on the  
2025-27 Biennium Budget Request of the  
Department of Hawaiian Home Lands

January 6, 2025

Chair Dela Cruz, Chair Richards and Members of the Senate Committees on Ways and Means and Hawaiian Affairs, thank you for this opportunity to provide information on the Department of Hawaiian Home Lands (DHHL) Biennium Budget request for Fiscal Year 2025 -2027 Operating and Capital Improvement Program Budgets.

**OVERVIEW**

**HAWAIIAN HOMES COMMISSION ACT OF 1920**

The Department of Hawaiian Home Lands is governed by the Hawaiian Homes Commission Act of 1920, enacted by the U.S. Congress to protect and improve the lives of native Hawaiians. The act created a Hawaiian Homes Commission to administer certain public lands, called Hawaiian home lands, for homesteads. Native Hawaiians are defined as individuals having at least 50 percent Hawaiian blood.

The Act was incorporated as a provision in the State Constitution in 1959 when Hawai'i was granted statehood. Responsibility for the Commission and the Hawaiian home lands was transferred to the State at that time. Except for provisions that increase benefits to lessees or relate to administration of the Act, the law can be amended only with the consent of Congress.

The primary responsibilities of the Department of Hawaiian Home Lands are to serve its beneficiaries and to manage its extensive land trust. The land trust consists of over 200,000 acres on the islands of Hawai'i, Maui, Moloka'i, Lāna'i, O'ahu, and Kaua'i.

DHHL provides direct benefits to native Hawaiians in many ways. Beneficiaries may receive 99-year homestead leases at \$1 per year for residential, agricultural, or pastoral purposes. These leases may be extended for an aggregate term not to exceed 199 years. Beneficiaries may receive financial assistance through direct loans, insured loans, or loan guarantees for home purchase, construction, home replacement, or repair.

In addition to administering the homesteading program, DHHL leases trust lands that are not in homestead use at market value and issues general leases, revocable permits, licenses, and rights-of-entry. The income from these enterprises is used to supplement DHHL's programs, including continued homestead development.

#### **DHHL MISSION STATEMENT**

The mission of the department is to manage the Hawaiian Home Lands Trust effectively and to develop and deliver Hawaiian hold lands to native Hawaiians. We will partner with others toward developing self-sufficient and healthy communities.

#### **DEPARTMENTAL GOALS:**

To effectively manage the Hawaiian Home Lands Trust lands, water, and related resources; to develop and deliver lands for award to beneficiaries on an on-going basis; to develop and deliver program services that meet the housing needs of native Hawaiians; to effectively manage Hawaiian Home Lands Trust financial resources; to effectively manage the department's human resources and to establish better relationships with the native Hawaiian community, governmental agencies, homestead communities, and the community at large.

#### **STRATEGIC OBJECTIVES:**

#### **ASSERT**

##### *Reaffirm & Assert Trust Status*

1. Objective 1: Determine & commit to meeting the Trust Kuleana
2. Objective 2: Protect the Trust
3. Objective 3: Advance the Hawaiian Homes Commission Act

The mission of the Hawaiian Home Lands Trust is implemented by a state department, the Department of Hawaiian Home Lands. The Hawaiian Homes Commission Act provides clear roles and responsibilities to implement the act, while our state administrative rules provide for implementation. The difference and the roles of each kuleana must be articulated.

## **PROTECT**

### *Ensuring the Financial Well-Being of the Trust*

1. Objective 1: Improve Efficiency and Effectiveness of Internal Operations.
2. Objective 2: Create Synergistic Partnerships and Alliances
3. Objective 3: Diversify And Increase Revenue Streams

The trust has a finite amount of land and resources. Not only is the trust expected to provide “new” homesteads for 47,283 waitlist applications (which represents 29,542 individual applicants), it must continue to serve the existing 10,000 plus lessees by way of repair and maintenance of utilities, traffic, roads, water, wastewater, health and safety requirements. The trust must also use its lands to generate revenue to financially support the trust’s work of serving beneficiaries. Current economic times must be considered in the development of new strategies that produce optimal performance of the trust. Developing partnerships and alliances that provide mutual benefit will enhance the opportunities for success. The trust must also consider alternative revenue streams that will help to meet the ever-growing waitlist.

## **SERVE**

### *Provide Excellent Customer Service*

1. Objective 1: Increase Communication and Access to Information
2. Objective 2: Develop Transparent Policies, Procedures and Practice
3. Objective 3: Provide Professional Development Opportunities and Support for All Staff Members.

Through the objectives above, the trust will focus on laying the foundation for consistency, providing communication, and creating methods for beneficiaries, staff and the broader public to access information. Further, the goals will provide for staff professional development support which leads to strong customer service and high performance while incorporating our Hawaiian values and understandings.

## **DELIVER**

### *Deliver Diverse Homesteading Opportunities*

1. Objective 1: Expand The Variety of Residential Homesteading Opportunities
2. Objective 2: Implement Agricultural Homesteading Opportunities
3. Objective 3: Implement Pastoral Homesteading Opportunities
4. Objective 4: Seek Alternative Financing for Homesteading Opportunities

The trust has mainly focused on single-family homes over its lifetime. Driven by the economic times and the needs of beneficiaries and applicants, the trust must seek to expand the breadth and depth of its homesteading opportunities overall. The trust has over 40,000 applications for

families waiting for a homestead lease. Expanding residential homesteading opportunities into areas such as multi-family homes, rental and transitional units will provide relief to applicants who continue to wait for a home to meet their needs. At the same time, the trust will strive to continue to develop residential, agricultural, and pastoral homesteading opportunities to fit today’s family. Considerations will be given to higher density cluster-lots, community use lots and rural homesteading. To support these objectives, the department must step out of the box to create alternative financing models to service these beneficiaries.

Today, the department is responsible for the management of 203,500 acres of trust lands, 10,055 homestead leases statewide, and 47,283 lease applications<sup>1</sup>. A breakdown of leases and applications by island and type of lease can be found in Exhibit 1 and 2.

