STATEMENT OF OBJECTIONS TO HOUSE BILL NO. 958

Honorable Members
Thirty-Third Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, House Bill No. 958, entitled "A Bill for an Act Relating to Transportation."

The purposes of this bill are to provide additional clarity to existing law and reinforce statewide education efforts to promote safe and responsible electrical bicycle use. Among other things, the bill prohibits operating a "high-speed electric device" on a public roadway and other designated areas.

This bill is objectionable because the definition of "high-speed electric device" and the prohibition of such devices on public roadways may be construed to include electric motor vehicles.

The bill defines "high-speed electric device" as "any device with a motor exceeding seven hundred fifty watts and capable of speeds over twenty-eight miles per hour." There are exceptions for mopeds and motorcycles, but not for electric motor vehicles, which otherwise fall within this definition. An earlier version of the bill limited the definition to two-wheeled electric devices, but the definition was subsequently amended from "a two-wheeled electric device" to "any device," without adding electric motor vehicles to the exclusions provided for mopeds and motorcycles.

Moreover, there is no definition of "device" in the current law that would preclude electric motor vehicles from being subject to the requirements of this bill. Instead, "vehicles" under section 291C-1, Hawaii Revised Statutes (HRS), are broadly defined as "devices" for transporting people and property. Consequently, under the plain language of this bill and chapter 291C, HRS, an electric motor vehicle would be considered a "high-speed electric device" and therefore prohibited from being operated

on public roadways if this bill were to become law.

While it appears that the failure to exempt electric motor vehicles from the prohibition in the bill was inadvertent, it would nevertheless cause confusion about the legality of using electric motor vehicles on the State's public roadways and conflict with my commitment to reducing greenhouse gases.

For the foregoing reasons, I am returning House Bill No. 958 without my approval.

Respectfully,
