

The total (worldwide) net AGI of the nonresidents was \$126.7 billion, that is, almost three times the total net Hawai'i AGI of all residents for tax year 2022. The largest number of the taxable nonresident tax returns was in the \$400,000 and over total AGI class representing 9.2% of all nonresident returns, 63.8% of the aggregate nonresident total AGI, and 50.2% of the nonresident taxable income.¹⁵

Table 16 shows the Hawai'i AGI of nonresidents in tax year 2022 versus 2021 by total AGI class. The number of taxable nonresident returns filed was 70,821 for tax year 2022, an increase of 3.3% from the 68,548 filed for tax year 2021. Total Hawai'i AGI reported on taxable nonresident returns amounted to \$4.51 billion for tax year 2022, down by 4.3% from tax year 2021.

¹⁵ Appendix Table A-3 provides selected statistics from nonresident tax returns by Hawai'i AGI class. The information includes the number of returns, total AGI, Hawai'i AGI, taxable income, tax liability before and after credits, as well as information on exemptions and deductions.

7.2. NONRESIDENT DEDUCTIONS AND EXEMPTIONS

Nonresidents must prorate their standard deduction and personal exemption amounts to determine their Hawai'i taxable income. The prorated amounts are calculated using the ratio of Hawai'i AGI to total (worldwide) AGI. Hawai'i AGI, minus the prorated exemption amount, and minus either the Hawai'i itemized deductions or the prorated standard deduction, equals Hawai'i taxable income.

As shown in Appendix Table A-4, in tax year 2022, 36,507 nonresident tax returns (or 33.8% of total) used the standard deduction and 38,728 nonresident tax returns (or 35.9% of total) had allowable itemized deductions. Of the \$404.5 million of prorated itemized deductions claimed by nonresidents, \$18.4 million was not allowed, while prorated standard deductions amounted to \$47 million. The allowable itemized deductions plus the standard deductions totaled \$433 million.

As shown in Appendix Table A-3 broken down by Hawai'i AGI class, in tax year 2022, nonresidents claimed a total of 203,847 regular personal exemptions and their prorated exemptions totaled \$62.7 million.¹⁶

7.3. NONRESIDENT TAX LIABILITY

The total Hawai'i tax liability of nonresidents before tax credits was \$300 million, of which \$168 million (or 55.8%) was owed by nonresidents with total AGI of \$400,000 and over. Table 17A shows the tax liability of nonresidents before and after tax credits by total (worldwide) AGI class for tax year 2022. Nonresidents had total Hawai'i tax liability after tax credits of \$271 million, including negative amounts of tax owed by nonresidents with nontaxable returns. The average tax liability before tax credits was \$2,782 and the average net tax liability after tax credits was \$2,506 for each nonresident return.

Table 17B shows the change in tax liability of nonresidents before and after tax credits by total (worldwide) AGI class in tax year 2022 versus 2021. There were 0.3% more returns for tax year 2022. The total nonresident tax liability decreased by 7.4% before tax credits but increased by 3.3% after tax credits as compared to tax year 2021.

¹⁶ The total number, type, and amount of the exemptions claimed by nonresidents appear in Appendix Table A-5. There were 1.9 regular exemptions, 0.3 age exemptions, and 0.5 dependents per nonresident return. The number of returns filed by the number of regular and age exemptions claimed for nonresidents appear in Appendix Table A-6.

8. RESIDENT TAXPAYERS AGED 65 OR OLDER

Taxpayers aged 65 years or older may claim an extra personal exemption, the age exemption. Selected data from resident tax returns with at least one age exemption for tax year 2022 are shown in Table 18. A total of 223,504 age exemptions were claimed on 166,841 resident tax returns (or 26.3% of total) with a total age exemption amount of \$256 million for tax year 2022. The tax returns with the age exemption showed total net Hawai'i AGI of \$11.4 billion (or 24.2% of total) and total taxable income of \$9.75 billion. Around 56% of tax returns claiming an age exemption reported Hawai'i taxable income. Income tax liability on the returns totaled \$805 million before tax credits and \$706 million after tax credits. The tax returns showed a total of \$157 million in standard deductions and a total of \$2.27 billion in itemized deductions.

Table 18
Resident Tax Returns with At Least One Age Exemption in Tax Year 2022
(Dollar amounts are in millions)

* Contains sums of both positive and negative values.

Age exemptions continued to increase, in line with the trend of Hawaii's aging population, as discussed in Section 6.3. Resident tax returns that included an age exemption showed \$3.84 billion in pension income that was exempt from Hawai'i income tax and an additional \$2.2 billion in exempt Social Security benefits for tax year 2022, equivalent to 39.4% and 22.6% of their taxable income, respectively. Overall, the tax returns averaged \$68,307 in net Hawai'i AGI per return and \$4,233 per return in tax liability after tax credits.

9. RESIDENT TAXPAYERS WITH DISABILITIES

A special personal exemption of \$7,000 is available to taxpayers who have a certified impairment of being blind, deaf, or totally disabled, in lieu of the \$1,144 regular personal exemption. A spouse with a disability on a joint tax return is also entitled to the \$7,000 exemption, but then taxpayers with disabilities may not claim any additional exemptions for dependents or age. Therefore, the maximum allowable exemption amount on a joint tax return of two taxpayers with disabilities is \$14,000.

Disability exemption claims continued to decline in tax year 2022. Selected data from resident tax returns with at least one disability exemption for tax year 2022 are shown in Table 19. In tax year 2022, 3,816 resident tax returns (or 0.6% of total) were filed with at least one special exemption for disability and the total disability exemption amount was \$27 million.