Exhibit 1: Leases by island and type of lease

As required by the Admissions Act and as a compact with the United States, the State of Hawaii and the people of Hawaii adopted the Hawaiian Homes Commission Act as a provision of the State Constitution and agreed to faithfully carry out the spirit of the Hawaiian Homes Commission Act for the rehabilitation of the Hawaiian race. These trust responsibilities still remain.

<sup>1</sup> Lease and application count as of 11/30/2024. Note: Applicants may have 2 applications.

Although DHHL's mission "to develop and deliver land to native Hawaiians" is well-known, the lesser-known charge "to manage the Hawaiian Home Lands trust effectively" is equally important. Increasingly, this responsibility is demanding a greater share of DHHL's financial and staff resources to address.

In terms of land holdings, Exhibit 3 identifies the land use designation utilized by DHHL. Of the total inventory, approximately five percent (5%) are designated for residential use (including existing residential homesteads), while nearly two thirds of DHHL's land inventory (63.36% percent or 129,304 acres) are lands designated as General Agriculture or Conservation/Special District<sup>2</sup>. Most of these lands will remain in DHHL's inventory over the next 20 years with DHHL facing land management issues for this acreage, similar to DLNR and other large private land owners (i.e., trespassing, dumping, fire prevention, etc.).

Exhibit 3: DHHL Lands by Land Use Designation Statewide

<b>Designation</b>	<b>Acreage (rounded)</b>	<b>% of total</b>	
Undesignated	3003	1.45%	
Residential	10,383	5.01%	
Subsistence Ag	6,471	3.12%	
Supplemental Ag	10,129	4.89%	
Pastoral	43,032	20.76%	
Community Use	1,974	0.95%	
Commercial	1,384	0.67%	
Industrial	1,690	0.82%	
General Agriculture	64,698	31.21%	62.36% for a total of 129,304
Special District	33,994	16.37%	
Conservation	30,612	14.77%	
<b>Total Acreage</b>	<b>207,320</b>	<b>100.00%</b>	

Finding creative ways to manage this trust resource with beneficiary engagement and participation, while honoring DHHL's fiduciary responsibilities to act prudently and not place the interests of one beneficiary group above another, is the challenge ahead.

The department administers two (2) programs, HHL 602, Planning and Development for Hawaiian Homesteads and HHL 625, Administration and Operating Support. The objectives of the programs are to develop and manage the designated Hawaiian home lands to create more homesteads for native Hawaiians (as defined by the Hawaiian Homes Commission Act) and generate revenues to address program needs.

<sup>2</sup> The General Agriculture designation identifies lands that are unlikely to be developed within the next twenty years given its remote location or high costs needed to bring in infrastructure to prepare the lands for homesteading.

### **MEASURING PROGRESS**

The Department uses various metrics to determine our effectiveness and progress; our primary goal, however, is to award leases.

The Department is grateful for the support that the Legislature has provided over the years. In legislative session 2022, the Legislature passed Act 279. The Act, also known as the Waitlist Reduction Act, provided \$600M in general funds for the Department to reduce the waiting list for Hawaiian homes. Attachment 1 is a project status report for Act 279. By the end of FY24, we have successfully encumbered nearly 80% of the allocated \$600M. We remain on track to fully encumber the entire amount by the close of FY26, in alignment with the provisions of Act 125, SLH 2024.

Act 279 funding was clearly a monumental and historic step in the right direction in addressing the reduction of DHHL's waitlists. However, more funding is desperately needed to reduce the 29,000 wait list even further. As shown on Attachment 1, only so many units can be built within three years. We've broken down larger projects into phases and will need funding for the next phases. Per Act 279 authorization, better lands have been acquired and need to be developed. Realistically, several billion dollars are needed to truly eliminate the waiting lists. While we don't expect this entire amount this session, in Attachment 1, we do show you specific projects and the funding required to complete these projects. With this additional funding we can continue to meet the State's ongoing commitment to our DHHL beneficiaries to place more native Hawaiians on the land. Your continued support is greatly appreciated.

### **IMPACT OF CURRENT ECONOMIC AND FISCAL CONDITIONS**

#### **CHALLENGES**

There are several challenges DHHL faces with respect to meeting the mission of homesteading. These include, but are not limited to, the following:

1. **DHHL CAN ONLY DEVELOP WHERE IT HAS LANDS**

Most of DHHL's land is located on the neighbor islands in rural or more remote locations. The greatest demand (longest waiting list) is for residential property on Oahu (11,489).<sup>3</sup> Yet, DHHL has the least amount of land holdings on Oahu (only 3.3% of total lands).

2. **RELIABLE FUNDING**

The cost for infrastructure (roads, water, sewer, drainage, electrical, etc.) to prepare DHHL lands for homesteading is high. The lengthy development process requires

---

<sup>3</sup> As of November 30, 2024.

environmental compliance, planning, design, and construction phases. To keep a steady production of lots requires a reliable stream of funding to keep lots in every phase of development. This reliable funding also gives families waiting for an award of a lot (both applicant families on the waiting list or Undivided Interest lessees) some certainty to plan and prepare financially to take a lot.

3. COMPETING NEEDS

In addition to developing new homesteads, DHHL also has other critical, albeit lesser-known responsibilities. Like a county, DHHL maintains and repairs existing infrastructure (e.g., clearing of flood channels and drainage, fire protection of non-homestead areas, roads and facilities maintenance, sewer emergencies and repairs, etc.). In certain counties, the county has either not accepted portions of newer infrastructure or has stopped performing needed repair. One example is sewer systems. Act 227, SLH 2014, clarified and confirmed that operating and maintenance of sewer systems is a county function. However, DHHL continues to maintain the sewer systems on Hawaiian home lands, primarily in the City and County of Honolulu in the interim until Act 227 can be fully implemented in subdivisions completed after the mid-1990's. This will be an ongoing concern.

