PREFACE

This volume contains all of the laws enacted by the Hawaii State Legislature during the Regular and Second Special Sessions of 2016. This volume does not include matter from the First Special Session of 2016 because that session dealt only with the consent of judicial nominees by the Senate.

The text of the laws is printed in full except as provided herein. Statutory material that is being repealed is either bracketed or bracketed and stricken. New material is indicated by underscoring. However, as authorized by Section 23G-16.5, Hawaii Revised Statutes (HRS), the text is edited to omit the bracketed material for HRS sections that are being repealed in their entirety and to omit the underscoring for entirely new HRS sections. With the exception of the foregoing and certain obvious typographical errors that have been corrected, the text of the laws appears as enacted.

Explanatory notes appear at the end of the corresponding laws. The notes clarify editorial changes and inconsistencies in text.

A Bill for an Act Relating to Health.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Act 255, Session Laws of Hawaii 2012, amended the definitions of “the practice of nursing as a licensed practical nurse” and “the practice of nursing as a registered nurse” to include carrying out the orders of a licensed physician assistant practicing with physician supervision as required by chapter 453, Hawaii Revised Statutes, and acting as an agent of the supervising physician. The Act included a sunset provision calling for the repeal of the definitions on July 1, 2017; provided that the definitions would be reenacted in the form in which they read on the day prior to the Act’s effective date.

The legislature further finds that there has been ample time to evaluate the law and its effect on public health, and there has been no harm. The change made by Act 255, Session Laws of Hawaii 2012, has provided clarity and improved communication for all health care providers and patients impacted by the change.

The purpose of this Act is to allow changes made by Act 255, Session Laws of Hawaii 2012, to continue in perpetuity by removing the sunset provision.

SECTION 2. Act 255, Session Laws of Hawaii 2012, is amended by amending section 5 to read as follows:

~~“SECTION 5. This Act shall take effect upon its approval [and shall be repealed on July 1, 2017; provided that the definitions of “the practice of nursing as a licensed practical nurse” and “the practice of nursing as a registered nurse” under section 457-2, Hawaii Revised Statutes, shall be reenacted in the form in which they read on the day prior to the effective date of this Act].”~~

SECTION 3. Statutory material to be repealed is bracketed and stricken.

SECTION 4. This Act shall take effect upon its approval.

ACT 4

S.B. NO. 2310

A Bill for an Act Relating to Domestic Abuse Protective Orders.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that mutual orders of protection are protective orders issued against both parties to a dispute. Usually mutual protective orders are issued after one of the parties petitions for a protective order. While protective orders are intended to protect a victim of abuse from imminent threat of abuse or further domestic abuse, mutual protective orders can present a variety of problems that may be contrary to the purpose of a protective order.

Mutual protective orders may trivialize the domestic abuse and may place blame on the victim rather than hold the abuser accountable. Instead, the victim may be stigmatized by the mutual protective order.

The purpose of this Act is to prohibit the court from granting mutual protective orders unless separate petitions are filed.

SECTION 2. Chapter 586, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“**§586- Mutual protective orders.** No protective order shall be entered against the plaintiff in the same petition unless:

- (1) The respondent properly files a separate petition; and
- (2) The plaintiff has reasonable notice of the filing of the separate petition.”

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

(Approved April 11, 2016.)

If residential property insurance is unavailable, as determined by the commissioner, due to a moratorium on the issuance of policies on property situated in lava zones where the mayor of the county of Hawaii has issued a proclamation declaring a state of emergency exists due to the threat of imminent disaster from a lava flow, the association shall remove its moratorium. Upon the moratorium’s removal, the association shall offer new policies and may provide a waiting period of no longer than six months for the policy coverage to take effect; provided that the residential property in the lava zone does not have current insurance.”

SECTION 2. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 3. This Act shall take effect upon its approval.

(Approved April 11, 2016.)

A Bill for an Act Relating to Consumer Protection.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The Hawaii Legislature has created statutes of limitations to provide that a party may not initiate a court action if a certain period of time

has elapsed from when a claim has accrued. Hawaii common law, however, has consistently stated that despite these legislatively created limitations, the State may initiate and maintain actions without being subject to statutes of limitations. In recognition of this longstanding common law rule, the legislature in 1991 codified section 657-1.5, Hawaii Revised Statutes, to confirm that it would apply to the State unless another statute specifically designated the State as subject to a limitations period.

In the context of claims brought by the State and its agencies pursuant to chapter 480 of the Hawaii Revised Statutes, the Hawaii legislature has never specifically designated the State or its agencies as being subject to any limitation period. Consequently, no limitation period can apply to actions brought by the State under chapter 480, Hawaii Revised Statutes.

The purpose of this measure is to amend section 480-24, Hawaii Revised Statutes, to clarify that the statute of limitations governing chapter 480, Hawaii Revised Statutes, does not apply to the State and its agencies.

SECTION 2. Section 480-24, Hawaii Revised Statutes, is amended to read as follows:

“§480-24 Limitation of actions. ~~[(a)]~~ Any action to enforce a cause of action arising under this chapter shall be barred unless commenced within four years after the cause of action accrues, except as otherwise provided in ~~[subsection (b) and]~~ section 480-22. For the purpose of this section, a cause of action for a continuing violation is deemed to accrue at any time during the period of the violation.

~~[(b) The following shall toll the time for commencement of actions by the State under this chapter if at any time:~~

- ~~(1) Any cause of action arising under this chapter accrues against any person, the person is out of the State, the action may be commenced within the terms respectively limited, after the return of the person into the State, and if, after the cause of action has accrued, the person departs from and resides out of the State, the time of the person's absence shall not be deemed or taken as any part of the time limited for the commencement of the action.~~
- ~~(2) Any cause of action arising under this chapter accrues against any person, the person has petitioned for relief under the bankruptcy code, the time during which the bankruptcy case is pending shall not be deemed or taken as any part of the time limited for the commencement of the action.~~
- ~~(3) Any cause of action arising under this chapter accrues against any person, there is a criminal action pending which arises out of the same occurrence, the time during which the criminal action is pending shall not be deemed or taken as any part of the time limited for the commencement of the action. As used in this paragraph, a criminal action is pending until its final adjudication in the trial court.]”~~

SECTION 3. Statutory material to be repealed is bracketed and stricken.

SECTION 4. This Act shall take effect upon its approval.

(Approved April 11, 2016.)

A Bill for an Act Relating to Board Member Terms for the Board of Nursing and the Board of Speech Pathology and Audiology.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The board of nursing and the board of speech pathology and audiology are the only two boards among the professional and vocational licensing division's twenty-five boards and commissions to have three-year terms for board members. Although members may be reappointed and serve two three-year terms consecutively, possibly serving a total of six years, this time is short compared to the other boards and commissions that allow for two four-year terms.

In addition to being consistent with other board member terms, longevity and continuity are key for board members to learn and acclimate themselves in order to become effective board members. Also, finding members who are willing to volunteer and give up time away from their paying jobs is often difficult. So once an individual is willing to devote the time and energy to being a board member, that member should be allowed to serve as much time as possible.

The legislature finds that the terms for members of the board of nursing and the board of speech pathology and audiology should be amended to provide continuity of effective board members and to be consistent with other boards and commissions under the professional and vocational licensing division of the department of commerce and consumer affairs.

The purpose of this Act is to amend the length of the terms of the members of the board of nursing and the board of speech pathology and audiology from three years to four years.

SECTION 2. Section 457-3, Hawaii Revised Statutes, is amended to read as follows:

"§457-3 State board of nursing; appointment; term of office. The board shall consist of nine members as follows:

- (1) Six shall be registered nurses, one of whom shall be licensed as an advanced practice registered nurse in this State;
- (2) One shall be a licensed practical nurse; and
- (3) Two shall be public members.

Both nursing education and direct providers of nursing services shall be represented on the board. The term of office for members of the board shall be ~~three~~ four years. No member shall be appointed to more than two consecutive terms or serve more than ~~six~~ eight consecutive years. Six members of the board shall be residents of the city and county of Honolulu and three shall be residents of counties other than the city and county of Honolulu."

SECTION 3. Section 468E-6, Hawaii Revised Statutes, is amended by amending subsection (c) to read as follows:

"(c) Members shall serve for a term of ~~three~~ four years. Terms shall begin on the first day of the fiscal year and end on the last day of the fiscal year."

SECTION 4. This Act shall apply to the terms of members currently serving on the board of nursing and to the terms of members currently serving on the board of speech pathology and audiology.

SECTION 5. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 6. This Act shall take effect upon its approval.

ACT 13

S.B. NO. 2775

A Bill for an Act Relating to the Affordable Care Act Section 1332 State Innovation Waiver.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the State of Hawaii has a bold history as an innovator in ensuring that its residents have access to health care. The Hawaii Prepaid Health Care Act has ensured the availability of employer-sponsored health insurance for workers and their families for more than forty years, meeting or exceeding the goals of the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) for employer sponsored health coverage.

The legislature further finds that the State of Hawaii has taken all necessary steps to comply with the implementation of the health insurance exchange and other insurance reforms required by the Affordable Care Act, but that there remain concerns that portions of the Affordable Care Act could undermine certain gains made by the Hawaii Prepaid Health Care Act.

Under section 1332 of the Affordable Care Act, a state can apply for a state innovation waiver, allowing the State to implement innovative ways to provide access to quality health care. Act 158, Session Laws of Hawaii 2014, established a state innovation waiver task force to develop a health care reform plan that would meet the requirements for obtaining a state innovation waiver in compliance with the Affordable Care Act. Act 184, Session Laws of Hawaii 2015, amended the scope of the task force's responsibilities to facilitate the development of a state innovation waiver application in a timely manner.

The state innovation waiver task force has met regularly since September 2014, holding meetings in accordance with state open meeting requirements, and posting all materials on the Governor's website, satisfying the procedural requirement of the Affordable Care Act. In those meetings, the task force carefully considered all sections of the Affordable Care Act for potential waiver, identify-

ing those provisions that improve coverage and consumer protections and those that contradict, confuse, or weaken employer-coverage mandates in the Hawaii Prepaid Health Care Act.

Once the task force agreed upon the substance of its draft proposal, the task force held a series of seven public hearings on six islands, as required by federal law. These public hearings conformed to state and federal public notice requirements and were attended by a total of one hundred sixty-three community participants. The draft plan and additional information were made publicly available prior to and at the public hearings.

The results of the task force's efforts are contained in its report to the legislature, submitted in December of 2015, recommending three actions for Hawaii's insurance marketplace:

- (1) Maintain access to affordable health insurance coverage for individuals via the state-based exchange utilizing the federal platform;
- (2) Align the Affordable Care Act with the Hawaii Prepaid Health Care Act's requirements for private employers to the extent allowable; and
- (3) Waive the Affordable Care Act Small Business Health Options Program and its requirements for the small business marketplace, including the employee choice provision.

Accordingly, in order to facilitate the development of innovative approaches to insuring the people of Hawaii, the purpose of this Act is to authorize the State to submit a state innovation waiver proposal and to implement such waiver upon approval by the federal government.

SECTION 2. The State is authorized to submit a state innovation waiver proposal to the United States Secretaries of Health and Human Services and the Treasury to waive certain provisions of the Affordable Care Act, as provided under section 1332 of the federal act, and upon approval by the Secretaries, to implement the waiver on or after January 1, 2017.

SECTION 3. This Act shall take effect upon its approval.

ACT 14

S.B. NO. 2341

A Bill for an Act Relating to Respiratory Therapists.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that chapter 466D, Hawaii Revised Statutes, establishes the regulation of respiratory therapists, which is set to repeal on June 30, 2016. Furthermore, pursuant to chapter 26H, Hawaii Revised Statutes, the auditor is required to evaluate newly enacted occupational regulatory programs prior to each board's, commission's, or regulatory program's repeal date.

The legislature further finds that an auditor's report from June 2015 finds that the regulation of respiratory therapists is reasonably necessary to protect the health and safety of consumers. The findings also note that licensure of respiratory therapists is consistent with other health-related occupations, such as doctors and nurses, and is warranted because consumers' health and safety may be jeopardized by the nature of services offered by respiratory therapists. Furthermore, every state except Alaska regulates respiratory therapists.

ACT 15

The purpose of this Act is to make permanent the regulation of respiratory therapists under chapter 466D, Hawaii Revised Statutes, which will ensure the health and safety of Hawaii residents and visitors.

SECTION 2. Section 26H-4, Hawaii Revised Statutes, is amended to read as follows:

“§26H-4 Repeal dates for newly enacted professional and vocational regulatory programs. (a) Any professional or vocational regulatory program enacted after January 1, 1994, and listed in this section shall be repealed as specified in this section. The auditor shall perform an evaluation of the program, pursuant to section 26H-5, prior to its repeal date.

~~[(b) Chapter 466D (respiratory therapists) shall be repealed on June 30, 2016.~~

~~[(e)] (b) Chapter 436H (athletic trainers) shall be repealed on June 30, 2018.~~

~~[(d)] (c) Chapter 465D (behavior analysts) shall be repealed on June 30, 2021.”~~

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

The examiner of drivers may waive the reactivation fee otherwise required by section 286-107.5.~~

~~[(i) (h) The state director of transportation shall adopt rules and regulations pursuant to chapter 91, necessary for the purposes of this section, including rules and regulations governing the effect to be given to convictions for violations of traffic laws of a foreign jurisdiction, upon license renewal procedures."~~

ACT 18

S.B. NO. 2862

A Bill for an Act Relating to Nursing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that recent incidents of individuals using false verifications of inactive or non-existent Hawaii nurse licenses to fraudulently obtain nursing license verifications in other states have prompted Hawaii's board of nursing to seek the use of a more secure system recognized by almost all state nursing boards. This coordinated licensure information system, currently under the National Council of State Boards of Nursing and known as "Nursys", is a national database for nurse licensees that includes license and disciplinary action information. Currently, Hawaii, Alabama, Oklahoma, and Louisiana are the only states with boards of nursing not "fully" participating in Nursys, meaning that although Hawaii reports all disciplinary actions taken against a nurse licensee to Nursys, license information is not provided.

The information to be shared as part of full participation in Nursys includes licensure and enforcement activities related to nurse licensure laws. By sharing license and discipline information with Nursys, the nurse licensee will be able to obtain a license verification and have it available immediately to the endorsing board of nursing. Benefits of participating in Nursys also include prompt email notification of any disciplinary action taken by another board of nursing against an individual holding a Hawaii nurse license, Social Security Master Death Index comparison, and Sex Offenders Registry comparison. Additionally, by participating more fully in Nursys, the board of nursing will be able to timely obtain verification of licensure for applicants applying for a Hawaii nurse license, and Hawaii licensees endorsing to another state will be able to order a verification through Nursys, streamlining the licensure process. Furthermore, greater participation in Nursys will enhance the transition towards the adoption of the nurse licensure compact.

The purpose of this Act is to allow the board of nursing to share nurse license information with the Nursys coordinated nurse licensure information system.

SECTION 2. Chapter 457, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§457- Nursys; verification of nurse license. Notwithstanding any other law to the contrary, the board of nursing may fully participate in Nursys by sharing licensure and discipline data with Nursys. By applying for nurse licensure, individuals shall consent to allowing the board to share their licensure and discipline data with Nursys."

SECTION 3. Section 457-2, Hawaii Revised Statutes, is amended by adding two new definitions to be appropriately inserted and to read as follows:

““Licensure and discipline data” means identifying information that includes but is not limited to the licensee’s name, address, social security number, date of birth, and nursing education.

“Nursys” means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.”

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act shall take effect upon its approval.

S.B. NO. 2813

A Bill for an Act Relating to Guardianship.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Prior to a person purchasing a firearm in the State of Hawaii, a National Instant Criminal Background Check System (NICS) check is completed by the police department in the county in which the firearm is being purchased to determine whether the person is federally prohibited from possessing a firearm. NICS is a federal database to which states are asked to contribute data, in order to identify those who are federally prohibited from possessing a firearm. Recent events have resulted in some states being criticized for failing to provide sufficient information to NICS. This Act addresses an area that Hawaii is currently not reporting and closes the gap in being compliant with NICS reporting requirements.

Under the NICS Improvement Amendments Act of 2007, Public Law 110-180 (18 U.S.C. §922(d)(4) and (g)(4)), a person “who has been adjudicated as a mental defective or has been committed to any mental institution” may not possess firearms or ammunition. This prohibited category includes those who have been adjudicated as not guilty by reason of insanity, determined to be incompetent to stand trial, involuntarily committed to a mental institution, or placed in legal guardianship status as an adult due to mental incapacitation.

Hawaii currently does not submit information on those that have been placed in legal guardianship status to NICS, nor does it share the information with local law enforcement agencies responsible for granting firearm permits and registering firearms. This Act amends section 560:5-311, Hawaii Revised Statutes, to require the courts to forward information about adult guardianship appointment orders to the Hawaii criminal justice data center, which in turn will forward the information to the Federal Bureau of Investigation for inclusion in the NICS database. It also requires the Hawaii criminal justice data center to maintain the information for disclosure to law enforcement for the purpose of firearms permitting and registration.

SECTION 2. Section 560:5-311, Hawaii Revised Statutes, is amended to read as follows:

“§560:5-311 Findings; order of appointment. (a) The court may:

- (1) Appoint a limited or unlimited guardian for a respondent only if it finds by clear and convincing evidence that:
 - (A) The respondent is an incapacitated person; and
 - (B) The respondent’s identified needs cannot be met by less restrictive means, including use of appropriate and reasonably available technological assistance; or
- (2) With appropriate findings, treat the petition as one for a protective order under section 560:5-401, enter any other appropriate order, or dismiss the proceeding.

(b) The court, whenever feasible, shall grant to a guardian only those powers necessitated by the ward’s limitations and demonstrated needs and make appointive and other orders that will encourage the development of the ward’s maximum self-reliance and independence.

(c) Within fourteen days after an appointment, a guardian shall send or deliver to the ward and to all other persons given notice of the hearing on the petition a copy of the order of appointment, together with a notice of the right to request termination or modification; provided that, for good cause shown, the court may extend time for the order and notice to be sent or delivered to the ward, or otherwise modify or waive that requirement.

(d) The court shall forward to the Hawaii criminal justice data center all orders of appointment or information from all orders of appointment as requested by the Hawaii criminal justice data center, which in turn shall forward the information to the Federal Bureau of Investigation, or its successor agency, for inclusion in the National Instant Criminal Background Check System database. The orders of appointment or information shall also be maintained by the Hawaii criminal justice data center for disclosure to and use by law enforcement officials for the purpose of firearms permitting or registration pursuant to chapter 134. This subsection shall apply to all orders appointing a guardian of an incapacitated person without regard to the date of the appointment.”

S.B. NO. 2511

A Bill for an Act Relating to Telecommunications.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the need for broadband services has continued to grow and that broadband service has become an essential infrastructure for society in the twenty-first century. The legislature further finds that the promotion and development of broadband services are critical for the advancement of education, health, public safety, research and innovation, civic participation, e-government, economic development and diversification, and public safety and services. These findings were reinforced in 2015 when the Federal Communications Commission reclassified broadband service under title II of the Federal Telecommunications Act, essentially classifying broadband service as a public utility on par with telecommunications service.

Act 199, Session Laws of Hawaii 2010, established the broadband assistance advisory council (advisory council). Act 151, Session Laws of Hawaii 2011, amended Act 199 to make the director of commerce and consumer affairs a member and chairperson of the advisory council. The advisory council is tasked with advising the director of commerce and consumer affairs on policy and funding priorities to promote and encourage the use of telework alternatives for public and private employees and to expedite the development of affordable and accessible broadband services in Hawaii.

The purpose of this Act is to:

- (1) Make the director of business, economic development, and tourism a member of the advisory council;
- (2) Ensure that each of the counties are represented on the advisory council; and
- (3) Authorize the chair of the advisory council to include representatives of other interested public or private sector organizations on an ad hoc basis as members of the advisory council or the work groups of the advisory council.

SECTION 2. Act 199, Session Laws of Hawaii 2010, as amended by Act 151, Session Laws of Hawaii 2011, is amended by amending section 3 to read as follows:

“SECTION 3. Telework promotion ~~and~~; broadband assistance advisory council; establishment; purpose. (a) The director of commerce and consumer affairs shall convene and chair the broadband assistance advisory council to advise the director of commerce and consumer affairs on policy and funding priorities to promote and encourage use of telework alternatives for public and private employees, and expedite deployment of affordable and accessible broadband services in Hawaii.

(b) The council shall be composed of the director of commerce and consumer affairs, or the director's designee~~;~~; the director of business, economic development, and tourism, or the director's designee; and the following twelve members who shall be equally appointed by the president of the senate and by the speaker of the house of representatives as follows:

- (1) Two members of the senate, appointed by the president of the senate;
- (2) Two members of the house of representatives, appointed by the speaker of the house of representatives;

- (3) Four representatives of federal, state, and county government entities having a role in infrastructure deployment; management of public rights-of-way, regulation, and franchising; information technology; and economic development; and
- (4) Four representatives of Hawaii's private sector technology, telecommunications, and investment industries.

In making the appointments pursuant to subsection (b)(1) through (b)(3), the president of the senate and the speaker of the house of representatives shall ensure representation of each of the counties of Hawaii, Maui, and Kauai, and the city and county of Honolulu by one or more appointed members. Except for the director of commerce and consumer affairs[;] and the director of business, economic development, and tourism, all members shall serve for a term of four years. Notwithstanding any law to the contrary, the terms of all members as of July 1, 2016, shall expire on June 30, 2019; and, each subsequent four-year term shall commence on July 1, and expire on June 30 every four years thereafter. Any member of the council whose term has expired may continue to serve as a holdover member until reappointment or until a successor is appointed. Any vacancies occurring in the membership of the advisory council shall be filled for the remainder of the unexpired term in the same manner as the original appointments.

(c) The director of commerce and consumer affairs shall serve as chairperson of the council. The chairperson may designate representatives of other interested public or private sector organizations to serve as members of the council, or as members of the work groups of the council to address specified issues on an ad hoc basis, as the chairperson deems necessary. The council shall meet at times as may be called by the chairperson. Members and ad hoc members shall be reimbursed for reasonable expenses, including travel expenses, necessary for the performance of their duties. Administrative support to the council shall be provided by the department of commerce and consumer affairs.

(d) The council shall:

- (1) Monitor the broadband-based development efforts of other states and nations in areas such as business, education, and health;
- (2) Advise the department on other states' best practices involving telework promotion and policies and strategies related to making affordable broadband services available to every Hawaii home and business;
- (3) Monitor broadband-related activities at the federal level;
- (4) Monitor regulatory and policy changes for potential impact on broadband deployment and sustainability in Hawaii; and
- (5) Encourage public-private partnerships to increase the deployment and adoption of broadband services and applications."

ACT 24

S.B. NO. 2256

A Bill for an Act Relating to Motor Vehicle Driver Licensing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that section 249-9.2, Hawaii Revised Statutes, relating to special number plates for military service, allows veterans of the Korean conflict to have "Korea Veteran" imprinted on their Hawaii license plates. Although existing statute also provides for annotation of veteran status on driver's licenses, it is difficult for veterans of the Korean conflict to qualify for the veteran's driver's license annotation provision.

The purpose of this Act is to clarify that the definition of "veteran" for purposes of notation on a driver's license includes veterans of the Korean conflict and certain persons who served during the Korean conflict and meet additional requirements.

SECTION 2. Section 286-109, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) Upon payment of the required fee and upon demonstrating the ability to operate a certain category or categories of motor vehicles to the satisfaction of the examiner of drivers, an applicant for a driver's license shall be issued a single license of a design approved by the director of transportation upon which is made a notation of:

- (1) The category or categories of motor vehicles the applicant may operate;
- (2) Any restrictive provisions to which the license is subject;
- (3) Veteran status, if desired by the applicant; provided that the notation shall be on the front of the license and shall not include any designation other than the term "veteran"; and
- (4) When the license is issued to a person under twenty-one years of age, a statement, in clearly legible print that shall contrast with the other information appearing on the license, which indicates the date on which the person will attain the age of twenty-one years.

As used in this subsection, "veteran" means any person who served in any of the uniformed services of the United States, including veterans of the Korean conflict and persons who served in the armed forces of the Republic of Korea, who fought under the command of the United Nations led by the United States, during the Korean conflict and are currently United States citizens, and was discharged under conditions other than dishonorable."

SECTION 3. Section 286-111, Hawaii Revised Statutes, is amended by amending subsection (d) to read as follows:

"(d) Every application shall state the full name, date of birth, sex, occupation, veteran status if applicable (including veterans of the Korean conflict and persons who served in the armed forces of the Republic of Korea, who fought under the command of the United Nations led by the United States, during the Korean conflict and are currently United States citizens) and desired by the applicant, social security number if the applicant is eligible for a social security number, the residence address, and business address, if any, of the applicant, shall briefly describe the applicant, and shall state whether the applicant has theretofore been licensed as a driver, and, if so, when and in what state or country, and whether any such license has ever been suspended or revoked, or

whether an application has ever been refused, and if so, the date of and reason for the suspension, revocation, or refusal.”

SECTION 4. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval.

ACT 25

S.B. NO. 305

A Bill for an Act Relating to Use of Tobacco Products and E-Cigarettes on Hawaii Health Systems Corporation Premises.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that facilities within the Hawaii health systems corporation are committed to providing quality healthcare for the people of Hawaii and taking steps to lessen the occurrence of preventable disease. Consistent with this commitment, the corporation must not permit the use of tobacco and other potentially dangerous substances on the campuses of its health facilities. Allowing such use would not only expose vulnerable patients, employees, and visitors to the perils of harmful substances, but would also demonstrate a shortcoming in the corporation’s goal of reducing the occurrence of preventable disease.

The purpose of this Act is to protect patients, employees, and all other visitors to the health facilities within the Hawaii health systems corporation from exposure to second-hand smoke and other potentially harmful substances as well as to promote positive health practices by prohibiting any person from using tobacco products or electronic smoking devices, often referred to as e-cigarettes, on the premises of any Hawaii health systems corporation facility.

SECTION 2. Chapter 323F, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§323F- Tobacco and electronic smoking devices use prohibited. (a) Notwithstanding the less restrictive requirements of chapter 328J, the Hawaii health systems corporation shall prohibit the use of any tobacco product or electronic smoking device by any person on the premises of all facilities operated by the corporation within the State, to the extent not prohibited by federal law and regulation.

(b) Pursuant to section 89-9(d), the tobacco and electronic smoking device use prohibitions under this section shall not be subject to collective bargaining.

(c) The corporation shall prominently display signs stating that “tobacco and electronic smoking device use is prohibited” at all entrances to the corporation’s health facilities and at other conspicuous locations throughout the outdoor premises of each health facility.

(d) For the purposes of this section:

“Electronic smoking device” means any electronic product that can be used to aerosolize and deliver nicotine or other substances to the person inhaling from the device, including, but not limited to, an electronic cigarette, electronic cigar, electronic cigarillo, electronic pipe, hookah pipe, or hookah pen, and any

cartridge or other component of the device or related product, whether or not sold separately.

“Premises” means all indoor and outdoor areas within the state-designated property boundary lines of each of the corporation’s health facilities and shall include all employee and visitor parking lots.

“Tobacco or electronic smoking device use” does not include mere possession or storage of the same for use in locations outside the premises of the corporation’s health facilities.

“Tobacco product” means any product made or derived from tobacco that contains nicotine or other substances, and is intended for human consumption or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled, or ingested by any other means, including, but not limited to, a cigarette, cigar, pipe tobacco, chewing tobacco, snuff, snus, or an electronic smoking device. “Tobacco product” does not include drugs, devices, or combination products approved for sale by the United States Food and Drug Administration, as those terms are defined in the Federal Food, Drug, and Cosmetic Act.”

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

A Bill for an Act Relating to Renewable Energy.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that chapter 201N, Hawaii Revised Statutes, enacted by Act 207, Session Laws of Hawaii 2008, assigns the director of business, economic development, and tourism, as the State's energy resources coordinator, the responsibility of implementing a renewable energy facility siting process for state and county permits for the siting, development, construction, and operation of renewable energy facilities.

According to the state auditor's Report No. 14-13, no project has completed the siting process and the department of business, economic development, and tourism has not implemented a siting process program. The auditor also reported that the renewable energy facility siting special fund, created pursuant to Act 207 for the purpose of funding the operation and administration of the renewable energy facility siting process, maintained a balance of \$0 from the beginning of fiscal year 2009-2010 to the end of fiscal year 2013-2014, and had not demonstrated the capacity to be self-sustaining.

The department of business, economic development, and tourism's January 12, 2016 budget briefing report indicated that the renewable energy facility siting special fund is expected to have an unencumbered cash balance of \$0 throughout fiscal year 2015-2016.

Accordingly, the legislature finds that chapter 201N, Hawaii Revised Statutes, should be repealed due to lack of implementation. The purpose of this Act is to repeal chapter 201N, Hawaii Revised Statutes, relating to the renewable energy facility siting process.

SECTION 2. Section 201-12.5, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

- “(b) The renewable energy facilitator shall have the following duties:
- (1) Facilitate the efficient permitting of renewable energy projects, including:
 - (A) The land parcel on which the facility is situated;
 - (B) Any renewable energy production structure or equipment;
 - (C) Any energy transmission line from the facility to a public utility's electricity system; and
 - (D) Any on-site infrastructure necessary for the production of electricity or biofuel from the renewable energy site;
 - (2) Initiate the implementation of key renewable energy projects by permitting various efficiency improvement strategies identified by the department;
 - (3) Administer the day-to-day coordination for renewable energy projects on behalf of the department [~~and the day-to-day operations of the renewable energy facility siting process established in chapter 201N~~]; and
 - (4) Submit periodic reports to the legislature on renewable energy facilitation activities [~~and the progress of the renewable energy facility siting process~~].”

SECTION 3. Section 269-27.2, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

- “(b) The public utilities commission may direct public utilities that supply electricity to the public to arrange for the acquisition of and to acquire

electricity generated from nonfossil fuel sources as is available from and the producers are willing and able to make available to the public utilities, and to employ and dispatch the nonfossil fuel generated electricity in a manner consistent with the availability thereof to maximize the reduction in consumption of fossil fuels in the generation of electricity to be provided to the public. ~~[To assist the energy resources coordinator in effectuating the purposes of chapter 201N, the public utilities commission may develop reasonable guidelines and timetables for the creation and implementation of power purchase agreements.]~~”

SECTION 4. Section 343-2, Hawaii Revised Statutes, is amended by deleting the definition of “renewable energy facility”.

~~[““Renewable energy facility” has the same meaning as defined in section 201N-1.”]~~

SECTION 5. Section 343-5, Hawaii Revised Statutes, is amended by amending subsection (e) to read as follows:

“(e) Whenever an applicant proposes an action specified by subsection (a) that requires approval of an agency and that is not a specific type of action declared exempt under section 343-6, the agency initially receiving and agreeing to process the request for approval shall require the applicant to prepare an environmental assessment of the proposed action at the earliest practicable time to determine whether an environmental impact statement shall be required; provided that if the agency determines, through its judgment and experience, that an environmental impact statement is likely to be required, the agency may authorize the applicant to choose not to prepare an environmental assessment and instead prepare an environmental impact statement that begins with the preparation of an environmental impact statement preparation notice as provided by rules. ~~[For an action that proposes the establishment of a renewable energy facility, a draft environmental impact statement shall be prepared at the earliest practicable time.]~~ The final approving agency for the request for approval is not required to be the accepting authority.

For environmental assessments for which a finding of no significant impact is anticipated:

- (1) A draft environmental assessment shall be made available for public review and comment for a period of thirty days;
- (2) The office shall inform the public of the availability of the draft environmental assessment for public review and comment pursuant to section 343-3; and
- (3) The applicant shall respond in writing to comments received during the review and the applicant shall prepare a final environmental assessment to determine whether an environmental impact statement shall be required. A statement shall be required if the agency finds that the proposed action may have a significant effect on the environment. The agency shall file notice of the agency’s determination with the office, which, in turn, shall publish the agency’s determination for the public’s information pursuant to section 343-3.

The draft and final statements, if required, shall be prepared by the applicant, who shall file these statements with the office.

The draft statement shall be made available for public review and comment through the office for a period of forty-five days. The office shall inform the public of the availability of the draft statement for public review and comment pursuant to section 343-3.

The applicant shall respond in writing to comments received during the review and prepare a final statement. The office, when requested by the appli-

cant or agency, may make a recommendation as to the acceptability of the final statement.

The authority to accept a final statement shall rest with the agency initially receiving and agreeing to process the request for approval. The final decision-making body or approving agency for the request for approval is not required to be the accepting authority. The planning department for the county in which the proposed action will occur shall be a permissible accepting authority for the final statement.

Acceptance of a required final statement shall be a condition precedent to approval of the request and commencement of the proposed action. Upon acceptance or nonacceptance of the final statement, the agency shall file notice of the determination with the office. The office, in turn, shall publish the determination of acceptance or nonacceptance of the final statement pursuant to section 343-3.

The agency receiving the request, within thirty days of receipt of the final statement, shall notify the applicant and the office of the acceptance or nonacceptance of the final statement. The final statement shall be deemed to be accepted if the agency fails to accept or not accept the final statement within thirty days after receipt of the final statement; provided that the thirty-day period may be extended at the request of the applicant for a period not to exceed fifteen days.

In any acceptance or nonacceptance, the agency shall provide the applicant with the specific findings and reasons for its determination. An applicant, within sixty days after nonacceptance of a final statement by an agency, may appeal the nonacceptance to the environmental council, which, within thirty days of receipt of the appeal, shall notify the applicant of the council's determination. In any affirmation or reversal of an appealed nonacceptance, the council shall provide the applicant and agency with specific findings and reasons for its determination. The agency shall abide by the council's decision."

SECTION 6. Chapter 201N, Hawaii Revised Statutes, is repealed.

SECTION 7. Any employee hired by the department of business, economic development, and tourism pursuant to section 201N-2, Hawaii Revised Statutes, before the effective date of this Act and is transferred to another position within the department as a consequence of this Act may retain the employee's exempt status with respect to chapters 76 and 89, Hawaii Revised Statutes, but shall not be appointed to a civil service position as a consequence of this Act. An exempt employee who is transferred by this Act shall not suffer any loss of prior service credit, vacation or sick leave credits previously earned, or other employee benefits or privileges as a consequence of this Act; provided that the employee possesses legal and public employment requirements for the position to which transferred or appointed, as applicable; provided further that subsequent changes in status may be made pursuant to applicable employment and compensation laws. The director of business, economic development, and tourism may prescribe the duties and qualifications of the employee and fix the employee's salary without regard to chapters 76 and 89, Hawaii Revised Statutes.

SECTION 8. (a) Any proceeds generated and deposited into the renewable energy facility siting special fund pursuant to Act 207, Session Laws of Hawaii 2008, that are unexpended and unencumbered as of the effective date of this Act shall be deposited into the general fund on the effective date of this Act.

(b) All records, equipment, machines, files, supplies, contracts, books, papers, documents, maps, and other personal and real property heretofore made, used, acquired, or held by the energy resources coordinator for the purposes of

chapter 201N, Hawaii Revised Statutes, shall be maintained by the Hawaii state energy office or transferred to another appropriate agency within the department of business, economic development, and tourism.

SECTION 9. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 10. Statutory material to be repealed is bracketed and stricken.

SECTION 11. This Act shall take effect on July 1, 2016.

ACT 29

S.B. NO. 2333

A Bill for an Act Related to Licensed Marriage and Family Therapists.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that title 25 of the Hawaii Revised Statutes regulates numerous professions and occupations, including marriage and family therapists. One of the regulatory mechanisms provided for in title 25 is professional licensing. Specifically, marriage and family therapists are licensed by a program within the department of commerce and consumer affairs pursuant to chapter 451J, Hawaii Revised Statutes.

The legislature further finds that, although chapter 451J, Hawaii Revised Statutes, provides a licensing procedure for marriage and family therapists, the term “marriage and family therapist” is used elsewhere in the Hawaii Revised Statutes without a reference to licensing. Often, “marriage and family therapist” appears in conjunction with other regulated professions that are explicitly referred to in those sections as “licensed” professions. The legislature additionally finds that this discrepancy between marriage and family therapists and other regulated and licensed professions may create ambiguity in interpretations of these statutes.

The purpose of this Act is to improve clarity and facilitate understanding in the law by reducing ambiguity in the term “marriage and family therapist”.

SECTION 2. Section 431M-1, Hawaii Revised Statutes, is amended by amending the definitions of “alcohol or drug dependence outpatient services”, “day treatment services”, “marriage and family therapist”, “mental health outpatient services”, “partial hospitalization”, “qualified”, and “treatment episode” to read as follows:

““Alcohol or drug dependence outpatient services” means alcohol or drug dependence nonresidential treatment provided on an ambulatory basis to patients with alcohol or drug dependence problems that includes interventions prescribed and performed by qualified physicians, psychologists, licensed clinical social workers, licensed marriage and family therapists, licensed mental health counselor¹, or advanced practice registered nurses. This definition shall not imply

a broadening of the scope of or granting of prescriptive authority privileges, except as otherwise allowed pursuant to chapter 457.

“Day treatment services” means treatment services provided by a hospital, mental health outpatient facility, or nonhospital facility to patients who, because of their conditions, require more than periodic hourly service. Day treatment services shall be prescribed by a physician, psychologist, licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse, and carried out under the supervision of a physician, psychologist, licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse. Day treatment services require less than twenty-four hours of care and a minimum of three hours in any one day.

“~~[Marriage]~~ Licensed marriage and family therapist” means a person licensed in marriage and family therapy practice pursuant to chapter 451J.

“Mental health outpatient services” means mental health nonresidential treatment provided on an ambulatory basis to patients with mental illness that includes interventions prescribed and performed by a physician, psychologist, licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse.

“Partial hospitalization” means treatment services, including in-hospital treatment services or benefits, provided by a hospital or mental health outpatient facility to patients who, because of their conditions, require more than periodic hourly service. Partial hospitalization shall be prescribed by a physician or psychologist, and may be prescribed by a licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse in consultation with a physician or psychologist. Partial hospitalization requires less than twenty-four hours of care and a minimum of three hours in any one day.

“Qualified” means:

- (1) Having skill in the diagnosis or treatment of substance use disorders, based on a practitioner’s credentials, including but not limited to professional education, clinical training, licensure, board or other certification, clinical experience, letters of reference, other professional qualifications, and disciplinary action; or
- (2) Being a licensed physician, psychologist, licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse, and certified pursuant to chapter 321.

“Treatment episode” means one admission to an accredited hospital or nonhospital facility, or office of a qualified physician, psychologist, licensed clinical social worker, licensed marriage and family therapist, licensed mental health counselor, or advanced practice registered nurse for treatment of alcohol or drug dependence, or both, as stipulated in a prescribed treatment plan and that would generally produce remission in those who complete the treatment. The prescribed treatment plan may include the provision of substance abuse services in more than one location and may include in-hospital, nonhospital residential, day treatment, or alcohol or drug dependence outpatient services, or any combination thereof. An admission for only detoxification services shall not constitute a treatment episode.”

SECTION 3. Section 431M-4, Hawaii Revised Statutes, is amended to read as follows:

“§431M-4 Mental illness, alcohol and drug dependence benefits. (a) Alcohol and drug dependence benefits shall be as follows:

- (1) Detoxification services as a covered benefit under this chapter shall be provided either in a hospital or in a nonhospital facility that has a written affiliation agreement with a hospital for emergency, medical, and mental health support services. A Bill for an Act Relating to Developmental Disabilities.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Pursuant to House Concurrent Resolution No. 17 adopted in 2014, the department of health established a task force to review Hawaii's statutory definition of "developmental disabilities".

The task force found that the federal definition of "developmental disabilities" was revised in 2000 to include infants and young children with substantial developmental delays or specific congenital or acquired conditions, where due to their age, functional criteria that are used for adolescents and adults could not be reliably applied to infants and young children. Since Hawaii's current statutory definition of "developmental disabilities" requires that an individual have three or more functional limitations in major life activities, this can exclude infants and young children from receiving necessary services since these life activities cannot reliably be assessed.

The task force recommends amending the current definition of "developmental disabilities" in section 333F-1, Hawaii Revised Statutes, to clarify that an individual from birth to age nine who has substantial developmental delays or specific congenital or acquired conditions may be considered to have a developmental disability without meeting three or more of the criteria described in the current definition if the infant or child, without services and supports, has a high probability of meeting these criteria later in life.

SECTION 2. Section 333F-1, Hawaii Revised Statutes, is amended by amending the definition of "developmental disabilities" to read as follows:

"Developmental disabilities" means a severe, chronic disability of a person which:

- (1) Is attributable to a mental or physical impairment or combination of mental and physical impairments;
- (2) Is manifested before the person attains age twenty-two;
- (3) Is likely to continue indefinitely;
- (4) Results in substantial functional limitations in three or more of the following areas of major life activity[~~ies~~]: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic sufficiency; and
- (5) Reflects the person's need for a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services [~~which~~] that are of lifelong or extended duration and are individually planned and coordinated.

An individual from birth to age nine who has a substantial developmental delay or specific congenital or acquired condition may be considered to have a developmental disability without meeting three or more of the criteria described above, if the individual, without services and supports, has a high probability of meeting those criteria later in life."

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

(b) If the person has been given an examination, evaluation, or treatment in a psychiatric facility or by the department within five days before the filing of the petition, and treatment is recommended by the staff of the facility or the department, the petition may be accompanied by an affidavit or declaration of the department’s medical director or the mental health administrator in lieu of a physician’s or psychologist’s affidavit~~[-]~~ or declaration.”

SECTION 4. Section 353-13.9, Hawaii Revised Statutes, is amended to read as follows:

“~~¶~~§353-13.9~~¶~~ Hearing on petition. (a) The court may adjourn or continue a hearing for failure to timely notify ~~[a spouse, civil union partner,~~

reciprocal beneficiary, guardian, relative,] either the person's legal guardian or emergency contact listed while in the custody of the department, or other person determined by the court to be entitled to notice, or for failure by the person who is the subject of the petition to contact an attorney as provided in section 353-13.8, if the court determines that an adjournment or continuance is in the interest of justice.

(b) Unless the hearing is waived, the [judge] court shall hear the petition as soon as possible and no later than ten days after the date the petition is filed unless a reasonable delay is sought for good cause shown by the person who is the subject of the petition, the person's attorney, the petitioner, the guardian or guardian ad litem, or those persons entitled to receive notice of the hearing under section 353-13.8.

(c) The person who is the subject of the petition shall be present at all hearings unless the person waives the right to be present, is unable to attend, or creates conditions that make it impossible to conduct the hearing in a reasonable manner as determined by the [judge,] court. A waiver is valid only upon acceptance by the court following a judicial determination that the person understands the person's rights and is competent to waive them, or is unable to participate. [If the person is unable to participate, the judge shall] At any point during the proceedings and after the filing of the petition, the court may appoint a guardian ad litem or a temporary guardian, as provided in article V of chapter 560, to represent the person throughout the proceedings[-], if the court finds that the person is unable to participate or that other good cause exists.

The person or any interested person may request a hearing in another circuit because of convenience to the parties, witnesses, or the court, or because of the person's mental or physical condition.

(e) The attorney general, the attorney general's deputy, special deputy, or appointee shall present the case for hearings convened under this section.

(f) Counsel for the person who is the subject of the petition shall be allowed adequate time for investigation of the matters at issue and for preparation, and shall be permitted to present evidence that the counsel believes necessary to a proper disposition of the proceedings.

(g) No person who is the subject of the petition shall be found to require care or treatment unless at least one physician or psychologist who has personally examined or attempted to examine the person testifies in person at the hearing. This testimony may be waived by the person. If the subject has refused to be examined by a licensed physician or psychologist, the person may be examined by a court-appointed licensed physician or psychologist. If the person refuses and there is sufficient evidence to believe that the allegations of the petition are true, the person's refusal shall be treated as a denial that the person is [mentally ill or suffering from substance abuse.] in need of involuntary medical treatment. Nothing in this section shall limit the person's privilege against self-incrimination.

(h) The person who is the subject of the petition in a hearing under this section has the right to secure an independent medical or psychological evaluation at the person's own expense and present evidence thereon.

(i) If the court finds that the criteria for involuntary medical treatment under section 353-13.6 have been met by clear and convincing evidence, the court may issue an order to authorize the department to involuntarily medically treat the person for a period of up to one year unless the person is sooner released or sooner determined to no longer be in need of treatment. If so specified by the court, however, the order may remain in effect if the person who is the subject of

the petition is released but returns to custody during the maximum period of the order, if the underlying criminal case is still active or the sentence has not been fully served, unless the person is sooner determined to no longer be in need of treatment.

(j) The court may find that the person who is the subject of the petition is an incapacitated or protected person, or both, under article V of chapter 560, and may appoint a guardian or conservator, or both, for the person under the terms and conditions as the court shall determine.

(k) Prior to the expiration of an existing involuntary treatment order, the department may move for an extension of the order for a period of up to one year. An extension may be ordered by the court upon a showing that the subject of the order continues to meet the criteria set forth in section 353-13.6. Any extension request shall follow the notice requirements set forth in section 353-13.8."

ACT 38

S.B. NO. 2675

A Bill for an Act Relating to Licensing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that a recent Honolulu Star-Advertiser investigation found dozens of examples of physicians who were disciplined in other states, but were issued new Hawaii medical licenses or their active Hawaii

medical licenses were not assessed reciprocal sanctions for long periods of time after the physicians were disciplined. Hawaii regulators often took more than two years to issue reciprocal discipline on licensed physicians after other states imposed sanctions.

Often Hawaii consumers would learn that a Hawaii-licensed physician faced sanctions in another state only after Hawaii levied reciprocal discipline. Furthermore, Hawaii failed to take immediate action when other states declared emergencies to justify the immediate revocation of a license. The most egregious cases uncovered during the investigation involved physicians who lost the ability to practice in other states, either because of serious misconduct or to settle misconduct charges, but maintained their Hawaii licenses for months or even years after the fact.

The legislature further finds that timely action in reciprocal discipline cases is a vital aspect of consumer protection. Furthermore, delayed action in reciprocal discipline cases, particularly in emergency situations, can put patients unnecessarily at risk. The legislature additionally finds that ensuring timely reciprocal discipline of physicians and other health care professionals, including osteopathic physicians, physician assistants, nurses, dentists, and pharmacists, is necessary to protect the public.

Accordingly, the purpose of this Act is to:

- (1) Authorize the board of dental examiners, Hawaii medical board, and board of pharmacy to deny a license to an applicant who has been disciplined by another state or federal agency and the board of nursing to deny a license to an applicant who has been disciplined by another state;
- (2) Authorize the board of dental examiners, Hawaii medical board, board of nursing, and board of pharmacy to impose disciplinary action against a licensee who was disciplined by another state or federal agency;
- (3) Establish conditions for the disciplinary action;
- (4) Prohibit a licensee from practicing until a final order of discipline is issued if disciplinary action taken by another state prohibited the licensee from practicing in that state; and
- (5) Ensure consumer protection by requiring any final order of discipline taken to be public record.

SECTION 2. Chapter 448, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§448- Discipline based on action taken by another state or federal agency; conditions; prohibition on practice. “ . **STUDENT ONLINE PERSONAL INFORMATION PROTECTION**

§302A- **Definitions.** As used in this subpart, unless the context otherwise requires:

“Covered information” means personally identifiable information or material, or information that is linked to personally identifiable information or material, in any media or format that is not publically available and is:

“K-12 school” means a school that offers any of grades kindergarten to twelve and that is a public school, as defined in section 302A-101.

“K-12 school purposes” means purposes that are directed by or that customarily take place at the direction of a K-12 school, teacher, or complex area superintendent or that aid in the administration of school activities, including instruction in the classroom or at home, administrative activities, and collaboration between students, school personnel, parents or legal guardians, or are otherwise for the use and benefit of the school.

“Operator” means, to the extent that it is operating in this capacity, the operator of a website, online service, online application, or mobile application with actual knowledge that the site, service, or application is used primarily for K-12 school purposes and was designed and marketed for K-12 school purposes.

“Targeted advertising” means presenting advertisements to a student where the advertisement is selected based on information obtained or inferred over time from that student’s online behavior, usage of applications, or covered information. “Targeted advertising” does not include advertising to a student at an online location based upon that student’s current visit to that location, or in response to that student’s request for information or feedback, without the retention of that student’s online activities or requests over time for the purpose of targeting subsequent advertisements.

§302A- Prohibited activity; permitted disclosures and uses; limitations.

- (a) An operator shall not knowingly do any of the following:
- (1) Engage in targeted advertising on the operator’s site, service, or application; or target advertising on any other site, service, or application, if the targeting of the advertising is based on any information, including covered information and persistent unique identifiers that the operator has acquired because of the use of that operator’s site, service, or application for K-12 school purposes;

 - (3) Sell or rent a student’s information, including covered information. This paragraph does not apply to the purchase, merger, or other type of acquisition of an operator by another entity if the operator or successor entity complies with this section regarding previously acquired student information; or
 - (4) Except as otherwise provided in subsection (c), disclose covered information unless the disclosure is made for the following purposes:

- (A) In furtherance of the K-12 school purpose of the site, service, or application, if the recipient of the covered information disclosed under this subsection does not further disclose the information unless done to allow or improve operability and functionality of the operator's site, service, or application;

- (F) To provide to a third party, if the operator contractually prohibits the third party from using any covered information for any purpose other than providing the contracted service to or on behalf of the operator, prohibits the third party from disclosing any covered information provided by the operator with subsequent third parties, and requires the third party to implement and maintain reasonable security procedures and practices.

Nothing in this section shall prohibit the operator's use of information for the purposes of maintaining, developing, supporting, improving, or diagnosing the operator's site, service, or application.

(b) An operator shall:

- (2) Delete within a reasonable time period a student's covered information if the K-12 school or complex requests deletion of covered information under the control of the K-12 school or complex, unless a student or a student's parent or guardian consents to the maintenance of the covered information.

(c) An operator may use or disclose covered information of a student under the following circumstances:

- (1) If other provisions of federal or state law require the operator to disclose the information and the operator complies with the requirements of federal and state law in protecting and disclosing that information;
- (2) For legitimate research purposes as required by state or federal law and subject to the restrictions under applicable state and federal law or as allowed by state or federal law and under the direction of a K-12 school, complex, or the department, if covered information is not used for advertising or to amass a profile on the student for purposes other than K-12 school purposes; or
- (3) To a state or local educational agency, including K-12 schools and complexes, for K-12 school purposes, as permitted by state or federal law.

(d) This section shall not prohibit an operator from doing any of the following:

 - (B) Additional services relating to an educational, other learning, or employment opportunity purpose within an online site, service, or application if the recommendation is not determined in whole or in part by payment or other consideration from a third party; or
 - (C) Responding to a student's request for information or for feedback without the information or response being determined in whole or in part by payment or other consideration from a third party.
 - (e) This section shall not:
 - (1) Limit the authority of a law enforcement agency to obtain any content or information from an operator as authorized by law or under a court order;
 - (2) Limit the ability of an operator to use student data, including covered information, for adaptive learning or customized student learning purposes;
 - (3) Apply to general audience websites, general audience online services, general audience online applications, or general audience mobile applications, even if login credentials created for an operator's site, service, or application may be used to access those general audience sites, services, or applications;
 - (4) Limit service providers from providing internet connectivity to schools or students and their families;
 - (5) Prohibit an operator of a website, online service, online application, or mobile application from marketing educational products directly to parents or guardians if the marketing did not result from the use of covered information obtained by the operator by providing services covered under this section;
 - (6) Impose a duty upon a provider of an electronic store, gateway, marketplace, or other means of purchasing or downloading software or applications to review or enforce compliance with this section on those applications or software;
 - (7) Impose a duty upon a provider of an interactive computer service to review or enforce compliance with this section by third-party content providers; or
 - (8) Prohibit students from downloading, exporting, transferring, saving, or maintaining their own student data or documents."

S.B. NO. 2565

A Bill for an Act Relating to the Hawaii Public Housing Authority.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to repeal the authority of the Hawaii public housing authority to sell rental units.

More specifically, this Act repeals the state housing sales program. Under the program, the authority may sell units in its projects to tenants under certain conditions.

The legislature finds that state public housing units should not be sold, but should remain under authority ownership for rental to low-income tenants, which is a major immediate public need in Hawaii today. The legislature further finds that the repeal of the housing sales program may eliminate any diversion of the authority's attention from its core mission, which is providing affordable rental housing to low-income tenants.

SECTION 2. Chapter 356D, part IX, Hawaii Revised Statutes, is repealed.

SECTION 3. This Act shall take effect on July 1, 2016.
(Approved April 29, 2016.)

ACT 44

S.B. NO. 2383

A Bill for an Act Relating to the Hawaii Health Connector.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the federal Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) requires states to establish health insurance exchanges to connect buyers and sellers of health and dental insurance and facilitate the purchase and sale of federally qualified health insurance plans and qualified dental plans. Hawaii's health insurance exchange, known as the Hawaii health connector (Connector), was established in 2011 and charged with implementing applicable parts of the Affordable Care Act.

The legislature further finds that:

- (1) Due to Hawaii's small population, the highly successful Hawaii Prepaid Health Care Act of 1974 (Prepaid Health Care Act), and expanded medicaid coverage that resulted in lower numbers of uninsured residents in the State; and
- (2) Despite substantial federal investment in technology and assistance, the efforts of the board of directors and the staff of the Connector, work contributed by public sector employees, and the support of the legislature,

the Connector was unable to meet the financial sustainability requirements imposed by the federal government.

In June 2015, the federal Department of Health and Human Services determined that Hawaii was not in compliance with certain provisions of the Affordable Care Act. The governor, state cabinet officials, and Connector leadership agreed to accelerate the transition of the Connector's authority to the State in November 2015. The legislature notes that this transition was in the best interests of Hawaii residents, as the State had already begun the transition into

the federal marketplace for the enrollment period slated to last through January 1, 2016. The Connector officially ceased operations in December 2015.

The legislature recognizes that some of the challenges faced by the Connector can be attributed to the overwhelming success of the State's Prepaid Health Care Act, which has defined employer-sponsored health insurance in Hawaii and fundamentally shaped Hawaii's health insurance marketplace for over forty years. The Prepaid Health Care Act was the first law of its kind in the nation and requires nearly all employers to provide a uniformly high level of coverage for their employees. Under the Prepaid Health Care Act, employees who work at least twenty hours a week must be offered employer-sponsored health insurance and cannot be required to pay more than 1.5 per cent of their wages for employee-only coverage. Furthermore, employer-based coverage under the Prepaid Health Care Act is robust and provides significantly better benefits than those required under the Affordable Care Act.

The legislature additionally finds that the Prepaid Health Care Act's long history of mandated health care coverage has resulted in a rate of uninsured individuals that is among the lowest in the nation. The uninsured rate in Hawaii has historically fallen between five and seven per cent, with a recent analysis putting the current percentage of uninsured residents at 5.3 per cent. However, the tremendous success of the Prepaid Health Care Act also created challenges for the Connector. Given Hawaii's small population, small insurance marketplace, and historically low uninsured rate, implementing a state-run exchange that could maintain financial sustainability was difficult. Overall, the State lacked the high population and high percentage of uninsured individuals needed to ensure the long-term sustainability of the Connector.

The legislature notes that although the state-based exchange model did not end up working in Hawaii's unique marketplace, the Connector was successful in reaching many previously uninsured individuals. Furthermore, Hawaii residents will still have the opportunity to access affordable health care coverage through the federally supported, state-based exchange, similar to those in Oregon, Nevada, and New Mexico. The legislature also notes that the State has been working with the federal government to provide a new framework for marketplace enrollment that will comply with federal requirements. This successor program to the Connector will be established in a separate measure currently moving through the legislative process.

Finally, the legislature acknowledges and appreciates the work of the board of directors and the staff of the Connector and notes that neither the board nor the Connector staff are responsible for the ultimate repeal of the Connector.

Accordingly, due to the Connector ceasing operations and the transition to a federally supported, state-based exchange, the purpose of this Act is to:

- (1) Repeal the Connector and update an associated reference to the Connector within the Hawaii Revised Statutes;
- (2) Specify that any debts and liabilities pertaining to the Connector that were incurred prior to its repeal shall not constitute a debt or liability of the State; and
- (3) Specify that the provisions in this Act shall not diminish or limit the consumer protections contained in or alter the provisions of the Prepaid Health Care Act.

SECTION 2. Section 432F-2, Hawaii Revised Statutes, is amended by amending subsection (d) to read as follows:

“(d) To enable the commissioner to determine the network adequacy for qualified health plans to be listed [~~with the Hawaii health connector under see-~~

ACT 45

~~tion 435H-11,] on the federal Patient Protection and Affordable Care Act marketplace.~~ the commissioner may request that a managed care plan demonstrate the adequacy of its provider network at the time that it files its health plan benefit document with the commissioner.”

SECTION 3. Chapter 435H, Hawaii Revised Statutes, is repealed.

SECTION 4. Notwithstanding the repeal in section 3 of this Act of chapter 435H, Hawaii Revised Statutes, enacted as Act 205, Session Laws of Hawaii 2011, and amended by Act 233, Session Laws of Hawaii 2014:

- (1) The debts and liabilities incurred by the Hawaii health connector remain the debts and liabilities of the Hawaii health connector and do not constitute the debts and liabilities of the State; nor is the State responsible for the financial operations or solvency of the Hawaii health connector; and
- (2) Nothing in this Act shall in any manner diminish or limit the consumer protections contained in or alter the provisions of chapter 393, Hawaii Revised Statutes.

SECTION 5. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 6. This Act shall take effect upon its approval.

A Bill for an Act Relating to Jury Duty.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature recognizes that breastfeeding benefits both mothers and children. The American Academy of Pediatrics supports evidence that breastfeeding protects against a variety of diseases and conditions in infants, including bacteremia, diarrhea, respiratory and urinary tract infections, type 1 and type 2 diabetes, lymphoma, leukemia, and childhood obesity. There are also maternal health benefits to breastfeeding, such as decreased postpartum bleeding and more rapid uterine involution, decreased menstrual blood loss, and decreased risk of breast and ovarian cancers. The societal benefits of breastfeeding include lower health insurance costs and higher worker productivity.

The American Academy of Pediatrics recommends that a child breastfeed exclusively for about six months, with continuation of breastfeeding for one year or longer as mutually desired by mother and infant; the World Health Organization and the Institute of Medicine concur with this recommendation.

According to the federal Centers for Disease Control and Prevention’s 2014 Breastfeeding Report Card, seventy-nine per cent of newborn infants in the United States start out breastfeeding. However, breastfeeding rates fell to forty-nine per cent at six months and twenty-seven per cent at twelve months. In Hawaii, only 26.4 per cent of babies are exclusively breastfeeding at six months, as recommended by the American Academy of Pediatrics.

The legislature finds that jury duty may create a hardship for mothers who breastfeed their children because the mother-child separation creates a serious challenge to continued breastfeeding. Furthermore, some women who are called to serve jury duty may not have ready access to the proper pump and supplies that are needed to express breast milk. An exemption from jury duty

for a breastfeeding mother can have a positive impact on the preservation of the breastfeeding relationship between a mother and her child and would also enable a woman to serve jury duty at a later time. The legislature further finds that a woman should not have to worry about her ability to breastfeed while serving on a jury.

The legislature additionally finds that, according to the National Conference of State Legislatures, seventeen states exempt breastfeeding mothers from jury duty or allow jury service to be postponed.

The purpose of this Act is to meet the health needs of Hawaii's mothers and babies by exempting from jury duty mothers who breastfeed or express breast milk; provided that this exemption shall continue for a period of two years from the birth of the child.

SECTION 2. Section 612-6, Hawaii Revised Statutes, is amended to read as follows:

"§612-6 Exempt when. A person may claim exemption from service as a juror if the person is:

- (1) An elected official while the legislature is in session, or a judge of the United States, State, or county;
- (2) An actively practicing physician or dentist;
- (3) A member of the armed forces or militia when on active service and deployed out-of-state;
- (4) An active member of a police or fire department;
- (5) A person who has served as a juror, either in a court of this State or the United States District Court for the District of Hawaii, within one year preceding the time of filling out the juror qualification form;
- (6) An active member of an emergency medical services agency;
- (7) A person living more than seventy miles from the court for which jury service is required; ~~[or]~~
- (8) A person eighty years of age or older~~[-];~~ or
- (9) A woman who is breastfeeding a child or expressing breast milk for a period of two years from the birth of the child.

For purposes of this section, "emergency medical services agency" means any government agency, private agency, or company that provides ambulance services, emergency medical services, or disaster medical services."

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect on March 1, 2017.

ACT 47

S.B. NO. 3126

A Bill for an Act Relating to Public Schools.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. This Act is recommended by the governor for immediate passage in accordance with section 9 of article VII of the Constitution of the State of Hawaii.

SECTION 2. There is a need to install air conditioning and other heat abatement equipment in public school classrooms to preserve and promote the health and safety of students and teachers, and to foster a better and more comfortable and productive learning environment. With the current El Nino conditions, high temperatures in classrooms during the summer months will be a continuing problem that must be addressed. In order to keep the costs of operating air conditioning and heat abatement equipment in the classrooms affordable and to reduce dependence on imported fossil fuels, energy efficient lighting and other energy efficiency measures will also be necessary in conjunction with the air conditioning and other heat abatement measures.

The legislature finds that the funding is immediately available to provide air conditioning and other heat abatement measures for the public schools. On January 7, 2016, the department of budget and finance reported to the council on revenues that the State will receive approximately \$170,000,000 of increased reimbursements from the federal government, primarily for medicaid. The \$170,000,000 increased reimbursement was not anticipated by the administration when it prepared the executive supplemental budget request for fiscal year 2016-2017. The reimbursement is the realization of the general fund.

The legislature further finds that the use of general funds for providing air conditioning and heat abatement for public schools is preferable to using green infrastructure loan funds. First, the department of education will have more flexibility in using general funds for air conditioning and heat abatement measures. The types of projects that the department of education would have been able to fund with green infrastructure loan funds were unclear and apparently limited to energy efficiency and conservation projects. Second, using general funds instead of green infrastructure loan funds precludes the need for annual debt service payments. Taxpayers who already are paying a monthly green infrastructure fee on their electricity bills will benefit by not having to pay back the green infrastructure fund for principal as well as interest. Third, the green infrastructure loan funds will remain available for projects that truly promote renewable energy and energy efficiency and conservation. Using the green infrastructure loan funds for utility-scale projects, as recommended by the consumer advocate before the public utilities commission, may be a possibility in the future.

The purpose of this Act is to appropriate general funds for the installation of and equipment for air conditioning, heat abatement, energy efficient lighting, and other energy efficiency measures for schools of the department of education.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$100,000,000 or so much thereof as may be necessary for fiscal year 2015-2016 for the purpose of funding capital improvement program equipment and installation costs for air conditioning, other heat abatement measures, energy efficient lighting, and other energy efficiency measures at public schools.

The sum appropriated shall be expended by the department of education for the purposes of this Act.

SECTION 4. The appropriation made under section 3 shall not lapse at the end of the fiscal year for which the appropriations are made; provided that all moneys from the appropriation unencumbered as of June 30, 2018, shall lapse as of that date.

SECTION 5. This Act shall take effect upon its approval.

(Approved May 5, 2016.)

(b) The court shall give priority to contested case appeals of significant statewide importance over all other civil or administrative appeals or matters and shall decide these appeals as expeditiously as possible."

SECTION 5. Section 91-14, Hawaii Revised Statutes, is amended to read as follows:

"§91-14 Judicial review of contested cases. (a) Any person aggrieved by a final decision and order in a contested case or by a preliminary ruling of the nature that deferral of review pending entry of a subsequent final decision would deprive appellant of adequate relief is entitled to judicial review thereof under this chapter; but nothing in this section shall be deemed to prevent resort to other means of review, redress, relief, or trial de novo, including the right of trial by jury, provided by law. Notwithstanding any other provision of this chapter to the contrary, for the purposes of this section, the term "person aggrieved" shall include an agency that is a party to a contested case proceeding before that agency or another agency.

