**TESTIMONY IN OPPOSITION TO SPECIAL SESSION
AND SAME SEX MARRIAGE BILL**

As a concerned citizen, I am submitting testimony against this special session and the bill that would legalize same sex marriage. I oppose the special session because it rushes the legislative process and does not give we, the people, sufficient input into the process. The fact that there can be no amendments to the bill essentially negates any concerns raised in testimony or by you, the Legislature.

I oppose this bill because the alleged religious protection clauses are subordinated to the Public Accommodations Act, essentially negating them for most churches. Finally, since we voted a constitutional amendment in 1998 giving the legislature the power to limit marriage between opposite sex couples, the only legitimate way to change this is to let we, the people, decide. Please do not circumvent the democratic process!

Thank you for the opportunity to testify against this special session and against this bill.

As a concerned citizen, I am submitting testimony against this special session and the bill that would legalize same sex marriage. I oppose the special session because it rushes the legislative process and does not give we, the people, sufficient input into the process. The fact that there can be no amendments to the bill essentially negates any concerns raised in testimony or by you, the Legislature.

I oppose this bill because the alleged religious protection clauses are subordinated to the Public Accommodations Act, essentially negating them for most churches. Finally, since we voted a constitutional amendment in 1998 giving the legislature the power to limit marriage between opposite sex couples, the only legitimate way to change this is to let we, the people, decide. Please do not circumvent the democratic process!

Thank you for the opportunity to testify against this special session and against this bill.

AND SAME SEX MARRIAGE BILL**

As a concerned citizen, I am submitting testimony against this special session and the bill that would legalize same sex marriage. I oppose the special session because it rushes the legislative process and does not give we, the people, sufficient input into the process. The fact that there can be no amendments to the bill essentially negates any concerns raised in testimony or by you, the Legislature.

I oppose this bill because the alleged religious protection clauses are subordinated to the Public Accommodations Act, essentially negating them for most churches. Finally, since we voted a constitutional amendment in 1998 giving the legislature the power to limit marriage between opposite sex couples, the only legitimate way to change this is to let we, the people, decide. Please do not circumvent the democratic process!

Thank you for the opportunity to testify against this special session and against this bill.

Subject: Strong Support SB 1 - Good for Technology Business and Hawaii Families

To the Members of the Judiciary and Finance Committee,

Thank you for the opportunity to provide testimony. As the owner of a Hawaii based technology company I strongly support SB1. For technology businesses this bill reduces taxes, eases administrative burden, and enhances my ability to hire.

- **Tax Reduction** – Benefits paid to Civil Union partners are taxable compensation. The bill will allow me to reduce Federal Income taxes paid on these benefits as they can be supplied tax free.
- **Ease Administrative Burden** – I currently have to manage benefits for employees, spouses, dependents, Civil Union partners, and the dependents of the civil union partners. Applying these benefits as both taxable and non-taxable compensation is a nightmare.
- **Enhancing the Workforce** – I employ people locally, on the west coast, and internationally. A high technology workforce is very mobile and distributed with many options for choosing a place to live. Openly discriminating against same sex families cripples my ability to hire from places that provide a more welcoming environment to their citizens. It discourages many information technology people from wanting to work in a place where their fellow employees are not treated fairly.

On a personal level an important federal benefit granted by this legislation are the opportunities provided for non-citizen spouses.

I met my partner Jason Alcock in November 2002 while on vacation in Sydney. We met through mutual friends at a party thrown to welcome the out-of-town visitors. Our relationship blossomed, I was lucky that as a technology employee I had flexibility to work remotely and build a long distance relationship. After two extended passports, packed with 11 years of stamps, Jason is currently living in Hawaii as the Director of the Louis Vuitton Store at Ala Moana.

We had signed up as reciprocal beneficiaries and augmented it by completing our estate planning. We did not take advantage of entering into a Civil Union as it lacked a critical legal component; the ability for me to bring Jason into the US as my spouse.

Jason's employer has sponsored his US work visa. If anything happened with Jason's employment he would need to return to Australia. We had to create "Plan B" for leaving Hawaii in case he could not stay permanently. I am in the process of obtaining permanent residency in Australia. Australia will grant me this immigration status based on our de facto marriage.

The recent DOMA decision eliminates the need for "Plan B". Jason and I will marry in the US soon. As part of a family spanning five generations in Hawaii I would love to have our wedding here. Marriage will allow us to ensure that Jason can choose to remain in Hawaii regardless of his employment status.

The tragedy of failing to pass this legislation is that we will be forced to fly to California to seek legal refuge for benefits our home State of Hawaii is denying.

Why should the State of Hawaii place this additional burden on members of our island community?

This legislation is good for business and allows families to stay in Hawaii. I urge passage of this bill.

Mahalo,

I oppose the special session because it rushes the legislative process and does not give we, the people, sufficient input into the process. The fact that there can be no amendments to the bill essentially negates any concerns raised in testimony or by you, the Legislature.

I oppose this bill because the alleged religious protection clauses are subordinated to the Public Accommodations Act, essentially negating them for most churches. Finally, since we voted a constitutional amendment in 1998 giving the legislature the power to limit marriage between opposite sex couples, the only legitimate way to change this is to let we, the people, decide. Please do not circumvent the democratic process!

Thank you for the opportunity to testify against this special session and against this bill.

**TESTIMONY IN OPPOSITION TO SPECIAL SESSION
AND SAME SEX MARRIAGE BILL**

As a concerned citizen, I am submitting testimony against this special session and the bill that would legalize same sex marriage. I oppose the special session because it rushes the legislative process and does not give we, the people, sufficient input into the process. The fact that there can be no amendments to the bill essentially negates any concerns raised in testimony or by you, the Legislature.

I oppose this bill because the alleged religious protection clauses are subordinated to the Public Accommodations Act, essentially negating them for most churches. Finally, since we voted a constitutional amendment in 1998 giving the legislature the power to limit marriage between opposite sex couples, the only legitimate way to change this is to let we, the people, decide. Please do not circumvent the democratic process!

Thank you for the opportunity to testify against this special session and against this bill.