In addition to County-like responsibilities, DHHL also performs water utility functions. DHHL owns and operates three regulated public water systems: Hoolehua, Molokai; Anahola, Kauai; and Kawaihae, Hawaii.<sup>4</sup> Together, the systems have a total of 826-meter connections serving approximately 2,500 individuals (not including the schools and airport that are supported by the Hoolehua system). DHHL also owns and operates a non-potable water system for stock purposes in Puukapu. This non-potable water system is managed and operated by DHHL, not the county.

If DHHL trust resources are spent to address these critical functions for existing homesteads and lessees, it will not have the resources needed to maintain its homestead lot development production goals and meet the needs of beneficiaries on the waiting list.

4. INCREASING COST OF GOODS AND SERVICES

Developers and Builders are currently facing an expensive market. DHHL has observed large increase in construction bids over and above construction cost estimates. Increases in consultant and construction management fees, labor rates along with increases to materials and freight costs, have contributed to increased construction bids.

---

<sup>4</sup> DHHL also owns and operates a fourth non-potable system that feeds its pastoral homestead lots in Puukapu, Hawaii.

Further, government review and processing times have contributed to project delays beyond the control of DHHL. DHHL expects more of the same as our CIP funding stretches thinner. DHHL development budget estimates are in constant flux.

5. CAPITAL FOR MORTGAGE FINANCING

DHHL continues to address the challenging issue of providing capital for mortgages to families that reside on trust lands and providing support to families facing mortgage loan delinquencies. In fiscal year 2024, DHHL managed a total of 4,639 outstanding loans, processed 88 Federal Housing Administration insured loans and 18 Section 184A Native Hawaiian Housing Loan Guarantees (loans guaranteed by the U. S. Department of Housing and Urban Development's (HUD) Office of Native Hawaiian Programs), 23 Veteran Affairs and 3 U.S. Department of Agriculture Rural Development loans and addressed in excess of 834 delinquent mortgage loans. Each of these loans represents an opportunity for a native Hawaiian to return to trust lands or to remain on these lands.

As DHHL expands the number of vacant lots it awards, the need for financing options for non-traditional housing product increases.

**EFFORTS TO SUPPORT PROGRESS**

1. FOCUS ON SUBSISTENCE AGRICULTURAL LOTS.

For Maui, Hawaii, Kauai, and MoloĀai, the waiting lists for an agricultural lot is longer than a residential lot. Given this strong apparent demand for agricultural lots and DHHL's extensive agricultural land inventory on the neighbor islands, DHHL has gone through beneficiary consultation with our beneficiaries and conducted public hearings with the community to amend our rules to include a new type of award of leasehold. The Subsistence Ag award will allow the department to award a lease up to three acres in size, with limited subdivision improvements to address those on the Agricultural Waiting List.

Ag lot leases do not require extensive infrastructure improvements like a residential lease award. With lower infrastructure requirements, the department will be able to award more lots at less cost. Projects have commenced on Hawaii Island, Kauai, Molokai, Maui, and Oahu to provide Subsistence Ag lots.

2. HALE PROGRAM

In FY 2021, DHHL revamped its HALE program with expanded financial support services. Initially established by the Department in 2012, the HALE program aids lessees and applicants with financial literacy education and support services. DHHL has expanded on

HALE's foundational concepts to new services that include Financial Planning 101, Post-Home Maintenance, Medicare/Medicaid, the Affordable Care Act, Vacant Lot Construction, and Owner Builder Process. Previous services like Lease Cancellation Prevention and Homebuyer Education will continue.

3. REPAIR AND MAINTENANCE

DHHL's repair and maintenance program is divided into several components: sewer, drainage, water, and various subdivision improvements.

- a) Sewer. The legislature passed Act 227, SLH 2014 to allow the turning over of sewer infrastructure that is in DHHL subdivisions to the county after the systems are brought up to the approve standards. Sewer spills continue to occur and plague the homesteaders.

The department continues to work with the City and County of Honolulu to have systems that have met that standard to be turned over to the county for maintenance. Some of the CIP funding has been used to have engineers inspect the existing systems, locate sections that need replacement, repair or cleaning and determine what needs to be done to have the systems inspected and turned over to the City/County. In September 2020, DHHL has conveyed the sewer lines in Kaupuni Village, Oahu to the City and County of Honolulu in the first of what will be several line transfers stemming from the implementation of Act 227, SLH 2014. We request continued funding to allow the design and construction of the needed improvements.

Major renovation of aged sewer collector systems in Papakolea are on-going. To date, approximately \$ 15 million has been expended to remediate sewers and related groundwork, including stabilization of slopes containing sewer lines. Additional phases of major sewer collector renovations are designed. DHHL projects the need for an appropriation of \$50 million to bring the project into full compliance. DHHL supports the efforts of the City and County of Honolulu to upgrade downstream sewer pipelines to accommodate sewage flows from the Papakolea, Anianiku and Kewalo area.

Act 125, SLH 2017 mandates homes with existing cesspools to upgrade and convert to approved septic systems, or connect to a sanitary sewer system by 2050. Based on Department of Health and City and/or County data, there are approximately 2,500 existing cesspools on Hawaiian home lands' properties throughout the state. DHHL has caused literature search of records and plans and physical ground truthing surveys to determine the accuracy of the cesspool count and to begin to develop and assess cesspool conversion and remediation alternatives. It is well documented

that many homestead communities are aged and likely will not be able to bear the cost of cesspool conversion to septic systems. In various homestead locations where gravity sewer connection is not feasible, the economic burden is placed on homesteaders to install individual low-pressure pumps to connect to existing gravity sewer lines. DHHL is financially strapped to construct necessary infrastructure improvements to connect collector lines and transmission mains to County sanitary sewer plants, assuming adequate plant capacity. DHHL is also financially strapped to construct and maintain private package sewer plants. Maintenance of private package plants will require either hiring more staff or outsourcing to sewer service providers. DHHL will also be responsible for the collection of sewer use fees. Most systems will have a small quantity of users in order to efficiently operate a package sewer plant.