(b) Except as otherwise provided herein, proceedings for review shall be instituted in the circuit court or, if applicable, the environmental court, within thirty days after the preliminary ruling or within thirty days after service of the certified copy of the final decision and order of the agency pursuant to rule of court, except where a statute provides for a direct appeal to the supreme court or the intermediate appellate court, subject to chapter 602. In such cases, the appeal shall be treated in the same manner as an appeal from the circuit court to the supreme court or the intermediate appellate court, including payment of the fee prescribed by section 607-5 for filing the notice of appeal (except in cases appealed under sections 11-51 and 40-91). The court in its discretion may permit other interested persons to intervene.

(c) The proceedings for review shall not stay enforcement of the agency decisions or the confirmation of any fine as a judgment pursuant to section 92-17(g); but the reviewing court may order a stay if the following criteria have been met:

- (1) There is likelihood that the subject person will prevail on the merits of an appeal from the administrative proceeding to the court;
 - (2) Irreparable damage to the subject person will result if a stay is not ordered;
 - (3) No irreparable damage to the public will result from the stay order; and
 - (4) Public interest will be served by the stay order.
- (d) Within twenty days after the determination of the contents of the record on appeal in the manner provided by the rules of court, or within such further time as the court may allow, the agency shall transmit to the reviewing court the record of the proceeding under review. The court may require or permit subsequent corrections or additions to the record when deemed desirable.
- (e) If, before the date set for hearing, application is made to the court for leave to present additional evidence material to the issue in the case, and it is shown to the satisfaction of the court that the additional evidence is material and that there were good reasons for failure to present it in the proceeding before the agency, the court may order that the additional evidence be taken before the agency upon such conditions as the court deems proper. The agency may modify its findings, decision, and order by reason of the additional evidence and shall file with the reviewing court, to become a part of the record, the additional evidence, together with any modifications or new findings or decision.
- (f) The review shall be conducted by the appropriate court without a jury and shall be confined to the record, except that in the cases where a trial de novo, including trial by jury, is provided by law and also in cases of alleged irregularities in procedure before the agency not shown in the record, testimony thereon may be taken in court. The court ~~shall~~, upon request by any party, ~~hear oral arguments and~~ shall receive written briefs~~[-]~~ and, at the court's discretion, may hear oral arguments.
- (g) Upon review of the record, the court may affirm the decision of the agency or remand the case with instructions for further proceedings; or it may reverse or modify the decision and order if the substantial rights of the petitioners may have been prejudiced because the administrative findings, conclusions, decisions, or orders are:
- (1) In violation of constitutional or statutory provisions; ~~or~~
 - (2) In excess of the statutory authority or jurisdiction of the agency; ~~or~~
 - (3) Made upon unlawful procedure; ~~or~~
 - (4) Affected by other error of law; ~~or~~
 - (5) Clearly erroneous in view of the reliable, probative, and substantial evidence on the whole record; or
 - (6) Arbitrary, or capricious, or characterized by abuse of discretion or clearly unwarranted exercise of discretion.
- (h) Upon a trial de novo, including a trial by jury as provided by law, the court shall transmit to the agency its decision and order with instructions to comply with the order.
- (i) Where a court remands a matter to an agency for the purpose of conducting a contested case hearing, the court may reserve jurisdiction and appoint a master or monitor to ensure compliance with its orders.
- (j) The court shall give priority to contested case appeals of significant statewide importance over all other civil or administrative appeals or matters and shall decide these appeals as expeditiously as possible."

SECTION 6. Section 174C-12, Hawaii Revised Statutes, is amended to read as follows:

“[§174C-12] Judicial review of rules and orders of the commission concerning the water code. [Judicial] Except as otherwise provided in this chapter, judicial review of rules and orders of the commission under this chapter shall be governed by chapter 91. The appearance of the commission as a party in appellate proceedings in no way limits the participation of persons otherwise qualified to be parties on appeal. SECTION 11. The judiciary shall submit a report to the legislature of its findings and recommendations regarding the change in judicial proceedings made by this Act, including any proposed legislation, to the legislature no later than twenty days prior to the convening of the regular session of 2019.

SECTION 12. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 13. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 14. ACT 60

S.B. NO. 2330

A Bill for an Act Relating to the Hospital Sustainability Program.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that hospitals in the State face major financial challenges in providing quality health care for Hawaii residents. These challenges are largely the result of inadequate payments from the medicaid program that do not cover the actual costs of care. Medicaid is jointly financed by the federal and state government but, by statutory formula, the federal government only pays between fifty per cent and seventy-four per cent of medicaid costs incurred by states for care delivered to their medicaid beneficiaries. Federal assistance percentages vary by state, with states that have lower per capita incomes receiving higher federal matching rates. Under federal rules, the state share must be public funds that are not federal funds. The legislature finds that federal funding to help sustain Hawaii's hospitals financially may be accessed through a provider fee.

The legislature further finds that provider fees exist in forty-nine states and the District of Columbia as a means of drawing down federal funds to sustain their medicaid programs due to rising state budget deficits, increasing health care costs, and expanding medicaid enrollment. Provider fees, which are collected from specific categories of health care providers that agree to the fee, may be imposed on nineteen different classes of health care services, including inpatient and outpatient hospital and nursing facility services.

The legislature additionally finds that, in Hawaii, a provider fee on hospitals has resulted in an increase of medicaid payments at a time when there are constraints on the State's budget. The additional federal funds obtained via the fee program authorized by the hospital sustainability program has helped to reduce the amount of losses incurred by hospitals and slow the erosion of access to care for medicaid recipients. The purpose of this Act is to preserve access to health care for medicaid recipients by extending the hospital sustainability fee program.

SECTION 2. Act 217, Session Laws of Hawaii 2012, section 2, as amended by section 1 of Act 141, Session Laws of Hawaii 2013, as amended by section 1 of Act 123, Session Laws of Hawaii 2014, as amended by section 1 of Act 70, Session Laws of Hawaii 2015, is amended as follows:

1. By amending the definitions of "net patient service revenue" and "private hospital" in § -3, Hawaii Revised Statutes, to read:

"Net patient service revenue" means gross revenue from inpatient and outpatient care provided to hospital patients converted to net patient revenue utilizing data from Worksheets G-2 and G-3 of each hospital's medicare cost report for fiscal year [2012-2013.] 2013-2014. If the hospital is new or did not file a fiscal year medicare cost report, the department shall obtain the hospital's net patient service revenue from the most recent period available.

"Private hospital" means those non-public hospitals named in attachment A of the medicaid section 1115 demonstration waiver that were in operation in calendar year [2014] 2015 and are currently operating[.] or any hospitals

not named in attachment A of the medicaid section 1115 demonstration waiver that became private hospitals in calendar year 2016 and are currently operating.”

2. By amending subsection (c) of § -4, Hawaii Revised Statutes, to read:

“(c) Moneys in the hospital sustainability program special fund shall be used exclusively as follows:

- (1) ~~[To make direct supplemental uncompensated care and upper payment limit payments to private hospitals pursuant to the terms of the section 1115 waiver. At least eighty-eight per cent of the moneys in the special fund shall be used for this purpose, provided that in no instance shall a hospital receive supplemental payments that exceed its allowable uncompensated care costs;]~~ No less than eighty-eight per cent of the revenue from the hospital sustainability fee shall be used for one or more of the following:
 - (A) Match federal medicaid funds, with the combined total to be used to enhance capitated rates to medicaid managed care health plans for the sole purpose of increasing medicaid payments to private hospitals;
 - (B) Match federal medicaid funds for Hawaii’s medicaid disproportionate share hospital allotment as authorized by current federal law for private hospitals;
 - (C) Match federal medicaid funds for a private hospital upper payment limit pool; or
 - (D) Match federal medicaid funds with the combined total to be used to enhance capitated rates to medicaid managed care health plans for the purpose of increasing medicaid payments to private hospitals through a quality incentive pool;
 - (2) Twelve per cent of the moneys in the hospital sustainability program special fund may be used by the department for other departmental purposes; and
 - (3) Any money remaining in the hospital sustainability program special fund six months after the repeal of this chapter, shall be distributed to hospitals within thirty days in the same proportions as received from the hospitals.”
3. By amending § -5, Hawaii Revised Statutes, to read:

“§ -5 **Hospital sustainability fee.** (a) Effective July 1, 2012, or, if later, the effective date of any necessary federal approvals, the department shall charge and collect provider fees, to be known as the hospital sustainability fee, on inpatient and outpatient care services provided by private hospitals.

(c) The hospital sustainability fee for inpatient care services may differ from the fee for outpatient care services but the fees shall not in the aggregate exceed three per cent of net patient service revenue as derived from the hospital’s medicare cost report ending during state fiscal year ~~[2012-2013.]~~ 2013-2014. The inpatient hospital sustainability fee shall ~~[be 1.892]~~ not exceed three per cent of net inpatient hospital service revenue. (d) The department shall exempt children’s hospitals, federal hospitals, public hospitals, ~~[rehabilitation hospitals;]~~ and psychiatric hospitals~~[- and any hospital that was not in private operation during any part of calendar year~~

(e) The department, with agreement by the hospital trade association located in Hawaii, may modify the structure of the hospital sustainability program if such modification is necessary to obtain federal waiver approval consistent with the requirements of 42 Code of Federal Regulations section 433.68(e)(2).

(f) Notwithstanding section -6, nothing shall require the department to exempt a facility from the hospital sustainability fee if it is not approved by the United States Department of Health and Human Services Centers for Medicare and Medicaid Services."

4. By amending § -6, Hawaii Revised Statutes, to read:

"§ -6 Hospital sustainability fee assessments. (a) Hospitals shall pay the hospital sustainability fee to the department in accordance with this chapter. The fee shall be divided and paid in ~~[four]~~ twelve equal installments on a ~~[quarterly]~~ monthly basis.

(b) The department shall collect, and each hospital shall pay, the hospital sustainability fee not later than the ~~[fifteenth]~~ thirtieth day after the end of each calendar ~~[quarter,]~~ month; provided that if required federal approvals have not been secured by the end of a calendar ~~[quarter]~~ month the fees for that ~~[quarter]~~ month shall be paid within ten days after notification to the hospitals that the required approvals have been received."

ACT 64

S.B. NO. 2555

A Bill for an Act Relating to State Funds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address state funds.

The legislature finds that article VII, section 6, of the Constitution of the State of Hawaii requires the legislature to provide, when certain conditions occur, a tax refund or tax credit to state taxpayers or make a deposit into one or more funds, as provided by law, to serve as a reserve for the State. The conditions are that the state general fund balances at the end of two successive fiscal years exceed five per cent of the state general revenues for those fiscal years.

The legislature finds that the state general fund balances at the end of fiscal years 2013-2014 and 2014-2015 exceeded five per cent of the state general revenues for those fiscal years. The legislature recognized in Act 202, Session Laws of Hawaii 2015, that although the emergency and budget reserve fund balance exceeded the statutory maximum established in section 328L-3(a)(3), the fiscally prudent course of action was to deposit the excess general revenue fund balance into the emergency and budget reserve fund as a bulwark against future fiscal downturns. Therefore, the legislature exercised its constitutional legislative powers to waive the statutory ceiling on the emergency and budget reserve fund and, as provided by law, deposit the excess general fund revenues into the emergency and budget reserve fund to "serve as a¹ temporary supplemental sources of

funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue” in accordance with article VII, section 6.

The legislature finds that the best course of action during the regular session of 2016 is to make a deposit into the emergency and budget reserve fund instead of providing a tax refund or credit. The legislature finds it preferable to increase the reserve fund at present to address possible emergencies and contingencies that may occur in the future when state revenues slow down.

SECTION 2. Notwithstanding any law to the contrary, for fiscal year 2015-2016, the director of finance shall transfer to the emergency and budget reserve fund the total sum of the tax credit or tax refund as determined by the legislature pursuant to the provisions of article VII, section 6, of the Hawaii Constitution.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,000,000 or so much thereof as may be necessary for fiscal year 2015-2016 to be deposited into the emergency and budget reserve fund by the director of finance.

SECTION 4. This Act shall take effect upon its approval.

ACT 68

S.B. NO. 2392

A Bill for an Act Relating to Opioid Antagonists.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that drug overdose deaths in the United States have more than doubled since 1999. According to the most recent data from the federal Centers for Disease Control and Prevention, in 2013, more than 16,000 deaths associated with opioid pain relievers were reported. Deaths involving heroin have also doubled in recent years, with more than 8,000 deaths reported in 2013. According to the Centers for Disease Control and Prevention, overdoses involving prescription painkillers are at epidemic levels. However, deaths caused by opioids are often preventable via timely administration of an opioid antagonist, such as naloxone hydrochloride. Studies have found that providing opioid overdose training and naloxone kits can help people identify signs of an opioid-related drug overdose and can help reduce opioid overdose mortality.

The legislature further finds that opioid antagonist use has been approved by the federal Food and Drug Administration and used for more than forty years by emergency medical services personnel to reverse opioid overdose. Opioid antagonists have no psychoactive effects and do not have any potential for abuse, and first responders and family members with no medical training can learn to administer them safely. Furthermore, research has shown that the increased availability of opioid antagonists does not encourage people to use more drugs or engage in riskier behavior.

The legislature additionally finds that over half of the states in the country have enacted some form of a 911 drug immunity law or have implemented a law or developed a pilot program to allow administration of medication, like opioid antagonists, to reverse the effects of an opioid-related overdose. Numerous state and national organizations also support increased access to naloxone hydrochloride, including but not limited to the American Public Health Association, American Medical Association, American Pharmacists Association, Harm Reduction Coalition, American Society of Addiction Medicine, National Governors Association, law enforcement organizations, and organizations representing first responders.

Accordingly, the purpose of this Act is to:

- (1) Create immunity for health care professionals and pharmacists who prescribe, dispense, distribute, or administer an opioid antagonist such as naloxone hydrochloride to persons who are at risk of experiencing or who are experiencing an opioid-related drug overdose;
- (2) Create immunity for any person who administers an opioid antagonist to a person suffering from an opioid-related drug overdose;

- (3) Authorize emergency personnel and first responders to administer opioid antagonists;
- (4) Require medicaid coverage for opioid antagonists; and
- (5) Allow harm reduction organizations to store and distribute opioid antagonists.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
OVERDOSE PREVENTION AND EMERGENCY RESPONSE ACT**

§ -1 **Definitions.** The following definitions apply throughout this chapter:

“Pharmacist” means a registered pharmacist as defined in chapter 461.

“Standing order” means a prescription order for an opioid antagonist issued by a health care professional who is otherwise authorized to prescribe an opioid antagonist that is not specific to and does not identify a particular patient and which may be applicable to more than one patient.

Any such prescribing, dispensing, or distributing of an opioid antagonist pursuant to this chapter shall be regarded as being for a legitimate medical purpose in the usual course of professional practice.

(b) A health care professional or pharmacist who, acting in good faith and with reasonable care, prescribes, dispenses, or distributes an opioid antagonist pursuant to this chapter shall not be subject to any criminal or civil liability or any professional disciplinary action for:

§ -3 Opioid antagonist administration; emergency personnel and first responders. Beginning on January 1, 2017, every emergency medical technician licensed and registered in Hawaii and all law enforcement officers, firefighters, and lifeguards shall be authorized to administer an opioid antagonist as clinically indicated.

§ -4 Medicaid coverage. The department of human services shall ensure that opioid antagonists for outpatient use are covered by the medicaid prescription drug program on the same basis as other covered drugs.

§ -5 Harm reduction organization; opioid antagonist; exemption. Notwithstanding any other law or regulation to the contrary, a person or harm reduction organization acting under a standing order may store an opioid antagonist without being subject to chapter 328, except part VII, and may distribute an opioid antagonist; provided that the distribution is done without charge or compensation.

§ -6 Unintentional opioid-related drug overdose; reporting. The department of health shall ascertain, document, and publish an annual report on the number of, trends in, patterns in, and risk factors related to unintentional opioid-related drug overdose fatalities occurring each year within the State. The report shall provide information on interventions that would be effective in reducing the rate of fatal or nonfatal drug overdose.

§ -7 Opioid-related drug overdose recognition, prevention, and response. The department of health shall work with community partners to provide or establish any of the following:

- (1) Education on opioid-related drug overdose prevention, recognition, and response, including opioid antagonist administration;
- (2) Training on opioid-related drug overdose prevention, recognition, and response, including opioid antagonist administration, for patients receiving opioids and their families and caregivers;
- (3) Opioid antagonist prescription and distribution projects; and
- (4) Education and training projects on opioid-related drug overdose response and treatment, including opioid antagonist administration, for emergency services and law enforcement personnel, including volunteer firefighters, lifeguards, and emergency services personnel.”

ACT 70

H.B. NO. 2722

A Bill for an Act Relating to Unemployment.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that a number of large employers, including the State’s last large-scale sugar operation, recently announced mass layoffs in Maui county. During the first four months of 2016, the department of labor and industrial relations received, via dislocated worker notices pursuant to chapter 394B, Hawaii Revised Statutes, notification of 2,808 workers either losing or potentially losing jobs. These workers represent approximately 3.5 per cent of the 82,550 employed persons in Maui county during February 2016.

The legislature further finds that it may be difficult for a large number of these workers to find work quickly because their occupational skills are not suitable for the current job market on Maui, especially those workers with agricultural and medical skills.

The purpose of this Act is to create a temporary program limited to Maui county to provide additional benefits to unemployed workers by extending unemployment insurance benefits. The funds for state additional benefits payable under this Act shall be withdrawn from the unemployment compensation trust fund pursuant to sections 383-121 to 383-123, Hawaii Revised Statutes. If necessary, additional moneys may be allocated from the state general fund and used for the payment of expenses incurred for the administration of state additional benefits.

SECTION 2. For the purpose of this Act:

“Base period” shall be defined as in section 383-1, Hawaii Revised Statutes.

“Benefit year” shall be defined as in section 383-1, Hawaii Revised Statutes.

“Continued claim certification” means an application that certifies the completion of a week of total, part-total, or partial unemployment to claim benefits for a week of unemployment as described in the definition of “continued claim certification” in section 12-5-73, Hawaii Administrative Rules.

“Initial claim” includes a new claim, an additional claim, or a reopened claim as defined in section 12-5-73, Hawaii Administrative Rules.

“Regular benefits” means the unemployment insurance benefits paid on an initial claim filed under chapter 383, Hawaii Revised Statutes, except as provided for in sections 383-168 through 383-176, Hawaii Revised Statutes.

“State additional benefits” means the unemployment compensation benefits payable under this Act.

“State additional benefits eligibility period” means the period beginning on September 4, 2016, and ending on October 28, 2017.

“Week of unemployment” shall be defined as in section 383-1, Hawaii Revised Statutes.

SECTION 3. An individual shall be eligible to receive a payment of state additional benefits with respect to a week of unemployment in accordance with this Act; provided that:

- (1) The benefit year for the most recent initial claim filed by the individual begins on or after March 1, 2015;
- (2) The individual had at least two quarters of insured employment in Maui county during the base period of the initial claim filed under (1);
- (3) The individual exhausted regular benefits under chapter 383, Hawaii Revised Statutes, within the state additional benefits eligibility period;
- (4) The individual filed an initial claim and filed continued claim certifications for state additional benefits during the state additional benefits eligibility period;
- (5) The week of unemployment falls within the state additional benefits eligibility period;
- (6) The individual is not receiving unemployment benefits under federal law or the laws of any other state, or any federal or federal-state extended benefits program or adjustment assistance under chapter 2 of title II of the Trade Act of 1974, as amended, during the same weeks within the state additional benefits eligibility period for which state additional benefits are claimed; and
- (7) The individual has met all other conditions of eligibility that apply to regular benefits under chapter 383, Hawaii Revised Statutes, except that no individual shall be required to serve a waiting period in the state additional benefits eligibility period.

SECTION 4. (a) The weekly state additional benefits amount payable to an eligible individual for a week of total unemployment within the state additional benefits eligibility period shall be an amount equal to the weekly benefit amount payable in the individual’s current or most recently expired benefit year within the state additional benefits eligibility period.

(b) The maximum state additional benefits amount payable to any eligible individual during the state additional benefits eligibility period shall be thirteen times the individual’s weekly state additional benefits amount.

(c) No state additional benefits shall be payable for any week beginning prior to the state additional benefits eligibility period or for any week beginning after the state additional benefits eligibility period ends.

SECTION 5. State additional benefits paid to an individual shall be charged against the account of any of the individual’s base period employers in the same manner as regular benefits were charged on the individual’s current or

most recently expired benefit year within the state additional benefits eligibility period, and consistent with section 383-65, Hawaii Revised Statutes.

SECTION 6. Except when the result would be inconsistent with this Act, the provisions of chapter 383, Hawaii Revised Statutes, which apply to claims for, or the payment of, regular benefits shall apply to claims for, and the payment of, state additional benefits.

SECTION 7. No provision contained in this Act shall apply when the balance of the unemployment compensation trust fund is below the adequate reserve fund defined by section 383-63, Hawaii Revised Statutes.

SECTION 8. No provision contained in this Act shall apply to the payment of state additional benefits if the provision conflicts with federal statutes and jeopardizes the receipt of federal administrative funding and certification for the federal Unemployment Tax Act employer tax offset credit.

If any provision in this Act jeopardizes the receipt of federal funds, the governor is authorized to revise any provision of this Act to the extent required to maximize the receipt of federal funds. The governor shall promptly report any revision and reasons therefor to the legislature at the next legislative session thereafter.

SECTION 9. There is appropriated out of the general revenues of the State of Hawaii the sum of \$650,000 or so much thereof as may be necessary for fiscal year 2016-2017 to carry out the purposes of this Act.

The sum appropriated shall be expended by the department of labor and industrial relations for the purposes of this Act.

SECTION 10. This Act shall take effect upon its approval and shall be repealed on October 28, 2017; provided that section 9 shall take effect on July 1, 2016.

(Approved June 17, 2016.)

ACT 71

H.B. NO. 2605

A Bill for an Act Relating to Labor.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the closure of Hawaiian Commercial & Sugar Company, the State's last sugar plantation, and Makena Beach and Golf Resort will lead to a loss of over one thousand jobs on Maui. Although some employees of Hawaiian Commercial & Sugar Company will be covered for job training assistance under the recent federal Trade Adjustment Act certification, other dislocated workers will not qualify. As these employees lose their jobs and income, restaurants and stores may see a decrease in customers and sales, families may not be able to pay their mortgages and rent, and students may no longer be able to afford school or college tuitions.

The legislature further finds that in 2014, the United States Department of Labor awarded the State a Job-Driven National Emergency Grant to implement or expand job-driven training programs for dislocated workers including but not limited to opportunities for on-the-job training and apprenticeships. However, these funds are limited and are due to expire on June 30, 2016, there-

by making the funds unavailable for a large group of dislocated workers in the county of Maui, who have diverse training needs.

The purpose of this Act is to address the pending unemployment and dislocation of workers in the county of Maui for whom there are insufficient federal funds, by appropriating funds to establish, administer, and support job training and other activities that assist these workers' transition into other employment.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$850,000 or so much thereof as may be necessary for fiscal year 2016-2017 to establish, administer, and support job training and preparation activities, including but not limited to basic computer literacy, job search assistance, skill assessments, vocational counseling, remedial math and English, English as a second language, vocational training, work experience, on-the-job training, and support services, such as assistance with work tools, safety shoes, and job certification fees for individuals who are dislocated from employment in the county of Maui.

The sum appropriated shall be expended by the department of labor and industrial relations for the purposes of this Act.

SECTION 3. This Act shall take effect on July 1, 2016.

(Approved June 17, 2016.)

ACT 72

H.B. NO. 2034

A Bill for an Act Making an Appropriation to the Kaho'olawe Island Reserve Commission.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Through Act 340, Session Laws of Hawaii 1993, the legislature found that the island of Kaho'olawe was of significant cultural and historic importance to the native people of Hawaii. The legislature also found that, due to extensive erosion and other ecological problems, the presence of unexploded ordnance, the existence of archaeological and other cultural and historic sites, and the presence of native and endangered flora and fauna, a new management regime was needed to effectively meet the unique challenges of restoring, preserving, and determining the appropriate use of Kaho'olawe.

The Kaho'olawe island reserve commission is funded predominantly by a dwindling trust fund created in 1994 during the federal cleanup of unexploded ordnance on Kaho'olawe. Although it was a considerable amount, the federal appropriation totaling approximately \$44,000,000 over a period of several years was not substantial enough to establish a sustainable endowment for the long-term restoration of Kaho'olawe.

As stated in the federally mandated Kaho'olawe island conveyance commission final report to Congress in 1993, "In the short term, federal funds will provide the bulk of the program support for specific soil conservation projects and related activities. In the longer term, however, state revenues will be needed to continue and enhance those activities initiated with federal funds." For the past twenty-one years, federal funding has allowed the Kaho'olawe island reserve commission to establish many innovative programs that emphasize ancestral and traditional knowledge, use a cultural approach of respect for and connectivity to the environment, and integrate ancient and modern resource-management techniques.

In 2004, the management and control of the Kaho'olawe island reserve was transferred from the United States Navy to the State of Hawaii, with the Kaho'olawe island reserve commission as the state agency designated to oversee the use and restoration of the reserve. During the past ten years, the Kaho'olawe island reserve commission has been able to develop innovative restoration projects that are effective in the extremely harsh conditions of Kaho'olawe and will serve as the foundation for the future restoration of the island.

A fiscal audit of the Kaho'olawe rehabilitation trust fund performed by the office of the auditor in 2013 reported two key findings. First, and more importantly, the trust fund will be depleted by 2016. Second, the Kaho'olawe island reserve commission lacks a comprehensive and quantifiable restoration plan with performance measures to gauge whether objectives are being met.

Also in 2013, the Kaho'olawe island reserve commission embarked on the development of a 2026 strategic plan for Kaho'olawe, marking fifty years of occupation of Kaho'olawe by the people of Hawaii and laying out a pathway for the future use and management of the Kaho'olawe island reserve. After a two-year effort that engaged Hawaii's residents through numerous community meetings and focus-group sessions held on multiple occasions on each of the islands, the multi-organizational Kaho'olawe strategic planning working group developed an island-wide, community-based strategic plan, entitled "I Ola Kanaloa", or "Life to Kanaloa", that addresses the future restoration, management, and uses of Kaho'olawe for the State, the people of Hawaii, and a possible future sovereign Native Hawaiian entity. Pursuant to section 6K-9, Hawaii Revised Statutes, the management and control of the Kaho'olawe island reserve will be transferred to a sovereign Native Hawaiian entity upon its recognition by the state and federal governments. This event is anticipated to occur within the time-frame of the 2026 strategic plan.

Without additional funding, the Kaho'olawe island reserve commission will not be able to continue its innovative management regime beyond fiscal year 2016. The Kaho'olawe island reserve commission's management and control of Kaho'olawe is not only restoring the ecological damage on Kaho'olawe and protecting its endangered and rare flora and fauna but is also ensuring that the people of Hawaii who visit the Kaho'olawe island reserve can do so meaningfully and safely.

The purpose of this Act is to provide funds to the Kaho'olawe island reserve commission to effectively meet the unique challenges of restoring, preserving, and determining the appropriate uses of the Kaho'olawe island reserve for the people of Hawaii.

SECTION 2. The Kaho'olawe island reserve commission shall submit a financial self-sufficiency and sustainability plan, including any proposed legislation, to the legislature no later than twenty days prior to the convening of the regular session of 2017.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$450,000 or so much thereof as may be necessary for fiscal year 2016-2017 for projects undertaken by the Kaho'olawe island reserve commission, including but not limited to the restoration and preservation of the natural, cultural, and historic resources of the Kaho'olawe island reserve and its meaningful and safe use by the people of Hawaii.

The sum appropriated shall be expended by the Kaho'olawe island reserve commission for the purposes of this Act.

SECTION 4. This Act shall take effect on July 1, 2016.

(Approved June 17, 2016.)

A Bill for an Act Relating to Records of the Hawaii Health Systems Corporation.
Be It Enacted by the Legislature of the State of Hawaii:

- (1) Applications for credentials or staff privileges at any of the corporation’s medical facilities, records from peer review proceedings, and medical records; and
- (2) Marketing strategies, strategic plans, evaluations, assessments, negotiations, or rates and charges, the disclosure of which would raise the cost of procurement or give a manifestly unfair advantage to any competitor or to any person or entity seeking to do business or proposing to enter into an agreement with a regional system board, the corporation, or any of its facilities.

Any person denied access to any such government records shall have available the remedies specified in sections 92F-15 and 92F-15.5. For medical records subpoenaed from any of the corporation’s regional system facilities, copies shall be paid for by the requester in an amount based on the facility’s actual cost of preparation; provided that the amount shall be no less than \$1 per page and no more than \$2 per page.”

SECTION 2. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 3. New statutory material is underscored.

SECTION 4. This Act shall take effect on July 1, 2016.

(Approved June 20, 2016.)

- (1) A comprehensive description of current and pending federal Occupational Safety and Health Administration rules and regulations pertaining to hoisting machine operators;

ACT 75

H.B. NO. 1543

A Bill for an Act Relating to State Bonds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Declaration of findings with respect to the general obligation bonds authorized by this Act. Pursuant to the clause in Article VII, Section 13 of the State Constitution which states: “Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and inter-

est, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance”, the legislature finds and declares as follows:

- (1) Limitation on general obligation debt. The debt limit of the state is set forth in Article VII, Section 13 of the State Constitution, which states in part: “General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds to exceed: a sum equal to twenty percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance until June 30, 1982; and thereafter, a sum equal to eighteen and one-half percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance.” Article VII, Section 13 also provides that in determining the power of the State to issue general obligation bonds, certain bonds are excludable, including “reimbursable general obligation bonds issued for a public undertaking, improvement or system but only to the extent that reimbursements to the general fund are in fact made from the net revenue, or net user tax receipts, or combination of both, as determined for the immediately preceding fiscal year” and bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor, but only to the extent the principal amount of such bonds does not exceed seven per cent of the principal amount of outstanding general obligation bonds not otherwise excluded under said Article VII, Section 13.
- (2) Actual and estimated debt limits. The limit on principal and interest of general obligation bonds issued by the State, actual for fiscal year 2015-2016 and estimated for each fiscal year from 2016-2017 to 2018-2019, is as follows:

<u>Fiscal Year</u>	<u>Net General Fund Revenues</u>	<u>Debt Limit</u>
2012-2013	\$6,226,008,766	
2013-2014	6,088,589,303	
2014-2015	6,569,327,192	
2015-2016	6,988,943,000	\$ 1,164,508,724
2016-2017	7,178,034,000	1,211,556,336
2017-2018	7,470,646,000	1,278,738,759
2018-2019	(not applicable)	1,334,320,085

For fiscal years 2015-2016, 2016-2017, 2017-2018, and 2018-2019, respectively, the debt limit is derived by multiplying the average of the net general fund revenues for the three preceding fiscal years by eighteen and one-half per cent. The net general fund revenues for fiscal years 2012-2013, 2013-2014, and 2014-2015 are actual, as certified by the director of finance in the Statement of the Debt Limit of the State of Hawaii as of July 1, 2015, dated November 24, 2015. The net general fund revenues for fiscal years 2015-2016 to 2017-2018 are estimates, based on general fund revenue estimates made as of March 14, 2016, by the council on revenues, the body assigned by Article VII, Section 7 of the State Constitution to make such estimates, and based on estimates made by the department of budget

and finance of those receipts which cannot be included as general fund revenues for the purpose of calculating the debt limit, all of which estimates the legislature finds to be reasonable.

- (3) Principal and interest on outstanding bonds applicable to the debt limit.

- (A) According to the department of budget and finance, the total amount of principal and interest on outstanding general obligation bonds, after the exclusions permitted by Article VII, Section 13 of the State Constitution, for determining the power of the State to issue general obligation bonds within the debt limit as of April 1, 2016, is as follows for fiscal year 2016-2017 to fiscal year 2022-2023:

<u>Fiscal Year</u>	<u>Principal and Interest</u>
2016-2017	\$707,019,205
2017-2018	669,611,446
2018-2019	688,618,752
2019-2020	642,793,901
2020-2021	578,519,058
2021-2022	575,562,107
2022-2023	557,199,708

The department of budget and finance further reports that the amount of principal and interest on outstanding bonds applicable to the debt limit generally continues to decline each year from fiscal year 2023-2024 to fiscal year 2035-2036 when the final installment of \$57,750,715 shall be due and payable.

- (B) The department of budget and finance further reports that the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$233,500,000, all or part of which is excludable in determining the power of the State to issue general obligation bonds, pursuant to Article VII, Section 13 of the State Constitution.
- (4) Amount of authorized and unissued general obligation bonds and guaranties and proposed bonds and guaranties.

- (A) As calculated from the state comptroller's bond fund report as of March 31, 2016, adjusted for:

- (i) Appropriations to be funded by general obligation bonds or reimbursable general obligation bonds as provided in Act 119, Session Laws of Hawaii 2015 (the General Appropriations Act of 2015), to be expended in fiscal year 2016-2017, adjusted for additional appropriations provided in House Bill No. 1700, H.D. 1, S.D. 1, C.D. 1¹ (the Supplemental Appropriations Act of 2016); and

- (ii) Lapses as provided in House Bill No. 1700, H.D. 1, S.D. 1, C.D. 1¹ (the Supplemental Appropriations Act of 2016); the total amount of authorized but unissued general obligation bonds is \$2,491,246,627. The total amount of general obligation bonds authorized in this Act is \$967,283,000. The total amount of general obligation bonds previously authorized and unissued, as adjusted, and the general obligation bonds authorized in this Act is \$3,458,529,627.

- (B) As reported by the department of budget and finance the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$233,500,000, all or part of which is excludable in determining the power of the State to issue general obligation bonds, pursuant to Article VII, Section 13 of the State Constitution.
- (5) Proposed general obligation bond issuance. As reported therein for the fiscal years 2016-2017, 2017-2018, and 2018-2019, the State proposes to issue \$600,000,000 in general obligation bonds during the first half of fiscal year 2016-2017, \$525,000,000 in general obligation bonds during the second half of fiscal year 2016-2017, \$600,000,000 in general obligation bonds during the first half of fiscal year 2017-2018, \$600,000,000 in general obligation bonds during the second half of fiscal year 2017-2018, \$600,000,000 in general obligation bonds during the first half of fiscal year 2018-2019, and \$600,000,000 in general obligation bonds during the second half of fiscal year 2018-2019. The State anticipates issuing twenty-year serial bonds with principal repayments beginning in the third year, payable in substantially equal annual installments of principal and interest payment with interest payments commencing six months from the date of issuance and being paid semi-annually thereafter. It is assumed that this practice will continue to be applied to the bonds that are proposed to be issued.
- (6) Sufficiency of proposed general obligation bond issuance to meet the requirements of authorized and unissued bonds, as adjusted, and bonds authorized by this Act. From the schedule reported in paragraph (5), the total amount of general obligation bonds that the State proposes to issue during the fiscal years 2016-2017 to 2017-2018 is \$2,325,000,000. An additional \$1,200,000,000 is proposed to be issued in fiscal year 2018-2019. The total amount of \$2,325,000,000 which is proposed to be issued through fiscal year 2017-2018 is sufficient to meet the requirements of the authorized and unissued bonds, as adjusted, the total amount of which is \$3,458,529,627 reported in paragraph (4), except for \$1,133,529,627. It is assumed that the appropriations to which an additional \$1,133,529,627 in bond issuance needs to be applied will have been encumbered as of June 30, 2018. The \$1,200,000,000 which is proposed to be issued in fiscal year 2018-2019 will be sufficient to meet the requirements of the June 30, 2018 encumbrances in the amount of \$1,133,529,627. The amount of assumed encumbrances as of June 30, 2018 is reasonable and conservative, based upon an inspection of June 30 encumbrances of the general obligation bond fund as reported by the state comptroller. Thus, taking into account the amount of authorized and unissued bonds, as adjusted, and the bonds authorized by this Act versus the amount of bonds proposed to be issued by June 30, 2018, and the amount of June 30, 2018 encumbrances versus the amount of bonds proposed to be issued in fiscal year 2018-2019, the legislature finds that in the aggregate, the amount of bonds proposed to be issued is sufficient to meet the requirements of all authorized and unissued bonds and the bonds authorized by this Act.
- (7) Bonds excludable in determining the power of the State to issue bonds. As noted in paragraph (1), certain bonds are excludable in determining the power of the State to issue general obligation bonds.

- (A) General obligation reimbursable bonds can be excluded under certain conditions. It is not possible to make a conclusive determination as to the amount of reimbursable bonds which are excludable from the amount of each proposed bond issued because:
 - (i) It is not known exactly when projects for which reimbursable bonds have been authorized in prior acts and in this Act will be implemented and will require the application of proceeds from a particular bond issue; and
 - (ii) Not all reimbursable general obligation bonds may qualify for exclusion.

However, the legislature notes that with respect to the principal and interest on outstanding general obligation bonds, according to the department of budget and finance, the average proportion of principal and interest which is excludable each year from the calculation against the debt limit is 0.61 per cent for approximately ten years from fiscal year 2015-2016 to fiscal year 2024-2025. For the purpose of this declaration, the assumption is made that 0.50 per cent of each bond issue will be excludable from the debt limit, an assumption which the legislature finds to be reasonable and conservative.

- (B) Bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor can be excluded but only to the extent the principal amount of such guaranties does not exceed seven per cent of the principal amount of outstanding general obligation bonds not otherwise excluded under subparagraph (A) of this paragraph (7) and provided that the State shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State as provided by law. According to the department of budget and finance and the assumptions presented herein, the total principal amount of outstanding general obligation bonds and general obligation bonds proposed to be issued, which are not otherwise excluded under Article VII, Section 13 of the State Constitution for the fiscal years 2015-2016, 2016-2017, 2017-2018, and 2018-2019 are as follows:

<u>Fiscal year</u>	<u>Total amount of General Obligation Bonds not otherwise excluded by Article VII, Section 13 of the State Constitution</u>
2015-2016	6,395,820,000
2016-2017	7,515,195,000
2017-2018	8,709,195,000
2018-2019	9,903,195,000

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven per cent of the av-

erage amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided, can be excluded in determining the power of the State to issue general obligation bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to an actual liability, it is assumed in conformity with fiscal conservatism and prudence, that all guaranties not otherwise excluded pursuant to Article VII, Section 13 of the State Constitution will become due and payable in the same fiscal year in which the greatest amount of principal and interest on general obligation bonds, after exclusions, occurs. Thus, based on such assumptions and on the determination in paragraph (8), all of the outstanding guaranties can be excluded.

- (8) Determination whether the debt limit will be exceeded at the time of issuance. From the foregoing and on the assumption that all of the bonds identified in paragraph (5) will be issued at an interest rate not to exceed 6.00 percent in fiscal years 2017 through 2019, it can be determined from the following schedule that the bonds which are proposed to be issued, which include all authorized and unissued bonds previously authorized, as adjusted, general obligation bonds, and instruments of indebtedness under which the State incurs a contingent liability as a guarantor authorized in this Act, will not cause the debt limit to be exceeded at the time of such issuance:

Time of Issuance and Amount to be Counted Against <u>Debt Limit</u>	Debt Limit at Time of <u>Issuance</u>	Greatest Amount and Year of Highest Principal and Interest <u>on Bonds and Guaranties</u>
1st half FY 2016-2017 \$597,000,000	1,211,556,336	727,822,382 (2018-2019)
2nd half FY 2016-2017 \$522,375,000	1,211,556,336	759,164,882 (2018-2019)
1st half FY 2017-2018 \$597,000,000	1,278,738,759	785,380,008 (2019-2020)
2nd half FY 2017-2018 \$597,000,000	1,278,738,759	821,200,008 (2019-2020)
1st half FY 2018-2019 \$597,000,000	1,334,320,085	851,158,365 (2021-2022)
2nd half FY 2018-2019 \$597,000,000	1,334,320,085	906,293,365 (2021-2022)

- (9) Overall and concluding finding. From the facts, estimates, and assumptions stated in this declaration of findings, the conclusion is reached that the total amount of principal and interest estimated for the general obligation bonds authorized in this Act, and for all bonds authorized and unissued, and calculated for all bonds issued and outstanding, and all guaranties, will not cause the debt limit to be exceeded at the time of issuance.

SECTION 2. The legislature finds the bases for the declaration of findings set forth in this Act are reasonable. The assumptions set forth in this Act with respect to the principal amount of general obligation bonds which will be

issued, the amount of principal and interest on reimbursable general obligation bonds which are assumed to be excludable, and the assumed maturity structure shall not be deemed to be binding, it being the understanding of the legislature that such matters must remain subject to substantial flexibility.

SECTION 3. Authorization for issuance of general obligation bonds. General obligation bonds may be issued as provided by law in an amount that may be necessary to finance projects authorized in House Bill No. 1700, H.D. 1, S.D. 1, C.D. 1¹ (the Supplemental Appropriations Act of 2016); passed by the legislature during this regular session of 2016 and designated to be financed from the general obligation bond fund and from the general obligation bond fund with debt service cost to be paid from special funds; provided that the sum total of general obligation bonds so issued shall not exceed \$967,283,000.

Any law to the contrary notwithstanding, general obligation bonds may be issued from time to time in accordance with Section 39-16, Hawaii Revised Statutes, in such principal amount as may be required to refund any general obligation bonds of the State of Hawaii heretofore or hereafter issued pursuant to law.

SECTION 4. The provisions of this Act are declared to be severable and if any portion thereof is held to be invalid for any reason, the validity of the remainder of this Act shall not be affected.

SECTION 5. In printing this Act, the revisor of statutes shall substitute in section 1 and section 3 the corresponding act numbers for bills identified therein.

SECTION 6. This Act shall take effect upon its approval.

ACT 77

S.B. NO. 2845

A Bill for an Act Making Appropriations to Repay General Fund Cash Advances.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. For many years, the general fund financial plan has reflected repayments for an \$89,900,000 cash advance to purchase the former Kapalama military reservation and a \$13,300,000 cash advance for the Hawaii health systems corporation.

Act 73, Session Laws of Hawaii 1989, authorized \$90,000,000 in general obligation bond funds to purchase approximately sixty-seven acres of the former Kapalama military reservation. Due to private activity restrictions on the use of tax-exempt general obligation bond funds, general fund cash advances of \$57,000,000 and \$33,000,000 totaling \$90,000,000 were made to the capital projects fund in order to finance the land purchase. As of June 30, 2015, the amount owed to the general fund is \$89,900,000.

In fiscal year 2002-2003, general fund cash advances totaling \$13,300,000 were made to the Hawaii health systems corporation in order for the corporation to fund its employer contributions to the employees' retirement system and the employer-union health benefits trust fund. During the regular session of 2003, an emergency appropriation was sought to repay the general fund cash advances. However, the measure did not advance from conference committee. As of June 30, 2015, the amount owed to the general fund is \$13,300,000.

The State recognizes that these amounts owed, totaling \$103,200,000, will not be repaid to the general fund. Consequently, the assets and liabilities of the general fund are overstated by \$103,200,000 each. Accordingly, the purpose of this Act is to appropriate general funds to formally write off the general fund cash advances for the purchase of the Kapalama military reservation and for the Hawaii health systems corporation. The effect of this Act will be that general

ACT 78

fund balances will be more accurately reflected in the future and better represent actual resources available to finance state programs. In addition, this Act will reduce the liabilities of the capital projects fund to more accurately reflect the State's outstanding debt.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$89,900,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the purpose of repaying general fund cash advances to the capital projects fund for the purchase of lands of the former Kapalama military reservation.

The sum appropriated shall be expended by the department of budget and finance for the purposes of this Act.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$13,300,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the purpose of repaying general fund cash advances to the Hawaii health systems corporation for its employer contributions to the employees' retirement system and the employer-union health benefits trust fund.

The sum appropriated shall be expended by the department of budget and finance for the purposes of this Act.

SECTION 4. This Act shall take effect upon its approval.

(Approved June 20, 2016.)

ACT 78

S.B. NO. 2910

A Bill for an Act Relating to Time Share Commissioners of Deeds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds the existing process for authentication and recordation of time share real estate documents signed outside of the United States can be cumbersome and expensive. Act 277, Session Laws of Hawaii 2013 (Act 277), established the commissioners of deeds program within the office of the lieutenant governor to streamline this process. Act 277 authorizes the governor to appoint commissioners of deeds to administer oaths, take acknowledgments, and take proofs of execution outside of the United States in connection with the execution of conveyance documents relating to time shares. Act 277 also includes protections for consumers wishing to purchase a time share property located in Hawaii, including written notice of legal rights, bonding requirements for commissioners of deeds, and liabilities and limitations on liabilities for commissioners of deeds.

The legislature further finds that after the enactment of Act 277, a working group was established to assist in implementing the commissioners of deeds program. Representatives from the office of the lieutenant governor, department of the attorney general, department of commerce and consumer affairs, and bureau of conveyances, and members of the time share industry met on multiple occasions to discuss and analyze the implementation of Act 277. The working group determined that additional legislation and authorization would assist with the effective implementation of the commissioners of deeds program and ensure the protection of consumers who wish to purchase a time share property located in the State. However, due to a lack of funding and the absence of necessary clarification, the program has not yet been implemented.

Accordingly, the purpose of this Act is to:

- (1) Clarify the lieutenant governor's rulemaking authority;
- (2) Authorize the lieutenant governor to assess and collect fees and administrative fines;
- (3) Clarify the lieutenant governor's responsibility for the commissioners of deeds program;
- (4) Increase the surety bond requirement for commissioners of deeds; and
- (5) Appropriate funds for expenses incurred by the office of the lieutenant governor related to establishing and administering the commissioners of deeds program.

SECTION 2. Chapter 503B, Hawaii Revised Statutes, is amended by adding three new sections to be appropriately designated and to read as follows:

“§503B-A Rules. The lieutenant governor may adopt rules pursuant to chapter 91 as the lieutenant governor deems necessary to implement this chapter, including but not limited to the appointment and duties of commissioners of deeds and other measures necessary to prevent the fraudulent use of a document affixed with the commissioner of deeds' seal.

§503B-B Fees and administrative fines. (a) The lieutenant governor shall charge and collect the following fees:

- (1) Application for commissioner of deeds commission, \$10;
- (2) Application for renewal of commissioner of deeds commission, \$10;
- (3) Application for restoration of forfeited commission, \$10;
- (4) Application for reinstatement of suspended commission, \$10;
- (5) Issuance of the original commission, \$40;
- (6) Renewal of the commission, \$40;
- (7) Restoration of forfeited commission, \$60;
- (8) Reinstatement of suspended commission, \$40; and
- (9) Commission name change, \$10.

Fees may be adjusted by the lieutenant governor by adopting rules pursuant to chapter 91.

(b) The lieutenant governor may impose and collect the following administrative fines if a commissioner of deeds fails to do the following:

- (1) Maintain an official seal in accordance with section 503B-2(a)(1) and any rule adopted pursuant to chapter 91, \$20;
- (2) Surrender the seal and certificate of the commissioner of deeds to the lieutenant governor within ninety days of resignation, removal from office, or the expiration of a term without renewal, \$200;
- (3) Authenticate every acknowledgment or jurat with a certificate that is signed and dated by a commissioner and in a form prescribed by the lieutenant governor, \$500;
- (4) Record all of the transactions of the commissioner of deeds as prescribed by section 503B-4 and any rules adopted pursuant to chapter 91, \$200;
- (5) Surrender the record books of the commissioner of deeds to the lieutenant governor within ninety days of the expiration or termination of the commission, resignation, or removal from office, \$500;
- (6) Notify the lieutenant governor within ten days after loss, misplacement, or theft of the commissioner's seal or record book, or both, \$20; provided that, in the case of theft, the commissioner shall also:

- (A) Inform the appropriate local law enforcement agency of the theft within ten days of discovery of the theft or, if the theft occurs on a vessel, inform the vessel's captain of the theft within ten days of discovery of the theft;
- (B) Use reasonable efforts to obtain a copy of a report of the theft from the appropriate local law enforcement agency or, if the theft occurs on a vessel, from the vessel's captain or other officer; and
- (C) Deliver a copy of any report of the theft to the lieutenant governor within ten days after receipt thereof.

Administrative fines may be adjusted by the lieutenant governor by adopting rules pursuant to chapter 91.

(c) Moneys collected by the lieutenant governor pursuant to this section shall be deposited by the director of finance to the credit of the general fund.

§503B-C Immunity. (a) The lieutenant governor and employees of the office of the lieutenant governor shall be immune from liability for good faith conduct under this chapter.

ACT 80

H.B. NO. 2082

A Bill for an Act Relating to Adoption Records.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. To protect adopted children from the stigma of illegitimacy, states began sealing adoption records in the middle of the twentieth century. Although adoptees were generally allowed to access their own adoption records, states later began limiting adoptees' access to adoption records due to the prevailing idea that adopted children were better off if they were unaware of their adoption. However, current research has illustrated that the secrecy surrounding an adoption has significant negative psychological consequences on an adoptee. Furthermore, cultural changes have largely diminished the stigma surrounding adoption, and recent genetics research has highlighted the importance of genetic history to an individual's medical care.

Although the legislature eased restrictions for some adoptees to access adoption records in 1990, Hawaii's adoption records law continues to condition access to records on birthparent approval, which is a major hurdle for adoptees to overcome. Additionally, it is common for adoptees to pay a search agent approximately \$600 to locate birthparents who have moved since the adoption proceedings.

The legislature finds that countries with open access laws and other states that have restored open access to adoption records have not experienced significant negative consequences that critics predicted would befall birthparents who sought to retain anonymity. Furthermore, the substantial interest that an adoptee has in learning the adoptee's familial history outweighs any vague discomfort that could befall a birthparent.

The purpose of this Act is to provide adoptees of a certain age, adoptive parent, and natural parents unfettered access to the adoptees' adoption records.

SECTION 2. Section 578-15, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

“(b) Upon the entry of the decree, or upon the later effective date of the decree, or upon the dismissal or discontinuance or other final disposition of the petition, the clerk of the court shall seal all records in the proceedings; provided that upon the written request of the petitioner or petitioners, the court may waive the requirement that the records be sealed. The seal shall not be broken and the records shall not be inspected by any person, including the parties to the proceedings, except:

- (1) Upon order of the family court upon a showing of good cause;
- (2) ~~[For adoptions which occurred prior to January 1, 1991, after]~~ After the adopted individual attains the age of eighteen and upon submission to the family court of a written request for inspection by the adopted individual or the adoptive parents ~~[in accordance with the following:~~

The notice shall inform the natural parent that unless an affidavit signed by the natural parent requesting confidentiality is received by the family court within sixty calendar days of the date of receipt of the notice, the natural parent will be deemed to have waived any rights of confidentiality and the records shall be subject to inspection by the adopted individual or the adoptive parent who submitted the request. The notice shall also inform the natural parent that an affidavit requesting confidentiality for a period of ten years may be filed. A blank affidavit to be completed and signed by the natural parent shall be mailed with the notice;~~

The family court and the designated agent or agency shall ensure that no person other than a natural parent or the agent or agency through which a natural parent obtained assis-~~

 - (C) ~~If a natural parent declines or fails to file an affidavit under subparagraph (B), the family court shall allow inspection of the record by the adopted individual or the adoptive parents at any time after the adopted individual has attained the age of eighteen; and~~
 - (D) ~~Where two natural parents are involved and confidentiality is waived under this paragraph by only one natural parent, the inspection of the records shall not include any identifying information concerning the other natural parent;~~

A Bill for an Act Relating to Motor Vehicle Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that many motor vehicle insurance companies offer insurance documents through applications on mobile electronic devices. This electronic proof of coverage gives drivers a convenient, paperless way to display up-to-date insurance information.

The legislature further finds that more states are recognizing the widespread use of mobile technology and updating motor vehicle insurance laws accordingly. Currently, thirty-seven states permit drivers to use an electronic copy of their insurance card as valid proof of insurance. The acceptance of this technology has grown rapidly since March 2012, when Idaho became the first state in the country to accept electronic motor vehicle insurance cards.

The legislature concludes that owners and drivers of motor vehicles in Hawaii should also be provided with electronic options for proof of insurance.

Accordingly, the purpose of this Act is to allow electronic insurance cards, in addition to paper insurance cards, to be used as proof of insurance for motor vehicles, motorcycles, and motor scooters.

SECTION 2. Section 286-116, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Every licensee shall have a valid driver’s license in the licensee’s immediate possession at all times, and a valid motor vehicle or liability insurance identification card applicable to the motor vehicle operated as required under section 431:10C-107 and section 431:10G-106, when operating a motor vehicle, and shall display the same upon demand of a police officer. Every police officer or law enforcement officer when stopping a vehicle or inspecting a vehicle for any reason shall demand that the driver or owner display the driver’s or owner’s driver’s license and insurance identification card.

Upon demand, the driver or owner may display the driver’s or owner’s electronic motor vehicle insurance identification card on a mobile electronic device, as defined in section 291C-137. For the purposes of this section, when a person uses a mobile electronic device to display an electronic motor vehicle insurance identification card to a police officer or law enforcement officer, the officer may only view the electronic motor vehicle insurance identification card and shall be otherwise prohibited from viewing any other content on the mobile electronic device. Whenever a person presents a mobile electronic device pursuant to this section, that person assumes all liability for any damage to the mobile electronic device.

No person charged with violating this section shall be convicted if the person produces in court, or proves from the proper official or other records that the person was the holder of a driver’s license or a motor vehicle or liability insurance identification card and policy conforming to article 10C and article 10G of chapter 431 or a certificate of self-insurance issued by the insurance commissioner pursuant to section 431:10C-107 and section 431:10G-103, theretofore issued to the person and valid at the time of the person’s arrest.”

SECTION 3. Section 431:10C-107, Hawaii Revised Statutes, is amended by amending subsections (a) and (b) to read as follows:

“(a) Every insurer shall issue to its insureds a paper or electronic motor vehicle insurance identification card for each motor vehicle for which the

basic motor vehicle insurance coverage is written. The electronic motor vehicle insurance identification card may be accessed directly through the licensed insurer's website, application, or database. The identification card shall contain the following:

- (1) Name of make and factory or serial number of the motor vehicle; provided that insurers of five or more motor vehicles which are under common registered ownership and used in the regular course of business shall not be required to indicate the name of make and the factory or serial number of each motor vehicle;
 - (2) Policy number;
 - (3) Names of the insured and the insurer; and
 - (4) Effective dates of coverage including the expiration date.
- (b) The identification card shall be in the insured motor vehicle or accessible on a mobile electronic device, as defined in section 291C-137, at all times and shall be exhibited to a law enforcement officer upon demand.”

SECTION 4. Section 431:10G-106, Hawaii Revised Statutes, is amended to read as follows:

“**§431:10G-106 Verification of insurance.** Every insurer shall issue to each of its insureds a paper or electronic proof of insurance card for each motorcycle or motor scooter for which a liability policy under this article is written. The electronic proof of insurance card may be accessed directly through the licensed insurer's website, application, or database. The proof of insurance card shall show the following:

- (1) Name, make, year, and factory or serial number of the motorcycle or motor scooter; provided that insurers of five or more motorcycles or motor scooters that are under common registered ownership and used in the regular course of business shall not be required to indicate the name, make, year, and the factory or serial number of each motorcycle or motor scooter;
- (2) Policy number;
- (3) Names of the insured and the insurer; and
- (4) Effective dates of coverage including the expiration date.

The proof of insurance card shall be carried on, or accessible on a mobile electronic device, as defined in section 291C-137, by the person operating the insured motorcycle or motor scooter at all times and shall be exhibited to a law enforcement officer upon demand.”

SECTION 5. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

ACT 85

H.B. NO. 2311

A Bill for an Act Relating to Reporting Deaths to State Agencies.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that some governmental agencies within the State that keep official lists of persons, in the ordinary course of the agency's activities, need to know when members on their lists have died so that they can, for example, discontinue providing benefits. Although section 338-18(g), Hawaii Revised Statutes, allows the department of health to verify information contained in vital statistics records by employing a process that matches its vital statistics information with information provided by agencies, that process cannot be used by state agencies whose lists are confidential under federal law.

The legislature also finds that it is unlawful for the department of health to disclose information contained in confidential vital statistics records, except as authorized by law. Allowing the department of health to report deaths to state agencies that maintain official lists that are confidential under federal law would assist state agencies to maximize the accuracy of their official lists and avoid overpaying benefits and wasting public funds.

SECTION 2. Act 27, Session Laws of Hawaii 2014, is amended by amending section 2 to read as follows:

“SECTION 2. Chapter 338, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§338- Deaths reported to state agencies. (a) Notwithstanding section 338-18, the department of health, within six weeks after the end of each quarter or other agreed upon period, shall deliver to a state agency a list of the names of all persons whose deaths have been recorded by the department during that period; provided that this section shall only apply to a state agency that:

- (1) Maintains official lists of persons in the ordinary course of the agency's activities and is prohibited by federal law from sharing information from the lists; and
- (2) Has requested the information from the department pursuant to a written agreement.

The list shall set forth the full name of the decedent ~~[and]~~, the dates of the decedent's birth and death, and the last four digits of the decedent's social security number, if known. The department and the requesting agency shall determine by agreement the form and format of providing the information to the agency.

(b) In response to an agency's first request pursuant to subsection (a), the department of health may provide a list of the persons whose deaths were recorded by the department during an agreed upon period in the past. The department may charge a reasonable fee to cover its cost of providing the list. If a state agency requires further information, the department may provide a certified copy of the death certificate to that state agency, subject to the fees required under section 338-14.5.

(c) Any state agency that obtains, pursuant to this section, a list of the names of persons whose deaths have been recorded by the department of health shall use the list only for the purposes for which it was obtained and shall not further disclose any information on the list.

(d) The department of health may develop and implement or assist with the development and implementation of a systems interface to electronically provide the information required pursuant to subsection (a) to a state agency.””

SECTION 3. Act 27, Session Laws of Hawaii 2014, is amended by amending section 4 to read as follows:

“SECTION 4. This Act shall take effect upon its approval and shall be repealed on July 1, ~~[2016.] 2018.~~”

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect on June 30, 2016.

ACT 86

H.B. NO. 2466

A Bill for an Act Relating to Non-General Funds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address the distribution of cigarette tax revenues.

During the regular session of 2015, Act 238 was enacted to set maximum amounts on the distribution of cigarette tax revenues to various non-general funds, with the remainder to be deposited into the general fund. The legislature took this action to increase legislative oversight of agencies and programs supported by cigarette tax revenues, and subject those agencies and programs to competition for limited public funds by restricting their automatic share of cigarette tax revenues.

This Act expands the legislature's focus on the distribution of cigarette tax revenues. The legislature finds that focusing on the cigarette tax is impera-

tive because these tax revenues are declining, a laudable result of public health efforts. Consequently, evaluation of the future budgetary needs and funding of agencies and programs dependent on cigarette tax revenues should commence now.

The purpose of this Act is to require the department of health and department of budget and finance to jointly conduct a study of the distribution of the cigarette tax revenues.

SECTION 2. (a) The department of health and department of budget and finance shall jointly conduct a study on the distribution of the cigarette tax revenues.

(b) The study shall include the following:

- (1) Estimated total revenues derived from the cigarette tax through fiscal year 2024-2025;
- (2) Estimated distribution of cigarette tax revenues among the non-general funds specified in section 245-15(6), Hawaii Revised Statutes, through fiscal year 2024-2025;
- (3) Estimated budgetary needs of the agencies and programs supported by the non-general funds listed in section 245-15(6), Hawaii Revised Statutes, through fiscal year 2024-2025; and
- (4) Differences between the estimated budgetary needs of the agencies and programs under paragraph (3) and their estimated cigarette tax revenue distribution.

(c) The department of health and department of budget and finance shall include a recommendation in the study of whether to:

- (1) Continue the cigarette tax revenue distribution to the non-general funds, with or without modification; or
- (2) Re-distribute all or most of the cigarette tax revenues to the general fund and change the means of financing of affected agencies and programs to general funds.

SECTION 3. Upon the request of the department of health or the department of budget and finance for assistance and information, the department of taxation, and any other relevant executive department, shall cooperate with the department of health or department of budget and finance.

SECTION 4. The department of health and department of budget and finance shall submit the findings and recommendations of the study to the legislature and governor by November 1, 2016.

SECTION 5. This Act shall take effect on July 1, 2016.

(Approved June 21, 2016.)

ACT 90

S.B. NO. 2540

A Bill for an Act Relating to the Department of Health.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address the development or expansion of a forensic facility of the department of health.

The legislature finds that the department of health is proposing to undertake the construction of a new building at the Hawaii state hospital. The new building is of high priority because of census and health and safety issues at the hospital. To expedite the development, the department of health and department of accounting and general services intend to use the design-build process.

However, the legislature finds that the department of health and department of accounting and general services may need more flexibility to move quickly.

Thus, the legislature authorizes the governor, through this Act, to negotiate directly with a person to develop or expand a forensic facility of the department of health. The legislature intends that the governor may negotiate and award a contract to develop or expand a forensic facility without necessity of compliance with the procurement code.

This Act is based on section 353-16.35, Hawaii Revised Statutes, under which the governor is authorized to negotiate the development or expansion of a correctional facility. Although that statute has never been used, it serves as a model for further expediting the construction of a new forensic facility for the department of health.

The legislature notes that this Act provides an extended review and comment period for an environmental assessment or environmental impact statement. The legislature has included this provision to balance the expedited development or expansion process by providing the opportunity for more public scrutiny of a proposed forensic facility.

SECTION 2. Chapter 334, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

“§334- Development or expansion of a forensic facility of the department of health. (a) Notwithstanding any other law to the contrary, the governor, with the assistance of the director, may negotiate with any person for the development or expansion of a forensic facility of the department; provided that if an environmental assessment or environmental impact statement is required for a proposed site or for the expansion of the forensic facility under section 343-5, then notwithstanding the time periods specified for public review and comments under section 343-5, the governor shall accept public comments for a period of sixty days following public notification of either an environmental assessment or an environmental impact statement.

(b) Any development or expansion proposal shall address the construction of the forensic facility separate from the operation of the facility and shall consider and include:

- (1) The percentages of low, medium, and high risk patients;
 - (2) The impact of the facility on existing infrastructure and an assessment of improvements and additions that will be necessary;
 - (3) The impact of the facility on available modes of transportation, including airports, roads, and highways; and
 - (4) A useful life costs analysis.
- (c) For the purposes of this section:

“Forensic facility” means a facility that assesses and treats forensically committed persons.

“Useful life costs” means an economic evaluation that compares alternate building and operating methods and provides information on the design, construction methods, and materials to be used with respect to efficiency in building maintenance and facility operation.”

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

(Approved June 21, 2016.)

ACT 97

H.B. NO. 1756

A Bill for an Act Relating to Nursing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds there is a need to protect public safety by ensuring that licensed nurses are safe to practice and care for patients. While nearly all jurisdictions require applicants for nurse licensure to self-report any criminal history upon application for licensure, data reflects that many nurses with criminal histories fail to do so. According to information published by the National Council of State Boards of Nursing, there may be criminal history within the background of an applicant that could violate public trust and jeopardize the safety of patients.

The legislature further finds that the Council of State Governments recommends that each state work with its board of nursing to develop plans to conduct comprehensive federal and state criminal background checks as part of nurse licensure protocol. Of the fifty-five boards of nursing nationwide, currently Hawaii is one of only twelve states that do not conduct federal and state criminal background checks. The legislature finds that boards of nursing, employers, and other stakeholders need criminal history information to ensure that a nurse is safe and unlikely to harm patients.

Accordingly, the purpose of this Act is to:

- (1) Require all nurse licensure applicants, beginning with the July 1, 2017, licensing biennium, and all nurse license renewal and reactivation applicants, beginning with the July 1, 2019, licensing biennium, to comply with criminal history record checks; and
- (2) Authorize the state board of nursing to:
 - (A) Reactivate licenses and conduct investigations of applicants; and
 - (B) Request, beginning July 1, 2017, criminal history records of qualified applicants and request, no later than July 1, 2023, criminal history records required for licensees who were issued licenses prior to July 1, 2017.

