JOSH GREEN, M.D. GOVERNOR KE KIA'ĀINA

119 GOV. MSG. NO.

#### EXECUTIVE CHAMBERS KE KE'ENA O KE KIA'ĀINA

May 27, 2025

The Honorable Ronald D. Kouchi President of the Senate, and Members of the Senate Thirty-Third State Legislature State Capitol, Room 409 Honolulu, Hawai'i 96813 The Honorable Nadine Nakamura Speaker, and Members of the House of Representatives Thirty-Third State Legislature State Capitol, Room 431 Honolulu, Hawai'i 96813

Aloha President Kouchi, Speaker Nakamura, and Members of the Legislature:

This is to inform you that on May 27, 2025, the following bill was signed into law:

H.B. NO. 506, H.D. 1, S.D. 2, C.D. 1 RELATING TO CONSERVATION ENFORCEMENT. ACT 099

Mahalo,

Mreen M.D.

Josh Green, M.D. Governor, State of Hawaiʻi

Approved by the Governor

on

MAY 2 7 2025

### ACT 099 H.B. NO. <sup>506</sup> H.D. 1 S.D. 2 C.D. 1

HOUSE OF REPRESENTATIVES THIRTY-THIRD LEGISLATURE, 2025 STATE OF HAWAII

# A BILL FOR AN ACT

RELATING TO CONSERVATION ENFORCEMENT.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that coral reefs are 2 extremely valuable to the people of Hawaii and provide benefits such as coastal protection from erosion due to rising sea levels 3 and larger ocean swells as the ocean warms; sand production that 4 replenishes beaches; and fisheries, recreation, tourism, and 5 spiritual connection. The legislature further finds that many 6 7 reefs around the island of Oahu are widely known to be among the most degraded in the State, due to historically poor land use 8 practices that buried corals with silt run-off and smothered 9 corals with seaweeds fertilized by leaching sewage and 10 fertilizer run-off. The legislature also finds that warmer 11 12 ocean temperatures are now causing more frequent and severe coral bleaching events that kill corals and are predicted to be 13 annual events by about 2040. Ocean acidification and other 14 pollutants also adversely affect corals. 15

16 The legislature additionally finds that one of the most 17 effective ways to help corals withstand and recover from present

## 2025-3485 HB506 CD1 HMSO

1 and future threats is to ensure the existence of many 2 herbivorous fishes on Hawaii's reefs, especially parrotfishes 3 (uhu), surgeonfishes (kala and others), and chubs (nenue). 4 These fishes are known to crop seaweeds that would otherwise 5 smother corals, providing space on the reefs for new corals to 6 grow, especially after coral bleaching events. The population 7 of herbivorous fishes around Oahu is by far the lowest in 8 Hawaii.

9 The legislature finds that the board of land and natural 10 resources adopted statewide herbivore fishing rules in December 11 2023 to protect herbivorous fish populations in the State. 12 However, enforcement of these rules, which is the responsibility 13 of the division of conservation and resources enforcement of the 14 department of land and natural resources, has been particularly 15 difficult around Oahu because:

16 (1) Fishing intensity is much greater on Oahu than on the17 other islands;

18 (2) Division of conservation and resources enforcement
19 officers have been diverted to law enforcement duties
20 on land due to recent increases in violent crime; and

2025-3485 HB506 CD1 HMSO

1	(3) Most poaching of herbivorous fish occurs at night,							
2	which poses an extreme challenge to the several							
3	division of conservation and resources enforcement							
4	officers available for marine night patrols,							
5	especially given the lack of needed equipment.							
6	Therefore, the purpose of this Act is to appropriate funds							
7	for equipment for the Oahu branch of the division of							
8	conservation and resources enforcement of the department of land							
9	and natural resources.							
10	SECTION 2. There is appropriated out of the general							
11	revenues of the State of Hawaii the sum of \$4,974,040 or so much							
12	thereof as may be necessary for fiscal year 2025-2026 for							
13	equipment for the Oahu branch of the division of conservation							
14	and resources enforcement of the department of land and natural							
15	resources, to be allocated as follows:							
16	(1) \$800,000 for two maritime enforcement patrol vessels,							
17	complete with audible/visual emergency equipment;							
18	(2) \$50,000 for two patrol watercrafts, complete with							
19	audible/visual emergency equipment;							
20	(3) \$50,000 for shipment costs for the items in paragraphs							
21	(1) and (2);							

# 2025-3485 HB506 CD1 HMSO

•

1	(4)	\$3,040,000 for thirty-two police marked patrol					
2		vehicles, complete with audible/visual emergency					
3		equipment;					
4	(5)	\$206,000 for two towing vehicles for patrol vessels,					
5		complete with audible/visual emergency equipment;					
6	(6)	\$10,000 for extended warranties for the two vehicles					
· 7		in paragraph (5);					
8	(7)	\$14,000 for one floating drive-on dock;					
9	(8)	\$1,800 for six personal flotation devices;					
10	(9)	\$36,000 for six sets of SCUBA gear, including full