- b) Drainage. Historically speaking, storm events have caused damage to drainage channels and flooding within homesteads. Expansions of homesteads have placed a burden on existing drainage facilities. Climate change and king tides are also impacting low lying homestead areas. Further, increased storm water and drainage detention standards and requirements have placed a strain on the maintenance of drainage ditches, channels, streams and detention basins. The department continues to work with various Counties and FEMA to address clean-up and pinpoint improvements that would prevent or reduce future flooding. CIP funding has been utilized to address the construction needed for repairs and improvements (such as the construction remediation of the first phase of the Anahola, Kauai Reservoirs in July 2020 and the construction commencement of the Nanakuli Flood Control Improvements in July 2020). Remediation of drainage improvements in Waimanalo, estimated at \$3 million is scheduled for construction in 2022- 2023.
- c) Water. As stated above, DHHL also performs water utility functions. DHHL owns and operates three regulated potable public water systems: Hoolehua-Kalamaula, Molokai; Anahola, Kauai; and Kawaihae, Hawaii.<sup>5</sup> Together, the systems have a total of 826 water meter connections serving approximately 2,500 individuals (not including the schools and airport that are supported by the Hoolehua system). DHHL also owns and operates a non- potable water system in Puukapu. On Molokai, DHHL staff operate and maintain the public water system. On Hawaii Island at Kawaihae and on Kauai at Anahola, DHHL contracts with water operations and maintenance vendors to operate and maintain those public water systems.

---

<sup>5</sup>DHHL also owns and operates a fourth non-potable system that feeds its pastoral homestead lots in Puukapu, Hawaii.

In addition to DOH Safe Drinking Water Standards, recent promulgation of a DHHL Water Policy and Administrative Rules provide guidance for DHHL's operations and maintenance. Due to the relatively small size of the systems and the limited customer base, DHHL's operating expenses remain high, and all systems are heavily subsidized.

- d) Subdivision improvements. Until roadways are turned over to the Counties for maintenance, DHHL continues to be responsible for major pavement repairs, maintenance of street trees, sidewalks, street lighting, signage, and striping. Recently, various communities have requested traffic calming and speed abatement improvements, such as speed bumps, electronic signs, flashing beacons, and crosswalk improvements. Legislative appropriations have enhanced DHHL's implementation of traffic calming in several Oahu homestead areas, though demand for more improvements is increasing.
- e) Successful partnerships. Hawaii Community College has agreed to continue the successful partnership with the department by agreeing to a multi-year agreement to build one home a year in Keaukaha. As part of a multi-year partnership with Hawai'i Community College (HCC), in 2022, the 25th home was partially constructed by HCC students.

In addition, several of the homestead associations including Kapolei Community Development Corporation, Waiohuli Hawaiian Homestead Association, Laiopua 2020, Kailapa Hawaiian Homestead Association, Waimea Hawaiian Homestead Association, Nanakuli Hawaiian Homestead Association and others saw milestones accomplished with their community-based initiatives located on Hawaiian home lands.

#### **FEDERAL FUNDS**

The Department does not anticipate the loss of federal funds but will be monitoring any possible adverse impact with the change of administration at the national level. DHHL currently has two large sources of federal funding:

DHHL is the sole recipient of Native Hawaiian Housing Block Grant (NHHBG) funds, CFDA 14.873, as authorized by Title VIII of the Native American Housing Assistance and Self Determination Act (NAHASDA). These funds support eligible affordable housing activities for beneficiaries at or below the 80% area median income (AMI).

Senate Committee on Ways and Means and  
Senate Committee on Hawaiian Affairs  
January 6, 2025

DHHL also received federal funding from the Tribal Broadband Connectivity Program (TBCP), CFDA 11.029, administered by the National Telecommunications and Information Administration of the U.S. Department of Commerce, as authorized by Section 905(a)(8)(III) of the Consolidated Appropriations Act of 2020 (CAA) and Section 602.11 of Investment, Infrastructure & Jobs Act (IIJA). These funds will be used to improve high-speed internet access for beneficiaries residing on Hawaiian home lands.

Related to TBCP, the Department's request includes a budgetary housekeeping measure for 3.00 federally funded FTE for DHHL's broadband initiative. The Department has adequate federal funding available for this request and is only asking for a ceiling increase in personnel counts and funds of \$393,600 for Fiscal Year 2026 and \$442,800 for Fiscal Year 2027.

### **NON-GENERAL FUNDS**

The Department's Special and Trust funds provide a significant amount of support for department operations, homestead R&M, new projects, and loan programs. Non-general fund reports are attached as Attachment 2. A link to these reports can be found on the DHHL website at: <https://dhhl.hawaii.gov/wp-content/uploads/2024/11/2024-HHL-Non-General-Fund-Report.pdf>

### **DHHL FB 2025-27 BIENNIUM BUDGET REQUEST**

#### **DHHL "SUFFICIENT SUMS" SUPPLEMENTAL BUDGET REQUEST**

Article XII, Section 1 of the State Constitution states "The legislature shall make sufficient sums available for the following purposes: (1) development of home, agriculture, farm and ranch lots; (2) home, agriculture, aquaculture, farm and ranch loans; (3) rehabilitation projects to include, but not limited to, educational, economic, political, social and cultural processes by which the general welfare and conditions of native Hawaiians are thereby improved; (4) the administration and operating budget of the department of Hawaiian home lands..."

In the Nelson vs. State of Hawai'i case, a non-jury trial was held on Plaintiff's claims that the State of Hawai'i violated its constitutional duty to provide sufficient sums to the DHHL for its administrative and operating budget (Count 1) and the DHHL, the Hawaiian Homes Commission (HHC) and its commissioners breached their trust duties by failing to seek from the legislature all the funding to which the department is constitutionally entitled (Count 2).

Although what amount is considered "sufficient" for DHHL's administrative and operating expenses is still under dispute as part of the Nelson case, what is clear is DHHL's obligation to request from the Governor and the Legislature the amounts it deems sufficient to meet the four purposes of the Hawaiian Homes Commission Act as outlined in the Hawaii State

Senate Committee on Ways and Means and  
Senate Committee on Hawaiian Affairs  
January 6, 2025

Constitution. On September 16, 2024, the HHC approved the department's FB 2025 - 27 biennium budget request at its regular meeting.