SECTION 2. Section 457-5, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) In addition to any other powers and duties authorized by law, the board may:

- (1) Adopt, amend, or repeal rules, pursuant to chapter 91, not inconsistent with the law, as may be necessary to enable it to carry into effect this chapter, including the definition of the scope of practice of nursing and the delegation of nursing tasks based upon professional nursing standards, which include but are not limited to the standards set forth by national certifying bodies recognized by the board;
- (2) Prescribe standards for preparing persons for licensure as practical nurses, registered nurses, and advanced practice registered nurses under this chapter;
- (3) Conduct surveys of educational programs as it may deem necessary and practical;
- (4) Approve educational programs that meet the requirements of this chapter and the rules of the board;
- (5) Deny or withdraw approval of educational programs for failure to meet or maintain the standards prescribed in this chapter;
- (6) License qualified applicants by examination or endorsement, including advanced practice registered nurses, and renew, reinstate, reactivate, and restore licenses[;] and shall conduct an investigation of the qualified applicant’s background, character, competency, and integrity, as the board deems appropriate. The board shall:
 - (A) Request, beginning July 1, 2017, the criminal history records of qualified applicants, in accordance with section 846-2.7; and
 - (B) Request the criminal history records, pursuant to section 846-2.7, of licensees who were issued licenses by the board prior to July 1, 2017;

provided that the board shall request criminal history records under this paragraph not less than once for each individual qualified applicant or licensee; provided further that all requests for criminal history records required for licensees issued a license by the board prior to July 1, 2017, shall be made by the board no later than July 1, 2023. The Hawaii criminal justice data center shall provide the information on request to the director of commerce and consumer affairs;
- (7) Conduct hearings upon request of a denied applicant or upon charges calling for discipline of a licensee;

- (8) Exercise the power to issue subpoenas, compel the attendance of witnesses, and administer oaths to persons giving testimony at hearings;
- (9) Cause the prosecution of all persons violating this chapter and incur necessary expenses therefor;
- (10) Keep a record of all its proceedings;
- (11) Provide consultation, conduct conferences, forums, studies, and research on nursing education and practice;
- (12) Communicate with national organizations that promote the improvement of the legal standards of practice of nursing for the protection of public health, safety, and welfare;
- (13) Authorize the administration of examinations to eligible applicants for licensure as registered nurses or licensed practical nurses, or other examinations required by the board as designated in its rules;
- (14) Employ, contract, and cooperate, to the extent allowable by law, with any board-approved organization in the preparation and grading of an appropriate nationally uniform examination; provided the board shall retain sole discretion and responsibility for determining the standard of successful completion of such an examination. When such a national examination is used, access to questions and answers shall be restricted by the board; and
- (15) Develop and adopt rules as necessary relating to the practice of nursing in telehealth.”

SECTION 3. Section 457-7, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) An applicant for a license to practice nursing as a registered nurse shall submit [an]:

record check have been received by the board; and [shall provide written]

- (3) Written evidence that the applicant has completed a licensed practical nurse program, or its equivalent, approved by the board, and holds a diploma or certificate therefrom.”

SECTION 5. Section 457-8.5, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) The board shall grant an advanced practice registered nurse license to a nurse who has:

SECTION 6. Section 457-9, Hawaii Revised Statutes, is amended by amending subsections (a) and (b) to read as follows:

“(a) The license of every person licensed or granted prescriptive authority shall expire on June 30 of every odd-numbered year and shall be renewed biennially, except as provided in this section. Biennially in each odd-numbered year, the board shall make available an application for renewal of license before the deadline set forth by the board to every person to whom a license was issued

H.B. NO. 1011

A Bill for an Act Relating to the Traffic Code.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the number of motor vehicles using wheels with a propensity to cause severe injury and property damage has increased. By design, most of these wheels have parts that extend past their rim, including gorilla pokes, superpoke elbows, and giraffe necks; however, others not designed as such are just as dangerous due to the addition of aftermarket parts, such as lug nuts and wheel covers that bear sharp, pointed projections.

The legislature further finds that existing law does not address the inherent dangers associated with the use of this type of motor vehicle wheel.

The purpose of this Act is to prohibit the use of certain types of motor vehicle wheels that are considered dangerous.

SECTION 2. Chapter 291C, Hawaii Revised Statutes, is amended by adding a new section to part XII to be appropriately designated and to read as follows:

ACT 101

“§291C- Dangerous wheels; prohibited. No person shall operate a vehicle, trailer, or semi-trailer equipped with dangerous wheels.”

““Dangerous wheels” means any wheel, wheel cover, hubcap, lug nut cover or cap, prong, or any ornamentation affixed to any of the aforementioned items that extends at least four inches beyond the portion of the wheel rim that extends furthest away from the vehicle and that may cause injury or property damage by minimal contact with a person or object.”

A Bill for an Act Relating to Workers' Compensation Treatment Plans.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Hawaii's current system for physicians to submit treatment plans in workers' compensation claims is in need of modernization given advancements in technology. The legislature further finds that allowing treatment plans to be faxed will greatly improve the efficiency of Hawaii's workers' compensation system. This first step will assist in making the system better while the department of labor and industrial relations completes the studies of the system that were previously requested by the legislature.

The purpose of this Act is to improve the efficiency of Hawaii's workers' compensation system by permitting an option for the transmittal of treatment plans via facsimile.

SECTION 2. Chapter 386, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§386- Treatment plans. (a) A physician may transmit a treatment plan to an employer by mail or facsimile; provided that the physician shall send the treatment plan to an address or facsimile number provided by the employer.

ACT 102

H.B. NO. 2675

A Bill for an Act Relating to Rapid Ohia Death.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the ohia is Hawaii’s most common and widespread native tree. Ohia trees can be found at sea level and up to elevations of twenty-five hundred meters. The trees provide critical habitats for rare and endangered native birds and insects.

In recent years, the disease known as rapid ohia death, caused by the non-native fungal pathogen *Ceratocystis fimbriata*, has been killing ohia trees in the forests and residential areas of Puna and Hilo on the island of Hawaii. When infected, the crown of an ohia tree first turns yellow, and then brown within a few days or weeks. The fungal pathogen progresses up the stem of the tree and manifests as a dark staining in the sapwood along the outer margin of the trunk. Landowners have noticed that when healthy-looking trees begin exhibiting symptoms, the trees die in a matter of weeks.

As of 2014, approximately fifteen thousand acres on the island of Hawaii have shown greater than fifty per cent mortality from rapid ohia death. Recent estimates have found that the disease has affected thirty thousand acres on the island of Hawaii.

The exact transmittal methods of *Ceratocystis fimbriata* have not yet been determined. However, researchers believe that the fungus can be transmitted by feral animals, insects, soil, water, infected cuttings, unsanitized pruning tools, and muddy vehicles. There is no treatment that can protect ohia trees from rapid ohia death, and there is no cure for infected trees.

The legislature finds that rapid ohia death has the potential to destroy ohia trees statewide. The loss of ohia trees would be catastrophic to the diversity, structure, and function of the State’s remaining native forests.

Researchers of the United States Department of Agriculture, the University of Hawaii, and other organizations have made progress in combating rapid ohia death, including isolating the fungal pathogen, researching alternative hosts for the pathogen, eliminating other causes for the ohia tree deaths, and making recommendations on preventing the spread of the disease. However, the researchers require additional funding to continue their work.

The purpose of this Act is to appropriate funds to combat rapid ohia death. The funding will help to continue pathology research by the Agricultural Research Service of the United States Department of Agriculture and other organizations.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$300,000 or so much thereof as may be necessary for fiscal year 2016-2017 for rapid ohia death research, including the employment of pathology post-doctoral fellows, technical support for pathology research, materials and supplies for pathogen and molecular detection, and a new growth chamber for pathology experiments.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 3. This Act shall take effect on July 1, 2016.

(Approved June 21, 2016.)

ACT 103

H.B. NO. 2657

A Bill for an Act Relating to Agriculture.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 387, Session Laws of Hawaii 1988, is amended as follows:

1. By amending section 1 to read:

“SECTION 1. The legislature finds that the economy of the island of Molokai [is] remains at a critical juncture. [~~The residents have long relied on the pineapple industry as the major provider of jobs; however, since~~] Since the closure of Dole Company’s operations in 1976 and the reduction of Del Monte’s operations in 1983, hundreds of Molokai residents have been jobless and the island’s unemployment rate [at over fourteen per cent] is more than twice the rate of any other island and the highest in the State. The legislature further finds that the revival of Molokai’s economy is contingent on the development and growth of small businesses, especially in diversified agriculture, and that it is the public interest to provide financial support to facilitate such development and growth on Molokai. Further, the legislature finds that the costs that farmers and ranchers must incur to comply with federal and state requirements, including the food safety requirements of the United States Food and Drug Administration (FDA) Food Safety Modernization Act, are prohibitive to some farmers and ranchers and will likely result in farm and ranch closures on Molokai. These farmers and ranchers require assistance with meeting these compliance costs to prevent such closures and the detrimental effect they will have on the diversified agricultural industry on Molokai. The purpose of this Act is to establish a [revolving loan] cost reimbursement program to stimulate business development and growth in diversified agriculture on the island of Molokai[-] and provide cost reimbursement to farmers and ranchers on Molokai to cover the costs, including audit costs and other expenses, of complying with the FDA Food Safety Modernization Act and state food safety laws.”

2. By amending section 3 to read:

“SECTION 3. (a) The county of Maui shall establish a temporary ~~[re-~~volving loan] cost reimbursement program to provide ~~[financing opportunities]~~ for small business ventures that are in diversified agriculture [on Molokai] and cost reimbursement to farmers and ranchers on Molokai to help them meet the costs, including audit costs and other expenses, of compliance with the requirements of the FDA Food Safety Modernization Act and state food safety laws. To carry out the ~~[loan]~~ cost reimbursement program, the county shall establish a ~~[revolving]~~ fund from which moneys shall be ~~[loaned]~~ expended to provide cost reimbursements in accordance with this Act ~~[and into which all payments, interest, and fees collected by the county on such loans shall be deposited].~~

(b) The program shall provide ~~[loans]~~ cost reimbursement to qualified applicants with the following terms and conditions:

(1) No ~~[loan]~~ cost reimbursement shall be granted unless ~~[financial assistance is not otherwise available to the applicant;]~~ money has been spent by the applicant toward complying with the FDA Food Safety Modernization Act or state food safety laws;

(2) The total amount of ~~[a loan or loans]~~ cost reimbursement to any one applicant ~~[at any one time]~~ shall not exceed ~~[\$150,000;]~~ \$5,000; and

(3) ~~[The maximum term of a loan]~~ No cost reimbursement shall [not exceed twenty years;] be allowed for costs that were incurred more than five years prior to the time the application for cost reimbursement is received by the county of Maui.

~~[(4) Each loan shall bear interest conforming to the department of agriculture's "Agricultural Loans" rate, policies, and practices; and~~

~~(5) The commencement date for the repayment of the first installment on the principal and interest of each loan may be deferred by the mayor of the county of Maui for a period not to exceed two years.]~~

(c) The program shall be administered by the county of Maui. The county of Maui, in consultation with the department of agriculture, shall adopt rules to carry out the program's purpose. ~~[The loan applications shall be reviewed initially by the credit review committee of the Molokai task force. The committee shall make recommendations regarding the suitability of the proposed business concepts. The county of Maui shall make the final decision to approve or disapprove the application.]~~ The cost reimbursement applications shall be reviewed and approved by an administrative staff member within the county of Maui.”

ACT 107

S.B. NO. 1311

A Bill for an Act Relating to Education.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that licensure for the practice of behavior analysis in Hawaii is needed for the public's health, safety, and welfare. Act 199, Session Laws of Hawaii 2015, codified as chapter 465D, Hawaii Revised Statutes, established standards for the licensing of behavior analysts to address the present and critical need to ensure that persons requiring diagnosis and treatment for autism receive the care they need. Act 199 recognized that behavior analysts and the practice of behavior analysis should be subject to regulation and control to protect the public from unqualified practitioners and from unprofessional conduct. The legislature finds that licensure of behavior analysts is necessary for both client protection and access to services.

While ensuring the provision of quality services by properly trained providers is of the utmost importance, the State's current credentialed workforce is inadequate to meet present needs. Thus, policies that ensure that a qualified workforce can continue to provide necessary behavior interventions while simultaneously facilitating efforts to build an adequate workforce of credentialed paraprofessionals and licensed professionals to implement behavior plans are imperative.

The purpose of this Act is to ensure that behavioral services continue to be available for clients who depend on them while facilitating the long-term development of an adequate professional and paraprofessional workforce.

SECTION 2. Section 465D-7, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) This chapter is not intended to restrict the practice of other licensed or credentialed ~~healthcare~~ practitioners practicing within their own recognized scopes of practice and shall not apply to:

- (1) An individual working within the scope of practice or duties of another licensed profession that overlaps with the practice of behavior analysis; provided that the person does not purport to be a behavior analyst;
- (2) An individual who implements or designs applied behavior analysis services and possesses board certification as an assistant behavior analyst by the Behavior Analyst Certification Board and who practices in accordance with the most recent supervisory and ethical requirements adopted by the Behavior Analyst Certification Board under the direction of a behavior analyst licensed in this State;
- (3) An individual who directly implements applied behavior analysis services~~, -is~~ and
 - (A) Is credentialed as a registered behavior technician by the Behavior Analyst Certification Board, and is under the direction of a behavior analyst licensed in this State; or
 - (B) Is a direct support worker who provides autism treatment services pursuant to an individualized education plan on or before January 1, 2019;

provided that for purposes of this paragraph, "direct support worker" means a teacher or paraprofessional who directly implements intervention or assessment plans under supervision and does not design intervention or assessment plans;
- (4) A family member or legal guardian implementing an applied behavior analysis plan ~~[within the home]~~ and who acts under the direction of a behavior analyst licensed in this State;
- (5) An individual who engages in the practice of behavior analysis with nonhuman or nonpatient clients or consumers including but not limited to applied animal behaviorists and practitioners of organizational behavior management;
- (6) A matriculated graduate student or postdoctoral fellow whose activities are part of a defined behavior analysis program of study, practicum, or intensive practicum; provided that the student's or fellow's activities or practice is directly supervised by a behavior analyst licensed in this State or an instructor in a Behavior Analyst Certification Board-approved course sequence; or
- (7) An individual pursuing experience in behavior analysis consistent with the Behavior Analyst Certification Board's experience require-

ments; provided that the experience is supervised by a behavior analyst licensed in this State.”

SECTION 3. The department of education shall submit a report to the legislature prior to the convening of the regular sessions of 2017 and 2018 on its plans and progress in implementing measures to comply with the licensure and certification requirements of chapter 465D, Hawaii Revised Statutes.

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect on July 1, 2016.

(Approved June 22, 2016.)

ACT 108

S.B. NO. 2954

A Bill for an Act Relating to Firearms.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that criminal background checks on firearms applicants are critical to ensure the safety of the community.

The rap back system is a service of the Federal Bureau of Investigation that provides continuous criminal record monitoring for authorized government agencies, including law enforcement agencies, and notifies them when an individual subject to a criminal history record check is arrested for a criminal offense anywhere in the country. This notification will allow county police departments in Hawaii to evaluate if the owner of a firearm may continue to legally possess and own firearms.

The purpose of this Act is to authorize county police departments in Hawaii to enroll firearms applicants and individuals who are registering their firearms into the rap back system.

SECTION 2. Section 134-2, Hawaii Revised Statutes, is amended as follows:

1. By amending subsection (e) to read:

“(e) The permit application form shall be signed by the applicant and by the issuing authority. One copy of the permit shall be retained by the issuing authority as a permanent official record. Except for sales to dealers licensed under section 134-31, or dealers licensed by the United States Department of Justice, or law enforcement officers, or where a license is granted under section 134-9, or where any firearm is registered pursuant to section 134-3(a), no permit shall be issued to an applicant earlier than fourteen calendar days after the date of the application; provided that a permit shall be issued or the application denied before the twentieth day from the date of application. Permits issued to acquire any pistol or revolver shall be void unless used within ten days after the date of issue. Permits to acquire a pistol or revolver shall require a separate application and permit for each transaction. Permits issued to acquire any rifle or shotgun shall entitle the permittee to make subsequent purchases of rifles or shotguns for a period of one year from the date of issue without a separate application and permit for each acquisition, subject to the disqualifications under section 134-7 and subject to revocation under section 134-13; provided that if a permittee is arrested for committing a felony or any crime of violence or for the illegal sale

of any drug, the permit shall be impounded and shall be surrendered to the issuing authority. The issuing authority shall perform an inquiry on an applicant [~~who is a citizen of the United States by using the National Instant Criminal Background Check System~~] by using the International Justice and Public Safety Network, including the United States Immigration and Customs Enforcement query, the National Crime Information Center, and the National Instant Criminal Background Check System, pursuant to section 846-2.7 before any determination to issue a permit or to deny an application is made. [~~If the applicant is not a citizen of the United States and may be eligible to acquire a firearm under this chapter, the issuing authority shall perform an inquiry on the applicant, by using the National Instant Criminal Background Check System, to include a check of the Immigration and Customs Enforcement databases, before any determination to issue a permit or to deny an application is made.~~]

2. By amending subsection (i) to read:

A Bill for an Act Relating to Firearms.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that section 134-7, Hawaii Revised Statutes, as a matter of public safety, prohibits the possession of firearms and ammunition by criminal offenders who have committed any felony, a crime of violence, or the illegal sale of drugs; substance abusers; persons diagnosed with a mental or emotional disorder; and persons who are subject to a restraining order or protective order. However, the prohibition does not directly apply to perpetrators of certain misdemeanor offenses, such as harassment by stalking, who may pose a significant risk of harm to others if allowed to possess firearms. A study of female murder victims in ten cities published in 1999 found that seventy-six per cent of women murdered and eighty-five per cent of women who survived a murder attempt by a current or former intimate partner experienced stalking in the year preceding the murder. J. M. McFarland, J. C. Campbell, S. Wilt, C. J. Sachs, Y. Ulrich, & X. Xu, *Stalking and Intimate Partner Femicide*, 3 Homicide Studies no. 4 300 (Nov. 1999). This and other studies demonstrate that while stalking may appear to be low-level, nonviolent behavior, it is often the first step in an escalating course of conduct that too often results in murder.

The legislature further finds that stalking and related acts of domestic abuse have been linked with gun violence. According to the Johns Hopkins Bloomberg School of Public Health's Center for Gun Policy and Research, having a gun in the home increases the risk of homicide of an intimate partner by eight times compared to households without guns and by twenty times when there is a history of domestic violence in the family. Additional studies have documented the correlation between partner stalking, sexual assault, and the propensity for partner stalkers to use firearms against their victims. T. K. Logan & J. Cole, *Exploring the Intersection of Partner Stalking and Sexual Abuse*, 17 Violence Against Women no. 7 904 (July 2011); K. Mohandie, J. R. Meloy, M. McGowan, & J. Williams, *The RECON Typology of Stalking: Reliability and Validity Based Upon a Large Sample of North American Stalkers*, 51 J. of Forensic Science no. 1 147 (Jan. 2006).

Currently, at least eleven states bar some or all individuals convicted of misdemeanor stalking from possessing firearms. As noted by the United States Supreme Court in *United States v. Castleman*, 134 S.Ct. 1405, 1409 (2014), in regards to federal law, "Congress enacted [the misdemeanor domestic violence gun ban], in light of these sobering facts, to 'close a dangerous loophole' in the gun control laws: While felons had long been barred from possessing guns, many perpetrators of domestic violence are convicted only of misdemeanors."

The purpose of this Act is to enhance protections against acts of gun violence committed by individuals with a history of dangerous behavior by specifying that misdemeanor harassment by stalking and sexual assault are among the offenses that disqualify a person from owning, possessing, or controlling any firearm or ammunition.

SECTION 2. Section 134-1, Hawaii Revised Statutes, is amended by amending the definition of "crime of violence" to read as follows:

""Crime of violence" means any offense, as defined in title 37, that involves injury or threat of injury to the person of another[-], including sexual assault in the fourth degree under section 707-733 and harassment by stalking under section 711-1106.5."

ACT 110

H.B. NO. 2632

A Bill for an Act Relating to Firearms.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that keeping firearms out of the hands of people who are suffering from mental illness is critical to ensure the safety of those individuals and of the community. Tragic events caused by mass shootings that involve mental illness clearly demonstrate the need for legislative action. Under current law, if the owner of a firearm has been disqualified from owning, possessing, or controlling a firearm for a variety of reasons, including mental illness, the owner has thirty days after receiving notification of the disqualification to voluntarily surrender the firearm, after which the police chief may take possession of the firearm. There is no provision in the law that specifically addresses prompt dispossession of a person's firearms in situations that require immediate action, such as when a person is hospitalized by emergency admission due to a determination by a physician, advanced practice registered nurse, or psychologist that the person is mentally ill or suffering from substance abuse, is imminently dangerous to self or others, and is in need of care or treatment or both.

The legislature finds that the vast majority of firearm permit applicants will not be affected by this Act. Data from the crime prevention and justice assistance division of the department of the attorney general reflect that approximately one per cent of firearms permits are denied each year for any reason. Of those, only eighteen per cent are for mental health reasons. Over the last ten years, 133,000 permit applications have been granted and two hundred sixty-nine have been denied for mental health reasons.

The purpose of this Act is to:

- (1) Require the immediate surrender of a person's firearms and ammunition; or
- (2) If voluntary surrender is not effectuated, allow seizure of the same by the chief of police,

if a person has been disqualified from owning, possessing, or controlling firearms and ammunition due to a diagnosis of having a significant behavioral, emotional, or mental disorder, or due to emergency or involuntary admission to a psychiatric facility pursuant to part IV of chapter 334, Hawaii Revised Statutes. This Act also sets forth the notice requirements for such surrender or seizure of firearms and ammunition.

SECTION 2. Section 134-7.3, Hawaii Revised Statutes, is amended to read as follows:

“§134-7.3 Seizure of firearms upon disqualification. (a) If any applicant is denied a permit, the chiefs of police of the respective counties shall send, by certified mail, a notice setting forth the reasons for the denial and may require that the applicant voluntarily surrender all firearms and ammunition to the chief of police where the applicant resides or dispose of all firearms and ammunition. If an applicant fails to voluntarily surrender or dispose of all firearms and ammunition within thirty days from the date notice was mailed, the chief of police may seize all firearms and ammunition.

(b) Any person disqualified from ownership, possession, or control of firearms and ammunition under section 134-7 shall voluntarily surrender all firearms and ammunition to the chief of police where the person resides or dispose of all firearms and ammunition. If any person fails to voluntarily surrender or dispose of all firearms and ammunition within thirty days from the date of disqualification, the chief of police may seize all firearms and ammunition.

(c) For any person disqualified from ownership, possession, or control of firearms and ammunition under section 134-7(c), or because the person has been admitted to a psychiatric facility, whether for emergency or involuntary hospitalization, pursuant to part IV of chapter 334, once the chief of police is notified that the person is disqualified, the chief of police shall promptly issue a notice to the disqualified person to immediately surrender all firearms and ammunition. The notice shall be in writing, shall set forth the reasons for the disqualification, and shall state the requirement that the person immediately surrender all firearms and ammunition to the chief of police. If any person fails to voluntarily surrender all firearms and ammunition upon receiving notice, the chief of police may seize all firearms and ammunition. The firearms and ammunition shall be held in police custody until the person has been medically documented to be no longer adversely affected as provided in section 134-7 or until transferred or sold by the owner. Nothing in this subsection shall be construed to limit the duties imposed by subsection (b).

~~[(e)]~~ (d) For the purposes of this section, “dispose” means selling the firearms to a gun dealer licensed under section 134-31, transferring ownership of the firearms to any person who meets the requirements of section 134-2, or surrendering all firearms to the chief of police where the person resides for storage or disposal; provided, for a person subject to section 134-7(f), “dispose” shall not include transferring ownership of the firearms to any person who meets the requirements of section 134-2.

~~[(d)]~~ (e) The chief of police of the respective counties shall adopt procedures to implement and administer the provisions of this section by December 31, 2001.”

SECTION 3. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval.

ACT 116

H.B. NO. 801

A Bill for an Act Authorizing the Issuance of Special Purpose Revenue Bonds for Sunstrong LLC, a Renewable Energy Developer Serving the General Public in Providing Electric Energy.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that climate change and its severe effects and shoreline erosion impact the lives and livelihoods of Hawaii’s people. There is currently an increasing focus on reducing harmful air emissions from fossil fuels, such as oil and coal, as a possible cause of greenhouse gases, which impact climate change.

The legislature further finds that global fossil fuel prices and concerns about energy security in Hawaii are the impetus locally to acquire renewable resources as a source of energy. Hawaii is extremely well-situated to harness strong trade winds and abundant sunlight to provide renewable energy. SunStrong LLC has considerable experience in installing renewable energy projects using special purpose revenue bonds as a financing instrument.

The legislature finds and declares that the issuance of special purpose revenue bonds under this Act is in the public interest and for the public health, safety, and general welfare.

SECTION 2. Pursuant to part V, chapter 39A, Hawaii Revised Statutes, the department of budget and finance, with the approval of the governor, is authorized to issue special purpose revenue bonds in a total amount not to exceed \$50,000,000, in one or more series, for the purpose of assisting SunStrong LLC, a renewable energy developer, in serving the general public by providing renewable electric energy and installing renewable energy projects in Hawaii. The legislature hereby finds and determines that the renewable energy projects constitute a project as defined in part V, chapter 39A, Hawaii Revised Statutes, and the financing thereof is assistance to an industrial enterprise.

SECTION 3. The special purpose revenue bonds and the refunding special purpose revenue bonds issued under this Act shall be issued pursuant to part V, chapter 39A, Hawaii Revised Statutes, relating to the power to issue special purpose revenue bonds to assist industrial enterprises.

SECTION 4. The department of budget and finance is authorized, from time to time, including times subsequent to June 30, 2021, to issue special purpose revenue bonds in whatever principal amounts the department shall determine to be necessary to refund the special purpose revenue bonds authorized in section 2 and to refund special purpose revenue bonds authorized in this section, regardless of whether the outstanding special purpose revenue bonds or refunding special purpose revenue bonds have matured or are the subject of redemption or whether the refunding special purpose revenue bonds shall be bonds for the multi-project programs described in section 2. In making this determination, the department shall comply with federal law relating to the exemption from federal income taxation of the interest on bonds of the nature authorized by this section.

SECTION 5. The authorization to issue special purpose revenue bonds under this Act shall lapse on June 30, 2021.

SECTION 6. This Act shall take effect on July 1, 2016.

(Approved June 22, 2016.)

Hawaii Renewable Resources, LLC, proposes to own, design, build, and operate a project located on approximately ninety acres of agricultural lands on central O'ahu that includes:

- (3) A digester system to break down food and green waste materials to usable products;
- (4) Other processing equipment necessary to convert food waste, green waste, and other materials to renewable natural gas;
- (5) Processing equipment for production of United States Food and Drug Administration certified pig and fish pellet feeds from processed and cooked food waste;
- (6) Production of soil amendment compost from operations for use in food crop farming;
- (7) Recovery and use of carbon dioxide from renewable natural gas production for use as a plant nutrient in greenhouse food crop hydroponic vegetable farming;
- (8) Recovery of water for purification and use for farm crop irrigation; and
- (9) Production of solar electricity used to operate the facility and provide cooling for harvested vegetable crops.

In support of the project of Hawaii Renewable Resources, LLC, the use of special purpose revenue bonds issued pursuant to this Act has been carefully considered and matches similar investments for infrastructure projects of this type. The issuance of special purpose revenue bonds will also provide critical financial flexibility to support the project initiatives and the deployment of internal capital. Through the utilization of special purpose revenue bonds as a means of funding, Hawaii Renewable Resources, LLC, will provide the public with benefits derived from utilization of alternative energy, without investment or operational risk to the State or counties.

In making this determination, the department shall comply with federal law relating to the exemption from

federal income taxation of the interest on bonds of the nature authorized by this section.

SECTION 5. The authorization to issue special purpose revenue bonds under this Act shall lapse on June 30, 2021.

ACT 123

S.B. NO. 2670

A Bill for an Act Relating to Behavior Analysts.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that licensure for the practice of behavior analysis in Hawaii is needed for the public's health, safety, and welfare. Act 199, Session Laws of Hawaii 2015, codified as chapter 465D, Hawaii Revised Statutes, established standards for the licensing of behavior analysts to address the present and critical need to ensure that persons requiring diagnosis and treatment for autism receive the care they need. Act 199 recognized that behavior analysts and the practice of behavior analysis should be subject to regulation and control to protect the public from unqualified practitioners and from unprofessional conduct. Additionally, health insurance plans in the State will only provide reimbursement for services from behavior analysts who are licensed in the State. The legislature finds that licensure of behavior analysts is necessary for both client protection and access to services.

Current licensure requirements exempt registered and credentialed behavior technician paraprofessionals who, under the direction of a licensed behavior analyst implement behavior plans designed and developed by the licensed behavioral analyst. The legislature finds that there are currently more than three hundred individuals in the State who receive behavior intervention services from paraprofessional providers who implement behavior plans developed by behavioral specialists through the State's Developmental Disabilities Medicaid Waiver program. While ensuring the provision of quality services by properly trained providers is of the utmost importance, the State's current credentialed workforce is inadequate to meet present needs. If current, non-credentialed providers are unable to continue to serve their clients, hundreds of Medicaid waiver recipients will face withdrawal of care and may become at-risk for self-harm or harm to others.

Thus, policies that ensure that a qualified workforce can continue to provide necessary behavior interventions for Medicaid waiver recipients while simultaneously facilitating efforts to build an adequate workforce of credentialed paraprofessionals and licensed professionals to implement behavior plans are imperative.

Initial costs for behavior analyst licensure and annual fees to maintain this license can total over \$1,000, which can be a significant expenditure for behavior analysts, many of whom are paid hourly with minimal benefits. Reducing the surcharge on the license and renewal fee will ease the financial burden of behavior analyst licensing, thereby encouraging the licensure of behavior analysts and increasing the number of licensed behavior analysts available to the public.

The purpose of this Act is to ensure that behavioral services continue to be available for clients who depend on them while facilitating the long-term development of an adequate professional and paraprofessional workforce by:

- (1) Reducing the surcharge for behavior analyst licensing from \$100 to \$50; and
- (2) Enabling the continued availability of necessary behavior intervention services for Medicaid waiver recipients.

SECTION 2. Section 465D-6, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Upon issuance of a new license and at each license renewal period, each behavior analyst shall pay, in addition to a license fee or renewal fee, a surcharge of [~~\$100,~~] \$50, which shall be maintained in a separate account within the compliance resolution fund established pursuant to section 26-9(o). At the end of each quarter, the moneys contained in the separate account established pursuant to this section shall be transferred to the compliance resolution fund until such time that the total transferred amounts equal the amount appropriated in section 5 of Act 199, Session Laws of Hawaii 2015. Thereafter, no surcharge shall be assessed, and any funds in excess of the amount appropriated in section 5 of Act 199, Session Laws of Hawaii 2015, shall be deposited into the compliance resolution fund.”

SECTION 3. Section 465D-7, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) This chapter is not intended to restrict the practice of other licensed or credentialed healthcare practitioners practicing within their own recognized scopes of practice and shall not apply to:

- (1) An individual working within the scope of practice or duties of another licensed profession that overlaps with the practice of behavior analysis; provided that the person does not purport to be a behavior analyst;
- (2) An individual who implements or designs applied behavior analysis services and possesses board certification as an assistant behavior analyst by the Behavior Analyst Certification Board and who practices in accordance with the most recent supervisory and ethical requirements adopted by the Behavior Analyst Certification Board under the direction of a behavior analyst licensed in this State;
- (3) An individual who directly implements applied behavior analysis services [~~is~~] and:
 - (A) Is credentialed as a registered behavior technician by the Behavior Analyst Certification Board, and is under the direction of a behavior analyst licensed in this State; or
 - (B) Is a direct support worker who provides medicaid home and community-based services pursuant to section 1915(c) of the Social Security Act on or before January 1, 2019;

For purposes of this paragraph, “direct support worker” means a paraprofessional who directly implements intervention or assess-

ment plans under supervision and does not design intervention or assessment plans;

- (4) A family member implementing an applied behavior analysis plan within the home who acts under the direction of a behavior analyst licensed in this State;
- (5) An individual who engages in the practice of behavior analysis with nonhuman or nonpatient clients or consumers including but not limited to applied animal behaviorists and practitioners of organizational behavior management;
- (6) A matriculated graduate student or postdoctoral fellow whose activities are part of a defined behavior analysis program of study, practicum, or intensive practicum; provided that the student's or fellow's activities or practice is directly supervised by a behavior analyst licensed in this State or an instructor in a Behavior Analyst Certification Board-approved course sequence; or
- (7) An individual pursuing experience in behavior analysis consistent with the Behavior Analyst Certification Board's experience requirements; provided that the experience is supervised by a behavior analyst licensed in this State."

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval; provided that section 3 shall apply retroactive to January 1, 2016.

(Approved June 22, 2016.)

ACT 125

S.B. NO. 2647

A Bill for an Act Relating to Natural Resources.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the trafficking of animals threatened with extinction continues to grow at an alarming pace, threatening an increasing variety of animal species. The threat of extinction is due in large part to the trafficking of animal parts and products. The National Strategy for Combating Wildlife Trafficking, released in February 2014, recognized the important role that states have in protecting species that are subject to illegal wildlife trade. Federal law regulates the transfer and importation of parts or products made from endangered and threatened animal species, but due to the increasing demand for these products around the world, it is important to align state authority with federal and international laws to appropriately regulate these markets on a local level.

The legislature further finds that the most effective way to discourage illegal trafficking is to eliminate markets and profits. It is in the public interest to protect animal species threatened with extinction by prohibiting within the State, with certain limited exceptions, the sale, offer for sale, purchase, trade, possession with intent to sell, or barter for any part or product of any species of elephant (Elephantidae), mammoth (Mammuthus), rhinoceros (Rhinocerotidae), tiger (Panthera tigris), great ape (Hominoidea), shark and ray (Elasmobranchii), sea turtle (Chelonioidae), walrus (Odobenus rosmarus), narwhal (Monodon monoceros), whale (Cetacea), hippopotamus (Hippopotamus amphibius), monk seal (Neomonachus), lion (Panthera leo), pangolin (Manis), cheetah (Acinonyx jubatus), jaguar (Panthera onca), and leopard (Panthera pardus) identified as threatened with extinction by the Convention on International Trade in Endangered Species and the Endangered Species Act. These animals represent some of the most trafficked species threatened with extinction according to illegal wildlife product seizure data gathered by the World Wildlife Fund-TRAFFIC, International Union for the Conservation of Nature, and other international conservation organizations.

The legislature further finds that in September 2015, the United States and China announced a cooperative effort to take comprehensive action to curb wildlife trafficking, including significant restrictions on the import of ivory as hunting trophies and halting the domestic commercial trade of ivory. As the host of the upcoming International Union for the Conservation of Nature World Conservation Congress with the United States in September 2016, it is important to demonstrate Hawaii's continuing leadership in global conservation challenges such as international wildlife trafficking and endangered species protection.

The purpose of this Act is to improve coordination between state and other government authorities as encouraged in section 183D-8, Hawaii Revised Statutes, and to remove any potential conflicts of law that unintentionally make Hawaii an attractive market for illegal wildlife trafficking as other countries and states pass legislation to protect global populations of endangered species.

SECTION 2. Chapter 183D, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§183D- Wildlife trafficking; prohibited. (a) No person shall sell, offer to sell, purchase, trade, possess with intent to sell, or barter for any part or product from the following animal family, genus, or species: elephant (Elephantidae),

rhinoceros (*Rhinocerotidae*), tiger (*Panthera tigris*), great ape (*Hominoidea*), hippopotamus (*Hippopotamus amphibius*), lion (*Panthera leo*), pangolin (*Manis*), cheetah (*Acinonyx jubatus*), jaguar (*Panthera onca*), or leopard (*Panthera pardus*).

(b) Unless otherwise authorized by federal law including the Marine Mammal Protection Act, 16 United States Code, chapter 31, no person shall sell, offer to sell, purchase, trade, possess with intent to sell, or barter for any part or product from the following marine family, genus, or species: sea turtle (*Chelonioidae*), monk seal (*Neomonachus*), narwhal (*Monodon monoceros*), whale (*Cetacea*), or walrus (*Odobenus rosmarus*) insofar as the species, subspecies, or distinct population segment is listed:

(1) On appendix I or II of the Convention on International Trade in Endangered Species; or

(2) As endangered or threatened under the Endangered Species Act.

(c) Unless otherwise authorized by federal law including the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. section 1851 et seq.) as amended, no person shall sell, offer to sell, purchase, trade, possess with intent to sell, or barter for any part or product from rays and sharks (*Elasmobranchii*) insofar as the species is listed:

(1) On appendix I of the Convention on International Trade in Endangered Species; or

(2) As endangered or threatened under the Endangered Species Act.

(d) No person shall sell, offer to sell, purchase, trade, possess with intent to sell, or barter for any part or product from mammoth (*Mammuthus*), although the species is extinct.

(e) To the extent permitted under federal law, none of the prohibitions set forth in this section shall apply if:

(1) The covered animal species part or product is part of a bona fide antique; provided that:

(A) The antique status of such a part or product is established by the owner or seller thereof with historical documentation showing the antique to be not less than one hundred years old;

(B) The covered animal species part or product is less than twenty per cent by volume of such an antique; and

(C) The covered animal species part or product is a fixed component or components of a larger manufactured item and is not, in its current form, the primary source of value of the item;

(2) The distribution of the covered animal species part or product is:

(A) For a bona fide educational or scientific purpose; or

(B) To or from a museum;

(3) The distribution of the covered animal species part or product is to a legal beneficiary of an estate, trust, or other inheritance;

(4) The covered animal species part or product is less than twenty per cent by volume of a gun, knife, or musical instrument, including without limitation string instruments and bows, wind and percussion instruments, and pianos, if the owner or seller provides historical documentation showing the item was manufactured no later than 1975 and the covered animal species part or product is a fixed component or components of a larger manufactured item and is not, in its current form, the primary source of value of the item;

(5) The sale, offer for sale, purchase, trade, possess with intent to sell or barter of the covered animal species part or product is expressly authorized by federal law or permit; or

(6) The activity is authorized under section 183D-6.

(f) There is established a rebuttable presumption of possession with intent to sell a covered animal species part or product when the part or product is possessed by a retail or wholesale establishment or other forum engaged in the business of buying or selling similar items. This rebuttable presumption shall not preclude a finding of intent to sell based on any other evidence that may serve to independently establish such intent.

(g) None of the prohibitions set forth in this section shall apply to traditional cultural practices expressly protected under article XII, section 7, of the state constitution.

(h) For the purposes of this section, "covered animal species part or product" means any item that contains, or is wholly or partially made from, any covered animal species.

(i) The department of land and natural resources may adopt rules pursuant to chapter 91, as needed, to further implement or enforce this section."

SECTION 3. Section 183D-5, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) Any person violating section 183D-, 183D-25.5, 183D-26, 183D-27, 183D-32, 183D-62, or 183D-64 shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished as follows:

- (1) For a first conviction by a mandatory fine of not less than \$200, or by imprisonment of not more than one year, or both;
- (2) For a second conviction within five years of a previous conviction, by a mandatory fine of not less than \$1,000, or by imprisonment of not more than one year, or both, and all firearms, animal parts, products, or items containing prohibited animal parts or products used in the commission of the violations shall be considered contraband to be forfeited to and disposed of by the State; and
- (3) For a third or subsequent conviction within five years of the first two or more convictions, by a mandatory fine of not less than \$2,000, or by imprisonment of not more than one year, or both, and all firearms, animal parts, products, or items containing prohibited animal parts or products used in the commission of the violations shall be considered contraband to be forfeited to and disposed of by the State."

SECTION 4. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 5. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 6. New statutory material is underscored.¹

SECTION 7. This Act shall take effect upon its approval; provided that there shall be no enforcement actions pursuant to this Act prior to June 30, 2017.

ACT 127

S.B. NO. 2561

A Bill for an Act Relating to Rental Housing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address rental housing. More specifically, this Act:

- (1) Establishes an affordable rental housing goal; and
- (2) Establishes a special action team on affordable rental housing, led by the director of the office of planning, to make recommendations on actions to promote rental housing.

SECTION 2. For the period from 2015 to 2025, Hawaii will require an additional 64,700 housing units to meet projected long-term housing demands. Of this amount, 22,247 households of all income levels will require rental units.

The need for affordable rental units is particularly acute for households with low incomes. Approximately ninety-three to ninety-five per cent of rental unit tenants have a household income of less than one hundred forty per cent of the median Hawaii income. According to the Affordable Rental Housing Study Update, 2014, prepared for the department of community services, city and county of Honolulu:

The rule of thumb is that renter families generally come from the lower income part of our community, and economists and housing analysts think of this in terms of them making 80% of the area's median income, or AMI, or lower. It bears repeating that those making at or under than [sic] 60% and those at or under 30% of AMI are facing no rental unit availability, meaning crowding up or homelessness.

Relative to what has been supplied, the number of rental units affordable to those making 80% (and 60%, and 50%, and 30% of AMI), the supply/demand imbalance is tremendous, in quantitative terms. During the 10-year period from 2004-2013, just over 4,500 affordable rental units were delivered statewide with government assistance. (Source: HHFDC) To wit, there simply is an insufficient number of them being supplied, either in the affordable, the subsidized or the market-rate rental markets.

The lack of supply leads to higher rents for households of all income levels, leaving all tenants with less disposable income, increasing the personal stress of tenants, reducing tenant quality of life, and exacerbating the population overcrowding and homelessness problems. Without sufficient affordable rental housing, the future social, community, and economic consequences for Hawaii may be dire.

Although many reasons contribute to the lack of affordable rental units for low- and moderate-income households, the primary reason is a poor rate of return for investments in affordable rental housing projects. As the Affordable Rental Housing Study Update, 2014, succinctly states, "Simply put, affordable rental housing is unprofitable, so the market won't address the need by itself." Government regulations that restrict affordable housing development and lengthen the time tenants qualify for affordable rental housing also contribute to the lack of affordable rental housing.

Given these barriers, the legislature finds that the lack of affordable rental housing requires the concentrated attention of state government at the highest level. Thus, the legislature believes that the establishment of an affordable rental housing goal and special action team to make recommendations to achieve the goal are imperative.

SECTION 3. Goal for affordable rental housing units. (a) The legislature establishes the goal for state government, by itself or jointly with other parties, to develop or vest the development of at least 22,500 affordable rental housing units, ready for occupancy between January 1, 2017, and December 31, 2026.

- (b) For the purpose of measuring progress toward achieving the goal:
- (1) Fee simple residential units, rental housing units that are not affordable, and units in resort, commercial, industrial, or other uses on or before December 31, 2016, that are subsequently converted to affordable rental units, shall be counted as having been developed between January 1, 2017, and December 31, 2026; and
 - (2) Affordable rental housing units that have all entitlements for construction on or before December 31, 2016, but are completed and ready for occupancy after that date, shall not be counted as having been developed between January 1, 2017, and December 31, 2026.

SECTION 4. Definitions. For the purpose of this Act:

"Affordable rental housing unit" means a privately-owned residential unit that the owner:

- (1) Has completed the construction, reconstruction, renovation, repair, or acquisition of after December 31, 2016; and
- (2) Pledges to comply and require each manager or successor owner of the unit to comply with the following for a period of at least thirty years:
 - (A) Rent the unit to a family with an annual income of not more than one hundred forty per cent of the area median income for a family of the same size; and
 - (B) Charge a monthly rent, excluding utility expenses, for the unit that does not exceed thirty per cent of the family's monthly income.

The thirty-year period shall be measured from the date of issuance of the certificate of occupancy for the unit or, if no certificate of occupancy was necessary for the unit after December 31, 2016, the date the unit was first rented to a family in accordance with paragraph (2).

"Affordable rental housing unit" includes a residential unit owned by a federal, state, or county agency for the purpose of rental to a low- or moderate-income family, as may be defined by the agency or law, as applicable.

"Area median income" means the most current median family income for an area as estimated and adjusted for family size by the United States Department of Housing and Urban Development.

"Family" includes a family of one individual.

SECTION 5. Special action team on affordable rental housing; establishment, purpose, termination. (a) There is established for administrative purposes within the office of planning a temporary special action team on affordable rental housing.

(b) The special action team is established for the special purpose of recommending actions to increase the supply of rental housing, particularly rental housing affordable to low- and moderate-income families.

(c) The special action team shall terminate on December 31, 2019; provided that the chair and members of the special action team may represent themselves as the chair or a member after December 31, 2019, when testifying or commenting on actions or recommendations of the team.

SECTION 6. Membership. (a) The special action team shall be composed of the following members:

- (1) The director of the office of planning, who shall serve as chair;
- (2) The executive director of the Hawaii housing finance and development corporation;
- (3) A member of the house of representatives, to be appointed by the speaker of the house of representatives;
- (4) A member of the senate, to be appointed by the president of the senate;
- (5) A representative from each county, to be appointed by the mayor of the respective county;
- (6) A member of the public to represent affordable housing advocacy groups, to be appointed by the governor;
- (7) A member of the public to represent non-profit developers with expertise in housing development, to be appointed by the governor; and
- (8) A member of the public to represent for-profit developers with expertise in housing development, to be appointed by the governor.

(b) A special action team member may designate another officer or employee of the member's department or agency or member's representative group to attend one or more meetings in place of the member. The special action team member shall make the designation in writing and submit it to the special action team chair before the meeting that the designee is to attend. The designation may apply to more than one meeting or the entire term of the special action team. The designation may be withdrawn at any time by written notice to the special action team chair.

A designee of a special action team member shall have all rights and privileges of the member while serving as a designee.

(c) The special action team shall regularly hold public meetings without regard to chapter 92, Hawaii Revised Statutes.

(d) Members of the special action team shall receive no additional compensation for service on the team beyond their normal compensation.

Members shall be reimbursed for expenses necessarily incurred for service on the team.

(e) The special action team may elect officers from among its members.

SECTION 7. Duties. (a) The special action team shall recommend to the governor, legislature, and other parties, actions to be taken to achieve the affordable rental housing goal set forth in section 3.

(b) To comply with subsection (a), the special action team shall recommend short- and long-term actions to:

- (1) Increase the supply of rental housing affordable for low- and moderate-income families;
 - (2) Increase the supply of rental housing for the remainder of the resident population;
 - (3) Target rental housing development in transit-oriented development areas as a top priority;
 - (4) Preserve the existing rental housing stock;
 - (5) Enhance the attractiveness of and market for rental housing relative to fee simple housing; and
 - (6) Mitigate community concerns over the development of nearby rental housing projects, particularly affordable public or private rental housing projects for low-income families and individuals.
- (c) The special action team also shall establish performance measures and timelines for the development of affordable rental housing units for the following:

- (1) Families with not more than thirty per cent of the area median income;
- (2) Families with more than thirty per cent, but not more than fifty per cent, of the area median income;
- (3) Families with more than fifty per cent, but not more than sixty per cent, of the area median income;
- (4) Families with more than sixty per cent, but not more than eighty per cent, of the area median income;
- (5) Families with more than eighty per cent, but not more than one hundred per cent, of the area median income;
- (6) Families with more than one hundred per cent, but not more than one hundred twenty per cent, of the area median income; and
- (7) Families with more than one hundred twenty per cent, but not more than one hundred forty per cent, of the area median income.

The special action team shall also recommend the agency that should monitor and periodically report on the achievement of the performance measures and compliance with the timelines.

(d) The special action team shall also address and make recommendations to reconcile the public interests that may compete against and restrict the development of rental housing. The competing public interests shall include the following:

- (1) Regulatory burden associated with developing, managing, and operating subsidized affordable housing projects;
- (2) Preservation of the environment;
- (3) Protection of the quality of life of the surrounding communities;
- (4) Devotion of scarce public resources for mixed-use projects that include fee simple, market-priced housing;
- (5) Reluctance to use more public lands for affordable rental housing development; and
- (6) Preference of most persons for low-density dwelling units.

(e) The special action team shall also develop a ten-year plan that identifies state, county, and private parcels of land that are suitable for affordable housing units. The ten-year plan shall be incorporated into the state housing plan. In identifying parcels of land, the special action team shall consider:

- (1) The estimated number of affordable housing units the parcel of land can sustain;
- (2) What infrastructure challenges there are in developing affordable housing units on the parcel of land; and

- (3) The estimated cost to develop affordable housing units and address the infrastructure challenges on the parcel of land.
- (f) In the performance of its duties, the special action team shall periodically consult with the Hawaii interagency council on homelessness.

SECTION 8. Annual reports. The special action team shall submit reports to the legislature of its findings, recommendations, and progress with the ten-year plan no later than twenty days prior to the convening of the regular sessions of 2017, 2018, and 2019.

ACT 128

S.B. NO. 2566

A Bill for an Act Relating to Housing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that more affordable rental housing is needed by the people of Hawaii. The rental housing revolving fund is the main source of capital from the State for affordable rental housing projects. Thus, the legislature finds that the rental housing revolving fund should be augmented to enable the development of more affordable rental housing projects.

The legislature further finds that the rental assistance revolving fund has a balance in excess of the immediate needs of the fund. Furthermore, the rental assistance revolving fund is not particularly robust, and the legislature finds that its proceeds should be transferred to the rental housing revolving fund.

The purpose of this Act is to provide capital for the development of affordable rental housing by transferring excess moneys from the rental assistance revolving fund, established pursuant to section 201H-123, Hawaii Revised Statutes, to the rental housing revolving fund, established pursuant to section 201H-202, Hawaii Revised Statutes.

ACT 129

SECTION 2. On July 1, 2016, \$9,500,000 from the rental assistance revolving fund shall be transferred to the rental housing revolving fund.

The legislature finds that the transferred amount is in excess of the immediate needs of the rental assistance revolving fund.

SECTION 3. The director of finance shall effectuate the transfer required by section 2.

SECTION 4. This Act shall take effect on July 1, 2016.

(Approved June 29, 2016.)

ACT 129

S.B. NO. 2833

A Bill for an Act Relating to the Low-Income Housing Tax Credit.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 235-110.8, Hawaii Revised Statutes, is amended to read as follows:

The amount of the credit shall be deductible from the taxpayer's net income tax liability, if any, imposed by this chapter for the taxable year in which the credit is properly claimed on a timely basis. A credit under this section may be claimed whether or not the taxpayer claims a federal low-income housing tax credit pursuant to section 42 of the Internal Revenue Code.

(c) ~~[The]~~ For any qualified low-income building that receives an allocation prior to January 1, 2017, the amount of the low-income housing tax credit that may be claimed by a taxpayer as provided in subsection (b) shall be fifty per cent of the applicable percentage of the qualified basis of each building located in Hawaii. The applicable percentage shall be calculated as provided in section 42(b) of the Internal Revenue Code.

to the full amount of state credits allocated to the qualified low-income building by the corporation:

- (2) For the sixth year, zero, except that, if, and only if, the amount of credits allowed for the first five years is less than the full amount of state credits allocated by the corporation for the qualified low-income building, an amount necessary to bring the amount of the state credits to the full amount allocated by the corporation for the qualified low-income building; and
- (3) For any remaining years, zero.

~~[(g)]~~ (h) The state housing credit ceiling under section 42(h) shall be zero for the calendar year immediately following the expiration of the federal low-income housing tax credit program and for any calendar year thereafter, except for the carryover of any credit ceiling amount for certain projects in progress which, at the time of the federal expiration, meet the requirements of section 42.

~~[(h)]~~ (i) The credit allowed under this section shall be claimed against net income tax liability for the taxable year. For the purpose of deducting this tax credit, net income tax liability means net income tax liability reduced by all other credits allowed the taxpayer under this chapter.

A tax credit under this section that exceeds the taxpayer's income tax liability may be used as a credit against the taxpayer's income tax liability in subsequent years until exhausted. All claims for a tax credit under this section shall be filed on or before the end of the twelfth month following the close of the taxable year for which the credit may be claimed. Failure to properly and timely claim the credit shall constitute a waiver of the right to claim the credit. ACT 130

Section 469 (with respect to passive activity losses and credits limited) of the Internal Revenue Code shall be applied in claiming the credit under this section.

S.B. NO. 3077

A Bill for an Act Relating to Statewide Community Planning.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that with Honolulu’s construction of an elevated rail transit system, the State has an opportunity to enhance Oahu’s urban environment and increase the quality of life for residents by utilizing sound smart growth and transit-oriented development principles to revitalized neighborhoods and increase affordable housing inventory, among other public benefits. As the largest landowner of properties along the transit line, with approximately two thousand acres under the jurisdiction of various departments, the State must be proactive and coordinate planning and development efforts among state agencies to maximize the benefits of redevelopment of state lands in areas served by public transit.

The legislature further finds that in 2015, the ad-hoc state transit-oriented development task force was convened to identify and determine priority sites and projects that should be considered for transit-oriented development master

planning and development. Task force members included state and city and county agencies, elected officials, and numerous private individuals and entities. In December 2015, the task force submitted a report to the legislature, which included various recommendations such as formally constituting the state transit-oriented development task force to promote effective and efficient transit-oriented development planning and coordination among state agencies and counties statewide.

To ensure that the State has a unified vision and approach toward redevelopment of its properties, the purpose of this Act is to:

- (1) Designate the office of planning as the lead agency to coordinate and advance smart growth and transit-oriented development planning in the State; and
- (2) Establish an interagency council for transit-oriented development within the department of business, economic development, and tourism to coordinate effective and efficient transit-oriented development planning statewide.

- (6) Recommend policy, regulatory, and statutory changes, and identify resource strategies for the successful execution of the strategic plan;

- (1) Coordinate with the counties on transit-oriented development;
 - (2) For each county, compile an inventory of state, county, and private sector transit-oriented development projects lacking infrastructure, identifying the type of infrastructure each project lacks, and the approximate timeframe when additional capacity is needed;
 - (3) Prioritize the development of transit-oriented development projects, including mixed use and affordable and rental housing projects, on state lands;
 - (4) Identify financing and prioritize state financing for the public infrastructure, facility, and service investments required to support transit-oriented development, mixed use, and affordable and rental housing project plans; and
 - (5) Encourage and promote partnerships between public and private entities to identify, renovate, and secure affordable housing options on state lands within county-designated transit-oriented development areas or within a one-half-mile radius of public transit stations, if a county has not designated transit-oriented development zones.

ACT 131

H.B. NO. 2293

A Bill for an Act Relating to the Hawaii Housing Finance and Development Corporation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that traditional zoning and land use designations are no longer adequate to meet current development trends. Mixed-use zoning encourages smart growth, and the development of compact, higher-density communities consisting of walkable areas with housing, jobs, shops, and services located within close proximity. Mixed-use developments are especially beneficial for low- and moderate-income households because they reduce transportation costs, traffic congestion, and the number of vehicle miles traveled by community residents.

The legislature further finds that pursuant to section 201H-44, Hawaii Revised Statutes, the Hawaii housing finance and development corporation is authorized to develop commercial, industrial, and other properties in connection with the development of any dwelling units if it determines that the uses can be “an integral part of the development and can help to preserve the lifestyles of the purchasers of dwelling units in the development.” Broadening this authority

to include development of multifamily rental housing would further enable the corporation to facilitate the development of affordable dwelling units in areas with mixed-use zoning.

The legislature also finds that under current law, the Hawaii housing finance and development corporation is authorized to develop certain types of facilities in partnership with the department of education and the department of accounting and general services. Expanding this authority to include other state and county governmental agencies would enable the corporation to use its development powers in partnership with any governmental agency that holds developable land.

The purpose of this Act is to enable the Hawaii housing finance and development corporation to develop mixed-use developments in partnership with state and county departments and agencies, as well as to further the objective of encouraging walking and active areas by locating affordable housing, jobs, shops, and services within close proximity.

SECTION 2. Section 201H-12, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) The corporation, in its own behalf or on behalf of any federal, state, or county agency, may:

- (1) Clear, improve, and rehabilitate property;
- (2) Plan, develop, construct, and finance housing projects~~;~~, including mixed-use developments; and
- (3) In cooperation with any state or county department or agency, including the department of education and department of accounting and general services, plan [educational] facilities and related infrastructure as [a necessary and] an integral part of its housing projects, including mixed-use developments, using all its innovative powers toward achieving that end expeditiously and economically; provided that [the educational] facilities developed in cooperation with the department of education comply with the department of education’s educational [specifications, timelines, and siting] objectives and requirements.

For purposes of this subsection, “mixed-use developments” means a development that contains affordable residential dwelling units that may be combined with governmental, educational, commercial, cultural, institutional, or industrial uses; is approved by the county in which the project is located; and is subject to: chapter 104; title 40 United States Code sections 3141, 3142, 3143, 3144, 3146, and 3147; or a project labor agreement by law or contract in the construction of the project.”

SECTION 3. Section 201H-44, Hawaii Revised Statutes, is amended to read as follows:

~~“[§201H-44]~~ **Commercial, industrial, and other uses.** (a) In connection with the development of any dwelling units under this chapter, the corporation may also develop commercial, industrial, and other properties if it determines that the uses can be an integral part of the development ~~[and] or~~ can help to ~~[preserve]~~ enhance the lifestyles of ~~[the purchasers of dwelling units in]~~ residents of the development. The corporation may designate any portions of the development for commercial, industrial, or other use and shall have all the powers granted under this chapter with respect thereto, including the power to bypass statutes, ordinances, charter provisions, and rules of any government agency

pursuant to section 201H-38. For this purpose, the corporation may use any of the funds authorized under this chapter.

(b) The corporation shall adopt rules that shall provide the manner in which the uses of properties shall be designated, and shall provide that any commercial, industrial, or other properties so developed shall be sold or leased at cost or at economic rents or sales prices. ~~[Sale or lease shall be made at cost to owners of commercial, industrial, or other facilities displaced by the corporation. All other leases or sales shall be at economic rents or sales prices determined by the corporation, after appraisal, to be consistent with rents or sales prices in similar locations or with similar terms.]~~ The net proceeds of all such sales or leases, less costs to the corporation, shall be deposited in the dwelling unit revolving fund.

ACT 132

H.B. NO. 2305

A Bill for an Act Relating to the Dwelling Unit Revolving Fund.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that orderly and planned infrastructure construction is the foundation for planned population growth and desirable communities. It is a public purpose for which public funds should be appropriated and expended. Infrastructure construction should be coordinated and timed or phased with planned development. Adequate infrastructure to accommodate future growth would provide livable communities with a desirable quality of life, make possible strategically situated affordable housing near jobs, and allow necessary infrastructure capacity to support development. Based on population projections prepared by the State, the individual counties would first plan and determine where growth is desirable and then proceed to construct, in coordination with applicable state agencies, the infrastructure to support the planned growth in those areas.

Population increase will occur, and economic growth is necessary. Therefore, both should be planned for properly. Prior experience indicates that the lack of adequate infrastructure is a severe constraint to future growth. For example, as Honolulu plans for its new fixed guideway system, discussion will focus on quality of life issues as the community begins to balance higher densities in and around the transit corridor with the need to protect open space and agricultural areas. Infrastructure capacity must be increased to accommodate higher densities in and around the transit corridor. While this problem is most evident on Oahu, the neighbor islands also suffer from lack of infrastructure capacity to

accommodate future growth. It is necessary to assist all counties, in accordance with an orderly and predictable plan for increasing infrastructure capacity, to better utilize existing areas for planned growth and mitigate impacts to areas that are appropriate for growth.

The State's role in dealing with this growth would be to provide coordination with the counties on "regional state infrastructure" construction in areas of planned growth. Although the primary responsibility for meeting basic municipal infrastructure needs continues to reside with the counties, much of the work will need to be coordinated with the State for "regional state infrastructure improvements." Infrastructure projects included under this Act are regional sewer, water, drainage, roads, and telecommunications and broadband, if a project increases the capacity to accommodate future growth, and not solely benefit one particular project. Increased capacity is distinguishable from maintenance. While maintenance would increase the life of the facility or infrastructure, only projects that would result in increased infrastructure capacity would be eligible for supplemental funding under this Act.

The purpose of this Act is to provide grants and loans to state agencies, and loans to the counties and private developers for infrastructure improvements. Furthermore, the intent of this Act is to allow for innovative financing techniques, such as tax increment financing and improvement districts, to fund loans based upon the use of the new infrastructure capacity.

SECTION 2. Chapter 201H, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§201H- Regional state infrastructure subaccounts. (a) The corporation, upon request by a county, may establish and operate a regional state infrastructure subaccount within the dwelling unit revolving fund established pursuant to section 201H-191 for the benefit of the housing and mixed-use transit-oriented development projects within the county.

(b) Each regional state infrastructure subaccount shall consist of the following sources of revenue:

- (1) Moneys received by the corporation from counties for the repayment of the loan principal and the payment of simple interest from various assessments or fees from special improvement districts, improvement districts, tax increment financing districts, community facilities districts, and other areas where property value increases are captured over periods of time for the purposes of infrastructure financing;
- (2) Appropriations from the legislature;
- (3) Federal grants and subsidies to the State or counties;
- (4) Private investments; and
- (5) Voluntary contributions.

(c) The corporation shall expend revenues in the subaccounts to make grants and loans to state agencies, and loans to counties or private developers, for the costs, in whole or in part, of infrastructure improvements that would increase the capacity of the infrastructure facilities, including regional sewer systems, water systems, drainage systems, roads, and telecommunications and broadband.

Grants and loans shall be made only for capital improvement projects approved by the respective county council and mayor, or state agency, as applicable, with a view towards planned growth rather than upkeep and maintenance.

(d) Eligible costs shall include those for planning, design, feasibility studies, construction, and materials. No grant or loan shall be made:

- (1) For maintenance or repair costs unless the construction would simultaneously increase the carrying capacity of the infrastructure facility; or
- (2) Solely for mass transit or electrical utilities.

The corporation may also expend revenues in the subaccounts to repay private investors for their investment plus any interest accrued on their investments made into the subaccounts to finance, in whole or in part, infrastructure improvements that would increase the capacity of the infrastructure facilities, including regional sewer systems, water systems, drainage systems, roads, and telecommunications and broadband.

(e) The corporation may accept improved land from the counties or private developers in repayment of their loans.

(f) The corporation shall adopt rules in accordance with chapter 91 for the purposes of this section.”

SECTION 3. Section 201H-191, Hawaii Revised Statutes, is amended to read as follows:

~~“[§201H-191] Dwelling unit revolving fund. (a) There is created a dwelling unit revolving fund. The funds appropriated for the purpose of the dwelling unit revolving fund and all moneys received or collected by the corporation for the purpose of the revolving fund shall be deposited in the revolving fund. The proceeds in the revolving fund shall be used to reimburse the general fund to pay the interest on general obligation bonds issued for the purposes of the revolving fund, for the necessary expenses in administering housing development programs[;] and regional state infrastructure programs, and for carrying out the purposes of housing development programs[;] and regional state infrastructure programs, including but not limited to the expansion of community facilities and regional state infrastructure constructed in conjunction with housing and mixed-use transit-oriented development projects, permanent primary or secondary financing, and supplementing building costs, federal guarantees required for operational losses, and all things required by any federal agency in the construction and receipt of federal funds or low-income housing tax credits for housing projects.~~

~~(b) Subject to the requirements of subsection (a), proceeds in the revolving fund may be used to establish and operate regional state infrastructure subaccounts pursuant to section 201H- .”~~

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 5. This Act shall take effect on July 1, 2016.

ACT 133

H.B. NO. 2350

A Bill for an Act Relating to Foster Children.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the Preventing Sex Trafficking and Strengthening Families Act of 2014, Public Law 113-183, expands the opportunities for children in foster care to participate in age or developmentally

appropriate extracurricular, enrichment, cultural, and social activities equal to their classmates and peers in accordance with the “reasonable and prudent parent standard”.

The Preventing Sex Trafficking and Strengthening Families Act, title 42 United States Code section 675(10)(A), defines the “reasonable and prudent parent standard” as “the standard characterized by careful and sensible parental decisions that maintain the health, safety, and best interests of a child while at the same time encouraging the emotional and developmental growth of the child, that a caregiver shall use when determining whether to allow a child in foster care under the responsibility of the State to participate in extracurricular, enrichment, and social activities”.