Table 19
Resident Tax Returns with Disabilities in Tax Year 2022
(Dollar amounts are in millions)

	Taxable Returns	Nontaxable Returns	Total
Number of Tax Returns	2,096	1,720	3,816
Number of Taxpayers with Self Disability	1,377	1,354	2,731
Number of Taxpayers with Spousal Disability	759	417	1,176
Total Disability Exemptions	2,136	1,771	3,907
Total Disability Exemption Amount	\$15	\$12	\$27
Above Regular Exemption Amount*	\$11	\$9	\$19
Hawai'i AGI**	\$181	\$12	\$193
Standard Deductions	\$2	\$2	\$4
Itemized Deductions	\$29	\$32	\$61
Taxable Income	\$133	\$0	\$133
Tax Liability Before Credits	\$9	\$0	\$9
Tax Liability After Credits	\$8	\$0	\$8

Note: Details may not add to totals due to rounding.

* The additional disability exemption amount as compared with taking personal exemptions only

** Contains sums of both positive and negative values.

“Above Regular Exemption Amount” refers to the additional exemption amount taken for disability as opposed to taking personal exemptions, which amounted to \$19 million. These tax returns showed net Hawai'i AGI of \$193 million (or 0.4% of total), Hawai'i taxable income of \$133 million, and Hawai'i income tax liabilities of \$9 million before and \$8 million after tax credits. Their standard deductions totaled \$4 million, whereas their itemized deductions totaled \$61 million. Overall, the tax returns averaged \$50,485 in net Hawai'i AGI per return and \$2,080 per return in tax liability after tax credits.

10. DEPENDENT RESIDENT TAXPAYERS

As shown in Table 20, a total of 26,144 dependents filed tax returns for tax year 2022 which was an increase of 4.6% from tax year 2021. Taxpayers who may be claimed as dependents by other taxpayers may not claim a personal exemption for themselves. Dependents may itemize deductions or claim the standard deduction, which is the greater of \$500 or their earned income (up to the full standard deduction amount for their filing status).

Table 20
Resident Dependent Tax Returns in Tax Year 2022 versus 2021
(Dollar amounts are in millions)

	2022	2021	% Change
Number of Tax Returns	26,144	25,001	4.6%
Hawai'i AGI*	\$262.5	\$241.7	8.6%
Standard Deductions	\$48.7	\$46.6	4.5%
Itemized Deductions	\$8.2	\$5.9	39.5%
Taxable Income	\$211.0	\$192.3	9.7%
Tax Liability Before Credits	\$10.2	\$9.2	10.4%
Tax Liability After Credits	\$10.0	\$9.0	10.2%

* Contains sums of both positive and negative values.

Dependent returns represented around 4.1% of the total number of resident returns in tax year 2022. 26,008 or 99.5% of the resident tax returns by dependents were filed by those with a single filing status. In tax year 2022, the net Hawai'i AGI of dependent residents was \$263 million (or 0.6% of total), an increase of 8.6% from tax year 2021 and their taxable income was \$211 million, an increase of 9.7% compared to tax year 2021. Their standard deductions totaled \$48.7 million, whereas their itemized deductions were \$8.2 million in total. Dependent returns had a tax liability before tax credits of \$10.2 million and tax liability after tax credits of \$10 million. The increase in dependent tax liabilities was around 10% for tax year 2022 compared to tax year 2021. Overall, the tax returns averaged \$10,039 in net Hawai'i AGI per return and \$381 per return in tax liability after tax credits.

11. STATISTICS ON NET LONG-TERM CAPITAL GAINS

Hawai'i taxes net long-term capital gains at the 7.25% rate or the taxpayer's marginal tax rate on ordinary taxable income, whichever is less. Income from long-term capital gains constituted 9.9% of the total taxable income of all returns for tax year 2022.

The capital gains are heavily concentrated in the high end of the income distribution especially for nonresidents. In general, the higher the income of taxpayers the greater the share of capital gains in their taxable income.

Table 21 shows the distribution of net long-term capital gains by Hawai'i AGI class for Hawai'i residents and nonresidents for tax year 2022.

Table 21
Income Eligible for the Tax Rate on Net Long-Term Capital Gains
by Hawai'i AGI Class in Tax Year 2022
(Dollar amounts are in millions)

Hawai'i AGI Class	Net Long-Term Capital Gains				Percent of Total Taxable Income	
	Residents		Nonresidents		Residents	Nonresidents
	Number	Amount	Number	Amount	%	%
Less than \$10,000	34	\$0.5	33	\$5.9	0.5%	6.9%

\$100,000 " \$150,000	9,146	\$112.0	690	\$39.2	1.8%	12.3%
\$150,000 " \$200,000	6,095	\$126.0	423	\$41.9	3.1%	20.2%
\$200,000 " \$300,000	5,577	\$242.0	576	\$96.6	5.9%	33.8%
\$300,000 " \$400,000	2,384	\$216.9	410	\$108.5	11.3%	49.3%
\$400,000 and over	4,188	\$2,210.3	1,018	\$900.3	20.9%	56.2%
Composite Returns	n/a	n/a	20	\$208.3	n/a	55.1%
TOTAL	43,443	\$2,995	4,487	\$1,426	7.4%	34.2%

Note: Details may not add to totals due to rounding.

Net long-term capital gains comprised 20.9% of the total taxable income of residents and 56.2% of the total taxable income of nonresidents with Hawai'i AGI over \$400,000 for tax year 2022. This partially explains why the average effective tax rates for this income group stay two to three percentage points below the marginal tax rate of 11% (please see Tables 13A, 13B, 13C, and A-8) while the rate on net long-term capital gains is set at 7.25%.