Below is a summary of the Department's request as approved by the HHC at its September 2024 meeting and submitted to the Governor, through Budget & Finance, in October 2024.

DHHL crafts its budget each year based upon the four purposes as described in Article XII, Section 1 of the constitution.

*Purpose 4: Operating Budget for DHHL's Administrative and Operating Expenses*

The proposed FB 2025-27 request for administrative and operating costs in general funds and general obligation bonds totals \$125,380,616 for Fiscal Year 2026 and \$101,914,616 for Fiscal Year 2027.

"Personal Services" category costs were based on 200.00 general funded FTE that have been appropriated for FY25 in Act 164 SLH 2023, as amended by Act 230, SLH 2024.

The Department is again requesting a restoration of funding for nineteen (19.00) unfunded FTE in the amount of \$1,200,162.

DHHL's request also includes 22.00 FTE and \$1,162,032 in funds for the Department's district offices (West Hawai'i, East Hawai'i, Kauai, Maui, Molokai, and Oahu). These positions are required to provide operational support and ensure that our unencumbered lands and homesteads are maintained and safely managed.

The annual personnel cost requests represent an aggregate of the annual base salaries. Fringe benefit costs are absorbed by a separate Department of Budget and Finance general fund appropriation.

In the proposed FB 2025-27 request, DHHL's Fiscal Year 2024 budget for the "Other current Expenses" category was used as a baseline and adjusted to exclude costs related to development of homestead lots, loans, and rehabilitation projects. Consequently, the base budget was adjusted for debt service costs, loans, and grants. Attachment 3 provides the details for the "Other Current Expenses" category approved by the Hawaiian Homes Commission at its September 2024 regular meeting, for Administrative and Operating Costs, with adjustments, to determine the "sufficient sums" amount.

DHHL's CIP general obligation bond request relating to repair and maintenance of infrastructure on Hawaiian home lands is made as a lump sum request totaling \$50,898,000 and \$32,971,000

for Fiscal Years 2026 and 2027, respectively. R&M for infrastructure projects have a long-standing history of operational, maintenance and repair issues that have become capital improvement issues.

Exhibit 4, below, summarizes DHHL’s Article XII, Section 1, Purpose 4 budget request for Administrative & Operating Costs.

**SUMMARY**

I want to express our thanks and gratitude for the opportunity to present the DHHL Biennium Budget request for FB 2025-27 Operating and Capital Improvement Program Budgets. Your support of our mission and needs are invaluable to us and our beneficiaries.

The DHHL, governed by the Hawaiian Homes Commission Act of 1920, plays a critical role in improving the lives of native Hawaiians. We are entrusted with managing the Hawaiian Home Lands Trust, which comprises over 200,000 acres of land across several islands. Our mission is to deliver land to native Hawaiians, create self-sufficient communities, and honor the legacy of Prince Jonah Kūhiō Kalaniana’ole.

We have outlined strategic objectives, including reaffirming and protecting our trust status, ensuring financial well-being, providing excellent customer service, and delivering diverse homesteading opportunities. These objectives reflect our commitment to serving our beneficiaries and the broader community.

Senate Committee on Ways and Means and  
Senate Committee on Hawaiian Affairs  
January 6, 2025

We are immensely grateful for your continued support, particularly the passage of Act 279. This act provided \$600 million in general funds to address our waitlists and make progress toward fulfilling our mission. We are working diligently to encumber these funds and are optimistic about our progress.

However, our challenges remain significant, including the need for more funding to further reduce the waitlists, develop infrastructure, and address critical issues like sewer systems and drainage. The cost of goods and services continues to rise, making it essential for us to find innovative solutions to meet our beneficiaries' needs.

In our FB 2025-27 biennium budget request, we have outlined our funding needs for administrative and operating expenses, lot development, loans, and rehabilitation projects. These requests align with our constitutional mandate and our commitment to improving the lives of native Hawaiians.

As we move forward, we recognize the challenges ahead and the immense task of eliminating DHHL's waiting lists entirely. Realistically, we need several billion dollars to achieve this goal, and while we do not expect the full amount this session, we are ready to work with you to secure the necessary resources to continue serving our beneficiaries.

Your continued support is vital in helping us fulfill our mission and honor our trust responsibilities. Mahalo nui loa for your dedication and commitment to the betterment of native Hawaiians and the state of Hawai'i.

Total (Act 279)	Lots Developed	Encumbered as of 6/30/24	Lapse Fix
\$600,000,000	6030	\$471,120,548	\$129,120,825

*\*For projects where no immediate action will be taken, funds will be reallocated, subject to Hawaiian Homes Commission approval, to initiatives with greater urgency, either due to project readiness or unforeseen cost increases.*