The legislature further finds that qualified immunity from civil liability for injury to a child resulting from participation in extracurricular activities will encourage and allow resource caregivers and child caring institutions to make reasonable parenting decisions and will remove barriers to recruitment and retention of high quality resource caregivers. Qualified immunity from liability for resource caregivers and child caring institutions that authorize a child’s participation in ordinary childhood activities in accordance with the reasonable and prudent parent standard as defined under federal law protects and enhances the capacity of resource caregivers and child caring institutions and to encourage and support children.

The Preventing Sex Trafficking and Strengthening Families Act also requires that children in foster care who are fourteen years of age and older be included in case planning and be informed of their rights and the options available to them. The federal Act lowered the age from sixteen to fourteen years old in recognition that those children should be included in the important planning processes that will strengthen their self-sufficiency and better prepare them for successful transition from foster care into adulthood.

Compared to their peers, young people who have experienced foster care are more likely to become homeless and unemployed when they age out of foster care, are less likely to complete high school or postsecondary education, and are more likely to have physical, developmental, and mental health challenges. Unlike their peers, most lose their support system when they reach age eighteen and are discharged from state custody.

The purpose of this Act is to bring the State into compliance with the Preventing Sex Trafficking and Strengthening Families Act of 2014; expand the opportunities for children in foster care to participate equally with their classmates and peers by providing qualified immunity from liability for resource caregivers and child caring institutions for their decisions regarding the child’s participation in age or developmentally appropriate extracurricular, enrichment, cultural, and social activities; and require courts, in proceedings for children aged fourteen years or older, to make findings and include in the permanent plan the services needed to assist the child to transition from foster care to independent living.

SECTION 2. Section 346-16, Hawaii Revised Statutes, is amended by amending the definition of “foster boarding home” to read as follows:

- (2) A child abuse and neglect registry check on all operators, employees, and new employees of child care institutions, child placing organizations, and adults residing in a ~~[foster boarding]~~ resource family home subject to licensure in accordance with departmental procedures.

(k) The department may deny a certificate of approval if an operator, employee, or new employee of a child care institution or child placing organization's facility, or any adult residing in a ~~[foster boarding]~~ resource family home, was convicted of a crime other than a minor traffic violation involving a fine of \$50 or less and if the department finds that the criminal history record or child abuse registry history of an operator, employee, new employee, or adult residing in a ~~[foster boarding]~~ resource family home poses a risk to the health, safety, or well-being of the children in care.

(l) The department or its designee shall make a name inquiry into the criminal history records for the first two years of certification of a ~~[foster boarding]~~ resource family home and annually or biennially thereafter and into the child abuse and neglect registry in accordance with departmental procedures depending on the certification status of the home.

(m) Any resource caregiver or child caring institution issued a certificate of approval pursuant to this section shall be immune from liability in a civil action to recover damages for injury, death, or loss to a person or property that results by authorizing a child in the caregiver's or institution's foster care to participate in an extracurricular, enrichment, cultural, or social activity; provided that the authorization is in accordance with the reasonable and prudent parent standard as defined in title 42 United States Code section 675(10)(A).”

ACT 134

S.B. NO. 2878

A Bill for an Act Relating to Youth Transitioning from Foster Care.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that improving the transition of foster youth and former foster youth to the challenges of adulthood requires a supportive safety net and system that include an opportunity for higher education. The legislature finds that providing financial assistance for higher education for former foster youth is one important part of the supportive safety net. Existing law allows former foster youth to apply for higher education payments until the age of twenty-two. The legislature finds that for many former foster youth, readiness for higher education may come after they attain twenty-two years of age, and that extending the age to twenty-six would afford former foster youth more time to access higher education.

In further support of youth transitioning from foster care to adulthood, in 2013, the legislature passed Act 252, Session Laws of Hawaii 2013, creating the young adult voluntary foster care program, which became effective on July 1, 2014. However, there are some key areas regarding eligibility and program requirements that need clarification for ongoing implementation.

The purpose of this Act is to extend the deadline for former foster youth to apply for financial assistance for higher education costs from age twenty-two to age twenty-six, to clarify that financial assistance available to Hawaii's former foster youth is for related higher education costs and not specifically limited to room and board costs, and to clarify eligibility and program requirements for the ongoing implementation of the young adult voluntary foster care program.

SECTION 2. Section 346-17.4, Hawaii Revised Statutes, is amended to read as follows:

“§346-17.4 Higher education ~~[board allowances]~~ stipends for students.

(a) An eligible former foster youth shall be eligible for a higher education [board allowances] stipend after reaching the age of majority, and the higher education ~~[board allowance] stipend~~ for that former foster youth shall be paid to an ~~[accredited institution of higher education, another]~~ intermediary contracted by the department, to the former foster youth, or to the former foster youth's former [foster parents] resource caregivers, adoptive parents, or legal custodians, as appropriate; provided that:

- (1) The former foster youth is twenty-six years old or younger;
- (2) The former foster youth has submitted ~~[an]~~ a completed application for ~~[the] a higher education [board allowance through the age of twenty-one years old, except that a former foster youth who is between the ages of twenty-two years and twenty-six years on July 1, 2008, and attending an institution of higher education, may apply for a higher education board allowance after July 1, 2008, and no later than June 30, 2009;]~~ stipend six months prior to the youth's twenty-seventh birthday; and
- (3) The former foster youth is attending or has been accepted to attend an accredited institution of higher education.

(b) The higher education ~~[board allowance] stipend~~ may be issued and applied to costs incurred while the former foster youth is attending an accredited institution of higher education on a full-time basis or on a part-time basis, in accordance with rules adopted by the department.

~~[(e) Reimbursement to foster parents for the former foster youth's higher education board cost up to the maximum allowable board amount shall be made retroactive to the former foster youth's entry into an accredited institution of higher education on a full-time basis, but no earlier than July 1, 1987, or on a part-time basis for the first academic year, but no earlier than July 1, 1999.~~

~~(d) Higher education board allowances may be applied by the former foster youth to costs incurred in undertaking full-time studies or part-time studies at an institution of higher education in accordance with rules adopted by the department.~~

~~(e) (c) The duration of the total higher education [board allowance] stipend shall not exceed a cumulative total of sixty months.~~

~~(d) The amount of the higher education stipend shall be based on the financial support the department provides in accordance with rules adopted by the department.~~

~~(f) (e) The department's standards relating to income resources of foster children shall be applicable to this section.~~

~~(g) (f) Higher education [board allowances] stipends shall be provided subject to the availability of state and federal funds."~~

 - ~~(A) Under the permanent [or] custody, foster custody, voluntary foster custody, or court-ordered temporary foster custody of the department at the time the young adult attained the age of eighteen;~~
 - ~~(B) A child who was placed in guardianship after attaining the age of sixteen[;] and the legal guardians are no longer willing to provide emotional and financial support; or~~

- (1) The obligation for the young adult to continue to meet the conditions for eligibility described in section 346-395 and the program requirements for the duration of the voluntary care agreement;
- (2) The young adult’s right to terminate the voluntary care agreement at any time; and
- (3) The voluntary nature of the young adult’s participation in the young adult voluntary foster care program.”

SECTION 5. Section 346-407, Hawaii Revised Statutes, is repealed.

H.B. NO. 2084

A Bill for an Act Relating to Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that many health insurance policies and programs exclude transgender people from accessing care. Transgender people routinely experience serious and life-threatening discrimination, and the practice of denying health insurance coverage to a person based on gender identity or gender expression is against public policy.

SECTION 2. Chapter 431, Hawaii Revised Statutes, is amended by adding a new section to article 10A to be appropriately designated and to read as follows:

“§431:10A- Non-discrimination on the basis of actual gender identity or perceived gender identity; coverage for services. (a) No individual and group accident and health or sickness policy, contract, plan, or agreement that provides health care coverage shall discriminate with respect to participation and coverage under the policy, contract, plan, or agreement against any person on the basis of actual gender identity or perceived gender identity.

- (b) Discrimination under this section includes the following:
 - (1) Denying, canceling, limiting, or refusing to issue or renew an insurance policy, contract, plan, or agreement on the basis of a person's or the person's family member's actual gender identity or perceived gender identity;

 - (3) Designating a person's or the person's family member's actual gender identity or perceived gender identity as a preexisting condition to deny, cancel, or limit coverage; and
 - (4) Denying, canceling, or limiting coverage for services on the basis of actual gender identity or perceived gender identity including but not limited to the following:

 - (B) Health care services that are ordinarily or exclusively available to individuals of one sex.
- (c) The medical necessity of any treatment shall be determined pursuant to the insurance policy, contract, plan, or agreement and shall be defined in a manner that is consistent with other covered services.
- (d) Any coverage provided shall be subject to copayment, deductible, and coinsurance provisions of an individual and group accident and health or sickness policy, contract, plan, or agreement that are no less favorable than the copayment, deductible, and coinsurance provisions for substantially all other medical services covered by the policy, contract, plan, or agreement.
- (e) As used in this section unless the context requires otherwise:
 - "Actual gender identity" means a person's internal sense of being male, female, a gender different from the gender assigned at birth, a transgender person, or neither male nor female.
 - "Gender transition" means the process of a person changing the person's outward appearance or sex characteristics to accord with the person's actual gender identity.
 - "Perceived gender identity" means an observer's impression of another person's actual gender identity or the observer's own impression that the person is male, female, a gender different from the gender designed at birth, a transgender person, or neither male nor female.

- (b) Discrimination under this section includes the following:

ACT 136

H.B. NO. 1943

A Bill for an Act Relating to Long-Term Care Facilities.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that long-term care facilities in the State face major financial challenges in providing quality health care for Hawaii residents. These challenges are largely the result of payments for medicaid enrollees that do not cover the actual costs of care. Long-term care facilities have not received an inflationary update to their reimbursement rates for a number of years and, as such, have seen the gap between costs and reimbursements widen considerably. The financial effect is further magnified by the fact that roughly seventy per cent of patients in long-term care facilities are covered by the state medicaid program.

The purpose of this Act is to preserve access to health care for medicaid recipients by providing an inflationary adjustment to the long-term care reimbursement methodology used to reimburse facilities for medicaid recipients.

SECTION 2. (a) The department of human services shall recognize an annual cost increase to a long-term care facility's provider-specific prospective payment rate by applying an inflation adjustment factor to the provider's annual costs or basic prospective payment system rates.

(b) The annual inflation adjustment factor shall be the reimbursement rate approved by the federal government in the medicaid state plan.

(c) The cost increase shall only apply for fiscal year 2016-2017.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,553,559 or so much thereof as may be necessary for fiscal year 2016-2017 for the purpose of providing an inflationary adjustment to long-term care facilities' provider-specific prospective payment rates.

The sum appropriated shall be expended by the department of human services for the purposes of this Act.

SECTION 4. This Act shall take effect on July 1, 2016, and shall be repealed on June 30, 2017.

(Approved June 29, 2016.)

ACT 137

S.B. NO. 2076

A Bill for an Act Relating to Health Care.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that in 2013, the federal government established the durable medical equipment competitive bidding program in one hundred metropolitan areas across the nation. The city and county of Honolulu was included as one of those areas and is the only Hawaii locality that was required to participate.

In the years since the competitive bidding program was established, the legislature finds that the program has been harmful to beneficiaries on Oahu. The program has reduced reimbursements drastically for local providers, com-

promised the quality of care for residents, disrupted health status, and increased costs for seniors and their families.

There are numerous examples that illustrate the negative consequences of this program. For example, the minimum shipping time for equipment and supplies is two to four days, and the typical wait time for physician-ordered wheelchairs and hospital beds is four to eight weeks. This often results in discharge delays, which are very costly for the entire health care system. In order to avoid these delays, many patients and families dip into their own savings and pay the full price for the equipment themselves. In other instances, providers loan out their equipment with no guarantee the equipment will be returned.

The legislature further finds that there is also a unique problem in Hawaii of contacting vendors, since many are based on the mainland with no special phone or service hours to account for the time difference. As a result, if a beneficiary in Hawaii attempts to make any inquiry about an order after 11:00 a.m. Hawaii-Aleutian standard time, the offices are often closed.

To make matters worse, the federal government plans to roll out a form of the competitive bidding program into the neighbor islands in 2016, which will create greater challenges for rural beneficiaries when trying to access needed services, resulting in reductions in their health and quality of life.

The purpose of this Act is to establish a licensure program for suppliers of durable medical equipment, prosthetics, orthotics, and related supplies through the office of health care assurance. This licensure program will help patients in Hawaii get access to critical, life-sustaining medical supplies by setting standards of service for suppliers.

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

“PART . DURABLE MEDICAL EQUIPMENT SUPPLIER LICENSE PROGRAM

§321-A Title. This part shall be known and may be cited as the “durable medical equipment supplier license program”.

§321-B Definitions. As used in this part:

“Consumer” means a health care facility, health care professional, or health care provider, as defined in section 432E-1, or any individual who is prescribed durable medical equipment as the result of medical necessity.

“Department” means the department of health.

“Durable medical equipment” means equipment that is considered a selected product under the Centers for Medicare and Medicaid Services durable medical equipment, prosthetics, orthotics, and supplies competitive bidding program that can stand repeated use; is primarily and customarily used to serve a medical purpose; is generally not useful to a person in the absence of an illness or injury; is appropriate for use in the home; does not contain any prescription drug; and is not considered to be a specialty item, equipment, or service.

“Durable medical equipment supplier” means a person who sells, dispenses, delivers, or services durable medical equipment.

§321-C Licensing. It shall be unlawful for any person to operate as a durable medical equipment supplier that sells, dispenses, delivers, or services durable medical equipment to a consumer in the State without first obtaining a license. To receive a license, a durable medical equipment supplier shall attest and provide corroborating documentation to the department that the supplier:

- (1) Is in compliance with the business registration laws of the State and has all required tax identification numbers;
- (2) Is licensed and in good standing in the state in which its dispensing facilities are primarily located, if applicable, and complies with all applicable state and federal laws, rules, and standards;
- (3) Has designated a responsible agent or agents either in or out of the State who will be responsible for providing timely and satisfactory services to consumers in the State; provided that:
 - (A) The responsible agent or agents must be available to consumers in the State by phone during standard business hours in Hawaii to answer inquiries or resolve issues; and
 - (B) If the responsible agent or agents are not immediately available, then the supplier shall have a system capable of accepting and recording incoming phone inquiries; provided that the supplier shall respond no later than one business day after the inquiry is received;
- (4) Has implemented and maintains written procedures at each location for handling complaints and problems from all consumers, which includes a complaint file documenting complaints or problems and resolution of the complaints or problems; and
- (5) Will agree to notify consumers within two business days if the supplier cannot or will not provide the equipment, item, or service ordered; provided that suppliers may be exempt from this requirement if selling, dispensing, delivering, or servicing specialty equipment or items.

§321-D License fee. The department may assess a license fee of no more than \$350 on each durable medical equipment supplier who receives a license pursuant to section 321-C. The license fee collected shall be deposited into the office of health care assurance special fund pursuant to section 321-1.4.

§321-E Exemptions. Pharmacies licensed pursuant to chapter 461 are exempt from this part.

§321-F Rules. The department may adopt rules pursuant to chapter 91 to carry out the purpose of this part.

§321-G Severability. If any provision in this part or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect the other provisions or application of this part that can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.”

SECTION 3. Section 321-1.4, Hawaii Revised Statutes, is amended by amending subsections (a) to (c) to read as follows:

“(a) There is established within the department of health, to be administered by the department of health, the office of health care assurance special fund into which shall be deposited moneys collected under section 321-11.5(b), license fees for the administration of the durable medical equipment supplier license program collected pursuant to section 321-D, and all administrative penalties imposed and collected by the office of health care assurance pursuant to section 321-20.

(b) Moneys in the special fund shall be expended by the department of health:

(c) Any amount in the special fund in excess of ~~[\$356,000]~~ \$387,500 on June 30 of each year shall be deposited into the general fund."

SECTION 4. Section 26H-6, Hawaii Revised Statutes, shall not apply to this Act.

SECTION 5. In codifying the new sections added by section 2 of this Act, the revisor of statutes shall substitute appropriate section numbers for the letters used in designating the new sections in this Act.

SECTION 6. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 7. This Act shall take effect on January 1, 2017.

ACT 138

H.B. NO. 1878

A Bill for an Act Relating to Aging.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The legislature finds that aging and disability resource centers help older adults, individuals with disabilities, and family caregivers find options for long-term supports and services available to them in the State. The aging and disability resource centers utilize a person-centered process intended to navigate and streamline access to supports and services. The legislature additionally finds that proper funding for the aging and disability resource centers is essential to ensure that these centers provide effective single points of entry for individuals seeking information about appropriate long-term care options. Ensuring the availability of services once a consumer receives a referral, such as those offered through the kupuna care program, is also critical to the success of the aging and disability resource centers.

Furthermore, aging and disability resource centers are operated by the area agencies on aging in each county. The executive office on aging is responsi-

ble to ensure that referrals and services are provided in a prompt and responsive manner and that the aging and disability resource centers staff have the appropriate skills and training to respond to kupuna and caregivers' needs.

SECTION 2. The executive office on aging shall develop a system of evaluation to determine the effectiveness of the aging and disability resource centers in each county to ensure alignment with federal guidance on the criteria for a full-functioning aging and disability resource center. Measures shall include, but not be limited to: timeliness of response by the aging and disability resource center; caller satisfaction; and number and percentage of kupuna and caregivers who are linked to a service or resource as a result of contact with an aging and disability resource center.

The executive office on aging shall submit a report of its evaluation findings to the legislature no later than sixty days prior to the convening of the regular sessions of 2017 and 2018.

SECTION 3. The executive office on aging shall also submit a progress report to the legislature no later than sixty days prior to the convening of the regular sessions of 2017 and 2018 on its implementation of the federal No Wrong Door/aging and disability resource center network implementation grant it received in 2015.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,700,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the aging and disability resource centers.

The sum appropriated shall be expended by the department of health for the purposes of this part.

PART II

SECTION 5. The legislature finds that every year in Hawaii, on average eighty-five seniors die, 1,960 are hospitalized, and 8,700 are treated in emergency departments as a result of falls. Falls among the elderly also result in almost \$1,200,000 in hospital and physician charges. In recognition of this critical public health issue, Act 153, Session Laws of Hawaii 2014, established a fall prevention and early detection services coordinator position within the department of health's emergency medical services and injury prevention system branch. This position enables the department of health to support a coordinated statewide approach to prevent and reduce the impact of falls among older adults. Act 153 funded a new position for a fall prevention and early detection coordinator for fiscal year 2014 to 2015.

The legislature further finds that access to fall prevention services and programs would significantly reduce costs associated with falls in the elderly by expediting treatment, minimizing serious long-term consequences, reducing the extent of the injury, and in some instances, avoiding death.

Falls among the elderly are a significant public health issue. Yet, currently, there are insufficient resources to develop a coordinated statewide approach to reduce and promptly detect falls among the elderly. The program serves as a focal point for statewide injury prevention and detection efforts to ensure multidisciplinary support, coordination of prevention and detection efforts, and continuity of implementation and accountability.

The purpose of this part is to assure a continued focus on fall prevention in Hawaii, which will ultimately result in longer, healthier lives for the State's aging population.

ACT 139

SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$32,000 or so much thereof as may be necessary for fiscal year 2016-2017 for fall prevention and early detection services for the elderly.

The sum appropriated shall be expended by the department of health for the purposes of this part.

PART III

SECTION 7. This Act shall take effect on July 1, 2016.

(Approved June 29, 2016.)

ACT 139

H.B. NO. 2482

A Bill for an Act Relating to Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The department of health and the state health planning and development agency is tasked with promoting accessibility to quality health care services for all people of the State at a reasonable cost.

The legislature finds that health care payers collect and analyze health care services claims and payment information for federal regulatory compliance and business accounting purposes. Reporting health care services claims and payment information to the state health planning and development agency would support collection, analysis, and dissemination of medical treatment claims and payment information, lend transparency to the health care sector, and support public policy decision making. The legislature believes that consumers of health care and state decision makers who regulate health care and insurance should have access to health care claims payment data and analytics. Access to such data will benefit members and retirants under the Hawaii employee-union health benefits trust fund, as well as medicaid and medicare recipients, and will serve other public purposes.

The purpose of this Act is to facilitate greater transparency in the health care sector by broadening the scope of health and health care data and other information, including certain health care services claims and payment information, submitted to the state health planning and development agency.

SECTION 2. Section 323D-18.5, Hawaii Revised Statutes, is amended to read as follows:

~~“[§323D-18.5] Information from providers of health insurance; Access to health and dental insurance data; mandatory reporting for certain insurers; uses; confidentiality. [The state agency may request providers] (a) Providers of health insurance doing business in the State [to] and who are not subject to subsection (b) may submit to the state agency [available statistical, financial, and other reports of information] or its designee, upon request of the state agency, administrative data that the state agency [finds] deems necessary to perform its functions. (b) Beginning November 1, 2016, providers of health insurance that provide health benefit plans funded by the Hawaii employer-union health benefits trust fund, the state medicaid agency, or both, shall provide to the state agency, or its designee, administrative data required by the state agency to determine health benefits costs, including health care services claims and payment data~~

regarding beneficiaries of health benefits plans funded by the Hawaii employer-union health benefits trust fund, the state medicaid agency, or both.

(c) The state agency shall submit data collected pursuant to this section to the college of social sciences, social sciences research institute, pacific health informatics and data center at the University of Hawaii for processing, assignment of encrypted identifiers, and any other task deemed necessary by the state agency. After July 1, 2018, the state agency may designate another data center to which to submit the data obtained pursuant to this section; provided that the data center is established under and meets the conflict of interest requirements of 42 United States Code section 300gg-94. The state agency may contract with entities for the analysis of data collected under this section and processed by a data center pursuant to this subsection to benefit medicaid and medicare recipients, public employees, and public sector retirees and for other public purposes.

(d) The state agency shall develop and update an annual plan for the analysis, maintenance, and publication of data collected pursuant to this section. The state agency shall seek approval for the annual plan from the director of health, administrator of the MedQuest division of the department of human services, and the chief information officer of the State.

(e) The state agency shall adopt rules, pursuant to chapter 91, for the schedule and frequency with which providers of health insurance shall provide administrative data to the state agency. Administrative rules shall also include provisions relating to data governance, data submission, use and sharing, information security, privacy protection, reporting, and any other matter necessary for the state agency to perform its functions under this section. In adopting administrative rules, the state agency shall consider the measures necessary to implement data submission requirements by providers of health insurance subject to this section, using methods that are reasonable and cost-effective for data submitters.

(f) The state agency or its designee shall not disclose any individual patient's personal health information in violation of state or federal law.

(g) To minimize any risk of data breaches and re-identification of data, the data and information submitted to the state agency shall include only the minimum protected health information identifiers necessary to link public and private data sources and the geographic and services data to undertake studies.

(h) The state agency or its designee, and any recipient of data collected pursuant to this section, shall maintain the original protected health information identifier in a separate database that is not linked with any other data and shall use a proxy or encrypted record identifier for data analysis.

(i) Under no circumstances shall a person attempt to re-identify subjects of protected health information from the data submitted to the state agency or its designee. No person may disclose data that contains direct personal identifiers, including but not limited to name, mailing address, email, telephone number, date of birth, or social security number.

(j) The state agency or its designee may acquire federal Medicare data sets specific to Hawaii and made available to states. Any public agency that possesses Medicare data sets specific to Hawaii shall share the data with the state agency or its designee at no additional cost to the state agency or its designee.

(k) No later than twenty days prior to the convening of each regular session, the state agency shall submit an annual report to the legislature on the submission, maintenance, and use of data submitted to the state agency pursuant to this section.

“Provider of health insurance” means a group health insurance contract or service agreement that may include medical, hospital, surgical, prescription drug, vision, or dental services, in which a carrier agrees to provide, pay for, arrange for, or reimburse the cost of the services, including third party administrators.”

SECTION 3. The state health planning and development agency, without regard to the notice and public hearing requirements of chapter 91, Hawaii Revised Statutes, shall adopt interim rules for the schedule and frequency with which providers of health insurance, dental insurance, and health benefits plans shall provide administrative data to the state health planning and development agency. Interim administrative rules shall also include provisions relating to data governance, data submission, use and sharing, information security, privacy protection, reporting, and any other matter necessary for the state health planning and development agency to perform its functions pursuant to this Act. Interim rules adopted pursuant to this Act shall remain in effect until June 30, 2017, or until rules are adopted pursuant to section 323D-18.5(e), Hawaii Revised Statutes, to replace the interim rule or rules.

SECTION 4. No later than twenty days prior to the convening of the regular sessions of 2017 and 2018, the state health planning and development agency shall submit a report to the legislature that includes:

- (1) Information on the progress of establishing procedures for submitting data pursuant to this Act;
- (2) The means of financing, use, and status of any state or federal moneys received for the purposes of establishing or contracting the services of a data center to collect and process data submitted pursuant to this Act; and
- (3) The means of financing, use, and status of any state or federal moneys received for the purposes of contracting the services of private entities to analyze data submitted pursuant to this Act.

SECTION 5. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 6. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 7. This Act shall take effect on July 1, 2016.

(Approved June 29, 2016.)

This provision also applies to compensation or items of value received by any business with which the director or a member of the director’s immediate family is affiliated. The material relationship shall be deemed to exist for one year after the item of value is received or the compensation ceases or falls below the threshold established in this paragraph, as applicable;
- (2) Is affiliated with or employed in a professional capacity by a current or former internal or external auditor of the risk retention group. The material relationship shall be deemed to exist for one year after the affiliation, employment, or audit ends; or
- (3) Is employed as an executive officer of another company whose board of directors includes executive officers of the risk retention group unless a majority of the membership of the other company’s board of directors is the same as the membership of the board of directors of the risk retention group. The material relationship shall be deemed to exist for one year after the employment or service ends.

“Material service provider” includes a captive manager, auditor, accountant, actuary, investment advisor, attorney, managing general underwriter, or other person responsible for underwriting, determination of rates, premium collection, claims adjustment or settlement, or preparation of financial statements, whose aggregate annual contract fees are equal to or greater than five per cent of the risk retention group’s annual gross written premium or two per cent of its surplus, whichever is greater. “Material service provider” does not mean defense counsel retained by a risk retention group unless the counsel’s annual fees are equal to or greater than five per cent of a risk retention group’s annual gross written premium or two per cent of its surplus, whichever is greater.”

SECTION 2. Section 480E-1, Hawaii Revised Statutes, is amended to read as follows:

~~“[§480E-1] Purpose.~~ The purpose of this chapter is to protect Hawaii consumers from persons who prey on ~~[homeowners who face property foreclosures, liens, or encumbrances]~~ consumers by offering services that purport to provide relief from consumers' mortgage loan obligations or from other filed or threatened liens or encumbrances against their properties. Consumers who face foreclosures, liens, or encumbrances are often in desperate financial situations that can have severe adverse consequences for individuals and families even if the consumers have significant equity in their residential real property. The consumers' desperation makes them vulnerable to persons who claim they can stop, prevent, or delay foreclosures, liens, or encumbrances~~[-]~~, or claim they can reduce, modify, or eliminate mortgage loan obligations or other filed or threatened liens or encumbrances. Persons who make these claims often use the consumers' desperation to foster unequal bargaining positions and withhold or misrepresent vital information and details. As a result, consumers may be convinced to give up their real property interests and valuable equity to these persons while receiving little in return. Requiring full and complete disclosure of vital information will better enable consumers to make informed decisions when dealing with persons claiming to be able to stop foreclosures, liens, or encumbrances. This ~~[chapter]~~ addresses possible misrepresentations by compelling persons who offer assistance to fully and completely describe their services in written contracts and gives ~~[the homeowners]~~ consumers the right to cancel at any time before a distressed property consultant has performed all services called for in a contract.”

- (17) Drafting, preparing, performing, creating, or otherwise obtaining any documentation used or intended to be used to advance any legal theory in defense of a foreclosure or ejection action, regardless of any disclaimer as to providing legal advice; or

ACT 147

S.B. NO. 2671

A Bill for an Act Relating to Veterinary Technicians.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that veterinary technicians are essential members of the veterinary health care team, second only to licensed veterinarians, who deliver quality animal care to the community. In public service, veterinary technicians ensure compliance with animal care and control at the University of Hawaii, in the animal industry division of the department of agriculture, in laboratories, and in the rabies quarantine branch of the department of agriculture. Veterinary technicians also assist veterinarians to promote and ensure animal health at the Honolulu zoo, in the shelter and rescue community, in laboratories, and in other veterinary-related establishments. In private practice, supervised by licensed veterinarians, veterinary technicians assist in managing veterinarian practices and veterinary health care teams. Highly-trained veterinary technicians also assist veterinarians in educating the staff and public and provide hands-on quality veterinary medical and surgical services.

The legislature further finds that although students must travel to the continental United States to seek a doctorate of veterinary medicine, Hawaii has a successful veterinary technician program at Windward community college that has been accredited by the American Veterinary Medical Association since 2013. The program enjoys ongoing popularity and outstanding success and its graduates are easily placed in gainful employment.

Currently, Hawaii is the last state to recognize veterinary technicians as bona fide health professionals. Accordingly, the legislature finds that veterinary technicians should be registered by the department of commerce and consumer affairs to ensure the continuing delivery of quality veterinary service to the community and protect animal welfare.

The purpose of this Act is to recognize the important role veterinary technicians play in maintaining the level of care of animals in the State by:

- (1) Beginning July 1, 2018, establishing requirements for the regulation of veterinary technicians and the practice of veterinary technology; and
- (2) Establishing registration requirements and limitations on use of titles for veterinary technicians.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
VETERINARY TECHNOLOGY PRACTICE**

§ -1 **Definitions.** As used in this chapter:

“Department” means the department of commerce and consumer affairs.

“Intubate” means to pass a tube into the trachea for purposes of anesthesia and airway maintenance.

“Monitor” means to evaluate patient health by tracking vital signs via physical examination and multi-parameter monitors in order to recognize abnormalities while an animal is under anesthesia.

“Practice of veterinary technology” includes but is not limited to the following procedures only under the direct supervision of a licensed veterinarian:

- (1) Monitoring anesthesia;

- (2) Intubating;
- (3) Performing dental cleaning;
- (4) Creating a relief hole in the skin to facilitate placement of an intravenous catheter; and
- (5) Participating in laboratory management activities.

§ -2 Practice of veterinary technology; qualifications; registration required. (a) No person shall represent, announce, or advertise oneself, publicly or privately, as a veterinary technician or registered veterinary technician, or shall append the letters "RVT" or "VT" or affix any other words, letters, abbreviations, or insignia to the person's name indicating or implying that the person is engaged in the practice of veterinary technology, unless the person:

- (1) Registers the person's name and business address biennially with the department in a manner prescribed by the department; and
 - (2) Meets the qualifications of section -3.
- (b) The department shall maintain and biennially update a list of the names and business addresses of the veterinary technicians who are registered pursuant to subsection (a).

ACT 148

S.B. NO. 2673

A Bill for an Act Relating to Travel Agencies.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that a travel agency is required by law to register prior to selling or advertising travel services, and an activity desk is required to register prior to selling, contracting for, arranging, or advertising activities that are furnished by an activity provider. The legislature further finds that travel agencies may sometimes act as activity desks when the travel agencies sell or arrange activities furnished by an activity provider for travelers either as individual activities or as part of a tour package.

The purpose of this Act is to clarify existing law and provide better protection to consumers who purchase activities from travel agencies by requiring travel agencies that act as activity desks to register as activity desks.

SECTION 2. Section 468L-2, Hawaii Revised Statutes, is amended to read as follows:

“§468L-2 Registration and renewal. (a) A travel agency shall register with the director prior to engaging in the business of selling or advertising to sell travel services.

ACT 152

S.B. NO. 2981

A Bill for an Act Relating to Education.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. American Sign Language is a vital part of the linguistic heritage of the State that benefits and enriches hearing-impaired and non-hearing-impaired individuals. American Sign Language interpreters are routinely provided at private and state functions and events. Introduction to American Sign Language at an early age helps hearing-impaired individuals become confident in their identity and sets the stage for their personal success.

Although American Sign Language is the fourth most-popular language at colleges and universities in the United States, it is not currently recognized as a foreign language in Hawaii. This lack of recognition makes it difficult for Hawaii public schools to meet the needs of hearing-impaired students and to help students who are interested in studying American Sign Language in college to prepare for their studies. Forty-two states currently recognize American Sign Language as a foreign language and have incorporated it into public school curricula. The department of education uses the term "world language" in its course descriptions and graduation requirements.

The purpose of this Act is to recognize American Sign Language as a world language and to allow students who pass courses in American Sign Language to receive credit for those courses toward satisfaction of graduation requirements for world language.

SECTION 2. Chapter 302A, Hawaii Revised Statutes, is amended by adding a new section to part II to be appropriately designated and to read as follows:

"§302A- American Sign Language. For purposes of this chapter, American Sign Language shall be recognized as a world language, and any public school may offer a course in American Sign Language. A student who successfully completes a course in American Sign Language shall be entitled to receive credit for that course toward satisfaction of a world language requirement of the public school at which the course is offered."

ACT 155

H.B. NO. 2671

A Bill for an Act Relating to Criminal Justice Data.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the reporting of comprehensive crime data is important to criminal justice agencies, elected officials, crime prevention groups, and the general public. The Federal Bureau of Investigation's uniform crime reporting program generates these reports and, in Hawaii, the program is administered by the crime prevention and justice assistance division's research and statistics branch of the department of the attorney general. The attorney general's primary sources of data are the county police departments, but the counties have not always been able to provide the necessary information in a timely manner. Although more than sixty-six per cent of states mandate the reporting of crime statistics, Hawaii does not. The United States Department of Justice is taking steps to ensure timely and accurate crime reporting, and it is critical that the State similarly ensures prompt and complete reporting.

The purpose of this Act is to assist the attorney general in the reporting of critical criminal justice data and to clarify the responsibilities of county police departments and state and county agencies with powers of arrest to provide all necessary data in a timely manner.

SECTION 2. Chapter 846, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§846- Statistical crime reporting responsibility of county chiefs of police and state and county agencies. The chiefs of police of the counties and state and county agencies having the power of arrest shall provide to the attorney general crime incident reports and any other information regarding crimes committed within their respective jurisdictions as necessary for the attorney general to operate a statewide crime reporting program and to cooperate with the Federal Bureau of Investigation's uniform crime reporting program. The reports and information shall be submitted to the attorney general in the manner, form, and time schedule as the attorney general may prescribe.

The attorney general may audit the reporting entities to determine the accuracy of the reports and other information required by this section.”

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that wrongful convictions may be the result of many causes, including eyewitness misidentification, false confessions, improper forensic science, and government misconduct. A convicted person is

considered exonerated when the person is later officially declared innocent of the crime. Nationally, there are more than one thousand seven hundred persons listed on the National Registry of Exonerations, including three persons that were convicted in Hawaii.

The legislature also finds that innocent persons who have been wrongly convicted of crimes and subsequently imprisoned have been uniquely victimized, have distinct challenges re-entering society, and have difficulty achieving legal redress due to a variety of substantive and technical obstacles in the law. These individuals deserve an avenue of redress over and above the existing tort remedies to seek compensation for damages from the jurisdiction that convicted and imprisoned them. In light of the injustice of being imprisoned for a crime one did not commit, thirty states, the District of Columbia, and the federal government have adopted compensation statutes for wrongly imprisoned individuals.

The purpose of this Act is to ensure that those persons who were wrongfully convicted and imprisoned by the State receive, under appropriate circumstances, compensation.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
REDRESS FOR WRONGFUL CONVICTION AND IMPRISONMENT**

§ -1 **Statement of claim for compensation.** (a) Any person convicted in a court of the State and imprisoned for one or more crimes of which the person was actually innocent may file a petition for relief pursuant to this chapter for an award of damages against the State; provided that the requirements of subsection (b) are met.

(b) To present an actionable claim against the State for wrongful conviction and imprisonment, the petitioner shall allege that the petitioner was convicted of one or more crimes under the laws of the State, was subsequently sentenced to a term of imprisonment, and has served all or any part of the sentence and either that:

- (1) The judgment of conviction was reversed or vacated because the petitioner was actually innocent of the crimes for which the petitioner was convicted, and the court decision so states; or
- (2) The petitioner was pardoned because the petitioner was actually innocent of the crimes for which the petitioner was convicted and the pardon so states.

§ -2 **Presentation of claim.** (a) A petition for relief filed pursuant to this chapter shall be filed in the circuit court of the circuit in which the petitioner lives, or if the petitioner lives outside the State, in the circuit court of the first circuit. The petitioner shall serve the petition upon the attorney general, and if the prosecuting authority was other than the attorney general, upon the prosecuting authority. The petition shall set forth the facts and authority that support the petitioner's claim.

(b) No later than sixty days after service, the attorney general shall file with the court an answer that shall either admit that the petitioner is entitled to compensation or deny the petitioner's claim.

If the attorney general admits that the petitioner is entitled to compensation, the court shall conduct a trial to determine the amount of compensation; provided that if the attorney general and the petitioner agree on the amount of the compensation, the court may issue a final judgment awarding the petitioner

the amount agreed upon or, in its discretion, conduct a trial to determine the amount to award the petitioner.

If the attorney general denies that the petitioner is entitled to compensation, then the court shall conduct a trial to determine if the petitioner is entitled to compensation and the amount, if any.

(c) Notwithstanding any other provision of law to the contrary, no person shall be allowed to intervene in the proceeding; provided that if the attorney general did not obtain the conviction of the petitioner, then the prevailing prosecuting authority may state its position on the petitioner's claim in a statement to the court. If the attorney general did not obtain the conviction of the petitioner, then the prevailing prosecuting authority shall provide the attorney general with any information or assistance that the attorney general may request.

(d) Any action against the State under this chapter shall be tried by the court without a jury; provided that the court, with the consent of all the parties, may order a trial with a jury whose verdict shall have the same effect as if trial by jury had been a matter of right.

§ -3 Judgment and award. (a) The petitioner shall have the burden to prove by a preponderance of the evidence:

- (1) That the petitioner is eligible to seek compensation in accordance with the requirements set forth in section -1;
- (2) That the petitioner was convicted in a court of the State and subsequently imprisoned for one or more crimes, but the petitioner was actually innocent of the crimes at issue; and
- (3) That the petitioner served time in prison for the crime or crimes, including time served prior to conviction, if any.

(b) The following shall be affirmative defenses, on which the State shall have the burden of proof by a preponderance of the evidence:

- (1) The petitioner was serving a term of imprisonment for another crime, including crimes under the laws of the United States, concurrently with imprisonment for the crime or crimes for which petitioner was actually innocent; provided that if the petitioner served additional time in prison due to the conviction that is the basis of the petition, then the petitioner shall receive compensation for that portion of the time served in prison during which the petitioner was serving no other sentence;
- (2) The petitioner committed perjury or fabricated evidence or induced another person to commit perjury or fabricate evidence to cause or bring about the conviction at issue;
- (3) The petitioner fabricated evidence or committed or suborned perjury during any proceeding related to the crime for which the petitioner was convicted;
- (4) The petitioner solicited the commission of the crime at issue or any crime factually related to the crime at issue;
- (5) The petitioner conspired to commit the crime at issue or any crime factually related to the crime at issue;
- (6) The petitioner attempted to commit the crime at issue or any crime factually related to the crime at issue;
- (7) The petitioner assisted in the commission of the crime at issue or any crime factually related to the crime at issue; or
- (8) The petitioner assisted any person to avoid apprehension, arrest, or conviction for the crime at issue or any crime factually related to the crime at issue.

If the State proves one or more of the affirmative defenses enumerated in this subsection, the petitioner shall receive no compensation except as provided in paragraph (1).

(c) If the court finds that the petitioner has proven a claim for wrongful conviction and imprisonment, the court shall award the petitioner \$50,000 for each year of actual confinement, including time spent awaiting trial, served by the petitioner for the crime or crimes for which the petitioner was actually innocent; provided that:

- (1) The petitioner shall not be compensated for the time imprisoned if the petitioner was concurrently imprisoned for a different conviction, even if the other conviction was related to the conviction that was vacated or reversed or for which the petitioner was pardoned because of actual innocence;
- (2) The award shall be pro-rated for partial years of imprisonment; and
- (3) If the court finds, by a preponderance of the evidence, extraordinary circumstances pertain to a conviction that is set aside or a pardon that is granted because of actual innocence, the court may award the petitioner a maximum of \$100,000 in additional compensation.

(d) The court shall award reasonable attorneys' fees not to exceed \$10,000 for fees incurred in preparing and prosecuting the claim for the prevailing petitioner. The attorney for the petitioner shall not charge, demand, receive, or collect fees for services rendered in excess of twenty-five per cent of any amount awarded by the circuit court.

(e) In an action under this chapter, court costs and fees as established by law may be allowed to the prevailing party.

(f) On all moneys awarded to the petitioner for claims instituted under this chapter, interest shall be computed at the rate of four per cent a year from the date of judgment up to, but not exceeding, thirty days after the date of approval of any appropriation act providing for payment of the judgment.

(g) Any moneys awarded to the petitioner for claims instituted under this chapter, other than for attorneys' fees, shall not be subject to any tax by the State or any county, including any income or general excise tax, any law to the contrary notwithstanding.

§ -4 Time limitations. Every claim arising under this chapter shall forever be barred unless the action is commenced by filing a petition with the circuit court within two years after the conviction that is the subject of the petition is either reversed or vacated, or the petitioner is pardoned for that conviction; provided that:

- (1) If the claim is based on a conviction reversed or vacated or a pardon granted prior to the effective date of this chapter, the claim shall be commenced by filing a petition with the circuit court no later than July 1, 2018, or be forever barred; and
- (2) Notwithstanding any other law to the contrary, this limitation of actions shall not be tolled for any reason.

§ -5 Right of appeal. Review of any final judgment of the circuit court shall be governed by chapter 602.

§ -6 Waiver of sovereign immunity. This chapter shall constitute a waiver of sovereign immunity by the State only for the claims brought pursuant to this chapter. The State makes no other waiver of sovereign immunity, and fully retains its sovereign immunity as to all other claims, however denominated, that seek compensation of any kind or nature that are a result of, related to, or

arise from a conviction and imprisonment for crimes for which the claimant alleges actual innocence. This section shall be broadly construed in favor of the State and against any waiver of sovereign immunity.

§ -7 **Exclusive remedy.** (a) Notwithstanding any other law, including the common law, to the contrary, this chapter sets forth the exclusive remedy for any person seeking compensation of any kind or nature whatsoever, as a result of, related to, or arising from a conviction and imprisonment for crimes for which the person was actually innocent. This section shall be strictly construed in favor of any person against whom a claim is asserted, and against the person asserting the claim.

(b) Notwithstanding any law to the contrary, should the petitioner die before a final judgment in the circuit court is entered, the petitioner's claim shall abate in its entirety."

SECTION 3. Section 831-3.2, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) The attorney general, or the attorney general's duly authorized representative within the department of the attorney general, upon written application from a person arrested for, or charged with but not convicted of a crime, or found eligible for redress under chapter, shall issue an expungement order annulling, canceling, and rescinding the record of arrest; provided that an expungement order shall not be issued:

- (1) In the case of an arrest for a felony or misdemeanor where conviction has not been obtained because of bail forfeiture;
- (2) For a period of five years after arrest or citation in the case of a petty misdemeanor or violation where conviction has not been obtained because of a bail forfeiture;
- (3) In the case of an arrest of any person for any offense where conviction has not been obtained because the person has rendered prosecution impossible by absencing oneself from the jurisdiction;
- (4) In the case of a person acquitted by reason of a mental or physical defect under chapter 704; and
- (5) For a period of one year upon discharge of the defendant and dismissal of the charge against the defendant in the case of a deferred acceptance of guilty plea or nolo contendere plea, in accordance with chapter 853.

Any person entitled to an expungement order [~~hereunder~~] under this section may by written application also request return of all fingerprints or photographs taken in connection with the person's arrest. 1. Edited pursuant to HRS §23G-16.5.

A Bill for an Act Relating to Witnesses.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the per diem stipend amount for out-of-state witnesses increased slightly in 2014, after remaining static for many years. Because the per diem stipend amount has not been adjusted to keep pace with actual cost of overnight expenses in Hawaii, including the cost of lodging or food, it has emerged as an economic barrier that either discourages or prevents an out-of-state witness from pursuing charges against offenders due to economic considerations. Often these individuals are forced to take money out of their own pockets to cover necessary personal expenses when subpoenaed to return to the State as a witness in state court proceedings. The legislature also finds that the per diem stipend amount for witnesses that are required to travel to a different island is also not sufficient to cover the witness' personal expenses when that witness is required to stay overnight.

The purpose of this Act is to increase the amount of per diem stipends for out-of-state witnesses as well as make available additional amounts of per diem stipends for a witness who must travel to another island, if that witness is required to stay overnight.

SECTION 2. Section 621-7, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Every witness legally required to attend a state court or grand jury in any criminal case, other than a public officer or employee, shall be entitled to \$20 for each day's attendance and a reasonable mileage fee to be established pursuant to rules adopted by the judiciary for each mile actually and necessarily traveled on the ground each way, including travel to and from the nearest airport when required to travel from another island or from outside the State.

In addition to witness' fees, every witness:

- (1) Who attends a state court from outside the State shall be entitled to the actual round-trip cost of plane travel, plus ~~[\$145]~~ \$200 per twenty-four-hour day; or
- (2) Who attends a state court from any island in the State other than that on which the court holds session shall be entitled to the actual round-trip cost of plane travel, plus \$55 per twenty-four-hour day; provided that when the witness is required to stay overnight, the witness shall be entitled to an additional ~~[\$90]~~ \$145 per twenty-four-hour day.

These per diem payments shall cover all personal expenses, such as board and lodging, and shall be computed on the basis of quarter day periods of time.”

SECTION 3. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval.

(a) A user may use an online tool to direct the custodian to disclose to a designated recipient or not to disclose some or all of the user's digital assets, including the content of electronic communications. If the online tool allows the user to modify or delete a direction at all times, a direction regarding disclosure using an online tool overrides a contrary direction by the user in a will, trust, power of attorney, or other record.

(b) If a user has not used an online tool to give direction under subsection (a) or if the custodian has not provided an online tool, the user may allow or prohibit in a will, trust, power of attorney, or other record, disclosure to a fiduciary of some or all of the user's digital assets, including the content of electronic communications sent or received by the user.

(c) A custodian need not disclose under this chapter a digital asset deleted by a user.

(d) If a user directs or a fiduciary requests a custodian to disclose under this chapter some, but not all, of the user's digital assets, the custodian need not disclose the assets if segregation of the assets would impose an undue burden on the custodian. If the custodian believes the direction or request imposes an undue burden, the custodian or fiduciary may seek an order from the court to disclose:

ACT 165

S.B. NO. 2512

A Bill for an Act Relating to Animals.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that thousands of animals, primarily dogs and cats, are deserted or abandoned across Hawaii every year, contributing to increased animal control costs, animal suffering and overpopulation, and euthanasia rates at local animal shelters. Abandoned animals are often subject to illness, injury, starvation, disease, attacks by other animals, and even human cruelty. Abandoned animals may also harm native wildlife. Weak penalties associated with Hawaii's current animal desertion statute have failed to adequately deter animal abandonment. Stronger penalties would encourage pet owners to work with local shelters and animal control contractors when a pet must be re-homed, strengthen pet retention and the human-animal bond, and protect pet owners and the animals themselves.

The purpose of this Act is to increase penalties for pet animal and equine animal desertion.

SECTION 2. Chapter 711, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§711- Pet animal or equine animal desertion. (a) It shall be unlawful for the owner or any person in possession of any pet animal or equine animal to desert the pet animal or equine animal.

(b) Any person who violates subsection (a) shall be guilty of a petty misdemeanor and subject to a fine not exceeding \$1,000 in addition to any other penalties.

(c) Any person who violates subsection (a) and recklessly causes the death of or substantial bodily injury to the pet animal or equine animal shall be guilty of a misdemeanor and subject to a fine not exceeding \$2,000 in addition to any other penalties.

(d) Each pet animal or equine animal that is deserted in violation of subsection (a) or suffers death or substantial bodily injury as a result of a violation of subsection (a) shall constitute a separate offense.

(e) For the purposes of this section, “desert” means to leave without the intent to return.”

SECTION 3. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act shall take effect upon its approval.

S.B. NO. 2551

A Bill for an Act Relating to Non-General Funds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the judiciary should report to the legislature on all non-general funds managed by the judiciary, including administratively established accounts and funds. The legislature finds it is necessary to be informed of the total fiscal situation of the State to make sound budgetary decisions. However, the auditor’s report no. 15-16, “Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Judiciary”, reported that “[a]ccording to [j]udiciary personnel, sections 37-47(9), (10), and (11), Hawaii Revised Statutes, do not apply to its special funds.” As a result, the auditor found that several trust funds and accounts of the judiciary were not reported to the legislature.

The purpose of this Act is to impose the same non-general fund reporting requirements on the judiciary as that established for executive branch departments.

SECTION 2. Chapter 601, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§601- Reporting of non-general fund information. No later than twenty days prior to the convening of each regular session, the judiciary shall submit to the legislature a report for each non-general fund account, which shall include but not be limited to the following:

- (1) The name of the fund and a cite to the law authorizing the fund;
- (2) The intended purpose of the fund;
- (3) The current program activities which the fund supports;
- (4) The balance of the fund at the beginning of the current fiscal year;
- (5) The total amount of expenditures and other outlays from the fund account for the previous fiscal year;
- (6) The total amount of revenue deposited to the account for the previous fiscal year;
- (7) A detailed listing of all transfers from the fund;
- (8) The amount of moneys encumbered in the account as of the beginning of the fiscal year;
- (9) The amount of funds in the account which are required for the purposes of bond conveyance or other related bond obligations;
- (10) The amount of moneys in the account derived from bond proceeds; and
- (11) The amount of moneys of the fund held in certificates of deposit, escrow accounts, or other investments.”

SECTION 3. Section 37-52.5, Hawaii Revised Statutes, is amended to read as follows:

“§37-52.5 Criteria for the establishment and continuance of administratively established accounts and funds. (a) ~~Except for the~~ The judiciary^[5] and any department or agency that administratively establishes any new account or fund, within thirty working days of its establishment, shall transmit a report to the legislature. The report to the legislature shall include:

- (1) The justification for the establishment of the account or fund; and
- (2) The sources of revenue for the fund.

(b) ~~Except for the~~ The judiciary^[5] and each department or agency, at least twenty days prior to the convening of each regular session, shall submit a report to the legislature. The report shall include:

- (1) A list of all administratively established accounts or funds; and
- (2) All revenues, expenditures, encumbrances, and ending balances of each account or fund.”

ACT 167

H.B. NO. 1055

A Bill for an Act Related to Elections.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 303 of the Help America Vote Act of 2002 requires applicants for voter registration for federal office elections to provide a driver's license number, if one has been issued, or if none has been issued, the last four digits of the applicant's social security number. Section 303 also includes a special rule for applicants without a driver's license or social security number, which requires the State to assign the applicant a number that will serve to identify the applicant for voter registration purposes.

The legislature finds that Hawaii should conform state election law for voter registration to the same requirements of the federal office election law because the voting registration law in Hawaii does not distinguish between voter registration for state and federal offices.

The purpose of this Act is to require the applicant's Hawaii driver's license number or Hawaii state identification card number for purposes of identifying an applicant for voter registration or, if no license or identification card has been issued, the last four digits of the applicant's social security number; provided that if the applicant does not have a social security number, the State shall issue the applicant a unique identification number, which will serve to identify the applicant for voter registration purposes.

SECTION 2. Section 11-15, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Any person qualified to and desiring to register as a voter in any county shall make and subscribe to an application in the form of an affidavit.

The affidavit shall contain the following information:

- (1) Name;
- (2) ~~[Social security number;]~~ The applicant's Hawaii driver's license number or Hawaii state identification card number; provided that:
 - (A) If no driver's license or identification card has been issued to the applicant, the last four digits of the applicant's social security number; and
 - (B) If no social security number has been issued to the applicant, an election official or county clerk shall assign the applicant a unique identification number for voter registration purposes and enroll the applicant in the State's computerized voter registration list, if any;
- (3) Date of birth;
- (4) Residence, including mailing address;
- (5) That the residence stated in the affidavit is not simply because of the person's presence in the State, but that the residence was acquired with the intent to make Hawaii the person's legal residence with all the accompanying obligations therein; and
- (6) That the person is a citizen.

An application to register to vote shall include a space to request a permanent absentee ballot.”

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect on January 1, 2018.

(Approved June 29, 2016.)

A Bill for an Act Relating to Absentee Ballots.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 15-1, Hawaii Revised Statutes, is amended by adding a new definition to be appropriately inserted and to read as follows:

““Electronic transmission” means the transmission of a blank or voted ballot by facsimile, electronic mail delivery, or the utilization of an online absentee ballot delivery and return system that may include the ability to mark the ballot.”

SECTION 2. Section 15-4, Hawaii Revised Statutes, is amended by amending subsection (e) to read as follows:

“(e) When a registered voter requests an absentee ballot, the voter also may include an additional request to receive absentee ballots permanently. After receiving a request for permanent absentee voter status, the clerk shall mail to the voter who requested permanent absentee voter status an absentee ballot for all subsequent elections conducted in that precinct. The forwarding address for absentee ballots to be permanently mailed shall be the in-state mailing address contained in the voter’s registration record. ~~[Voters who seek to have ballots forwarded to another address shall apply for an absentee ballot under subsection (a).]~~ Subject to the conditions of subsection (a), a permanent absentee voter may also request from the clerk that the voter’s ballot be forwarded temporarily to an address other than the permanent absentee mailing address originally requested, either in or outside of the State, for a single election or for a primary or special primary election and the election immediately following the primary or special primary election. A permanent absentee voter’s request for a ballot to be forwarded temporarily shall not serve as a cancellation of the voter’s permanent absentee status or as a change to the voter’s permanent absentee mailing address. Upon the completion of the election or elections covered by the permanent absentee voter’s temporary request under this subsection, the clerk shall resume mailing the voter’s ballots to the permanent absentee mailing address originally requested under subsection (a).”

SECTION 3. Section 15-4, Hawaii Revised Statutes, is amended by amending subsection (h) to read as follows:

“(h) [A] Except as provided in subsection (c), a voter’s permanent absentee voter status shall be terminated if any of the following conditions apply:

- (1) The voter requests in writing that such status be terminated;
- (2) The voter dies, loses voting rights, registers to vote in another jurisdiction, or is otherwise disqualified from voting;
- (3) The voter’s absentee ballot, voter notification postcard, or any other election mail is returned to the clerk as undeliverable for any reason;
or
- (4) The voter does not return a voter ballot by 6:00 p.m. on election day in both the primary and general election of an election year.”

SECTION 4. Section 15-5, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

“(b) If ~~[mailed]~~ absentee ballots requested under section 15-4 are not received by ~~[the]~~ a voter within five days of an election, if a voter requires a replacement ballot within five days of an election, or if a voter would otherwise not be able to return a properly issued ballot by the close of polls, then a ~~[ev-~~

~~ered] voter [under chapter 15D] may request that absentee ballots be forwarded by [facsimile.] electronic transmission. Upon receipt of such a request and confirmation that proper application was made, the clerk may transmit appropriate ballots [by facsimile], together with a form requiring the affirmations and information required by section 15-6, and a form containing a waiver of the right to secrecy, as provided by section 11-137. The voter may return the voted ballots and executed forms by [facsimile] electronic transmission or mail; provided that they are received by the issuing clerk no later than the close of polls on election day. Upon receipt, the clerk shall verify compliance with the requirements of section 15-9(c)[;] and prepare the ballots for counting pursuant to section 15-10[-]; provided that if the voter returns multiple voted absentee ballots for the same election, the clerk shall, for purposes of counting ballots, prepare only the first absentee ballot returned that is not spoiled.~~

SECTION 5. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 6. This Act shall take effect upon its approval.

ACT 169

S.B. NO. 2645

A Bill for an Act Relating to Water Audits.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Article XI, section 7, of the Hawaii State Constitution obligates the State to protect, control, and regulate the use of Hawaii's water resources for the benefit of its people.

Fresh water is the lifeblood of society. The quantity and quality of fresh water directly impact the health, welfare, economy, and quality of life in Hawaii. Fresh water infrastructure has been constructed to withdraw water from available sources, to treat it to acceptable standards, and to distribute it to our various communities.

Based on the department of health's database, there are a little over fifty county-run public water systems statewide and another fifty large capacity public water systems and public water systems operating in designated ground water management areas. Many of these water distribution systems, however, may be operating with inefficiencies that result in the loss of water, increased energy costs, and lost revenue.

Water conservation is among the least expensive and most efficient ways to increase the available supply of fresh water. It requires improving the efficiency of water delivery and identifying losses to the system. A water audit helps a utility understand how much water is lost from a distribution system through the detailed analysis of data, which the utility can use to make informed decisions to reduce real or apparent losses.

There is a growing trend across the United States where states, including California, Colorado, Delaware, Georgia, New Mexico, Pennsylvania, Tennessee, Texas, Washington, and Wisconsin, and their water authorities have begun to mandate water audits by water utilities.

The purpose of this Act is to establish a program to implement standardized water audits of public water systems in accordance with the method adopt-

ed by the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended.

SECTION 2. The commission on water resource management shall establish a five-year program to provide technical assistance to public water systems to conduct standardized water audits of public water systems in accordance with the method adopted by the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended.

In the first two years, the commission shall establish a program for the counties to conduct standardized water audits of public water systems operated by the counties. In the following two years, the commission shall extend the program to all remaining large capacity public water systems and public water systems in designated water management areas.

In establishing the program, the commission shall utilize the American Water Works Association's Free Water Audit Software, Version 5.0 or subsequent versions. The program elements shall include water audit training workshops, level 1 validation of water audits and follow-up communication, and recommendations to improve water audit validity scores and to address system losses.

SECTION 3. The standardized water audits shall follow the key parameters for establishing a water audit outlined in the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices - M36, as amended, including:

- (1) Describing the distribution system boundaries to identify all water sources supplying water to the system, calculate the system input volume, and calculate the volume of water supplied into the distribution system;
- (2) Setting time periods for the audit that are sufficient to allow analysis and evaluation of the system water supply;
- (3) Establishing standardized units of measure so supply and consumption units are the same;
- (4) Assembling records and data from a wide variety of operations in the water systems, including:
 - (A) Water supplied, including volume from own sources, and water imported or exported;
 - (B) Authorized water consumption, including billed metered, billed unmetered, and unbilled metered;
 - (C) Water system data, including length of mains, number of service connections, average length of customer service lines, and average operating pressure; and
 - (D) Cost data, including total annual cost of operating the water system, customer retail unit cost, and variable production costs; and
- (5) Identifying, quantifying, and assigning costs to apparent losses and real losses.

SECTION 4. On January 1, 2017, the commission shall implement the water audit program developed pursuant to sections 1 and 2 of this Act, and shall include a process for level 1 validation of water loss audit reports which follows the principles and terminology in the American Water Works Association's Water Audits and Loss Control Programs, Manual of Water Supply Practices

- M36, as amended, including the Free Water Audit Software, version 5.0 or subsequent versions.

The commission shall provide the counties and other operators of public water systems subject to this Act the technical assistance and information necessary to help prepare and validate the water loss audit reports.

SECTION 5. Beginning in 2018, and for each subsequent year thereafter, the counties shall submit, on July 1 of each year, a completed and validated water loss audit report for each public water system operated by the counties for the previous calendar year to the commission. Beginning on July 1, 2020, and for each subsequent year thereafter, all remaining large capacity public water systems and public water systems in water management areas shall submit, on July 1 of each year, a completed and validated water loss audit report on their water systems for the previous calendar year to the commission. Each water loss audit report submitted to the commission shall be accompanied by information identifying steps taken in the preceding year to increase the validity of data entered into the final audit, reduce the volume of apparent losses, and reduce the volume of real losses.

SECTION 6. As used in this Act:

“Commission” means the commission on water resource management.

“Designated water management area” means a geographic area that has been designated pursuant to section 174C-41, Hawaii Revised Statutes.

“Large capacity public water system” means a public water system that serves a population of one thousand or more.

“Level 1 validation” means a water audit that has been subject to a third-party desktop review of data that is immediately available, which may include supply reports, consumption reports, and testing reports. “Level 1 validation” includes utility staff interviews with third-party validators focused on outlining organizational practices to ensure that data validity scores have been assigned correctly and consistently, and confirmed, corrected, or noted as needing further investigation.

“Public water system” means a system subject to Federal Safe Drinking Water Act regulations, which provides water for human consumption through pipes or other constructed conveyances. Such a system includes any collection, treatment, storage, and distribution facilities under the control of a utility and used primarily in connection with the system.

SECTION 7. There is authorized out of other federal funds the sum of \$600,000 or so much thereof as may be necessary for fiscal year 2016-2017 to conduct standardized water audits of public water systems as set forth in this Act; provided that private matching funds of \$100,000 are provided.

There is appropriated out of the revenues authorized by this section the sum of \$700,000 or so much thereof as may be necessary for fiscal year 2016-2017 to establish and implement the program to conduct standardized water audits of public water systems in accordance with this Act.

The sum appropriated shall be expended by the commission on water resource management for the purposes of this Act.

SECTION 8. This Act shall take effect on July 1, 2016.

(Approved June 30, 2016.)

ACT 172

H.B. NO. 2040

A Bill for an Act Relating to Water Security.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The 2016 Hawaii-hosted World Conservation Congress presents an opportunity for Hawaii to demonstrate international leadership in investing in natural capital that supports economic growth and protects the quality of life. The challenge of managing the State’s limited natural resources such as watersheds, marine habitat, and fresh water supply while fostering community resilience is too large a task for a single actor or sector to address alone. New and innovative partnerships are needed to catalyze large-scale investment in Hawaii’s sustainable development. The Aloha+ Natural Capital Investment Partnership is a joint public-private conservation commitment that will dem-

onstrate Hawaii's commitment to natural resources management with a special focus on climate resilience at the World Conservation Congress and beyond.

To provide reliable long-term funding needed to meet the State's Aloha+ Challenge conservation targets by 2030, partners from multiple sectors, including county, state, and federal governments as well as private philanthropic and corporate entities, must work together to leverage funds and provide matching opportunities.

The purpose of this Act is to establish a two-year pilot program for a water security advisory group to enable public-private partnerships that increase water security by providing matching state funds for projects and programs that:

- (1) Increase the recharge of groundwater resources;
- (2) Encourage the reuse of water and reduce the use of potable water for landscaping irrigation; and
- (3) Improve the efficiency of potable and agricultural water use.

PART II

SECTION 2. The department of land and natural resources shall establish a two-year pilot program for a water security advisory group to enable public-private partnerships that increase water security by providing matching state funds for projects and programs that:

- (1) Increase the recharge of groundwater resources;
- (2) Encourage the reuse of water and reduce the use of potable water for landscaping irrigation; and
- (3) Improve the efficiency of potable and agricultural water use.

SECTION 3. The department of land and natural resources may establish an account or fund pursuant to section 37-52.5, Hawaii Revised Statutes, into which shall be deposited:

- (1) All moneys appropriated by the legislature;
- (2) Gifts, grants, and other private funds; and
- (3) Federal funds.

The moneys in the fund shall be used to fund priority projects and programs to increase water security recommended by the water security advisory group, provided that state funds are matched on a one-for-one matching basis by the public or private agency or organization that submitted the relevant proposal for a project or program to increase water security.

SECTION 4. The department of land and natural resources may contract with an independent non-profit entity to carry out the duties and activities associated with this Act.

SECTION 5. The department of land and natural resources shall establish a water security advisory group, not subject to section 26-34, Hawaii Revised Statutes, which shall consist of:

- (1) The manager and chief engineer of the board of water supply of each county or each manager and chief engineer's designee;
- (2) The deputy director for water resource management of the department of land and natural resources;
- (3) A member with knowledge of agricultural water storage and delivery systems selected by the chairperson of the board of land and natural resources;

- (4) A member from a private landowning entity that actively partners with a watershed partnership selected by the chairperson of the board of land and natural resources;
- (5) A member with knowledge, experience, and expertise in the area of Hawaiian cultural practices selected by the chairperson of the board of land and natural resources; and
- (6) A member representing a conservation organization selected by the chairperson of the board of land and natural resources.

