Produce, as defined in Act 176, includes “fruits, vegetables, staple starches, nuts coffee, eggs, poultry and poultry products, livestock and livestock products, milk and milk products, aquaculture and maricultural products, and horticultural products”. By definition, the Department of Corrections and Rehabilitation spent \$371,619.83 or 3.53% of the total food purchases on “produce” in FY 2024.

The Department of Corrections and Rehabilitation continues to work closely with vendors to increase procurement of locally sourced products and attain the benchmarks as set by Hawaii State Legislature. Complications in achieving this goal include funding, State procurement rules, vendor supply shortages, providing nutritious meals within budget, and attempting to revise vendor contracts mid-term.