**HAWAII COUNTY**

Island	Project	Lots (1,684)	Encumbered as of 6/30/24 (\$17,750,000)	Lapse Fix (\$42,498,696)	Description of Project
Hawaii	Villages of La'i 'Ōpua V.4 Hema/V2 EST	580	\$0	\$39,240,696	The Development Agreement with Kalaniana'ole Development dedicates resources for 180 units in Villages 4 Hema and 5. 400 units in Villages 1 and 2, and the North Kona Water System to support these communities.
Hawaii	Honoka'a Homesteads/Lehua Villages Land Acquisition	296	\$8,750,000	\$0	The project involves an \$8,750,000 acquisition of approximately 46 acres, with an additional \$1,258,000 allocated for pre-development work. Future funding could enable the development of around 296 single-family homesteads. This property is ideally located within a mile of essential services, including the 77-bed Hale Ho'ola Hamakua hospital and certified emergency room, police and fire stations, primary and secondary schools, a UH-Hilo satellite campus, a post office, and a 25-acre county sports complex.
Hawaii	Honoka'a Homesteads/Lehua Villages EIS/AIS/Infrastructure/Phase 1	n/a	\$0	\$1,258,000	
Hawaii	Ku'u Papaikou	220	\$0	\$1,000,000	No action will be taken. Project will be omitted.
Hawaii	Palamanui	40	\$7,000,000	\$0	Nan Inc. has donated 18 acres within a 725-acre, entitled mixed-use development near Kona Airport to DHHL. In collaboration with DHHL, they are developing 26 kupuna housing units and 64 multi-family transitional rental units funded through LIHTC and \$15.75 million in NAHASDA funds. A \$10 million water system has been installed, with DHHL receiving 50% of its capacity. Environmental Impact Statement (EIS), Archaeological Inventory Survey (AIS), and Traffic Impact Analysis Report (TIAR) have been completed. The master-planned community will feature additional residential units, a business park, open spaces, a Dry Forest Preserve, a "University Village Town Center" with retail and commercial amenities, and a regional park. With infrastructure costs estimated at \$175,000 per unit, the HHC approved \$7 million in funding on 2/21/24. By 3/20/24, a decision was made to utilize 100% NAHASDA funding, totaling \$22.75 million, without Act 279 funds.
Hawaii	Kaumana (Avalon Development)	168	\$2,000,000	\$0	\$2 million acquisition of 121 acres. Potential for 168 single family homesteads. Next to existing DHHL parcels.
Hawaii	Panaewa Residential Lots (FY25 Phase2)	600	\$0	\$1,000,000	DHHL already owns the land, with development planned in four phases: 150 units each in Phases 1 through 4, all on 10,000-square-foot lots. Cost estimates are based on a Rough Order of Magnitude. Federal funding is being pursued for sewer improvements. Phase 1 will focus on the first 150 units and backbone infrastructure in FY24, with an additional \$90 million planned for the remaining 450 units in FY25, covering soft costs. Note: CH343 compliance status needs confirmation, and an Environmental Review Record (ERR) may be required under HUD guidelines for the NAHASDA funds.

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Loan Fund (S-302)

Means of Financing: Revolving Fund

**1. Description and Purpose of Fund (including revenue source):**

The Hawaiian Home Loan Fund was established in 1921 as a revolving fund. Section 4 of the Hawaii Admissions Act (Act of March 18, 1959, Pub. L. 86-3, 73 Stat 4) made the Hawaiian Homes Commission Act (HHCA) a State law by compact with the United States. Under this compact, the Hawaiian Home Loan Fund may not be the subject of amendments that impair or reduce its powers and benefits without the consent of Congress.

Section 4 of the Hawaii Admissions Act, states in part:

"the Hawaiian home-loan fund, the Hawaiian home-operating fund, and the Hawaiian home-development fund shall not be reduced or impaired by any such amendment, whether made in the constitution or in the manner required for State legislation, and the encumbrances authorized to be placed on Hawaiian home lands by officers other than those charged with the administration of said Act, shall not be changed except with the consent of the United States" (emphasis added).

REVENUE LINE ITEMS:

Loan Principal Repayment - Pursuant to section 213(b) of the Hawaiian Homes Commission Act (HHCA), any principal repayment arising out of loans from the Hawaiian Home Loan Fund are to be credited to and deposited into the Hawaiian Home Loan Fund.

The Hawaiian Home Loan Fund is used principally to pay the net proceeds when a homestead lease is canceled or surrendered or when a lessee dies without leaving a qualified successor.

**2. Statutory Basis of Fund:**

Section 213 (b), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home General Loan Fund (S-323)

Means of Financing: Revolving Fund

**1. Description and Purpose of Fund (including revenue source):**

Act 249, passed by the 1986 State Legislature consolidated all remaining loan funds other than the Hawaiian home-loan fund into the Hawaiian home-general loan fund. These loan funds were established through various amendments to the Act since statehood. The major source of receipts for this fund is through principal repayment of loans.

The department can make loans from the revolving funds for the following purposes:

1. Repair, maintenance, purchase or erection of dwellings on any tract and any permanent improvements.
2. Purchase of livestock and farm equipment (including aquaculture).
3. Assistance in developing land.
4. Farm loans not to exceed \$20,000.
5. Commercial loans.

In addition, the department may:

6. Use money in the Hawaiian home-operating fund to secure matching funds from federal, state or county agencies.
7. Loan or guarantee the repayment of loans up to fifty percent (50%) of the maximum single-residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development, Federal Housing Administration (FHA).
8. Permit loans to lessees by government agencies or private lenders, where the department assures payment of such loans in case of default.
9. Secure, pledge, or otherwise guarantee the repayment of money borrowed by the department from government agencies or private lenders. Money borrowed by the department or on departmental guarantees of loan shall at no time exceed \$100,000,000.
10. Use available loan fund monies or other funds as cash guarantees when required by lenders.

11. Exercise the functions of a lender of money in all direct loans made by government agencies or private lenders to lessees of which repayment is guaranteed by the department.
12. Pledge receivables of loan accounts outstanding as collateral to secure loans made by government agencies or private lenders to the department, the proceeds of which shall be used to make new loans.
13. Transfer into the Hawaiian home-trust fund any available money from any loan fund, except the Hawaiian home-loan fund, for use as cash guarantees or reserves when required by a federal agency authorized to insure or guarantee loans to lessees.

**2. Statutory Basis of Fund:**

Section 213 (c), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Operating Fund (T-905, T-906, T-915)

Means of Financing: Trust Fund

**1. Description and Purpose of Fund (including revenue source):**

The Hawaiian Home-Development Fund, established in 1941 as a special fund, and the Hawaiian Home Operating Fund, established in 1948 as a revolving fund, were merged into one fund, the Hawaiian Home Operating Fund, in 1986. Section 4 of the Hawaii Admissions Act (Act of March 18, 1959, Pub. L. 86-3, 73 Stat 4) made the Hawaiian Homes Commission Act (HHCA) a State law by compact with the United States. Under this compact, the Hawaiian Home Development Fund and the Hawaiian Home Operating Fund may not be the subject of amendments that impair or reduce them without the consent of Congress. Consequently, the Hawaiian Home Operating Fund is managed as two separate portions, the operating portion and the development portion, to retain the characteristics and substance of the predecessors of this fund.