The water security advisory group shall elect a chairperson from among its members. Any action of the advisory group shall be by a simple majority of its members. Five members shall constitute a quorum.

SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$750,000 or so much thereof as may be necessary for fiscal year 2016–2017 to carry out the purposes of this Act.

The sum appropriated shall be expended by the department of land and natural resources.

PART III

SECTION 7. (a) The water security advisory group shall advise the department of land and natural resources on the priority of all proposals for projects or programs submitted by public or private agencies or organizations to increase water security in the State and recommend high-priority programs for the award of matching funds through the pilot program established pursuant to this Act.

The water security advisory group shall:

- (1) Establish criteria for the evaluation of proposals and assignment of priority to proposals;
 - (2) Evaluate proposals based on the established criteria;
 - (3) Assign priorities to each proposal submitted; and
 - (4) Advise the department on its evaluation of and assignment of priority to each proposal submitted.
- (b) In advising the department on the priorities for matching fund grants for projects and programs to increase water security, the water security advisory group shall consider projects and programs that:
- (1) Establish new areas or increase existing areas for the recharge of groundwater resources;
 - (2) Reduce the use of potable water for landscape irrigation and encourage the reuse of water; and
 - (3) Improve the efficiency of potable domestic water or agricultural irrigation use.
- (c) All projects and programs recommended for approval by the advisory group shall be required to track and report on the amount of water conserved, recharged, or reused by the projects and programs.

- (4) Objectives and budget projections for the following fiscal year.

SECTION 9. Members of the water security advisory group shall serve without compensation. All necessary expenses of each member, including travel expenses, shall be paid by the agency, organization, or department which the member represents. No member shall be made subject to chapter 84, Hawaii Revised Statutes, solely because of that member's participation as a member of the advisory group.

SECTION 10. The last contract for a project or program recommended for approval by the water security advisory group shall be executed before June 30, 2018.

PART IV

SECTION 11. Upon the repeal of this Act as provided in section 12:

- (2) All unexpended and unencumbered moneys remaining in an account or fund established pursuant to section 3 and deemed to be in excess of the moneys necessary to carry out the purposes of this Act shall lapse to the credit of the general fund.

SECTION 12. This Act shall take effect on July 1, 2016, and shall be repealed on June 30, 2018.

(Approved June 30, 2016.)

ACT 173

H.B. NO. 2077

ACT 176

H.B. NO. 2569

A Bill for an Act Relating to Energy.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the current governor has pledged to address the challenges facing Hawaii's classrooms, including soaring temperatures, outdated infrastructure, and costly electric bills throughout the State.

The legislature also finds that the University of Hawaii is progressing toward becoming energy net-zero by producing as much renewable energy as the system consumes by 2035. This progress will reduce the university's energy costs, contribute to Hawaii's clean energy goals, and make better use of limited resources. A similar opportunity to save on long-term energy costs and maximize limited resources exists in Hawaii's elementary, middle, and high schools. The department of education spends approximately \$48,000,000 annually for electricity. By implementing a program similar to the university program, the large sum of money used for utility services could be redirected broadly on projects that will improve the learning environment, such as cooling solutions, better

learning tools for students, enriching sports, arts, and extracurricular programs, and increasing pay to hire and retain better teachers.

Temperatures in Hawaii's kindergarten through grade twelve classrooms can reach over one hundred degrees Fahrenheit, far exceeding the ideal conditions in which children and teachers are effectively able to perform. Reducing temperatures in hot classrooms is critical to increasing student learning. A recent peer-reviewed study by the Harvard School of Public Health, "The Impact of Green Buildings on Cognitive Function," found that cognitive scores were over one hundred per cent higher in enhanced green building conditions with adequate ventilation that lowered carbon dioxide levels and provided a comfortable indoor environment. Other recent studies have shown increases in cognitive function and student performance in classrooms with daytime light emitting diode lighting over traditional fluorescent or incandescent lighting.

Installing more efficient lighting, natural ventilation, and integrating innovative renewable technologies such as solar panels and batteries can help power schools, reduce electricity costs, and improve student performance. Powering new classroom air conditioning units with solar panels and batteries without the need to connect to the electric grid can also reduce costs by eliminating the need for costly campus electrical upgrades, and will not add significant new costs to public school electric bills. Therefore, the legislature finds that it is in the public's interest to maximize the use of effective renewable technologies to reduce air conditioning installation and operating costs.

The purpose of this Act is to accelerate the goals of the department of education to cool Hawaii's schools, reduce energy costs, meet Hawaii's clean energy goals, and provide all students with better classrooms in which to learn.

SECTION 2. Chapter 302A, Hawaii Revised Statutes, is amended by adding a new section to part VI to be appropriately designated and to read as follows:

"§302A- Sustainable schools initiative. (a) The department shall establish a goal of becoming net-zero with respect to energy use, producing as much renewable energy as the department consumes across all public school facilities, by January 1, 2035.

(b) The department shall use the amount and value of energy consumed by the department across all public school facilities during the 2015-2016 fiscal year as the benchmark for measuring the department's progress toward the energy usage goal set forth in subsection (a).

(c) The department shall submit an annual report that shall include information on:

- (1) The overall progress toward the net-zero energy goal set forth in subsection (a);
- (2) Its plans and recommendations to advance the net-zero energy goal set forth in subsection (a); and
- (3) Any challenges or barriers encountered or anticipated by the department in meeting the net-zero energy goal set forth in subsection (a).

(d) The department shall expedite the cooling of all public school classrooms to a temperature acceptable for student learning. When implementing classroom cooling measures, the department, and any contractor hired to implement classroom cooling measures, shall maximize energy efficiency and installation and operating cost savings over the entire life of the project.

(e) Pursuant to this section, the department shall include in the report the status of the implementation of measures taken to cool public school

classrooms as required by subsection (d). The report shall include the following information:

- (1) The number of completed classrooms in which cooling measures were implemented and the number of classrooms remaining that require cooling;
 - (2) The different types of cooling measures implemented;
 - (3) The approximate cost per classroom for planned cooling measures, including installation, upgrades, equipment, maintenance, and projected operating costs over the life of the installed cooling measures;
 - (4) The approximate cost per completed classroom for cooling measures implemented, including installation, upgrades, equipment, maintenance, and projected operating costs over the life of the installed cooling measures;
 - (5) The number of completed classrooms in which energy efficiency measures were installed or implemented and the number of classrooms remaining that require energy efficiency measures; and
 - (6) The different types of energy efficiency measures installed or implemented.
- (f) The department shall report its findings and recommendations, including any proposed legislation, to the legislature no later than twenty days prior to the convening of each regular session.”

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

(Approved June 30, 2016.)

ACT 177

S.B. NO. 2476

A Bill for an Act Relating to Health.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that children who are deaf, hard of hearing, or deaf-blind have the same ability and capability to learn language as their peers who do not have a similar disability. The ability and right to develop language are central to the human experience and necessary prerequisites to literacy as well as cognitive, emotional, linguistic, academic, and social growth and the chance for children to evolve into healthy and productive members of society.

The legislature further finds that the department of health and the department of education are committed to collaborating to improve services for children who are deaf, hard of hearing, or deaf-blind so that they begin kindergarten with the necessary language skills to acquire the knowledge and academic competencies that will allow them to be successful in school and life.

The legislature further finds that under the Individuals with Disabilities Education Act (IDEA), P.L. 108-446:

- (1) The department of health, early intervention section is responsible, under part C, for the provision of early intervention services as iden-

- tified in the child's individualized family support plan to children from birth to age three years with special needs and their families;
- (2) The department of education is responsible, under part B, for the provision of special education and related services as identified in the child's individualized education program to children age three to five years with special needs; and
 - (3) The executive office on early learning is responsible for coordinating the early childhood education services in the pre-kindergarten program within the public school system.

The legislature further finds that children who are deaf, hard of hearing, or deaf-blind are diverse and include children with congenital or acquired hearing loss, unilateral and bilateral hearing loss, all degrees of hearing loss from minimal to profound, and all types of hearing loss.

The purpose of this Act is to:

- (1) Enhance early language services for children from birth to age five years who are deaf, hard of hearing, or deaf-blind within the department of health to support age-appropriate language development; and
- (2) Establish a working group for the purposes of investigating issues related to resources and tools for parents of children who are deaf, hard of hearing, or deaf-blind and improvements to the statewide system of services that support age-appropriate language development for children from birth to age five who are deaf, hard of hearing, or deaf-blind.

- (2) Allow for permits for existing underground fuel storage tanks for purposes of repair or replacement of the existing underground fuel storage tank; and

ACT 180

S.B. NO. 911

A Bill for an Act Relating to Latex.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the unrestricted use of latex is a serious concern because it can cause allergic reactions including mild rash, impaired breathing, and even deadly anaphylaxis. Approximately 3,000,000 people in the general population of the United States are allergic to latex, and the incidence rate of the allergy is higher in certain at-risk populations. Nearly sixty-eight per cent of children with spina bifida and nearly seventeen per cent of health care workers have a latex allergy.

Exposure to the allergen latex proteins can occur in a variety of settings. Research has shown that latex proteins can be transferred from natural rubber latex gloves to the food that is prepared and served in food establishments.

The legislature also finds that major leading hospitals ban the use of latex gloves. For example, Johns Hopkins Hospital banned almost all latex medical products, including latex gloves, which were banned since 2008. Furthermore, several states prohibit or strictly regulate the use of latex gloves in food establishments.

The legislature believes that the significant risk of a severe allergic reaction to latex justifies limiting its use. The purpose of this Act is to protect the public by prohibiting the use of latex gloves:

- (1) With limited exceptions, by personnel working in dental health facilities or health care facilities;
- (2) By personnel providing ambulance services or emergency medical services; and
- (3) By personnel working in food establishments.

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

“§321- Dental health facilities; health care facilities; use of latex gloves. All personnel working in dental health facilities or health care facilities, including all facilities listed in section 321-11(10), shall be prohibited from using latex gloves for patient care where the patient is unconscious or otherwise physically unable to communicate. Where the patient is conscious and physically able to communicate, latex gloves may be used if the patient affirmatively states that the patient is not allergic to latex.”

SECTION 3. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to part XVIII to be appropriately designated and to read as follows:

ACT 181

“§321- Emergency medical services; use of latex gloves prohibited. The use of latex gloves by personnel providing ambulance services or emergency medical services pursuant to this part shall be prohibited.”

SECTION 4. Chapter 328, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

“§328- Food establishments; use of latex gloves prohibited. The use of latex gloves by personnel in a food establishment permitted under title 11, chapter 50 of the Hawaii administrative rules, shall be prohibited.”

SECTION 5. New statutory material is underscored.¹

SECTION 6. This Act shall take effect upon its approval; provided that sections 2, 3, and 4 shall take effect on January 1, 2017.

ACT 183

S.B. NO. 2672

A Bill for an Act Relating to Advanced Practice Registered Nurses.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that advanced practice registered nurses provide a wide variety of health care services to people in Hawaii. The legislature further finds that section 323-3, Hawaii Revised Statutes, requires each hospital within the State to allow advanced practice registered nurses to practice within the full scope of their practice, including as primary care providers. Advanced practice registered nurses are also recognized as participating primary health care providers for insurance purposes under the State's insurance code.

The legislature also finds that certain sections within the Hawaii Revised Statutes omit advanced practice registered nurses from the definitions or designations of health care entities who may provide health care, prescribe drugs, or sign forms. The outdated statutes must be amended to authorize increased participation by advanced practice registered nurses and recognize appropriately trained advanced practice registered nurses as primary care providers. Authorizing increased participation by advanced practice registered nurses in certain circumstances, especially with regard to global signature authority, will enable improved access to health care services, expedite the process of processing paperwork, and provide optimal care at the initial point of access for Hawaii patients, especially in rural and underserved areas.

The purpose of this Act is to improve patient access to medical care by clarifying the circumstances under which advanced practice registered nurses may practice to the fullest extent of their training and education.

SECTION 2. Section 328-1, Hawaii Revised Statutes, is amended by amending the definition of "out-of-state practitioner" to read as follows:

"Out-of-state practitioner" means a physician, surgeon, osteopathic physician and surgeon, advanced practice registered nurse, dentist, podiatrist, or veterinarian authorized to prescribe drugs to patients under the applicable laws of any state of the United States except the State of Hawaii, or a physician, surgeon, osteopathic physician and surgeon, advanced practice registered nurse, dentist, podiatrist, or veterinarian authorized to prescribe drugs under the applicable laws of Hawaii, but practicing in a state other than Hawaii."

SECTION 3. Section 334-59, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) Emergency examination. A patient who is delivered for emergency examination and treatment to a facility designated by the director shall be examined by a licensed physician or advanced practice registered nurse without unnecessary delay, and may be given such treatment as is indicated by good medical practice. A psychiatrist, advanced practice registered nurse, or psychologist may further examine the patient to diagnose the presence or absence of a mental disorder, assess the risk that the patient may be dangerous to self or others, and assess whether or not the patient needs to be hospitalized."

SECTION 4. Section 338-9, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

“(b) In preparing a certificate of death or fetal death the person in charge of the disposition of the body shall:

- (1) Obtain and enter on the certificate the personal data and other information pertaining to the deceased person required by the department from the person best qualified to supply them;
- (2) Present the certificate of death to the physician or advanced practice registered nurse last in attendance upon the deceased, or to the coroner’s physician, who shall thereupon certify the cause of death to the physician’s or advanced practice registered nurse’s best knowledge and belief, or present the certificate of fetal death to the physician, advanced practice registered nurse, midwife, or other person in attendance at the fetal death, who shall certify the fetal death and such medical data pertaining thereto as can be furnished; provided that fetal deaths of less than twenty-four weeks or intentional terminations of pregnancy performed in accordance with section 453-16 may be certified by a nurse or other employee based upon the physician’s records; and
- (3) Notify immediately the appropriate local agent, if the death occurred without medical attendance, or if the physician or advanced practice registered nurse last in attendance fails to sign the death certificate. In such event the local agent shall inform the local health officer, and refer the case to the local health officer for immediate investigation and certification of the cause of death prior to issuing a permit for burial, or other disposition of the body. When the local health officer is not a physician or when there is no such officer, the local agent may complete the certificate on the basis of information received from relatives of the deceased or others having knowledge of the facts.

If the circumstances of the case suggest that the death or fetal death was caused by other than natural causes, the local agent shall refer the case to the coroner for investigation and certification.”

SECTION 5. Section 338-10, Hawaii Revised Statutes, is amended to read as follows:

“§338-10 **Late determination of the cause of death.** If the cause of death cannot be determined within three days, the certification of its cause may be filed after the prescribed period, but the attending physician, advanced practice registered nurse, or coroner’s physician shall notify in writing the local agent of the department of health of the district in which the death occurred of the reason for late filing, in order that a permit for the disposition of the body may be issued.

As used in this section, “late” means more than three days after the date of death.”

SECTION 6. Section 386-1, Hawaii Revised Statutes, is amended by amending the definition of “health care provider” to read as follows:

““Health care provider” means a person qualified by the director to render health care and service and who has a license for the practice of:

- (1) Medicine or osteopathy under chapter 453;

- (5) Optometry under chapter 459;
- (6) Podiatry under chapter 463E; [~~and~~]
- (7) Psychology under chapter 465[-]; and
- (8) Advanced practice registered nurses under chapter 457.”

SECTION 8. Section 457-8.6, Hawaii Revised Statutes, is amended by amending subsection (d) to read as follows:

“(d) Advanced practice registered nurses shall be considered qualified if they have met the requirements of section 457-8.5(a), and have met the advanced pharmacology requirements for initial prescriptive authority pursuant to rules adopted by the board. Only qualified advanced practice registered nurses authorized to diagnose, prescribe, and institute therapy or referrals of patients to health care agencies, health care providers, and community resources and, only as appropriate to the practice specialty in which the advanced practice []registered [] nurse is qualified, may:

Annual inspections for relicensing or recertification may be conducted during regular business hours or at intervals determined by the department. Annual inspections for relicensing or recertification shall be conducted without notice.

(c) The department shall adopt rules pursuant to chapter 91 to effectuate the purposes of this section.”

“(n) A dispensary license may be renewed annually by payment of an annual renewal fee of \$50,000 and subject to verification by the department through an unannounced inspection that the individual licensee and entity li-

censee continue to meet all licensing requirements from the date the initial licenses were issued.”

SECTION 6. Section 329D-7, Hawaii Revised Statutes, is amended to read as follows:

“~~§~~**329D-7** **Medical marijuana dispensary rules.** The department shall establish standards with respect to:

A Bill for an Act Relating to Physical Examinations.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that school physical examinations are currently only conducted upon entry into the public school system, usually in kindergarten. The expansion of physical examination requirements for public school students will help reinforce a culture of wellness and preventative health care in the State. Furthermore, for children and adolescents who are obese, an additional physical examination visit provides an opportunity for the health care provider to assess the possible causes of obesity and develop a plan to support family-based lifestyle changes.

The purpose of this Act is to require the provision of written documentation of a physical examination performed within twelve months prior to attending seventh grade at a public school.

SECTION 2. Section 302A-1159, Hawaii Revised Statutes, is amended to read as follows:

“§302A-1159 Physical examination required. (a) No child shall attend any school for the first time in the State unless the child presents to the appropriate school official a report from a licensed physician, physician assistant, or advanced practice registered nurse of the results of a physical examination performed within ~~[a year of]~~ twelve months before the date of attendance at school. A child may attend school provisionally upon submitting written documentation from a licensed physician, physician assistant, advanced practice registered nurse, or other authorized representative of the department of health stating that the child is in the process of undergoing a physical examination. Further documentation showing that the required physical examination has been completed shall be submitted to the appropriate school official no later than three months after the child first attends the school.

(b) Beginning with the 2017-2018 school year, every child entering seventh grade shall present to the appropriate school official written documentation from a licensed physician, physician assistant, or advanced practice registered nurse showing completion of a physical examination performed within twelve months before the date of attendance. The department shall send notification of the physical examination requirement to the child's parents or guardians, upon the child's entrance into sixth grade, and post the requirement on the department's website. By December 31 of each year, the department shall provide to the department of health a list of students attending seventh grade who have not submitted appropriate written documentation, along with directory information as allowed under the federal Family Educational Rights and Privacy Act.”

SECTION 3. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to part II to be appropriately designated and to read as follows:

“§321- Department of education student physical examination follow-up assistance and consultations. (a) No later than the end of the seventh grade school year, the department of health shall contact the parents or guardians of students listed pursuant to section 302A-1159(b) and provide information to assist those persons in obtaining a physical examination for the student pursuant to section 302A-1159(b).

(b) Subject to the availability of funds, the department of health shall also provide follow-up notice to or consultations with the parents or guardians of the students contacted pursuant to subsection (a) on the benefits of a healthy lifestyle and preventative health care and the availability of health care coverage under the federal Patient Protection and Affordable Care Act or medicaid.”

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 5. This Act shall take effect upon its approval.

“§334-103 **Program elements.** The following shall be the program elements of the system. These shall be designed to provide, at every level, alternatives to institutional settings. Applicants applying to operate program elements shall show how each of these elements works with the current programs in the community the facility will serve. Applicants may apply for operation under the following program elements:

- (1) A short-term crisis residential alternative to hospitalization for individuals experiencing an acute episode or situational crisis. The program shall be available for admissions twenty-four hours a day, seven days a week. The primary focus of this element shall be on reduction of the crisis, stabilization, diagnostic evaluation, and assessment of the person’s existing support system, including recommendations for referrals upon discharge. This service in the program shall be designed for persons who would otherwise be referred to an acute inpatient psychiatric unit;
- (2) A long-term residential treatment program for clients who would otherwise be living marginally in the community with little or no service support, and who would return many times to the hospital for treatment. It also will serve those who are referred to, and maintained in, state facilities or nursing homes, or private or public facilities or programs under contract with the director pursuant to section 334-2.5, because they require long-term, intensive support. This service shall be designed to provide a rehabilitation program for the so-called “chronic” patient who needs long-term support in order to develop independent living skills. This program goes beyond maintenance to provide an active rehabilitation focus for these individuals;

- (3) A transitional residential program designed for persons who are able to take part in programs in the general community, but who, without the support of counseling^[s] as well as the therapeutic community, would be at risk of returning to the hospital^[-] or becoming homeless by reason of serious and persistent mental health challenges. These programs may employ a variety of staffing patterns and are for persons who are expected to move toward a more independent living setting. The clients shall be expected to play a major role in the functioning of the household^[s] and shall be encouraged to accept increasing levels of responsibility, both in the residential community^[s] and in the community as a whole. Residents are required to be involved in daytime activities outside of the facility ~~[which]~~ that are relevant to their personal goals and conducive to their achieving more self-sufficiency; or
- (4) A semisupervised, independent, but structured living arrangement for persons who do not need the intensive support of the system elements of paragraph (1), (2), or (3), but who, without some support and structure, are at risk of requiring hospitalization^[-] or becoming homeless by reason of serious and persistent mental health challenges. The small cooperative housing units shall function as independent households with direct linkages to staff support in case of emergencies, as well as for regular assessment and evaluation meetings. Individuals may use satellite housing as a transition to independent living^[s] or may remain in this setting indefinitely in order to avoid the need for more intensive settings. This element is for persons who only need minimum professional or paraprofessional support in order to live in the community. These units should be as normative as the general living arrangements in the communities in which they are developed.”

SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$500,000 or so much thereof as may be necessary for fiscal year 2016-2017 to provide treatment and care for homeless individuals with serious and persistent mental health challenges to enable them to reside in a permanent dwelling unit or homeless facility.

The sum appropriated shall be expended by the department of health for the purposes of this Act.

SECTION 7. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 8. This Act shall take effect on July 1, 2016.

ACT 187

H.B. NO. 2363

A Bill for an Act Relating to Labor.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 386-31, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

“(b) Temporary total disability. Where a work injury causes total disability not determined to be permanent in character, the employer, for the duration of the disability, but not including the first three calendar days thereof, shall pay the injured employee a weekly benefit at the rate of sixty-six and two-thirds per cent of the employee’s average weekly wages, subject to the limitations on weekly benefit rates prescribed in subsection (a), or if the employee’s average weekly wages are less than the minimum weekly benefit rate prescribed in subsection (a), at the rate of one hundred per cent of the employee’s average weekly wages.

If an employee is unable to complete a regular daily work shift due to a work injury, the employee shall be deemed totally disabled for work for that day.

The employer shall pay temporary total disability benefits promptly as they accrue to the person entitled thereto without waiting for a decision from the director, unless this right is controverted by the employer in the employer’s initial report of industrial injury. The first payment of benefits shall become due and shall be paid no later than on the tenth day after the employer has been notified of the occurrence of the total disability, and thereafter the benefits due shall be paid weekly except as otherwise authorized pursuant to section 386-53.

The payment of these benefits shall only be terminated upon order of the director or if the employee is able to resume work. When the employer is of the opinion that temporary total disability benefits should be terminated because the injured employee is able to resume work, the employer shall notify the employee and the director in writing of an intent to terminate the benefits at least two weeks prior to the date when the last payment is to be made. The notice shall give the reason for stopping payment and shall inform the employee that the employee may make a written request to the director for a hearing if the employee disagrees with the employer. Upon receipt of the request from the employee, the director shall conduct a hearing as expeditiously as possible and render a prompt decision as specified in section 386-86. If the employee is unable to perform light work, if offered, temporary total disability benefits shall not be discontinued based solely on the inability to perform or continue to perform light work.

An employer or insurance carrier who fails to comply with this section shall pay not more than [~~\$2,500~~] \$5,000 into the special compensation fund upon the order of the director, in addition to other penalties prescribed in section 386-92.

- (1) If the director determines, based upon a review of medical records and reports and other relevant documentary evidence, that an injured employee’s medical condition may be stabilized and the employee is unable to return to the employee’s regular job, the director shall issue a preliminary decision regarding the ~~claimant’s~~ employee’s entitlement and limitation to benefits and rights under Hawaii’s workers’ compensation laws. The preliminary decision shall be sent to the affected employee and the employee’s designated representative and the employer and the employer’s designated representative and shall state that any party disagreeing with the director’s preliminary findings of medical stabilization and work limitations may request a hearing within twenty days of the date of the decision. The director shall be available to answer any questions during the twenty-day period from the injured employee and affected employer. If neither party requests a hearing challenging the director’s finding the determination shall be deemed accepted and binding upon the parties. In any case where a hearing is held on the preliminary findings, any person aggrieved by the director’s decision and order may appeal under section 386-87.

A preliminary decision of the director shall inform the injured employee and the employer of the following responsibilities, benefits, and limitations on vocational rehabilitation benefits that are designed to facilitate the injured employee's early return to suitable gainful employment:

- (A) That the injured employee may invoke the employee's rights under section 378-2, 378-32, or 386-142, or all of them, in the event of unlawful discrimination or other unlawful employment practice by the employer; and
 - (B) That after termination of temporary total disability benefits, an injured employee who resumes work may be entitled to permanent partial disability benefits, which if awarded, shall be paid regardless of the earnings or employment status of the disabled employee at the time.
- (2) If the rehabilitation unit determines that an injured employee is not a feasible candidate for rehabilitation and that the employee is unable to resume the employee's regular job, it shall promptly certify the same to the director. Soon thereafter, the director shall conduct a hearing to determine whether the injured employee remains temporarily totally disabled, or whether the employee is permanently partially disabled, or permanently totally disabled."

SECTION 2. Section 386-95, Hawaii Revised Statutes, is amended to read as follows:

"§386-95 Reports of injuries, other reports, penalty. Every employer shall keep a record of all injuries, fatal or otherwise, received by the employer's employees in the course of their employment, when known to the employer or brought to the employer's attention.

Within seven working days after the employer has knowledge of such injury causing absence from work for one day or more or requiring medical treatment beyond ordinary first aid, the employer shall make a report thereon to the director. The report shall set forth the name, address, and nature of the employer's business and the name, age, sex, wages, and occupation of the injured employee and shall state the date and hour of the accident, if the injury is produced thereby, the nature and cause of the injury, and such other information as the director may require.

By January 31 of each year, the employer shall file with the director a report with respect to each injury on which the employer is continuing to pay compensation, showing all amounts paid by the employer on account of the injury.

The reports required by this section shall be made on forms to be obtained from the director pursuant to section 386-71 and deposit of reports in the United States mail[;] or by electronic means as approved by the director, addressed to the director, within the time specified shall be deemed compliance with the requirements of this section.

When an injury results in immediate death, the employer shall within forty-eight hours notify personally or by telephone a representative of the department in the county where the injury occurred.

Within thirty days after final payment of compensation for an injury, the employer shall file a final report with the director showing the total payments made, the date of termination of temporary total disability, and such other information as the director may require.

Any employer who wilfully refuses or neglects to file any of the reports or give any notice required by this section shall be fined by the director not more than \$5,000.

Copies of all reports, other than those of fatal injuries, filed with the director as required by this section shall be sent to the injured employee by the employer.”

- (2) Interim reports to the same parties and in the same manner as prescribed in paragraph (1) shall be made at appropriate intervals to verify the claimant’s current diagnosis and prognosis, that the information as to the nature of the examinations and treatments performed is complete, including the dates of those treatments and the results obtained within the current reporting period, the execution of all tests performed within the current reporting period and the results of the tests, whether the injured employee is improving, worsening, or if “medical stabilization” has been reached, the dates of disability, any work restrictions, and the return to work date. When an injured employee is returned to full-time, regular, light, part-time, or restricted work, the attending physician shall submit a report to the employer within seven calendar days indicating the date of release to work or medical stabilization; and
- (3) A final report to the same parties and in the same manner as prescribed in paragraph (1) shall be made within seven days after termination of treatment.

No physician, surgeon, or hospital that has given any treatment or rendered any service to an injured employee shall be required to provide any additional reports not otherwise mandated by this section.

(b) No claim under this chapter for medical treatment, surgical treatment, or hospital services and supplies, shall be valid and enforceable unless the reports are made as provided in this section, except that the director may excuse the failure to make the report within the prescribed period or a nonsubmission of the report when the director finds it in the best interest of justice to do so. If the director does not excuse the submission of:

- (1) An initial or interim report within the time prescribed in subsection (a)(1) and (2); or
- (2) A final report that is thirty days late or a nonsubmission, the delinquent physician shall be fined not more than [~~\$250.~~] \$500.

(c) The director shall furnish to the injured employee a copy of the final report of the attending physician or surgeon or, if more than one physician or surgeon should treat or examine the employee, a copy of the final report of each physician or surgeon.

(d) Within fifteen days after being requested to do so by the injured employee or the employee’s duly authorized representative, the employer shall fur-

nish the employee or the employee's duly authorized representative with copies of all medical reports relating to the employee's injury that are in the possession of the employer. The copies shall be furnished at the expense of the employer. The employer shall allow the employee or the employee's duly authorized representative to inspect and copy transcripts of depositions of medical witnesses, relating to the employee's injury, in the possession of the employer. Any employer who fails to furnish medical reports or to allow inspection and copying of transcripts of depositions of medical witnesses, as required by this ~~paragraph~~ subsection, shall be fined in an amount not to exceed ~~[\$1,000.]~~ \$5,000.

(e) Deposit of the records required by subsection (a)(1) in the United States mail~~;~~ or by electronic means as approved by the director, addressed to the director and to the employer, within the time limit specified, shall be deemed in compliance with the requirements of this section."

ACT 188

H.B. NO. 2715

A Bill for an Act Relating to Workers’ Compensation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that although workers’ compensation premiums in Hawaii have dropped significantly since the reforms in the

mid-1990s and are now ranked twenty-seven from the top nationwide, legislation is introduced every year alleging unfair treatment of injured workers, including slow processes. In 2015, the legislature adopted House Concurrent Resolution No. 168, H.D. 2, S.D. 1, which required the department of labor and industrial relations to convene a working group to streamline the State's workers' compensation process, of which results are due to the 2017 legislature. Despite this action, a closed claims study is warranted to objectively review whether specific statutory changes are necessary. The last closed claims study done in Hawaii on workers' compensation was in 1993 by Tillinghast.

The purpose of this Act is to increase employee health and safety in the workplace and to provide timely and appropriate services for employees injured on the job in a supportive and non-confrontational environment by requiring the auditor to conduct a study on closed claims in the State's workers' compensation system.

SECTION 2. (a) The auditor shall contract with an actuarial firm that has experience conducting workers' compensation closed claims studies in the United States to perform a study of:

- (1) Closed claims in the private employment sector in the State; and
- (2) Closed claims involving state employees, including those employed by the department of human resources development, the department of education, and the University of Hawaii system.

(b) Of the total cost of the study, a portion equal to the appropriation provided for in section 3 of this Act shall be paid for by an assessment to the workers' compensation insurers, workers' compensation captive insurers, and workers' compensation self-insureds in the State to be determined according to market share of premiums or, in the case of workers' compensation self-insureds, using the current basis to determine special compensation fund assessments.

(c) The auditor shall require the study to be completed by November 30, 2017, and the study shall be submitted to the legislature no later than twenty days prior to the convening of the regular session of 2018.

(d) Prior to contracting with an actuarial firm to perform the study required by this Act, the auditor shall consult and confer with two members of the legislature, one member selected by the president of the senate and one selected by the speaker of the house of representatives. The two members shall ensure that the actuarial firm selected and parameters of the study are not biased and do not have an appearance of bias toward any of the numerous stakeholders in the workers' compensation system, including the department of labor and industrial relations, department of human resources development, insurers, attorneys representing employers and employees, mutual benefit societies, health maintenance organizations, and health care providers.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$150,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the auditor to contract with an actuarial firm to produce a study of closed claims in the State's workers' compensation system; provided that no moneys shall be released unless matched dollar-for-dollar by the fees assessed pursuant to section 2(b) of this Act.

The sum appropriated shall be expended by the auditor for the purposes of this Act.

SECTION 4. This Act shall take effect on July 1, 2016.

(Approved July 1, 2016.)

A Bill for an Act Relating to the Office of Community Services.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The sum appropriated shall be expended by the department of labor and industrial relations for the purposes of this Act.

SECTION 2. This Act shall take effect on July 1, 2016.

(Approved July 1, 2016.)

If the department determines that it will not be feasible to establish such plan or plans for the persons designated because of the small number or the diversity of occupations within the group or for any other reason, the department shall actively solicit the participation of as many other employers and employees within the State as may be necessary to form a group or groups for which it shall be feasible to establish the plan or plans contemplated by the employer or employee who made the original request, and shall furnish all necessary assistance in similar manner.]~~

A Bill for an Act Relating to Transportation.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The legislature finds that while federal, state, and county agencies maintain jurisdiction over, and are responsible for, the repair and maintenance of the majority of highways, streets, and roads throughout Hawaii, there are numerous roads throughout the State that are privately owned or whose ownership has been called into question. In many cases, these private roads or disputed roads were shown on a subdivision plat or are remnants of a road, or a small portion of a larger public road, whose ownership is disputed for various reasons. This has resulted in questions regarding who is responsible for the repair and maintenance of these roads, many of which are regularly used for vehicular traffic.

The legislature further finds that since these private roads are not owned by a governmental entity, or their ownership is being disputed, they often do not receive proper repair and maintenance. Although these roads are often used by, and are of benefit to the public, the public does not realize that the road is not owned by a governmental agency. This creates difficulties for members of the public and government agencies when individuals report repair or maintenance issues.

The legislature also finds that while counties have policies and procedures to assist owners with the repair and maintenance of private roads, these policies and procedures are only applicable when the county can determine or locate the actual owner of the road. Additionally, the owners of private roads may seek government assistance because they may not have the expertise, equipment, or ability to coordinate services necessary to address road ownership and maintenance issues.

Finally, the legislature finds that the cost to bring many of these private roads up to code is very high and should not be borne solely by the counties.

The purpose of this Act is to provide a means to resolve the situation by, among other things:

- (1) Establishing a temporary roads commission within the department of transportation to, among other things, review studies on disputes regarding private roads, provide an opinion on the ownership of certain private roads, advise the appropriate legislative body of the determination of ownership of the private road, and recommend action to the appropriate legislative body, including the initiation of condemnation proceedings as appropriate;
- (2) Expanding the State and counties' authority to condemn public roads;
- (3) Allowing private owners of roadways to petition the mayor of the county in which the roadway is located to begin condemnation proceedings if certain conditions are met;
- (4) Exempting roads meeting county construction standards at the time of construction and completion from having to meet county construction standards in place at the time of transfer to the county;
- (5) Exempting the State or county from requirements to maintain or improve roads taken by condemnation; and

- (6) Appropriating funds for road repair work, including resurfacing, flood mitigation, and installation of drainage infrastructure to certain roads.

PART II

SECTION 2. (a) There is established a roads commission within the department of transportation for administrative purposes, which shall consist of the following members, or their designees:

- (1) The mayor of each county;
 - (2) A member of the state house of representatives appointed by the speaker of the house of representatives;
 - (3) A member of the state senate appointed by the president of the senate;
 - (4) The director of transportation;
 - (5) The chairperson of the board of land and natural resources;
 - (6) The director of a county transportation department, appointed by the Hawaii council of mayors and confirmed by the Hawaii state association of counties;
 - (7) The director of planning from a county, appointed by the Hawaii council of mayors and confirmed by the Hawaii state association of counties;
 - (8) One member of the public, with expertise in civil engineering, city planning, construction, easements and acquisitions, condemnation, real property title research, compliance with the Americans with Disabilities Act, or environmental regulations, appointed by the speaker of the house of representatives;

 - (10) Two members of the public, with expertise in civil engineering, city planning, construction, easements and acquisitions, condemnation, real property title research, compliance with the Americans with Disabilities Act, or environmental regulations, appointed by a majority of the members on the roads commission.
- (b) Any vacancy occurring in the membership of the commission shall be filled in the same manner as the original appointments.
- (c) The chair and vice chair of the commission shall be selected by a majority of the members of the commission.
- (d) A simple majority shall constitute a quorum whose affirmative vote shall be necessary for all actions of the commission.
- (e) Members of the commission shall serve without compensation but shall be reimbursed for necessary expenses, including travel expenses, incurred in the performance of their duties under this section.
- (f) The commission shall:
- (1) Review all previous studies on disputes regarding private roads;
 - (2) Provide an opinion about the ownership of five private roads that are remnants or whose ownership is in dispute; provided that two of these roads shall be roads that are not widely used by the general public; and
 - (3) Advise the appropriate legislative body of its determination of ownership of the five private roads, and recommend action to the ap-

propriate legislative body, including the initiation of condemnation proceedings as appropriate.

In fulfilling its responsibilities, the commission shall consult and seek advice from any department, agency, or organization the commission deems appropriate.

- (g) The commission may:
 - (1) Sue and be sued;
 - (2) Have a seal and alter the same at its pleasure;
 - (3) Adopt rules under chapter 91 necessary to effectuate this section;

- (i) No member shall be made subject to chapter 84, Hawaii Revised Statutes, solely because of that member's participation as a member of the commission.
- (j) The commission shall cease to exist on June 30, 2018.

PART III

Note

1. So in original.

A Bill for an Act Relating to Transportation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address immediate deficits in the state highway fund. Projections from the department of transportation indicate that, beginning in fiscal year 2016-2017, revenue estimates for the state highway fund will fall well below planned expenditures, resulting in immediate deficits and the need to eliminate over \$200,000,000 in expenses over the next five years. To account for this shortfall, the State would be required to reduce highway special maintenance and capital improvement projects, which would also result in less timely responses to highway-related emergencies.

The primary causes for the decreased fund balance of the state highway fund are:

- (1) The lower rate of revenues generated from the fuel tax due to an increase in the number of fuel-efficient motor vehicles;
- (2) Increased costs to maintain existing state highways, operate the highways division of the department of transportation, and pay debt service on revenue bonds issued to construct state highways; and
- (3) Unanticipated costs arising from emergency repairs to and major restoration projects of the state highways.

The legislature finds that the fiscal health of the state highway fund must be addressed immediately. Delays in the construction, repair, and maintenance of state highways must be avoided to the extent possible. Further deterioration would require more costly re-construction in the future, including the need for expensive emergency repairs, exacerbating the shortfall of the state highway fund even further.

The legislature recognizes that, from 1981 to 1990, general excise tax revenues from fuel sales were diverted to the state highway fund. The legislature finds that re-enactment of the diversion of any portion of the general excise tax from the general fund is not in the public interest. General excise tax revenues are already eroded by numerous tax credits and exclusions. The general fund must also be preserved for other important public programs, especially those that do not have access to dedicated revenue sources.

The purpose of this Act is to provide an infusion of state general funds into the state highway fund while plans and immediate actions are taken to restore the state highway fund to solvency. The legislature very reluctantly makes this deposit. Subsidizing the state highway fund with state general funds is a drastic initiative contrary to recent past practices and sound budgetary policy. The legislature finds that the consequence of failing to provide the subsidy, however, would be more drastic: the decline of the condition and capacity of state highways, thus diminishing the general welfare and jeopardizing public safety.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$37,000,000 or so much thereof as may be necessary for fiscal year 2016-2017 for deposit into the state highway fund.

The sum appropriated shall be expended by the department of budget and finance for the purpose of this section.

SECTION 3. The general funds deposited into the state highway fund under section 2 shall be expended in accordance with appropriations in:

- (1) Act 119, Session Laws of Hawaii 2015, as may be amended by House Bill No. 1700¹ of the regular session of 2016; or

- (2) Any other act enacted during the 2016 regular session that appropriates the proceeds of the state highway fund.

SECTION 4. No later than November 1, 2018, the governor shall submit a report to the legislature on the sustainability of the state highway fund. The report shall include:

- (1) Actions already taken to sustain the state highway fund;
- (2) A plan, including various options, for the continued sustainability of the state highway fund;
- (3) Five-year financial projections for the state highway fund and an analysis of those projections; and
- (4) Proposed legislation, if any.

SECTION 5. This Act shall take effect on July 1, 2016.

(Approved July 1, 2016.)

ACT 196

S.B. NO. 2618

A Bill for an Act Relating to Transportation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Unlike other states, Hawaii is not linked to other states by the federal interstate highway system or a network of interconnected state and local highways. Furthermore, for Hawaii, air transportation is often the only efficient means of travel to another state, as well as between Hawaii's major islands and between different harbors of an island. An interisland and intra-island ferry system can serve as an efficient alternative for transporting passengers, cargo, farm produce, and motor vehicles.

Washington State Ferries, which is part of the Washington State Department of Transportation, operates the largest ferry system in the United States. Washington State Ferries employs approximately eighteen hundred people and is Washington's most popular tourist attraction. Alaska also has a successful ferry system.

S.R. No. 116, S.D. 1, Regular Session of 2015, adopted on April 9, 2015, requests the department of transportation to study the feasibility of establishing an interisland ferry system, among other things, and report its findings and recommendations to the legislature prior to the 2016 regular session. However, the department may need additional funding and time to undertake and complete the study.

The purpose of this Act is to require the department of transportation to conduct a study on the feasibility of establishing an interisland and intra-island ferry system and to make an appropriation for expenses accordingly.

SECTION 2. The department of transportation shall conduct a study on the feasibility of establishing an interisland and intra-island ferry system similar to the ferry systems operated by Washington State and other jurisdictions, including proposed legislation. In conducting the study, the department shall:

- (1) Include a comparison of various jurisdictions with successful ferry systems including Washington and Alaska;
- (2) Emphasize compliance of the ferry system with the State's environmental protection laws, including chapter 343, Hawaii Revised Statutes;

- (3) Identify appropriate routes and harbors for the ferry system;
- (4) Consider the potential costs and revenues of the ferry system;
- (5) Include financing options for the ferry system, including the establishment of rates or fees to address operating costs;
- (6) Consider the particulars of the ferry system, including vessel design and speed, passenger capacity, cargo capacity, automobile capacity, and compatibility with harbor infrastructure;
- (7) Consider and determine the impacts the ferry system would have on traffic congestion on all islands served by the ferry; and
- (8) Consider the impacts the ferry system could have on the transmission of invasive species between islands and determine inspection requirements to limit the transmission of invasive species between islands.

SECTION 3. The department of transportation shall report its findings and recommendations, including proposed legislation, to the legislature no later than twenty days prior to the convening of the regular session of 2018.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii the sum of \$50,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the department of transportation to conduct a study on the feasibility of establishing an interisland and intra-island ferry system as described in this Act.

The sum appropriated shall be expended by the department of transportation for the purposes of this Act.

SECTION 5. This Act shall take effect on July 1, 2016.

“§291C- Speed limit for Daniel K. Inouye highway. Notwithstanding any other law to the contrary, the speed limit for the Daniel K. Inouye highway shall be sixty miles-per-hour beginning at mile marker 12; provided that the speed limit shall be forty-five miles-per-hour or any other speed limit as determined pursuant to sections 291C-102, 291C-104, or 291C-105, beginning at the Pohakuloa training area and ending one-half mile east of the Mauna Kea county park entrance.”

ACT 198

S.B. NO. 2888

A Bill for an Act Relating to Forensic Mental Health Procedures.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that under section 704-404, Hawaii Revised Statutes, when a defendant's fitness to proceed is questioned, criminal proceedings stop, and the court orders a physical or mental examination of the defendant to determine the defendant's fitness to proceed and the defendant's capacity to be subject to penal responsibility for the alleged crime. Section 704-404(4), Hawaii Revised Statutes, requires the court to order a forensic examiner to conduct an evaluation and report on several elements including fitness to stand trial, a clinical diagnosis, and penal responsibility.

Penal responsibility is a measure of the capacity of the defendant to appreciate the wrongfulness of the defendant's conduct or to conform the defendant's conduct to the requirements of law at the time of the alleged conduct. An evaluation of fitness includes an examination of the defendant's current cognitive capacity and state of mind, but does not always require a clinical diagnosis or an exhaustive review of the defendant's records. Evaluation of penal responsibility and clinical diagnosis are complex and time-consuming. The evaluations require a thorough record review and a comprehensive examination of the defendant's current cognitive status and the defendant's state of mind at various points in the past. Evaluations of fitness to proceed are used by the courts in each instance they are ordered, but evaluations of penal responsibility are rarely used because they are relevant only if the affirmative defense of lack of penal responsibility is asserted in criminal proceedings. Pairing the evaluations together is burdensome to the process, lengthens the time to complete the evaluation and report to the court, and generates a report that may not be used during adjudication.

An evaluation that combines determinations of fitness to proceed and penal responsibility into one evaluation raises ethical and legal concerns. Defendants who are unfit to proceed, by definition, may not have the capacity to consult with defense counsel to determine the impact of providing the examiner with information that could be potentially incriminating. The American Bar Association's Criminal Justice Mental Health Standards, Standard 7-4.4, recommends that an evaluation of a defendant's mental condition at the time of the alleged offense and capacity for penal responsibility should not be combined in an evaluation to determine fitness to stand trial unless requested by the defense or upon a showing of good cause.

Section 704-406, Hawaii Revised Statutes, does not provide a process for the reevaluation of a defendant who was found unfit to proceed but has since participated in fitness restoration services provided at either the Hawaii state hospital or in the community. Instead, courts have ordered new evaluations by a panel of three examiners for all defendants charged with felonies.

This Act establishes a procedure that requires evaluations for regained fitness to proceed by one examiner for all defendants except for defendants charged with murder in the first or second degrees, attempted murder in the first or second degrees, or class A felonies.

The purpose of this Act is to decrease the time defendants spend in state custody waiting for forensic mental health examinations and shorten the time to reach rulings on fitness to proceed and penal responsibility. This Act establishes evaluations for determining initial fitness to proceed and capacity for penal responsibility by one examiner for certain defendants, separates evaluation

for fitness to proceed and for penal responsibility, and codifies procedures for reevaluation of fitness to proceed.

SECTION 2. Chapter 704, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§704- Examination of defendant with respect to physical or mental disease, disorder, or defect excluding penal responsibility. (1) Whenever the defendant has filed a notice of intention to rely on the defense of physical or mental disease, disorder, or defect excluding penal responsibility, or there is reason to believe that the physical or mental disease, disorder, or defect of the defendant will or has become an issue in the case, the court may order an examination as to the defendant's physical or mental disease, disorder, or defect at the time of the conduct alleged.

(2) The court shall appoint three qualified examiners in felony cases and one qualified examiner in nonfelony cases to examine and report upon the physical or mental disease, disorder, or defect of the defendant at the time of the conduct. In felony cases, the court shall appoint at least one psychiatrist and at least one licensed psychologist. The third examiner may be a psychiatrist, licensed psychologist, or qualified physician. One of the three examiners shall be a psychiatrist or licensed psychologist designated by the director of health from within the department of health. In nonfelony cases, the court may appoint as examiners either a psychiatrist or a licensed psychologist. All examiners shall be appointed from a list of certified examiners as determined by the department of health. The court, in appropriate circumstances, may appoint an additional examiner or examiners. The court may direct that one or more qualified physicians or psychologists retained by the defendant be permitted to witness the examination. As used in this section, the term “licensed psychologist” includes psychologists exempted from licensure by section 465-3(a)(3) and “qualified physician” means a physician qualified by the court for the specific evaluation ordered.

(3) An examination performed under this section may employ any method that is accepted by the professions of medicine or psychology for the examination of those alleged to be affected by a physical or mental disease, disorder, or defect; provided that each examiner shall form and render diagnoses and opinions upon the physical and mental condition of the defendant independently from the other examiners, and the examiners, upon approval of the court, may secure the services of clinical psychologists and other medical or paramedical specialists to assist in the examination and diagnosis.

(4) For defendants charged with felonies, the examinations for fitness to proceed under section 704-404 and penal responsibility under this section shall be conducted separately unless a combined examination has been ordered by the court upon a request by the defendant or upon a showing of good cause to combine the examinations. When the examinations are separate, the examination for penal responsibility under this section shall not be ordered more than thirty days after a finding of fitness to proceed. The report of the examination for fitness to proceed shall be separate from the report of the examination for penal responsibility unless a combined examination has been ordered. For defendants charged with offenses other than felonies, a combined examination is permissible when ordered by the court.

(5) The court may order the examination to occur no sooner than one hundred twenty days of a finding of unfit to proceed under section 704-404 upon a showing of good cause.

(6) The report of the examination for penal responsibility shall include the following:

- (a) A description of the nature of the examination;
 - (b) A diagnosis of the physical or mental condition of the defendant;
 - (c) An opinion as to the extent, if any, to which the capacity of the defendant to appreciate the wrongfulness of the defendant's conduct or to conform the defendant's conduct to the requirements of law was impaired at the time of the conduct alleged;
 - (d) When directed by the court, an opinion as to the capacity of the defendant to have a particular state of mind that is required to establish an element of the offense charged; and
 - (e) Where more than one examiner is appointed, a statement that the diagnosis and opinion rendered were arrived at independently of any other examiner, unless there is a showing to the court of a clear need for communication between or among the examiners for clarification. A description of the communication shall be included in the report. After all reports are submitted to the court, examiners may confer without restriction.
- (7) If the examination cannot be conducted by reason of the unwillingness of the defendant to participate in the examination, the report shall so state and shall include, if possible, an opinion as to whether the unwillingness of the defendant was the result of physical or mental disease, disorder, or defect.
- (8) Three copies of the report of the examination, including any supporting documents, shall be filed with the clerk of the court, who shall cause copies to be delivered to the prosecuting attorney and to counsel for the defendant.
- (9) Any examiner shall be permitted to make a separate explanation reasonably serving to clarify the examiner's diagnosis or opinion.
- (10) The court shall obtain all existing relevant medical, mental health, social, police, and juvenile records, including those expunged, and other pertinent records in the custody of public agencies, notwithstanding any other statute, and make the records available for inspection by the examiners in hard copy or digital format. The court may order that the records so obtained be made available to the prosecuting attorney and counsel for the defendant in either format, subject to conditions the court determines appropriate; provided that juvenile records shall not be made available unless constitutionally required. No further disclosure of records shall be made except as permitted by law.
- (11) All public agencies in possession of relevant medical, mental health, social, police, and juvenile records, and any other pertinent records of a defendant ordered to be examined under this chapter, shall provide those records to the court, notwithstanding any other state statute.
- (12) The compensation of persons making or assisting in the examination, other than those retained by a nonindigent defendant, who are not undertaking the examination upon designation by the director of health as part of their normal duties as employees of the State or a county, shall be paid by the State.
- (13) The time during which completion of an examination pursuant to this section is pending shall be excluded in computing the time for trial commencement."

SECTION 3. Section 704-404, Hawaii Revised Statutes, is amended to read as follows:

"§704-404 Examination of defendant with respect to physical or mental disease, disorder, or defect[-] excluding fitness to proceed. (1) Whenever [the defendant has filed a notice of intention to rely on the defense of physical or

SECTION 4. Section 704-406, Hawaii Revised Statutes, is amended to read as follows:

The county police departments shall segregate or sanitize from the police reports information that would result in the [likely] or actual identification of individuals who furnished information in connection with the investigation or who were of investigatory interest. ~~[Records shall not be re-disclosed except to the extent permitted by law.]~~ No further disclosure of records shall be made except as provided by law.

(2) When the defendant is released on conditions after a finding of unfitness to proceed, the department of health shall establish and monitor a fitness restoration program consistent with conditions set by the court order of release, and shall inform the prosecuting attorney of the county that charged the defendant of the program and report the defendant's compliance therewith.

~~[(3)]~~ When the court, on its own motion or upon the application of the director of health, the prosecuting attorney, or the defendant, ~~[determines, after a hearing if a hearing is requested,] has reason to believe that the defendant has regained fitness to proceed, [the penal proceeding shall be resumed.]~~ for a defendant charged with the offense of murder in the first or second degree, attempted murder in the first or second degree, or a class A felony, the court shall appoint three qualified examiners and may appoint in all other cases one qualified examiner, to examine and report upon the physical and mental condition of the defendant. In cases in which the defendant has been charged with murder in the first or second degree, attempted murder in the first or second degree, or a class A felony, the court shall appoint as examiners at least one psychiatrist and at least one licensed psychologist. The third examiner may be a psychiatrist, licensed psychologist, or qualified physician. One of the three examiners shall be a psychiatrist or licensed psychologist designated by the director of health from within the department of health. In all other cases, the one qualified examiner shall be a psychiatrist or licensed psychologist designated by the director of health from within the department of health. The court, in appropriate circumstances, may appoint an additional examiner or examiners. All examiners shall be appointed from a list of certified examiners as determined by the department of health. After a hearing, if a hearing is requested, if the court determines that the defendant has regained fitness to proceed, the penal proceeding shall be resumed and the defendant shall no longer be committed to the custody of the director of health. In cases where a defendant is charged with the offense of murder in the first or second degree, attempted murder in the first or second degree, or a class A felony, upon the request of the prosecuting attorney or the defendant, and in consideration of information provided by the defendant's clinical team, the court may order that the defendant remain in the custody of the director of health, for good cause shown, subject to bail or until a judgment on the verdict or a finding of guilt after a plea of guilty or nolo contendere. Thereafter, the court may consider a request from the director of health to rescind its order maintaining the defendant in the director's custody, for good cause shown. As used in this section, the term "qualified physician" means a physician qualified by the court for the specific evaluation ordered. If, however, the court is of the view that so much time has elapsed since the commitment or release on conditions of the defendant that it would be unjust to resume the proceeding, the court may dismiss the charge and:

- (a) Order the defendant to be discharged;
- (b) Subject to the law governing the involuntary civil commitment of

persons affected by physical or mental disease, disorder, or defect, order the defendant to be committed to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment; or

- (c) Subject to the law governing involuntary outpatient treatment, order the defendant to be released on conditions the court determines necessary.

(4) An examination for regained fitness to proceed performed under this section may employ any method that is accepted by the professions of medicine or psychology for the examination of those alleged to be affected by a physical or mental disease, disorder, or defect, and shall include a review of records where the defendant, while under the custody of the director of health, was placed; provided that each examiner shall form and render an opinion on the defendant's regained fitness to proceed independently from the other examiners and the examiners, upon approval of the court, may secure the services of clinical psychologists and other medical or paramedical specialists to assist in the examination.

(5) The report of the examination for regained fitness to proceed shall include the following:

- (a) A description of the nature of the examination;
- (b) An opinion as to the defendant's capacity to understand the proceedings against the defendant and to assist in the defendant's own defense; and
- (c) Where more than one examiner is appointed, a statement that the opinion rendered was arrived at independently of any other examiner, unless there is a showing to the court of a clear need for communication between or among the examiners for clarification. A description of the communication shall be included in the report. After all reports are submitted to the court, examiners may confer without restriction.

(6) All other procedures as set out in section 704-404(6) through (11) shall be followed for the completion of the report of the examination for regained fitness to proceed performed under this section.

~~[(4)]~~ (7) If a defendant committed to the custody of the director of health for a limited period pursuant to subsection (1) is not found fit to proceed prior to the expiration of the commitment, the charge for which the defendant was committed for a limited period shall be dismissed. Upon dismissal of the charge, the defendant shall be released from custody unless the defendant is subject to prosecution for other charges, in which case, unless the defendant is subject to the law governing involuntary civil commitment, the court shall order the defendant's commitment to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment. Within a reasonable time following any other commitment under subsection (1), the director of health shall report to the court on whether the defendant presents a substantial likelihood of becoming fit to proceed in the future. The court, in addition, may appoint a panel of three qualified examiners in felony cases or one qualified examiner in nonfelony cases to make a report. If, following a report, the court determines that the defendant probably will remain unfit to proceed, the court may dismiss the charge and:

- (a) Release the defendant; or
- (b) Subject to the law governing involuntary civil commitment, order the defendant to be committed to the custody of the director of

health to be placed in an appropriate institution for detention, care, and treatment.

~~[(5)]~~ (8) If a defendant released on conditions for a limited period pursuant to subsection (1) is not found fit to proceed prior to the expiration of the release on conditions order, the charge for which the defendant was released on conditions for a limited period shall be dismissed. Upon dismissal of the charge, the defendant shall be discharged from the release on conditions unless the defendant is subject to prosecution for other charges or subject to the law governing involuntary civil commitment, in which case the court shall order the defendant's commitment to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment. Within a reasonable time following any other release on conditions under subsection (1), the court shall appoint a panel of three qualified examiners in felony cases or one qualified examiner in nonfelony cases to report to the court on whether the defendant presents a substantial likelihood of becoming fit to proceed in the future. If, following the report, the court determines that the defendant probably will remain unfit to proceed, the court may dismiss the charge and:

- (a) Release the defendant; or
- (b) Subject to the law governing involuntary civil commitment, order the defendant to be committed to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment."

SECTION 5. Section 704-411, Hawaii Revised Statutes, is amended by amending subsection (3) to read as follows:

"(3) When ordering a hearing pursuant to subsection (2):

- (a) In nonfelony cases, the court shall appoint a qualified examiner to examine and report upon the physical and mental condition of the defendant. The court may appoint either a psychiatrist or a licensed psychologist. The examiner may be designated by the director of health from within the department of health. The examiner shall be appointed from a list of certified examiners as determined by the department of health. The court, in appropriate circumstances, may appoint an additional examiner or examiners; and
- (b) In felony cases, the court shall appoint three qualified examiners to examine and report upon the physical and mental condition of the defendant. In each case, the court shall appoint at least one psychiatrist and at least one licensed psychologist. The third member may be a psychiatrist, a licensed psychologist, or a qualified physician. One of the three shall be a psychiatrist or licensed psychologist designated by the director of health from within the department of health. The three examiners shall be appointed from a list of certified examiners as determined by the department of health.

To facilitate the examination and the proceedings thereon, the court may cause the defendant, if not then confined, to be committed to a hospital or other suitable facility for the purpose of examination for a period not exceeding thirty days or ~~[such]~~ a longer period as the court determines to be necessary for the purpose upon written findings for good cause shown. The court may direct that qualified physicians or psychologists retained by the defendant be permitted to witness the examination. The examination and report and the compensation of persons making or assisting in the examination shall be in ~~[accord]~~ accordance with section 704-404(3), ~~[(4)(a)]~~ (5)(a) and (b), ~~[(6), (7), (8), and (9)]~~ (7), (8), (9).

(10), and (11). As used in this section, the term “licensed psychologist” includes psychologists exempted from licensure by section 465-3(a)(3)[-] and “qualified physician” means a physician qualified by the court for the specific evaluation ordered.”

SECTION 6. Section 704-414, Hawaii Revised Statutes, is amended to read as follows:

“§704-414 Procedure upon application for discharge, conditional release, or modification of conditions of release. Upon filing of an application pursuant to section 704-412 for discharge or conditional release, or upon the filing of an application pursuant to section 704-413 for discharge or for modification of conditions of release, the court shall appoint three qualified examiners in felony cases and one qualified examiner in nonfelony cases to examine and report upon the physical and mental condition of the defendant. In felony cases the court shall appoint at least one psychiatrist and at least one licensed psychologist. The third member may be a psychiatrist, a licensed psychologist, or a qualified physician. One of the three shall be a psychiatrist or licensed psychologist designated by the director of health from within the department of health. The examiners shall be appointed from a list of certified examiners as determined by the department of health. To facilitate the examination and the proceedings thereon, the court may cause the defendant, if not then confined, to be committed to a hospital or other suitable facility for the purpose of the examination and may direct that qualified physicians or psychologists retained by the defendant be permitted to witness the examination. The examination and report and the compensation of persons making or assisting in the examination shall be in ~~accord~~ accordance with section 704-404(3), ~~[(4)(a)] (5)(a) and (b), [(6), (7), (8), and (9)] (7), (8), (9), (10), and (11).~~ As used in this section, the term “licensed psychologist” includes psychologists exempted from licensure by section 465-3(a)(3)[-] and “qualified physician” means a physician qualified by the court for the specific evaluation ordered.”

A Bill for an Act Relating to Military Service.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that reserve and national guard members, employed by the State, are authorized to receive fifteen days of annual paid military leave while on active duty or during periods of instruction or maneuvers. However, of the fifteen days, members actually use only about ten to twelve days, leaving the members with three to five days of unused military leave every

year. Title 5 United States Code section 6323(a)(1) authorizes federal employees to use these remaining days for monthly inactive-duty training. There is currently no state statute that allows state and county employees to do the same.

The legislature further finds that all branches of the nation's military undergo rigorous training to ensure troop readiness and the safety of citizens. Many members of the reserve and national guard often have full-time civilian occupations and thus keep their reserve and national guard skills current through inactive-duty training. The nation's military is strengthened and remains ready, in part, due to inactive-duty training.

The purpose of this Act is to support reserve and national guard members and to conform state law with federal law with regard to military leave pay.

SECTION 2. Section 78-16.5, Hawaii Revised Statutes, is amended by amending its title and subsection (a) to read as follows:

~~“[§78-16.5] Pay of officers and employees on active military service and other periods.~~ (a) All officers and employees of the State and the several counties who are appointed for at least six months of service shall be entitled, while on active duty, inactive-duty training, or during periods of camps of instruction or field maneuvers as members of the ~~[Hawaii] national guard or [organized reserves, including the officers' reserve corps and the enlisted reserve corps]~~ reserve of the armed forces under call of the President of the United States or the governor of the State, to receive pay as provided by law. During the absence of the officer or employee, while in the performance of ordered military or naval duty, including inactive-duty training, as a member of the national guard ~~[air national guard, naval militia, or organized reserves, including the officers' reserve corps and the enlisted reserve corps]~~ or reserve of the armed forces, the officer or employee shall receive the officer's or employee's salary or compensation as ~~[such] an~~ officer or employee, but only for a period not exceeding fifteen working days in any calendar year.”

ACT 202

S.B. NO. 2652

A Bill for an Act Relating to Taxation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Hawaii is vulnerable to soaring prices or disruptions of its energy imports, which can hinder, cripple, or even devastate the State's economy and the well-being of its inhabitants. As the most isolated land mass on Earth, Hawaii imports nearly ninety per cent of its energy and almost one hundred per cent of its transportation resources. The legislature finds that it is critical for Hawaii to ensure greater energy security by becoming more self-sufficient in its energy and food supply.

The legislature also finds that providing additional support to Hawaii's agriculture industry could help to reduce reliance on imports and to foster job

growth in the State. The legislature believes that creating a stronger market for renewable fuels will promote the production of locally-grown feedstock.

The purpose of this Act is to:

- (1) Establish a renewable fuels production tax credit to achieve greater energy security for Hawaii; and
- (2) Repeal the ethanol facility tax credit.

SECTION 2. Chapter 235, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§235- Renewable fuels production tax credit. (a) As used in this section:

“Credit period” means a maximum period of five consecutive years, beginning from the first taxable year in which a taxpayer begins renewable fuels production at a level of at least fifteen billion British thermal units of renewable fuels per year.

“Net income tax liability” means income tax liability reduced by all other credits allowed under this chapter.

“Renewable feedstocks” means:

- (1) Biomass crops;
- (2) Agricultural residues;
- (3) Oil crops, including but not limited to algae, canola, jatropha, palm, soybean, and sunflower;
- (4) Sugar and starch crops, including but not limited to sugar cane and cassava;
- (5) Other agricultural crops;
- (6) Grease and waste cooking oil;
- (7) Food wastes;
- (8) Municipal solid wastes and industrial wastes;
- (9) Water; and
- (10) Animal residues and wastes,

that can be used to generate energy.

“Renewable fuels” means fuels produced from renewable feedstocks; provided that:

- (1) The fuels shall be sold as a fuel; and
- (2) The fuels meet the relevant ASTM International specifications for the particular fuel or other industry specifications for liquid or gaseous fuels, including but not limited to:
 - (A) Methanol, ethanol, or other alcohols;
 - (B) Hydrogen;
 - (C) Biodiesel or renewable diesel;
 - (D) Biogas;
 - (E) Other biofuels; or
 - (F) Renewable jet fuel or renewable gasoline.

(b) Each year during the credit period, there shall be allowed to each taxpayer subject to the taxes imposed by this chapter, a renewable fuels production tax credit that shall be applied to the taxpayer’s net income tax liability, if any, imposed by this chapter for the taxable year in which the credit is properly claimed.