Section 4 of the Hawaii Admissions Act, states in part:

"the Hawaiian home-loan fund, the Hawaiian home-operating fund, and the Hawaiian home-development fund shall not be reduced or impaired by any such amendment, whether made in the constitution or in the manner required for State legislation, and the encumbrances authorized to be placed on Hawaiian home lands by officers other than those charged with the administration of said Act, shall not be changed except with the consent of the United States" (emphasis added).

REVENUE LINE ITEMS:

- 1-2) Loan Interest/ Investment Interest - Pursuant to section 213(b) of the Hawaiian Homes Commission Act (HHCA), any interest or earnings arising out of investments from the Hawaiian Home Loan Fund are to be credited to and deposited into the Hawaiian Home Operating Fund.
- 3) Miscellaneous - Pursuant to section 213(e) of the HHCA, all moneys received by the department from any other source, other than those prescribed in other funds of the HHCA, are deposited into the Hawaiian Home Operating Fund. This includes receipts collected from the Molokai and Anahola Water systems, hall rentals, and homestead lease payments.
- 4) Refund/ Reimbursables - Refunds and reimbursements of expenditures are deposited back to the fund of origination.

EXPENDITURE LINE ITEMS:

(1-14) Uses of the operating portion of the Hawaiian Home Operating Fund include:

1. Construction operation and maintenance of revenue-producing activities (such as the Molokai Water System, and the Anahola Farm Lots Water System, on the island of Kauai) that are intended to serve principally occupants on Hawaiian home lands.
2. Purchase of goods and services to be resold, rented or furnished on a charge basis to occupants of Hawaiian home lands. The department operates a community hall in Waimea on the island of Hawaii.
3. Cost of appraisals, studies, consultant services or other staff services, including those in section 202(b) of the HHCA. Some of DHHL temporary exempt hires are funded from this portion of the Operating Fund.

The uses of the development portion of the Hawaiian Home Operating Fund, which require approval of the Governor, include:

1. Improvement and development necessary to serve present and future occupants of Hawaiian home lands.
2. Improvements, additions, and repairs to all assets owned or leased by the department excluding structures or improvements that the department is obligated to acquire under Section 209 of the HHCA.
3. Engineering, architectural and planning services to maintain and develop properties.
4. For consultant services.
5. For purchase or lease of equipment.
6. For acquisition or lease of real property; and
7. Improvements constructed for the benefit of the beneficiaries of the HHCA and not otherwise permitted in the loan funds or Administration Account.

OTHER CHANGES IN FUND BALANCE:

- 1) The Hawaiian Homes Commission may approve the quarterly transfer of moneys from the Hawaiian Home (HH) Receipts Fund to the Hawaiian Home Operating Fund. In the absence of HHC approval, the HH Receipts Fund transfer is by formula according to Administrative Rules.

- 2) Any amount in the Hawaiian Home Administration Account which is in excess of the amount approved by the State Legislature or made available for the fiscal period may be transferred to the Hawaiian Home Operating Fund.

**2. Statutory Basis of Fund:**

Section 213 (e), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Administration Account (S-325, S-326, S-305, S-398)

Means of Financing: Special Fund

**1. Description and Purpose of Fund (including revenue source):**

In 1959, the Hawaii Admission Act (Act of March 18, 1959, Pub. L. 86-3, 73 Stat 4) provided that ownership of Hawaiian home lands (HHL) be transferred from the United States to the State of Hawaii. The Admission Act also provided that the HHL, as well as proceeds and income therefrom were to be held by the State in trust for native Hawaiians and administered in accordance with the Act, and that use of HHL for any other purpose would constitute a breach of trust for which suit may be brought by the United States.

Section 4 of the Hawaii Admissions Act, states in part:

"(3) that all proceeds and income from the "available lands" as defined by said Act, shall be used only in carrying out the provisions of said Act" (emphasis added).

Section 5(f) of the Hawaii Admissions Act, states in part:

"Such lands, proceeds, and income shall be managed and disposed of for one or more of the foregoing purposes in such manner as the constitution and laws of said State may provide, and their use for any other object shall constitute a breach of trust for which suit may be brought by the United States." (emphasis added).

REVENUE LINE ITEMS:

- 1) The entire receipts from any leasing or other dispositions of "available lands" are deposited into this account. Any interest or other earnings arising out of investments from this fund are to be credited to this fund.

Receipts of this fund are from general leases, licenses, revocable permits, rights of entry, and other dispositions of Hawaiian home lands. The Admission Act and the Constitution stipulate that all proceeds and income from "available lands," as defined by the HHCA, "shall be used only in carrying out the provisions of said Act."

EXPENDITURE LINE ITEMS:

- 1) The monies are to be expended by the department for salaries and all other administrative expenses of the department, excluding capital improvements, in the absence of general funds appropriated for operating and administrative costs.

Funds of the Administration Account must be incorporated in the Executive Budget and appropriated by the legislature before they can be used for salaries and operating costs.

OTHER CHANGES IN FUND BALANCE:

- 1) The HHCA provides that the excess of the receipts deposited into the Hawaiian Home Administration Account over the amount approved or made available by the legislature may be transferred to the Hawaiian Home Operating Fund.
- 2) All revenues from "available" lands are pledged to the repayment of DHHL revenue bonds. Monies in excess of the reserve and debt service requirements may be transferred back to the Administration Account upon Commission approval.

**2. Statutory Basis of Fund:**

Section 213(f), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Receipts Fund (T-916)

Means of Financing: Trust Fund

**1. Description and Purpose of Fund (including revenue source):**

All interest monies from loans or investments received by the department from any fund except as provided for in each respective fund, shall be deposited into this fund.

At the end of each quarter, all monies in this fund may be transferred to the Hawaiian home-operating fund, the Hawaiian home-administration account, the Hawaiian home-trust fund and any loan fund in accordance with rules adopted by the department.

REVENUE LINE ITEMS:

- 1) All interest monies from loans or investments received by the department from any fund except as provided for in each respective fund.

**2. Statutory Basis of Fund:**

Section 213 (g), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Trust Fund (T-917)

Means of Financing: Trust Fund

**1. Description and Purpose of Fund (including revenue source):**

Monies deposited into this fund are available for transfers into any other fund or account authorized by the Act or for any public purpose to further the purposes of the Act. Public purpose includes using the Hawaiian home trust fund as a reserve for loans insured or guaranteed by the Federal Housing Administration, Veteran Administration or any other federal agency authorized to insure or guarantee loans. A major deposit in the Hawaiian home-trust fund is the reserve for loans insured by the Federal Housing Administration.

**2. Statutory Basis of Fund:**

Section 213(h), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Native Hawaiian Rehabilitation Fund (T-924)

Means of Financing: Trust Fund

**1. Description and Purpose of Fund (including revenue source):**

The Native Hawaiian Rehabilitation Fund (NHRF) was created by the 1978 Constitutional Convention to finance various activities intended to exclusively benefit native Hawaiians. This includes, but is not limited to, educational, economic, political, social, and cultural processes by which the general welfare and conditions of native Hawaiians are improved and perpetuated. The specific sources of NHRF funds vary, but are primarily derived from certain lands labeled "ceded lands" which were conveyed from the federal government to the State when it was admitted into the Union.

REVENUE LINE ITEMS:

- 1) Thirty percent of the state receipts, derived from lands previously cultivated and cultivated as sugarcane lands and from water licenses, are deposited into this fund.
- 2) Any payments of principal, interest or other earnings arising out of the loan or investments from the fund are credited and deposited into this fund.

EXPENDITURE LINE ITEMS:

- 1) NHRF has been used for interim home construction. The fund is reimbursed by private lenders that provide permanent takeout loans (e.g. FHA loans).
- 2) NHRF has also been involved in the financing of community based projects and an education scholarship program within the native Hawaiian community.

**2. Statutory Basis of Fund:**

Section 213(i), Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Department of Hawaiian Home Lands Revenue Bond Special Fund (S-350, T-991)

Means of Financing: Special Fund

**1. Description and Purpose of Fund (including revenue source):**

In 1959, the Hawaii Admission Act (Act of March 18, 1959, Pub. L. 86-3, 73 Stat 4) provided that ownership of Hawaiian home lands (HHL) be transferred from the United States to the State of Hawaii. The Admission Act also provided that the HHL, as well as proceeds and income therefrom were to be held by the State in trust for native Hawaiians and administered in accordance with the Act, and that use of HHL for any other purpose would constitute a breach of trust for which suit may be brought by the United States.

Section 4 of the Hawaii Admissions Act, states in part:

"(3) that all proceeds and income from the "available lands" as defined by said Act, shall be used only in carrying out the provisions of said Act" (emphasis added).

Section 5(f) of the Hawaii Admissions Act, states in part:

"Such lands, proceeds, and income shall be managed and disposed of for one or more of the foregoing purposes in such manner as the constitution and laws of said State may provide, and their use for any other object shall constitute a breach of trust for which suit may be brought by the United States." (emphasis added).

In October 1991, the department sold \$18 million of revenue bonds. All revenues from "available" lands were pledged to the repayment of these bonds. Monies in excess of the reserve and debt service requirements may be transferred back to the Administration Account upon Commission approval.

Pursuant to section 213.5 of the HHCA, the department is required to establish a Revenue Bond Special Fund for each undertaking financed by revenue bonds. A special fund was established for the revenue bonds issued in 1991. Sources of monies for this fund are:

1. Revenues committed for payment of debt service and maintenance of reserve accounts.
2. Interest from investments of reserve accounts.

The monies are primarily used to repay the debt service on the bonds and to maintain a reserve account as required by the bond resolution.

A DAGS administratively created fund, titled the “Hawaiian Home Trust Fund” (T-991-I), reports the DHHL’s Revenue Bond Special Fund reserve funds outside of the State Treasury with a Revenue Bond Trustee pursuant to a bond resolution between the bondholders and DHHL. This account is reported separately from the S-350-I account.

In 2009, DHHL issued \$42.5 million in Revenue Bond Series 2009. On July 25, 2017, the DHHL successfully priced the \$30,940,000 Revenue Bond, Series 2017. Proceeds were used to refund \$36,640,000 Revenue Bond Series 2009.

**2. Statutory Basis of Fund:**

Section 213.5, Hawaiian Homes Commission Act of 1920, as amended

Department of Hawaiian Home Lands

Name of Fund: Hawaiian Home Lands Trust Fund (T-902)

Means of Financing: Trust Fund

**1. Description and Purpose of Fund (including revenue source):**

Act 14, Special Session 1995, (DHHL Land Claims Settlement Act) settles all claims made on behalf of the Hawaiian Home Lands Trust against the State between August 21, 1959 and July 1, 1988. It requires that the State make twenty annual deposits of \$30,000,000 or their discounted equivalent into the Hawaiian Home Lands Trust Fund. Proceeds of the fund may be used by DHHL for capital improvements and other purposes undertaken in the furtherance of the Hawaiian Homes Commission Act of 1920, as amended.

**2. Statutory Basis of Fund:**

Section 213.6, Hawaiian Homes Commission Act of 1920, as amended.

Department of Hawaiian Home Lands

Name of Fund: Security Deposits/Clearing Account (T-901)

Means of Financing: Trust Account

**1. Description and Purpose of Fund (including revenue source):**

This account is a Department of Accounting Services (DAGS) administratively created account established in 1998 and serves as a temporary clearing account. The account is used to hold security deposits for leased properties. It is also a holding account for transactions and other payments received with insufficient documentation to explain the purpose of the payment. Monies remain in this account until it is refunded or until the department is able to resolve the purpose of the payment. Monies are also deposited for community benefits on behalf of Hawaiian Home Associations.