For each taxpayer producing renewable fuels, the annual dollar amount of the renewable fuels production tax credit during the five-year credit period shall be equal to 20 cents per seventy-six thousand British thermal units of renewable fuels using the lower heating value sold for distribution in Hawaii; provided that the taxpayer’s production of renewable fuels is not less than fifteen

billion British thermal units of renewable fuels per year; provided further that the amount of the tax credit claimed under this section by a taxpayer shall not exceed \$3,000,000 per taxable year. No other tax credit may be claimed under this chapter for the costs related to renewable fuels production that are used to properly claim a tax credit under this section for the taxable year.

(c) The department of business, economic development, and tourism shall:

- (1) Verify the amount and type of renewable fuels produced and sold, including the purpose for which the fuel was produced;
- (2) Total all renewable fuels production that the department of business, economic development, and tourism certifies for purposes of paragraph (3); and
- (3) Certify the total amount of the tax credit for each taxable year and the cumulative amount of the tax credit during the credit period.

Upon each determination, the department of business, economic development, and tourism shall issue a certificate to the taxpayer verifying the amount of renewable fuels produced and sold, the credit amount certified for each taxable year, and the cumulative amount of the tax credit during the credit period. The taxpayer shall file the certificate with the taxpayer's tax return with the department of taxation. Notwithstanding the department of business, economic development, and tourism's certification authority under this section, the director of taxation may audit and adjust the certification to conform to the facts.

If in any year, the annual amount of certified credits reaches \$3,000,000 in the aggregate, the department of business, economic development, and tourism shall immediately discontinue certifying credits and notify the department of taxation. In no instance shall the total amount of certified credits exceed \$3,000,000 per year. Notwithstanding any other law to the contrary, the verification and certification information compiled by the department of business, economic development, and tourism shall be available for public inspection and dissemination under chapter 92F.

(d) If the credit under this section exceeds the taxpayer's net income tax liability, the excess of the credit over liability may be used as a credit against the taxpayer's net income tax liability in subsequent years until exhausted. All claims for a credit under this section shall be properly filed on or before the end of the twelfth month following the close of the taxable year for which the credit may be claimed. Failure to comply with the foregoing provision shall constitute a waiver of the right to claim the credit.

(e) Prior to production of any renewable fuels for the year, the taxpayer shall provide written notice of the taxpayer's intention to begin production of renewable fuels. The information shall be provided to the department of taxation and the department of business, economic development, and tourism on forms provided by the department of business, economic development, and tourism, and shall include information on the taxpayer, facility location, facility production capacity, anticipated production start date, and taxpayer's contact information. Notwithstanding any other law to the contrary, this taxpayer and facility information shall be available for public inspection and dissemination under chapter 92F.

(f) The taxpayer shall provide written notice to the director of taxation and the director of business, economic development, and tourism within thirty days following the start of production. The notice shall include the production start date and expected renewable fuels production for the next twelve months. Notwithstanding any other law to the contrary, this production information shall be available for public inspection and dissemination under chapter 92F.

(g) Each calendar year during the credit period, the taxpayer shall provide information to the director of business, economic development, and tourism on:

- (1) The number of British thermal units of renewable fuels produced and sold during the previous calendar year;
- (2) The type of fuels;
- (3) Feedstocks used for renewable fuels production;
- (4) The number of employees of the facility and each employee's state of residency; and
- (5) The projected number of British thermal units of renewable fuels production for the succeeding year.

(h) In the case of a partnership, S corporation, estate, or trust, distribution and share of the renewable fuels production tax credit shall be determined pursuant to section 704(b) (with respect to partner's distributive share) of the Internal Revenue Code.

(i) Following each year in which a credit under this section has been claimed, the director of business, economic development, and tourism shall submit a written report to the governor and legislature regarding the production and sale of renewable fuels. The report shall include:

- (1) The number, location, and production of renewable fuels production facilities in the State and outside the State that have claimed a credit under this section;
- (2) The total number of British thermal units of renewable fuels, broken down by type of fuel, produced and sold during the previous year; and
- (3) The projected number of British thermal units of renewable fuels production for the succeeding year.

(j) The director of taxation shall prepare forms that may be necessary to claim a credit under this section. The director of taxation may require the taxpayer to furnish information to ascertain the validity of the claim for credit made under this section and may adopt rules necessary to effectuate the purposes of this section pursuant to chapter 91."

SECTION 3. Section 235-110.3, Hawaii Revised Statutes, is repealed.

SECTION 4. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 5. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 6. This Act shall take effect upon its approval and shall apply to taxable years beginning after December 31, 2016; provided that section 2 shall be repealed on December 31, 2021.

A Bill for an Act Relating to Health.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that comprehensive multidisciplinary reviews of child deaths, as performed in the past by the Hawaii child death review system that was established by Act 369, Session Laws of Hawaii 1997, are needed to understand risk factors, prevent future child deaths, and keep children in the State of Hawaii safe and healthy. Child death reviews provide in-depth, accurate, and timely information to assist with the administration of child health and protection programs and provide appropriate data reporting to federal and state agencies.

However, the legislature finds that the system has been inactive since 2011 and, consequently, these important child death reviews are not currently being conducted in the State of Hawaii. The legislature notes that the child death review system is codified under chapter 321, part XXVII, Hawaii Revised Statutes, and is not mandatory.

Similarly, comprehensive multidisciplinary reviews of maternal deaths are needed to understand risk factors for and prevent the deaths of mothers during pregnancy, labor, and the year following the birth of a child. This information would benefit policymakers and facilitate the establishment and administration of relevant programs. However, the legislature finds that Hawaii does not currently conduct such reviews of maternal deaths.

The legislature additionally finds that comprehensive reviews of child and maternal deaths are a matter of ongoing concern. Because the program of reviews must be sustainable, the legislature recognizes the need to provide funding to conduct child and maternal death reviews not only in the current biennium, but in subsequent biennia as well.

The purpose of this Act is to ensure that the legislature receives appropriate information about child and maternal death reviews and to provide funding to the department of health to conduct child death reviews and to implement a program for the performance of maternal death reviews.

PART I

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to part XXVII to be appropriately designated and to read as follows:

“§321- Child death reviews; reports. (a) The director shall submit an annual written report to the legislature no later than twenty days prior to the convening of each regular session on the status of child death reviews conducted by the department pursuant to this part. The annual report shall cover the calendar year immediately prior to the year in which the report is due and shall describe the total number of child deaths in Hawaii and the causes of those deaths, the number of deaths of children in state custody and the causes of those deaths, any child death review activities conducted by the department, trends in child deaths, and recommendations for system changes, including any proposed legislation.

(b) Upon written request of the director, a state or county agency shall report deaths of children in the custody of the state or county agency to the department, including any information on the circumstances of the child's death deemed relevant by the director.

(c) The director shall submit a copy of any other child death review report published by the department, including findings and recommendations resulting from such a review, to the legislature upon the report's publication."

SECTION 3. Section 321-343, Hawaii Revised Statutes, is amended to read as follows:

~~"[§321-343]~~ **Access to information[-]; use of child death review information; protections.** (a) Upon written request of the director, all providers of ~~[medical]~~ health care, social services, and state and county agencies shall disclose to the department, and those individuals appointed by the director to participate in the review of child deaths, child death review information regarding the circumstances of a child's death so that the department may conduct a multidisciplinary and multiagency review of child deaths pursuant to section 321-31 and this part. All requested disclosures shall comply with state and federal privacy statutes and regulations, including the Health Insurance Portability and Accountability Act, and the department shall not request records of any internal hospital committee, peer review committee, or quality improvement review process. The department may enter into a memorandum of agreement with hospitals regarding requests for information to be used for child death reviews.

(b) To the extent that this section conflicts with other state confidentiality and disclosure laws, this section shall prevail.

(c) Except as otherwise provided in this part, all child death review information acquired by the department during its review of child deaths pursuant to this part is confidential and may only be disclosed as necessary to carry out the purposes of this part.

(d) No individual participating in the review of a child death shall be questioned in any civil or criminal proceeding regarding information presented in or opinions formed as a result of a multidisciplinary review. Nothing in this subsection shall be construed to prevent a person from testifying to information obtained independently of the department's request for child death review information or the multidisciplinary team's review of the child death, or which is public information, or where disclosure is required by a court of law.

(e) Child death review information held by the department as a result of child death reviews conducted under this part shall not be subject to subpoena, discovery, or introduction into evidence in any civil or criminal proceeding, except that child death review information otherwise available from other sources shall not be immune from subpoena, discovery, or introduction into evidence through those sources solely because they were provided to the department as required by this part."

SECTION 4. Section 321-345, Hawaii Revised Statutes, is repealed.

PART II

SECTION 5. Chapter 324, Hawaii Revised Statutes, is amended by adding two new sections to part I to be appropriately designated and to read as follows:

§324-A Multidisciplinary and multiagency reviews. The department of health may conduct multidisciplinary and multiagency reviews of maternal deaths to reduce the incidence of preventable maternal deaths.

§324-B Maternal death review reports. (a) The director of health shall submit an annual written report to the legislature no later than twenty days prior to the convening of each regular session on the status of reviews of maternal deaths conducted by the department. The annual report shall cover the calendar year immediately prior to the year in which the report is due and shall describe the total number of deaths of women while pregnant or within one year after a pregnancy in Hawaii, the causes of those deaths and whether the causes of death were pregnancy related, any maternal mortality review activities conducted by the department, trends in maternal deaths, and recommendations for system changes, including any proposed legislation.

(b) The director of health shall submit a copy of any other maternal death review report published by the department of health, detailing findings and recommendations resulting from such a review, to the legislature upon the report's publication."

SECTION 6. Section 324-1, Hawaii Revised Statutes, is amended to read as follows:

"§324-1 [Sources] Requests for information; sources of information protected. ~~[Any person, hospital, sanatorium, nursing or rest home, or other similar medical facility may]~~ (a) Upon written request from the director of health, all providers of health care, social services, and county and state agencies shall provide information, [interviews,] reports, statements, memoranda, death and birth records, or other data or material relating to the condition and treatment of any person to [the maternal and perinatal mortality study committee of the Hawaii Medical Association, any in-hospital staff committee, or] the department of health[;] or its designee, to be used in the course of any study for the purpose of reducing maternal morbidity or mortality.

(b) To the extent that this section conflicts with other state confidentiality and disclosure laws, this section shall prevail.

(c) The department of health may request information regarding the deceased that is stored in electronic format or in paper copies, or gathered through interviews, subject to certain restrictions, which include but are not limited to:

- (1) Social, medical, and legal histories;
- (2) Death and birth certificates;

- (6) Information and records of social service agencies;
- (7) Educational records;

- (9) Interviews with hospital employees that shall be subject to approval from hospital management.

Furthermore, all requested disclosures shall comply with state and federal privacy statutes and regulations, including the Health Insurance Portability and Accountability Act, and the department of health shall not request records of any hospital review committee, peer review committee, or quality improvement review process. The department may enter into a memorandum of agreement with hospitals regarding requests for information to be used for maternal mortality reviews.

No liability of any kind or character for damages or other relief shall arise or be enforced against any person or organization by reason of having provided the information or material, or by reason of having released or published

the findings, conclusions, and summaries of the research or study committees to advance medical research and medical education.

(d) Except as otherwise provided in this part, all maternal mortality review information acquired by the department during its review of maternal deaths pursuant to this part is confidential and shall only be disclosed as necessary to carry out the purposes of this part.

(e) No individual participating in the review of a maternal death shall be questioned in any civil or criminal proceeding regarding information presented in or opinions formed as a result of a panel meeting. Nothing in this subsection shall be construed to prevent a person from testifying to information obtained independently of the department's request for maternal mortality review information or the panel's review of the maternal death, or which is public information, or where disclosure is required by a court of law.

(f) Maternal mortality review information held by the department as a result of maternal mortality reviews conducted pursuant to this part shall not be subject to subpoena, discovery, or introduction into evidence in any civil or criminal proceeding, except that maternal mortality review information otherwise available from other sources shall not be immune from subpoena, discovery, or introduction into evidence through those sources solely because they were provided to the department as required by this part."

SECTION 7. Section 324-2, Hawaii Revised Statutes, is amended to read as follows:

"§324-2 Identification of persons studied; restriction. The [~~maternal and perinatal mortality study committee of the Hawaii Medical Association, the~~ department of health, or its designee, or any in-hospital staff committee shall use or publish this material only for the purpose of advancing medical research, medical education, or education of the public in the interest of reducing morbidity or mortality. A Bill for an Act Relating to Insurance Coverage of Health Screenings.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that some patients have difficulty receiving proper screenings for sexually transmitted diseases, including human immunodeficiency virus and acquired immunodeficiency syndrome, at annual health screenings. The legislature further finds that more than 1,200,000 people in the United States are living with human immunodeficiency virus and almost one in eight affected persons is unaware of the infection. It is estimated that, each year, more than fifty thousand cases of human immunodeficiency virus are reported with one in four of the new infections striking those between the ages of thirteen and twenty-four.

The legislature further finds that early detection of sexually transmitted diseases is paramount to proper health care and prevention of further transmission. The legislature further finds that certain health care providers may not screen specifically for some sexually transmitted diseases, including human immunodeficiency virus and acquired immunodeficiency syndrome, at annual screenings, even though the federal Patient Protection and Affordable Care Act of 2010 requires health insurance to cover those screenings without any patient cost sharing.

The purpose of this Act is to ensure that all insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, provide insurance coverage for annual screenings for sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome.

SECTION 2. Chapter 431, Hawaii Revised Statutes, is amended by adding a new section to part I of article 10A to be appropriately designated and to read as follows:

“§431:10A- Human immunodeficiency virus and acquired immunodeficiency syndrome screening coverage. (a) Each policy of accident and health or sickness insurance issued or renewed in this State, except for policies that only provide coverage for specified diseases or other limited benefit coverage as described in section 431:10A-102.5, shall provide coverage for annual screenings for sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome.

(b) Each accident and health or sickness insurer shall reimburse all costs associated with the coverage under subsection (a) to any physician or health care provider complying with this section.”

SECTION 3. Chapter 432, Hawaii Revised Statutes, is amended by adding a new section to part VI of article 1 to be appropriately designated and to read as follows:

“§432:1- Human immunodeficiency virus and acquired immunodeficiency syndrome screening coverage. (a) Each hospital or medical service plan contract issued or renewed in this State, except for plan contracts that only provide coverage for specified diseases or other limited benefit coverage, shall provide coverage for annual screenings for sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome.

ACT 205

(b) Each mutual benefit society shall reimburse all costs associated with the coverage under subsection (a) to any physician or health care provider complying with this section.”

SECTION 4. Section 432D-23, Hawaii Revised Statutes, is amended to read as follows:

“**§432D-23 Required provisions and benefits.** Notwithstanding any provision of law to the contrary, each policy, contract, plan, or agreement issued in the State after January 1, 1995, by health maintenance organizations pursuant to this chapter, shall include benefits provided in sections 431:10-212, 431:10A-115, 431:10A-115.5, 431:10A-116, 431:10A-116.2, 431:10A-116.5, 431:10A-116.6, 431:10A-119, 431:10A-120, 431:10A-121, 431:10A-122, 431:10A-125, 431:10A-126, 431:10A-132, 431:10A-133, [and] 431:10A-140, and 431:10A-____, and chapter 431M.”

SECTION 5. Section 23-51, Hawaii Revised Statutes, shall not apply to this Act.

SECTION 6. Notwithstanding any other law to the contrary, the coverage for annual screenings of sexually transmitted diseases, including screenings for human immunodeficiency virus and acquired immunodeficiency syndrome, required under sections 2, 3, and 4 of this Act shall apply to all health benefits plans under chapter 87A, Hawaii Revised Statutes, issued, renewed, modified, altered, or amended on or after January 1, 2018.

SECTION 7. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 8. This Act shall take effect on July 1, 2016, and shall apply to policies, contracts, and plans of health insurance issued or renewed after January 1, 2018.

ACT 205

S.B. NO. 2319

A Bill for an Act Relating to Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that insurance companies typically cover a thirty- or ninety-day supply of prescription contraceptives. However, these coverage requirements may act as a barrier for women, especially those who live in rural areas, frequently travel, are unable to schedule regular visits to health care providers, or are unable to readily pick up their prescriptions. The legislature further finds that statewide efforts to expand women’s access to prescription contraceptives, including long-acting reproductive contraceptives, have been shown to help decrease unplanned pregnancies.

The legislature additionally finds that Oregon recently enacted legislation to expand women's access to prescription contraception. The law requires women to first obtain a three-month supply of prescription contraceptives then allows women to fill subsequent prescriptions for a year at a time. The legislature concludes that Hawaii should adopt similar legislation, which will increase access to prescription contraceptive supplies and decrease barriers regarding reproductive health care. The legislature notes that the American Congress of Obstetricians and Gynecologists and the federal Centers for Disease Control and Prevention recommend prescribing or supplying up to one year of oral contraceptive supplies, based on a woman's preferences and anticipated use.

Accordingly, the purpose of this Act is to expand access to prescription contraceptives by requiring insurers to cover up to a twelve-month period of prescription contraceptive supplies for an insured.

The legislature notes that the reimbursement for prescription contraceptive supplies required under this Act is intended to apply to all insurers in the State, including health benefits plans under chapter 87A, Hawaii Revised Statutes, and medicaid managed care programs.

SECTION 2. Section 431:10A-116.6, Hawaii Revised Statutes, is amended to read as follows:

“§431:10A-116.6 Contraceptive services. (a) Notwithstanding any provision of law to the contrary, each employer group accident and health or sickness policy, contract, plan, or agreement issued or renewed in this State on or after January 1, 2000, shall cease to exclude contraceptive services or supplies for the subscriber or any dependent of the subscriber who is covered by the policy, subject to the exclusion under section 431:10A-116.7[-] and the exclusion under section 431:10A-102.5.

(b) Except as provided in subsection (c), all policies, contracts, plans, or agreements under subsection (a), that provide contraceptive services or supplies, or prescription drug coverage, shall not exclude any prescription contraceptive supplies or impose any unusual copayment, charge, or waiting requirement for such supplies.

- (1) Use of brands covered has resulted in an adverse drug reaction; or
- (2) The member has not used the brands covered and, based on the member's past medical history, the prescribing health care provider believes that use of the brands covered would result in an adverse reaction.

(d) Coverage required by this section shall include reimbursement to a prescribing health care provider or dispensing entity for prescription contraceptive supplies intended to last for up to a twelve-month period for an insured.

~~[(d)]~~ (e) For purposes of this section:

“Contraceptive services” means physician-delivered, physician-supervised, physician assistant-delivered, ~~[nurse practitioner-delivered, certified nurse midwife-delivered,]~~ advanced practice registered nurse-delivered, nurse-delivered, or pharmacist-delivered medical services intended to promote the effective use of contraceptive supplies or devices to prevent unwanted pregnancy.

"§432:1-604.5 Contraceptive services. (a) Notwithstanding any provision of law to the contrary, each employer group health policy, contract, plan, or agreement issued or renewed in this State on or after January 1, 2000, shall cease to exclude contraceptive services or supplies, and contraceptive prescription drug coverage for the subscriber or any dependent of the subscriber who is covered by the policy, subject to the exclusion under section 431:10A-116.7.

(b) Except as provided in subsection (c), all policies, contracts, plans, or agreements under subsection (a), that provide contraceptive services or supplies, or prescription drug coverage, shall not exclude any prescription contraceptive supplies or impose any unusual copayment, charge, or waiting requirement for such drug or device.

(c) Coverage for contraceptives shall include at least one brand from the monophasic, multiphasic, and the progestin-only categories. A member shall receive coverage for any other oral contraceptive only if:

Notwithstanding any other law to the contrary, the reimbursement for prescription contraceptive supplies required under sections 2 and 3 of this Act shall apply to all health benefits plans under chapter 87A, Hawaii Revised Statutes, issued, renewed, modified, altered, or amended on or after January 1, 2017.

SECTION 5. The reimbursement for prescription contraceptive supplies required under sections 2 and 3 of this Act shall apply to all plans under medic-aid managed care programs in the State.

SECTION 6. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 7. This Act shall take effect on July 1, 2016; provided that sections 2 and 3 shall apply to all policies, contracts, plans, or agreements issued or renewed in the State on or after January 1, 2017; provided further that section 5 shall take effect upon approval of the Hawaii medicaid state plan by the Centers for Medicare and Medicaid Services.

ACT 209

H.B. NO. 2489

A Bill for an Act Relating to the Department of Defense.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Women have served honorably and courageously in all of America's wars and conflicts since the American Revolution. With nearly fifteen per cent of the United States Armed Forces consisting of women, the population of female veterans is increasing exponentially and is projected to exceed ten per cent of the total veteran population by the year 2020. More than thirteen thousand female veterans reside in Hawaii alone.

The circumstances and challenges faced by female veterans, as well as women on active duty, are often different from those of their male counterparts. Despite this, veterans' benefits have traditionally been designed to address the needs of male veterans.

In recognition of a growing need to improve veterans' services to address the specific needs of female veterans in such areas as medical and mental health care, child care services, housing, and financial assistance, Senate Resolution No. 6, S.D. 1 (2012) urged the United States Department of Veterans Affairs and the Hawaii office of veterans' services to develop comprehensive programs and services to address the needs of female veterans and women on active duty. In response to Senate Resolution No. 6, S.D. 1, the Hawaii office of veterans' services established the Hawaii women military veterans task force with the mission "to improve the lives of women veterans who are serving or who have served in the military, to identify and address the unique needs of women veterans, and to harness the power of women to influence change."

In 2013, after numerous meetings, the task force submitted a report to the legislature that concluded that military women face multiple interrelated complex problems, including a high rate of military sexual trauma, and for female veterans, the related reentry issues of adequate health care, high rates of post-traumatic stress disorder, homelessness, and joblessness.

Furthermore, with the recent Department of Defense announcement to allow women in all front-line combat jobs, including infantry, artillery, armor, and special operations units, even more program emphasis will be needed when these military women eventually leave the service and become veterans.

The legislature finds that one way to help address the various problems and needs of veterans is to establish and fully fund a veterans services counselor IV position within the office of veterans' services to assist all veterans, with a primary focus on female veterans who served on active duty.

The purpose of this Act is to appropriate funds for:

- (1) The establishment of one full-time permanent veterans services counselor IV position in the office of veterans' services; and
- (2) The Vietnam veterans fiftieth anniversary commemoration.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$50,772 or so much thereof as may be necessary for fiscal year 2016-2017 for the establishment of one full-time equivalent (1.00 FTE) permanent veterans services counselor IV position in the office of veterans' services to address the various problems and needs of all veterans, with a primary focus on female veterans, who served on active duty for the full period they were activated.

The sum appropriated shall be expended by the department of defense for the purposes of this Act.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$200,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the Vietnam veterans fiftieth anniversary commemoration.

The sum appropriated shall be expended by the department of defense for the purposes of this Act.

SECTION 4. This Act shall take effect on July 1, 2016.

- (e) Any action taken by the game management advisory commission shall be validated by a simple majority of its members. Five members shall constitute a quorum.
- (f) All meetings of the game management advisory commission shall be conducted subject to chapter 92.
- (g) Except as otherwise provided in this chapter, the game management advisory commission shall be subject to sections 26-34, 26-35, 26-35.5, and 26-36.
- (h) The department shall provide administrative support to the game management advisory commission. Federal moneys and other moneys that become available to the department may be used to offset administrative costs incurred by the department for purposes of this subsection.
- (i) The game management advisory commission shall submit a report to the legislature no later than twenty days prior to the convening of the regular session of 2017, and each regular session thereafter, on its efforts to comply with this section, including a summary of its activities during the year preceding the regular session for which the report was prepared.
- (j) The game management advisory commission may adopt rules pursuant to chapter 91 to implement this section.”

A Bill for an Act Relating to Aquatic Mitigation Banks.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that aquatic mitigation banks restore, create, enhance, or preserve aquatic habitats or resources to recover the ecological functions, services, and values of aquatic resources lost by adverse impacts to other similar aquatic habitats. The federal government and at least twenty-eight states have developed successful mitigation bank guidelines and programs. Mitigation banks would serve as a mechanism to restore or replace aquatic resources and ecological functions of aquatic habitats either prospectively or after they have been damaged.

The purpose of this Act is to authorize the department of land and natural resources to establish and operate aquatic mitigation banks to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation where a person is required to provide compensatory mitigation prospectively and the use of banked mitigation is approved by the agency requiring mitigation, or for past damages to aquatic habitats or resources.

SECTION 2. Chapter 187A, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

“PART . AQUATIC MITIGATION BANKS

§187A- Aquatic mitigation banking. The department is authorized to establish and operate aquatic mitigation banks, the purpose of which shall be to restore, create, enhance, or preserve aquatic habitats or resources as compensatory mitigation where a person is required to provide compensatory mitigation prospectively and the use of banked mitigation is approved by the agency requiring mitigation, or for past damages to aquatic habitats or resources.

§187A- Rules. The department may adopt rules pursuant to chapter 91 necessary for the purposes of this part.”

SECTION 3. This Act shall take effect upon its approval.

A Bill for an Act Relating to Social Workers.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that social workers in Hawaii who are working to complete their licensed clinical social worker requirements must complete three thousand hours of supervised work experience, one hundred hours of which must be by direct face-to-face supervision. The legislature further finds that certain social workers, particularly those living on the less populated islands, in rural areas, and those employed by the United States Department of Veterans Affairs, may experience challenges meeting the direct face-to-face supervision requirement. This is especially true for social workers in rural areas, as

there are a limited number of rural social workers who are qualified to provide supervision for applicants for licensure as clinical social workers.

The legislature additionally finds that telehealth has become standard practice in social work and the mental health field and should be permitted as a means of meeting the supervision requirements needed for licensure as a clinical social worker.

Accordingly, the purpose of this Act is to clarify the supervision requirements for licensure of clinical social workers, including permitting the option to fulfill all or part of the face-to-face supervision requirements through supervision via a video conference service that is compliant with all federal and state privacy, security, and confidentiality laws, including the Health Insurance Portability and Accountability Act of 1996.

SECTION 2. Section 467E-7, Hawaii Revised Statutes, is amended to read as follows:

“§467E-7 Licensing requirements. Every applicant for a license as a social worker shall submit evidence satisfactory to the director that the applicant meets the following requirements:

 - (ii) Not more than forty hours of direct face-to-face supervision may have been under small group (up to six supervisees) supervision; ~~provided that:~~

(E) In collaboration with the supervisor, may elect to fulfill some or all of the supervision requirements set forth in subparagraph (C) through face-to-face supervision that is conducted electronically through a video conference service that is compliant with all federal and state privacy, security, and confidentiality laws, including the Health Insurance Portability and Accountability Act of 1996. Prior to making such an election, it is incumbent upon the applicant to review the laws and rules of other jurisdictions to determine the impact, if any, that electronic supervision may have on license by endorsement in other states."

A Bill for an Act Relating to Parental Rights.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Prior to the termination of parental rights with respect to a child who was conceived as a result of a sexual assault perpetrated by that parent, Hawaii requires the natural parent to have been convicted of the rape or sexual assault in a court of competent jurisdiction in any state. In May 2015, President Obama signed the Rape Survivor Child Custody Act (Act), Public Law No. 114-22, which provides increased funding to states that allow women to petition for the termination of parental rights upon a finding supported by clear and convincing evidence that the child was conceived as a result of an act of sexual assault. In the Act, Congress found that sexual assault is one of the most under-prosecuted serious crimes and, even when prosecuted, criminal conviction occurs in less than five per cent of prosecutions. Congress also noted that the Supreme Court has established that the clear and convincing evidence standard satisfies due process rights for proceedings to terminate or restrict parental rights, *Santosky v. Kramer*, 455 U.S. 745 (1982) and the clear and convincing evidence standard is the most common standard for the termination of parental rights among all United States jurisdictions. Finally, Congress found that a perpetrator of sexual assault may attempt to avoid prosecution by coercing the survivor with threats to obtain custody of the child or to assert parental rights, or may use the issue of parental rights to otherwise harass, intimidate, or manipulate the survivor.

SECTION 2. Section 571-61, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

“(b) Involuntary termination.

- (1) The family courts may terminate the parental rights in respect to any child as to any legal parent:
 - (A) Who has deserted the child without affording means of identification for a period of at least ninety days;
 - (B) Who has voluntarily surrendered the care and custody of the child to another for a period of at least two years;
 - (C) Who, when the child is in the custody of another, has failed to communicate with the child when able to do so for a period of at least one year;
 - (D) Who, when the child is in the custody of another, has failed to provide for care and support of the child when able to do so for a period of at least one year;
 - (E) Whose child has been removed from the parent’s physical custody pursuant to legally authorized judicial action under section 571-11(9), and who is found to be unable to provide now and in the foreseeable future the care necessary for the well-being of the child;
 - (F) Who is found by the court to be mentally ill or intellectually disabled and incapacitated from giving consent to the adoption of or from providing now and in the foreseeable future the care necessary for the well-being of the child; or
 - (G) Who is found not to be the child’s natural or adoptive father.
- (2) The family courts may terminate the parental rights in respect to any minor of any natural but not legal father who is an adjudicated,

presumed or concerned father under chapter 578, or who is named as the father on the child's birth certificate:

- (A) Who falls within ~~[subparagraph (A)]~~ paragraph (1)(A), (B), (C), (D), (E), or (F) ~~[of paragraph (1)]~~;
 - (B) Whose child is sought to be adopted by the child's stepfather and the stepfather has lived with the child and the child's legal mother for a period of at least one year;
 - (C) Who is only a concerned father who has failed to file a petition for the adoption of the child or whose petition for the adoption of the child has been denied; or
 - (D) Who is found to be an unfit or improper parent or to be financially or otherwise unable to give the child a proper home and education.
- (3) In respect to any proceedings under paragraphs (1) and (2), the authority to terminate parental rights may be exercised by the court only when a verified petition, substantially in the form above prescribed, has been filed by some responsible adult person on behalf of the child in the family court of the circuit in which the parent resides or the child resides or was born and the court has conducted a hearing of the petition. A copy of the petition, together with notice of the time and place of the hearing thereof, shall be personally served at least twenty days prior to the hearing upon the parent whose rights are sought to be terminated. If personal service cannot be effected within the State, service of the notice may be made as provided in section 634-23 or 634-24.
- (4) The family courts may terminate the parental rights in respect to any child as to any natural father who is not the child's legal, adjudicated, presumed or concerned father under chapter 578.
- (5) The family courts may terminate the parental rights in respect to any child of any natural parent upon a finding by clear and convincing evidence that the natural parent ~~[has been convicted in a court of competent jurisdiction in any state or]~~ committed sexual assault of the other natural parent, or an equivalent offense under the laws of another state, territory, possession, or Native American tribe where the offense occurred, and the child was conceived as a result of the ~~[rape or]~~ sexual assault perpetrated by the parent whose rights are sought to be terminated; provided that:
- (A) The court shall accept, as conclusive proof of the sexual assault, a guilty plea or conviction of the child's natural parent for the sexual assault, or an equivalent offense under the laws of another state, territory, possession, or Native American tribe where the offense occurred, of the other natural parent;
 - (B) Termination shall mean, when used with respect to parental rights in this paragraph, a complete and final termination of the parent's right to custody of, guardianship of, visitation with, access to, and inheritance from a child;
- ~~[(A)]~~ (C) The termination of parental rights shall not affect the obligation of the ~~[convicted]~~ child's natural parent to support the child;
- ~~[(B)]~~ (D) The court may order the ~~[convicted]~~ child's natural parent to pay child support;
- (E) It is presumed that termination of parental rights is in the best interest of the child if the child was conceived as a result of the sexual assault;

~~[(C)]~~ (F) This paragraph shall not apply if subsequent to the date of ~~[conviction,]~~ the sexual assault, the ~~[convicted]~~ child's natural parent and custodial natural parent cohabit and establish a mutual custodial environment for the child; and

~~[(D)]~~ (G) The custodial natural parent may petition the court to reinstate the ~~[convicted]~~ child's natural parent's parental rights terminated pursuant to this paragraph.

Such authority may be exercised under this chapter only when a verified petition, substantially in the form above prescribed, has been filed by some responsible adult person on behalf of the child in the family court of the circuit in which the parent resides or the child resides or was born, and the court has conducted a hearing of the petition.

If the mother of the child files with the petition an affidavit representing that the identity or whereabouts of the child's father is unknown to her or not ascertainable by her or that other good cause exists why notice cannot or should not be given to the father, the court shall conduct a hearing to determine whether notice is required.

If the court finds that good cause exists why notice cannot or should not be given to the child's father, and that the father is neither the legal nor adjudicated nor presumed father of the child, nor has he demonstrated a reasonable degree of interest, concern, or responsibility as to the existence or welfare of the child, the court may enter an order authorizing the termination of the father's parental rights and the subsequent adoption of the child without notice to the father."

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.

ACT 215

H.B. NO. 2090

A Bill for an Act Relating to Land Court.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The joint legislative investigative committee established pursuant to Senate Concurrent Resolution No. 226, regular session of 2007, identified serious shortcomings relating to the bureau of conveyances. Act 120, Session Laws of Hawaii 2009 (Act 120), was adopted in response to the findings of the committee. Act 120 was intended to ease the backlog in land court recording and registration by, among other things, transferring fee simple time share interests from the land court system to the regular system.

Act 120 requires that, upon presentation of a deed or any other instrument affecting a fee time share interest, the assistant registrar of the land court shall not file the same in the land court. Rather, the assistant registrar shall:

- (1) Update the certificate of title for all fee time share interests in the time share plan;
- (2) Record in the regular system the updated certificate of title for each fee time share interest in the time share plan;
- (3) Record in the regular system the deed or other instrument presented for recording; and
- (4) Cancel the certificate of title for each fee time share interest in the time share plan.

Once the certificate of title for a fee time share interest is recorded, that time share interest is no longer subject to the land court pursuant to chapter 501, Hawaii Revised Statutes. From then on, all deeds and other instruments affecting the fee time share interest shall be recorded in the regular system. This process is known as deregistration of fee time share interests.

Through Act 121, Session Laws of 2012¹ (Act 121), the legislature found that the task of updating and recording the certificates of title for all fee time

share interests concurrently had exceeded the capacity of the land court, particularly in light of the approximately three-year backlog of land court recordings and registration existing at the time that Act 120 took effect.

Accordingly, Act 121 was adopted to amend the deregistration procedure by removing fee time share interests from the land court system as of July 1, 2012. The assistant registrar was charged with the obligation to certify the certificates of title for all fee time share interests in the ordinary course of business. This was intended to lighten the load of the assistant registrar in the preparation and certification of the certificates of title for fee time share interests without delaying the removal of the fee time share interests from the land court system.

However, the requirement that the assistant registrar certify all of the remaining uncertified fee time share certificates of title remains burdensome in light of resource limitations and the demands of new transactions on the office of the assistant registrar.

The purpose of this Act is to streamline the operations of the office of the assistant registrar of the land court by removing the requirement that the assistant registrar certify all pending or otherwise uncertified certificates of title for fee time share interests, all of which were removed from the land court system as of July 1, 2012. This Act is also intended to preserve the ability of the assistant registrar to complete and certify an uncertified certificate of title to clarify and preserve the rights and interests of interested parties under the State's land court law, up to the date and time of deregistration of the property.

SECTION 2. Section 501-20, Hawaii Revised Statutes, is amended by adding two new definitions to be appropriately inserted and to read as follows:

“Certified fee time share interest certificate of title” means a certificate of title for a fee time share interest that has been updated and approved by the assistant registrar in accordance with section 501-261(1).

“Uncertified fee time share interest certificate of title” means a certificate of title issued for a fee time share interest that has not been updated and approved by the assistant registrar in accordance with section 501-261(1).”

SECTION 3. Section 501-261, Hawaii Revised Statutes, is amended to read as follows:

“§501-261 Deregistration of fee time share interests. The certificate of title for each fee time share interest shall be canceled effective as of the date and time of deregistration of ~~such~~ the fee time share interest. Notwithstanding the provisions of section 501-261 in existence prior to July 1, 2012, a fee time share interest for which a certificate of title was not recorded in the bureau of conveyances pursuant to chapter 502 and part II of this chapter prior to July 1, 2012, shall be deregistered on July 1, 2012, at 12:01 a.m.

The department of public safety need not require separate registration under this part for practitioners engaging in research with nonnarcotic controlled substances in schedules II through V where the registrant is already registered under this part in another capacity. Practitioners registered under federal law to conduct research with schedule I substances may conduct research with schedule I substances within this State upon furnishing the department of public safety evidence of that federal registration.”

The pharmacist shall notify the administrator if the prescribing practitioner fails to deliver a written prescription to the pharmacy within the allotted time. Failure of the pharmacist to do so shall void the authority conferred by this paragraph to dispense without a written prescription of a prescribing individual practitioner. Any practitioner who fails to deliver a written prescription within the seven-day period shall be in violation of section 329-41(a)(1);

A complete and accurate record of all schedule II controlled substances ordered, administered, prescribed, and dispensed shall be maintained for five years. Prescriptions and records of dispensing shall otherwise be retained in conformance with the requirements of section 329-36. No prescription for a controlled substance in schedule II may be refilled; or

- [3] (4) In the case of an electronic prescription, a pharmacist may dispense a controlled substance listed in schedule II upon receiving an electronic prescription.”

As part of the controlled substance registration process, all practitioners, except veterinarians, and pharmacies shall be registered with the department to utilize the electronic prescription accountability system. No identified controlled substances may be dispensed unless information relevant to the dispensation of the substance is reported electronically or by means indicated by the designated state agency to the central repository established under section 329-102, in accordance with rules adopted by the department.”

SECTION 17. Section 329-104, Hawaii Revised Statutes, is amended by amending subsection (c) to read as follows:

“(c) This section shall not prevent the disclosure, at the discretion of the administrator, of investigative information to:

- (1) Law enforcement officers, investigative agents of federal, state, or county law enforcement or regulatory agencies, United States attorneys, county prosecuting attorneys, or the attorney general; provided that the administrator has reasonable grounds to believe that the disclosure of any information collected under this part is in furtherance of an ongoing criminal or regulatory investigation or prosecution;

If the board determines that the existing or reasonably foreseeable future use would be of greater benefit to the State than the proposed mining use of the land, it shall disapprove the application for a mining lease of the land without putting the land to auction. The board shall determine the area to be offered for lease and, after due notice of public hearing to all parties in interest, may modify the boundaries of the land areas. At least thirty days prior to the holding of any public auction, the board shall cause a public notice to be given in the State at least once in each of three successive weeks, setting forth the description of the land, the minerals to be leased, and the time and place of the auction. (b) Any provisions to the contrary notwithstanding, if the person who discovers the mineral discovers it as a result of exploration permitted under section 182-6, and if that person bids at the public auction on the mining lease for the right to mine the discovered mineral and is unsuccessful in obtaining such lease, that person shall be reimbursed by the person submitting the highest successful bid at public auction for the direct or indirect costs incurred in the exploration of the land, excluding salaries, ~~[attorneys]~~ attorney's fees, and legal expenses. The department ~~[shall have the authority to]~~ may review and approve all expenses and costs that may be reimbursed.

(c) Notwithstanding any other law to the contrary, an application for a mining lease submitted pursuant to this section may be granted by the board in accordance with the procedures set forth in section 171-95.3."

ACT 221

H.B. NO. 1999

A Bill for an Act Relating to Agriculture.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the Hawaii livestock industry consistently identifies the cost of feed as the most expensive component in operational costs. This concern is in line with the national and global effort to reduce feed costs by replacing high-cost ingredients with lower-cost alternatives. Hawaii’s situation is exacerbated by the lack of local feed mills, which necessitates the importation of livestock feed. Years of research and local workshops to encourage and support the development of locally produced feed have not improved the deficient feed stock situation in the State.

The legislature further finds that the department of agriculture is committed to reducing the cost of production for the State’s livestock and aquaculture industries by reducing the cost of feed. Hawaii has the potential ingredients for the development and production of local feedstock. The department of agriculture has initiated a feed development process to identify, assess, and validate available local feed ingredients.

The purpose of this Act is to:

- (1) Establish and fund a grant program for qualified feed developers;
- (2) Appropriate funds to reimburse qualified producers of certain products for their cost of feed; and
- (3) Appropriate funds to reimburse feed developers for the costs of feed development.

SECTION 2. Chapter 155D, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§155D- Grants; qualified feed developer. (a) Applications for grants submitted by qualified feed developers shall be submitted on a form furnished by the department and shall be filed with accompanying documentation of feed development costs; provided that:

- (1) The applicant shall comply with applicable federal and state laws prohibiting discrimination against any person on the basis of race, color, national origin, religion, creed, sex, age, sexual orientation, or disability;
- (2) The applicant shall have applied for or received any applicable licenses or permits;
- (3) The applicant shall indemnify and hold harmless the State and its officers, agents, and employees from all claims arising out of or resulting from the feed sold;
- (4) The grant shall not exceed a total of \$200,000 per qualified feed developer per year; and
- (5) The department may request an applicant to provide any necessary information for the purposes of verifying actual sales to qualified producers.

(b) Documentation of animal feed development costs, as requested by the department, shall be filed for feed sold to qualified producers within the immediately preceding fiscal quarter of the filing and shall be effective for feed development costs incurred after July 1, 2016.

(c) The applicant shall submit a quarterly financial statement of revenues and expenses along with other supporting documents as deemed necessary by the department and filed with the documentation of the feed development costs. An annual financial statement shall be filed with the department within ninety days following the close of the business' fiscal year, for final reconciliation of any reimbursement paid during the previous three quarters within the fiscal year. The financial statement shall be certified as accurate by the applicant and the preparer of the financial statement on forms prepared by the department.

(d) Funds shall be disbursed upon approval by the department to the qualified feed developer for up to fifty per cent of the development costs of feed sold to qualified producers, as verified by a certified public accountant.

(e) In no case shall costs be reimbursed to a qualified feed developer when, after evaluation and verification by the department, the department determines that the amount of reimbursement will result in an annual profit of more than ten per cent.

(f) The department shall aggregate the total grant applications pursuant to this section and divide and distribute the available grant funds on a pro rata basis."

SECTION 3. Section 155D-1, Hawaii Revised Statutes, is amended by adding a new definition to be appropriately inserted and to read as follows:

“Qualified feed developer” means any person that, at the time of application for and disbursement of funds under this chapter, is in the business of cultivating feed crops or manufacturing feed for qualified producers.”

SECTION 4. Section 155D-2, Hawaii Revised Statutes, is amended by amending subsections (b) and (c) to read as follows:

“(b) Documentation of animal feed costs, as requested by the department, shall be filed for feed purchased within the immediate preceding fiscal quarter of filing [~~and shall be effective for feed costs incurred after July 1, 2013~~].

(c) The applicant shall submit a quarterly financial statement of farm revenues and expenses along with other supporting documents as deemed necessary by the department, and filed with the documentation of the feed costs. An annual financial statement shall be filed with the department within ninety days following the close of the business’ fiscal year [~~after June 28, 2013,~~] for final reconciliation of any reimbursement paid during the previous three quarters within the fiscal year. The financial statements shall be certified as accurate by the applicant and the preparer of the financial statement on forms prepared by the department.”

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$2,000,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the livestock revitalization program of the department of agriculture that shall be allocated as follows:

- (2) \$1,000,000 to reimburse qualified feed developers for the costs of development of feed for sale to qualified producers; provided that from the sum appropriated, the department of agriculture may expend up to \$15,000 to administer and operate the qualified feed developer grant program pursuant to section 155D- , Hawaii Revised Statutes, including support services and general administrative overhead.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 6. Funds appropriated or authorized by section 5 of this Act that are not expended or encumbered by June 30, 2017, shall lapse as of that date.

SECTION 7. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

SECTION 8. This Act shall take effect on July 1, 2016.

(Approved July 6, 2016.)

ACT 226

S.B. NO. 2395

A Bill for an Act Relating to Telehealth.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that telehealth has allowed states to implement innovative health policy reforms that achieve significant cost savings and improve health outcomes. There are many opportunities for improving health care access in Hawaii through the use of telehealth, especially in areas of the State faced with a shortage of health care providers.

However, the legislature further finds that restrictions on telehealth, such as geographical limitations on service, limitations on patient setting, and restrictions on applicable technology, act as barriers that prevent health care providers and patients from realizing the full benefits of telehealth.

Accordingly, the purpose of this Act is to enhance access to care via telehealth by:

- (1) Requiring the State's medicaid managed care and fee-for-service programs to cover services provided through telehealth;
- (2) Specifying that any telehealth services provided shall be consistent with all federal and state privacy, security, and confidentiality laws;
- (3) Specifying medical professional liability insurance policy requirements with regard to telehealth coverage;
- (4) Clarifying that reimbursement for services provided through telehealth shall be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient;
- (5) Requiring written disclosure of coverages and benefits associated with telehealth services;
- (6) Ensuring that telehealth encompasses store and forward technologies, remote monitoring, live consultation, and mobile health;
- (7) Ensuring that telehealth is covered when originating in a patient's home and other non-medical environments;
- (8) Clarifying requirements for physicians and out-of-state physicians to establish a physician-patient relationship via telehealth;
- (9) Ensuring that reimbursement requirements for telehealth services apply to all health benefits plans under chapter 87A, Hawaii Revised Statutes; and
- (10) Making other conforming amendments related to telehealth for clarity.

SECTION 2. Chapter 346, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§346- Coverage for telehealth. (a) The State's medicaid managed care and fee-for-service programs shall not deny coverage for any service provided through telehealth that would be covered if the service were provided through in-person consultation between a patient and a health care provider.

(b) Reimbursement for services provided through telehealth shall be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient. Nothing in this section shall require a health care provider to be physically present with the patient at an originating site unless a health care provider at the distant site deems it necessary.

(c) There shall be no geographic restrictions or requirements for telehealth coverage or reimbursement under this section.

(d) There shall be no restrictions on originating site requirements for telehealth coverage or reimbursement under this section.

(d) Notwithstanding chapter 453 or rules adopted pursuant thereto, in the event that a health care provider-patient relationship does not exist between the patient and the health care provider involved in a telehealth interaction between the patient and the health care provider, a telehealth mechanism may be used to establish a health care provider-patient relationship.

(e) All health maintenance organizations shall provide current and prospective insureds with written disclosure of coverages and benefits associated with telehealth services, including information on copayments, deductibles, or coinsurance requirements under a policy, contract, plan, or agreement. The information provided shall be current, understandable, and available prior to enrollment in a policy, contract, plan, or agreement and upon request after enrollment in the policy, contract, plan, or agreement.

(f) Services provided by telehealth pursuant to this section shall be consistent with all federal and state privacy, security, and confidentiality laws.

~~[(e)]~~ (g) For the purposes of this section, “telehealth”]:

“Distant site” means the location of the health care provider delivering services through telehealth at the time the services are provided.

“Health care provider” means a provider of services, as defined in title 42 United States Code section 1395x(u), a provider of medical and other health services, as defined in title 42 United States Code section 1395x(s), other practitioners licensed by the State and working within their scope of practice, and any other person or organization who furnishes, bills, or is paid for health care in the normal course of business, including but not limited to primary care providers, mental health providers, oral health providers, physicians and osteopathic physicians licensed under chapter 453, advanced practice registered nurses licensed under chapter 457, psychologists licensed under chapter 465, and dentists licensed under chapter 448.

“Originating site” means the location where the patient is located, whether accompanied or not by a health care provider, at the time services are provided by a health care provider through telehealth, including but not limited to a health care provider’s office, hospital, health care facility, a patient’s home, and other non-medical environments such as school-based health centers, university-based health centers, or the work location of a patient.

“Telehealth” means the use of telecommunications services, as defined in section 269-1, [including] to encompass four modalities: store and forward technologies, remote monitoring, live consultation, and mobile health; and which shall include but not be limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medi-

cal interpretation and diagnosis, for the purpose of delivering enhanced health care services and information ~~[to parties separated by distance.] while a patient is at an originating site and the health care provider is at a distant site.~~ Standard telephone contacts, facsimile transmissions, or e-mail text, in combination or by itself, does not constitute a telehealth service for the purposes of this chapter.”

SECTION 9. Section 453-1.3, Hawaii Revised Statutes, is amended to read as follows:

“§453-1.3 Practice of telehealth. (a) Subject to section 453-2(b), nothing in this section shall preclude any physician acting within the scope of the physician’s license to practice from practicing telehealth as defined in this section.

~~[(b) For the purposes of this section, “telehealth” means the use of telecommunications as that term is defined in section 269-1, including but not limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medical interpretation and diagnosis, for the purposes of delivering enhanced health care services and information to parties separated by distance, establishing a physician-patient relationship, evaluating a patient, or treating a patient.~~

~~(e)~~ (b) Telehealth services shall include a documented patient evaluation, including history and a discussion of physical symptoms adequate to establish a diagnosis and to identify underlying conditions or contraindications to the treatment recommended or provided.

~~[(e)]~~ (c) Treatment recommendations made via telehealth, including issuing a prescription via electronic means, shall be held to the same standards of appropriate practice as those in traditional physician-patient settings that do not include a face-to-face visit but in which prescribing is appropriate, including on-call telephone encounters and encounters for which a follow-up visit is arranged. Issuing a prescription based solely on an online questionnaire is not treatment for the purposes of this section and does not constitute an acceptable standard of care. For the purposes of prescribing ~~[a controlled substance,]~~ opiates or medical marijuana, a physician-patient relationship shall only be established ~~[pursuant to chapter 329.]~~ after an in-person consultation between the prescribing physician and the patient.

~~[(e)]~~ (d) All medical reports resulting from telehealth services are part of a patient’s health record and shall be made available to the patient. Patient medical records shall be maintained in compliance with all applicable state and federal requirements including privacy requirements.

~~[(f)]~~ (e) A physician shall not use telehealth to establish a physician-patient relationship with a patient in this State without a license to practice medicine in Hawaii.

(f) A physician-patient relationship may be established via telehealth if the patient is referred to the telehealth provider by another health care provider who has conducted an in-person consultation and has provided all pertinent patient information to the telehealth provider. Once a provider-patient relationship is established, a patient or physician licensed in this State may use telehealth for any purpose, including consultation with a medical provider licensed in another state, authorized by this section or as otherwise provided by law.

(g) The physician-patient relationship prerequisite under this section shall not apply to telehealth consultations for emergency department services.

~~[(g)]~~ (h) Reimbursement for behavioral health services provided through telehealth shall be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient.

(i) Services provided by telehealth pursuant to this chapter shall be consistent with all federal and state privacy, security, and confidentiality laws.

(j) For the purposes of this section:

“Distant site” means the location of the physician delivering services through telehealth at the time the services are provided.

“Originating site” means the location where the patient is located, whether accompanied or not by a health care provider, at the time services are provided by a physician through telehealth, including but not limited to a physician’s office, hospital, health care facility, a patient’s home, and other non-medical environments such as school-based health centers, university-based health centers, or the work location of a patient.

“Telehealth” means the use of telecommunications as that term is defined in section 269-1, to encompass four modalities: store and forward technologies, remote monitoring, live consultation, and mobile health; and which shall include but not be limited to real-time video conferencing-based communication, secure interactive and non-interactive web-based communication, and secure asynchronous information exchange, to transmit patient medical information, including diagnostic-quality digital images and laboratory results for medical interpretation and diagnosis, for the purposes of: delivering enhanced health care services and information while a patient is at an originating site and the physician is at a distant site; establishing a physician-patient relationship; evaluating a patient; or treating a patient.”

The direction and control shall not be construed in every case to require the personal presence of the supervising and controlling physician or osteopathic physician. A Bill for an Act Relating to Public Safety.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. Section 354D-4, Hawaii Revised Statutes, is amended to read as follows:

“§354D-4 Powers and duties of the director. Under the supervision of the director or the director’s designee, the administrator of the correctional industries program shall:

- (1) Develop programs generating revenue that best sustains their operation and allows for capital investment, and reimburses the general fund, when possible, for the expense of correctional services;
- (2) Develop programs providing the maximum level of work and training opportunities for qualified, able-bodied inmates;
- (3) Develop programs assuming responsibility for training qualified, ~~[able-bodied]~~ appropriately screened inmates in ~~[general work]~~ applicable work and specific training skills that increase their employment prospects after release;
- (4) Develop programs in which inmates can learn skills used in the construction and other industries, while providing low-cost construction, renovation, and repairs of facilities, grounds, furniture, vehicles, and equipment for private, nonprofit social services, health, or education agencies and programs;
- (5) Acquire or purchase equipment, materials, supplies, office space, insurance, and services necessary to establish and maintain programs pursuant to this chapter;
- (6) ~~[Use labor services]~~ Conduct industries or enterprises for the employment of qualified, able-bodied inmates in the manufacture or production of ~~[goods]~~ articles and products deemed appropriate for sale by the director and the provision of services for sale to the public or that [are] may be needed for the construction, operation, ~~[or] maintenance, or use~~ of any office, department, institution, or agency supported in whole or in part by ~~[the State, the counties,] a state and its political subdivisions~~ or the federal government;

- ~~[(9)]~~ (8) Purchase, lease, trade, exchange, acquire, and maintain personal property; and
- ~~[(10)]~~ (9) Accept grants or loans from the State, the counties, or the federal government.”

SECTION 2. Section 354D-15, Hawaii Revised Statutes, is repealed.

PART II

SECTION 3. The legislature finds that Hawaii’s prison system houses many more inmates than it was designed to accommodate and may be in danger

of violating federal standards, although there have been continual discussions about building new prison facilities that would be completed in five to ten years. One reason the prison system is overburdened is that 49.6 per cent of convicted felons return to prison within one year after their release.

The reentry of former inmates into society has often been difficult because:

- (1) Training they received while incarcerated has become obsolete and is no longer economically relevant;
- (2) They acquired negative habits in prison and are not motivated to seek lawful employment; and
- (3) They lack the necessary skills and training to secure meaningful employment that provides adequate pay and is conducive to a more normal lifestyle.

In order to reduce recidivism, several states have established programs that include training and mentoring to give inmates an opportunity to learn professional, vocational, and entrepreneurial skills that will facilitate their reentry into society.

The purpose of this part is to require the department of business, economic development, and tourism to conduct a study of the feasibility of establishing a training and mentoring program for qualified prison inmates that will provide the tools they need to find meaningful employment upon release and thereby decrease the burden of recidivism and incarceration on taxpayers and the State.

SECTION 4. The department of business, economic development, and tourism's Hawaii community-based economic development technical and financial assistance program shall conduct a study to determine the feasibility of establishing a training and mentoring program for qualified prison inmates, to be called the reentry academy for training and entrepreneurial resources (RAFTER), to facilitate their reentry into society.

In conducting the study, the department shall cooperate with the visitor and resort industries, labor unions, the construction industry, community colleges, and the University of Hawaii, to identify the kinds of training and mentoring required to succeed in various professions, industries, vocations, and trades. The department shall also develop a component to offer inmates training in life skills such as personal hygiene and grooming, dressing for success, exercise, healthy diets, time management, dealing with family relationships, responsible finances, and basic reading, writing, and arithmetic skills.

The department shall submit a report of its findings and recommendations to the legislature no later than twenty days prior to the convening of the regular session of 2017.

The report shall be reviewed by the reentry commission and the house and senate standing committees with jurisdiction over public safety.

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$150,000 or so much thereof as may be necessary for fiscal year 2016-2017 to carry out the purposes of this Act.

The sum appropriated shall be expended by the department of business, economic development, and tourism for the purposes of this Act.

PART III

SECTION 6. Statutory material to be repealed is bracketed and stricken.¹ New statutory material is underscored.

SECTION 7. This Act shall take effect upon its approval; provided that section 5 shall take effect on July 1, 2016.

(Approved July 7, 2016.)

ACT 228

S.B. NO. 2659

A Bill for an Act Relating to Industrial Hemp.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that mankind has cultivated hemp as a source of food and fiber for thousands of years. Modern production methods have utilized hemp's oilseed to make high-grade food and beauty products. The stalks produce fiber and cellulose for everything from automotive parts and fine clothing to building materials and fuel.

The legislature further finds that according to estimates by the Hemp Industries Association, retail sales of industrial hemp products in the United States have grown steadily since 1990 to more than \$620,000,000 annually in 2014. California manufacturers of hemp products currently import tens of thousands of acres' worth of hemp seed, oil, and fiber products from around the world that could be produced by American farmers at a more competitive price. Additionally, the intermediate processing of hemp seed, oil, food ingredients, and fiber could create jobs in close proximity to the fields of cultivation.

The legislature further finds that support for industrial hemp farming is occurring at the national level. California, Colorado, Delaware, Hawaii, Illinois, Indiana, Kentucky, Maine, Montana, Nebraska, North Dakota, Oregon, South Carolina, Tennessee, Utah, Vermont, Washington, and West Virginia have defined industrial hemp as a distinct agricultural crop and removed barriers to its production. Furthermore, President Obama signed the 2014 Farm Bill into law, which authorizes industrial hemp research and pilot programs in states that regulate hemp farming under the authority of the state department of agriculture. This relaxation of the federal government's prohibition signals that hemp is poised to once again become a lucrative industrial crop in the United States.

The purpose of this Act is to establish an industrial hemp pilot program to allow the cultivation of industrial hemp and distribution of its seed in Hawaii through limited activities by the board of agriculture through a pilot program for purposes of agricultural or academic research.

SECTION 2. Chapter 141, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

- (g) Any licensee who wishes to alter the growing areas on which the licensee will conduct industrial hemp cultivation shall, before altering the area, submit to the board an updated address, global positioning system location, and map specifying the proposed alteration. §141-E Approved seed cultivars. (a) Industrial hemp shall be grown only if it is on the list of approved seed cultivars. The board may from time to time add or remove any seed cultivar from the list if the cultivar is found to be non-compliant with this part.

(b) The list of approved seed cultivars shall include the following:

ACT 231

H.B. NO. 2561

A Bill for an Act Relating to the Administration of Justice.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The legislature finds that house concurrent resolution no. 155, S.D. 1, (2015), requested the judicial council to appoint a committee

to review and recommend revisions to the Hawaii penal code to help ensure that grades of offenses and punishment are fair and proportionate to the crime committed, with particular attention paid to provisions that base culpability on dollar amounts. The committee was also asked to consider revisions that are cost-effective in deterring crime, reducing recidivism, and providing restitution to victims in a manner that provides equal justice and punishment, regardless of socioeconomic class or ethnicity.

Accordingly, the judicial council convened a penal code review committee comprising twenty-nine members, including judges from appellate, circuit, and district courts; the chair of the senate committee on judiciary and labor; the chair of the house judiciary committee; the attorney general; the director of public safety; the prosecuting attorneys for the counties of Hawaii, Kauai, and Maui; a representative of the prosecuting attorney for the city and county of Honolulu; a representative of the office of the public defender; representatives from the Honolulu police department; a representative of the office of Hawaiian affairs; a member of the judicial council; representatives of the criminal defense bar; crime victim advocates; and community advocates. Five subcommittees were formed, and each subcommittee convened numerous times to consider and prepare proposed revisions to designated parts of the penal code and to related statutes outside the penal code, for submission to the entire committee. The penal code review committee met in plenary session seven times between June 19 and December 18, 2015, and recommended the legislation proposed by this Act.

The purpose of this Act is to amend various chapters of the Hawaii penal code, and related statutes outside the penal code, pursuant to the recommendations of the penal code review committee.

PART II

SECTION 2. The purpose of this part is to amend chapter 704, Hawaii Revised Statutes, regarding penal responsibility and fitness to proceed, to:

- (1) Limit the period of conditional release of defendants acquitted by reason of physical or mental disease, disorder, or defect in non-felony cases to no more than one year because that is the longest term of incarceration that may be imposed upon a conviction in those cases;
- (2) Require that examination reports regarding a defendant's fitness to proceed to trial be provided to the director of health;
- (3) Clarify that a defendant's right to bail and proceedings under chapter 804, Hawaii Revised Statutes, are not suspended when a court suspends pretrial proceedings due to questions about the defendant's physical or mental capacity;
- (4) Provide courts with discretion to decide whether records of a forensic examination shall be provided to the prosecution and defense in hard copy or digital format;
- (5) Permit the defendant to be examined while in custody or on release;
- (6) Provide courts with discretion to decide whether a forensic examination is necessary when a defendant seeks only to modify conditions of release; and to order temporary hospitalization without revocation of a defendant's conditional release; and
- (7) Add references to appropriate statutory authority for involuntary hospitalization and assisted community treatment criteria.

This part also seeks to improve the timeliness and efficiency of forensic examinations. Because the department of health presently lacks the personnel to participate in all forensic examination panels, this part temporarily amends

section 704-404(2), Hawaii Revised Statutes, to repeal the requirement that one member of the panels be appointed from within the department. Mandatory participation in forensic examinations will be restored in two years, which will give the department time to address its personnel shortages.

SECTION 3. Chapter 704, Hawaii Revised Statutes, is amended by adding two new sections to be appropriately designated and to read as follows:

“§704- Conditional release; duration limited in nonfelony cases. For any defendant granted conditional release in a nonfelony case pursuant to section 704-411(1)(b), 704-412, 704-414, or 704-415, the period of conditional release shall not exceed one year.

§704- Examination reports; provided to director of health. Copies of all examination reports made pursuant to sections 704-404, 704-406, 704-411, and 704-414 shall be provided to the director of health.”

SECTION 4. Section 704-404, Hawaii Revised Statutes, is amended as follows:

1. By amending subsections (1) and (2) to read:

“(1) Whenever the defendant has filed a notice of intention to rely on the defense of physical or mental disease, disorder, or defect excluding responsibility, or there is reason to doubt the defendant’s fitness to proceed, or reason to believe that the physical or mental disease, disorder, or defect of the defendant will or has become an issue in the case, the court may immediately suspend all further proceedings in the prosecution~~[-];~~ provided that for any defendant not subject to an order of commitment to a hospital for the purpose of the examination, neither the right to bail nor proceedings pursuant to chapter 804 shall be suspended. If a trial jury has been empanelled, it shall be discharged or retained at the discretion of the court. The discharge of the trial jury shall not be a bar to further prosecution.

(2) Upon suspension of further proceedings in the prosecution, the court shall appoint three qualified examiners in felony cases, and one qualified examiner in nonfelony cases, to examine and report upon the physical and mental condition of the defendant. In felony cases, the court shall appoint at least one psychiatrist and at least one licensed psychologist. The third member may be a psychiatrist, licensed psychologist, or qualified physician. One of the three shall be a psychiatrist or licensed psychologist designated by the director of health ~~[from within the department of health]~~. In nonfelony cases, the court may appoint either a psychiatrist or a licensed psychologist. All examiners shall be appointed from a list of certified examiners as determined by the department of health. The court, in appropriate circumstances, may appoint an additional examiner or examiners. The examination may be conducted ~~[on an out-patient basis]~~ while the defendant is in custody or on release or, in the court’s discretion, when necessary the court may order the defendant to be committed to a hospital or other suitable facility for the purpose of the examination for a period not exceeding thirty days, or ~~[such]~~ a longer period as the court determines to be necessary for the purpose. The court may direct that one or more qualified physicians or psychologists retained by the defendant be permitted to witness the examination. As used in this section, the term “licensed psychologist” includes psychologists exempted from licensure by section 465-3(a)(3).”

2. By amending subsection (8) to read:

“(8) The court shall obtain all existing medical, mental health, social, police, and juvenile records, including those expunged, and other pertinent

records in the custody of public agencies, notwithstanding any other [statutes,] statute, and make [such] the records available for inspection by the examiners[-] in hard copy or digital format. The court may order that the records so obtained be made available to the prosecuting attorney and counsel for the defendant in either format, subject to conditions the court determines appropriate; provided that juvenile records shall not be made available unless constitutionally required. If, pursuant to this section, the court orders the defendant committed to a hospital or other suitable facility under the control of the director of health, then the county police departments shall provide to the director of health and the defendant copies of all police reports from cases filed against the defendant [which] that have been adjudicated by the acceptance of a plea of guilty or no contest, a finding of guilt, acquittal, acquittal pursuant to section 704-400, or by the entry of plea of guilty or no contest made pursuant to chapter 853[-, so long as]; provided that the disclosure to the director of health and the defendant does not frustrate a legitimate function of the county police departments, with the exception of expunged records, records of or pertaining to any adjudication or disposition rendered in the case of a juvenile, or records containing data from the United States National Crime Information Center. The county police departments shall segregate or sanitize from the police reports information that would result in the likelihood or actual identification of individuals who furnished information in connection with its investigation, or who were of investigatory interest. Records shall not be re-disclosed except to the extent permitted by law.”

SECTION 5. Section 704-404, Hawaii Revised Statutes, is amended by amending subsection (2) to read as follows:

“(2) Upon suspension of further proceedings in the prosecution, the court shall appoint three qualified examiners in felony cases, and one qualified examiner in nonfelony cases, to examine and report upon the physical and mental condition of the defendant. In felony cases, the court shall appoint at least one psychiatrist and at least one licensed psychologist. The third member may be a psychiatrist, licensed psychologist, or qualified physician. One of the three shall be a psychiatrist or licensed psychologist designated by the director of health[-] from within the department of health. In nonfelony cases, the court may appoint either a psychiatrist or a licensed psychologist. All examiners shall be appointed from a list of certified examiners as determined by the department of health. The court, in appropriate circumstances, may appoint an additional examiner or examiners. The examination may be conducted while the defendant is in custody or on release or, in the court’s discretion, when necessary the court may order the defendant to be committed to a hospital or other suitable facility for the purpose of the examination for a period not exceeding thirty days, or a longer period as the court determines to be necessary for the purpose. The court may direct that one or more qualified physicians or psychologists retained by the defendant be permitted to witness the examination. As used in this section, the term “licensed psychologist” includes psychologists exempted from licensure by section 465-3(a)(3).”

SECTION 6. Section 704-406, Hawaii Revised Statutes, is amended to read as follows:

“**§704-406 Effect of finding of unfitness to proceed.** (1) If the court determines that the defendant lacks fitness to proceed, the proceeding against the defendant shall be suspended, except as provided in section 704-407, and the court shall commit the defendant to the custody of the director of health to be

- (b) When the defendant is charged with a misdemeanor not involving violence or attempted violence, the commitment shall be limited to no longer than one hundred twenty days from the date the court determines the defendant lacks fitness to proceed.

If the court is satisfied that the defendant may be released on conditions without danger to the defendant or to the person or property of others, the court shall order the defendant's release, which shall continue at the discretion of the court, on conditions the court determines necessary; provided that the release on conditions of a defendant charged with a petty misdemeanor not involving violence or attempted violence shall continue for no longer than sixty days, and the release on conditions of a defendant charged with a misdemeanor not involving violence or attempted violence shall continue for no longer than one hundred twenty days. A copy of ~~the report~~ all reports filed pursuant to section 704-404 shall be attached to the order of commitment or order of release on conditions~~[-]~~ that is provided to the department of health. The county police departments shall segregate or sanitize from the police reports information that would result in the ~~likely~~ or actual identification of individuals who furnished information in connection with the investigation or who were of investigatory interest. Records shall not be re-disclosed except to the extent permitted by law.

(2) When the defendant is released on conditions after a finding of unfitness to proceed, the department of health shall establish and monitor a fitness restoration program consistent with conditions set by the court order of release, and shall inform the prosecuting attorney of the county that charged the defendant of the program and report the defendant's compliance therewith.

~~[(3)]~~ When the court, on its own motion or upon the application of the director of health, the prosecuting attorney, or the defendant, determines, after a hearing if a hearing is requested, that the defendant has regained fitness to proceed, the penal proceeding shall be resumed. If, however, the court is of the view that so much time has elapsed since the commitment or release on conditions of the defendant that it would be unjust to resume the proceeding, the court may dismiss the charge and:

- (a) Order the defendant to be discharged;
- (b) Subject to ~~the law governing the involuntary civil commitment of persons affected by physical or mental disease, disorder, or defect,~~ section 334-60.2 regarding involuntary hospitalization criteria, or-

Upon dismissal of the charge, the defendant shall be released from custody unless the defendant is subject to prosecution for other charges ~~[, in which case, unless the defendant is subject to the law governing involuntary civil commitment,]~~ or subject to section 334-60.2 regarding involuntary hospitalization criteria, in which case the court shall order the defendant's commitment to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment. Within a reasonable time following any other commitment under subsection (1), the director of health shall report to the court on whether the defendant presents a substantial likelihood of becoming fit to proceed in the future. The court, in addition, may appoint a panel of three qualified examiners in felony cases or one qualified examiner in nonfelony cases to make a report. Upon dismissal of the charge, the defendant shall be discharged from the release on conditions unless the defendant is subject to prosecution for other charges or subject to ~~[the law governing involuntary civil commitment,]~~ section 334-60.2 regarding involuntary hospitalization criteria, in which case the court shall order the defendant's commitment to the custody of the director of health to be placed in an appropriate institution for detention, care, and treatment. Within a reasonable time following any other release on conditions under subsection (1), the court shall appoint a panel of three qualified examiners in felony cases or one qualified examiner in nonfelony cases to report to the court on whether the defendant presents a substantial likelihood of becoming fit to proceed in the future. PART V

SECTION 35. The legislature finds that Act 49, Session Laws of Hawaii 2004, established the offense of habitual property crime, a class C felony, in section 708-803, Hawaii Revised Statutes. The legislature found that, in 2002, Hawaii ranked first in the nation for property crime rates and second in larceny theft rates, and that a large portion of the crimes are committed by habitual offenders. The legislature also found that Act 49 would punish repeat property crime offenders by making what would otherwise be a misdemeanor offense a class C felony.

The legislature also finds that the Federal Bureau of Investigation reported in 2012 that Hawaii ranked thirty-first out of fifty-two jurisdictions regarding the rate of property crimes per one hundred thousand inhabitants. Act 118, Session Laws¹ 2014, amended section 708-803(4), Hawaii Revised Statutes, by clarifying that the sentence for a person convicted of habitual property crime will be: (1) an indeterminate term of imprisonment of five years, with a minimum term of one year; or (2) for a first conviction only, a term of probation of five years, with conditions to include but not be limited to one year of imprisonment.

The legislature further finds that the dollar amount that makes a theft offense a felony ranges among the states from \$200 in New Jersey and Virginia to \$2,500 in Wisconsin. The State's felony theft threshold is the fifth lowest among fifty-one jurisdictions, putting Hawaii in the bottom ten per cent. Thirty-one of those jurisdictions have felony theft thresholds of \$1,000 or more. Twenty-six states have increased the felony theft threshold since 2005. Hawaii's threshold is \$300 and was last raised in 1986, from \$200. The impetus to increase felony theft thresholds often is the anticipated reductions to prison populations and associated expenses.

The legislature further finds that the most frequently cited rationale for the increase in the felony theft threshold is inflation, as measured by the United States Department of Labor's Consumer Price Index, and concerns about fundamental fairness when dollar values have not been adjusted in years, even decades, despite inflation. Other factors considered include the felony theft thresholds of adjacent states and the impact that increasing thresholds could have on frequent victims of property crimes, including retail businesses.

The purpose of this part is to improve property crime enforcement by making more repeat offenders of crimes prohibited by this chapter subject to punishment for a class C felony when they commit another subject offense. This Act also balances the need to target professional theft and other property rights offenders with the need to update the State's felony theft threshold. More specifically, this part amends chapter 708, Hawaii Revised Statutes, regarding offenses against property rights by:

- (1) Including more repeat theft and other property rights offenders within the definition of "habitual property crime perpetrator" and holding them accountable for more of their prior convictions, by increasing the look-back period for prior convictions from five years to ten years, by reducing by one offense the number of prior convictions needed to qualify as habitual, by allowing three petty misdemeanors to qualify as habitual, and by eliminating the requirement that convictions have occurred on separate dates;
- (2) Declaring that the state of mind required to commit the offense of habitual property crime does not apply to the offender's status as a habitual property crime perpetrator because the offender's culpability arises from the offender's status, not from the offender's state of mind with regard to that status;

- (3) Increasing the dollar amount that makes an offense a felony for the offenses of theft in the second degree, theft in the third degree, shoplifting, and theft of utility services, to partially reflect the effect of inflation since the felony theft threshold was last raised; and
- (4) Repealing a provision that subjects a person to a separate charge and enhanced penalty for using a computer to commit an underlying theft crime because it seems unduly harsh, given the prevalence of “smart phones” and other computing devices.

SECTION 36. Section 708-803, Hawaii Revised Statutes, is amended to read as follows:

“§708-803 **Habitual property crime.** (1) A person commits the offense of habitual property crime if the person is a habitual property crime perpetrator and commits a ~~[misdemeanor offense within this chapter.]~~ property crime.

(2) For the purposes of this section, “habitual property crime perpetrator” means a person who, within ~~[five]~~ ten years of the instant offense, has convictions for~~[-]~~ offenses within this chapter for:

- (a) ~~[Three felonies within this chapter;]~~ Any combination of two felonies or misdemeanors; or
- (b) ~~[Three misdemeanors within this chapter; or~~
- (e) ~~Any combination of three felonies and misdemeanors within this chapter.]~~ Any combination of either one felony or one misdemeanor and one petty misdemeanor; or
- (c) Three petty misdemeanors.

The convictions ~~[must have occurred on separate dates and]~~ shall be for separate incidents on separate dates. The prosecution is not required to prove any state of mind with respect to the person’s status as a habitual property crime perpetrator. Proof that the person has the requisite minimum prior convictions shall be sufficient to establish this element.

~~(3)~~ A person commits a property crime if the person engages in conduct that constitutes an offense under this chapter. It can be established that the person has committed a property crime by either the prosecution proving that the person is guilty of or by the person pleading guilty or no contest to committing any offense under this chapter.

~~[(3)]~~ (4) Habitual property crime is a class C felony.

~~[(4)]~~ (5) For a conviction under this section, the sentence shall be either:

- (a) An indeterminate term of imprisonment of five years; provided that the minimum term of imprisonment shall be not less than one year; or
- (b) A term of probation of five years, with conditions to include but not be limited to one year of imprisonment; provided that probation shall only be available for a first conviction under this section.”

SECTION 37. Section 708-831, Hawaii Revised Statutes, is amended by amending subsection (1) to read as follows:

“(1) A person commits the offense of theft in the second degree if the person commits theft:

- (a) Of property from the person of another;
- (b) Of property or services the value of which exceeds ~~[\$300;]~~ \$750;
- (c) Of an aquacultural product or part thereof from premises that are fenced or enclosed in a manner designed to exclude intruders or

there is prominently displayed on the premises a sign or signs sufficient to give notice and reading as follows: "Private Property", "No Trespassing", or a substantially similar message;

- (d) Of agricultural equipment, supplies, or products, or part thereof, the value of which exceeds \$100 but does not exceed \$20,000, or of agricultural products that exceed twenty-five pounds, from premises that are fenced, enclosed, or secured in a manner designed to exclude intruders or there is prominently displayed on the premises a sign or signs sufficient to give notice and reading as follows: "Private Property", "No Trespassing", or a substantially similar message; or if at the point of entry of the premise, a crop is visible. The sign or signs, containing letters not less than two inches in height, shall be placed along the boundary line of the land in a manner and in such a position as to be clearly noticeable from outside the boundary line. Possession of agricultural products without ownership and movement certificates, when a certificate is required pursuant to chapter 145, is prima facie evidence that the products are or have been stolen; or
- (e) Of agricultural commodities that are generally known to be marketed for commercial purposes. Possession of agricultural commodities without ownership and movement certificates, when a certificate is required pursuant to section 145-22, is prima facie evidence that the products are or have been stolen; provided that "agriculture commodities" has the same meaning as in section 145-21."

SECTION 38. Section 708-832, Hawaii Revised Statutes, is amended by amending subsection (1) to read as follows:

"(1) A person commits the offense of theft in the third degree if the person commits theft:

- (a) Of property or services the value of which exceeds [~~\$100;~~] \$250; or
- (b) Of gasoline, diesel fuel, or other related petroleum products used as propellants of any value not exceeding [~~\$300;~~] \$750."

SECTION 39. Section 708-833, Hawaii Revised Statutes, is amended by amending subsection (1) to read as follows:

"(1) A person commits the offense of theft in the fourth degree if the person commits theft of property or services of any value not in excess of [~~\$100;~~] \$250."

SECTION 40. Section 708-833.5, Hawaii Revised Statutes, is amended to read as follows:

"§708-833.5 Shoplifting. A person convicted of committing [~~the offense of~~] theft by means of shoplifting as defined in section 708-830 shall be sentenced [~~as follows:]~~ to the following minimum fines:

- (1) In cases involving [~~property the value or aggregate value of which exceeds \$300; as]~~ a class C felony, [~~provided that]~~ the minimum fine shall be four times the value or aggregate value of the property involved;
- (2) In cases involving [~~property the value or aggregate value of which exceeds \$100; as]~~ a misdemeanor, [~~provided that]~~ the minimum fine

shall be three times the value or aggregate value of the property involved;

- (3) In cases involving ~~[property the value or aggregate value of which is \$100 or less; as]~~ a petty misdemeanor, ~~[provided that]~~ the minimum fine shall be twice the value or aggregate value of the property involved;

SECTION 41. Section 708-839.5, Hawaii Revised Statutes, is amended by amending subsection (4) to read as follows:

- (c) Accrues to the benefit of a residence, home, or dwelling where the value of the theft of utility services exceeds ~~[\$300-]~~ \$750.

Theft of utility services in the first degree is a class C felony, and shall be sentenced in accordance with chapter 706, except that for a first offense the court shall impose a minimum sentence of a fine of at least \$1,000 or two times the value of the theft, whichever is greater.”

SECTION 42. Section 708-893, Hawaii Revised Statutes, is amended by amending subsection (1) to read as follows:

“(1) A person commits the offense of use of a computer in the commission of a separate crime if the person~~:~~

- ~~(a) Intentionally uses a computer to obtain control over the property of the victim to commit theft in the first or second degree; or~~

~~(ix)~~ (i) Section 712-1215, relating to promoting pornography for minors.”

PART VI

SECTION 43. The purpose of this part is to amend chapter 709, Hawaii Revised Statutes, regarding offenses against the family and against incompetents, to:

- (1) Clarify that, regarding the offense of abuse of family or household members, “family or household members” do not include adult roommates or cohabitants who are, or were, only in an economic or contractual affiliation;
- (2) Distinguish between perpetrators who are younger or older than eighteen with regard to ordering a period of separation following an apparent act of physical abuse;
- (3) Clarify that abuse in the presence of a household member who is less than fourteen years of age applies to abuse that occurs in the presence of that member for purposes of charging the abuser; and
- (4) Provide for moving the prohibition against furnishing tobacco and electronic smoking devices to minors to chapter 712, Hawaii Revised Statutes, regarding offenses against public health and morals, where it more logically would be found, by repealing the prohibition from chapter 709, Hawaii Revised Statutes, regarding offenses against family and against incompetents.

SECTION 44. Section 709-906, Hawaii Revised Statutes, is amended as follows:

1. By amending subsection (1) to read:

“(1) It shall be unlawful for any person, singly or in concert, to physically abuse a family or household member or to refuse compliance with the lawful order of a police officer under subsection (4). The police, in investigating any complaint of abuse of a family or household member, upon request, may transport the abused person to a hospital or safe shelter.

For the purposes of this section:

“Business day” means any calendar day, except Saturday, Sunday, or any state holiday.

“Family or household member” ~~means~~:

- (a) Means spouses or reciprocal beneficiaries, former spouses or reciprocal beneficiaries, persons in a dating relationship as defined under section 586-1, persons who have a child in common, parents, children, persons related by consanguinity, and persons jointly residing or formerly residing in the same dwelling unit~~[-]; and~~
- (b) Does not include those who are, or were, adult roommates or cohabitants only by virtue of an economic or contractual affiliation.”

2. By amending subsection (4) to read:

“(4) Any police officer, with or without a warrant, shall take the following course of action, regardless of whether the physical abuse or harm occurred in the officer’s presence:

- (a) The police officer shall make reasonable inquiry of the family or household member upon whom the officer believes physical abuse or harm has been inflicted and other witnesses as there may be;
- (b) ~~[The police officer lawfully shall order the person]~~ If the person who the police officer reasonably believes to have inflicted the abuse is eighteen years of age or older, the police officer lawfully shall order

the person to leave the premises for a period of separation, during which time the person shall not initiate any contact, either by telephone or in person, with the family or household member; provided that the person is allowed to enter the premises with police escort to collect any necessary personal effects. The period of separation shall commence when the order is issued and shall expire at 6:00 p.m. on the second business day following the day the order was issued; provided that the day the order is issued shall not be included in the computation of the two business days;

(c) If the person who the police officer reasonably believes to have inflicted the abuse is under the age of eighteen, the police officer may order the person to leave the premises for a period of separation, during which time the person shall not initiate any contact with the family or household member by telephone or in person; provided that the person is allowed to enter the premises with police escort to collect any necessary personal effects. The period of separation shall commence when the order is issued and shall expire at 6:00 p.m. on the second business day following the day the order was issued; provided that the day the order is issued shall not be included in the computation of the two business days. The order of separation may be amended at any time by a judge of the family court. In determining whether to order a person under the age of eighteen to leave the premises, the police officer may consider the following factors:

(i) Age of the person;

(ii) Relationship between the person and the family or household member upon whom the police officer reasonably believes the abuse has been inflicted; and

(iii) Ability and willingness of the parent, guardian, or other authorized adult to maintain custody and control over the person;

[(e)] (d) All persons who are ordered to leave as stated above shall be given a written warning citation stating the date, time, and location of the warning and stating the penalties for violating the warning. A copy of the warning citation shall be retained by the police officer and attached to a written report which shall be submitted in all cases. A third copy of the warning citation shall be given to the abused person;

[(d)] (e) If the person so ordered refuses to comply with the order to leave the premises or returns to the premises before the expiration of the period of separation, or if the person so ordered initiates any contact with the abused person, the person shall be placed under arrest for the purpose of preventing further physical abuse or harm to the family or household member; and

[(e)] (f) The police officer shall seize all firearms and ammunition that the police officer has reasonable grounds to believe were used or threatened to be used in the commission of an offense under this section."

3. By amending subsection (9) to read:

"(9) Where physical abuse occurs in the presence of [any] a minor, as defined in section 706-606.4, and the minor is a family or household member [who is] less than fourteen years of age, abuse of a family or household member is a class C felony."

SECTION 45. Section 709-908, Hawaii Revised Statutes, is repealed.

PART VII

SECTION 46. The purpose of this part is to amend chapter 710, Hawaii Revised Statutes, regarding offenses against public administration, to:

- (1) Establish the felony offense of resisting an order to stop a motor vehicle in the first degree, applicable when a person both flees from a police officer and does so by driving recklessly or at high speed; and
- (2) Make the existing misdemeanor offense of resisting an order to stop a motor vehicle a second degree offense involving flight from a police officer without reckless or high speed driving.

SECTION 47. Chapter 710, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§710- Resisting an order to stop a motor vehicle in the first degree. (1)

A person commits the offense of resisting an order to stop a motor vehicle in the first degree if the person:

- (a) Intentionally fails to obey a direction of a law enforcement officer, acting under color of the law enforcement officer’s official authority, to stop the person’s motor vehicle; and
- (b) While intentionally fleeing from or attempting to elude a law enforcement officer:
 - (i) Operates the person’s motor vehicle in reckless disregard of the safety of other persons; or
 - (ii) Operates the person’s motor vehicle in reckless disregard of the risk that the speed of the person’s vehicle exceeds:
 - (A) The applicable state or county speed limit by thirty miles per hour or more; or
 - (B) Eighty miles per hour or more, irrespective of the applicable state or county speed limit.

For purposes of this section, “the applicable state or county speed limit” shall have the same meaning as in section 291C-105.

(2) Resisting an order to stop a motor vehicle in the first degree is a class C felony.”

SECTION 48. Section 710-1027, Hawaii Revised Statutes, is amended to read as follows:

“§710-1027 Resisting an order to stop a motor vehicle[-] in the second degree. (1) A person commits the offense of resisting an order to stop a motor vehicle in the second degree if the person intentionally fails to obey a direction of a law enforcement officer, acting under color of the law enforcement officer’s official authority, to stop the person’s vehicle.

(2) Resisting an order to stop a motor vehicle in the second degree is a misdemeanor.”

PART VIII

SECTION 49. The purpose of this part is to amend chapter 712, Hawaii Revised Statutes, regarding offenses against public health and morals, to:

- (1) Move to this chapter the prohibition against furnishing tobacco and electronic smoking devices to minors that currently is found in

chapter 709, Hawaii Revised Statutes, because the offense is more akin to offenses against public health and morals in this chapter than those against the family and against incompetents in chapter 709, Hawaii Revised Statutes;

- (2) Clarify that a person commits the offense of prostitution under section 712-1200(1)(a), Hawaii Revised Statutes, when the person engages in, or agrees or offers to engage in, sexual conduct "in return" for a fee, distinguishing the offense from the offense under section 712-1200(1)(b), Hawaii Revised Statutes, in which the other person pays the fee; and
- (3) Limit the offense of methamphetamine trafficking to instances of manufacturing the drug or distributing it to minors, which merit mandatory prison terms, so that common methamphetamine offenses involving distribution or possession of small amounts may be prosecuted as promotion of dangerous drugs, which gives the sentencing court the discretion to impose probation and drug treatment when appropriate to manage these offenders.

SECTION 50. Chapter 712, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§712- Tobacco products and electronic smoking devices; persons under twenty-one years of age. (1) It shall be unlawful to sell or furnish a tobacco product in any shape or form or an electronic smoking device to a person under twenty-one years of age.

(2) Signs using the statement, "The sale of tobacco products or electronic smoking devices to persons under twenty-one is prohibited", shall be posted on or near any vending machine in letters at least one-half inch high and at or near the point of sale of any other location where tobacco products or electronic smoking devices are sold in letters at least one-half inch high.

(3) It shall be unlawful for a person under twenty-one years of age to purchase any tobacco product or electronic smoking device, as those terms are defined in subsection (5). This provision does not apply if a person under the age of twenty-one, with parental authorization, is participating in a controlled purchase as part of a law enforcement activity or a study authorized by the department of health under the supervision of law enforcement to determine the level of incidence of tobacco or electronic smoking devices sales to persons under twenty-one years of age.

(4) Any person who violates subsection (1) or (2), or both, shall be fined \$500 for the first offense. Any subsequent offenses shall subject the person to a fine not less than \$500 nor more than \$2,000. Any person under twenty-one years of age who violates subsection (3) shall be fined \$10 for the first offense. Any subsequent offense shall subject the violator to a fine of \$50, no part of which shall be suspended, or the person shall be required to perform not less than forty-eight hours nor more than seventy-two hours of community service during hours when the person is not employed and is not attending school.

(5) For the purposes of this section:

"Electronic smoking device" means any electronic product that can be used to aerosolize and deliver nicotine or other substances to the person inhaling from the device, including but not limited to an electronic cigarette, electronic cigar, electronic cigarillo, or electronic pipe, and any cartridge or other component of the device or related product.

"Tobacco product" means any product made or derived from tobacco that contains nicotine or other substances and is intended for human consump-

tion or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled, or ingested by other means. "Tobacco product" includes but is not limited to a cigarette, cigar, pipe tobacco, chewing tobacco, snuff, snus, or an electronic smoking device. "Tobacco product" does not include drugs, devices, or combination products approved for sale by the United States Food and Drug Administration, as those terms are defined in the Federal Food, Drug, and Cosmetic Act."

SECTION 51. Section 712-1200, Hawaii Revised Statutes, is amended by amending subsection (1) to read as follows:

- "(1) A person commits the offense of prostitution if the person:
- (a) Engages in, or agrees or offers to engage in, sexual conduct with another person in return for a fee; or
 - (b) Pays, agrees to pay, or offers to pay a fee to another to engage in sexual conduct."

- (a) If the person has one prior conviction for methamphetamine trafficking pursuant to this section, promoting a dangerous drug in the first degree pursuant to section 712-1241 and methamphetamine was the drug upon which the conviction was predicated, or section 712-1240.8[;] as that section was in effect prior to July 1, 2016, the mandatory minimum term of imprisonment shall be not less than six years, eight months and not greater than thirteen years, four months;
- (b) If the person has two prior convictions for methamphetamine trafficking pursuant to this section, promoting a dangerous drug in the first degree pursuant to section 712-1241 and methamphetamine was the drug upon which the conviction was predicated, or section 712-1240.8, as that section was in effect prior to July 1, 2016, the

The legislature intends that this Act shall apply to the judiciary by operation of section 601-2, Hawaii Revised Statutes.

SECTION 2. Chapter 37, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

ACT 234

S.B. NO. 2559

A Bill for an Act Relating to Homelessness.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to address homelessness.

The legislature finds that homeless families and individuals deserve shelter and the general public deserves safe and clean sidewalks, parks, schools, and other public facilities. Achieving both objectives requires a strategy of making available emergency and transitional shelters that appeal to homeless families and individuals and enforcing state and county trespass and anti-nuisance statutes and ordinances. The shelters are intended to make space available to homeless families and individuals displaced from public sidewalks, parks, schools, and other public facilities by the enforcement of statutes and ordinances that prohibit camping or habitation in those areas.

This Act is intended to address the first part of the strategy: to make available more emergency and transitional shelter space funded in a cost-effective manner. More specifically, this Act:

- (1) Provides that emergency shelters shall comply with certain minimum requirements that meet basic needs and preferences of homeless families and individuals. By doing so, the legislature intends that the shelters be more appealing to homeless families and individuals;
- (2) Requires homeless shelter stipend payments to be made based on performance measures that are actually achieved. The legislature intends that this requirement incentivize emergency and transitional shelter providers to actually provide shelter to more homeless families and individuals;
- (3) Repeals the automatic annual adjustment of the homeless stipend amount. The legislature intends that any adjustment of the stipend amount shall be subject to the contract between the department of human services and the provider agency;
- (4) Revises existing provisions on the establishment and collection of shelter and service payments by a provider agency from homeless families and individuals; and
- (5) Requires each provider agency to submit a financial audit to the department at least annually.

SECTION 2. Chapter 346, Hawaii Revised Statutes, is amended by adding a new section to part XVII to be appropriately designated and to read as follows:

“§346- Emergency shelter; minimum requirements. (a) This section shall apply to every emergency shelter operated by a provider agency that is under contract with the department to receive homeless shelter stipends for providing shelter and services to homeless families or individuals at the emergency shelter.

(b) The department shall require an emergency shelter to comply with the following:

- (1) The shelter shall have the number of showers and bathrooms that the department deems appropriate and sufficient for the number of homeless families or individuals that use the shelter and the capacity of the shelter. The showers and bathrooms may be part of the shelter building or portable and unattached to the shelter building;

- (2) The shelter shall have partitioned space for each homeless family or individual that provides separation from other homeless families or individuals in the shelter. The minimum area of the partitioned space and height of the partition shall be determined by the department and may differ among transitional shelters, according to the number of homeless families or individuals that use the shelter and the capacity of the shelter. A shelter that provides separate rooms or portable dwelling units for homeless families or individuals, including converted shipping containers or school classrooms, shall be deemed to exceed this minimum requirement; and
- (3) The shelter shall provide storage for the personal possessions of each homeless family or individual served by the shelter. The storage shall be securable by the homeless family or individual. The type and number of the storage equipment, space, or area shall be determined by the department.
- (c) The department may require an emergency shelter to comply with any other requirements that the department deems appropriate or necessary. The requirements established by the department may vary among emergency shelters.
- (d) A provider agency contracted to operate or manage an emergency shelter not owned by the department shall comply with the minimum requirements of subsection (b). The provider agency shall bear all costs of compliance, unless the department provides or contributes state funding assistance; provided that the state funding assistance shall be:
 - (1) In addition to homeless shelter stipends paid to the provider agency under section 346-374;
 - (2) Subject to the availability of legislative appropriations; and
 - (3) Recoverable, in whole or part, by the department if the provider agency does not perform satisfactorily under or for the duration of the term of its contract with the department to operate or manage the shelter.
- (e) Any emergency shelter owned by the department shall comply with the minimum requirements under subsection (b), regardless of whether the department contracts with a provider agency to manage or operate the emergency shelter."

SECTION 3. Section 346-361, Hawaii Revised Statutes, is amended as follows:

- 1. By amending the definition of "emergency shelter" to read:
 "'Emergency shelter" means a homeless facility designed to provide temporary shelter and appropriate and available services to homeless families or individuals for a specified period of time~~[-]~~ who are not able to stay in a transitional shelter or reside in a dwelling unit."
- 2. By amending the definition of "homeless shelter stipend" to read:
 "'Homeless shelter stipend" means a payment to a provider agency ~~[or to]~~ from the department ~~[on behalf of]~~ to provide temporary shelter and appropriate services for a homeless family or individual ~~[to assist with the costs of operating]~~ at a homeless facility [and providing appropriate services.] operated or managed by the provider agency."
- 3. By amending the definition of "transitional shelter" to read:
 "'Transitional shelter" means a homeless facility designed to provide temporary shelter and appropriate and available services for a maximum of twenty-four months to homeless families or individuals ~~[for up to twenty-four~~

months, pursuant to rule.] qualified by the pertinent provider agency or department to stay in the transitional shelter.”

SECTION 4. Section 346-371, Hawaii Revised Statutes, is amended to read as follows:

“~~[[§346-371]]~~ **Annual ~~[performance audits.] financial audit.~~** (a) The department shall require any provider agency that dispensed shelter or assistance for any homeless facility or any other program for the homeless authorized by this part to submit to the department a financial audit ~~[and report]~~ when requested, but ~~[no later than every three years.]~~ at least annually. The audit shall be conducted by a certified public accounting firm. This audit ~~[and report]~~ shall contain information specific to the funds received under state homeless program contracts. The audit shall include recommendations to address any problems found.

(b) Continuing contracts with provider agencies to participate in any program for the homeless authorized by this part shall require that the provider agency address the recommendations made by the ~~[auditing agency,]~~ audit, subject to exceptions as set by the department.

(c) Failure to carry out the recommendations made by the ~~[auditing agency]~~ audit may be grounds for the department to bar a provider agency from further contracts for programs authorized by this part until the barred provider has addressed all deficiencies.”

SECTION 5. Section 346-374, Hawaii Revised Statutes, is amended to read as follows:

“~~[[§346-374]]~~ **Homeless shelter stipends.** ~~[(a) The stipend limits per shelter unit of zero bedrooms shall be adjusted by the department annually on the first day of July pursuant to standards established by rule, which may consider changes in the cost of operating homeless facilities, the fair market rents, the consumer price index, or other relevant factors. A “shelter unit of zero bedrooms” means a living unit that is a studio unit or a single room occupancy unit. The homeless shelter stipend at transitional shelters for larger shelter units shall be proportional to the difference in unit size.~~

~~(b) (a)~~ (a) The department may make or may contract to make homeless shelter stipend payments ~~[on behalf of one or more homeless families or individuals]~~ to a provider agency operating or managing an emergency or transitional shelter ~~[or, if the department itself operates and manages a homeless facility, to the department in amounts and under circumstances as provided by rule. The contract may specify a minimum total amount of homeless shelter stipends to be received by a provider agency for making its shelter and services available to eligible homeless families or individuals].~~ Under each contract, the department shall pay homeless shelter stipends only for performance measures actually achieved by the provider agency, such as the number of homeless families or individuals actually provided with shelter and appropriate services at the emergency or transitional shelter. The contract also may include provisions for the automatic adjustment of the homeless shelter stipend amounts, depending on factors agreed to by the department and provider agency.

~~[(e)]~~ (b) In making homeless shelter stipend payments to a provider agency, the department may establish minimum services to be provided by the provider agency to homeless families or individuals at the provider agency’s shelter. The department may also direct provider agencies to establish and manage a savings account program as described in subsection ~~[(d)].~~ (c). Additionally, the de-

partment may direct provider agencies to subcontract for outreach services from other private agencies specializing in programs for the unsheltered homeless.

~~[(d) Provider agencies and]~~ (c) When authorized under a contract with the department, a provider agency may establish and collect shelter and services payments from homeless families or individuals in addition to the amount received in homeless shelter stipend payments [pursuant to rule]. To the extent possible, the shelter and service payment amounts established and collected by a homeless facility, other than an emergency shelter, shall be based on the homeless families' and individuals' ability to pay. If collection of payments based on ability to pay is too difficult, costly, or inefficient for the provider agency, the payment amounts may be based on other criteria authorized under the contract or waived partially or entirely.

Provider agencies and the department may also set aside a portion of the payments in a savings account to be made available to homeless families or individuals when these families and individuals vacate the shelter.

(d) Any state funding assistance provided to a provider agency for compliance with the minimum requirements under section 346- (b) shall be in addition to homeless shelter stipends paid to the provider agency."

SECTION 6. (a) For the purpose of this section, "emergency shelter", "provider agency", and "transitional shelter" mean the same as defined under section 346-361, Hawaii Revised Statutes.

(b) Each contract that takes effect after June 30, 2017, between the department of human services and a provider agency for the operation or management of an emergency or transitional shelter shall comply with this Act. This requirement shall apply whether the contract is entered into, renewed, or extended before or after June 30, 2017.

(c) Beginning July 1, 2016, the department of human services shall work with provider agencies to implement this Act.

SECTION 7. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

H.B. NO. 260

A Bill for an Act Relating to Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that transportation network companies are entities that use a digital network or software application service to connect passengers with transportation network company drivers. The legislature further finds that concerns have been raised about potential gaps in motor ve-

hicle insurance coverage associated with transportation network companies. In response, by the end of 2015, twenty-nine states had enacted legislation to establish insurance requirements covering transportation network company drivers engaged in prearranged rides, thereby protecting transportation network company drivers, their passengers, and the public.

Accordingly, the purpose of this Act is to close the insurance gaps associated with transportation network companies by establishing motor vehicle insurance requirements for transportation network companies and transportation network company drivers.

- (1) While the transportation network company driver is logged onto the transportation network company's digital network or software application service; and
 - (2) While the transportation network company driver is engaged in a prearranged ride.
- (c) The following motor vehicle insurance requirements shall apply while a participating transportation network company driver is logged onto the transportation network company's digital network or software application service and is available to receive transportation requests but is not engaged in a prearranged ride:

Upon such request, a transportation network company driver shall also disclose to directly interested parties, motor vehicle insurers, and investigating police officers whether the transportation network company driver was logged on to the transportation network company's digital network or software application service or engaged in a prearranged ride at the time of the accident.

(l) Unless specified in the personal motor vehicle insurance policy or endorsement, nothing in this section shall be construed to require a personal motor vehicle insurance policy maintained by a transportation network company driver to provide primary or excess coverage while engaged in a prearranged ride. (1) The transportation network company driver's or the vehicle owner's personal motor vehicle insurance policy shall not be required to provide any coverage to any person or entity unless the policy expressly provides for that coverage while the driver is engaged in a prearranged ride, with or without a separate charge, or the policy contains an amendment or endorsement to provide coverage while the driver is engaged in a prearranged ride, for which a separately stated premium may be charged; and

(2) The transportation network company driver's or the vehicle owner's personal motor vehicle insurance policy shall not be required to provide a duty to defend or indemnify the driver's activities in connection with the transportation network company, unless the policy expressly provides otherwise while the driver is engaged in a prearranged ride, with or without a separate charge, or the policy contains an amendment or endorsement to provide coverage while the driver is engaged in a prearranged ride, for which a separately stated premium may be charged.

(m) This section shall not restrict any motor vehicle insurance policy coverage applicable to a passenger or pedestrian, other than the limitations in the transportation network company driver's or the vehicle owner's personal motor vehicle insurance policy described in subsection (l).

(n) Notwithstanding any other law to the contrary, a personal motor vehicle insurer may, at its discretion, offer a motor vehicle liability insurance policy, or an amendment or endorsement to an existing policy that covers a private passenger vehicle, station wagon type vehicle, sport utility vehicle, or similar type of vehicle with a passenger capacity of eight persons or less, including the driver, while the driver is logged onto the transportation network company's digital network or software application service, or while engaged in a prearranged ride, if the policy expressly provides for coverage while the driver is logged onto the transportation network company's digital network or software application service or engaged in prearranged rides, with or without a separate charge, or the policy contains an amendment or an endorsement to provide coverage while the driver is logged onto the transportation network company's digital network or software application service or engaged in a prearranged ride, for which a separately stated premium may be charged.

(o) Notwithstanding any other law affecting whether one or more policies of insurance that may apply with respect to an occurrence is primary or ex-

cess, this section shall determine the obligations under insurance policies issued to transportation network companies and, if applicable, transportation network company drivers.

§431:10C-D Records. (a) A transportation network company shall maintain:

- (1) Global positioning system records and electronic records for each period while a transportation network company driver is logged onto the transportation network company's digital network or software application service or is engaged in a prearranged ride for at least five years from the date each prearranged ride was provided; and
 - (2) Transportation network company driver records at least until the five year anniversary of the date on which a transportation network company driver's activation on the transportation network company digital network or software application service has ended.
- (b) Records maintained under this section shall be made readily available for purposes of an accident investigation pursuant to section 431:10C-C(k) or resolving any other dispute related to transportation network company drivers while they are logged onto the transportation network company's digital network or software application service or while they are engaged in a prearranged ride, no later than ten days after receipt of a written request for such record.

§431:10C-E Disclaimers, waiver of liability, and indemnity agreements invalid. None of the following agreements between a transportation network company or transportation network company driver and a passenger shall be valid or enforceable in this State:

- (1) A disclaimer of liability of a transportation network company or transportation network company driver;

ACT 237

S.B. NO. 2731

A Bill for an Act Relating to Schools.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The legislature finds that new affordable housing generates additional students within a school district in the same way that all other new housing development increases school enrollment. School impact fees are a direct link between new housing units and the new or expanded school facilities required to address the enrollment growth caused by the new units.

The purpose of this part is to clarify that if a new residential development within a designated school impact district requires a county subdivision approval, a county building permit, or a condominium property regime approval, then the developer is also required to fulfill certain impact fee requirements of the department of education, even if the projects are processed pursuant to section 201H-38, Hawaii Revised Statutes, or section 46-15.1, Hawaii Revised Statutes, with the involvement of the Hawaii housing finance and development corporation or a corresponding county agency.

SECTION 2. Section 302A-1603, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Except as provided in subsection (b), any person who seeks to develop a new residential development within a designated school impact district requiring:

- (1) A county subdivision approval;
- (2) A county building permit; or

(3) A condominium property regime approval for the project, shall be required to fulfill the land component impact fee or fee in lieu requirement and construction cost component impact fee requirement of the department, including all government housing projects[-] and projects processed pursuant to sections 46-15.1 and 201H-38.”

PART II

SECTION 3. Section 302A-1608, Hawaii Revised Statutes, is amended to read as follows:

“**§302A-1608 Accounting and expenditure requirements.** (a) Each designated school impact district shall be a separate benefit district. Fees collected within each school impact district shall be spent only within the same school impact district for the purposes collected.

(b) Land dedicated by the developer shall be used only as a site for the construction of one or more new schools or for the expansion of existing school facilities. If the land is never used for the school facility, it shall be returned to the developer, or the developer's successor in interest. Once used, the land may

be sold, with the proceeds used to acquire land for school facilities in the same school impact district.

(c) If the land is not used for a school facility within twenty years of its dedication, it shall be returned to the developer, or the developer's successor in interest.

(d) Once used for school facilities, all or part of the land may be later sold. Proceeds from the sale shall be used to acquire land for school facilities in the same school impact district.

(e) Fee in lieu funds may be used for school site land acquisition and related expenses, including surveying, appraisals, and legal fees. ~~[Fee]~~ With the exception of urban Honolulu, fee in lieu funds shall not be used for the maintenance or operation of existing schools in the district[;]; construction costs, including architectural, permitting, or financing costs[;]; or for administrative expenses.

(f) Notwithstanding subsection (e), in urban Honolulu, fee in lieu funds may be used to purchase completed construction, construct new school facilities, improve or renovate existing structures for school use, or lease land or facilities for school use.

~~[(f)]~~ (g) Construction cost component impact fees shall be used only for the costs of new school facilities that ~~[expands]~~ expand the student capacity of existing schools or adds student capacity in new schools. Construction cost component impact fees may not be used to replace an existing school located within the same school impact district, either on the same site or on a different site.

~~[(g)]~~ (h) Eligible construction costs include planning, engineering, architectural, permitting, financing, and administrative expenses, and any other capital equipment expenses pertaining to educational facilities.

~~[(h)]~~ (i) Construction cost component impact fees shall not be expended for:

- (1) The maintenance or operation of existing schools in the district; or
- (2) Portable or temporary facilities.

~~[(i)]~~ (j) If a closure, demolition, or conversion of an existing permanent department facility within a school impact district that has the effect of reducing student capacity occurs, an amount of new student capacity in permanent buildings equivalent to the lost capacity shall not be funded with school impact fees.

~~[(j)]~~ (k) Fees in lieu, proceeds from the sale of all or part of an existing school site that has been dedicated by a developer pursuant to the requirements of this subpart, and construction cost component impact fees shall be expended or encumbered within twenty years of the date of collection. Fees shall be considered spent or encumbered on a first-in, first-out basis. An expenditure plan for all collected impact fees shall be incorporated into the annual budget process of the department and subject to legislative approval of the budget.

(l) As used in this section, "urban Honolulu" means the Kalihi to Ala Moana school impact district."

ACT 239

S.B. NO. 2583

A Bill for an Act Relating to Composting Toilets.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Act 187, Session Laws of Hawaii 2015, authorized the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems. Composting toilets use no water and facilitate the production of compost that can be used to enrich the soil. In certain areas of Hawaii, geological features or the limits of existing infrastructure have made the use of conventional flush and septic systems impracticable. In such areas, the legislature finds that composting toilets are an effective way to provide toilet facilities to underserved or remote populations.

The legislature further finds that homeless individuals living in encampments frequently suffer from a lack of adequate toilet facilities. Such encampments often exist in areas where geological features such as hard volcanic rock and a shallow water table or a lack of existing infrastructure make the installation of conventional toilets impracticable. Composting toilets have already been proposed as a means to bring much-needed toilet facilities to homeless encampments in the State.

The purpose of this Act is to mandate the counties to approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems, thereby benefiting the people living in those communities and the health and welfare of the State as a whole.

SECTION 2. Section 27-21.6, Hawaii Revised Statutes, is amended to read as follows:

“§27-21.6 **Functions reassigned to the counties.** The following functions are hereby reassigned to the several counties:

- (1) The medical care of inmates of county jails;
- (2) The rendering of medical investigatory services requested by the police;
- (3) Physical examinations of employees to the extent that such functions had been performed immediately prior to the adoption of Act 97, Session Laws of Hawaii 1965;
- (4) The care and treatment of county workers' compensation cases to the extent that such functions had been performed immediately prior to the adoption of Act 97, Session Laws of Hawaii 1965; and
- (5) The regulation of the design, construction, and operation of individual wastewater systems and private wastewater treatment works; provided that:
 - (A) The transfer of this function to each county shall take place on the date that the expenditure of start-up funds is made by the State to such county for this purpose; and
 - (B) The counties ~~may~~ shall approve the installation and use of composting toilets in areas that are inaccessible to municipal wastewater systems. As used in this subparagraph, “composting toilet” means a toilet that uses no water or very little water and uses natural processes to treat waste.”

SECTION 3. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.

(Approved July 12, 2016.)

ACT 240

H.B. NO. 1852

A Bill for an Act Relating to Water Pollution.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the clean water state revolving fund loan program is a federal-state partnership that assists in financing the construction of water pollution control projects necessary to prevent contamination of groundwater and coastal resources, and to protect the health, safety, and welfare of the State. To achieve these purposes, the program provides low interest loans to state and county agencies to construct water pollution control projects.

The legislature further finds that the areas of the State that are more likely to have cesspools would be greatly served by wastewater treatment works. Additionally, while the State or counties may not place a priority on providing water pollution control facilities to areas with prominent cesspool usage,

some residents of these areas are willing to work together to plan, design, and construct wastewater treatment works. However, wastewater treatment works can have significant costs, and because the clean water state revolving fund loan program only provides loans to state and county agencies, interested groups of residents cannot access this funding mechanism to plan, design, and construct wastewater treatment works in their areas.

The purpose of this Act is to clarify the entities eligible to receive loans from the water pollution control revolving fund, including nonprofit organizations.

SECTION 2. Section 342D-83, Hawaii Revised Statutes, is amended to read as follows:

“§342D-83 Revolving fund; establishment, purposes, coordination. (a) There is established in the state treasury a fund to be known as the water pollution control revolving fund to be administered by the director. The revolving fund shall be administered, operated, and maintained to remain available in perpetuity for its stated purpose.

(b) The purpose of the revolving fund is to provide financial assistance to eligible parties for projects or activities to:

- (1) Enable counties and state agencies to plan, design, and construct publicly owned wastewater treatment works in accordance with ~~[Title]~~ title 33 United States Code sections 1381 to 1387;
- (2) Enable eligible parties to implement management programs established under ~~[Title]~~ title 33 United States Code section 1329; ~~and~~
- (3) Enable eligible parties to implement conservation and management plans established under ~~[Title]~~ title 33 United States Code section 1330~~[-]~~;
- (4) Enable eligible parties to construct, repair, or replace a privately owned decentralized wastewater treatment system and individual wastewater system that treats municipal wastewater or domestic sewage under title 33 United States Code section 1383;
- (5) Enable eligible nonprofit entities to provide assistance to small and medium sized publicly owned treatment works for training activities, planning, design, and associated preconstruction activities under title 33 United States Code section 1383;
- (6) Enable eligible parties to manage, reduce, treat, or recapture stormwater or subsurface drainage water under title 33 United States Code section 1383;
- (7) Enable eligible parties to develop and implement watershed projects meeting the criteria under title 33 United States Code section 1274;
- (8) Enable counties and state agencies to reduce the demand for publicly owned treatment works capacity through water conservation, efficiency, or reuse under title 33 United States Code section 1383;
- (9) Enable counties and state agencies to reduce the energy consumption needs for publicly owned treatment works under title 33 United States Code section 1383;
- (10) Enable eligible parties to reuse or recycle wastewater, stormwater, or subsurface drainage water under title 33 United States Code section 1383; and
- (11) Enable eligible parties to increase the security of publicly owned treatment works under title 33 United States Code section 1383.”

SECTION 3. Section 342D-87, Hawaii Revised Statutes, is amended to read as follows:

“~~[[~~§342D-87~~]]~~ **Revolving fund; conditions.** (a) The following conditions shall apply to each project receiving water pollution control financing under this part:

- (1) The project shall conform with the state water quality management plan developed under ~~[Title]~~ title 33 United States Code section 1285(j), 1288, 1313(e), 1329, or 1330;
- (2) The project shall be certified by the director as entitled to priority over other eligible projects on the basis of financial and water pollution control needs;
- (3) In the case of wastewater treatment works construction projects, the application or agreement for the loan shall contain:
 - (A) Reasonable assurances that the applicant will provide for the proper and efficient operation and maintenance of the treatment works after its construction;
 - (B) Reasonable assurances by the applicant that an impact fee structure will be instituted to ensure that new developments pay their appropriate share of the costs of the wastewater treatment works, as determined by the counties; and
 - (C) ~~[Such]~~ Any other provisions required by federal or state law or deemed necessary or convenient by the director;
- (4) The county or state agency receiving these funds for a construction project shall require the installation of the low flow water fixtures and devices for faucets, hose bibbs, showerheads, urinals, and toilets in all new construction projects; provided that the fixtures and devices shall be approved by the International Association of Plumbing and Mechanical Officials and shall comply with applicable American National Standards Institute standards and ~~[such]~~ any other standards as may be required by the respective county for all new residential and public buildings; and
- (5) The county receiving these funds shall take specific steps to reduce polluted runoff into state waters through educational and regulatory programs.

(b) The use of federal funds and state matching funds in the revolving fund shall be in conformance with ~~[Title]~~ title 33 United States Code sections 1381 to 1387.

(c) The director may make and condition loans from the revolving fund which shall:

- (1) Be made at or below market interest rates; ~~and~~
- (2) Require periodic payments of principal and interest with repayment commencing not later than one year after completion of the project for which the loan is made; ~~and~~
- (3) ~~Be fully amortized not later than twenty years after project completion.];~~

provided that all loans shall be fully amortized upon the expiration of the term of the loan.

(d) No loan of funds from the revolving fund shall be made unless the loan recipient pledges a dedicated source of revenue for the repayment of the loans. This pledge may be a county's full faith and credit (a general obligation payable from its general fund), special assessments, revenues from an undertaking, system, or improvements, including user charges, or any other source of revenue.

(e) Notwithstanding section 414D-85 to the contrary, the director may hold individual members of the nonprofit organization that received the loan jointly and severally liable for the nonpayment or default of the loan.”

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect on July 1, 2016.

(Approved July 12, 2016.)

ACT 241

H.B. NO. 2018

A Bill for an Act Relating to Government Processes and Services.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that there are great inconsistencies and a general lack of accountability in the management and construction of government capital improvement projects. In response to these concerns, the legislature adopted and the governor signed into law Act 177, Session Laws of Hawaii 2015, which directed the auditor to review the process, efficiencies, and accountability of various departmental engineering sections that manage general fund capital improvement projects.

The purpose of this Act is to implement the auditor's recommendations.

SECTION 2. Chapter 103, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§103- Capital improvement projects; personnel training; management. (a) The comptroller shall conduct annual training for the engineering personnel of all executive departments and state agencies that manage their own capital improvement projects to ensure compliance with state adopted standards and procedures of best practices in the management and construction of capital improvement projects. Each department and agency shall provide orientation training for new employees subject to this subsection and who are hired during the interim between annual trainings.

(b) All executive departments and state agencies that manage their own capital improvement projects shall:

- (1) Use timelines that include a comprehensive list of all activities required on a project, and not simply rely on contractor timelines, which may not reflect all project phases. At a minimum, the list shall include all phases in a project's life cycle, namely, the initiation, planning, design, bid, construction, and post construction phases;
- (2) Follow state procurement office guidance for tracking payments and deliverables by using a contract administration worksheet that includes milestones or deliverables, which are marked off as items are completed; and
- (3) To help ensure end-user satisfaction with their capital improvement projects, identify and involve stakeholders throughout a project's execution and closing, including providing information about project costs, schedules, and performance.”

SECTION 3. No later than twenty days prior to the convening of the regular session of 2017, the department of accounting and general services shall submit a status report to the legislature on the implementation of practices required by this Act.

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act shall take effect on July 1, 2016.

(Approved July 12, 2016.)

ACT 242

H.B. NO. 254

A Bill for an Act Relating to Medicines.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that biologics are a class of medicines available to treat disease. Unlike traditional drugs, which are chemically manufactured, biologics are manufactured in living cells. Common biologics in use today include human growth hormone, injectable treatments for arthritis and psoriasis, the Hepatitis B vaccine, and stem cell therapy.

The term “biosimilars” refers to substitute versions of brand-name biologics, similar to generic versions of brand-name drugs. These substitutes are not exactly identical to brand-name biologics but are designed to provide commensurate benefits to patients at lower costs. At least nineteen biosimilars are currently approved for use in the European Union.

The Patient Protection and Affordable Care Act, signed into law by President Barack Obama in 2010, created an abbreviated licensure pathway for biological products that are demonstrated to be biosimilar to or interchangeable with a biologic product licensed by the United States Food and Drug Administration (FDA). In early 2015, the FDA approved its first biosimilar drug, Zarxio for use in the United States. Zarxio is used to help prevent infections in cancer patients receiving chemotherapy and is a close copy of an existing medication called Neupogen. Market research reports that there are at least one hundred fifty biosimilars in development.

As of September 15, 2015, sixteen states and Puerto Rico have passed legislation to regulate the substitution of biosimilars for brand-name biologics by pharmacists, and at least thirty-one states have considered similar legislation. Other important issues relating to state regulation of biosimilars include the powers and duties of prescribing authorities, notice to patients, safety, and recordkeeping.

The legislature further finds that the drug product selection board is no longer necessary and its purpose, namely creating the Hawaii additions and deletions list, is better served by reassigning that responsibility to the director of health and combining the responsibility to amend the list of substitutable generic drug products and biological products with the responsibility the director already has for initially creating that same list.

The purpose of this Act is to:

- (1) Allow for the regulation of biosimilar medicines to ensure patient safety and access to medicines at lower prices; and
- (2) Repeal the drug product selection board and transfer the board's duties of creating the list of substitutable generic drug products and biological products to the director of health.

SECTION 2. Section 328-16, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) A prescription drug shall be dispensed only if its label bears the following:

- (1) The name, business address, and telephone number of the seller. The business address shall be the physical location of the pharmacy or the dispensing practitioner's office;
- (2) Except as otherwise authorized for expedited partner therapy in section 453-52, the name of the person for whom the drug was prescribed or the name of the owner of the animal for which the drug was prescribed;
- (3) The serial number of the prescription;
- (4) The date the prescription was prepared;
- (5) The name of the practitioner if the seller is not the practitioner;
- (6) The name, strength, and quantity of the drug;
- (7) The “use by” date for the drug, which shall be:
 - (A) The expiration date on the manufacturer's container; or
 - (B) One year from the date the drug is dispensed, whichever is earlier;
- (8) The number of refills available, if any;
- (9) In the case of the dispensing of an equivalent generic drug product, the statement “same as (brand name of the drug product prescribed or the referenced listed drug name)”, or words of similar meaning; ~~[and]~~
- ~~(10)~~ In the case of the dispensing of an interchangeable biological product, the statement “interchangeable with (brand name of the biological product prescribed or the referenced biological drug name)”, or words of similar meaning; and
- ~~[(10)]~~ (11) Specific directions for the drug's use; provided that if the specific directions for use are too lengthy for inclusion on the label, the notation “take according to written instructions” may be used if separate written instructions for use are actually issued with the drug by the practitioner or the pharmacist, but in no event shall the notation “take as directed”, referring to oral instructions, be considered acceptable.

If any prescription for a drug does not indicate the number of times it may be refilled, if any, the pharmacist shall not refill that prescription unless subsequently authorized to do so by the practitioner. The act of dispensing a prescription drug other than a professional sample or medical oxygen contrary to this subsection shall be deemed to be an act that results in a drug being misbranded while held for sale.”

SECTION 3. Section 328-91, Hawaii Revised Statutes, is amended as follows:

1. By adding five new definitions to be appropriately inserted and to read: ““Biological product” or “biologic product” has the same meaning as defined in Title 42 United States Code section 262, as the same may be amended.

“Drug product” means a drug as defined in section 328-1 other than a biological product as defined in this part.

“Hawaii list of equivalent generic drug products and interchangeable biological products” means the list of equivalent generic drug products and interchangeable biological products, which may include references to the Orange Book, the Purple Book, and other published findings and approvals of the United States Food and Drug Administration, created and published by the director pursuant to the director’s authority in this part to approve drug products and biological products that pharmacists may substitute with equivalent generic drug products and interchangeable biological products.

“Interchangeable biological product” means a biological product approved by the director as substitutable by pharmacists and included in the Hawaii list of equivalent generic drugs and interchangeable biological products.

“Purple Book” means the United States Food and Drug Administration’s “List of Licensed Biological Products with Reference Product Exclusivity and Biosimilarity or Interchangeability Evaluations” publication and its cumulative supplements, which include a list of licensed biological products with biosimilarity and interchangeability evaluations.”

2. By amending the definition of “equivalent generic drug product” to read:

“Equivalent generic drug product” means a drug product [with the same established name, active ingredient strength, quantity, and dosage form as the drug product identified in the prescription, and: (1) that is listed as therapeutically equivalent (i.e., addition) in the current Hawaii additions and deletions list; or (2) that is listed in the compendia of therapeutically equivalent generic drug products and is not listed as therapeutically inequivalent (i.e., deletion) in the Hawaii additions and deletions list.] approved by the director as substitutable by pharmacists and included in the Hawaii list of equivalent generic drug products and interchangeable biological products.”

3. By amending the definition of “savings” to read:

“Savings” means the financial benefit derived from utilizing the substituted equivalent generic drug product or interchangeable biological product from the perspective of the consumer or the ultimate payer, including third party payers.”

4. By repealing the definition of “board”.

[“Board” means the drug product selection board.”]

5. By repealing the definition of “compendia of therapeutically equivalent generic drug products”.

[“Compendia of therapeutically equivalent generic drug products” means the Orange Book and any United States Food and Drug Administration documentation of any United States Food and Drug Administration approved generic drug product with therapeutic equivalency evaluations, including but not limited to:

- (1) Letters of approval of Abbreviated New Drug Applications with therapeutic equivalency evaluations;
- (2) Published listings of approved New Drug Applications or approved Abbreviated New Drug Applications with therapeutic equivalency evaluations; and
- (3) Listings of first time generics with therapeutic equivalency evaluations, adopted by the director.”]

6. By repealing the definition of “Hawaii additions and deletions list”.

[“Hawaii additions and deletions list” means:

- (1) A list of drug products that the board has determined to be safe, effective, and therapeutically equivalent generic drug products but are

~~not in the compendia of therapeutically equivalent generic drugs; and~~

- (2) ~~A list of drug products that are included in the compendia of therapeutically equivalent generic drugs, but that the board has determined not to be safe, effective, therapeutically equivalent, or bio-equivalent generic drug products.”]~~

7. By repealing the definition of “multiple source drug”.

[~~““Multiple source drug” means a drug marketed or sold by two or more manufacturers or labelers or a drug marketed or sold by the same manufacturer or labeler under two or more different brand names, or both, under a brand name and without such a name.”]~~

SECTION 4. Section 328-92, Hawaii Revised Statutes, is amended to read as follows:

“§328-92 Drug product and biological product selection. (a) When filling a prescription order for a drug prescribed by its brand name, a pharmacist or the pharmacist’s authorized agent shall:

- (1) Offer to the consumer an equivalent generic drug product or an interchangeable biological product from the ~~[formulary]~~ Hawaii list of equivalent generic drug products and interchangeable biological products adopted pursuant to section 328-96; ~~[and]~~
- (2) Upon the request of the consumer, inform the consumer of the savings; and
- (3) Inform the consumer of the consumer’s right to refuse substitution.

The pharmacist shall substitute an equivalent generic drug product or an interchangeable biological product if the practitioner does not prohibit substitution under subsection (b), and the substitute equivalent generic drug product or interchangeable biological product results in a savings. The pharmacist shall not substitute if the consumer refuses.

(b) The pharmacist shall not substitute an equivalent generic drug product or an interchangeable biological product if the practitioner indicates “brand medically necessary” or words of similar meaning on the prescription. The designation “brand medically necessary” or other similar words or phrases must be handwritten by the practitioner and shall not be preprinted or stamped on the written prescription. The pharmacist shall not substitute an equivalent generic drug product or an interchangeable biological product if a prescription is orally or electronically ordered and the practitioner or authorized employee of the practitioner indicates “brand medically necessary” or other similar words or phrases.

The pharmacist shall note the practitioner’s instructions on the prescription record required to be maintained under section 328-17.7.

This subsection shall not apply when it does not comply with any federal requirement for services reimbursable by medicaid or medicare.

(c) The pharmacist shall not substitute an equivalent generic drug product or an interchangeable biological product for any prescription for an anti-epileptic drug, except upon the consent of the practitioner and the patient or the patient’s parent or guardian. This narrow exception for epileptic patients shall not be construed as a policy decision to make exceptions for any other conditions.

(d) Within two business days following the dispensing of a biological product, the dispensing pharmacist or the pharmacist’s designee shall communicate to the practitioner the specific product provided to the patient, including the name of the product and the manufacturer. The communication shall be

conveyed by making an entry that is electronically accessible to the practitioner through:

- (1) An interoperable electronic medical records system;
- (2) An electronic prescribing technology;
- (3) A pharmacy benefit management system; or
- (4) A pharmacy record.
- (e) Entry into an electronic records system as described in subsection

ACT 243

H.B. NO. 1050

A Bill for an Act Relating to Interisland Movement of Invasive Species.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the interisland spread of invasive species is harmful to agriculture, native biota, public health, and the economic well-being of the State. Further, the legislature finds that these pests continue to move to new areas within the State through varied transportation methods and on various agricultural and non-agricultural commodities, which may or may not be subject to inspection for pests or subject to treatment. The legislature further finds that the plant quarantine branch of the department of agriculture is a critical component in meeting the threat of invasive species entering Hawaii and spreading throughout Hawaii through the State's ports of entry.

To more effectively mitigate the spread of invasive species, the Hawaii invasive species council and the biosecurity program of the department of agriculture should use their strengths and resources more efficiently. The Hawaii invasive species council should direct the invasive species committees to focus their resources on reducing invasive species in non-agricultural areas, specifically conservation lands and residential areas. The department of agriculture should focus its resources on preventing the introduction of invasive species into Hawaii and reducing invasive species in agricultural production areas and performing inspections, certifications, and treatments, if required.

SECTION 2. Section 150A-57, Hawaii Revised Statutes, is amended to read as follows:

~~“[§150A-57]~~ **Annual report.** The department shall submit an annual report on the biosecurity program to the legislature no later than twenty days prior to the convening of each regular session of the legislature. The ~~[schedule]~~ report shall include:

- (1) ~~The schedule~~ required under section 150A-56 ~~[shall be included in the pertinent annual report].~~
- (2) The status of each activity required by Act , Session Laws of Hawaii 2016, including for each activity:
 - (A) All expenditures;
 - (B) Descriptions of and the purposes of any activity-related travel;
 - (C) Workforce allocation; and
 - (D) Measure of effectiveness;
- (3) Summary of interisland inspections and export inspection activities;
- (4) Projections by year of future expenditures and future acreage to be under pest management by crop; and

- (5) Activities yet to be completed, and, if applicable, an explanation why they were not completed.”

SECTION 3. The department of agriculture shall work through existing contracts and appropriated funds for invasive species activities to undertake invasive species management related to agricultural lands and agricultural and non-agricultural commodities as follows:

- (1) The department of agriculture shall use general funds to:
 - (A) Develop an interisland and export database that allows for the trace-back and trace-forward of agricultural commodities, type and varieties inspected by the department of agriculture, quantity of commodities, and other pertinent information. All proprietary information shall be kept confidential by the department of agriculture;
 - (B) Increase the priority of inspection of agricultural commodities transported between islands, without impacting or jeopardizing the inspection of imported agricultural commodities from out-of-state;
 - (C) Develop quarantine treatments for high-risk commodities moving between islands; and
 - (D) Coordinate planning with the department of transportation for inspection and quarantine treatment capabilities at or adjacent to ports of entry; and
- (2) The department of agriculture shall use general funds to increase detection, response, and control programs to address agricultural pests statewide.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii the sum of \$100,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the purposes set forth in section 3(1) of this Act.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$800,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the purposes set forth in section 3(2) of this Act.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,000,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the planning, site selection, preparation of environmental documentation, and preliminary design for two facilities; provided that one facility shall be for edible agricultural crops and the other shall be for non-edible agricultural crops for the purpose of marshalling and treatment of commodities prior to the interisland movement or export from the island of Hawaii.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 7. There is appropriated from the general revenues of the State of Hawaii the sum of \$100,000 or so much thereof as may be necessary for fiscal year 2016-2017 for the auditor to conduct a financial and performance audit of the duties and facilities of the plant quarantine branch of the department of agriculture, including the branch's biosecurity programs and related

programs; provided that the auditor shall submit a report of findings and recommendations, including proposed legislation, to the governor and the legislature no later than twenty days prior to the convening of the regular session of 2017.

The sum appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 8. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 9. This Act shall take effect on July 1, 2016.

ACT 244

H.B. NO. 2646

A Bill for an Act Relating to Environmental Protection.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that protecting the environment and underground sources of drinking water is in the best interest of public health and safety and required under article XI, section 7, of the state constitution.

The legislature also finds that since 2005, petroleum chemical contaminants have been detected in the groundwater and rocks beneath the United States Department of the Navy's Red Hill Bulk Fuel Storage Facility fuel tanks. In January 2014, the facility's tank number five released twenty-seven thousand gallons of fuel into underground rocks and groundwater. The current location of the released fuel is unknown.

The Red Hill Bulk Fuel Storage Facility fuel tanks have been corroding for more than seventy years. The corrosion has caused significant thinning of the steel tank walls and, in some cases, has fully penetrated the steel. The ongoing corrosion damages the steel walls of the fuel tanks, as well as the steel reinforcement in the surrounding concrete, and can lead to more frequent and larger fuel releases than have occurred in the past.

The legislature further finds that the installation of monitor wells is crucial to test groundwater underneath and surrounding the Red Hill Bulk Fuel Storage Facility to protect Oahu's fresh water supply. While it should be the duty of the United States Navy to fund efforts to monitor and remediate fuel leaking from the Red Hill Bulk Fuel Storage Facility, the protection of Oahu's drinking water supply is of such critical importance to the health and safety of the people of Hawaii that as a first step, the local board of water supply is funding the installation of two test wells in the area. The State is also funding two test wells in the area, and the people of Hawaii are waiting for the United States Navy to provide funding for at least four additional wells.

The purpose of this Act is to protect public health by establishing a permanent fuel tank advisory committee.

SECTION 2. Chapter 342L, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

"PART . FUEL TANK ADVISORY COMMITTEE

§342L- Fuel tank advisory committee; established; composition. (a) There is established in the department of health the fuel tank advisory commit-

tee, which shall consist of up to fourteen ex officio members and at least two public members.

- (b) The ex officio members of the committee shall be:
 - (1) The director of health, who shall serve as the committee's chair;
 - (2) The four members of Hawaii's congressional delegation, or their designees;
 - (3) The president of the Hawaii senate, or a senator appointed by the president of the senate;
 - (4) The speaker of the Hawaii house of representatives, or a representative appointed by the speaker of the house;
 - (5) The chairperson of the board of land and natural resources, or the chairperson's designee;
 - (6) The chairperson of the board of water supply of a county with a population of five hundred thousand or more, or the chairperson's designee; and
 - (7) The chairperson of the commission on water resource management, or the chairperson's designee.
- (c) The following persons shall be invited to participate on the advisory committee as ex officio members:
 - (1) The Commanding General of the United States Army, Pacific, or the Commanding General's designee;
 - (2) The Commander of the Pacific Fleet of the United States Navy, or the Commander's designee;
 - (3) The Commander of the Pacific Air Forces, or the Commander's designee; and
 - (4) A representative from the United States Environmental Protection Agency, or the representative's designee.
- (d) The governor shall appoint at least two public members from the community at large in accordance with section 26-34; provided that the advice and consent of the senate shall not be necessary.
- (e) The public members of the advisory committee shall receive no salary, but shall be entitled to reimbursement for necessary expenses, including travel expenses.

§342L- Duties. (a) The advisory committee shall study issues related to leaks of field-constructed underground fuel storage tanks at the Red Hill Bulk Fuel Storage Facility, Kuahua Peninsula, Pacific Missile Range Facility Barking Sands, Hickam Pol Annex, and Schofield Barracks Military Reservation. The advisory committee shall consider:

- (1) The short- and long-term effects of leaks of the fuel tanks, including effects relating to the health of residents, safe drinking water, and the environment;
- (2) Response strategies to mitigate the effects of leaks from fuel tanks;
- (3) Methods to improve communication between the United States Navy, Air Force, and Army; the State; any local board of water supply; and the public in the event of a leak of any fuel tank;
- (4) Groundwater test results in relation to the surrounding areas of fuel tank facilities, with a particular emphasis on the groundwater near the Red Hill Bulk Fuel Storage Facility;
- (5) The implications of shutting down any fuel tank facility; and
- (6) Updates on progress toward meeting goals of agreement between the State, the affected county, and the federal government.

(b) No later than twenty days before the convening of each regular session, the advisory committee shall submit a report of its findings, including groundwater test results, and recommendations, including any proposed legislation, to the legislature.”

SECTION 3. (a) All rights, powers, functions, and duties of the task force to study fuel tank leaks initially created pursuant to senate concurrent resolution no. 73, H.D. 1, regular session of 2014, and expanded by senate concurrent resolution no. 57, H.D. 1, regular session of 2015, are transferred to the fuel tank advisory committee established pursuant to this Act.

(b) All records, equipment, machines, files, supplies, contracts, books, papers, documents, maps, and other personal property heretofore made, used, acquired, or held by the task force to study fuel tank leaks relating to the functions transferred to the fuel tank advisory committee established pursuant to this Act shall be transferred with the functions to which they relate.

SECTION 4. This Act shall take effect on July 1, 2016.

(Approved July 12, 2016.)

ACT 245

H.B. NO. 1527

A Bill for an Act Relating to Taxation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that tax credits, exclusions, and deductions require periodic review to determine their tax expenditures, benefits, and continued merit and necessity. The legislature further finds that tax expenditures from the credits, exclusions, and deductions reduce revenues to the State. This requires ordinary taxpayers who do not benefit from the credits, exclusions, or deductions to compensate for the reduced revenues. Alternatively, funding for important state programs must be curtailed. The legislature further finds that good tax policy requires the equal treatment of similarly-situated taxpayers for the sake of equity and efficiency. When certain taxpayers receive special benefits to the detriment of others, it may generate resentment that leads to the loss of the general public’s confidence in fair treatment by the state government.

However, the legislature also believes that certain tax credits, exclusions, and deductions are worthy of continuation for equity, efficiency, and economic and social policy. The legislature finds that independent review by the state auditor would help the legislature to identify and affirm the credits, exclusions, and deductions that represent good public policy.

Accordingly, the purpose of this Act is to require the state auditor to periodically review certain tax credits, exclusions, and deductions for the income tax under chapter 235, Hawaii Revised Statutes, and the financial institutions tax under chapter 241, Hawaii Revised Statutes. The legislature finds that this Act is necessary to promote tax equity and efficiency, adequacy of state revenues, public transparency, and confidence in a fair state government.

SECTION 2. Chapter 23, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

“PART . REVIEW OF TAX CREDITS, EXCLUSIONS, AND DEDUCTIONS

§23-A Review of certain credits, exclusions, and deductions under the income tax and financial institutions tax. (a) The auditor shall conduct a review of the tax credits, exclusions, and deductions listed in sections 23-B to 23-F.

- (b) In the review of a credit, exclusion, or deduction, the auditor shall:
- (1) Determine the amount of tax expenditure for the credit, exclusion, or deduction for each of the previous three fiscal years;
 - (2) Estimate the amount of tax expenditure for the credit, exclusion, or deduction for the current fiscal year and the next two fiscal years;
 - (3) Determine whether the credit, exclusion, or deduction has achieved and continues to achieve the purpose for which it was enacted by the legislature;
 - (4) Determine whether the credit, exclusion, or deduction is necessary to promote or preserve tax equity or efficiency;
 - (5) If the credit, exclusion, or deduction was enacted because of its purported economic or employment benefit to the State:
 - (A) Determine whether a benefit has resulted, and if so, quantify to the extent possible the estimated benefit directly attributable to the credit, exclusion, or deduction; and
 - (B) Comment on whether the benefit, if any, outweighs the cost of the credit, exclusion, or deduction; and
 - (6) Estimate the annual cost of the credit, exclusion, or deduction per low-income resident of the State. For purposes of this paragraph, a “low-income resident of the State” means an individual who is a resident of the State and:
 - (A) Is the only member of a family of one and has an income of not more than eighty per cent of the area median income for a family of one; or
 - (B) Is part of a family with an income of not more than eighty per cent of the area median income for a family of the same size.

The cost shall be estimated by dividing the annual tax expenditure for the credit, exclusion, or deduction for each fiscal year under review by the number of low-income residents of the State in the fiscal year. The estimate determined pursuant to this paragraph is intended to display the effect on low-income residents of the State if they directly receive, either through tax reduction or negative tax, the dollars saved by elimination of the credit, exclusion, or deduction.

- (c) Based on the review, the auditor shall recommend whether the credit, exclusion, or deduction should be retained without modification, amended, or repealed.

The auditor may recommend that a credit, exclusion, or deduction be removed from review under sections 23-B to 23-F.

§23-B Review for 2019 and every fifth year thereafter. (a) The credits under the income tax and financial institutions tax listed in subsection (c) shall be reviewed in 2019 and every fifth year thereafter.

A Bill for an Act Relating to Procurement.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that in July 2015, the auditor released report no. 15-09: "Procurement Examination of the Department of Health: Lack of Procurement Controls Exposes Health Department to Waste and

Abuse,” conducted pursuant to section 23-4, Hawaii Revised Statutes, which requires the auditor to conduct postaudits of the transactions, accounts, programs, and performance of all departments, offices, and agencies of the State and its political subdivisions.

The legislature further finds that the auditor’s report highlighted an example of a contract award that was renegotiated at a price that was three hundred forty-five per cent higher than the original bid amount. The same contract was then amended three times, which resulted in a final contract amount that was six hundred eleven per cent higher than the original bid, as well as a reduction in the scope of work provided and a one-year extension of the performance deadline.

The legislature additionally finds that a reform of procurement law is necessary in light of the auditor’s report.

The purpose of this Act is to protect the public’s interest in the procurement process by:

- (1) Establishing a fair and reasonable pricing policy for every contract action;
- (2) Clarifying that contractors are required to submit cost or pricing data and a certification of the accuracy of the data for certain change orders and contract modifications, even if the original contract award did not require cost and pricing data; and
- (3) Clarifying that the state procurement administrator has the authority to perform periodic compliance reviews of the procurement practices and procedures of all governmental bodies, in collaboration with the state procurement board.

SECTION 2. Section 103D-205, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

- (3) Sell, trade, or otherwise dispose of surplus goods;
- (4) Establish and maintain programs for the inspection, testing, and acceptance of goods, services, and construction;

SECTION 3. Section 103D-206, Hawaii Revised Statutes, is amended to read as follows:

- (2) Other data as necessary to perform a cost or price analysis of the data and determine a fair and reasonable price, regardless of whether subsection (c) applies to the contract.

(b) The policy board may adopt rules, pursuant to chapter 91, to establish an order of preference in the type of data required under subsection (a)(2).

~~[(a)] (c)~~ A contractor, except as provided in subsection ~~[(e);] (e)~~, shall submit cost or pricing data and shall certify that, to the best of the contractor’s knowledge and belief, the cost or pricing data submitted is accurate, complete, and current as of a mutually determined specified date ~~[prior to]~~ before the date of:

A Bill for an Act Relating to Taxation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that providing additional support to Hawaii’s agriculture industry could help to reduce reliance on agricultural imports and to foster job growth in the State. The legislature believes that reducing the burden on the emerging number of small farmers seeking costly, but

necessary, certifications and inspections will help to promote the production of locally-grown food.

The purpose of this Act is to establish a tax credit for farmers, ranchers, and producers seeking to obtain organic certification.

SECTION 2. Chapter 235, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§235- Organic foods production tax credit. (a) There shall be allowed to each qualified taxpayer subject to the tax imposed under this chapter, an income tax credit that shall be deductible from the taxpayer’s net income tax liability, if any, imposed by this chapter for the taxable year in which the credit is properly claimed.

(b) The amount of the tax credit shall be equal to the qualified expenses of the qualified taxpayer, up to a maximum of \$50,000.

(c) In the case of a partnership, S corporation, estate, or trust, the tax credit allowable is for qualified expenses incurred by the entity for the taxable year. The expenses upon which the tax credit is computed shall be determined at the entity level. Distribution and share of credit shall be determined by rule.

(d) The total amount of tax credits allowed under this section shall not exceed \$2,000,000 for all qualified taxpayers in any taxable year; provided that any taxpayer who is not eligible to claim the credit in a taxable year due to the \$2,000,000 cap having been exceeded for that taxable year shall be eligible to claim the credit in the subsequent taxable year.

(e) Every qualified taxpayer, before March 31 of each year in which qualified expenses were incurred by the taxpayer in the previous taxable year, shall submit a written, certified statement to the chairperson of the board of agriculture identifying:

- (1) Qualified expenses incurred in the previous taxable year; and
 - (2) The amount of the tax credit claimed by the taxpayer pursuant to this section, if any, in the previous taxable year.
- (f) The department of agriculture shall:
- (1) Maintain records of the names and addresses of the qualified taxpayers claiming the credits under this section and the total amount of the qualified expenses upon which the tax credits are based;
 - (2) Verify the nature and amount of the qualified expenses;
 - (3) Total all qualified and cumulative expenses that the department certifies; and
 - (4) Certify the amount of the tax credit for each taxpayer for each taxable year and the cumulative amount of the tax credit.

Upon each determination made under this subsection, the department of agriculture shall issue a certificate to the taxpayer verifying information submitted to the department of agriculture, including amounts of qualified expenses, the credit amount certified for the taxpayer for each taxable year, and the cumulative amount of tax credits certified. The taxpayer shall file the certificate with the taxpayer’s tax return with the department of taxation.

The board of agriculture may assess and collect a fee to offset the costs of certifying tax credit claims under this section.

- (g) The director of taxation:
- (1) Shall prepare any forms that may be necessary to claim a tax credit under this section;
 - (2) May require the taxpayer to furnish reasonable information to ascertain the validity of the claim for the tax credit made under this section; and

(3) May adopt rules under chapter 91 necessary to effectuate the purposes of this section.

(h) If the tax credit under this section exceeds the taxpayer's net income tax liability, the excess of the credit over liability may be used as a credit against the taxpayer's net income tax liability in subsequent years until exhausted. All claims for the tax credit under this section, including amended claims, shall be filed on or before the end of the twelfth month following the close of the taxable year for which the credit may be claimed. Failure to comply with the foregoing provision shall constitute a waiver of the right to claim the credit.

(i) As used in this section:

"Net income tax liability" means income tax liability reduced by all other credits allowed under this chapter.

"Organic Foods Production Act" means the federal Organic Foods Production Act of 1990, as amended (7 United States Code section 6501 et seq.).

"Organic system plan" has the same meaning as provided in 7 Code of Federal Regulations section 205.2.

"Qualified expenses" means expenses incurred by a qualified taxpayer to produce organically produced agricultural products, including expenses incurred to obtain organic certification from the United States Department of Agriculture, pursuant to the Organic Foods Production Act. "Qualified expenses" shall not include any amount refunded or to be refunded to the taxpayer by the United States Department of Agriculture's organic certification cost-share program or any other similar financial assistance program.

"Qualified taxpayer" means a producer, handler, or handling operation, as those terms are defined in title 7 United States Code section 6502:

- (1) That sells agricultural products in adherence to the standards and requirements of the Organic Foods Production Act;
- (2) That has applied for organic certification, in accordance with the requirements of the Organic Foods Production Act; and
- (3) Whose gross income from the sale of organically produced agricultural products for the most recently reported fiscal year totals no more than \$500,000."

SECTION 3. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act, upon its approval, shall apply to taxable years beginning after December 31, 2016; provided that this Act shall be repealed on December 31, 2021.

ACT 260

S.B. NO. 2408

A Bill for an Act Relating to Partition of Heirs Property.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
UNIFORM PARTITION OF HEIRS PROPERTY ACT**

§ -1 **Short title.** This chapter may be cited as the Uniform Partition of Heirs Property Act.

§ -2 **Definitions. As used in this chapter:**

“Ascendant” means an individual who precedes another individual in lineage, in the direct line of ascent from the other individual.

“Collateral” means an individual who is related to another individual under the law of intestate succession of this State, but who is not the other individual’s ascendant or descendant.

“Descendant” means an individual who follows another individual in lineage, in the direct line of descent from the other individual.

“Determination of value” means an order of a court determining the fair market value of heirs property under section -7 or -11 or adopting the valuation of the property agreed to by all cotenants.

“Heirs property” means real property held in tenancy in common that satisfies all the following requirements as of the filing of an action for partition:

- (1) There is no agreement in a record binding all the cotenants that governs the partition of the property;
- (2) One or more of the cotenants acquired title from a relative, whether living or deceased; and
- (3) Any of the following applies:
 - (A) Twenty per cent or more of the interests are held by cotenants who are relatives;
 - (B) Twenty per cent or more of the interests are held by an individual who acquired title from a relative, whether living or deceased; or
 - (C) Twenty per cent or more of the cotenants are relatives.

“Partition by sale” means a court-ordered sale of the entire heirs property, whether by auction, sealed bids, or open-market sale conducted under section -11.

“Partition in kind” means the division of heirs property into physically distinct and separately titled parcels.

“Record” means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

“Relative” means an ascendant, descendant, or collateral or an individual otherwise related to another individual by blood, marriage, adoption, or law of this State other than this chapter.

§ -3 **Applicability; relation to other law.** (a) This chapter applies to actions for partition filed on or after January 1, 2017.

(b) In any action for partition of real property under chapter 668, the court shall determine whether the property is heirs property. If the court determines that the property is heirs property, the property shall be partitioned under this chapter, unless all the cotenants agree otherwise in a record.

(c) This chapter supplements chapter 668 and, if an action is governed by this chapter, supersedes provisions of chapter 668 that are inconsistent with this chapter.

§ -4 **Service; notice by posting.** (a) This chapter does not limit or affect the method by which service of a complaint in an action for partition may be made.

(b) If an order of service by publication of the summons for an action for partition of real property is granted and the court determines that the property may be heirs property, the plaintiff, not later than ten days after the court's determination, shall post, and maintain while the action is pending, a conspicuous sign on the property that is the subject of the action. The sign shall state that the action has commenced and identify the name and address of the court and the common designation by which the property is known. The court may require the plaintiff to publish on the sign the name of the plaintiff and the known defendants.

§ -5 **Commissioners.** If the court appoints commissioners pursuant to section 668-13, each commissioner, in addition to the requirements and disqualifications applicable to commissioners in section 668-13, shall be disinterested, impartial, and neither a party to nor a participant in the action.

§ -6 **Special master.** The court shall appoint a special master to fulfill the notice requirements pursuant to this chapter or that are not specifically assigned to any cotenant by this chapter. The costs of the services of the special master and the expenses of the notices shall be paid by the cotenants at the conclusion of the partition action; provided that the court may in its discretion order the payment of costs and expenses from the estate of the deceased, the proceeds of the partition by sale, the cotenants, or a combination thereof.

§ -7 **Determination of value.** (a) Except as otherwise provided in subsections (b) and (c), if the court determines that the property that is the subject of the action for partition is heirs property, the court shall determine the fair market value of the property by ordering an appraisal pursuant to subsection (d).

(b) If all cotenants have agreed to the value of the property or to another method of valuation, the court shall adopt that value or the value produced by the agreed method of valuation.

(c) If the court determines that the evidentiary value of an appraisal is outweighed by the cost of the appraisal, the court, after an evidentiary hearing, shall determine the fair market value of the property and the special master shall send notice to the parties of the value.

(d) If the court orders an appraisal, the court shall appoint a disinterested real estate appraiser licensed in this State to determine the fair market value of the property assuming sole ownership of the fee simple estate. On completion of the appraisal, the appraiser shall file a sworn or verified appraisal with the clerk of the court. The appraiser shall mail or deliver to the court a file-marked copy of the appraisal filed with the clerk of the court.

(e) If an appraisal is conducted pursuant to subsection (d), not later than ten days after the appraisal is filed, the special master shall send notice to each party with a known address, stating:

- (1) The appraised fair market value of the property as set forth in the appraisal that was filed with the clerk of the court;
- (2) That the appraisal is available at the office of the clerk of the court; and
- (3) That a party may object to the appraisal not later than thirty days after the notice is sent, stating the grounds for the objection.

(f) If an appraisal is filed with the court pursuant to subsection (d), the court shall conduct a hearing to determine the fair market value of the property not earlier than thirty days after a copy of the notice of appraisal is sent to each party under subsection (e), regardless of whether an objection to the appraisal is filed under subsection (e)(3). In addition to the court-ordered appraisal, the court may consider any other evidence of value that is offered by a party.

(g) Before considering the merits of the action for partition, the court shall determine the fair market value of the property and the special master shall send notice to the parties of the value.

§ -8 Cotenant buyout. (a) If any cotenant requested partition by sale, after the determination of value under section -7, the special master shall send notice to the parties that any cotenant except a cotenant that requested partition by sale may buy the interest of any cotenant that requested partition by sale.

(b) Not later than forty-five days after the notice is sent under subsection (a), any cotenant except a cotenant that requested partition by sale may give notice to the court that it elects to buy all the interests of the cotenants that requested partition by sale.

(c) The purchase price for each of the interests of a cotenant that requested partition by sale is the value of the entire parcel determined under section -6 multiplied by that cotenant's fractional ownership of the entire parcel.

(d) After expiration of the period in subsection (b), the following rules shall apply:

- (1) If only one cotenant elects to buy all the interests of the cotenants that requested partition by sale, the special master shall notify all the parties of that fact;
 - (2) If more than one cotenant elects to buy all the interests of the cotenants that requested partition by sale, the court shall allocate the right to buy those interests among the electing cotenants based on each electing cotenant's existing fractional ownership of the entire parcel divided by the total existing fractional ownership of all cotenants electing to buy and the special master shall send notice to all the parties of that fact and of the price to be paid by each electing cotenant; and
 - (3) If no cotenant elects to buy all the interests of the cotenants that requested partition by sale, the special master shall send notice to all the parties of that fact and resolve the action for partition under section -9(a) and (b).
- (e) If the special master sends notice to the parties under subsection (d)(1) or (2), the court shall set a date, not earlier than sixty days after the date the notice was sent, by which electing cotenants must pay their apportioned price into the court. After the deadline for payment set by the court, the following rules shall apply:

- (1) If all electing cotenants timely pay their apportioned price, the court shall issue an order reallocating all the interests of the cotenants and disburse the amounts held by the court to the persons entitled to them;
- (2) If no electing cotenant timely pays its apportioned price, the court shall resolve the action for partition under section -9(a) and (b), as if the interests of the cotenants that requested partition by sale were not purchased; and
- (3) If one or more but not all the electing cotenants fail to timely pay their apportioned price, the court, on motion, shall direct the spe-

cial master to give notice to the electing cotenants that paid their apportioned price of the interest remaining and the price for that interest. Unless otherwise ordered by the court, for any notice that the special master is required to give pursuant to this paragraph, the movant for notice to be given to electing cotenants pursuant to this paragraph shall deliver to the court a notice in blank to be completed by the special master with sufficient copies for service on the electing cotenants along with envelopes stamped with sufficient postage and addressed to each electing cotenant. The court may direct the movant to provide notice of the value by any other means.

(f) No later than twenty days after the special master gives the notice pursuant to subsection (e)(3), any cotenant that paid may elect to purchase the remaining interest by paying the entire price to the court. After the twenty-day period, the following rules shall apply:

- (1) If only one cotenant pays the entire price for the remaining interest, the court shall issue an order reallocating the remaining interest to that cotenant. The court shall promptly issue an order reallocating all the interests of all the cotenants and disburse the amounts held by the court to the persons entitled to them;
- (2) If no cotenant pays the entire price for the remaining interest, the court shall resolve the partition action under section -9(a) and (b), as if the interests of the cotenants that requested partition by sale were not purchased; and
- (3) If more than one cotenant pays the entire price for the remaining interest, the court shall reapportion the remaining interest among those paying cotenants, based on each paying cotenant's original fractional ownership of the entire parcel divided by the total original fractional ownership of all cotenants that paid the entire price for the remaining interest. The court shall promptly issue an order reallocating all the cotenants' interests, disburse the amounts held by the court to the persons entitled to them, and promptly refund any excess payment held by the court to the appropriate cotenant.

(g) No later than forty-five days after the special master sends notice to the parties pursuant to subsection (a), any cotenant entitled to buy an interest under this section may request the court to authorize the sale of the interests of cotenants named as defendants and served with the complaint but that did not appear in the action as part of the pending action.

(h) If the court receives a timely request under subsection (g), the court, after hearing, may deny the request or authorize the requested additional sale on such terms as the court determines are fair and reasonable, subject to the following limitations:

- (1) A sale authorized under this subsection may occur only after the purchase prices for all interests subject to sale under subsections (a) through (f) have been paid into the court and those interests have been reallocated among the cotenants as provided in those subsections; and
- (2) The purchase price for the interest of an absent cotenant is based on the court's determination of value under section -7.

(i) The cotenant requesting partition by sale shall be liable for reasonable court fees.

§ -9 Partition alternatives. (a) If all the interests of all cotenants that requested partition by sale are not purchased by other cotenants pursuant to section -8, or if after conclusion of the buyout under section -8, a cotenant

remains that has requested partition in kind, the court shall order partition in kind unless the court, after consideration of the factors listed in section -10, finds that partition in kind will result in great prejudice to the cotenants as a group. In considering whether to order partition in kind, the court shall approve a request by two or more parties to have their individual interests aggregated.

(b) If the court does not order partition in kind under subsection (a), the court shall order partition by sale pursuant to section -11 or, if no cotenant requested partition by sale, the court shall dismiss the action.

(c) If the court orders partition in kind pursuant to subsection (a), the court may require that one or more cotenants pay one or more other cotenants amounts so that the payments, taken together with the value of the in-kind distributions to the cotenants, will make the partition in kind just and proportionate in value to the fractional interests held.

(d) If the court orders partition in kind, the court shall allocate to the cotenants that are unknown, unlocatable, or are the subject of a default judgment, a part of the property representing the combined interests of these cotenants as determined by the court, and this part of the property shall remain undivided; provided that their interests were not bought out pursuant to section -8.

§ -10 **Considerations for partition in kind.** (a) In determining under section -9(a) whether partition in kind would result in great prejudice to the cotenants as a group, the court shall consider the following:

- (1) Whether the heirs property practicably may be divided among the cotenants;
- (2) Whether partition in kind would apportion the property in such a way that the aggregate fair market value of the parcels resulting from the division would be materially less than the value of the property if it were sold as a whole, taking into account the condition under which the court-ordered sale likely would occur;
- (3) Evidence of the collective duration of ownership or possession of the property by a cotenant and one or more predecessors in title or predecessors in possession to the cotenant who are or were relatives of that cotenant or each other;
- (4) A cotenant's sentimental attachment to the property, including, without limitation, any attachment arising because the property has ancestral or other unique or special value to the cotenant;
- (5) The lawful use being made of the property by a cotenant and the degree to which the cotenant would be harmed if the cotenant could not continue the same use of the property;
- (6) The degree to which the cotenants have contributed their pro rata share of the property taxes, insurance, and other expenses associated with maintaining ownership of the property or have contributed to the physical improvement, maintenance, or upkeep of the property; and
- (7) Any other relevant factor.

(b) The court shall not consider any one factor in subsection (a) to be dispositive without weighing the totality of all relevant factors and circumstances.

§ -11 **Open-market sale, sealed bids, or auction.** (a) If the court orders a sale of heirs property, the sale shall be an open-market sale unless the court finds that a sale by sealed bids or an auction would be more economically advantageous and in the best interest of the cotenants as a group.

(b) If the court orders an open-market sale and the parties, not later than ten days after the entry of the order, agree on a real estate broker licensed

in this State to offer the property for sale, the court shall appoint that broker and establish a reasonable commission. If the parties do not agree on a broker, the court shall appoint a disinterested real estate broker licensed in this State to offer the property for sale and shall establish a reasonable commission. The broker shall offer the property for sale in a commercially reasonable manner at a price not lower than the determination of value and on the terms and conditions established by the court.

(c) If the broker appointed under subsection (b) obtains within a reasonable time an offer to purchase the property for at least the determination of value:

- (1) The broker shall comply with the reporting requirements set forth in section -12; and
- (2) The sale may be completed in accordance with state law other than this chapter.

(d) If the broker appointed under subsection (b) does not obtain within a reasonable time an offer to purchase the property for at least the determination of value, the court, after hearing, may:

- (1) Approve the highest outstanding offer, if any;
- (2) Redetermine the value of the property and order that the property continue to be offered for an additional time; or
- (3) Order that the property be sold by sealed bids or at an auction.

(e) If the court orders a sale by sealed bids or an auction, the court shall set terms and conditions of the sale. If the court orders an auction, the auction shall be conducted pursuant to chapter 667 or 668, as applicable.

(f) If a purchaser is entitled to a share of the proceeds of the sale, the purchaser is entitled to a credit against the price in an amount equal to the purchaser's share of the proceeds.

§ -12 Report of open-market sale. (a) Unless required to do so within a shorter time by chapter 668, a broker appointed under section -11(b) to offer heirs property for open-market sale shall file a report not later than seven days after receiving an offer to purchase the property for at least the value determined under section -7 or -11.

(b) The report required by subsection (a) shall contain the following information:

- (1) A description of the property to be sold to each buyer;
- (2) The name of each buyer;
- (3) The proposed purchase price;
- (4) The terms and conditions of the proposed sale, including, without limitation, the terms of any owner financing;
- (5) The amounts to be paid to lienholders;
- (6) A statement of contractual or other arrangements or conditions of the broker's commission; and
- (7) Other material facts relevant to the sale.

§ -13 Uniformity of application and construction. In applying and construing this chapter, consideration shall be given to the need to promote uniformity of the law with respect to its subject matter among the states that enact similar uniform legislation.

§ -14 Relation to Electronic Signatures in Global and National Commerce Act. This chapter modifies, limits, and supersedes the federal Electronic Signatures in Global and National Commerce Act, P.L. 106-229, title 15 United States Code chapter 96, but does not modify, limit, or supersede title 15 United

ACT 261

States Code section 7001(c), or authorize electronic delivery of any of the notices described in title 15 United States Code section 7003(b).”

SECTION 2. Section 668-1, Hawaii Revised Statutes, is amended to read as follows:

“§668-1 **Actions for partition.** When two or more persons hold or are in possession of real property as joint tenants or as tenants in common, in which one or more of them have an estate in fee, or a life estate in possession, any one or more of such persons may bring an action in the circuit court of the circuit in which the property or some part thereof is situated, for a partition of the property, according to the respective rights of the parties interested therein, and for a sale of the same or a part thereof if it appears that a partition cannot be made without great prejudice to the owners. ~~[The]~~ Except as provided in chapter _____, the several circuit courts shall have power, in any action for partition, to proceed according to the usual practice of courts of equity in cases of partition, and according to this chapter in enlargement thereof.”

SECTION 3. This Act does not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun before its effective date.

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This Act shall take effect on January 1, 2017.

(Approved July 12, 2016.)

ACT 261

S.B. NO. 2547

A Bill for an Act Relating to Taxation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that tax exemptions, exclusions, and credits require periodic review to determine their tax expenditures, benefits, and continued merit and necessity. The legislature further finds that tax expenditures from the exemptions, exclusions, and credits reduce revenues to the State. This requires ordinary taxpayers who do not benefit from the exemptions, exclusions, and credits to compensate for the reduced revenues. Alternatively, funding for important state programs must be curtailed. The legislature further finds that good tax policy requires the equal treatment of similarly-situated taxpayers for the sake of equity and efficiency. When certain taxpayers receive special benefits to the detriment of others, it may generate resentment that leads to the loss of the general public's confidence in fair treatment by the state government.

However, the legislature also believes that certain tax exemptions, exclusions, and credits are worthy of continuation for equity, efficiency, and economic and social policy. The legislature finds that review by the state auditor would help the legislature to identify and affirm the exemptions, exclusions, and credits that represent good public policy.

Accordingly, the purpose of this Act is to require the state auditor to periodically review certain tax exemptions, exclusions, and credits under the general excise and use taxes, public service company tax, and insurance premium

tax. These taxes are generally imposed on gross income or a similar measure. The legislature finds that this Act is necessary to promote tax equity and efficiency, adequacy of state revenues, public transparency, and confidence in a fair state government.

SECTION 2. Chapter 23, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

“PART . REVIEW OF TAX EXEMPTIONS, EXCLUSIONS, AND CREDITS

§23-A Review of certain exemptions, exclusions, and credits under the general excise and use taxes, public service company tax, and insurance premium tax. (a) The auditor shall conduct a review of the tax exemptions, exclusions, and credits listed in sections 23-B to 23-K.

(b) In the review of an exemption, exclusion, or credit, the auditor shall:

- (1) Determine the amount of tax expenditure for the exemption, exclusion, or credit for each of the previous three fiscal years;
- (2) Estimate the amount of tax expenditure for the exemption, exclusion, or credit for the current fiscal year and the next two fiscal years;
- (3) Determine whether the exemption, exclusion, or credit has achieved and continues to achieve the purpose for which it was enacted by the legislature;
- (4) Determine whether the exemption, exclusion, or credit is necessary to promote or preserve tax equity or efficiency;
- (5) If the exemption, exclusion, or credit was enacted because of its purported economic or employment benefit to the State:
 - (A) Determine whether a benefit has resulted, and if so, quantify to the extent possible the estimated benefit directly attributable to the exemption, exclusion, or credit; and
 - (B) Comment on whether the benefit, if any, outweighs the cost of the exemption, exclusion, or credit; and
- (6) Estimate the annual cost of the exemption, exclusion, or credit per low-income resident of the State. For purposes of this paragraph, a “low-income resident of the State” means an individual who is a resident of the State and:

 - (B) Is part of a family with an income of not more than eighty per cent of the area median income for a family of the same size.

The cost shall be estimated by dividing the annual tax expenditure for the exemption, exclusion, or credit for each fiscal year under review by the number of low-income residents of the State in the fiscal year. The estimate determined pursuant to this paragraph is intended to display the effect on low-income residents of the State if they directly receive, either through tax reduction or negative tax, the dollars saved by elimination of the exemption, exclusion, or credit.

(c) Based on the review, the auditor shall recommend whether the exemption, exclusion, or credit should be retained without modification, amended, or repealed.

The auditor may recommend that an exemption, exclusion, or credit be removed from review under sections 23-B through 23-K.

ACT 262

S.B. NO. 2557

A Bill for an Act Relating to Concussions.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that across the country, legal action is being pursued over the issue of concussion management in interscholastic sports and youth sports leagues. Class action lawsuits are highlighting the need for related baseline testing; student, coach, and parent education; and concussion injury data monitoring. To address some of these concerns, Act 197, Session Laws of Hawaii 2012, required the department of education and the Hawaii High School Athletic Association to develop a concussion educational program for high school students aged fourteen to eighteen. The intent of Act 197 was to provide a statewide concussion educational program to ensure that public and private high school students, school personnel, and parents are provided with consistent and up-to-date information on the management of symptoms and injuries related to a concussion.

The purpose of this Act is to expand the scope of the concussion educational program under Act 197 to include youth and incorporate additional program requirements.

This Act also makes appropriations to develop and implement the concussion monitoring and educational program and to administer concussion testing to high school student athletes.

ACT 263

H.B. NO. 1370

A Bill for an Act Relating to Divorce.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to authorize and require the employees' retirement system to make direct payments to the spouse or former spouse of an employees' retirement system member or retirant when the spouse or former spouse has been awarded all or a portion of the member's or retirant's retirement benefits as part of a property division adjudicated, ordered, or decreed by a court in a domestic relations proceeding. The actuarial cost of the benefits paid by the employees' retirement system to the retirant and the retirant's beneficiaries, if any, and the retirant's spouse or former spouse shall not exceed the actuarial cost of the benefits that would be payable to the retirant and the retirant's beneficiaries, if any, in the absence of this Act. It is the intent of the legislature that the approach taken by this Act, for the allocation of the benefit when the award is made prior to the member's retirement, be based upon what is often referred to as a "separate interest approach." The legislature also intends that the approach taken by this Act, for the allocation of the benefit when the award is made after the member's retirement, be based upon what is often referred to as a "shared payment approach."

The legislature recognizes that the employees' retirement system is not subject to the Employee Retirement Income Security Act of 1974 and it is not the intent of the legislature to require the employees' retirement system to comply with the provisions of that act. It is, however, the legislature's intent that this Act shall comply with the requirements of section 414(p)(11) of the Internal Revenue Code of 1986, as amended, to the extent necessary to allow the distributions or payments made by the employees' retirement system pursuant to this Act to be treated as made pursuant to a qualified domestic relations order for federal income tax purposes.

SECTION 2. Chapter 88, part II, subpart C, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§88- Distribution of property in a divorce action. (a) As used in this section:

“Alternate payee” means a spouse or former spouse of a member or retirant who is recognized by a domestic relations order as having a right to receive all or a portion of the benefits payable by the system with respect to that member or retirant.

“Benefits payable with respect to a member or retirant” means any payment required to be made to a member or retirant.

“Domestic relations order” means a judgment, decree, or order, including approval of a property settlement agreement, that:

- (1) Relates to the provision of marital property rights to a spouse or former spouse of a member or retirant; and
- (2) Is made pursuant to a domestic relations law of this State or another state.

“Hawaii domestic relations order” means a domestic relations order that:

- (1) Creates or recognizes the right of an alternate payee, or assigns to an alternate payee, the right to receive all or a portion of the benefits payable with respect to a member or retirant under the system;
 - (2) Directs the system to disburse benefits to the alternate payee; and
 - (3) Meets the requirements of this section.
- (b) A Hawaii domestic relations order shall clearly specify:

 - (4) The number of payments or period to which the order applies; and
 - (5) That the order applies to the system.

(c) If, pursuant to a Hawaii domestic relations order, an alternate payee is receiving all or a portion of a retirant’s pension, annuity, or retirement allowance, the alternate payee shall be entitled to receive a post retirement allowance as provided by section 88-90.

(d) A Hawaii domestic relations order shall not:

- (1) Purport to require the designation by the member or retirant of a particular person as the recipient of benefits upon the death of the member or retirant;
- (2) Purport to require the selection of a particular benefit payment plan or option or to limit the benefit payment plans or options from which the member may select;
- (3) Require any action on the part of the system contrary to its governing laws or plan provisions other than the direct payment of the benefit awarded to an alternate payee;
- (4) Make the award to the alternate payee an interest that is contingent on any condition other than those conditions resulting in the liability of the system for payment under its plan provisions;
- (5) Purport to give to someone other than a member or retirant the right to designate a beneficiary or to choose any retirement plan or option available from the system;
- (6) Attach a lien to any part of amounts payable with respect to a member or retirant;
- (7) Award an alternate payee a portion of the benefits payable with respect to a member or retirant under the system and purport to

require the system to make a lump sum payment of the awarded portion of the benefits to the alternate payee that are not payable in a lump sum;

- (8) Purport to require the system, without action by the member, to terminate a member from membership or employment, to refund contributions, or to retire a member;
- (9) Provide any type or form of benefit, or any option, not otherwise provided by the system;
- (10) Provide increased benefits, determined on the basis of actuarial value; or
- (11) Require the system to provide benefits or refunds to an alternate payee that are required to be paid to another alternate payee pursuant to an earlier Hawaii domestic relations order.

(e) Upon receipt of a copy of the complaint for divorce, certified by the clerk of the court in which the complaint was filed, and a written request that identifies the member or retirant by name and social security number and states the date of the marriage, the system shall provide the spouse or former spouse of a member or retirant with the same information that would be provided to the member or retirant on the member's or retirant's benefits that is relevant to the spouse's or former spouse's interest in the member's or retirant's benefits.

(f) A person who wishes to have the system review a domestic relations order or a proposed domestic relations order to establish whether the order or proposed order meets the requirements for a Hawaii domestic relations order shall submit to the system a written request for review and a copy of the order or proposed order. If the order has been entered by a court, the copy of the order shall be certified by the clerk of the court that entered the order. The order or proposed order shall be reviewed as provided by this section.

The filing fee in effect at the time that an order or proposed order is submitted shall be paid before the order or proposed order is processed or reviewed. In addition, the system shall charge for legal and actuarial services as provided by subsection (s).

Before any legal or actuarial services are performed, the system shall notify the person who requested the review of the order or proposed order that the services will be needed as part of the review. The notification shall include an estimate of the extent of the services and the estimated costs relating to those services. The charges for legal and actuarial services shall be paid before the system may issue notification of determination on an order or notification whether or not a proposed order meets the requirements for a Hawaii domestic relations order.

If a domestic relations order is submitted for review after it has been entered by the court and is thereafter amended with the intention that it shall be a Hawaii domestic relations order, the member, retirant, or the alternate payee shall submit a certified copy of the amended order to the system. The system shall review any amended order that it receives according to the same rules applicable to all other orders.

(g) The system shall review an order or proposed order for compliance with the requirements imposed by this section. Upon completion of the review:

- (1) The system shall not issue a determination that a proposed order is or is not a Hawaii domestic relations order but shall notify the person who submitted the proposed order, in writing, and may also notify the member or alternate payee whether the proposed order meets the requirements for a Hawaii domestic relations order, identifying any provisions of this section that the proposed order does not meet; and

- (2) If the order has been entered by the court, the system shall notify the member or retirant and the alternate payee in writing of the determination that the order is or is not a Hawaii domestic relations order, identifying any provisions of this section that the order does not meet.

(h) During any period not exceeding eighteen months, beginning on the date on which the first payment would be required to be made to the alternate payee under the domestic relations order, in which a domestic relations order is under review to determine whether it is a Hawaii domestic relations order, or in which a determination that an order is not qualified is on appeal to the board or to a court, the system shall limit the member's or retirant's rights in the member's or retirant's benefits to the extent the system deems appropriate to protect the largest amount that would be payable to the proposed alternate payee under the system's interpretation of the domestic relations order. Any amounts not paid to the member or retirant during this eighteen-month period shall be separately accounted for. If the domestic relations order is determined to be a Hawaii domestic relations order before the end of the eighteen-month period, the system shall pay benefits to the member or retirant and the alternate payee in accordance with the Hawaii domestic relations order and the terms of the plan, including any benefits separately accounted for during the period between the date on which the first payment was to be made under the Hawaii domestic relations order and the date the determination is made. If the domestic relations order is finally determined not to be a Hawaii domestic relations order, or if the eighteen-month period expires without a determination that the domestic relations order is a Hawaii domestic relations order, none of the amounts separately accounted for shall be paid to the alternate payee, and the member or retirant shall be entitled to the member's or retirant's full benefits in accordance with the terms of this chapter, including any benefits that had been separately accounted for and withheld from the member or retirant. If the domestic relations order is determined to be a Hawaii domestic relations order after the end of the eighteen-month period, or if the system later receives another domestic relations order that is determined to be a Hawaii domestic relations order, the Hawaii domestic relations order shall apply prospectively only and shall not affect benefits already paid to the member or retirant.

(i) Subject to the limitations of applicable statutes and this section, if a domestic relations order is determined to be a Hawaii domestic relations order, the system shall pay benefits in accordance with the order at the time benefits become payable to, or in the case of contributions or hypothetical account balances, are withdrawn by, the member or retirant. Any determination that an order is a Hawaii domestic relations order is voidable or subject to modification if the system determines that the provisions of the order have been changed or that circumstances relevant to the determination have changed.

(j) If a member terminates membership in the system by withdrawal of contributions or hypothetical account balance, the system shall pay all or a portion of the amount withdrawn to any alternate payee as directed by a Hawaii domestic relations order. Payment to any alternate payee pursuant to this subsection shall be in a lump sum. If the former member later resumes membership in the system, the system shall pay to an alternate payee no portion of any benefits payable to the member or retirant that result from the resumption of membership, even if those benefits result in part from reinstatement of service credit initially credited during the marriage.

(k) In order to receive credit for all service represented by withdrawn or refunded contributions, a member, in reinstating service credit by repaying amounts previously withdrawn or refunded, shall repay the entire amount with-

drawn or refunded, regardless of whether a portion or all of the amount was paid to an alternate payee.

(l) When the system has not yet begun to make payment to an alternate payee under this section and is provided with proof of the death of the alternate payee, benefits payable with respect to the member or retirant shall be paid without regard to the Hawaii domestic relations order.

(m) When the system receives a certified copy of a domestic relations order prior to a member's retirement, and if the domestic relations order is determined to be a Hawaii domestic relations order, the system, except as provided in subsection (j), shall pay the alternate payee an amount that is the actuarial equivalent of the benefit that is awarded to the alternate payee in the form of an annuity payable in equal monthly installments for the life of the alternate payee.

Payment under this subsection shall be determined as follows:

- (1) As of the date payment to the alternate payee is scheduled to begin, the system shall determine the single life annuity value of the retirement benefit payable to the member;
- (2) If the portion of the benefit awarded to the alternate payee by the order is not clearly stated as a percentage of the member's maximum retirement allowance, the system shall determine the percentage of the member's maximum retirement allowance that is the equivalent to the benefit awarded to the alternate payee;
- (3) The single life annuity value determined by the system shall be multiplied by the percentage of the member's maximum retirement allowance awarded to the alternate payee. The result of this calculation shall be actuarially converted to a single life annuity payable to the alternate payee for the lifetime of the alternate payee;
- (4) The benefit payable to the member shall be reduced by an amount actuarially equivalent to the value of the benefit payable to the alternate payee; payment by the system of the alternate payee's interest as provided by this section shall have no effect on the right of a member to name a beneficiary or the right of a member to choose an optional method of payment upon retirement; and
- (5) Payment of the alternate payee's interest under this subsection shall be effective as of the same date that benefit payments are effective for the member.

(n) When the system receives a certified copy of a domestic relations order subsequent to the member's retirement, and if the domestic relations order is determined to be a Hawaii domestic relations order, the interest awarded to the alternate payee by the Hawaii domestic relations order shall be paid as a portion of the retirement benefit the retirant is receiving as follows:

- (1) If the alternate payee is already a named beneficiary under any option elected by the retirant at retirement, the benefit to which the retirant is entitled, without regard to the Hawaii domestic relations order, shall be apportioned between the retirant and the alternate payee according to the terms of the Hawaii domestic relations order. Upon the death of the retirant or the alternate payee, the benefit amount to be paid to the survivor shall be the amount required under the option elected by the retirant at retirement, as though no Hawaii domestic relations order had existed; or
- (2) If the alternate payee is not a named beneficiary under the option elected by the retirant at retirement, the benefit to which the retirant is entitled without regard to the Hawaii domestic relations order, shall be apportioned between the retirant and the alternate payee according to the terms of the Hawaii domestic relations order. If the

retirant predeceases the alternate payee, payments to the alternate payee shall cease and payments to the retirant's named beneficiary or beneficiaries shall be made as required under the option elected by the retirant at retirement, as though no Hawaii domestic relations order had existed. If the alternate payee predeceases the retirant, the benefit then being paid to the retirant shall be increased by the amount of the benefit that was being paid to the alternate payee at time of death.

Payment according to the terms of the Hawaii domestic relations order under this subsection shall commence as of the first day of the month following the date upon which the order is determined to be qualified, unless the parties jointly direct that payment shall commence at a later date.

(o) If a retirant returns to employment requiring active membership in the system:

- (1) Payments to an alternate payee pursuant to a Hawaii domestic relations order shall not be suspended; and
- (2) The system shall pay to an alternate payee no portion of any benefits payable to the retirant that result from the resumption of membership.

(p) For the purpose of calculating earnings limitations for retirants who have been restored to service, the retirant's maximum retirement allowance shall be considered to be the amount that would have been paid if there had not been any Hawaii domestic relations order applicable to the retirant.

(q) A court does not have jurisdiction over the system with respect to a divorce or other domestic relations action in which an alternate payee's right to receive all or a portion of the benefits payable to a member or retirant is created or established. A determination by the system that a domestic relations order is not a Hawaii domestic relations order shall be subject to review as provided in chapter 91 and the system's rules relating to contested cases. The system shall not be made party to any other judicial proceedings except as provided in this subsection. A party to any action who attempts to make the system a party to the action contrary to this subsection shall be liable to the system for the system's costs and attorney's fees in the action, including attorneys' fee and costs for obtaining a dismissal.

(r) If a member or retirant, or the beneficiary or estate of either, receives the amount of any distribution that should have been paid by the system to the spouse or former spouse of the member or retirant, the recipient shall be designated a constructive trustee for the amount received and shall immediately transmit that amount to the person to whom the amount should have been paid. If a spouse or former spouse of a member or retirant, or the estate, heirs, or legatees of the spouse or former spouse receive any amount of a distribution that should have been paid to a member or retirant, or the estate, heirs, or legatees of either, the recipient shall be designated a constructive trustee for the amount received and shall immediately transmit that amount to the member or retirant or other person to whom the amount should have been paid. If a member, retirant, or the beneficiary, estate, heirs, or legatees of either, receives any amount that should not have been paid by the system, the recipient shall be designated a constructive trustee for the amount received and shall immediately transmit that amount to the system. If an alternate payee or the estate, heirs, or legatee of the alternate payee, receives any amount that should not have been paid by the system, the recipient shall be designated a constructive trustee for the amount received and shall immediately transmit that amount to the system.

(s) The board shall adopt rules in accordance with chapter 91, and adopt forms as it deems necessary to effectuate this section. The board, by mo-

ACT 263

tion at a duly noticed meeting of the board, may establish and revise from time to time:

- (1) A filing fee for processing and review of domestic relations orders and proposed domestic relations orders for the purposes of this section;
- (2) A schedule of charges for legal and actuarial services incurred by the system in the review and processing of domestic relations orders and proposed Hawaii domestic relations orders for the purposes of this section; and
- (3) A required form or forms for Hawaii domestic relations orders.”

SECTION 3. Section 88-91, Hawaii Revised Statutes, is amended to read as follows:

“§88-91 Exemption from taxation and execution. The right of a person to a pension, an annuity or a retirement allowance, to the return of contributions, the pension, annuity or retirement allowance itself, any optional benefit or death benefit, any other right accrued or accruing to any person under this part and the moneys in the various funds created under this part are exempted from any tax of the State and, except as provided in [section] sections 88-92 [pro- vided,] and 88-, shall not be subject to execution, garnishment or any other process and shall be unassignable except as in this part specifically provided.”

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.¹

PROPOSED CONSTITUTIONAL AMENDMENT

S.B. NO. 2554

A Bill for an Act Proposing an Amendment to Article VII, Section 6, of the Hawaii Constitution, Relating to the Disposition of Excess Revenues.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to propose an amendment to article VII, section 6, of the Hawaii Constitution to amend the requirement for excess general fund revenues to be returned to the taxpayers of the State or deposited into a reserve fund.

The proposed amendment provides additional alternatives for the disposition of excess general fund revenues by allowing for the appropriation of general funds to pre-pay either:

- (1) General obligation bond debt service; or
- (2) Pension or other post-employment benefit liabilities.

These alternatives will enable the legislature to make general fund appropriations for purposes that result in long-term savings to the taxpayer. The pre-payment of long-term debt or unfunded liabilities would represent the trade-off of immediate fulfillment in using excess cash for the long-term benefit of less fixed cost for future generations. Less fixed cost would confer more flexibility with respect to state revenue expenditure decisions in the future. The legislature believes that the use of the alternatives may promote the public interest and should be available for future legislatures.

It is the legislature's intent that the alternatives not be self-executing. The legislature intends that the alternatives be available only after statutory provisions are enacted to establish the conditions that the pre-payment must comply with in order to comport with this constitutional amendment.

SECTION 2. Article VII, section 6, of the Constitution of the State of Hawaii is amended to read as follows:

"Section 6. Whenever the state general fund balance at the close of each of two successive fiscal years exceeds five percent of general fund revenues for each of the two fiscal years, the legislature in the next regular session shall ~~provide~~:

- (1) ~~Provide~~ for a tax refund or tax credit to the taxpayers of the State, ~~[or make]~~ as provided by law;
- (2) ~~Make~~ a deposit into one or more funds, as provided by law, which shall serve as temporary supplemental sources of funding for the State in times of an emergency, economic downturn, or unforeseen reduction in revenue, as provided by law~~[-];~~ or
- (3) ~~Appropriate general funds for the pre-payment of either or both of the following, as provided by law:~~
 - (A) ~~Debt service for general obligation bonds issued by the State;~~
or
 - (B) ~~Pension or other post-employment benefit liabilities accrued for state employees.~~

For the purpose of this paragraph, "pre-payment" means a payment for a fiscal year in excess of the minimum payment required for that fiscal year by bond covenant or law."

SECTION 3. The question to be printed on the ballot shall be as follows:

PROPOSED CONSTITUTIONAL AMENDMENT

“Shall the legislature be provided, when the state general fund balance at the close of each of two successive fiscal years exceeds five per cent of the general fund revenues for each of the two fiscal years, the additional alternatives of appropriating general funds for the pre-payment of either or both of the following:

- (1) Debt service for general obligation bonds issued by the State;
or
- (2) Pension or other post-employment benefit liabilities accrued for state employees?”

SECTION 4. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 5. This amendment shall take effect upon compliance with article XVII, section 3, of the Constitution of the State of Hawaii.

SECOND SPECIAL SESSION OF 2016

**Session Laws of Hawaii
Passed By The
Twenty-Eighth State Legislature
Second Special Session
2016**

ACT 1

S.B. NO. 2077

A Bill for an Act Relating to Separation Benefits.

Be It Enacted by the Legislature of the State of Hawaii:

PART I

SECTION 1. The purpose of this part is to provide options to assist public employees who may be displaced through the privatization or closure of a Hawaii health systems corporation facility and reduce the need for layoffs. Specifically, this part authorizes the Hawaii health systems corporation to offer a severance or a special retirement benefit to an employee who elects to separate from service when the employee's position is identified for abolishment or when the employee is directly affected by a reduction-in-force or workforce restructuring plan, including privatization.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
SEPARATION BENEFITS**

§ -1 **Definitions.** For the purposes of this chapter:

“Actuarial present value” means the difference in value between a member's benefit reflecting termination of service without the special retirement provision and the value of the member's benefit reflecting the special retirement benefit.

“Agency” or “attached agency” means the Hawaii health systems corporation.

“Directly affected” refers to when an employee receives official reduction-in-force notification of displacement from the employee's position because of a senior employee exercising reduction-in-force rights, or because the employee's position is part of a workforce restructuring plan, including privatization.

“Employee” means an individual:

- (1) Employed by the state government or an attached agency in a position subject to chapters 88 and 89;

- (2) Whose position has been identified for abolishment or directly affected because of a reduction-in-force or workforce restructuring plan, including privatization; and
- (3) Whose employment is subject to Act 103, Session Laws of Hawaii 2015.

“Exclusive representative” has the same meaning as defined in section 89-2.

“Public employer” has the same meaning as defined in section 89-2.

“Reduction-in-force” includes layoffs under chapter 89.

§ -2 Voluntary severance benefit. (a) Any employee entitled to reduction-in-force rights under chapter 89 and who receives official notification that the employee’s position is being abolished or who is directly affected by a reduction-in-force or workforce restructuring plan, including privatization, may elect to receive a voluntary severance benefit provided under this section in lieu of exercising any reduction-in-force rights under chapter 89 and in lieu of receiving any special retirement benefit under section -3.

(b) A one-time lump sum cash bonus severance benefit shall be calculated at five per cent of the employee’s base salary for every year of service worked, not to exceed ten years, and shall not exceed fifty per cent of the employee’s annual base salary.

For the purposes of this section, “annual base salary” means an employee’s annual salary for the position from which the employee is to be separated, excluding all other forms of compensation paid or accrued, whether a bonus, allowance, differential, or value of leave or compensatory time off credits. Compensation excluded from base salary includes shortage category differential, night shift differential, overtime, compensatory time off credits, vacation or sick leave credits, and workers’ compensation benefits.

(c) A severance benefit shall be in addition to any payment owing to the employee upon separation from service, including accumulated unused vacation allowances or compensatory time credits.

(d) All severance benefits paid under this section shall be subject to applicable state income tax laws and rules.

(e) A severance benefit provided under this section shall not be considered as a part of a discharged employee’s salary, service credit, or a cost item as defined in section 89-2 when calculating retirement benefits or sick and vacation leave.

§ -3 Special retirement benefit. (a) Notwithstanding section 88-99 or any other law to the contrary, the employees’ retirement system may provide, regardless of whether the actuarial value of the system’s assets is one hundred per cent of the system’s actuarial accrued liability, the benefits authorized under this section. Any employee who receives official notification that the employee’s position is being abolished or who is directly affected by a reduction-in-force or workforce restructuring plan, including privatization, proposed by an agency may elect, if the employee is eligible to receive benefits from the employees’ retirement system and meets any of the criteria specified in subsection (c), the special retirement benefit provided by this section in lieu of exercising any reduction-in-force rights under chapter 89 and in lieu of receiving any severance benefits under section -2. To receive the special retirement benefit offered under this section, the employee shall comply with the application and time frame requirements specified in subsection (b).

(b) Any employee who elects to retire and receive the special retirement benefit under this section shall notify the employee’s employing agency and file

a formal application for retirement with the employees' retirement system not less than thirty days or more than one hundred fifty days prior to the date of retirement.

(c) Notwithstanding the age and length of service requirements of sections 88-73, 88-281, and 88-331, an employee shall qualify for the special retirement benefit if, on the employee's retirement date, the employee meets any one of the following criteria:

- (1) Has at least five years of credited service as a contributory class A or B member and is at least fifty years of age;
- (2) Has at least twenty years of credited service as a contributory class A or B member, irrespective of age;
- (3) Has at least ten years of credited service as a noncontributory class C member and is at least fifty-seven years of age;
- (4) Has at least twenty-five years of credited service as a noncontributory class C member, irrespective of age;
- (5) A class H member who became a member prior to July 1, 2012, has at least five years of credited service and is at least fifty-seven years of age;
- (6) A class H member who became a member prior to July 1, 2012, and has at least twenty-five years of credited service, irrespective of age;
- (7) A class H member who became a member after June 30, 2012, has at least ten years of credited service and is at least sixty years of age; or
- (8) A class H member who became a member after June 30, 2012, has at least twenty-five years of credited service and is at least fifty-five years of age.

(d) Any employee who exercises the option of the special retirement benefit under this section because the employee does not qualify with respect to the age and length of service requirements under section 88-73, 88-281, or 88-331, to receive a retirement benefit without penalty, shall not have the retirement benefit reduced in accordance with the actuarial formula normally used by the employees' retirement system for the calculation of early retirement benefits.

(e) The head of the agency shall transmit a list of employees who elected and received the special retirement benefit to the board of trustees of the employees' retirement system not less than thirty days but not more than one hundred fifty days prior to the employee's retirement date. The head of the agency shall certify that the employees on the list have in fact selected the special retirement benefit in lieu of receiving the severance benefit under section -2 and exercising any reduction-in-force rights under chapter 89.

(f) The board of trustees of the employees' retirement system shall make payments with respect to all eligible employees who retire pursuant to this section. The board shall determine the portion of the additional actuarial present value of benefits to be charged to the State based upon retirements authorized under this section. If necessary, the State shall make additional payments to the employees' retirement system in the amounts required to amortize the additional actuarial present value of benefits over a period of five years. The unfunded actuarial present values of benefits payable under this section shall be considered part of the unfunded accrued liability of the employees' retirement system under sections 88-122 and 88-123.

§ -4 Restrictions. No severance benefit or special retirement benefit under this chapter shall be payable to an employee discharged for lawful disciplinary reasons or for reasons other than a reduction-in-force or workforce restructuring plan.

§ -5 **Reemployment.** Any employee who has received either a severance benefit or a special retirement benefit under this chapter and returns to public service within two years as an employee or contractor shall repay the severance benefit or the special retirement benefit to the State or the employees' retirement system, as the case may be, within thirty days of reemployment with a public employer.

§ -6 **Payments; lapse of unexpended funds.** After payments of all costs associated with the severance benefits and special retirement benefits, the public employer's remaining payroll balances shall not be expended for any purpose and shall be lapsed into the appropriate fund.

§ -7 **Reporting requirements; reduction in personnel counts.** The head of the agency that provided benefits under this chapter shall:

- (1) Transmit a report of every position identified for abolishment and vacated under this chapter to the directors of finance and human resources development, who shall abolish these positions from the appropriate budget and personnel files. The governor shall report this information to the legislature no later than twenty days prior to the convening of each regular session beginning with the regular session of 2017;
- (2) Reduce its personnel count by every position identified for abolishment and vacated under this chapter, whether the former incumbent vacated the position as a result of accepting a severance benefit or special retirement benefit authorized under this chapter or of exercising reduction-in-force rights; and
- (3) Transmit a list that includes each employee who received benefits under this chapter and the benefit received by the employee to the directors of finance and human resources development.

§ -8 **Guidelines; development and administration.** The departments of human resources development and budget and finance shall develop and administer guidelines and time frames with the exclusive representatives of affected public employees to implement the voluntary severance benefits and special retirement benefits under this chapter. The department of human resources development, the department of labor and industrial relations, the employees' retirement system, and the Hawaii employer-union health benefits trust fund shall work cooperatively to ensure that briefings are provided prior to the implementation of any workforce restructuring plan to educate the employees whose positions are being abolished or who are directly affected by a reduction-in-force or workforce restructuring plan.

The department of human resources development and the department of budget and finance shall report to the legislature on any restructuring activities initiated as a consequence of this chapter no later than twenty days prior to the convening of each regular session beginning with the regular session of 2017.

The report shall include a description of the abolished positions, an explanation as to how the new workforce structure, including resulting service delivery changes, will more efficiently serve the needs of the agency's clients, the cost of the benefit per participant, and the total cost to the State.

§ -9 **Matching funds.** The governor may provide funds to obtain matching federal moneys to retrain employees in the state executive branch who separated from service under this chapter.

§ -10 **Review by employee.** Employees offered a severance benefit or a special retirement benefit shall be given sufficient time to make an informed decision from the date of receiving accurate and complete information about the offer.”

PART II

SECTION 3. State contributions; Hawaii health system corporation employees hired after June 30, 1996, and retired. (a) This section shall apply to state contributions to the Hawaii employer-union health benefits trust fund for Hawaii health systems corporation employees hired after June 30, 1996, and who were separated from service as a result of Act 103, Session Laws of Hawaii 2015.

(b) The State, through the department of budget and finance, shall pay to the Hawaii employer-union health benefits trust fund:

- (1) For retired employees based on the self plan with at least nine years but fewer than twelve years of service, a monthly contribution equal to one-half of the base medicare or non-medicare monthly contribution set forth under section 87A-33(b), Hawaii Revised Statutes; provided that retired employees who were hired after June 30, 1996, but before July 1, 2001, with dependent-beneficiaries, as that term is defined in section 87A-1, Hawaii Revised Statutes, shall be eligible for a monthly contribution equal to one-half of the base medicare or non-medicare monthly contribution for two-party or family plans, as applicable, set forth in section 87A-33(b), Hawaii Revised Statutes;
- (2) For retired employees based on the self plan with at least twelve years but fewer than twenty years of service, a monthly contribution equal to seventy-five per cent of the base medicare or non-medicare monthly contribution set forth under section 87A-33(b), Hawaii Revised Statutes; provided that retired employees who were hired after June 30, 1996, but before July 1, 2001, with dependent-beneficiaries, as that term is defined in section 87A-1, Hawaii Revised Statutes, shall be eligible for a monthly contribution equal to seventy-five per cent of the base medicare or non-medicare monthly contribution for two-party or family plans, as applicable, set forth in section 87A-33(b), Hawaii Revised Statutes;
- (3) For retired employees based on the self plan with twenty or more years of service, a monthly contribution equal to one hundred per cent of the base medicare or non-medicare monthly contribution set forth under section 87A-33(b), Hawaii Revised Statutes; provided that retired employees who were hired after June 30, 1996, but before July 1, 2001, with dependent-beneficiaries, as that term is defined in section 87A-1, Hawaii Revised Statutes, shall be eligible for a monthly contribution equal to one hundred per cent of the base medicare or non-medicare monthly contribution for two-party or family plans, as applicable, set forth in section 87A-33(b), Hawaii Revised Statutes; and
- (4) Upon the death of a retired employee hired after June 30, 1996, but before July 1, 2001, for the dependent-beneficiary who becomes eligible as an employee-beneficiary, a monthly contribution equal to paragraphs (1), (2), or (3), as applicable; and upon the death of a retired employee hired after June 30, 2001, for the dependent-beneficiary who becomes eligible as an employee-beneficiary, a

monthly contribution equal to one-half of paragraphs (1), (2), or (3), as applicable.

PART III

SECTION 4. If any provision of this Act, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 5. This Act shall take effect upon its approval, and shall apply to employees of the Hawaii health systems corporation who are separated from service as a consequence of Act 103, Session Laws of Hawaii 2015.
